Chairman's
LETTER TO SHAREHOLDERS

i Robert P. Bremner ii Chairman of the Board

Dear Shareholders:

I'd like to use my initial letter to you to accomplish several things. First, I want to report that after fourteen years of service on your Fund's Board, including the last twelve as chairman, Tim Schwertfeger retired from the Board in June. The Board has elected me to replace him as the chairman, the first time this role has been filled by someone who is not an employee of Nuveen Investments. Electing an independent chairman marks a significant milestone in the management of your Fund, and it aligns us with what is now considered a best practice in the fund industry. Further, it demonstrates the independence with which your Board has always acted on your behalf.

Following Tim will not be easy. During my eleven previous years on the Nuveen Fund Board, I found that Tim always set a very high standard by combining insightful industry and market knowledge and sound, clear judgment. While the Board will miss his wise counsel, I am certain we will retain the primary commitment Tim shared with all of us—an unceasing dedication to creating and retaining value for Nuveen Fund shareholders. This focus on value over time is a touchstone that I and all the other Board members will continue to use when making decisions on your behalf.

Second, I also want to report that we are very fortunate to be welcoming two new Board members to our team. John Amboian, the current chairman and CEO of Nuveen Investments, has agreed to replace Tim as Nuveen's representative on the Board. John's presence will allow the independent Board members to benefit not only from his leadership role at Nuveen but also his broad understanding of the fund industry and Nuveen's role within it. We also are adding Terry Toth as an independent director. A former CEO of the Northern Trust Company's asset management group, Terry will bring extensive experience in the fund industry to our deliberations.

Third, on behalf of the entire Board, I would like to acknowledge the effort the whole Nuveen organization is making to resolve the auction rate preferred share situation in a satisfactory manner. As you know, we are actively pursuing a number of possible solutions, all with the goal of providing liquidity for preferred shareholders while preserving the potential benefits of leverage for common shareholders. We appreciate the patience you have shown as we've worked through the many details involved.

Finally, I urge you to take the time to review the Portfolio Managers' Comments, the Common Share Distribution and Share Price Information, and the Performance Overview sections of this report. All of us are grateful that you have chosen Nuveen Investments as a partner as you pursue your financial goals, and, on behalf of myself and the other members of your Fund's Board, let me say we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner
Chairman of the Board

Portfolio Managers COMMENTS

Nuveen Investments Closed-End Funds

NSL, JFR, JRO

The Funds' investment portfolios have been managed by Gunther Stein and Lenny Mason of Symphony Asset Management, LLC, an affiliate of Nuveen Investments, since 2001. Gunther and Lenny have more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield debt.

Here Gunther and Lenny talk about economic and market conditions, their management strategies and the performance of the Funds for the twelve-month period ended July 31, 2008.

WHAT WERE THE GENERAL ECONOMIC CONDITIONS AND MARKET TRENDS DURING THE TWELVE-MONTH PERIOD ENDED JULY 31, 2008?

The period was dominated by concerns about the impact of possible sub-prime mortgage defaults and fears of a recession, especially as the financial strain began to spread beyond the mortgage sector to banks and other institutions. When data began to show the potential for a severely weakening economy, the Federal Reserve cut the widely followed short-term fed funds rate five times during the period, bringing the rate to 2.00% as of July 31, 2008.

More specifically for these Funds, the period between August 2007 and July 2008 was the most volatile period in the history of the leveraged loan market, with four of the five largest monthly price moves of all time (both positive and negative) occurring during these twelve months. This volatility was driven by an extreme shift in risk tolerance, catalyzed by the deterioration in the U.S. housing market, which spread quickly into the rest of the credit markets and the U.S. financial system in general.

The credit crunch effectively hit the leveraged loan market in July 2007, when the CSFB Leveraged Loan Index fell 3.32%, the largest loss since inception of the index in 1992. This large move was driven by massive selling as the technical balance between supply and demand in the new-issue market was impacted by a virtual shutdown of demand from collateralized loan obligations (CLOs) coupled with a large unsold supply of loans from the leveraged buyout (LBO) market. The resulting volatility created a downward spiraling effect in the loan market as prices triggered margin calls and redemptions which were funded through continued forced selling. However, one positive was that this weakness occurred amid a still

generally benign fundamental environment, with record-low default rates and strong operating results among most of these leveraged companies.

As late as July 2008, the technically-driven market conditions which persisted throughout the second half of 2007 and first half of 2008 had begun to subside, with the supply overhang more under control amid a drastic reduction in new LBO volume. However, there was a growing concern over the U.S. economy, and the effects from a LBO market which had put a large amount of senior leveraged loans into the books of businesses with a fair amount of earnings variability. At the end of this reporting period, the leveraged loan default rate stood at 2.92% (according to Standard and Poor's), roughly in line with the historical average since 1992.

WHAT KEY STRATEGIES WERE USED TO MANAGE THE FUNDS?

During this period, we continued to use fundamental analysis to select loans that we believed offered strong asset coverage and attractive risk-adjusted returns. Although the loan portfolios suffered as a result of the broad-based sell-off, the market dislocation also provided an opportunity to buy loans in good companies with strong covenants at attractive prices. For example, we sought companies with liquid tangible assets trading at discounts, such as Swift Transportation (the largest trucking company in North America), and Tribune Company, which had an extremely valuable and diverse asset base ranging from real estate and media assets such as newspapers, television stations and the Food Network, to the Chicago Cubs baseball team, one of the most valuable franchises in professional sports. Although we felt that volatility would continue in some of the more topical names we owned, we bought loans at a discount to their intrinsic value where we had what we thought was a firm understanding of downside risk and upside potential. Throughout the year we continued to swap into quality assets in order to improve each Fund's positioning, always cognizant that a deterioration in fundamentals might still occur.

HOW DID THE FUNDS PERFORM OVER THIS TWELVE-MONTH PERIOD?

The performance of the Funds, as well as the performance of a widely followed market index, is presented in the accompanying table.

Annualized Total Returns on Common Share Net Asset Value

For the twelve-month period ended 7/31/08

	1-Year	5-Year
NSL	-2.32%	5.86%
JFR	-1.43%	N/A
JRO	-1.99%	N/A
CSFB Leveraged Loan Index ¹	-1.06%	4.21%

Over the twelve-month period, all three Funds underperformed the unmanaged, unleveraged CSFB Leveraged Loan Index.

