**Table of Contents****Trinity Industries, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited)****Note 1. Summary of Significant Accounting Policies****Basis of Presentation**

The foregoing consolidated financial statements are unaudited and have been prepared from the books and records of Trinity Industries, Inc. and subsidiaries ( Trinity , Company , we or our ). In our opinion, all normal and recurring adjustments necessary for a fair presentation of the financial position of the Company as of June 30, 2008, the results of operations for the three and six month periods ended June 30, 2008 and 2007, and cash flows for the six month periods ended June 30, 2008 and 2007 have been made in conformity with generally accepted accounting principles. Because of seasonal and other factors, the results of operations for the six month period ended June 30, 2008 may not be indicative of expected results of operations for the year ending December 31, 2008. These interim financial statements and notes are condensed as permitted by the instructions to Form 10-Q and should be read in conjunction with the audited consolidated financial statements of the Company included in its Form 10-K for the year ended December 31, 2007.

**Stockholders Equity**

On December 13, 2007, the Company s Board of Directors authorized a \$200 million stock repurchase program of its common stock. This program allows for the repurchase of the Company s common stock through December 31, 2009. During the six months ended June 30, 2008, 471,100 shares were repurchased under this program at a cost of approximately \$12.2 million. No shares were purchased under this program for the three months ended June 30, 2008. Since the inception of this program through June 30, 2008, a total of 575,300 shares had been repurchased at a cost of approximately \$15.1 million.

**Fair Value Accounting**

In September 2007, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standard ( SFAS ) No. 157, *Fair Value Measurements* ( SFAS 157 ). SFAS 157 introduces a framework for measuring fair value and expands required disclosure about fair value measurements of assets and liabilities. SFAS 157 for financial assets and liabilities is effective for fiscal years beginning after November 15, 2007. The Company adopted this standard as of January 1, 2008 and the impact of the adoption was not significant.

SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market to that asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. SFAS 157 describes three levels of inputs that may be used to measure fair values which are listed below.

Level 1 This level is defined as quoted prices in active markets for identical assets or liabilities. The Company s cash equivalents and restricted assets, other than cash, are United States Treasury instruments.

Level 2 This level is defined as observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company s fuel derivative instruments, which are commodity options, are valued using energy and commodity market data. Interest rate hedges are valued at exit prices obtained from each counterparty.

Level 3 This level is defined as unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

**Table of Contents**

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	Fair Value Measurement as of June 30, 2008			
	(in millions)			
	Level 1	Level 2	Level 3	Total
Assets:				
Cash equivalents	\$ 167.3	\$	\$	\$ 167.3
Fuel derivative instruments (1)		9.3		9.3
Interest rate hedges (1)		4.8		4.8
Restricted assets (1)	125.5			125.5
Total assets	\$ 292.8	\$ 14.1	\$	\$ 306.9

## Liabilities: (2)

- (1) Fuel derivative instruments, interest rate hedges, and restricted assets are included in Other assets on the Consolidated Balance Sheet.
- (2) There are no balances related to fair value measurements included in liabilities on the Consolidated Balance Sheet as of June 30, 2008.

**Recent Accounting Pronouncements**

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations*, and SFAS No. 160, *Accounting and Reporting Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51*. These new standards significantly change the accounting for and reporting of business combination transactions and noncontrolling interests (previously referred to as minority interests) in consolidated financial statements. Both standards are effective for fiscal years beginning after December 15, 2008 and are applicable only to transactions occurring after the effective date.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* ( SFAS 161 ). SFAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedge items are accounted for under

Statement 133, *Accounting for Derivative Instruments and Hedging Activities* ( SFAS 133 ), and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows.

SFAS 161 is intended to enhance the current disclosure framework in SFAS 133 and requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk related contingent features in derivative agreements.

The provisions of SFAS 161 are effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The provisions of SFAS 161 need not be applied to immaterial items. We are currently evaluating the potential impact of the provisions of SFAS 161.

In May 2008, the FASB issued FASB Staff Position No. APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (including Partial Cash Settlement)* ( APB 14-1 ). APB 14-1 requires that issuers of certain convertible debt instruments that may be settled in cash upon conversion to separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods.

The accounting for these types of instruments under APB 14-1 is intended to appropriately reflect the underlying economics by capturing the value of the conversion options as borrowing costs; therefore, recognizing their potential dilutive effects on earnings per share.

The effective date of APB 14-1 is for financial statements issued for fiscal years and interim periods beginning after December 15, 2008 and does not permit earlier application. However, the transition guidance requires retrospective application to all periods presented and does not grandfather existing instruments. In June 2006, Trinity issued \$450 million in 3 7/8% Convertible Subordinated Notes due 2036. We are currently evaluating the impact of the provisions of APB 14-1.

In June 2008, the FASB issued FASB Staff Position EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities* ( FSP EITF 03-6-1 ). FSP EITF 03-6-1 applies to the calculation of earnings per share for share-based payment awards with rights to dividends or dividend equivalents under Statement No. 128, *Earnings Per Share*. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents will be considered participating securities and will be included in the computation of earnings per share pursuant to the two-class method. The effective date of FSP EITF 03-6-1 is for financial statements issued for fiscal years beginning

**Table of Contents**

after December 15, 2008, and all interim periods within those years. Early adoption is not permitted. Once effective, all prior period earnings per share data presented will be adjusted retrospectively. We are currently evaluating the impact of the provisions of FSP EITF 03-6-1.

**Note 2. Segment Information**

The Company reports operating results in five principal business segments: (1) the Rail Group, which manufactures and sells railcars and component parts; (2) the Construction Products Group, which manufactures and sells highway products, concrete and aggregates, and girders and beams used in the construction of highway and railway bridges; (3) the Inland Barge Group, which manufactures and sells barges and related products for inland waterway services; (4) the Energy Equipment Group, which manufactures and sells products for energy related businesses, including tank heads, structural wind towers, and pressure and non-pressure containers for the storage and transportation of liquefied gases and other liquid and dry products; and (5) the Railcar Leasing and Management Services Group, which provides fleet management, maintenance, and leasing services. The category All Other includes our captive insurance and transportation companies; legal, environmental, and upkeep costs associated with non-operating facilities; other peripheral businesses; and the change in market valuation related to ineffective commodity hedges.

Sales and related profits from the Rail Group to the Railcar Leasing and Management Services Group are recorded in the Rail Group and eliminated in consolidation. Sales of railcars from the lease fleet are included in the Railcar Leasing and Management Services Group. Sales between groups are recorded at prices comparable to those charged to external customers. See Note 4 Equity Investment for discussion of sales to a company in which we have an equity investment.

The financial information from continuing operations for these segments is shown in the tables below. We operate principally in North America.

**Table of Contents**

	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
	<b>(in millions)</b>			
Revenues	<b>\$86.4</b>	\$162.5	<b>\$206.2</b>	\$233.4
Operating profit	<b>36.0</b>	39.5	<b>70.1</b>	67.3

For the three and six months ended June 30, 2008, revenues of \$8.3 million and operating profit of \$1.4 million and revenues of \$46.2 million and operating profit of \$7.2 million, respectively, were related to sales of railcars from the lease fleet to a company in which Trinity holds an equity investment. For the three and six months ended June 30, 2007, revenues of \$93.7 million and operating profit of \$11.4 million were related to sales of railcars from the lease fleet to a company in which Trinity holds an equity investment. See Note 4 Equity Investment.

