November 17, 2010

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended October 3, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from _____ to _____

Commission file number: 0-28234

Mexican Restaurants, Inc.
(Exact name of registrant as specified in its charter)

Texas
(State or other jurisdiction of
incorporation or organization)

76-0493269
(IRS Employer Identification Number)

12000 Aerospace Ave. Suite 400, Houston,
Texas
(Address of Principal Executive Offices)

77034
(Zip Code)

Registrant's telephone number, including area code: 832-300-5858

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant

Edgar Filing: MEXICAN RESTAURANTS INC - Form 10-Q

was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Number of shares outstanding of each of the issuer's classes of common stock, as of November 12, 2010: 3,413,099 shares, par value \$.01.

MEXICAN RESTAURANTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation

In the opinion of Mexican Restaurants, Inc. (the “Company”), the accompanying unaudited consolidated financial statements contain all adjustments (consisting only of normal recurring accruals and adjustments) necessary for a fair presentation of the consolidated financial position as of October 3, 2010, and the consolidated statements of operations and cash flows for the 13-week and 39-week periods ended October 3, 2010 and September 27, 2009. The consolidated statements of operations for the 13-week and 39-week periods ended October 3, 2010 and September 27, 2009 are not necessarily indicative of the results to be expected for the full year or any other interim period. During the interim periods, we follow the accounting policies described in the notes to our consolidated financial statements in the Annual Report and Form 10-K for the year ended January 3, 2010 filed with the Securities and Exchange Commission on April 1, 2010. Reference should be made to such consolidated financial statements for information on such accounting policies and further financial detail.

The Company classifies as discontinued operations for all periods presented any component of the Company’s business that the Company believes is probable of being sold within the next 12 months and that has operations and cash flows that are clearly distinguishable operationally and for financial reporting purposes. For those components, the Company has no significant continuing involvement after disposal, and their operations and cash flows are eliminated from ongoing operations. Sales of significant components of the Company’s business not classified as discontinued operations are reported as a component of income from continuing operations.

2. Going Concern

As of October 3, 2010, we were out of compliance with certain of our debt covenants with Wells Fargo Bank. Due to loan covenant defaults, the entire balance of \$4.4 million revolving line of credit payable to Wells Fargo Bank is included in current liabilities. If Wells Fargo Bank were to accelerate payment of the revolving line of credit payable and if we are not successful in raising additional operating capital, we would not have the ability to satisfy our liabilities in the normal course of business. As a result of the foregoing circumstances, we believe there is substantial doubt about our ability to continue as a going concern.

3. Income Taxes

In determining the provision for income taxes, the Company uses an estimated annual effective tax rate based on forecasted annual income and permanent items, statutory tax rates and tax planning opportunities in the various jurisdictions in which the Company operates. The impact of significant discrete items is separately recognized in the quarter in which they occur.

4. Stock-Based Compensation

At October 3, 2010, we had one equity-based compensation plan from which stock-based compensation awards can be granted to eligible employees, officers and directors, known as the 2005 Long Term Incentive Plan. A total of 425,000 shares have been authorized for issuance under this plan. The Company’s 1996 Long Term Incentive Plan, its Stock Option Plan for Non-Employee Directors and its 1996 Manager’s Stock Option Plan have each terminated in

accordance with its terms, but there are still options which remain exercisable under these plans until the earlier of ten years from the date of grant or no more than 90 days after the optionee ceases to be an employee of the Company. These Company plans are described in more detail in Note 5 of the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended January 3, 2010.

On May 22, 2009, restricted stock grants in the amount of 10,000 shares to the Company's President were granted pursuant to a May 22, 2007 agreement, with such shares vesting over a four-year period.

On December 15, 2009, restricted stock grants in the amount of 10,000 shares to one employee were granted pursuant to a December 15, 2006 agreement, with such shares vesting over a five-year period.

On May 24, 2010, restricted stock grants in the amount of 10,000 shares to the Company's President were granted pursuant to a May 22, 2007 agreement, with such shares vesting over a four-year period.

We receive a tax deduction for certain stock option exercises during the period in which the options are exercised. These deductions are generally for the excess of the price for which the options were sold over the exercise prices of the options. No stock options were exercised during the 13-week and 39-week periods ended October 3, 2010 and September 27, 2009.