One of the key factors in the performance of these Funds, relative to that of the unleveraged index, was the Funds' use of financial leverage. Although leveraging provides opportunities for additional income and total returns for common shareholders, it can also expose shareholders to additional risk—especially when market conditions are unfavorable. With the heightened volatility of prices among leveraged loans during this period, the impact of these valuation changes was magnified by the use of leverage. However, we firmly believe that the use of this strategy should work to the benefit of the Funds' common shareholders over the long term.

On the plus side, the Funds benefited relative to the overall market as a result of our ability to pick catalyst-driven opportunities to generate incremental total return in an otherwise flat-to-down market. Two examples are Alltel and Ply Gem, whose loans were purchased at discounts to par but had a high potential (in our view) of being repaid at par in a short period of time. Subsequently, Alltel was sold to Verizon, and Ply Gem refinanced their loans using high yield bonds.

We also continued to avoid most second-lien loans. This contributed positively to the Funds' relative performance, as liquidity for these loans became extremely scarce and demand virtually dried up.

However, as a result of the broad sell-off in loans, the Funds experienced downside pressure during this period.

RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED SECURITIES (ARPS) MARKETS

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the preferred shares issued by these Funds than there were offers to buy. This meant that these auctions failed to clear and that many or all auction preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction preferred shares did not lower the credit quality of these shares, and auction preferred shareholders unable to sell their shares received distributions at the maximum rate applicable to failed auctions as calculated in accordance with the pre-established terms of the auction preferred shares. As approved by each Fund's Board of Trustees, JFR and JRO redeemed \$235 million and \$140 million of their outstanding FundPreferred shares, respectively, at liquidation value, during the fiscal year ended July 31, 2008. Proceeds for the redemptions were provided through a prime brokerage facility with a major bank.

Common Share
Distribution and Share Price

INFORMATION

As noted earlier, these Funds use financial leverage to potentially enhance opportunities for additional income for common shareholders. The Funds' use of this leverage strategy continued to provide incremental income, although the extent of this benefit was reduced to some degree by short-term interest rates that remained relatively high during the earlier part of the period. This, in turn, kept the Funds' borrowing costs high. This is one reason all three Funds' monthly distributions decreased three times over the twelve-month period.

During certain periods, the Funds may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's common share NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's common share NAV. As of July 31, 2008, all three Funds had positive UNII balances for tax purposes. NSL had a positive UNII balance while JFR and JRO had negative UNII balances for financial statement purposes.

COMMON SHARE REPURCHASES AND SHARE PRICE INFORMATION

On July 30, 2008, the Board of Directors/Trustees for each of Nuveen's 120 closed-end funds approved a program, under which each fund may repurchase up to 10% of its common shares. No common shares were repurchased during the twelve-month reporting period.

As of July 31, 2008, the Funds were trading relative to their common share NAVs as shown in the accompanying table.

NUVEEN SENIOR INCOME FUND
NUVEEN FLOATING RATE INCOME FUND
NUVEEN FLOATING RATE INCOME OPPORTUNITY FUND

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Senior Income Fund, Nuveen Floating Rate Income Fund and Nuveen Floating Rate Income Opportunity Fund (the Funds), as of July 31, 2008, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of July 31, 2008, by correspondence with the custodian, selling or agent banks and brokers or by other appropriate auditing procedures where replies from selling or agent banks or brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Senior Income Fund, Nuveen Floating Rate Income Fund and Nuveen Floating Rate Income Opportunity Fund at July 31, 2008, the results of their operations and cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

Portfolio of INVESTMENTS July 31, 2008

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
 - (2) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
 - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group (Standard & Poor's) or Moody's Investor Service, Inc. (Moody's) rating. Rating below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
 - (4) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
 - (5) At or subsequent to July 31, 2008, this issue was under the protection of the Federal Bankruptcy Court.
 - (6) Non-income producing. Non-income producing, in the case of a Senior Loan, generally denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
 - (7) Position or portion of position represents an unfunded Senior Loan commitment outstanding at July 31, 2008.
 - (8) Negative value represents unrealized depreciation on unfunded Senior Loan commitment outstanding at July 31, 2008.
 - (9) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees.
 - (10) Borrowings and Preferred Shares, at Liquidation Value as a percentage of total investments are (25.6)% and (13.1)%, respectively.
- N/R Not rated.
- DD1 Portion of investment purchased on a delayed delivery basis.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
- PIK In lieu of cash payment, interest accrued on Payment in Kind investment increases principal outstanding.
- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.

- (2) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
 - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group (Standard & Poor's) or Moody's Investor Service, Inc. (Moody's) rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
 - (4) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
 - (5) Position or portion of position represents an unfunded Senior Loan commitment outstanding at July 31, 2008.
 - (6) Negative value represents unrealized depreciation on unfunded Senior Loan commitment outstanding at July 31, 2008.
 - (7) Borrowings and Preferred Shares, at Liquidation Value as a percentage of total investments are (24.4)% and (17.2)%, respectively.
- N/R Not rated.
- DD1 Portion of investment purchased on a delayed delivery basis.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group (Standard & Poor's) or Moody's Investor Service, Inc. (Moody's) rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
- (4) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks. Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- (5) Position or portion of position represents an unfunded Senior Loan commitment outstanding at July 31, 2008.
- (6) Negative value represents unrealized depreciation on unfunded Senior Loan commitment outstanding at July 31, 2008.
- (7) Non-income producing. Non-income producing in the case of a Senior Loan, generally denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
- (8) Borrowings and Preferred Shares, at Liquidation Value as a percentage of total investments are (24.3)% and (17.3)%, respectively.

N/R Not rated.

DD1 Portion of investment purchased on a delayed delivery basis.

WI/DD Purchased on a when-issued or delayed delivery basis.

- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

Notes to
FINANCIAL STATEMENTS

1. General Information and Significant Accounting Policies

The funds covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Senior Income Fund (NSL), Nuveen Floating Rate Income Fund (JFR) and Nuveen Floating Rate Income Opportunity Fund (JRO) (collectively, the Funds). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide a high level of current income by investing primarily in senior loans whose interest rates float or adjust periodically based on a benchmark interest rate index.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of senior loans, bonds and other securities in each Fund's investment portfolios, other than subordinated loans issued by middle market companies, are generally provided by one or more independent pricing services approved by the Funds' Board of Trustees. Floating Rate Income Opportunity (JRO) currently expects that the independent pricing services will be unable to provide a market based price for certain of the privately negotiated subordinated loans issued by middle market companies. The pricing services, with input from Symphony Asset Management, LLC (Symphony), an indirect wholly owned subsidiary of Nuveen Investments, Inc. (Nuveen), and Nuveen Asset Management (the Adviser), a wholly owned subsidiary of Nuveen, will estimate the fair value for such subordinated loans, subject to the supervision of Symphony and the Adviser. Floating Rate Income Opportunity (JRO) may engage an independent appraiser to periodically provide an independent determination of the value, or an opinion with respect to the pricing services' value, of such loans. The pricing services typically value exchange-listed securities at the last sales price on that day; and value senior loans, bonds and other securities traded in the over-the-counter market at the mean of the highest bona fide bid and lowest bona fide asked prices when current quotations are readily available. The pricing services or, in the absence of a pricing service for a particular investment, the Board of Trustees of the Funds, or its designee, may establish fair value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustees' designee. Short-term investments are valued at amortized cost, which approximates market value.

The senior and subordinated loans in which the Funds invest are not listed on an organized exchange and the secondary market for such investments may be less liquid relative to markets for other fixed income securities. Consequently, the value of senior and subordinated loans, determined as described above, may differ significantly from the value that would have been determined had there been an active market for that loan.

Investment Transactions

Investment transactions are recorded on a trade date basis. Trade date for senior and subordinated loans purchased in the primary market is considered the date on which the loan allocations are determined. Trade date for senior and subordinated loans purchased in the secondary market is the date on which the transaction is entered into. Realized gains and losses from investment transactions are determined on the specific identification method. Investments

purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At July 31, 2008, Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) had outstanding when-issued/delayed delivery purchase commitments of \$6,318,967, \$6,305,000 and \$7,492,500, respectively.

Investment Income

Dividend income is recorded on the ex-dividend date. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses on senior and subordinated loans. Fee income, if any, consists primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to the original loan agreement and are recognized when received.

36

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Effective January 31, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the affirmative evaluation of tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it is more-likely-than-not (i.e., a greater than 50-percent likelihood) of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold may result in a tax expense in the current year.

Implementation of FIN 48 required management of the Funds to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which includes federal and certain states. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). The Funds have no examinations in progress.

For all open tax years and all major taxing jurisdictions through the end of the reporting period, management of the Funds has reviewed all tax positions taken or expected to be taken in the preparation of the Funds' tax returns and concluded the adoption of FIN 48 resulted in no impact to the Funds' net assets or results of operations as of and during the fiscal year ended July 31, 2008.

The Funds are also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Each Fund declares monthly income distributions to Common shareholders. Net realized capital gains from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

Senior Income (NSL) has issued and outstanding 1,840 shares of Series TH, Taxable Auctioned Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every 28 days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Edgar Filing: Nuveen Floating Rate Income Opportunity Fund - Form N-CSR

Floating Rate Income (JFR) has issued and outstanding 1,650 shares of each Series M, T, W and F, FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Floating Rate Income Opportunity (JRO) has issued and outstanding 1,334 shares of each Series M, TH and 1,332 shares of Series F, FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) have also effected financial leverage by borrowing, as described in Footnote 7 - Borrowing Arrangements.

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the Taxable Auctioned Preferred and Fund Preferred (collectively, Preferred) shares issued by the Funds than there were offers to buy. This meant that these auctions failed to clear, and that many Preferred shareholders who wanted to sell their shares in these auctions were unable to do so. Preferred shareholders unable to sell their shares received distributions at the maximum rate applicable to failed auctions as calculated in accordance with the pre-established terms of the Preferred shares.

Notes to
FINANCIAL STATEMENTS (continued)

These developments generally do not affect the management or investment policies of the Funds. However, one implication of these auction failures for Common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower than they otherwise would have been.

As approved by each Fund's Board of Trustees, Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) redeemed \$235 million and \$140 million of their outstanding Preferred shares at liquidation value during the fiscal year ended July 31, 2008.

Borrowing Costs

Costs incurred by each Fund in connection with structuring its refinancing are recorded as a deferred charge which are being amortized through May 14, 2009, and included with Interest expense on borrowings and amortization of borrowing costs on the Statement of Operations.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Funds' policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted account principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fund Shares

Edgar Filing: Nuveen Floating Rate Income Opportunity Fund - Form N-CSR

On July 30, 2008, the Board of Directors/Trustees for each of Nuveen's 120 closed-end funds approved a program under which each fund may repurchase up to 10% of its common shares. No common shares were repurchased during the fiscal year ended July 31, 2008.

Sales and maturities	196,892,088	377,353,828	220,267,915

4. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, timing differences in recognizing certain gains and losses on investment transactions and for Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) recognition of premium amortization. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At July 31, 2008, the cost of investments was as follows:

	Senior Income (NSL)	Floating Rate Income (JFR)	Floating Rate Income Opportunity (JRO)
Cost of investments	\$395,487,227	\$1,054,077,776	\$634,158,263

5. Management Fees and Other Transactions with Affiliates

Each Fund's management fee is separated into two components – a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily Managed Assets of each Fund as follows:

Average Daily Managed Assets	Senior Income (NSL) Fund-Level Fee Rate
For the first \$1 billion	.6500%
For the next \$1 billion	.6375
For the next \$3 billion	.6250
For the next \$5 billion	.6000
For Managed Assets over \$10 billion	.5750

Average Daily Managed Assets	Floating Rate Income (JFR) Floating Rate Income Opportunity (JRO) Fund-Level Fee Rate
For the first \$500 million	.6500%
For the next \$500 million	.6250
For the next \$500 million	.6000
For the next \$500 million	.5750
For Managed Assets over \$2 billion	.5500

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the tables below. As of July 31, 2008, the complex-level fee was .1878%.