Interest expense, which is not a component of operating profit, was \$13.7 million and \$24.5 million for the three and six months ended June 30, 2008, respectively, and \$10.4 million and \$19.6 million, respectively, for the same periods last year. Rent expense, which is a component of operating profit, was \$11.2 million and \$22.4 million for the three and six months ended June 30, 2008, respectively, and \$11.3 million and \$22.6 million, respectively, for the same periods last year.

Equipment consists primarily of railcars leased by third parties. The Leasing Group purchases equipment manufactured by Trinity's rail subsidiaries and enters into lease contracts with third parties with terms generally ranging between one and twenty years. The Leasing Group primarily enters into operating leases. Future minimum rental revenues on leases in each year are as follows:

	<b>Remaining six months of 2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>Thereafter</b>	<b>Total</b>
	<b>(in millions)</b>						
Future Minimum Rental Revenues on Leases	\$103.8	\$194.9	\$179.1	\$145.2	\$120.4	\$366.5	\$1,109.9

The Leasing Group's debt consists of both recourse and non-recourse debt. See Note 8 for the form and maturities of the debt. Leasing Group equipment with a net book value of approximately \$1,379.7 million is pledged as collateral for Leasing Group debt. Leasing Group equipment with a net book value of \$107.6 million is pledged as collateral against operating lease obligations.

In prior years, the Leasing Group completed a series of financing transactions whereby railcars were sold to one or more separate independent owner trusts (Trusts). See Note 4 of the December 31, 2007 Consolidated Financial Statements filed on Form 10-K for a detailed explanation of these financing transactions. Future operating lease obligations of the Leasing Group's subsidiaries as well as future minimum rental revenues related to these leases due to the Leasing Group are as follows:

	<b>Remaining six months of 2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>Thereafter</b>	<b>Total</b>
	<b>(in millions)</b>

**Note 4. Equity Investment**

In 2007, the Company and five other equity investors unrelated to the Company or its subsidiaries formed TRIP Rail Holdings LLC ( TRIP Holdings ) for the purpose of providing railcar leasing and management services in North America. TRIP Holdings, through its wholly-owned subsidiary, TRIP Rail Leasing LLC ( TRIP Leasing ) purchases railcars from the Company's Rail and Leasing Groups funded by capital contributions from TRIP Holdings' equity investors and third-party debt. The Company agreed to provide 20% of the total of all capital contributions required by TRIP Holdings up to a total commitment of \$49.0 million in exchange for 20% of the equity in TRIP Holdings. The Company will receive 20% of

**Table of Contents**

the distributions made from TRIP Holdings to equity investors and has a 20% interest in the net assets of TRIP Holdings upon a liquidation event. The terms of the Company's 20% equity investment are identical to the terms of each of the other five equity investors. Railcars purchased from the Company by TRIP Leasing are required to be purchased at prices comparable with the prices of all similar railcars sold by the Company during the same period for new railcars and at prices based on third party appraised value for used railcars. The manager of TRIP Holdings, Trinity Industries Leasing Company (TILC), a wholly owned subsidiary of Trinity, may be removed without cause as a result of a majority vote of the non-Company equity members. In 2007, the Company contributed \$21.3 million in capital to TRIP Holdings equal to its 20% pro rata share of total capital received in 2007 by TRIP Holdings from the five other equity investors of TRIP Holdings. Trinity funded an additional \$2.7 million and \$8.5 million, respectively, for the three and six months ended June 30, 2008, pursuant to Trinity's 20% equity ownership obligation under the formation agreements for TRIP Holdings, totaling a \$29.8 million investment in TRIP Holdings as of June 30, 2008. Trinity's remaining equity commitment to TRIP Holdings is \$19.2 million, which is expected to be completely funded by the end of 2009. The Company also paid \$13.8 million in structuring and placement fees to the principal underwriter in conjunction with the formation of TRIP Holdings that are expensed on a pro rata basis as railcars are purchased from the Company. For the three and six months ended June 30, 2008, \$0.9 million and \$2.7 million, respectively, of these structuring and placement fees were expensed, leaving a net unamortized balance of \$6.0 million as of June 30, 2008. Such expense is treated as sales commissions included in operating costs in the Company's Consolidated Statements of Operations. As of June 30, 2008, TRIP Leasing had purchased \$791.4 million railcars from the Company and plans to purchase an additional \$608.6 million.

For the three and six months ended June 30, 2008, the Rail Group sold \$83.0 million and \$229.0 million, respectively, and TILC sold \$8.3 million and \$46.2 million, respectively. For the Rail Group, these sales of railcars to TRIP Leasing resulted in a gain for the three and six months ended June 30, 2008 of \$19.2 million and \$44.8 million, respectively, of which \$3.8 million and \$8.9 million, respectively, was deferred based on Trinity's 20% equity interest. For TILC, these sales of railcars to TRIP Leasing resulted in a gain for the three and six months ended June 30, 2008 of \$1.8 million and \$9.0 million, respectively, of which \$0.4 million and \$1.8 million, respectively, was deferred based on Trinity's 20% equity interest. Administrative fees for the same period were \$0.9 million and \$2.1 million, respectively. For the three and six months ended June 30, 2007, TILC sold \$93.7 million of railcars to TRIP Leasing resulting in a gain of \$14.4 million, of which \$3.0 million was deferred based on Trinity's 20% equity interest. Fees for the same period were insignificant.

In June 2008, the Company entered into an agreement with an equity investor of TRIP Holdings potentially requiring Trinity to acquire from the equity investor up to an additional 5% equity ownership in TRIP Holdings if the option is exercised to its fullest extent. In that event, the Company would own a 25% equity ownership in TRIP Holdings, increasing the Company's total commitment by \$12.3 million to \$61.3 million, of which \$29.8 million had been paid. Should this agreement be exercised, the treatment of TRIP Holdings in the Company's consolidated financial statements does not change. The exercise period for the agreement is from September 2008 until January 2009.

See Note 5 of the December 31, 2007 Consolidated Financial Statements filed on Form 10-K for additional information.

**Note 5. Derivative Instruments**

We use derivative instruments to mitigate the impact of increases in zinc, natural gas, and diesel fuel prices and interest rates, as well as to convert a portion of our variable-rate debt to fixed-rate debt. We also use derivatives to lock in fixed interest rates in anticipation of future debt issuances. These swaps are accounted for as cash flow hedges under SFAS 133.

*Interest rate hedges*

In anticipation of a future debt issuance, we entered into interest rate swap transactions during the fourth quarter of 2006 and during 2007. These instruments, with a notional amount of \$370 million, hedged the interest rate on a portion of a future debt issuance associated with an anticipated railcar leasing transaction, which closed in May 2008. These instruments settled during the second quarter of 2008. The weighted average fixed interest rate under these instruments was 5.34%. These interest rate swaps were being accounted for as cash flow hedges with changes in the

fair value of the instruments of \$24.5 million of loss recorded in Accumulated Other Comprehensive Loss ( AOCL ) through the date the related debt issuance closed with a principal balance of \$572.2 million in May 2008. The balance is being amortized over the term of the related debt. At June 30, 2008, the balance remaining in AOCL was \$23.9 million. The effect on the consolidated statement of operations for the three and six months ended June 30, 2008 was expense of \$2.8 million and \$5.0 million, respectively, primarily due to the ineffective portion of the hedges associated with anticipated interest payments that will not be made and amortization expense.

In May 2008, we entered into an interest rate swap transaction which is being used to fix the LIBOR component of the debt issuance which closed in May 2008. The fixed interest rate under this instrument is 4.126%. The amount recorded for

**Table of Contents**

this instrument as of June 30, 2008 in the consolidated balance sheet was an asset of \$4.8 million, with \$5.2 million of income in AOCL. The effect on the consolidated statement of operations for the three and six month periods ended June 30, 2008 was expense of \$1.1 million.