5. Loss per Share

Basic loss per share is based on the weighted average shares outstanding without any dilutive effects considered. Diluted loss per share is calculated using the treasury stock method, which considers unrecognized compensation expense as well as the potential excess tax benefits that reflect the current market price and total compensation expense to be recognized. If the sum of the assumed proceeds, including the unrecognized compensation costs calculated under the treasury stock method, exceeds the average stock price, those options would be considered antidilutive and therefore excluded from the calculation of diluted income per share. For the 13-week and 39-week periods ended October 3, 2010, weighted-average shares outstanding, assuming dilution, excludes the impact of 1,072 and 1,242 common stock equivalents, respectively, due to our net loss position in those periods. For the 13-week and 39-week periods ended September 27, 2009, weighted-average shares outstanding, assuming dilution, excludes the impact of 2,975 and 1,938 common stock equivalents, respectively, due to our net loss position in those periods.

6. Long-term Debt

We entered into a Credit Agreement with Wells Fargo Bank, N.A. (“Wells Fargo”) in June 2007 (as amended, the “Wells Fargo Agreement”). The Wells Fargo Agreement provides for a revolving loan of up to approximately \$7.3 million, and has a maturity date of June 29, 2012. Effective January 3, 2010, the Wells Fargo Agreement was amended primarily to allow for the add-back of severance expense of \$190,000 that the Company incurred as part of its reduction in general and administrative expense to the Company’s calculation of rolling twelve-month cash flow. The January 3, 2010 amendment also reduced the revolver availability to \$6.0 million effective July 4, 2010. Effective April 4, 2010, the Wells Fargo Agreement was further amended to reduce the fixed charge coverage ratio from 1.20 to 1.10 through the first quarter of fiscal year 2011 and to increase the interest rate 50 basis points to LIBOR plus 325 basis points. For the second quarter of fiscal year 2011 and thereafter the fixed charge coverage ratio is increased to 1.20 and the interest rate remains at LIBOR plus 325 basis points.

As of October 3, 2010, we were in default of certain technical loan covenants on our revolving line of credit to Wells Fargo Bank. Therefore the amount owing under this facility is reflected as a current liability in the accompanying Consolidated Balance Sheet as of October 3, 2010.

Wells Fargo is not accelerating the loan at this time, but reserves the right to accelerate the loan in the future after the giving of notice. We will continue to work with Wells Fargo bank to meet compliance with future modified loan covenants. There can be no assurance that Wells Fargo will in the future agree to modify or waive any of the loan covenants or waive any of its rights or remedies under the Credit Agreement.

At our option, the revolving loan bears an interest rate equal to the Wells Fargo stated base rate plus a stipulated percentage or LIBOR plus a stipulated percentage. Accordingly, we are impacted by changes in the Wells Fargo base rate and LIBOR. We are subject to a non-use fee of 0.50% on the unused portion of the revolver from the date of the Wells Fargo Agreement. The Wells Fargo Agreement also allows up to \$2.0 million in annual stock repurchases. We have pledged the stock of our subsidiaries, our leasehold interests, our patents and trademarks and our furniture, fixtures and equipment as collateral for our credit facility with Wells Fargo.

7. Related Party Transactions

Our Vice Chairman of the Board of Directors owns a Casa Olé franchise restaurant for which the Company receives royalties. For the 13-week periods ended October 3, 2010 and September 27, 2009, the Company recognized royalty income of \$5,527 and \$5,660, respectively, related to this restaurant. For the 39-week periods ended October 3, 2010 and September 27, 2009, the Company recognized royalty income of \$16,863 and \$17,908, respectively, related to this restaurant.

On March 31, 2010 we sold 113,458 shares of common stock from our treasury shares to Michael D. Domec, a director of the Company and our largest shareholder, for \$277,972 or \$2.45 per share. The per share price was based upon a weighted average based on the preceding 30 days, and the transaction was exempt from registration under Section 4(2) of the Securities Act of 1933. We used the proceeds to pay down on our line of credit under the Wells Fargo Agreement.

8. Discontinued Operations

The results of operations, assets and liabilities for all units that have been disposed of are reclassified to discontinued operations in the consolidated statements of operations and balance sheets for all periods presented.

Current assets and liabilities related to discontinued operations consist primarily of rent receivable and property taxes for a closed restaurant for which we have subleased the restaurant.

During the first quarter of fiscal year 2010, we recognized \$181,543 of restaurant closure expense related to a subleased store that we have entered into negotiations with to reduce the aggregate future rent receipts under the terms of a proposed amendment to the sublease.

