# TASTY BAKING COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

#### 1. Interim Financial Information

In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of the company as of June 30, 2001 and December 30, 2000, the results of its operations for the twenty-six weeks ended June 30, 2001 and June 24, 2000 and cash flows for the twenty-six weeks ended June 30, 2001 and June 24, 2000. These unaudited consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto in the company's 2000 Annual Report to Shareholders. In addition, the results of operations for the twenty-six weeks ended June 30, 2001 are not necessarily indicative of the results to be expected for the full year.

Certain expense items are charged to operations in the year incurred. However, for interim reporting purposes the expenses are charged to operations on a pro-rata basis over the company's accounting periods. For the twenty-six weeks ended June 30, 2001 and June 24, 2000, the difference between the actual expenses incurred and the expenses charged to operations was not material.

#### 2. Net Income Per Common Share

Net income per common share is presented as basic and diluted earnings per share. Net income per common share - Basic is based on the weighted average number of common shares outstanding during the year. Net income per common share - Diluted is based on the weighted average number of common shares and dilutive potential common shares outstanding during the year. The company's dilutive potential common shares outstanding during the year result entirely from dilutive stock options. Potential common shares which would result from the exercise of stock options are not included in the computation of diluted per share amounts when the options' exercise price is greater than the average market price of the common shares.

#### TASTY BAKING COMPANY AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

\_\_\_\_\_\_

## Results of Operations

For the second quarter of 2001, the company realized net income of \$2,498,532 versus \$2,224,393 for the second quarter of 2000. Net income per share increased to \$.31 from \$.28 per share for the comparable quarter of 2000.

Net income for the twenty-six weeks ended June 30, 2001 was \$4,617,983 versus \$4,246,909 for the twenty-six weeks ended June 24, 2000. Net income per share increased to \$.57 in 2001 from \$.54 per share for 2000.

For the second quarter, gross sales increased 5.8% to \$66,520,073, compared to \$62,899,396 last year. The increase in gross sales for the second quarter of 2001 is primarily due to price increases instituted in the fourth quarter of 2000. Gross sales, less discounts and allowances, resulted in an increase in net sales of 3.1% to \$43,024,118, compared to \$41,718,372 reported last year. The percentage increase in net sales was lower than the percentage increase in gross sales due to the effect of returns and commissions.

Cost of sales, as a percentage of gross sales, was 40.7% and 41.9% for the second quarters of 2001 and 2000, respectively. The improvement in 2001 over 2000 can be attributed to the price increases.

The company has evaluated the utilization of certain fixed assets and has determined that their useful lives should be extended to seven years from five years. As a result, depreciation expense decreased by \$161,000 for the second quarter of 2001.

Selling, general and administrative expenses for the second quarter of 2001 increased by \$274,395 or 2.7% compared to the second quarter of 2000 generally as the result of expenses associated with market expansion.

Interest expense decreased for the second quarter of 2001 versus the second quarter of 2000 as a result of decreased average interest rates as well as lower average borrowing levels.

The effective tax rate was 36.7% for the quarter ended June 30, 2001 and 35.8% for the quarter ended June 24, 2000, which compares to a federal statutory rate of 34%. The difference between the effective rate and the statutory rate in the second quarter of 2001 was the effect of state taxes. The difference between the effective rate and the statutory rate in the second quarter of 2000 was the effect of state taxes partially offset by tax benefits arising from passive income.

7 of 10

#### Financial Condition

\_\_\_\_\_

The company has consistently demonstrated the ability to generate sufficient cash flow from operations. Bank borrowings, under various lines of credit

arrangements, are used to supplement cash flow from operations during periods of cyclical shortages.

For the twenty-six weeks ended June 30, 2001, net cash from operating activities increased by \$195,937 to \$3,632,859 from \$3,436,922 for the same period in 2000. The increase in 2001 compared to 2000 was due to an increase in net income and favorable non-cash adjustments to net income. These increases to cash from operating activities were offset by a negative change in assets and liabilities affecting operations consisting of an increase in accounts receivable and inventory offset by a decrease in cash paid for income taxes and an increase in accounts payable.