During 2005 and 2006, we entered into interest rate swap transactions in anticipation of a future debt issuance. These instruments, with a notional amount of \$200 million, fixed the interest rate on a portion of a future debt issuance associated with a railcar leasing transaction in 2006 and settled at maturity in the first quarter of 2006. The weighted average fixed interest rate under these instruments was 4.87%. These interest rate swaps were being accounted for as cash flow hedges with changes in the fair value of the instruments of \$4.5 million in income recorded in AOCL through the date the related debt issuance closed in May 2006. The balance is being amortized over the term of the related debt. At June 30, 2008, the balance remaining in AOCL was \$3.6 million. The effect of the amortization on the consolidated statement of operations for the three and six month periods ended June 30, 2008 was income of \$0.1 million and \$0.2 million, respectively. The effect on the same periods in the prior year was \$0.1 million and \$0.2 million, respectively.

*Natural gas and diesel fuel*

We continued a program to mitigate the impact of fluctuations in the price of natural gas and diesel fuel purchases. The intent of the program is to protect our operating profit from adverse price changes by entering into derivative instruments. Since the majority of these instruments do not qualify for hedge accounting treatment, any changes in their valuation are recorded directly to the consolidated statement of operations. The amount recorded in the consolidated balance sheet for these instruments was an asset of \$9.3 million as of June 30, 2008, with \$1.0 million of income in AOCL. The effect on the consolidated statement of operations for the three and six month periods ended June 30, 2008 was income of \$8.5 million and \$9.9 million, respectively, including gains of \$6.3 million and \$6.9 million resulting from the mark to market valuation for the three and six months periods ended June 30, 2008, respectively. For the three and six month periods ended June 30, 2007 the effect on the consolidated statement of operations was income of \$0.1 million and \$1.0 million, respectively.

*Zinc*

We also continued a program to mitigate the impact of fluctuations in the price of zinc purchases. The intent of this program is to protect our operating profit from adverse price changes by entering into derivative instruments. These instruments are short term with monthly maturities and no remaining balances in AOCL as of June 30, 2008. The effect on the consolidated statement of operations for the three and six months ended June 30, 2008 was income of \$0.3 million and \$0.9 million, respectively, and for the three and six month periods ended June 30, 2007 was income of \$0.5 million and \$0.8 million, respectively.

**Note 6. Property, Plant, and Equipment**

The following table summarizes the components of property, plant, and equipment as of June 30, 2008 and December 31, 2007.

	<b>June 30, 2008</b>	<b>December 31, 2007</b>
		(as reported)

	<b>\$ 2,438.0</b>	\$ 2,069.8

**Table of Contents****Note 7. Warranties**

The Company provides warranties against manufacturing defects ranging from one to five years depending on the product. The warranty costs are estimated using a two step approach. First, an engineering estimate is made for the cost of all claims that have been filed by a customer. Second, based on historical claims experience, a cost is accrued for all products still within a warranty period for which no claims have been filed. The Company provides for the estimated cost of product warranties at the time revenue is recognized related to products covered by warranties and assesses the adequacy of the resulting reserves on a quarterly basis. The changes in the accruals for warranties for the three and six month periods ended June 30, 2008 and 2007 were as follows:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
	<b>(in millions)</b>			
Beginning balance	\$ 28.6	\$ 28.5	\$ 28.3	\$ 28.6
Warranty costs incurred	(1.4)	(3.8)	(2.7)	(6.4)
Product warranty accrual	2.4	1.5	4.0	4.0
Ending balance	\$ 29.6	\$ 26.2	\$ 29.6	\$ 26.2

**Note 8. Debt**

The following table summarizes the components of debt as of June 30, 2008 and December 31, 2007.

	<b>June 30, 2008</b>	<b>December 31, 2007</b>
	<b>(as reported)</b>	
	<b>(in millions)</b>	
Corporate/Manufacturing Recourse:		
Revolving commitment	\$	\$
Convertible subordinated notes	450.0	450.0
Senior notes	201.5	201.5
Other	3.3	3.1
	654.8	654.6
Leasing Recourse:		
Equipment trust certificates	61.4	75.7
	716.2	730.3
Leasing Non-recourse:		
Secured railcar equipment notes	327.0	334.1
Warehouse facility	76.3	309.8
Promissory notes	570.2	
	973.5	643.9
Total debt	\$ 1,689.7	\$ 1,374.2

Trinity's revolving credit facility requires maintenance of ratios related to interest coverage for the leasing and manufacturing operations, leverage, and minimum net worth. At June 30, 2008, there were no borrowings under our \$425 million revolving credit facility. After \$93.6 million was considered for letters of credit, \$331.4 million was available under the revolving credit facility.

In May 2008, Trinity Rail Leasing VI LLC, a Delaware limited liability company (TRL VI), a limited purpose, indirect wholly-owned subsidiary of Trinity, owned by Trinity through TILC, issued \$572.2 million of 30-year promissory notes (the Promissory Notes) to financial institutions. The Promissory Notes were secured by a portfolio of railcars valued at approximately \$743.1 million, operating leases thereon, and certain cash reserves. The Promissory Notes are obligations of TRL VI and are non-recourse to Trinity. TRL VI acquired the railcars securing the Promissory Notes by purchase from TILC and its subsidiary. The proceeds were used to repay a portion of our warehouse facility and to finance unencumbered railcars on our consolidated balance sheet. TILC entered into certain agreements relating to the transfer of the railcars to TRL VI and the management and servicing of TRL VI's assets. The Promissory Notes bear interest at a floating rate of one-month LIBOR plus a margin of 1.50%. The LIBOR portion of the interest rate on the Promissory Notes is fixed at approximately 4.13% for the first seven years from the date of issuance of the Promissory Notes through interest rate hedges. The interest rate margin on the Promissory Notes will increase by 0.50% on each of the seventh and eighth anniversary dates of the issuance of the Promissory Notes and by an additional 2.00% on the tenth anniversary date of the issuance of the Promissory Notes. The Promissory Notes may be prepaid at anytime and may be prepaid without penalty at any time after the third anniversary date of the issuance of the Promissory Notes.

**Table of Contents**

In February 2008, TILC increased its warehouse facility to \$600 million with the availability period of the facility remaining through August 2009. This facility, established to finance railcars owned by TILC, had \$76.3 million outstanding as of June 30, 2008. The warehouse facility matures August 2009 and unless renewed will be payable in three equal installments in February 2010, August 2010, and February 2011. Railcars financed by the warehouse facility have historically been refinanced under long-term financing agreements. Specific railcars and the underlying leases secure the facility. Advances under the facility may not exceed 78% of the fair market value of the eligible railcars securing the facility as defined by the agreement. Advances under the facility bear interest at a defined index rate plus a margin, for an all-in rate of 3.43% at June 30, 2008. At June 30, 2008, \$523.7 million was available under this facility.

Terms and conditions of other debt are described in Note 10 of the December 31, 2007 Consolidated Financial Statements filed on Form 10-K.

The remaining principal payments under existing debt agreements as of June 30, 2008 are as follows:

	<b>Remaining six months of 2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>Thereafter</b>
	<b>(in millions)</b>

------------	-----------	----------	-----------	-----------

**Note 10. Income Taxes**

On January 1, 2007, we adopted the provisions of FASB Interpretation No. 48 ( FIN 48 ), *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109*. See Note 12 of the December 31, 2007 Consolidated Financial Statements filed on Form 10-K for a detailed explanation of the impact of FIN 48.