Edgar Filing: Nuveen Floating Rate Income Opportunity Fund - Form N-CSR

Effective August 20, 2007, the complex-level fee schedule is as follows:

Complex-Level Assets Breakpoint Level ⁽¹⁾	Effective Rate at Breakpoint Level

Notes to
FINANCIAL STATEMENTS (continued)

Prior to August 20, 2007, the complex-level fee schedule was as follows:

Complex-Level Assets Breakpoint Level ⁽¹⁾	Effective Rate at Breakpoint Level
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961

\$91 billion	.1698
\$125 billion	.1617
\$200 billion	.1536
\$250 billion	.1509
\$300 billion	.1490

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets (Managed Assets means the average daily net assets of each fund including assets attributable to preferred stock issued by or borrowings by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Symphony under which Symphony manages the investment portfolios of the Funds. Symphony is compensated for its services to the Funds from the management fees paid to the Adviser.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

For the first ten years of Senior Income s (NSL) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending October 31,		Year Ending October 31,	
1999 *	.45%	2005	.35%

2003	.45	2009	.05
2004	.45		

* From the commencement of operations.

The Adviser has not agreed to reimburse Senior Income (NSL) for any portion of its fees and expenses beyond October 31, 2009.

For the first eight years of Floating Rate Income s (JFR) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending March 31,		Year Ending March 31,

The Adviser has not agreed to reimburse Floating Rate Income Opportunity (JRO) for any portion of its fees and expenses beyond July 31, 2012.

Agreement and Plan of Merger

On June 20, 2007, Nuveen announced that it had entered into a definitive Agreement and Plan of Merger (Merger Agreement) with Windy City Investments, Inc. (Windy City), a corporation formed by investors led by Madison Dearborn Partners, LLC (Madison Dearborn), pursuant to which Windy City would acquire Nuveen. Madison Dearborn is a private equity investment firm based in Chicago, Illinois. The merger was consummated on November 13, 2007.

The consummation of the merger was deemed to be an assignment (as that term is defined in the Investment Company Act of 1940) of the investment management agreement between each Fund and the Adviser, and resulted in the automatic termination of each Fund s agreement. The Board of Directors/Trustees of each Fund considered and approved a new investment management agreement with the Adviser on the same terms as the previous agreements. Each new ongoing investment management agreement, was approved by the shareholders of each Fund and took effect on November 13, 2007.

The investors led by Madison Dearborn includes as affiliate of Merrill Lynch. As a result, Merrill Lynch is an indirect affiliated person (as that term is defined in the Investment Company Act of 1940) of each Fund. Certain conflicts of interest may arise as a result of such indirect affiliation. For example, the Funds are generally prohibited from entering into principal transactions with Merrill Lynch and its affiliates. The Adviser does not believe that any such prohibitions or limitations as a result of Merrill Lynch s affiliation with significantly impact the ability of the Funds to pursue their investment objectives and policies.

6. Senior Loan Commitments

Unfunded Commitments

Pursuant to the terms of certain of the variable rate senior loan agreements, the Funds may have unfunded senior loan commitments. Each Fund will maintain with the custodian, cash, liquid securities and/or liquid senior loans having an aggregate value at least equal to the amount of unfunded senior loan commitments. At July 31, 2008, Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) had unfunded senior loan

commitments of \$1,651,326, \$4,081,575 and \$2,182,842, respectively.

Participation Commitments

With respect to the senior loans held in each Fund's portfolio, the Funds may: 1) invest in assignments; 2) act as a participant in primary lending syndicates; or 3) invest in participations. If a Fund purchases a participation of a senior loan interest, the Fund would typically enter into a contractual agreement with the lender or other third party selling the participation, rather than directly with the Borrower. As such, the Fund not only assumes the credit risk of the Borrower, but also that of the Selling Participant or other persons interpositioned between the Fund and the Borrower. At July 31, 2008, there were no such outstanding participation commitments in any of the Funds.

7. Borrowing Arrangements

Commercial Paper Program

Senior Income (NSL) had entered into a commercial paper program (\$110 million maximum) with Bank One's (currently JPMorgan) conduit financing agency, Falcon Asset Securitization Corp. (Falcon), whose sole purpose is the issuance of high grade commercial paper. For the period August 1, 2007 through May 15, 2008, the Fund had borrowed \$103 million, and on May 16, 2008, paid down the entire borrowing with the proceeds of a new borrowing facility described below. For the fiscal year ended July 31, 2008, the average daily balance outstanding and average annualized interest rate for funding and program usage fees on these borrowings were \$81,612,022 and 4.78%, respectively.

Notes to
FINANCIAL STATEMENTS (continued)

Refinancings

On May 16, 2008, Senior Income (NSL) paid down its \$103 million borrowing described in the aforementioned paragraph using \$13 million of available cash and \$90 million from a commercial paper program entered into with an affiliate of Citibank. For the fiscal year ended July 31, 2008, the average daily balance outstanding and average annualized interest rate on these borrowings were \$18,934,426 and 2.84%, respectively.

On May 16, 2008, Floating Rate Income (JFR) entered into a \$235 million commercial paper program with an affiliate of Citibank. On May 16, 2008, June 10, 2008 and July 3, 2008, Floating Rate Income (JFR) utilized \$110 million, \$110 million and \$15 million, respectively, of the facility with Citibank to redeem at liquidation value \$235 million of its outstanding FundPreferred shares. For the fiscal year ended July 31, 2008, the average daily balance outstanding and average annualized interest rate on these borrowings were \$39,959,016 and 2.82%, respectively.

On May 16, 2008, Floating Rate Income Opportunity (JRO) entered into a \$140 million commercial paper program with an affiliate of Citibank. On May 16, 2008, June 10, 2008 and July 3, 2008, Floating Rate Income Opportunity (JRO) utilized \$66 million, \$66 million and \$8 million, respectively, of the facility with Citibank to redeem at liquidation value \$140 million of its outstanding FundPreferred shares. For the fiscal year ended July 31, 2008, the average daily balance outstanding and average annualized interest rate on these borrowings were \$23,896,175 and 2.84%, respectively.

