Section 16(a) Beneficial Ownership Reporting Compliance

The Company's directors and executive officers, and persons who own beneficially more than 10% of the Company's common stock, are required under Section 16(a) of the Securities Exchange Act of 1934 to file reports of beneficial ownership and changes in beneficial ownership of the Company's common stock with the SEC and the New York Stock Exchange. Based solely on a review of the copies of reports furnished to the Company and written representations that no other reports were required, the Company believes that all filing requirements were complied with during 2003.

EXECUTIVE COMPENSATION

Compensation Committee Report on Executive Compensation

The Board of Directors of the Company has a standing Compensation Committee whose functions are to (1) determine the salaries of executive officers of the Company, (2) administer the Company's annual incentive bonus program, (3) administer all of the Company's stock option and incentive compensation plans and grant stock options and other awards under the plans (except those plans under which grants of options are automatic) and (4) review and make recommendations to the Board of Directors with respect to any other forms of compensation for officers and key employees of the Company. The Compensation Committee held four meetings in 2003. In 2003, the Board of Directors did not reject or modify in any material way any action or recommendation of the Compensation Committee. The Compensation Committee is composed of four members, all of whom are independent directors, Non-Employee Directors and outside directors as those terms are defined in relevant New York Stock Exchange standards and federal securities and tax regulations.

Compensation of executive officers is based primarily on three elements: (1) base salary, (2) annual incentives, such as bonuses, and (3) long-term incentives, including stock options, restricted stock and performance awards. The basic goal is to pay compensation comparable to similar corporations, giving due regard to relative financial performance, and to tie annual incentives and long-term incentives to corporate performance and a return to the Company's stockholders.

With regard to the annual cash incentives for an executive officer, exclusive of base salary, the Compensation Committee attempts to set bonuses at a level such that, with a positive performance by the executive officer, and a certain level of profitability by the Company, the total compensation for such executive officer, including base salary and annual cash incentives, should be above the median total cash compensation for similar corporations and positions. The Compensation Committee believes that total annual cash compensation above the median for similar corporations and positions is appropriate since a significant portion of each executive officer's total annual cash compensation is at risk due to both individual and Company performance factors.

Annual incentive bonuses paid to the Company's executive officers in 2003 related to 2002 performance. Effective for bonuses earned during the 1999 fiscal year, the Board of Directors of the Company adopted a new incentive compensation program based on the creation of economic value (EV) in each of the Company's three business groups inland marine transportation, diesel engine services and offshore marine transportation and for the Company as a whole. Performance under the program is measured on a calendar year basis. The primary component of the program for executive officers and other management level employees is a Business Performance Bonus.

The Company establishes its key business objectives at the beginning of the year. The primary performance benchmark used from 1999 through 2002 was EV, a financial measure of performance calculated to determine whether the Company is generating returns above the rate expected by debt holders and equity holders, a blended rate called the cost of capital for the Company.

For the Business Performance Bonus, EV objectives were established for the Company and for each of its business groups. A target bonus and a maximum bonus which would be earned if the EV objective was achieved or exceeded were established for each eligible employee. The bonus was formula based and varied from 0% to 125% of the target bonus, depending on the EV added for the year in the Company or in the employee's business group, as applicable. Bonuses for employees of the Company itself (a holding company which conducts operations through its subsidiaries) are based entirely on the performance of the Company as a whole. Bonuses for the heads of the Company's business groups are based 50% on the performance of the business group and 50% on overall Company performance. Bonuses for all other employees in a business group are based 70% on the performance of the business group and 30% on Company performance.

Effective for bonuses earned during 2003, the Board of Directors modified the incentive compensation program (1) to use a combination of three performance measures to replace EV net operating cash flow,

return on total capital and earnings per share, (2) to provide for the allocation of 25% of the bonus pool based on a discretionary assessment of individual performances for the year and (3) to modify the range of possible awards, with no bonus earned unless at least 80% of the target performance is achieved and a maximum possible award of 200% of the target bonus if 120% of the target performance is achieved. In connection with the changes to the incentive bonus plan, in 2003 the Compensation Committee also adjusted the bonus payments made to all participating employees for 2002 performance from approximately 20% to 50% of the target awards. The Committee considered that the additional bonus payments were justified by the Company's earnings, by the completion of four strategic acquisitions, by continued improvement in operating efficiencies and by the Committee's conclusion that net operating cash flow, return on total capital and earnings per share were better performance measures for the incentive bonus plan than EV.