The change in unrecognized tax benefits for the six months ended June 30, 2008 and 2007 was as follows:

	<b>Six Months Ended</b>	
	<b>June 30,</b>	
	<b>2008</b>	<b>2007</b>
	<b>(in millions)</b>	
Beginning balance	\$ 23.7	\$ 32.0
Additions for tax positions related to the current year	1.2	
Additions for tax positions of prior years	3.3	1.1
Reductions for tax positions of prior years	(1.0)	(0.4)
Settlements		(0.5)
Ending balance	\$ 27.2	\$ 32.2

**Table of Contents**

The additions for the six months ended June 30, 2008, were amounts provided for tax positions previously taken in foreign jurisdictions and tax positions taken for state income tax purposes as well as deferred tax liabilities that have been reclassified to uncertain tax positions.

The reduction for tax positions of prior years for the six months ended June 30, 2008 related primarily to the completion of state audits in which the tax position was not challenged by the state and for which the position is now effectively settled.

The total amount of unrecognized tax benefits at June 30, 2008 that would affect the Company's effective tax rate if recognized was \$10.9 million. There is a reasonable possibility that unrecognized Federal and state tax benefits will decrease by June 30, 2009 due to a lapse in the statute of limitations for assessing tax. As of June 30, 2008, the amounts subject to a lapse in statute by June 30, 2009 totaled \$0.4 million. Further, there is a reasonable possibility that the unrecognized tax benefits related to Federal and state tax positions will decrease significantly by June 30, 2009 due to settlements with taxing authorities. As of June 30, 2008, the amounts expected to settle or lapse in the statute of limitations by June 30, 2009 totaled \$11.9 million.

Trinity accounts for interest expense and penalties related to income tax issues as income tax expense. Accordingly, interest expense and penalties associated with an uncertain tax position are included in the income tax provision. The total amount of accrued interest and penalties as of June 30, 2008 and December 31, 2007 was \$10.8 million and \$8.0 million, respectively.

Income tax expense for the three and six months ended June 30, 2008 included \$0.5 million and \$2.8 million, respectively, in interest expense and penalties related to uncertain tax positions. Income tax expense for the three and six months ended June 30, 2007, included \$2.0 million and \$2.4 million, respectively, in interest expense and penalties related to uncertain tax positions.

We are currently under Internal Revenue Service ( IRS ) examination for the tax years ended 1998 through 2002 and 2004 through 2005, thus our statute remains open from the year ended March 31, 1998, forward. We expect the 1998 through 2002 examination and the 2004 through 2005 examination to be completed within the next nine months. This could be affected by any adjustments not agreed upon by the IRS and the Company, in which case the statute could remain open for an undeterminable period. In addition, statutes of limitations governing the right of Mexico's tax authorities to audit the tax returns of our Mexican operations remain open for the 2002 tax year forward. Our Mexican subsidiaries are currently under audit for their 2002 and 2003 tax years. Additionally our Swiss subsidiary is under audit for the 2006 tax year. We expect these examinations to be completed within the next nine months. Our various European subsidiaries, including the subsidiaries that were sold during 2006, are impacted by various statutes of limitations which are generally open from 2003 forward. An exception to this is our discontinued Romanian operations, which have been audited through 2004. Generally, states' statutes in the United States are open from 2002 forward.

**Note 11. Employee Retirement Plans**

The following table summarizes the components of net periodic pension cost for the Company.

	<b>Three Months</b>		<b>Six Months Ended</b>	
	<b>Ended</b>		<b>June 30,</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
	<b>(in millions)</b>			
Service cost	\$ 2.4	\$ 2.9	\$ 4.8	\$ 5.7
Interest	5.2	4.9	10.4	9.8
Expected return on assets	(5.0)	(4.4)	(10.0)	(8.8)
Amortization and deferral	0.5	1.0	1.0	2.1
Profit sharing	1.9	1.7	3.9	3.3
Net expenses	\$ 5.0	\$ 6.1	\$ 10.1	\$ 12.1

Trinity contributed \$4.2 million and \$7.7 million to the Company's defined benefit pension plans for the three and six month periods ended June 30, 2008, respectively. Trinity contributed \$4.0 million and \$6.4 million to the Company's defined benefit pension plans for the three and six month periods ended June 30, 2007, respectively. Total contributions to our pension plans in 2008 are expected to be approximately \$26.1 million.

**Table of Contents****Note 12. Accumulated Other Comprehensive Loss**

Comprehensive net income is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
	(in millions)			
Net income	\$ 85.6	\$ 68.7	\$ 150.9	\$ 127.8
Other comprehensive income (loss):				
Currency translation adjustments, net of tax expense of \$ , \$ , \$ , and \$	0.1		0.1	
Change in unrealized gain (loss) on derivative financial instruments, net of tax expense (benefit) of \$6.1, \$(3.8), \$(0.8), and \$(4.1)	12.6	6.3	(0.3)	6.7
Other changes net of tax benefit of \$0.4, \$ , \$0.4, and \$	(0.6)		(0.6)	
Comprehensive net income	\$ 97.7	\$ 75.0	\$ 150.1	\$ 134.5

The components of accumulated other comprehensive loss are as follows:

	June 30, 2008	December 31, 2007
	(as reported)	
	(in millions)	
Currency translation adjustments	\$ (17.2)	\$ (17.3)
Unrealized loss on derivative financial instruments	(8.8)	(8.5)
Funded status of pension liability	(35.8)	(35.8)
Other items	(0.6)	
	\$ (62.4)	\$ (61.6)

**Note 13. Stock-Based Compensation**

Stock-based compensation totaled approximately \$5.1 million and \$10.1 million for the three and six months ended June 30, 2008, respectively. Stock-based compensation totaled approximately \$4.3 million and \$8.2 million for the three and six months ended June 30, 2007, respectively.

**Note 14. Net Income Per Common Share**

Basic net income per common share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Except when the effect would be anti-dilutive, the calculation of diluted net income per common share includes the impact of shares that could be issued under outstanding stock options. Anti-dilutive stock options for the three and six month periods ended June 30, 2008 were equivalent to 0.1 million and 0.3 million shares, respectively. Anti-dilutive stock options for the three and six month periods ended June 30, 2007 were not material.

The computation of basic and diluted net income applicable to common stockholders is as follows:

Three Months Ended June 30, 2008		Three Months Ended June 30, 2007	
(in millions, except per share amounts)			
Income	Average	Income	Average

Edgar Filing: TRINITY INDUSTRIES INC - Form 10-Q

**Note 15. Contingencies*****Barge Litigation***

The Company and its wholly owned subsidiary, Trinity Marine Products, Inc. ( TMP ), were co-defendants in a class-action lawsuit filed in April 2003 entitled Waxler Transportation Company, Inc. v. Trinity Marine Products, Inc., et al. (Suit No. 49-741, Division B in the 25th Judicial District Court in and for the Parish of Plaquemines, Louisiana: the Waxler Case ). To avoid a continuing commitment of management and executive time as well as the legal, expert, and transactional costs associated with litigating the claims alleged, the Company and TMP entered into a settlement agreement in the Waxler Case that was approved by the court and became final February 9, 2008. Pursuant to the settlement agreement, the court certified the class for settlement purposes. The Company and TMP are currently working with the Court Appointed Disbursing Agent ( CADA ) to process the claims submitted. As of June 30, 2008, based on instructions from the CADA to the settlement funds escrow agent, the Company has received \$2.0 million in refund of unclaimed settlement funds. See Note 19 of the December 31, 2007 Consolidated Financial Statements filed on Form 10-K for additional information.

