PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of eGain Communications Corporation, a Delaware corporation (eGain or the Company), of proxies in the accompanying form to be used at the Annual Meeting of Stockholders of eGain to be held at the Sheraton Sunnyvale located at 1100 North Mathilda Avenue, Sunnyvale, California on Friday, November 1, 2002, at 10:00 AM., Pacific Time, and any postponement or adjournment thereof (the Annual Meeting). The shares represented by the proxies received in response to this solicitation and not properly revoked will be voted at the Annual Meeting in accordance with the instructions therein. A stockholder who has given a proxy may revoke it at any time before it is exercised by filing with the Secretary of eGain a written revocation or a duly executed proxy bearing a later date or by voting in person at the Annual Meeting. On the matters coming before the Annual Meeting for which a choice has been specified by a stockholder by means of the ballot on the proxy, the shares will be voted accordingly. If no choice is specified, the shares will be voted **FOR** the election of the five nominees for director listed in this Proxy Statement and **FOR** approval of the proposals referred to in Items 2, 3, 4, 5 and 6 in the Notice of Annual Meeting and described in this Proxy Statement.

Stockholders of record at the close of business on September 30, 2002 (the Record Date), are entitled to vote at the Annual Meeting. As of the close of business on that date, eGain had 36,444,600 shares of common stock, \$0.001 par value (the common stock), outstanding. The presence in person or by proxy of the holders of a majority of eGain s outstanding shares of common stock constitutes a quorum for the transaction of business at the Annual Meeting. Each holder of common stock is entitled to one vote for each share held as of the Record Date.

Directors are elected by a plurality vote. The five nominees for director who receive the most votes cast in their favor will be elected to serve as a director. Each of the other proposals submitted for stockholder approval at the Annual Meeting will be decided by the affirmative vote of the majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on such proposal. Abstentions with respect to any proposal are treated as shares present or represented and entitled to vote on that proposal and thus have the same effect as negative votes. If a broker which is the record holder of shares indicates on a proxy that it does not have discretionary authority to vote on a particular proposal as to such shares, or if shares are not voted in other circumstances in which proxy authority is defective or has been withheld with respect to a particular proposal, these non-voted shares will be counted for quorum purposes but are not deemed to be present or represented for purposes of determining whether stockholder approval of that proposal has been obtained.

The expense of printing, mailing proxy materials and solicitation of proxies will be borne by eGain. eGain will reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation materials to beneficial owners of the common stock. No additional compensation will be paid to such persons for such solicitation.

This Proxy Statement, the accompanying form of proxy and the Annual Report to Stockholders on Form 10-K for the fiscal year ended June 30, 2002, including financial statements, are being mailed to stockholders on or about October 7, 2002.

IMPORTANT

Please mark, sign and date the enclosed proxy and return it at your earliest convenience in the enclosed postage-prepaid return envelope so that, whether you intend to be present at the Annual Meeting or not, your shares can be voted. This will not limit your rights to attend or vote at the Annual Meeting.

PROPOSALS 2 4

PROPOSALS TO GRANT DISCRETIONARY AUTHORITY TO THE BOARD OF DIRECTORS TO EFFECT A REVERSE STOCK SPLIT OF THE OUTSTANDING COMMON STOCK AT A RATIO OF ONE-FOR-TEN, ONE-FOR-FIFTEEN OR ONE-FOR-TWENTY

Introduction

You are being asked to approve a reverse split of all outstanding shares of our Common Stock at an exchange ratio of one-for-ten (Proposal 2), one-for-fifteen (Proposal 3) or one-for-twenty (Proposal 4), with the exact ratio to be established by the Board of Directors in its sole discretion if and at the time it elects to effect a split (the Stock Split). You may vote FOR or AGAINST each of the Proposals separately.

To effect the Stock Split, the Board of Directors would file the approved proposed amendment to its Amended and Restated Certificate of Incorporation (the Certificate of Incorporation) with the Delaware Secretary of State along with any other necessary filings in accordance with Delaware General Corporation Law. The form of amendment to the Certificate of Incorporation to effect the proposed Stock Split would be in substantially the form attached to this proxy statement as Appendix A. As a result of the proposed Stock Split, the number of issued and outstanding shares of the Company's Common Stock would be reduced in accordance with the Stock Split exchange ratio. The par value of our Common Stock would remain unchanged at \$0.001 per share, and the number of authorized shares of Common Stock and Preferred Stock would remain unchanged. The number of shares designated as 6.75% Series A Cumulative Convertible Preferred Stock, 6.75% Series B Cumulative Convertible Preferred Stock and Series C Cumulative Redeemable Preferred Stock will remain unchanged. The number of shares of Series A Preferred Stock that are outstanding will not be effected by the Stock Split; however, the number of shares of common stock issuable upon conversion thereof would be proportionately adjusted to reflect the stock split.