Interest expense and program usage fees incurred on these borrowing arrangements is recognized as Interest expense on borrowings and amortization of borrowing costs on the Statement of Operations.

8. New Accounting Pronouncement

Financial Accounting Standards Board Statement of Financial Accounting Standards (SFAS) No. 157

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of July 31, 2008, management does not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the Statement of Operations for the period.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities. This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for

fiscal years and interim periods beginning after November 15, 2008. As of July 31, 2008, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

** Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Annual Investment
Management Agreement
APPROVAL PROCESS

The Investment Company Act of 1940, as amended (the *1940 Act*), provides, in substance, that each investment advisory agreement between a fund and its investment adviser (including sub-advisers) will continue in effect from year to year only if its continuance is approved at least annually by the fund's board members, including by a vote of a majority of the board members who are not parties to the advisory agreement or interested persons of any parties (the *Independent Board Members*), cast in person at a meeting called for the purpose of considering such approval. In connection with such approvals, the fund's board members must request and evaluate, and the investment adviser is required to furnish, such information as may be reasonably necessary to evaluate the terms of the advisory agreement. Accordingly, at a meeting held on May 28-29, 2008 (the *May Meeting*), the Boards of Trustees (each, a *Board* and each Trustee, a *Board Member*) of the Funds, including a majority of the Independent Board Members, considered and approved the continuation of the advisory and sub-advisory agreements of the Funds for an additional one-year period. These agreements include the investment advisory agreements between Nuveen Asset Management (*NAM*) and each Fund and the sub-advisory agreements between NAM and Symphony Asset Management LLC (the *Sub-Adviser*). In preparation for their considerations at the May Meeting, the Board also held a separate meeting on April 23, 2008 (the *April Meeting*). Accordingly, the factors considered and determinations made regarding the renewals by the Independent Board Members include those made at the April Meeting.

In addition, in evaluating the applicable advisory agreements (each an *Investment Management Agreement*) and sub-advisory agreements (each a *Sub-Advisory Agreement*, and each Investment Management Agreement and Sub-Advisory Agreement, an *Advisory Agreement*), as described in further detail below, the Independent Board Members reviewed a broad range of information relating to the Funds, NAM and the Sub-Adviser (NAM and the Sub-Adviser are each a *Fund Adviser*), including absolute performance, fee and expense information for the Funds as well as comparative performance, fee and expense information for a comparable peer group of funds, the performance information of recognized and/or customized benchmarks (as applicable), the profitability of Nuveen for its advisory activities (which includes its wholly owned subsidiaries), and other information regarding the organization, personnel, and services provided by the respective Fund Adviser. The Independent Board Members also met quarterly as well as at other times as the need arose during the year and took into account the information provided at such meetings and the knowledge gained therefrom. Prior to approving the renewal of the Advisory Agreements, the Independent Board Members reviewed the foregoing information with their independent legal counsel and with management, reviewed materials from independent legal counsel describing applicable law and their duties in reviewing advisory contracts, and met with independent legal counsel in private sessions without management present. The Independent Board Members considered the legal advice provided by independent legal counsel and relied upon their knowledge of the Fund Adviser, its services and the Funds resulting from their meetings and other interactions throughout the year and their own business judgment in determining the factors to be considered in evaluating the Advisory Agreements. Each Board Member may have accorded different weight to the various factors in reaching his or her conclusions with respect to a Fund's Advisory Agreements. The Independent Board Members did not identify any single factor as all-important or controlling. The Independent Board Members' considerations were instead based on a comprehensive consideration of all the information presented. The principal factors considered by the Board and its conclusions are described below.

A. Nature, Extent and Quality of Services

In considering the renewal of the Investment Management Agreements, the Independent Board Members considered the nature, extent and quality of the Fund Adviser's services, including advisory services and administrative services. The Independent Board Members reviewed materials outlining, among other things, NAM's organization and business; the types of services that NAM or its affiliates provide and are expected to provide to the Funds; the performance record of the applicable Fund (as described in further detail below); and any initiatives Nuveen had taken for the applicable fund product line. With respect to personnel, the Independent

48

Board Members evaluated the background, experience and track record of the Fund Adviser's investment personnel. In this regard, the Independent Board Members considered the additional investment in personnel to support Nuveen fund advisory activities, including in operations, product management and marketing as well as related fund support functions, including sales, executive, finance, human resources and information technology. The Independent Board Members also reviewed information regarding portfolio manager compensation arrangements to evaluate NAM's ability to attract and retain high quality investment personnel.

In evaluating the services of NAM, the Independent Board Members also considered NAM's oversight of the performance, business activities and compliance of the Sub-Adviser, the ability to supervise the Funds' other service providers and given the importance of compliance, NAM's compliance program. Among other things, the Independent Board Members considered the report of the chief compliance officer regarding the Funds' compliance policies and procedures.

In addition to advisory services, the Independent Board Members considered the quality of administrative services provided by NAM and its affiliates including product management, fund administration, oversight of service providers, shareholder services, administration of Board relations, regulatory and portfolio compliance and legal support.

In considering the renewal of the Sub-Advisory Agreements, the Independent Board Members reviewed an evaluation of the Sub-Adviser from NAM, including information as to the process followed by NAM in evaluating sub-advisers. The evaluation also included information relating to the Sub-Adviser's organization, operations, personnel, assets under management, investment philosophy, strategies and techniques in managing the Funds, developments affecting the Sub-Adviser, and an analysis of the Sub-Adviser. As described in further detail below, the Board considered the performance of each Fund. The Board also recognized that the Sub-Advisory Agreements were essentially agreements for portfolio management services only and the Sub-Adviser was not expected to supply other significant administrative services to the Funds. During the last year, the Independent Board Members noted that they visited several sub-advisers to the Nuveen funds, meeting their key investment and business personnel. In this regard, during 2007, the Independent Board Members visited the Sub-Adviser. The Independent Board Members also noted that they anticipate visiting each sub-adviser to the Nuveen funds at least once over the course of a multiple-year rotation. The Independent Board Members further noted that NAM recommended the renewal of the applicable Sub-Advisory Agreements and considered the basis for such recommendations and any qualifications in connection therewith.