On April 7, 2009, we sold substantially all of the operating assets and liabilities of our La Seniorita restaurant chain (consisting of five site locations) located in Michigan for \$2,557,603 as adjusted under the terms of the purchase agreement. For the 39-week period ended September 27, 2009, we recognized a gain on this sale of \$386,502 net of allocated goodwill. Proceeds from the sale were used to pay down long-term debt. On January 24, 2009, we closed one underperforming Mission Burrito restaurant. The results of operations for fiscal year 2009 for the La Seniorita chain and the closed Mission Burrito restaurant have been reported as discontinued operations. During the 39-week period ended September 27, 2009, we recognized income from discontinued operations of \$36,021 from the sale of the chain and the closure of the Mission Burrito restaurant. Restaurant closure expense of \$190,941 for the 39-week period ended September 27, 2009, primarily reflect costs associated with the closure of the Mission Burrito restaurant.

9. Fair Value of Measurements

The carrying amount of receivables, accounts payables and accrued expenses approximates fair value because of the immediate or short-term maturity of these financial instruments. The fair value of long-term debt is determined using current applicable rates for similar instruments and approximates the carrying value of such debt.

10. Subsequent Events

On October 29, 2010, the Board of Directors of Mexican Restaurants, Inc. announced that its board of directors has approved the taking of definitive action to voluntarily delist its common stock on NASDAQ. Subsequent to the delisting, the Company intends to deregister its common stock and suspend its reporting obligations under the Securities Exchange Act of 1934 (the "Exchange Act"). The Company is taking these steps in order to avoid various public company costs, including Sarbanes-Oxley Act costs, that the Company believes disproportionately affect smaller publicly traded companies. The Company intends to maintain a market in its common shares by having the shares listed on a quotation service that does not require an issuer to be registered with the Securities and Exchange Commission ("SEC") such as the Pink Sheets, but currently has no arrangement for listing in place. The Company is eligible to deregister its common stock under the Exchange Act because it has fewer than 300 shareholders of record.

Notwithstanding the deregistration, the Company will continue to maintain a system of internal controls over financial reporting to ensure the continuing accuracy and reliability of results of operations reported to its shareholders. Following deregistration, the Company will no longer bear the financial burden of complying with the Exchange Act and the Sarbanes-Oxley Act of 2002, legal and auditor reviews of SEC disclosures, as well as accounting and other administrative expenses related to the Company's NASDAQ listing and SEC reporting requirements.

The Board of Directors believe that the Company's stockholders will be better served if the Company spends more of its financial resources and management's time on the Company's business without the substantial cost and time associated with having to comply with NASDAQ rules and SEC reporting obligations. The Board of Directors'

determination to delist, deregister and suspend its public reporting obligations followed extensive deliberations of the advantages and disadvantages of no longer being a public reporting company and careful consideration of the recommendations of an independent board committee and the advice of the Company's legal counsel and other outside advisors. The Board of Directors and management believe that the expense reductions inherent in delisting and deregistering the common stock will benefit the Company and its shareholders.

On November 8, 2010, we closed one underperforming Tortuga Coastal Cantina restaurant. We plan to renegotiate the terms of the lease related to this property with our landlord.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Note Regarding Forward-Looking Statements

This Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following: national, regional or local economic and real estate conditions; inflation; increased food, labor and benefit costs; growth strategy; dependence on executive officers; geographic concentration; increasing susceptibility to adverse conditions in the region; changes in consumer tastes and eating and discretionary spending habits; the risk of food-borne illness; demographic trends; inclement weather; traffic patterns; the type, number and location of competing restaurants; the availability of experienced management and hourly employees; seasonality and the timing of new restaurant openings; changes in governmental regulations; dram shop exposure; the potential consequences of delisting and deregistering the Company's stock; and other factors not yet experienced by the Company. The use of words such as "believes", "anticipates", "expects", "intends" and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying such statements. Readers are urged to carefully review and consider the various disclosures made by us in this report and in our most recently filed Annual Report and Form 10-K that attempt to advise readers of the risks and factors that may affect our business. We undertake no obligation to update any such statements or publicly announce any updates or revisions to any of the forward-looking statements contained herein, to reflect any change in our expectations with regard thereto or any change in events, conditions, circumstances or assumptions underlying such statements.