Stock options granted to executive officers and other Company employees have been granted at a price equal to the fair market value of the common stock on the date of grant and, except for the Premium Stock Options granted on November 5, 1996 and February 15, 1999 (the Premium Stock Options), generally vest in equal increments over a period of either three or four years and, unless earlier terminated, are for a period of either five or ten years. The Premium Stock Options, which cover 510,000 of the shares subject to unexercisable options shown in the table under Aggregated Option Exercises in 2003 and 2003 Year-End Option Values on page 16, may only be exercised on or after November 5, 2005 and on or before November 5, 2006.

The Compensation Committee's objective for long-term incentive compensation for executive officers is to fall between the 50th and 75th percentiles in long-term incentive compensation of similar corporations and positions, giving effect to the Company's long-term performance relative to its peers.

In addition to retirement, health care and similar benefits, the primary long-term incentives for executive officers are options under the Company's stock option plans. Generally, stock option awards are made by the Compensation Committee in January of each year. The Compensation Committee believes that the Company's long-term executive officer compensation, as evidenced by the options granted to date, does not exceed the value of stock options granted by similar companies to their executive officers holding similar positions.

In 2002, the Board of Directors of the Company instituted a long-term incentive compensation program for selected senior executives, to be administered by the Compensation Committee. The program allows the grant of incentive stock options, nonincentive stock options, restricted stock, performance shares and performance units (or any combination thereof). The objective of the program is to provide long-term incentive compensation to the specified executives in an amount that falls between the 50th and 75th percentiles when compared to companies or business units of comparable size. The new program addresses the concern of the Compensation Committee and the Board about using stock options as the sole form of long-term incentive compensation for senior executives and reflects their conclusion that it is appropriate for the ultimate value of a long-term incentive compensation package to be based in part on other indicators of the Company's performance besides stock price. Under the newly adopted program, the elements of long-term compensation to be awarded, as well as the executives selected to participate, will be determined each year by the Compensation Committee.

For 2003, the Compensation Committee determined that the executives who would receive awards under the long-term incentive compensation program would be Joseph H. Pyne, President and Chief Executive Officer, Norman W. Nolen, Executive Vice President and Chief Financial Officer, Steven P. Valerius, President of Kirby Inland Marine, LP, and Dorman L. Strahan, President of Kirby Engine Systems, Inc., and that 40% of the target value of the awards would be in the form of stock options, 20% in the form of restricted stock and 40% in the form of performance units tied to the achievement of net operating cash flow, return on total capital and earnings per share objectives. The options vest over a three-year period and the restricted stock vests over a five-year period. The amount and form of the awards were based in part on survey information and recommendations provided by an independent consultant to the Compensation Committee. The actual awards made to the four participants during 2003 are included in the compensation tables presented elsewhere in this Proxy Statement.

The Compensation Committee encounters certain difficulties in establishing a peer group of companies for compensation comparison purposes because there are few publicly traded marine transportation companies of similar size and none with a similar service mix. Some other marine transportation companies are limited partnerships or subsidiaries of larger public corporations, again making comparisons difficult. The Compensation Committee also compares the Company's executive compensation to the executive compensation of publicly held industrial companies.

On October 18, 1994, on the recommendation of the Compensation Committee, the Board of Directors adopted an unfunded, nonqualified Deferred Compensation Plan for Key Employees effective January 1, 1992, which was designed primarily to provide additional benefits to eligible employees to restore benefits to which they would be entitled under the Company's Profit Sharing Plan and 401(k) Plan were it not for certain limits imposed by the Internal Revenue Code. The plan is designed to restore benefits for employees being compensated in excess of \$205,000 per annum.

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation over \$1 million paid to the Chief Executive Officer and the four other most highly compensated executive officers. Certain performance-based compensation, however, is specifically exempt from the deduction limit. The Compensation Committee did take the steps necessary to qualify the Premium Stock Options awarded to executive officers for deductibility under Section 162(m) of the Internal Revenue Code. The Compensation Committee considers the net cost to the Company in making all compensation decisions.