In addition to the foregoing services, the Independent Board Members also noted the additional services that NAM or its affiliates provide to closed-end funds, including, in particular, its secondary market support activities and the costs of such activities. The Independent Board Members recognized Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a variety of programs designed to raise investor and analyst awareness and understanding of closed-end funds. These efforts include maintaining an investor relations program to timely provide information and education to financial advisers and investors; providing advertising and marketing for the closed-end funds; maintaining its closed-end fund website; and providing educational seminars. With respect to closed-end funds that utilize leverage through the issuance of auction rate preferred securities (*ARPS*), the Board has recognized the unprecedented market conditions in the auction rate market industry with the failure of the auction process. The Independent Board Members noted Nuveen's efforts and the resources and personnel employed to analyze the situation, explore potential alternatives and develop and implement solutions that serve the interests of the affected funds and all of their respective shareholders. The Independent Board Members further noted Nuveen's commitment and efforts to keep investors and financial advisers informed as to its progress in addressing the ARPS situation through, among other things, conference calls, press releases, and information posted on its website as well as its refinancing activities. The Independent Board Members

also noted Nuveen's continued support for holders of preferred shares of its closed-end funds by, among other things, seeking distribution for preferred shares with new market participants, managing relations with remarketing agents and the broker community, maintaining the leverage and risk management of leverage and maintaining systems necessary to test compliance with rating agency criteria.

Annual Investment
Management Agreement
APPROVAL PROCESS (continued)

Based on their review, the Independent Board Members found that, overall, the nature, extent and quality of services provided (and expected to be provided) to the respective Funds under the Investment Management Agreement or Sub-Advisory Agreement, as applicable, were satisfactory.

B. The Investment Performance of the Funds and Fund Advisers

The Board considered the investment performance of each Fund, including the Fund's historic performance as well as its performance compared to funds with similar investment objectives (the *Performance Peer Group*) based on data provided by an independent third party (as described below). In addition, the Independent Board Members reviewed the respective Fund's historic performance compared to recognized and/or customized benchmarks (as applicable).

In evaluating the performance information, the Board considered whether the Fund has operated within its investment objectives and parameters and the impact that the investment mandates may have had on performance. In addition, in comparing a Fund's performance with that of its Performance Peer Group, the Independent Board Members took into account that the closest Performance Peer Group in certain instances may not adequately reflect the respective fund's investment objectives and strategies thereby hindering a meaningful comparison of the fund's performance with that of the Performance Peer Group.

The Independent Board Members reviewed performance information including, among other things, total return information compared with the Fund's Performance Peer Group as well as recognized and/or customized benchmarks (as appropriate) for the one-, three- and five-year periods (as applicable) ending December 31, 2007 and with the Fund's Performance Peer Group for the quarter, one-, three-, and five- year periods ending March 31, 2008 (as applicable). This information supplemented the Fund performance information provided to the Board at each of its quarterly meetings. Based on their review, the Independent Board Members determined that the respective Fund's investment performance over time had been satisfactory.

C. Fees, Expenses and Profitability

1. Fees and Expenses

The Board evaluated the management fees and expenses of each Fund reviewing, among other things, such Fund's gross management fees (which take into account breakpoints), net management fees (which take into account fee waivers or reimbursements) and total expense ratios (before and after expense reimbursements and/or waivers) in absolute terms as well as compared to the gross management fees, net management fees (after waivers and/or reimbursements) and total expense ratios (before and after waivers) of a comparable universe of unaffiliated funds based on data provided by an independent data provider (the *Peer Universe*) and/or a more focused subset of funds therein (the *Peer Group*). The Independent Board Members further reviewed data regarding the construction of Peer Groups as well as the methods of measurement for the fee and expense analysis and the performance analysis. In reviewing the comparisons of fee and expense information, the Independent Board Members took into account that in certain instances various factors such as the size of the Fund relative to peers, the size and particular composition of the Peer Group, the investment objectives of the peers, expense anomalies, and the timing of information used may impact the comparative data, thereby limiting the ability to make a meaningful comparison. The Independent Board Members also considered, among other things, the differences in the use of leverage. In addition, in reviewing the fee schedule for a Fund, the Independent Board Members considered the fund-level and complex-wide breakpoint schedules (described in further detail below) and any fee waivers and reimbursements provided by Nuveen

(applicable, in particular, for certain closed-end funds launched since 1999). Based on their review of the fee and expense information provided, the Independent Board Members determined that each Fund's management fees and net total expense ratio were reasonable in light of the nature, extent and quality of services provided to the Fund.

50

2. Comparisons with the Fees of Other Clients

The Independent Board Members further reviewed information regarding the nature of services and fee rates offered by NAM to other clients. Such clients include separately managed accounts (both retail and institutional accounts) and funds that are not offered by Nuveen but are sub-advised by one of Nuveen's investment management teams. In evaluating the comparisons of fees, the Independent Board Members noted that the fee rates charged to the Funds and other clients vary, among other things, because of the different services involved and the additional regulatory and compliance requirements associated with registered investment companies, such as the Funds. Accordingly, the Independent Board Members considered the differences in the product types, including, but not limited to, the services provided, the structure and operations, product distribution and costs thereof, portfolio investment policies, investor profiles, account sizes and regulatory requirements. The Independent Board Members noted, in particular, that the range of services provided to the Funds (as discussed above) is much more extensive than that provided to separately managed accounts. Given the inherent differences in the products, particularly the extensive services provided to the Funds, the Independent Board Members believe such facts justify the different levels of fees.

In considering the fees of the Sub-Adviser, the Independent Board Members also considered the pricing schedule or fees that the Sub-Adviser charges for similar investment management services for other fund sponsors or clients (such as retail and/or institutional managed accounts) as applicable. The Independent Board Members also reviewed the fees the Sub-Adviser assesses for equity and taxable fixed-income hedge funds and hedge accounts it manages, which include a performance fee.