General

We operate and franchise Mexican-theme restaurants featuring various elements associated with the casual dining experience under the names Casa Olé, Monterey's Little Mexico, Tortuga Coastal Cantina and Crazy Jose's. We also operate fast casual burrito restaurants under the name Mission Burrito. At October 3, 2010, we operated 55 restaurants, franchised 16 restaurants and licensed one restaurant in various communities in Texas, Louisiana and Oklahoma. During the second quarter of 2010 one underperforming Casa Olé franchise location was closed.

Our primary source of revenues is the sale of food and beverages at Company-owned restaurants. We also derive revenues from franchise fees, royalties and other franchise-related activities with respect to our franchised restaurants. Franchise fee revenue from an individual franchise sale is recognized when all services relating to the sale have been performed and the restaurant has commenced operations. Initial franchise fees relating to area franchise sales are recognized ratably in proportion to the services that are required to be performed pursuant to the area franchise or development agreements and proportionately as the restaurants within the area are opened.

In October 2009, we implemented planned expense reductions to reduce general and administrative expenses to achieve a level of expense that management believes is sustainable through fiscal year 2010. In implementing the cost savings, severance pay of approximately \$190,000 was incurred related to staff reductions at the corporate office. Total cost savings of approximately \$1.1 million through fiscal year 2010 is expected from planned general and administrative expense reductions related to the decrease in corporate payroll costs as well as reduced marketing and other general and administrative costs.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Due to the classification of the entire Wells Fargo revolving line of credit payable as a current liability and the right of Wells Fargo to accelerate the required payment of the debt, we do not show the ability to fully satisfy our liabilities in the normal course of business without raising additional capital. At this time, it is not certain that we will be successful in raising sufficient

additional operating capital and in restructuring our debt obligation.

The accompanying financial statements do not include any adjustments relating to the recoverability and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern. Our continuation as a going concern is dependent upon on our ability to obtain additional operating capital, restructure our debt obligations and attain profitability.

Results of Operations

Revenues. Our restaurant revenues for the 13-week and 39-week periods of fiscal year 2010 decreased \$0.6 million or 3.6% and \$4.0 million or 7.3% to \$16.5 and \$50.2 million, respectively, compared with revenues of \$17.1 and \$54.2 million for the same respective periods in fiscal year 2009. The decrease in restaurant revenues primarily reflects a decrease in same-store sales. For the 13-week and 39-week periods ended October 3, 2010, Company-owned same-restaurant sales decreased approximately 4.5% and 7.9%, respectively. Franchised-owned restaurant sales, as reported by franchisees, decreased approximately 3.1% and 7.0%, respectively, over the same respective periods in fiscal 2009. We believe such decreases are a result of the continued weakness in the economy and its impact on consumers' dining habits.

Costs and Expenses. Costs of sales, consisting of food, beverage, liquor, supplies and paper costs, was 29.5% and 29.4% as a percentage of restaurant sales for the 13-week and 39-week periods of fiscal year 2010, respectively, compared with 29.0% and 28.5%, respectively, for the same respective periods of fiscal year 2009. The increase reflects higher comparative dairy and produce costs. In absolute dollars, cost of sales decreased \$96,941 and \$711,349, respectively, compared with the 13-week and 39-week periods of fiscal year 2009.

Labor and other related expenses for the 13-week and 39-week periods of fiscal 2010 increased as a percentage of restaurant sales 90 and 130 basis points to 35.0% and 34.5%, respectively, as compared with 34.1% and 33.2%, respectively, for the 13-week and 39-week periods of fiscal year 2009. The increase reflects labor cost leverage that is lost when same-store sales decline. The increase in labor also reflects our investment in the Starship Initiative, a program designed to retrain each restaurant's staff to perform at a higher level of hospitality, service and food quality standards. In absolute dollars, labor and other related expenses decreased \$76,162 and \$697,268, respectively, compared with the 13-week and 39-week periods of fiscal year 2009.

Restaurant operating expenses, which primarily include rent, property taxes, utilities, repair and maintenance, liquor taxes, property insurance, general liability insurance and advertising, increased as a percentage of restaurant sales 20 and 70 basis points to 26.1% and 26.0%, respectively, for the 13-week and 39-week periods of fiscal 2010 as compared with 25.9% and 25.3%, respectively, in the 13-week and 39-week periods of fiscal year 2009. The increase reflects cost leverage that is lost when same-store sales decline. Offsetting some of the increase, 13-week and 39-week period utilities and advertising expenses were approximately \$87,000 and \$405,000 lower, respectively, than the 13-week and 39-week periods of fiscal year 2009. In absolute dollars, restaurant operating expenses decreased \$114,475 and \$647,088, respectively, compared with the 13-week and 39-week periods of fiscal year 2009.