On the recommendation of the Compensation Committee, the 2003 base salary for Joseph H. Pyne, the Company's Chief Executive Officer, was established at \$530,000 by the Company's Board of Directors effective January 1, 2003. The Chief Executive Officer's base salary was generally based on the same factors and criteria outlined above, which include compensation paid to chief executives of corporations of similar size, individual as well as corporate performance and a general correlation with compensation of other executive officers of the Company. The \$485,109 bonus paid to Mr. Pyne in 2004, which was earned in 2003, was determined under the incentive compensation program described above.

In 2003, the Compensation Committee granted nonqualified stock options covering 175,214 shares of common stock to persons considered executive officers of the Company. The Compensation Committee generally has granted stock options based on its belief that stock options are a key element in the Company's executive compensation policy. The Compensation Committee grants stock options to executive officers based on its evaluation of individual performance and the Company's overall performance. The Compensation Committee recognizes that there is a significant subjective element in this procedure, but believes that such procedure is better suited to the Company than would be a formula-driven policy. Total options outstanding at the end of 2003 covered 1,576,895 shares, excluding the Premium Stock Options, constituting 6.5% of the then outstanding common stock of the Company, and 654,000 shares in the Premium Stock Option program, constituting 2.7% of the then outstanding common stock of the Company, assuming all such options were fully exercised. The Compensation Committee believes that options in that amount are justified and are within the range of options granted by similar corporations that consider stock options an important part of their executive compensation package and that the options held by the Chief Executive Officer are an appropriate portion of the total options. In 2003, the Compensation Committee also granted to the four executive officers named above a total of 33,928 shares of restricted stock and the performance units shown in the table under "Long-Term Incentive Plan Awards Granted in 2003" on page 17.

- (1) Represents the value of the restricted stock on the date of grant. At December 31, 2003, the value of the restricted stock owned by each of the named executive officers was \$1,013,124 for Mr. Pyne (29,046 shares), \$345,626 for Mr. Valerius (9,909 shares), \$323,652 for Mr. Nolen (9,279 shares) and \$92,711 for Mr. Strahan (2,658 shares). The restricted stock awards were granted on February 7, 2002 and January 27, 2003 and vest over a period of five years, beginning on the first anniversary of the date of grant, subject to continued employment. In the event a change of control occurs, all restricted stock grants become fully vested. The Company does not have an established dividend policy. Should the Board declare a dividend after the restricted stock has been awarded, restricted stock owners shall receive dividends on the shares of restricted stock that have not been forfeited.
- (2) Represents the aggregate value of the Company's contributions under the Company's Profit Sharing Plan, 401(k) Plan and Deferred Compensation Plan for Key Employees. The Company's contributions under these deferred compensation plans for the 2003 year have not been determined as of the date of this Proxy Statement, except for the Company's matching contributions under the Company's 401(k) Plan, pursuant to which matching contributions to the individual accounts were as follows: \$6,000 each to Mr. Pyne, Mr. Lawrence, Mr. Valerius and Mr. Nolen, and \$5,355 to Mr. Strahan.

Stock Options Granted, Option Exercises and Year End Value

The following table includes information on grants of stock options during 2003 to the five named executive officers. The amounts shown for the named executive officers as potential realizable value for such options are based on assumed annual rates of stock price appreciation of 0%, 5% and 10% over the full five-year terms of the options granted. The amounts shown as potential realizable value for all stockholders as a group represent the corresponding increases in the market value of 24,316,773 outstanding shares of common stock held by all stockholders as of December 31, 2003. No gain to the optionees is possible without an increase in the stock price that would benefit all stockholders proportionately. The potential realizable values are based solely on arbitrarily assumed rates of appreciation required by applicable SEC regulations. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock and overall market conditions. There can be no assurance that the amounts reflected in this table will be achieved.