The settlement agreement required each class member whose individual claims will be settled via the class settlement to elect one of three, mutually exclusive settlement options. Potential class members who elected not to settle their individual claims via the class settlement were entitled to opt-out of the class and pursue such claims independently of the class. No potential class member opted out of the class settlement.

***Other Litigation***

Transit Mix was named as a defendant in a case involving the death of an employee of an independent contractor who was working at a Transit Mix facility. Following a jury verdict in favor of the plaintiff, the case was appealed by Transit Mix and its insurers. In October 2006, the original trial court judgment was reversed and a take-nothing judgment was rendered by the Eleventh Court of Appeals, State of Texas. Plaintiffs filed a motion for rehearing in

such court, which was denied. On March 22, 2007, Plaintiffs filed their Petition for Review with the Texas Supreme Court. Transit Mix filed its Response to Plaintiff's Petition for Review on July 13, 2007. In September 2007, the Texas Supreme Court requested briefing by the parties on the underlying merits of the case. The Texas Supreme Court denied the Plaintiff's Petition for Review on February 22, 2008, and the Plaintiff filed a Motion for Rehearing on April 9, 2008. The Motion for Rehearing was denied by the Court on June 27, 2008, and the case is now concluded.

We also are involved in other claims and lawsuits incidental to our business. Based on information currently available, it is management's opinion that the ultimate outcome of all current litigation and other claims, including settlements, in the aggregate will not have a material adverse effect on the Company's overall financial condition for purposes of financial reporting. However, resolution of certain claims or lawsuits by settlement or otherwise could have a significant impact on the operating results of the reporting period in which such resolution occurs.

We are subject to Federal, state, local, and foreign laws and regulations relating to the environment and the workplace. We have reserved \$8.8 million to cover our probable and estimable liabilities with respect to the investigations, assessments, and remedial responses to such matters, taking into account currently available information and our

**Table of Contents**

contractual rights to indemnification and recourse to third parties. However, estimates of liability arising from future proceedings, assessments or remediation are inherently imprecise. Accordingly, there can be no assurance that we will not become involved in future litigation or other proceedings involving the environment and the workplace or, if we are found to be responsible or liable in any such litigation or proceeding, that such costs would not be material to the Company. Other than with respect to the foregoing, we believe that we are currently in substantial compliance with environmental and workplace laws and regulations.

**Note 16. Financial Statements for Guarantors of the Senior Notes**

The Company's senior debt is fully and unconditionally and jointly and severally guaranteed by certain of Trinity's wholly owned subsidiaries: Transit Mix Concrete & Materials Company, Trinity Industries Leasing Company, Trinity Marine Products, Inc., Trinity Rail Group, LLC, Trinity North American Freight Car, Inc., Trinity Tank Car, Inc., and Trinity Parts & Components, LLC. No other subsidiaries guarantee the senior debt. As of June 30, 2008, assets held by the non-guarantor subsidiaries include \$125.5 million of restricted assets that are not available for distribution to Trinity Industries, Inc. (Parent), \$1,257.3 million of equipment securing certain debt, \$107.7 million of equipment securing certain lease obligations held by the non-guarantor subsidiaries, and \$286.1 million of assets located in foreign locations.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**  
**General**

The following discussion should be read in conjunction with the unaudited consolidated financial statements and related notes thereto appearing elsewhere in this document.

In 2007, Trinity Industries Inc. (Trinity, Company, we or our) purchased 20% of the equity in newly-formed TRIP Rail Holdings LLC (TRIP Holdings). TRIP Holdings provides railcar leasing and management services in North America. Railcars are purchased from Trinity by a wholly-owned subsidiary of TRIP Holdings, TRIP Rail Leasing LLC (TRIP Leasing).

In May 2008, Trinity Rail Leasing VI LLC, a Delaware limited liability company (TRL VI), a limited purpose, indirect wholly-owned subsidiary of Trinity, owned by Trinity through Trinity Industries Leasing Company (TILC), issued \$572.2 million of 30-year promissory notes to financial institutions. The proceeds were used to repay a portion of our warehouse facility and to finance unencumbered railcars on our consolidated balance sheet. See *Financing Activities*.

Revenues for the three and six month periods ended June 30, 2008 increased due to improved sales in our Construction Products, Inland Barge, and Energy Equipment Groups as compared to the same period in the prior year. Revenues for the Rail Group decreased due to a drop in shipments for the three and six months ended June 30, 2008. The increase in revenues for the Construction Products Group can be attributed primarily to increased sales volumes in our highway products business, sales generated by our entry into the asphalt business, and an increase in various raw material costs that resulted in higher sales prices. These increases were offset by decreased volumes in our bridge girder business and the impact of divestitures in the concrete and aggregates businesses that took place during 2007. Inland Barge Group revenues increased primarily as a result of greater barge shipments and a change in the mix of barges sold. An increase in structural wind towers sales was the primary reason for the increase in revenues in the Energy Equipment Group. Higher rental revenues resulting from additions to the lease fleet were offset by a decrease in sales of cars from the lease fleet resulting in a decrease in overall revenues in the Railcar Leasing and Management Services Group ( Leasing Group ).

**Table of Contents****Operating Profit (Loss)**

	Three Months Ended June		Six Months Ended June	
	2008	30, 2007	2008	30, 2007
	(in millions)			
Rail Group	\$ 72.4	\$ 96.6	\$ 149.6	\$ 174.7
Construction Products Group	21.1	15.8	33.3	25.9
Inland Barge Group	27.2	6.6	53.7	24.0
Energy Equipment Group	25.4	11.7	43.6	21.8
Railcar Leasing and Management Services Group	36.0	39.5	70.1	67.3
All Other	5.8	0.6	5.5	1.9
Corporate	(11.8)	(9.7)	(17.2)	(19.7)
Eliminations lease subsidiary	(23.1)	(50.3)	(54.3)	(78.5)
Eliminations other	(3.0)	0.3	(8.1)	2.4
Consolidated Total	\$ 150.0	\$ 111.1	\$ 276.2	\$ 219.8

Operating profit for the three and six month periods ended June 30, 2008 increased as the result of overall higher revenues, an increase in the size of our lease fleet, and higher barge and structural wind tower sales. These increases in operating profit were offset by higher raw material costs, a decline in railcar sales from the lease fleet, and a decline in volumes in the railcar market.

*Other Income and Expense.* Interest expense, net of interest income, was \$23.8 million and \$42.5 million, respectively, for the three and six month periods ended June 30, 2008 compared to \$16.2 million and \$30.0 million, respectively, for the same periods last year. Interest income decreased \$1.6 million over the same quarter last year and \$3.0 million over the same six month period last year primarily due to lower investment income as a result of lower interest rates and a decrease in cash available for investment. Interest expense increased \$6.0 million and \$9.5 million, respectively, over the same periods last year due to an increase in debt levels and expense of \$2.8 million and \$5.0 million, respectively, for the three and six month periods ended June 30, 2008, primarily related to the ineffective portion of interest rate hedges. The increase in Other, net for the three and six month periods ended June 30, 2008 was primarily due to a write-down of an equity investment in the prior year quarter, partially offset by a decrease in the gain on disposition of property, plant, and equipment compared to the same periods in the prior year.

*Income Taxes.* The current effective tax rates of 38.2% and 38.8 %, respectively, for continuing operations for the three and six month periods ended June 30, 2008 varied from the statutory rate of 35.0% due primarily to state income taxes and discrete adjustments related to foreign and state taxes. The prior year effective tax rates of 34.2% and 36.2%, respectively, for continuing operations for the three and six month periods ended June 30, 2007 varied from the statutory rate of 35.0% due primarily to state income taxes and an increase in the temporary credit to be applied against the Texas margin tax. The increase in the deferred tax liability is primarily driven by the difference in the book and tax depreciation associated with the lease fleet.