General and administrative expenses consist of expenses associated with corporate and administrative functions that support restaurant operations. As a percentage of total revenue, general and administrative expenses decreased 90 to 7.9% for the 13-week and 39-week periods of fiscal year 2010 as compared with 8.8% for the 13-week and 39-week periods of fiscal year 2009. In absolute dollars, general and administrative costs decreased \$214,168 and \$833,223, respectively, compared with the 13-week and 39-week periods of fiscal year 2009. General and administrative expenses decreased both as a percentage of total revenues and in absolute dollars due to the previously planned reductions in salaries, bonuses and most department expenses.

Depreciation and amortization expense include the depreciation of fixed assets and the amortization of intangible assets. Depreciation and amortization expense increased as a percentage of total sales 0 and 30 basis points, respectively, to 5.1% for the 13-week and 39-week periods of fiscal year 2010 as compared with 5.1% and 4.8%, respectively, for the 13-week and 39-week periods in fiscal year 2009. Such expense for the 13-week and 39-week periods of fiscal year 2010 were \$43,239 and \$75,063 lower, respectively, than for the 13-week and 39-week periods in fiscal year 2009.

Impairment and Restaurant Closure Expense. Long-lived assets, such as property and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

The consolidated statements of operations for the 13-week and 39-week periods ended October 3, 2010, includes a separate line item for impairment and restaurant closure expense of \$9,817 and \$21,235, respectively, primarily related to two under-performing restaurants operating in the Houston area. The consolidated statements of operations for the 13-week and 39-week periods ended September 27, 2009, include a separate line item for impairment and restaurant closure expense of \$116,937 and \$354,168, respectively. The impairments and closure expenses were primarily related to rent differential adjustments for two subleased restaurants located in Idaho, asset impairments for the corporate office, and to a lesser extent, two under-performing restaurants operating in the Houston area.

Loss on Involuntary Disposals. The consolidated statements of operations for the 13-week and 39-week periods ended September 27, 2009 include a separate line item for a loss of \$18,330 and \$26,127 respectively. The losses resulted from costs related to our Hurricane Ike insurance claim, partially offset by insurance proceeds received for the replacement of assets.

Loss on Sale of Property and Equipment. The consolidated statements of operations for the 13-week and 39-week periods ended October 3, 2010 include a separate line item for a loss of \$10,922 and \$24,300, respectively, primarily related to the routine disposal of restaurant assets. The consolidated statements of operations for the 13-week and 39-week periods ended September 27, 2009 include a separate line item for a loss of \$46,430 and \$120,126, respectively, primarily related to the routine disposal of restaurant assets.

Other Income (Expense). Net expense increased \$15,781 to \$48,094 in the 13-week period ended October 3, 2010 compared with a net expense of \$32,313 in the 13-week period ended September 27, 2009. Interest expense increased \$14,765 to \$54,635 in the 13-week period ended October 3, 2010 compared with interest expense of \$39,870 in the 13-week period ended September 27, 2009. Average debt was approximately \$.8 million lower in the 13-week period of fiscal year 2010 compared with the 13-week period of fiscal year 2009. The increase in interest expense reflects higher interest rates in the third quarter of fiscal year 2010 compared with interest rates in the third quarter of fiscal year 2009 offset by lower average debt outstanding for the 2010 third quarter.

Net expense increased \$2,144 to \$117,603 in the 39-week period ended October 3, 2010 compared with a net expense of \$115,459 in the 39-week period ended September 27, 2009. Interest expense increased \$16,022 to \$161,003 in the 39-week period ended October 3, 2010 compared with interest expense of \$144,981 in the 39-week period ended September 27, 2009. Average debt was approximately \$1.55 million lower in the first three quarters of fiscal year 2010 compared with the first three quarters of 2009. The increase in interest expense reflects higher interest rates in the first three quarters of fiscal year 2010 compared with interest rates in the first three quarters of fiscal year 2009 offset by lower average debt outstanding for the first three quarters of 2010.

Income Taxes. Our effective tax rate from continuing operations for the 13-week period ended October 3, 2010 was a benefit of 20.5% as compared to a benefit of 57.1% for the 13-week period ended September 27, 2009. The decrease in the effective rate is attributed primarily to an increase in permanent differences related to the true-up of the 2009 tax provision for the 13-week period ended October 3, 2010.