3. Profitability of Fund Advisers

In conjunction with its review of fees, the Independent Board Members also considered the profitability of Nuveen for its advisory activities (which incorporated Nuveen's wholly-owned affiliated sub-advisers) and its financial condition. The Independent Board Members reviewed the revenues and expenses of Nuveen's advisory activities for the last two years and the allocation methodology used in preparing the profitability data. The Independent Board Members noted this information supplemented the profitability information requested and received during the year to help keep them apprised of developments affecting profitability (such as changes in fee waivers and expense reimbursement commitments). In this regard, the Independent Board Members noted that they had also appointed an Independent Board Member as a point person to review and keep them apprised of changes to the profitability analysis and/or methodologies during the year. The Independent Board Members considered Nuveen's profitability compared with other fund sponsors prepared by two independent third party service providers as well as comparisons of the revenues, expenses and profit margins of various unaffiliated management firms with similar amounts of assets under management prepared by Nuveen.

In reviewing profitability, the Independent Board Members recognized the subjective nature of determining profitability which may be affected by numerous factors including the allocation of expenses. Further, the Independent Board Members recognized the difficulties in making comparisons as the profitability of other advisers generally is not publicly available and the profitability information that is available for certain advisers or management firms may not be representative of the industry and may be affected by, among other things, the adviser's particular business mix, capital costs, types of funds managed and expense allocations.

Notwithstanding the foregoing, the Independent Board Members reviewed Nuveen's methodology and assumptions for allocating expenses across product lines to determine profitability. In reviewing profitability, the Independent Board Members recognized Nuveen's investment in its fund business.

Based on its review, the Independent Board Members concluded that Nuveen's level of profitability for its advisory activities was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Independent Board Members also considered other amounts paid to a Fund Adviser by the Funds as well as any indirect benefits (such as soft dollar arrangements, if any) the Fund Adviser and its affiliates receive, or are expected to receive, that are directly attributable to the management of the Funds, if any. See Section E below for additional information on indirect benefits the

Annual Investment
Management Agreement
APPROVAL PROCESS (continued)

Fund Adviser may receive as a result of its relationship with the Funds. Based on their review of the overall fee arrangements of each Fund, the Independent Board Members determined that the advisory fees and expenses of the respective Fund were reasonable.

D. Economies of Scale and Whether Fee Levels Reflect These Economies of Scale

With respect to economies of scale, the Independent Board Members recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base. The Independent Board Members therefore considered whether the Funds have appropriately benefited from any economies of scale and whether there is potential realization of any further economies of scale. In considering economies of scale, the Independent Board Members have recognized that economies of scale are difficult to measure and predict with precision, particularly on a fund-by-fund basis. Notwithstanding the foregoing, one method to help ensure the shareholders share in these benefits is to include breakpoints in the advisory fee schedule. Accordingly, the Independent Board Members reviewed and considered the fund-level breakpoints in the advisory fee schedules that reduce advisory fees. In this regard, given that the Funds are closed-end funds, the Independent Board Members recognized that although the Funds may from time to time make additional share offerings, the growth in their assets will occur primarily through appreciation of each such Fund's investment portfolio.

In addition to fund-level advisory fee breakpoints, the Board also considered the Funds' complex-wide fee arrangement. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex, including the Funds, are reduced as the assets in the fund complex reach certain levels. In evaluating the complex-wide fee arrangement, the Independent Board Members recognized that the complex-wide fee schedule was recently revised in 2007 to provide for additional fee savings to shareholders and considered the amended schedule. The Independent Board Members further considered that the complex-wide fee arrangement seeks to provide the benefits of economies of scale to fund shareholders when total fund complex assets increase, even if assets of a particular fund are unchanged or have decreased. The approach reflects the notion that some of Nuveen's costs are attributable to services provided to all its funds in the complex and therefore all funds benefit if these costs are spread over a larger asset base. Based on their review, the Independent Board Members concluded that the breakpoint schedule and complex-wide fee arrangement were acceptable and desirable in providing benefits from economies of scale to shareholders.

E. Indirect Benefits

In evaluating fees, the Independent Board Members received and considered information regarding potential fall out or ancillary benefits the respective Fund Adviser or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Independent Board Members considered revenues received by affiliates of NAM for serving as agent at Nuveen's preferred trading desk and for serving as a co-manager in the initial public offering of new closed-end exchange traded funds.

In addition to the above, the Independent Board Members considered whether the Fund Adviser received any benefits from soft dollar arrangements whereby a portion of the commissions paid by a Fund for brokerage may be used to acquire research that may be useful to the Fund Adviser in managing the assets of the Funds and other clients. With respect to NAM, the Independent Board Members noted that NAM does not currently have any soft dollar arrangements; however, to the extent certain bona fide agency transactions that occur on markets that traditionally trade on a principal basis and riskless principal transactions are considered as generating commissions, NAM intends to comply with the applicable safe harbor provisions.

The Independent Board Members also considered that the Sub-Adviser currently does not enter into soft dollar arrangements; however, it has adopted a soft dollar policy in the event it does so in the future.

Based on their review, the Independent Board Members concluded that any indirect benefits received by a Fund Adviser as a result of its relationship with the Funds were reasonable and within acceptable parameters.

F. Other Considerations

The Independent Board Members did not identify any single factor discussed previously as all-important or controlling. The Board Members, including the Independent Board Members, unanimously concluded that the terms of the Investment Management Agreements and Sub-Advisory Agreements are fair and reasonable, that the respective Fund Adviser's fees are reasonable in light of the services provided to each Fund and that the Investment Management Agreements and the Sub-Advisory Agreements be renewed.

Board Members & OFFICERS

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board Members of the Funds. The number of board members of the Fund is currently set at eight. None of the board members who are not interested persons of the Funds has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

- (1) Board Members serve three year terms, except for two board members who are elected by the holders of Preferred Shares. The Board of Trustees is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the next annual shareholders meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) Mr. Amboian and Mr. Toth were appointed to the Board of Trustees of certain Nuveen Funds, effective July 1, 2008, and were subsequently elected to the Boards of the remaining Nuveen Funds on July 28, 2008. In connection with the appointment of Mr. Amboian as trustee, Timothy R. Schwertfeger, an interested trustee, resigned from the Board of Trustees, effective July 1, 2008.