**Rail Group**

Railcar shipments decreased 5.7% to approximately 6,580 and 7.1% to approximately 12,591 during the three and six month periods, respectively, ended June 30, 2008 compared to the same periods in 2007. As of June 30, 2008, our Rail Group backlog was approximately \$2.4 billion consisting of approximately 28,680 railcars. Approximately 40% of our railcar total backlog was dedicated to sales to external customers, which includes approximately 10% of the total backlog dedicated to TRIP Leasing. The remaining approximately 60% of our total backlog was dedicated to the Leasing Group of which 100% are supported by lease agreements with external customers. The final amount dedicated to the Leasing Group may vary by the time of delivery. This compares to approximately 33,880 railcars in the backlog as of June 30, 2007, of which approximately 38% were dedicated to the Leasing Group of which 100% are supported by lease agreements with external customers. Of the remaining approximately 62% of the railcar backlog as of June 30, 2007, approximately 27% of the total backlog was dedicated to TRIP Leasing. Sales for the three and six month periods ended June 30, 2008 included

**Table of Contents**

\$83.0 million and \$229.0 million, respectively, in cars sold to TRIP Leasing, that resulted in a gain of \$19.2 million and \$44.8 million, respectively, of which \$3.8 million and \$8.9 million, respectively, in profit was deferred based on our 20% equity interest. There were no sales from the Rail Group to TRIP Leasing for the three and six months ended June 30, 2007. See Note 4 Equity Investment of the Consolidated Financial Statements for information about TRIP Leasing.

Operating profit for the Rail Group decreased \$24.2 million and \$25.1 million, respectively, for the three and six month periods ended June 30, 2008 compared to the same periods last year. This decrease was primarily due to decreased volumes, the competitive pricing environment, increases in raw material costs, and a reserve for future losses on railcar sales. Steel costs have risen significantly and remain volatile. On certain fixed price railcar contracts, actual cost increases and surcharges have caused the total cost of the railcar to exceed the amounts originally anticipated, and in some cases, the actual contractual sale price of the railcar. A reserve for the anticipated losses of future railcar sales of \$3.0 million was recorded during the second quarter ended June 30, 2008.

In the three months ended June 30, 2008, railcar shipments included sales to the Leasing Group of \$252.6 million compared to \$283.0 million in the comparable period in 2007 with a deferred profit of \$23.1 million compared to \$50.3 million for the same period in 2007. In the six months ended June 30, 2008, railcar shipments included sales to the Leasing Group of \$469.3 million compared to \$455.5 million in the comparable period in 2007 with a deferred profit of \$54.3 million compared to \$78.5 million for the same period in 2007. Sales to the Leasing Group and related profits are included in the operating results of the Rail Group but are eliminated in consolidation.

**Construction Products Group**

	Three Months Ended June 30,			Six Months Ended June 30,		
	2008	2007	Percent Change	2008	2007	Percent Change
	(\$ in millions)			(\$ in millions)		
Revenues:						
Concrete and Aggregates	\$ 126.3	\$ 121.5	4.0%	\$ 230.8	\$ 222.9	3.5%
Highway Products	84.4	63.4	33.1	141.7	111.6	27.0
Other	8.5	12.4	(31.5)	16.0	26.0	(38.5)
Total revenues	\$ 219.2	\$ 197.3	11.1	\$ 388.5	\$ 360.5	7.8
Operating profit	\$ 21.1	\$ 15.8		\$ 33.3	\$ 25.9	
Operating profit margin	9.6%	8.0%		8.6%	7.2%	

The increase in revenues and operating profit for the three and six month periods ended June 30, 2008 compared to the same periods in 2007 was primarily attributable to an increase in volume in our highway products business, sales generated by our entry into the asphalt business, and an increase in various raw material costs that have resulted in higher sales prices. These increases were offset by a decrease in volumes in our bridge girder business and the impact of divestitures in the concrete and aggregates businesses that took place during 2007.

**Inland Barge Group**

Operating profit margin	18.0%	5.5%		18.6%	10.5%	

## Edgar Filing: TRINITY INDUSTRIES INC - Form 10-Q

Revenues increased for the three and six month periods ended June 30, 2008 compared to the same periods in the prior year due to an increase in the sales of hopper and tank barges as well as a change in the mix of barges sold. Operating profit for the three and six months ended June 30, 2008 increased compared to the same periods last year due to increased revenues, a change in the mix of barges sold, and improved margins due to operating efficiencies. Operating profit for the six months ended June 30, 2008 also increased due to the refund of \$2.0 million in unclaimed settlement funds related to the Waxler Case, compared to a \$15.0 million charge for the resolution of the Waxler Case for the three and six month periods ended June 30, 2007. As of June 30, 2008, the backlog for the Inland Barge Group was approximately \$754.9 million compared to approximately \$677.1 million as of June 30, 2007.

	2008	2007	Percent Change	2008	2007	Percent Change
	(\$ in millions)			(\$ in millions)		
Revenues:						
Structural wind towers	\$ 106.4	\$ 53.1	100.4%	\$ 190.4	\$ 99.5	91.4%
Other	50.9	46.2	10.2	96.4	91.2	5.7
Total revenues	\$ 157.3	\$ 99.3	58.4	\$ 286.8	\$ 190.7	50.4
Operating profit	\$ 25.4	\$ 11.7		\$ 43.6	\$ 21.8	
Operating profit margin	16.1%	11.8%		15.2%	11.4%	

Revenues and operating profit increased for the three and six month periods ended June 30, 2008 compared to the same periods in 2007 due to an increase in structural wind towers sales and improved margins on containers produced and sold in Mexico. As of June 30, 2008, the backlog for structural wind towers was approximately \$1.5 billion compared to approximately \$0.8 billion as of June 30, 2007.

**Railcar Leasing and Management Services Group**

	Three Months Ended June 30,			Six Months Ended June 30,		
	2008	2007	Percent Change	2008	2007	Percent Change
	(\$ in millions)			(\$ in millions)		
Revenues:						
Leasing and management	\$ 77.4	\$ 67.5	14.7%	\$ 147.5	\$ 130.1	13.4%
Sales of cars from the lease fleet	9.0	95.0	(90.5)	58.7	103.3	(43.2)
Total revenues	\$ 86.4	\$ 162.5	(46.8)	\$ 206.2	\$ 233.4	(11.7)
Operating Profit:						
Leasing and management	\$ 34.1	\$ 27.8		\$ 60.8	\$ 54.3	
Sales of cars from the lease fleet	1.9	11.7		9.3	13.0	
Total operating profit	\$ 36.0	\$ 39.5		\$ 70.1	\$ 67.3	
Operating profit margin:						
Leasing and management	44.1%	41.2%		41.2%	41.7%	
Sales of cars from the lease fleet	21.1	12.3		15.8	12.6	
Total operating profit margin	41.7	24.3		34.0	28.8	
Fleet utilization	99.6%	99.5%		99.6%	99.5%	

Total revenues decreased for the three and six month periods ended June 30, 2008 compared to the same periods last year due to decreased sales from the lease fleet offset by increased rental revenues related to additions to the lease fleet, management fees, and growth of the per diem portfolio. Operating profit for leasing and management operations

increased for the three and six month periods ended June 30, 2008 compared to the same periods last year due to rental proceeds from fleet additions. Results for the three and six months ended June 30, 2008 included \$8.3 million and \$46.2 million, respectively, in sales of railcars to TRIP Leasing that resulted in a gain of \$1.8 million and \$9.0 million, respectively, of which \$0.4 million and \$1.8 million, respectively, was deferred based on our 20% equity interest. Results for the three and six months ended June 30, 2007 included \$93.7 million in sales of railcars to TRIP Leasing that resulted in a gain of \$14.4 million, of which \$3.0 million was deferred based on our 20% equity interest. See Note 4 of the Consolidated Financial Statements for information about TRIP Leasing.