Net cash used for investing activities for the twenty-six weeks ended June 30, 2001 increased by \$644,438 relative to the same period in 2000. The increase was principally due to an increase in loans to owner/operators offset by a decrease in the purchase of equipment compared to the prior year.

Net cash from financing activities for the twenty-six weeks ended June 30, 2001 increased by \$1,028,261 relative to the same twenty-six weeks in 2000. The increase is primarily the result of proceeds from the sale of treasury stock through the exercise of executive stock options.

For the remainder of 2001 the company anticipates that cash flow from operations, along with the continued availability of bank lines of credit, the revolving credit agreement and other long-term financing, will provide sufficient cash to meet operating and financing requirements.

# Forward-Looking Statements

Certain statements in this filing that are not historical facts are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve risks and uncertainties, which could cause actual results to differ from those projected. Factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements include changes in general economic or business conditions, the availability of capital upon terms acceptable to the company, the availability and prices of raw materials, the level of demand for the company's products, legal proceedings to which the company is or may become a party, the actions of competitors and customers, changes in consumer tastes or eating habits, the success of plant modernization and business strategies implemented by the company, and the ability to develop and market in a timely and efficient manner new products which are accepted by consumers.

# Item 3. Quantitative and Qualitative Disclosure About Market Risk

The company has certain floating rate debt notes. Under current market conditions, the company believes that changes in interest rates would not have a material impact on the consolidated financial statements of the company. The company also has notes receivable from owner operators whose rates adjust every three years, and, therefore, would partially offset the fluctuations in the company's interest rates on its notes payable. The company also has the right to sell these notes receivable, and could use these proceeds to liquidate a corresponding amount of the debt notes payable.

8 of 10

TASTY BAKING COMPANY AND SUBSIDIARIES

#### PART II. OTHER INFORMATION

# Item 2. Changes in Securities and Use of Proceeds

During the quarter, the company sold 50,575 shares of its common stock to various officers and one former director of the company pursuant to the exercise of outstanding stock options. All shares were sold for cash and the aggregate price paid for the shares sold was \$558,987.50. The options were originally granted under the terms and conditions of the company's various stock option plans and the stock option awards made from time to time to directors. The original stock option awards and the subsequent sale of common stock by the company are exempt from registration as transactions by the issuer not involving a public offering as provided under Section 4(2) of the Securities Act of 1933, as amended, and the regulations and rulings thereunder. All proceeds from the sale of the common stock will be used for general corporate purposes.

#### Item 4. Submission of Matters to a Vote of Security Holders

- (a) The company's annual meeting of shareholders was held on April 27, 2001.
- (b) The directors elected at the meeting were:

	For	Against	Withheld
Philip J. Baur, Jr.	6,538,159		29 <b>,</b> 579
Judith M. Von Seldeneck	6,536,498		31,240

Other directors whose terms of office continued after the meeting are as follows: Carl S. Watts, Fred C. Aldridge, Jr., Esq., G. Fred DiBona, Jr., Ronald J. Kozich and John M. Pettine.

(c) Other matters voted upon at the meeting and the results of those votes were as follows:

	For	Against	Abstain
Adoption of the Tasty Baking Company Restricted Stock Incentive Plan	5,367,862	1,158,828	41,039
Approval of PricewaterhouseCoopers LLP, as independent certified public accountants	6,535,829	12,606	19 <b>,</b> 299

The foregoing matters are described in detail in the company's proxy statement dated March 30, 2001.

- Item 6. Exhibits and Reports on Form 8-K
  - (a) Exhibits: Exhibit 10 Tasty Baking Company Restricted Stock Incentive Plan
  - (b) Reports on Form 8-K

The company did not file a report on Form 8-K during the twenty-six weeks ended June 30, 2001.
