Item 5. Other Events and Regulation FD Disclosure

On February 28, 2002, Bull Run Corporation (the Company) and its lenders amended the Company's bank credit facility in order to change the facility's maturity date from February 22, 2002 to March 29, 2002, and increase the maximum allowable borrowings through the maturity date under the Company's revolving credit facility from \$15,500,000 to \$20,000,000. In connection with this amendment, the Company's chairman agreed to increase his personal guarantee of the bank credit facility to a maximum amount of \$91 million of the Company's indebtedness to the bank lenders, which is currently \$89.4 million.

As disclosed in the Company's Form 10-Q for the period ended December 31, 2001, the Company believes that it will be able to reach an acceptable agreement with its bank lenders on the terms of a long-term refinancing of the credit facility prior to the facility's new maturity date. A long-term refinancing of the credit facility may involve a significant reduction in the total amount of financing available from the bank lenders, and the Company believes it has the ability to successfully achieve such a reduction within a time frame acceptable to its bank lenders. The Company has reduced its bank term debt by over \$20 million during the current fiscal year as a result of the sale of certain investment assets and the issuance of new equity to affiliated parties.

Certain statements in this Current Report on Form 8-K are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guaranties of future performance and actual results may differ materially from those forecasted.
