

BLUE CHIP VALUE FUND INC

Form N-30B-2

November 29, 2007

MANAGED DISTRIBUTION POLICY

The Blue Chip Value Fund, Inc. (the "Fund") has a Managed Distribution Policy. This policy is to make quarterly distributions of at least 2.5% of the Fund's net asset value ("NAV") to stockholders. This is the quarterly payment that Fund investors elect to receive in cash or reinvest in additional shares through the Fund's Dividend Reinvestment Plan. The Board of Directors believes this policy creates a predictable level of quarterly cash flow to Fund shareholders.

The table on the next page sets forth the estimated amounts of the most recent quarterly distribution and the cumulative distributions paid this fiscal year to date from the following sources: net investment income; net realized short term capital gains; net realized long term capital gain; and return of capital.

You should not necessarily draw any conclusions about the Fund's investment performance from the amount of the distributions, as summarized in the table on the next page, or from the terms of the Fund's Managed Distribution Policy.

The Fund estimates that it has distributed more than its income and capital gains; therefore, a portion of the distributions, as summarized in the table on the next page, may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." It is important to note that the Fund's investment adviser, Denver Investment Advisors LLC, seeks to minimize the amount of net realized capital gains, if consistent with the Fund's investment objective, to reduce the amount of income taxes incurred by our stockholders. This strategy can lead to greater levels of return of capital being paid out under the Managed Distribution Policy.

The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

The Fund's Managed Distribution Policy may be changed or terminated at the discretion of the Fund's Board of Directors without prior notice to stockholders. If, for example, the Fund's total distributions for the year result in taxable return of capital, the Fund's Board of Directors would consider that factor, among others, in determining whether to retain, alter or eliminate the Managed Distribution Policy. It is possible, that the Fund's market price may decrease if the Managed Distribution Policy is terminated. At this time, the Board has no intention of making any changes or terminating the Managed Distribution Policy.

The Investment Adviser's Commentary included in this report contains certain forward-looking statements about the factors that may affect the performance of the Fund in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Fund, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Fund. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

INVESTMENT ADVISER'S COMMENTARY

Dear Fellow Stockholders:

November 16, 2007

The Blue Chip Value Fund, Inc.'s net asset value rose 1.62% in the third quarter and was up 8.84% for the past three quarters of the year. The S&P 500 Index was up 2.03% and 9.13% for the same periods. The Fund's peer group as represented by the Lipper Large-Cap Core Index was up 1.85% for the quarter and 9.32% for the year to date. At the time this letter is being written, in early November, our year to date portfolio performance is behind that of the S&P 500 by approximately 2 percentage points. We are disappointed with these results.

This year our exposure to financial stocks has hurt our portfolio. Despite our research efforts, we underestimated the damage to earnings of banks, brokerage and insurance companies from the mortgage market turmoil. In response, we have reduced our exposure to these sectors of the market. It is not possible for us to forecast accurately the magnitude of the problem or the bottom point for these stocks. We believe, however, that at some point they should offer very good value.

In comparison to the financial stocks, the rest of our portfolio is performing much better. We have had especially good returns in capital goods, energy, commercial services and consumer staple stocks.

Individual stocks in our portfolio that have done well this year include Parker Hannifin, Nokia, Teva Pharmaceuticals, Transocean and Occidental Petroleum. Stocks that have done poorly year to date include, MBIA, Citigroup, Radian Group, Merrill Lynch, and Countrywide Financial. We have completely eliminated Radian and Countrywide from our portfolio.

Looking ahead we believe the next few months will be volatile as investors struggle to determine the magnitude of the mortgage problems to the economy. We do point out that there have been many crises in the past and we have navigated through them.

The U.S. and World economies are slowing and there is a meaningful debate about the likelihood of a recession in the U.S. There are powerful cross currents. For example the weak dollar has led to strong exports, but unemployment is beginning to grow.

We believe stocks are reasonably valued. Our economy is relatively stable because it is both diversified and service oriented. Therefore, we are cautiously optimistic about the year ahead. As always we are working hard to find good investments for the Fund.