To fund the continued expansion of its lease fleet to meet market demand, the Leasing Group generally uses its non-recourse warehouse facility or excess cash to provide initial financing for a portion of the purchase price of the cars. In February 2008, the warehouse facility was increased to \$600 million with the availability period of this facility remaining through August 2009. In May 2008, Trinity Rail Leasing VI LLC issued \$572.2 million of 30-year promissory notes. See *Financing Activities*.

As of June 30, 2008, the Leasing Group's lease fleet of approximately 41,100 owned or leased railcars had an average age of 4.6 years and an average remaining lease term of 5.1 years.

**Table of Contents****All Other**

	Three Months Ended June 30,			Six Months Ended June 30,		
	2008	2007	Percent Change	2008	2007	Percent Change
	(\$ in millions)			(\$ in millions)		
Revenues	\$18.4	\$16.9	8.9%	\$36.6	\$32.5	12.6%
Operating profit	\$ 5.8	\$ 0.6		\$ 5.5	\$ 1.9	

The increase in revenues for the three and six month periods ended June 30, 2008 over the same periods last year was primarily due to an increase in intersegment sales by our transportation company. The increase in the operating profit for the three and six month periods ended June 30, 2008 was primarily due to an increase over the same period last year of \$5.8 million and \$3.9 million, respectively, resulting from the market valuation of commodity hedges that are required to be marked to market.

**Liquidity and Capital Resources****Cash Flows**

*Operating Activities.* Net cash provided by operating activities of continuing operations for the six months ended June 30, 2008 was \$24.7 million compared to \$145.1 million of net cash provided by operating activities of continuing operations for the same period in 2007. This was primarily due to an increase in inventories associated with finished railcars that, as a result of production continuity, have been produced ahead of contracted delivery dates.

*Investing Activities.* Net cash required by investing activities of continuing operations for the six months ended June 30, 2008 was \$399.9 million compared to \$365.8 million for the same period last year. Capital expenditures for the six months ended June 30, 2008 were \$477.8 million, of which \$426.1 million were for additions to the lease fleet. This compares to \$476.2 million of capital expenditures for the same period last year, of which \$383.1 million were for additions to the lease fleet. Proceeds from the sale of property, plant, and equipment and other assets were \$77.9 million for the six months ended June 30, 2008 composed primarily of railcar sales from the lease fleet, which included \$46.2 million to TRIP Leasing, and the sale of non-operating assets, compared to \$140.9 million for the same period in 2007 composed primarily of railcar sales from the lease fleet, which included \$93.7 million to TRIP Leasing, and the sale of non-operating assets.

*Financing Activities.* Net cash provided by financing activities during the six months ended June 30, 2008 was \$294.8 million compared to \$137.1 million for the same period in 2007. We intend to use our cash to fund the operations, expansions, and growth initiatives of the Company.

At June 30, 2008, there were no borrowings under our \$425 million revolving credit facility.

In May 2008, Trinity Rail Leasing VI LLC, a Delaware limited liability company ( *TRL VI* ), a limited purpose, indirect wholly-owned subsidiary of Trinity, owned by Trinity through TILC, issued \$572.2 million of 30-year promissory notes (the *Promissory Notes* ) to financial institutions. The *Promissory Notes* were secured by a portfolio of railcars valued at approximately \$743.1 million, operating leases thereon, and certain cash reserves. The *Promissory Notes* are obligations of *TRL VI* and are non-recourse to Trinity. *TRL VI* acquired the railcars securing the *Promissory Notes* by purchase from TILC and its subsidiary. The proceeds were used to repay a portion of our warehouse facility and to finance unencumbered railcars on our consolidated balance sheet. TILC entered into certain agreements relating to the transfer of the railcars to *TRL VI* and the management and servicing of *TRL VI*'s assets. The *Promissory Notes* bear interest at a floating rate of one-month LIBOR plus a margin of 1.50%. The LIBOR portion of the interest rate on the *Promissory Notes* is fixed at approximately 4.13% for the first seven years from the date of issuance of the *Promissory Notes* through interest rate hedges. The interest rate margin on the *Promissory Notes* will increase by 0.50% on each of the seventh and eighth anniversary dates of the issuance of the *Promissory Notes* and by an additional 2.00% on the tenth anniversary date of the issuance of the *Promissory Notes*. The *Promissory Notes* may be prepaid at anytime and may be prepaid without penalty at any time after the third anniversary date of the issuance of the *Promissory Notes*.

In February 2008, TILC increased its warehouse facility to \$600 million with the availability period of the facility remaining through August 2009. This facility, established to finance railcars owned by TILC, had \$76.3 million

outstanding as of June 30, 2008. The warehouse facility matures August 2009 and unless renewed will be payable in three equal installments in February 2010, August 2010, and February 2011. Railcars financed by the warehouse facility have historically been refinanced under long-term financing agreements. Specific railcars and the underlying leases secure the facility. Advances under the facility may not exceed 78% of the fair market value of the eligible railcars securing the facility as defined by the agreement. Advances under the facility bear interest at a defined index rate plus a margin, for an all-in rate of 3.43% at June 30, 2008. At June 30, 2008, \$523.7 million was available under this facility.

**Table of Contents**

On December 13, 2007, the Company's Board of Directors authorized a \$200 million stock repurchase program of its common stock. This program allows for the repurchase of the Company's common stock through December 31, 2009. During the six months ended June 30, 2008, 471,100 shares were purchased under this program at a cost of approximately \$12.2 million. No shares were purchased under this program for the three months ended June 30, 2008. Since the inception of this program through June 30, 2008, a total of 575,300 shares had been repurchased at a cost of approximately \$15.1 million.

***Equity Investment***

See Note 4 of the Consolidated Financial Statements for information about the equity investment.

***Future Operating Requirements***

We expect to finance future operating requirements with cash flows from operations, and depending on market conditions, long-term and short-term debt, and equity. Debt instruments that the Company has utilized include its revolving credit facility, the warehouse facility, senior notes, convertible subordinated notes, asset-backed securities, and sale/leaseback transactions. The Company also has issued equity at various times. The Company assesses the market conditions at the time of its financing needs and determines which of these instruments to utilize.

***Off Balance Sheet Arrangements***

See Note 3 of the Consolidated Financial Statements for information about off balance sheet arrangements.

***Derivative Instruments***

We use derivative instruments to mitigate the impact of increases in zinc, natural gas, and diesel fuel prices and interest rates, as well as to convert a portion of our variable-rate debt to fixed-rate debt. We also use derivatives to lock in fixed interest rates in anticipation of future debt issuances. These swaps are accounted for as cash flow hedges under SFAS 133.