Stock Options Granted in 2003

Name	Individual Grants				Potential Realized Value at Assumed Annual Rates of Stock Price Appreciation for Option Term(3)		
	Options Granted(1)	% of Total Options Granted to Employees In 2003	Exercise or Base Price	Expiration Date	0% Annual Growth Rate(2)	5% Annual Growth Rate(2)	10% Annual Growth Rate(2)
C. Berdon Lawrence	55,000	14.09%	\$ 25.55	01/27/08	\$ 0	\$ 388,245	\$ 857,918
Norman W. Nolen	16,630	4.26%	25.55	01/27/08	0	117,391	259,403
Joseph H. Pyne	52,063	13.34%	25.55	01/27/08	0	367,513	812,105

All stockholders as a group	N/A	N/A	34.88(4)	N/A	0	234,333,446(4)	517,815,954(4)

- (1) These options become exercisable 33% after one year, 67% after two years, and 100% after three years from the date of grant. The exercise price for the options may be paid with already owned shares of common stock. No stock appreciation rights were granted with the stock options.
- (2) For stock options, the value is based on the exercise price per share of common stock, which was the average of the high and low sales price per share of common stock on the NYSE on the date of grant.
- (3) Potential realizable value amounts for the named executive officers have been calculated by multiplying the exercise price by the annual appreciation rate shown (compounded for the five-year term of the options), subtracting the exercise price per share and multiplying the gain per share by the number of shares covered by the option. The derived potential realized value is the nominal undiscounted future value not adjusted for inflation.
- (4) For stockholders as a group, the potential realized value reflects the appreciation over \$34.88 per share of common stock, which was the closing price per share of common stock on December 31, 2003, for 24,316,773 outstanding shares of common stock as of December 31, 2003.

Long-Term Incentive Plan Awards Granted in 2003

The following table summarizes long-term incentive compensation in the form of performance awards made in 2003 to each of the named executive officers:

Name	Number of Shares, Units or Other Rights	Performance or Other Period Until Maturation or Payout	Threshold(1)	Target	Maximum

The long-term performance awards made to the named executive officers in 2003 were based on achievement on a cumulative basis over a three-year performance period of the Company's net operating cash flow, return on total capital and earnings per share targets established under the Company's annual incentive bonus plan.

Compensation Agreements

Kirby Inland Marine, LP has a Deferred Compensation Agreement with Mr. Pyne in connection with his previous employment as its President. The agreement provides for benefits to Mr. Pyne totaling \$4,175 per month commencing upon the later of his severance from the employment of the Company, or his 65th birthday and continuing until the month of his death. If Mr. Pyne should die prior to receiving such deferred compensation, the agreement provides for monthly payments to his beneficiary for a period of sixty months. The agreement also provides that no benefits will be paid if Mr. Pyne is terminated for cause (as defined in the agreement).

The Company has an unfunded, nonqualified Deferred Compensation Plan for Key Employees which was adopted in October 1994, effective January 1, 1992. The Plan is designed primarily to provide additional benefits to eligible employees to restore benefits to which they would be entitled under the Company's Profit Sharing Plan and 401(k) Plan were it not for certain limits imposed by the Internal Revenue Code. The benefits under the Deferred Compensation Plan are designed to restore benefits for employees being compensated in excess of a certain level (\$205,000 per year under current rules). The following table discloses for the named executive officers the amount of contributions to the Deferred Compensation Plan for 2001 and 2002. Contributions for the 2003 year have not been determined as of the date of this Proxy Statement.

**APPROVAL OF AMENDMENTS TO THE COMPANY'S NONEMPLOYEE DIRECTOR
COMPENSATION PROGRAM AND 2000 NONEMPLOYEE DIRECTOR
STOCK OPTION PLAN (ITEM 2)**

Stockholders are being asked to consider and approve a proposal to amend the Company's Nonemployee Director Compensation Program (the "Compensation Program"), including the 2000 Nonemployee Director Stock Option Plan (the "2000 Plan"), to allow directors who are not employees of the Company or a subsidiary of the Company to elect to receive restricted stock in lieu of all or part of certain director fees that are otherwise payable in cash. The Compensation Program currently in effect provides for a \$20,000 annual fee to nonemployee directors and the Compensation Program and the 2000 Plan currently in effect allow directors to elect to take the fee in the form of stock options instead of cash. On January 27, 2004, the Board of Directors amended the Compensation Program and the 2000 Plan to allow directors to elect to take the \$20,000 annual fee in the form of restricted stock instead of cash or stock options, subject to approval of the amendments by the stockholders of the Company. Only the amendments require stockholder approval. If the amendments are not approved by the Company's stockholders, the Compensation Program and the 2000 Plan will remain in place in their current form without the proposed amendments. The proposed amendments will not increase the number of shares of common stock of the Company that may be issued under the Compensation Program and the 2000 Plan.