Past performance is no guarantee of future results. Share prices will fluctuate, so that a share may be worth more or less than its original cost when sold. Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Rights offerings, if any, are assumed for purposes of this calculation to be fully subscribed under the terms of the rights offering. Please note that the Fund's total return shown above does not reflect the deduction of taxes that a stockholder would pay on Fund distributions or the sale of Fund shares. Current performance may be higher or lower than the total return shown above. Please visit our website at www.blu.com to obtain the most recent month end returns. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on the net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

Please Note: Performance calculations are as of the end of December each year and the current period end. Past performance is not indicative of future results. This chart assumes an investment of \$10,000 on 1/1/97. This chart does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

S&P 500 Index is a broad-based measurement of changes in stock market conditions based on the average performance of 500 widely held common stocks. It is an unmanaged index.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund's Dividend Reinvestment and Cash Purchase Plan offers stockholders the opportunity to reinvest dividends and capital gain distributions in additional shares of the Fund. A stockholder may also make additional cash investments under the Plan. There is no service charge for participation.

Participating stockholders will receive additional shares issued at a price equal to the net asset value per share as of the close of the New York Stock Exchange on the record date ("Net Asset Value"), unless at such time the Net Asset Value is higher than the market price of the Fund's common stock, plus brokerage commission. In this case, the Fund will attempt, generally over the next 10 business days (the "Trading Period"), to acquire shares of the Fund's common stock in the open market at a price plus brokerage commission which is less than the Net Asset Value. In the event that prior to the time such acquisition is completed, the market price of such common stock plus commission equals or exceeds the Net Asset Value, or in the event that such market purchases are unable to be completed by the end of the Trading Period, then the balance of the distribution shall be completed by issuing additional shares at Net Asset Value.

Participating stockholders may also make additional cash investments (minimum \$50 and maximum \$10,000 per month) by check or money order (or by wire for a \$10 fee) to acquire additional shares of the Fund. Please note, however, that these additional shares will be purchased at market value plus brokerage commission (without regard to net asset value) per share.

A stockholder owning a minimum of 50 shares may join the Plan by sending an Enrollment Form to the Plan Agent at Mellon Investor Services, 480 Washington Blvd., Jersey City, NJ 07310.

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends or distributions, even though the stockholder does not receive the cash. Participants must own at least 50 shares at all times.

A stockholder may elect to withdraw from the Plan at any time on 15-days' prior written notice, and receive future dividends and distributions in cash. There is no penalty for withdrawal from the Plan and stockholders who have withdrawn from the Plan may rejoin in the future.

The Fund may amend the Plan at any time upon 30-days prior notice to participants.

Additional information about the Plan may be obtained from Blue Chip Value Fund, Inc. by writing to 1225 17th Street, 26th Floor, Denver, CO 80202, by telephone at (800) 624-4190 or by visiting us at www.blu.com.

If your shares are registered with a broker, you may still be able to participate in the Fund's Dividend Reinvestment Plan. Please contact your broker about how to participate and to inquire if there are any fees which may be charged by the broker to your account.

(1) Unaudited.

(2) Per share amounts calculated based on average shares outstanding during the period.

(3) Total investment return is calculated assuming a purchase of common stock on the opening periods where there is an increase in the discount or a decrease in the premium of the market value to distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Rights offerings, if any, are assumed for purposes of this calculation to be fully subscribed under the terms of the rights offering. Please note that the Fund's total investment return does not reflect the deduction of taxes that a stockholder would pay on Fund distributions or the sale of Fund shares. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on the net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(5) For the period ended September 30, 2007 and years ended December 31, 2006, 2005 and 2004, the ratio of total expenses to average net assets excluding interest expense was 0.92% (annualized), 0.92%, 0.97% and 0.99% respectively. For all prior years presented, the interest expense if any, was less than 0.01%.

(6) Due to the timing of the quarterly ex-distribution dates, only two quarterly distributions were recorded during the nine months ended September 30, 2007.

Please see Note 6 concerning details for the October 2007 distribution.

