## **Section 1 Registrant's Business and Operations**

### **Item 1.01 Entry into a Material Definitive Agreement**

Effective September 29, 2005, the Company's Irish subsidiary, SIFCO Turbine Components Limited ( Borrower ), entered into a Debt Purchase Agreement and certain related agreements (collectively, the Agreement ) with the Governor and Company of the Bank of Ireland ( Bank ). The Agreement expires on September 26, 2006 and covers eligible accounts receivable of the Company's Irish subsidiary as defined in the Agreement. The maximum amount of this facility is approximately \$3.6 million (3,000,000 euro) and the facility's discounting rate is (i) the Bank's prime rate plus 2% (4.65% at September 29, 2005) on euro denominated accounts receivable; (ii) the Bank's cost of funds plus 2.5% (3.55% at September 29, 2005) on U.S. dollar denominated accounts receivable and (iii) the Bank's cost of funds plus 2.5% (7.125% at September 29, 2005) on British sterling denominated accounts receivable.

The Agreement provides for certain events of default, including failure to pay any sum due to the Bank, failure to comply with covenants, a breach of any representation or warranty made by Borrower, bankruptcy, insolvency, cessation of business, and the occurrence of a material adverse change in the business condition of Borrower. Upon an event of default, the Bank may terminate the Agreement and all outstanding accounts receivable purchased by Bank will be repayable by Borrower to Bank at their recourse price as defined in the Agreement. This facility is secured by one of the Borrower's buildings.

This facility increases the Company's consolidated borrowing capacity to approximately \$9.6 million, subject to adequacy of collateral. The initial proceeds from this facility of \$2.3 million were used to repay a portion of the Borrower's intercompany indebtedness. The Company applied this payment to the outstanding balance under its \$6.0 million revolving credit agreement.