Our effective tax rate from continuing operations for the 39-week period ended October 3, 2010 was a benefit of 34.2% as compared to a benefit of 59.2% for the 39-week period ended September 27, 2009. The decrease in the effective rate is attributed primarily to an increase in permanent differences related to the true-up of the 2009 tax provision for the 39-week period ended October 3, 2010. Our effective tax rate from discontinued operations for the 39-week period ended October 3, 2010 was a benefit of 42.9% as compared to an expense of 121.4% for the 39-week period ended September 27, 2009. The decrease in the effective rate is attributed primarily to income tax expense in 2009 related to the sale of our La Seniorita chain in Michigan and a capital loss related to the La Seniorita sale that was fully reserved.

Discontinued Operations. During the first quarter of fiscal year 2010, we recognized \$181,543 of restaurant closure expense related to a previously subleased restaurant.

On April 7, 2009, we sold substantially all of the operating assets and liabilities of our La Seniorita restaurant chain (consisting of five site locations) located in Michigan for \$2,557,603 as adjusted under the terms of the purchase agreement. For the 39-week period ended September 27, 2009, we recognized a gain on this sale of \$386,502 net of allocated goodwill. Proceeds from the sale were used to pay down long-term debt. On January 24, 2009, we closed one underperforming Mission Burrito restaurant. The results of operations for fiscal year 2009 for the La Seniorita chain and the closed Mission Burrito restaurant have been reported as discontinued operations. During the 39-week

period ended September 27, 2009, we recognized income from discontinued operations of \$36,021 from the sale of the chain and the closure of the Mission Burrito restaurant. Restaurant closure expense of \$190,941 for the 39-week period ended September 27, 2009, primarily reflect costs associated with the closure of the Mission Burrito restaurant.

Liquidity and Capital Resources

We financed our capital expenditure requirements for the 39-week period ended October 3, 2010 primarily from our operating cash flows. In the 39-week period of fiscal year 2010, we had cash flows provided by operating activities of approximately \$1.8 million, compared with cash flows provided by operating activities of approximately \$1.8 million in the comparable 39-week period of fiscal year 2009. During the 39-week period ended October 3, 2010, we made draws of \$1.25 million and payments of \$2.0 million on our line of credit. Proceeds from the sale of common stock from Treasury and amended prior year federal tax returns contributed to the amount paid on the line of credit. As of October 3, 2010, we had a working capital deficit of approximately \$6.2 million compared with a working capital deficit of approximately \$700,000 at January 3, 2010.

Our principal capital requirements are the funding of routine capital expenditures and remodeling of units. During the 39-week period ended October 3, 2010, total cash used for capital requirements, net of proceeds from sale of property and equipment, was \$1,633,833, all used for continuing operations. Total cash used for capital requirements included \$1,617,091 spent for routine capital expenditures and \$23,766 for the remodel of the new corporate office space. We received \$7,024 for the sale of miscellaneous restaurant equipment. We do not plan to open any new restaurants during the remainder of fiscal year 2010. We anticipate that we will spend approximately \$335,000 for capital expenditures on current facilities during the remainder of fiscal year 2010.

We entered into a Credit Agreement with Wells Fargo Bank, N.A. ("Wells Fargo") in June 2007 (as amended, the "Wells Fargo Agreement"). The Wells Fargo Agreement provides for a revolving loan of up to approximately \$7.3 million, and has a maturity date of June 29, 2012. Effective January 3, 2010, the Wells Fargo Agreement was amended primarily to allow for the add-back of severance expense of \$190,000 that the Company incurred as part of its reduction in general and administrative expense to the Company's calculation of rolling twelve-month cash flow. The January 3, 2010 amendment also reduced the revolver availability to \$6.0 million effective July 4, 2010. Effective April 4, 2010, the Wells Fargo Agreement was further amended to reduce the fixed charge coverage ratio from 1.20 to 1.10 through the first quarter of fiscal year 2011 and to increase the interest rate 50 basis points to LIBOR plus 325 basis points. For the second quarter of fiscal year 2011 and thereafter the fixed charge coverage ratio is increased to 1.20 and the interest rate remains at LIBOR plus 325 basis points.

As of October 3, 2010, we were in default of certain technical loan covenants on our revolving line of credit to Wells Fargo Bank. Therefore the amount owing under this facility is reflected as a current liability in the accompanying Consolidated Balance Sheet as of October 3, 2010.