(7) A portfolio turnover rate is the percentage computed by taking the lesser of purchases or sales of portfolio securities (excluding short-term investments) during the year and dividing it by the monthly average of the market value of the portfolio securities during the year. Purchases and sales of investment securities (excluding short-term securities) for the nine months ended September 30, 2007 were \$50,860,846 and \$58,543,227, respectively.

BLUE CHIP VALUE FUND, INC.

NOTES TO FINANCIAL STATEMENTS

September 30, 2007 (Unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Blue Chip Value Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation All securities of the Fund are valued as of the close of regular trading on the New York Stock Exchange ("NYSE"), currently 4:00 p.m. (Eastern Time), on each day that the NYSE is open. Listed securities are generally valued at the last sales price as of the close of regular trading on the NYSE. Securities traded on the National Association of Securities Dealers Automated Quotation ("NASDAQ") are generally valued at the NASDAQ Official Closing Price ("NOCP"). In the absence of sales and NOCP, such securities are valued at the mean of the bid and asked prices.

Securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors. Factors which may be considered when determining the fair value of a security include (a) the fundamental data relating to the investment; (b) an evaluation of the forces which influence the market in which the security is sold, including the liquidity and depth of the market; (c) the market value at date of purchase; (d) information as to any transactions or offers with respect to the security or comparable securities; and (e) any other relevant matters.

Investment Transactions Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investments are determined on the "specific identification" basis for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date. Interest income, which includes interest earned on money market funds, is accrued and recorded daily.

Federal Income Taxes The Fund intends to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no provision has been made for federal income taxes.

The tax character of the distributions paid was as follows:

	Nine Months Ended September 30, 2007		Year Ended December 31, 2006	
Distributions paid from:				
Ordinary income	\$	203,677	\$	960,443
Long-term capital gain		□		3,064,915
Return of capital		□		12,139,609
Undesignated		7,969,535		□
Total	\$	8,173,212	\$	16,164,967

The tax character of the distributions paid as □undesignated□ will be determined at the fiscal year ending December 31, 2007.

As of September 30, 2007, the components of distributable earnings on a tax basis were as follows:

Undistributed net investment income	\$	40,327
Accumulated net realized gain		5,860,392
Net unrealized appreciation/(depreciation)		38,906,153
Total	\$	44,806,872

The difference between book basis and tax basis is attributable to the tax deferral of losses on wash sales.

Distributions to Stockholders □ Distributions to stockholders are recorded on the ex-dividend date.

The Fund currently maintains a □managed distribution policy□ which distributes at least 2.5% of its net asset value quarterly to its stockholders. These fixed distributions are not related to the amount of the Fund□s net investment income or net realized capital gains or losses and will be classified to conform to the tax reporting requirements of the Internal Revenue Code.

Denver Investment Advisors LLC (□DenverIA□) generally seeks to minimize realized capital gain distributions without generating capital loss carryforwards. As such, if the Fund□s total distributions required by the fixed quarterly payout policy for the year exceed the Fund□s □current and accumulated earnings and profits,□ the excess will be treated as non-taxable return of capital, reducing the stockholder□s adjusted basis in his or her shares. Although capital loss carryforwards may offset any current year net realized capital gains, such amounts do not reduce the Fund□s □current earnings and profits.□ Therefore, to the extent that current year net realized capital gains are offset by capital loss carryforwards, such excess distributions would be classified as taxable ordinary income rather than non-taxable return of capital. In this situation, the Fund□s Board of Directors would consider that factor, among others, in determining whether to retain, alter or eliminate the □managed distribution policy.□ The Fund□s distribution policy may be changed or terminated at the discretion of the Fund□s Board of Directors. At this time, the Board of Directors has no plans to change the current policy.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. Actual results could differ from those estimates.