Material Features of the Compensation Program

The material features of the Compensation Program, as it is proposed to be amended, are discussed below. The discussion is subject to, and qualified in its entirety by, the full text of the Compensation Program attached as *Exhibit C-1* to this Proxy Statement. The only material amendment proposed to the current Compensation Program is the availability of restricted stock in lieu of certain cash director fees.

Purpose of Compensation Program

The purpose of the Compensation Program is to compensate nonemployee directors fairly for the time and effort they devote to the Company's business and thereby enable the Company to attract and retain qualified directors. Stock options are an element of the Compensation Program that encourages stock ownership in the Company by nonemployee directors and restricted stock will provide added flexibility in the equity compensation component of the Compensation Program.

Eligibility

The Compensation Program applies only to directors of the Company who are not employees of the Company or any of its subsidiaries.

Annual Director Fee

Each nonemployee director receives an annual fee of \$20,000, payable in four equal quarterly payments, unless the director elects to receive stock options or restricted stock. Each director may elect to receive stock options or restricted stock in lieu of cash for the \$20,000 annual director fee. Options or restricted stock issued to a director in lieu of the annual director fee otherwise payable in cash under the Compensation Program will be granted under the 2000 Plan as described under the heading "Material Features of the 2000 Plan - Granting of Options" and "Material Features of the 2000 Plan - Granting of Restricted Stock" below.

Committee Chairman and Presiding Director Fees

The Chairmen of the Company's Audit Committee, Compensation Committee and Governance Committee each receives an annual fee of \$10,000, payable in four equal quarterly payments. The director selected to be the presiding director at executive sessions of non-management directors receives an annual fee of \$5,000, payable in four equal quarterly payments. The quarterly payments of the committee chairman and presiding director fees are contingent on a director's continuing to serve in such capacity.

Meeting Fees

Each nonemployee director receives a fee of \$1,000 for each board meeting attended in person or by telephone. Each member of a committee of the Board of Directors receives a fee of \$3,000 for each committee meeting attended in person or by telephone.

Amendments

The Compensation Program may be amended, modified or terminated by the Board of Directors at any time.

Material Features of the 2000 Plan

The material features of the 2000 Plan, as it is proposed to be amended, are discussed below. The discussion is subject to, and qualified in its entirety by, the full text of the 2000 Plan attached as *Exhibit C-2* to this Proxy Statement. The only material amendment proposed to the current 2000 Plan is the availability of restricted stock in lieu of certain cash director fees.

Purpose of 2000 Plan

The purpose of the 2000 Plan is to advance the interests of the Company by providing an incentive to attract and retain qualified directors for the Company through the encouragement of stock ownership in the Company through the granting of stock options or restricted stock.

Eligibility

Directors of the Company who are not employees of the Company or its subsidiaries are eligible to participate in the 2000 Plan.

Types of Awards

The 2000 Plan authorizes the granting of nonincentive stock options (Options) to purchase common stock of the Company to nonemployee directors of the Company. The proposed amendment to the 2000 Plan will also authorize eligible directors to elect to receive awards of restricted stock (Restricted Stock), which is common stock of the Company that is subject to forfeiture until it becomes vested.

Administration

The 2000 Plan is administered by the Compensation Committee. The Compensation Committee has the authority to interpret and adopt rules and regulations for carrying out the 2000 Plan. All decisions and acts of the Compensation Committee are final and binding on all participants under the 2000 Plan. If there is no Compensation Committee, the Board of Directors will administer the 2000 Plan.

Shares of Common Stock Subject to the 2000 Plan

A total of 300,000 shares of common stock (subject to adjustment as discussed below) may be issued under the 2000 Plan.