Wells Fargo is not accelerating the loan at this time, but reserves the right to accelerate the loan in the future after the giving of notice. We will continue to work with Wells Fargo bank to meet compliance with future modified loan covenants. There can be no assurance that Wells Fargo will in the future agree to modify or waive any of the loan covenants or waive any of its rights or remedies under the Credit Agreement.

As of October 3, 2010, we had \$387,662 in cash and cash equivalents on hand. We currently plan to use the cash balance and any cash generated from operations for our working capital needs in fiscal 2010. If Wells Fargo were to accelerate the revolving credit payable, we would need additional financing and we do not currently have a source for such financing.

As of October 3, 2010, we were out of compliance with certain of our debt covenants with Wells Fargo Bank. Due to loan covenant defaults, the entire balance of \$4.4 million revolving line of credit payable to Wells Fargo Bank is included in current liabilities. If Wells Fargo Bank were to accelerate payment of the revolving line of credit payable and if we are not successful in raising additional operating capital, we would not have the ability to satisfy our

liabilities in the normal course of business. As a result of the foregoing circumstances, we believe there is substantial doubt about our ability to continue as a going concern.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in interest rates on debt and changes in commodity prices. Our exposure to interest rate fluctuations is limited to outstanding bank debt. At October 3, 2010, there was \$4.4 million outstanding under the Wells Fargo revolving credit facility which currently bears interest at 325 basis points (depending on leverage ratios) over LIBOR. Should interest rates based on these borrowings increase by one percentage point, estimated quarterly interest expense would increase by approximately \$11,000.

Effects of Inflation

Components of our operations subject to inflation include food, beverage, lease and labor costs. Our leases require us to pay taxes, maintenance, repairs, insurance and utilities, all of which are subject to inflationary increases. We believe inflation in the costs of various items has had a material impact on our results of operations in recent years.

Commodity Price Risk

We are exposed to market price fluctuations in beef, chicken, pork, dairy products, produce, tortillas and other food product prices. Given the historical volatility of these product prices, this exposure can impact our food and beverage costs. Because we typically set our menu prices in advance of these product purchases, we cannot quickly take into account changing costs. To the extent that we are unable to pass the increased costs on to our guests through price increases, our results of operations would be adversely affected. We currently do not use financial instruments to hedge our risk to market price fluctuations in food product prices.

Interest Rates

We do not have, or participate in, any transactions involving derivative, financial and commodity instruments. Our long-term debt bears interest at floating market rates, based upon either the prime rate or LIBOR plus a stipulated percentage, and therefore we experience changes in interest expense when market interest rates change.

The continuing disruptions to the financial markets and economic downturn may adversely impact the availability of credit already arranged and the availability and cost of credit in the future. The disruptions in the financial markets have had an adverse effect on the U.S. and world economy, and have negatively impacted recent consumer spending patterns. There can be no assurance that various U.S. and world government responses to the disruptions in the financial markets in the near future will restore consumer confidence, stabilize the markets, or increase liquidity or the availability of credit. Our future performance could be hindered by our accessibility to obtain financing.

Item 4T. Controls and Procedures

Evaluation of Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that are designed to ensure that information required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), as appropriate, to allow timely decisions regarding required disclosures.

We evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of management, including our CEO and CFO, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of the period covered by this report.

Changes in Internal Control Over Financial Reporting

During the last quarterly period covered by this report, there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

As of October 3, 2010, we were out of compliance with certain of our debt covenants with Wells Fargo Bank. Therefore, we have included a Going Concern risk factor as follows.

13

Going Concern

As shown in the accompanying financial statements, we have incurred operating losses in the current and prior two fiscal years and, due to loan covenant defaults under our Wells Fargo Credit Agreement, the entire balance of \$4.4 million revolving line of credit payable to Wells Fargo is included in current liabilities. If Wells Fargo were to accelerate payment of the revolving line of credit payable and if we are not successful in raising additional operating capital, we would not have the ability to satisfy our liabilities in the normal course of business. As a result of the foregoing circumstances, we believe there is substantial doubt about our ability to continue as a going concern.

You should carefully consider the risk factors set forth in our Annual Report on Form 10-K and the other information set forth in the Annual Report in Form 10-K and this Quarterly Report on Form 10-Q. You should be aware that these risk factors and other information may not describe every risk facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