2. UNREALIZED APPRECIATION AND DEPRECIATION OF INVESTMENTS (TAX BASIS)

As of September 30, 2007:

Gross appreciation (excess of value over tax cost)	\$	40,109,951
Gross depreciation (excess of cost over tax value)		(1,203,798)
Net unrealized appreciation/(depreciation)	\$	38,906,153
Cost of investments for income tax purposes	\$	143,288,724

3. INVESTMENT ADVISORY AND ADMINISTRATION SERVICES

The Fund has an Investment Advisory Agreement with Denver Investment Advisors LLC (‘‘DenverIA’’), whereby a management fee is paid to DenverIA based on an annual rate of 0.65% of the Fund’s average weekly net assets up to \$100,000,000 and 0.50% of the Fund’s average weekly net assets in excess of \$100,000,000. The management fee is paid monthly based on the average of the net assets of the Fund computed as of the last business day the New York Stock Exchange is open each week. Certain officers and a director of the Fund are also officers of DenverIA.

ALPS Fund Services, Inc. (‘‘ALPS’’) and DenverIA serve as the Fund’s co-administrators. The Administrative Agreement includes the Fund’s administrative and fund accounting services. The administrative services fee is based on an annual rate for ALPS and DenverIA, respectively, of 0.0855% and 0.01% of the Fund’s average daily net assets up to \$75,000,000, 0.04%, and 0.005% of the Fund’s average daily net assets between \$75,000,000 and \$125,000,000, and 0.02% and 0.005% of the Fund’s average daily net assets in excess of \$125,000,000 plus certain out-of-pocket expenses. The administrative service fee is paid monthly.

The Directors have appointed a Chief Compliance Officer who is also Treasurer of the Fund and an employee of DenverIA. The Directors agreed that the Fund would reimburse DenverIA a portion of his compensation for his services as the Fund’s Chief Compliance Officer.

4. LOAN OUTSTANDING

The Fund has a line of credit with The Bank of New York Mellon (["BONY"]) in which the Fund may borrow up to the lesser of \$15,000,000 or the maximum amount the Fund is permitted to borrow under the Investment Company Act of 1940. The interest rate resets daily at overnight Federal Funds Rate plus 0.825%. The borrowings under the BONY loan are secured by a perfected security interest on all of the Fund's assets.

Details of the loan outstanding are as follows:

	As of September 30, 2007	Average for the Nine Months Ended September 30, 2007
Loan outstanding	\$ 10,525,000	\$ 11,320,192
Interest rate	5.76%*	6.04%
% of Fund's total assets	5.77%	6.21%
Amount of debt per share outstanding	\$ 0.37	\$ 0.40
Number of shares outstanding (in thousands)	28,333	28,220**

**Annualized

**Weighted average

5. NEW ACCOUNTING PRONOUNCEMENTS

Effective January 2, 2007, the Fund adopted FASB Interpretation No. 48 (["FIN 48"]) ["Accounting for Uncertainty in Income Taxes,"] which requires that the financial statement effects of a tax position taken or expected to be taken in a tax return be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. Management has concluded that the Fund has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of FIN 48. The Fund files income tax returns in the U.S. federal jurisdiction and the State of Colorado. For the years ended December 31, 2002 through December 31, 2006, the Fund's federal and Colorado returns are still open to examination by the appropriate taxing authority. However, to our knowledge there are currently no federal or Colorado income tax returns under examination.

In September 2006, the Financial Accounting Standards Board (["FASB"]) issued Statement of Financial Accounting Standards No. 157, ["Fair Value Measurements"] (["SFAS No. 157"]). SFAS No. 157 defines fair value for securities in the Fund's portfolio, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure about fair value measurement. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact adoption of SFAS No. 157 will have on the Fund's financial statement disclosures.

6. SUBSEQUENT EVENT

The Fund declared a distribution of \$0.15 per share on October 1, 2007. The distribution is payable on October 26, 2007. Of the total distribution, approximately \$0.0014 represents net investment income for the third quarter and the remaining undesignated portion is paid from capital surplus. If the Fund's total distributions for the year exceed its net investment income and net realized capital gains for the year, all or a portion of the undesignated distributions may constitute a non-taxable return of capital. A return of capital distribution would not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." As of September 30, 2007, the undesignated portion of the distribution would include approximately 35.87% from net realized capital gains and 63.20% from paid in capital. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of the year and may be subject to changes based on tax regulations.