Granting of Options

Under the 2000 Plan, nonemployee directors automatically receive:

an Option for 5,000 shares of the Company's common stock on the date of the director's first election as a director, and

an Option for 3,000 shares of the Company's common stock immediately after each annual meeting of stockholders of the Company.

The Compensation Plan permits nonemployee directors to elect to receive Options in lieu of all or part of the \$20,000 annual director fee otherwise payable in cash. Each eligible director who makes such an election shall automatically be granted an Option for a number of shares of the Company's common stock equal to:

the amount of the fee the eligible director elects to receive in the form of an Option, divided by

the fair market value of a share of the Company's common stock on the date of grant, multiplied by

3, with the result rounded to the nearest whole share of common stock.

Option Price

The option price per share of Options granted under the 2000 Plan is the fair market value of the common stock on the date of grant.

Payment of Exercise Price

Unless further limited by the Compensation Committee, the option price of an Option shall be paid solely in cash, by certified or cashier's check, by money order, by personal check or by delivery of shares of common stock owned by the optionee for at least six months, or by a combination of the foregoing. If the exercise price

is paid in whole or in part with shares of common stock, the value of the shares surrendered shall be their fair market value on the date received by the Company.

Restrictions on Transfer of Options

No Option granted under the 2000 Plan is transferable other than by will or by the laws of descent and distribution. During the lifetime of an eligible director, each Option will be exercisable only by the director or the guardian or legal representative of the director.

Exercisability of Options

Options granted to an eligible director automatically upon the director's first election as a director are exercisable on or after the date of grant. Options granted to an eligible director after an annual meeting of stockholders are exercisable six months after the date of grant.

Options granted to an eligible director in lieu of director fees otherwise payable in cash become exercisable on the last day of each calendar quarter after the date of grant (each, a Payment Date) in the number of shares equal to (a) the total number of shares subject to the Option divided by (b) the number of Payment Dates occurring after the date of grant and before the first anniversary of the most recent annual meeting of stockholders.

In the event of a Change in Control (as defined in the 2000 Plan), all Options outstanding at the time of the Change in Control will become immediately exercisable. In the event of a merger, consolidation or other reorganization of the Company in which the Company is not the surviving entity, the Board of Directors or the Compensation Committee may provide for any or all of the following:

- for Options to become immediately exercisable;
- for exercisable Options to be cancelled immediately prior to the transaction;
- for the assumption by the surviving entity of the 2000 Plan and the Options; or
- for payment in cash or stock in lieu of and in complete satisfaction of Options.

Granting of Restricted Stock

The Compensation Plan permits nonemployee directors to receive Restricted Stock in lieu of all or part of the \$20,000 annual director fee otherwise payable in cash. Each eligible director who has made such an election shall automatically be granted a number of shares of Restricted Stock equal to:

- the amount of the fee the eligible director elects to receive in the form of Restricted Stock, divided by
- the fair market value of a share of the Company's common stock on the date of grant,
- multiplied by 1.2, with the result rounded to the nearest whole share of common stock.

Restrictions on Transfer of Restricted Stock

A participant may not sell, transfer, assign or pledge shares of Restricted Stock until the shares have vested. Stock certificates representing the Restricted Stock shall either be held by the Company or delivered to the participant bearing a legend to restrict transfer of the certificate until the Restricted Stock has vested. At the time the Restricted Stock vests, a certificate for the vested shares will be delivered to the participant free of transfer restrictions.

Vesting of Restricted Stock

The number of shares of Restricted Stock that vest on each Payment Date is equal to (a) the number of shares granted divided by (b) the number of Payment Dates occurring after the date of grant and before the first anniversary of the most recent annual meeting of stockholders. In the event of a Change in Control (as defined in the 2000 Plan), all shares of Restricted Stock will immediately vest. The Compensation Committee

may in its discretion at any time accelerate vesting of Restricted Stock or otherwise waive or amend any conditions of a grant of Restricted Stock under the 2000 Plan.