- (3) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (4) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
- (5) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Reinvest Automatically
EASILY and CONVENIENTLY

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Dividend Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you will be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you will receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Glossary of
TERMS USED in this REPORT

- n ***Average Annual Total Return:*** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in common share NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- n ***Market Yield (also known as Dividend Yield or Current Yield):*** Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.
- n ***Net Asset Value (NAV):*** A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. [There were no amendments to or waivers from the Code during the period covered by this report.] The registrant has posted the code of ethics on its website at www.nuveen.com/etf. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one audit committee financial expert (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is independent for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser (SCI). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the CFO) and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN FLOATING RATE INCOME OPPORTUNITY FUND

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the pre-approval exception). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

¹ Audit Fees are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

² Audit Related Fees are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under Audit Fees.

³ Tax Fees are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

⁴ All Other Fees are the aggregate fees billed for products and services for agreed upon procedures engagements performed for leveraged funds.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management (NAM or the Adviser), and any entity controlling, controlled by or under common control with NAM (Control Affiliate) that provides ongoing services to the Fund (Affiliated Fund Service Provider), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Non-Audit Fees billed to Adviser for both fiscal year ends represent Tax Fees billed to Adviser in their respective amounts from the previous table.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Jack B. Evans, David J. Kundert and William J. Schneider.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Edgar Filing: Nuveen Floating Rate Income Opportunity Fund - Form N-CSR

The Adviser has engaged Symphony Asset Management, LLC (Symphony), an affiliate of the Adviser, as Sub-Adviser to provide discretionary investment advisory services. As part of these services, the Adviser has also delegated to the Sub-Adviser the full responsibility for proxy voting and related duties in accordance with the Sub-Adviser's policies and procedures. The Adviser will periodically monitor the Sub-Adviser's voting to ensure that the Sub-Adviser is carrying out its duties. The Sub-Adviser's proxy voting policies and procedures are summarized in the following paragraphs.

Symphony uses the proxy voting services of Institutional Shareholder Services (ISS). The ISS Proxy Voting Services provide Symphony and its clients with an independent source of proxy voting research and services. The use of ISS is designed to offer client-centered proxy voting which minimizes conflicts of interests between Symphony's interests and those of its clients.

In order to monitor how ISS votes client proxies, Symphony has established a Proxy Voting Review Committee (the Committee). The Committee is composed of Symphony's Chief Operating Officer and its Chief Investment Officer. Each year, the Committee reviews ISS proxy voting policies and practices to determine whether such policies and practices are consistent with Symphony's fiduciary duty to the clients for whom Symphony is responsible for voting proxies. During the year, the Committee review how ISS votes on specific issues. From time to time, the Committee discusses the proxy voting process with representatives of ISS in order to ensure that Symphony's client interests are being protected. When Symphony disagrees with ISS's policies with respect to certain issues, Symphony will direct the voting of its clients' proxies according to what Symphony believes is the best interests of its clients.

Clients who have questions about how particular proxies are voted for their account may request such information from Symphony by calling (415) 676-4000.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Symphony Asset Management (also referred to as Sub-Adviser) as Sub-Adviser to provide discretionary investment advisory services. The following section provides information on the portfolio managers of the Sub-Adviser.

SYMPHONY ASSET MANAGEMENT

A. PORTFOLIO MANAGER BIOGRAPHIES

Gunther Stein, Director of Fixed Income Strategies, Portfolio Manager

Gunther Stein is the lead portfolio manager for both high yield and convertible bond strategies at Symphony Asset Management as well as the lead portfolio manager of Nuveen's senior loan asset management team. Prior to joining Symphony in 1999, Stein was a high yield portfolio manager at Wells Fargo Bank, where he was responsible for investing in public high yield bonds and bank loans and also managed a team of credit analysts. Stein joined Wells Fargo in 1993 as an Associate in its Loan Syndications/Leveraged Finance Group. Previously, Stein worked for four years as a euro-currency deposit trader with First Interstate Bank. He has also worked for Standard Chartered Bank, Mexico City and Citibank Investment Bank, London. He completed Wells Fargo's Credit Management Training program and holds an M.B.A. from the University of Texas, Austin. He graduated from the University of California at Berkeley with a B.A. in Economics.

Lenny Mason, Portfolio Manager

Lenny Mason is a high yield portfolio manager for Symphony Asset Management and is also a portfolio manager on the Nuveen's senior loan asset management team. Prior to joining Symphony in 2001, Mason was a Managing Director in FleetBoston's Technology & Communications Group, where he headed its five member Structuring and Advisory Team. He joined FleetBoston in 1995 as an Assistant Vice President in its Media & Communications Group. Previously, Mason worked for Wells Fargo Bank's Corporate Banking Group dealing primarily with leveraged transactions and for Coopers & Lybrand as an auditor. He holds an M.B.A. in Finance from the University of Chicago, a B.S. in Accounting from Babson College and is also a C.P.A.

C. POTENTIAL MATERIAL CONFLICTS OF INTEREST

As described above, the portfolio managers may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the Sub-adviser may vary among these accounts and the portfolio managers may personally invest in some but not all of these accounts. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. A conflict may also exist if a portfolio manager identified a limited investment opportunity that may be appropriate for more than one account, but the Fund is not able to take full advantage of that opportunity due to the need to allocate that opportunity among multiple accounts. In addition, the portfolio managers may execute transactions for another account that may adversely impact the value of securities held by the Fund. However, the Sub-adviser believes that these risks are mitigated by the fact that accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and other factors. In addition, the Sub-adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

D. FUND MANAGER COMPENSATION

Symphony investment professionals receive competitive base salaries and participate in a bonus pool which is tied directly to the firm's operating income with a disproportionate amount paid to the managers responsible for generating the alpha. The bonus paid to investment personnel is based on acumen, overall contribution and strategy performance. However, there is no fixed formula which guides bonus allocations. Bonuses are paid on an annual basis. In addition, investment professionals may participate in an equity-based compensation pool.

E. OWNERSHIP OF JRO SECURITIES AS OF JULY 31, 2008.

Name of Portfolio Manager	Dollar range of equity securities beneficially owned in Fund
Lenny Mason	\$0
Gunther Stein	\$50,001 \$100,000

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act) (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the

exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/etf and there were no amendments during the period covered by this report. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then Code of Conduct.)

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