***Interest rate hedges***

In anticipation of a future debt issuance, we entered into interest rate swap transactions during the fourth quarter of 2006 and during 2007. These instruments, with a notional amount of \$370 million, hedged the interest rate on a portion of a future debt issuance associated with an anticipated railcar leasing transaction, which closed in May 2008. These instruments settled during the second quarter of 2008. The weighted average fixed interest rate under these instruments was 5.34%. These interest rate swaps were being accounted for as cash flow hedges with changes in the fair value of the instruments of \$24.5 million of loss recorded in Accumulated Other Comprehensive Loss ( AOCL ) through the date the related debt issuance with a principal balance of \$572.2 million closed in May 2008. The balance is being amortized over the term of the related debt. At June 30, 2008, the balance remaining in AOCL was \$23.9 million. The effect on the consolidated statement of operations for the three and six months ended June 30, 2008 was expense of \$2.8 million and \$5.0 million, respectively, primarily due to the ineffective portion of the hedges associated with anticipated interest payments that will not be made and amortization expense.

In May 2008, we entered into an interest rate swap transaction which is being used to fix the LIBOR component of the debt issuance which closed in May 2008. The fixed interest rate under this instrument is 4.126%. The amount recorded for this instrument as of June 30, 2008 in the consolidated balance sheet was an asset of \$4.8 million, with \$5.2 million of income in AOCL. The effect on the consolidated statement of operations for the three and six month periods ended June 30, 2008 was expense of \$1.1 million.

During 2005 and 2006, we entered into interest rate swap transactions in anticipation of a future debt issuance. These instruments, with a notional amount of \$200 million, fixed the interest rate on a portion of a future debt issuance associated with a railcar leasing transaction in 2006 and settled at maturity in the first quarter of 2006. The weighted average fixed interest rate under these instruments was 4.87%. These interest rate swaps were being accounted for as cash flow hedges with changes in the fair value of the instruments of \$4.5 million in income recorded in AOCL through the date the related debt issuance closed in May 2006. The balance is being amortized over the term of the related debt. At June 30, 2008, the balance remaining in AOCL was \$3.6 million. The effect of the amortization on the consolidated statement of operations for the three and six month periods ended June 30, 2008 was income of \$0.1 million and \$0.2 million, respectively. The effect on the same periods in the prior year was \$0.1 million and \$0.2 million, respectively.

**Table of Contents***Natural gas and diesel fuel*

We continued a program to mitigate the impact of fluctuations in the price of natural gas and diesel fuel purchases. The intent of the program is to protect our operating profit from adverse price changes by entering into derivative instruments. Since the majority of these instruments do not qualify for hedge accounting treatment, any changes in their valuation are recorded directly to the consolidated statement of operations. The amount recorded in the consolidated balance sheet for these instruments was an asset of \$9.3 million as of June 30, 2008, with \$1.0 million of income in AOCL. The effect on the consolidated statement of operations for the three and six month periods ended June 30, 2008 was income of \$8.5 million and \$9.9 million, respectively, including gains of \$6.3 million and \$6.9 million resulting from the mark to market valuation for the three and six months periods ended June 30, 2008, respectively. For the three and six month periods ended June 30, 2007 the effect on the consolidated statement of operations was income of \$0.1 million and \$1.0 million, respectively.

*Zinc*

We also continued a program to mitigate the impact of fluctuations in the price of zinc purchases. The intent of this program is to protect our operating profit from adverse price changes by entering into derivative instruments. These instruments are short term with monthly maturities and no remaining balances in AOCL as of June 30, 2008. The effect on the consolidated statement of operations for the three and six months ended June 30, 2008 was income of \$0.3 million and \$0.9 million, respectively, and for the three and six month periods ended June 30, 2007 was income of \$0.5 million and \$0.8 million, respectively.

**Contractual Obligation and Commercial Commitments**

As of June 30, 2008, other commercial commitments related to letters of credit increased to \$93.7 million from \$93.3 million as of December 31, 2007. Refer to Note 8 of the Consolidated Financial Statements for changes to our outstanding debt and maturities. Other commercial commitments that relate to operating leases under sale/leaseback transactions were basically unchanged as of June 30, 2008.

**Recent Accounting Pronouncements**

See Note 1 of the Consolidated Financial Statements for information about recent accounting pronouncements.

**Forward-Looking Statements**

This quarterly report on Form 10-Q (or statements otherwise made by the Company or on the Company's behalf from time to time in other reports, filings with the Securities and Exchange Commission (SEC), news releases, conferences, World Wide Web postings or otherwise) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not historical facts are forward-looking statements and involve risks and uncertainties. These forward-looking statements include expectations, beliefs, plans, objectives, future financial performances, estimates, projections, goals, and forecasts. Trinity uses the words anticipates, believes, estimates, expects, intends, forecasts, may, will, should, expressions to identify these forward-looking statements. Potential factors, which could cause our actual results of operations to differ materially from those in the forward-looking statements, include among others:

- market conditions and demand for our products;
- the cyclical nature of both the railcar and barge industries;
- continued expansion of the structural wind towers business;
- variations in weather in areas where our construction and energy products are sold, used, or installed;
- disruption of manufacturing capacity due to weather related events;
- the timing of introduction of new products;
- the timing of customer orders;
- product price changes;
- changes in mix of products sold;
- the extent of utilization of manufacturing capacity;
- availability and costs of steel, component parts, supplies, and other raw materials;
- competition and other competitive factors;
- changing technologies;
- surcharges and other fees added to fixed pricing agreements for raw materials;

interest rates and capital costs;  
long-term funding of our leasing warehouse facility;

27

**Table of Contents**

taxes;  
the stability of the governments and political and business conditions in certain foreign countries, particularly Mexico;  
changes in import and export quotas and regulations;  
business conditions in foreign economies;  
results of litigation; and  
legal, regulatory, and environmental issues.

Any forward-looking statement speaks only as of the date on which such statement is made. Trinity undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

**Item 3. *Quantitative and Qualitative Disclosures About Market Risk***

There has been no material change in our market risks since December 31, 2007. Refer to Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, for a discussion of debt-related activity and the impact of hedging activity for the three and six months ended June 30, 2008.

**Item 4. *Controls and Procedures***

**Disclosure Controls and Procedures**

The Company maintains controls and procedures designed to ensure that it is able to collect the information it is required to disclose in the reports it files with the SEC, and to process, summarize, and disclose this information within the time periods specified in the rules of the SEC. The Company's Chief Executive and Chief Financial Officers are responsible for establishing and maintaining these procedures and, as required by the rules of the SEC, evaluating their effectiveness. Based on their evaluation of the Company's disclosure controls and procedures which took place as of the end of the period covered by this report, the Chief Executive and Chief Financial Officers believe that these procedures are effective to ensure that the Company is able to collect, process, and disclose the information it is required to disclose in the reports it files with the SEC within the required time periods.

**Internal Controls**

The Company maintains a system of internal controls designed to provide reasonable assurance that: transactions are executed in accordance with management's general or specific authorization; transactions are recorded as necessary (1) to permit preparation of financial statements in conformity with generally accepted accounting principles, and (2) to maintain accountability for assets; access to assets is permitted only in accordance with management's general or specific authorization; and the recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

During the period covered by this report, there have been no changes in the Company's internal control over financial reporting that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

**Table of Contents****PART II****Item 1. *Legal Proceedings***

The information provided in Note 15 of the Consolidated Financial Statements is hereby incorporated into this Part II, Item 1 by reference.

**Item 1A. *Risk Factors***

There have been no material changes from the risk factors previously disclosed in Item 1A of our 2007 Form 10-K.

**Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds***

This table provides information with respect to purchases by the Company of shares of its Common Stock during the quarter ended June 30, 2008:

<b>Period</b>	<b>Number of Shares Purchased(1)</b>	<b>Average Price Paid per Share(1)</b>	<b>Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (2)</b>
April 1, 2008 through April 30, 2008	39	\$ 31.07		\$ 184,941,063
May 1, 2008 through May 31, 2008	92,792	\$ 35.89		\$ 184,941,063