Adjustments

In the event of an increase or decrease in the number of outstanding shares of common stock of the Company as a result of a stock dividend, recapitalization or stock split, combination or exchange of shares, the Compensation Committee shall make appropriate adjustments in the number and kind of shares subject to being granted under the 2000 Plan so that the same proportion of the Company's issued and outstanding shares shall continue to be subject to issuance under the 2000 Plan upon the exercise of Options or as Restricted Stock.

Amendments

The Board of Directors may amend or modify the 2000 Plan in any respect at any time (subject to stockholder approval when required by applicable law or NYSE rules).

New Plan Benefits

There are currently seven nonemployee directors of the Company, two of whom are nominees for re-election at the 2004 Annual Meeting of Stockholders. Immediately following the Annual Meeting, all nonemployee directors will receive an automatic grant of an Option for 3,000 shares of common stock as explained above. It is not determinable how many additional Options or, if the proposed amendments to the Compensation Program and the 2000 Plan are approved by stockholders, how many shares of Restricted Stock will be issued to the nonemployee directors since that will depend on the elections they make after the 2004 Annual Meeting of Stockholders with respect to the \$20,000 annual director fee. If the proposed amendments are not approved by stockholders, no Restricted Stock will be issued to the nonemployee directors. Nonemployee directors as a group currently hold Options previously granted under the Compensation Program and the 2000 Plan for 119,213 shares of common stock at a weighted average exercise price of \$24.78 per share.

Federal Income Tax Consequences

Grants of Options and Restricted Stock

Under current tax laws, neither the grant of an Option nor the grant of Restricted Stock is a taxable event to the recipient and the Company is not entitled to a deduction.

Exercise of Options

Upon the exercise of an Option, an optionee will recognize ordinary income at the time of exercise equal to the excess of the then fair market value of the shares of common stock received over the exercise price.

Vesting of Restricted Stock

On the date shares of Restricted Stock vest, the holder will recognize ordinary income in an amount equal to the fair market value of such shares. A holder of Restricted Stock may also make an election under Section 83(b) of the Internal Revenue Code to recognize ordinary income in an amount equal to the fair market value of the shares (determined without regard to the vesting) on the date of grant.

Character of the Ordinary Income and the Company's Deduction

The ordinary income recognized by an eligible director as described above is compensation paid by the Company to an independent contractor and thus is not subject to withholding or employment taxes. The Company will be entitled to a business expense (compensation) deduction in the same amount as the ordinary income recognized by an eligible director.

Sale of Stock Acquired Through the Exercise of an Option, or Vesting of Restricted Stock.

When the common stock received upon the exercise of an Option or the vesting of Restricted Stock subsequently is sold or exchanged in a taxable transaction, the holder generally will recognize capital gain (or loss) equal to the difference between (x) the sum of (i) the exercise price (in the case of an Option) of the shares sold plus (ii) the ordinary income recognized with respect to the shares sold, over (y) the sale price of the shares sold. Such gain (or loss) will be a capital gain (or loss) and will be long-term or short-term depending on how long the shares have been held after the date the Option was exercised or the Restricted Shares vested. Special tax rules will apply if shares sold were Restricted Shares subject to an election under Section 83(b) of the Internal Revenue Code or if the option price for shares acquired by exercise of an Option was paid with previously owned shares.

Vote Required for Approval

Assuming the presence of a quorum, the proposal to approve the amendments to the Compensation Program and the 2000 Plan adopted by the Board of Directors of the Company requires the approval by the holders of a majority of the shares of common stock represented and voting in person or by proxy at the 2004 Annual Meeting of Stockholders. Proxies will be voted for or against such proposal in accordance with specifications marked thereon, and, if no specification is made, will be voted in favor of such proposal. If the amendments to the Compensation Program and the 2000 Plan are not approved by the stockholders, both the Compensation Program and the 2000 Plan will continue in their current forms until otherwise amended or terminated in accordance with their terms.

The Board of Directors of the Company unanimously recommends a vote **FOR** the proposal to approve the amendments to the Compensation Program and the 2000 Plan.

OTHER BUSINESS (ITEM 3)

The Board of Directors knows of no other business to be brought before the Annual Meeting. However, if any other matters are properly presented, it is the intention of the persons named in the accompanying proxy to take such action as in their judgment is in the best interest of the Company and its stockholders.