The Company's Board of Directors has approved the Stock Split and recommends to the stockholders of the Company the Stock Split and the amendment to the Certificate of Incorporation to effect the proposed Stock Split. The Board of Directors, however, has reserved the right to abandon the Stock Split, without further direction by the stockholders, at any time before the Stock Split becomes effective.

Reasons for the Reverse Stock Split

The primary reason for the Stock Split is to increase the per share market price of the Company's Common Stock. Since April 5, 2002, the closing bid price for the Common Stock has been less than \$1.00 per share, which is a requirement for continued listing of the Common Stock on the Nasdaq National Market. On May 20, 2002, the Company was notified by NASDAQ that the Company had failed to maintain a minimum closing bid price of \$1.00 per share of Common Stock for a period of 30 consecutive trading days and that therefore the Common Stock was subject to delisting on August 19, 2002 if it did not regain compliance. On August 20, 2002, the Company was notified by NASDAQ that the Company's Common Stock would be delisted from the Nasdaq National Market at the opening of business on August 28, 2002. On August 26, 2002, the Company notified NASDAQ of a request for an oral hearing in accordance with Nasdaq Marketplace Rule 4820 to review the NASDAQ's determination and on August 30, 2002 the NASDAQ granted the Company an oral hearing to be held on October 3, 2002. The Board of Directors anticipates that a reverse stock split would have the effect of increasing, proportionately, the trading prices of the Common Stock, which could result in a share price high enough to satisfy the Nasdaq National Market listing requirement that the Company's Common Stock maintain a \$1.00 per share minimum bid price.

In addition, the Board of Directors believes that it should be granted the authority to implement the Stock Split to enhance the desirability and marketability of the Company's Common Stock to the financial community and the investing public and potentially mitigate reluctance on the part of brokers and investors to trade in the

Company's Common Stock. Many institutional investors have policies prohibiting them from holding lower-priced stocks in their own portfolios, which reduces the number of potential buyers of the Company's Common Stock. In addition, analysts at many leading brokerage firms are reluctant to recommend lower-priced stocks to their clients or monitor the activity of lower-priced stocks. A variety of brokerage house policies and practices also tend to discourage individual brokers within those firms from dealing in lower-priced stocks. Some of those policies and practices pertain to the payment of brokers' commissions and to time-consuming procedures that function to make the handling of lower-priced stocks unattractive to brokers from an economic standpoint. Additionally, because brokers' commissions on lower-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current share price of the Company's Common Stock can result in an individual stockholder paying transaction costs that represent a higher percentage of total share value than would be the case if the Company's share price were substantially higher. This factor may also limit the willingness of institutions to purchase the Company's Common Stock.

In addition, the Company's Common Stock has been trading below \$1.00 for some time. With the Company's Common Stock trading in this range, small movements, in absolute terms, in the price per share translate into disproportionately large swings in the price on a percentage basis. These swings tend to bear little relationship to the Company's financial condition and results. The Board of Directors believes that these factors have contributed to an unjustified, relatively low level of interest in the Company's Common Stock on the part of investment analysts, brokers and professionals and individual investors, which tends to depress the market for its Common Stock. The Board of Directors has proposed effecting the reverse split as a means of increasing the per-share market price of the Company's Common Stock.

The Board of Directors believes that stockholder approval of several exchange ratios (rather than a single exchange ratio) provides the Board of Directors with maximum flexibility to achieve the purposes of the Stock Split. If the stockholders approve the Stock Split proposal, the Stock Split will be effected, if at all, only upon a determination by the Board of Directors that the Stock Split is in the best interests of the Company and its stockholders at that time. In connection with any determination to effect a Stock Split, the Board of Directors will set the timing for such a split and select the specific ratio. These determinations will be made by the Board of Directors to create the greatest marketability of the Company's Common Stock based on prevailing market conditions at that time.

Potential Effects of the Reverse Stock Split

The immediate effect of the Stock Split would be to reduce the number of shares of the Company's Common Stock outstanding and to increase the trading price of the Company's Common Stock. Depending on the ratio selected by the Board of Directors, ten (10), fifteen (15) or twenty (20) shares of the Company's Common Stock outstanding immediately prior to the Stock Split will be reclassified and converted into one (1) share of the Company's Common Stock, which will continue to have a par value of \$0.001 per share. Based on 36,657,313 shares of Common Stock outstanding as of September 13, 2002, without accounting for fractional shares, which will be cancelled and paid for in cash, 3,665,731 shares, 2,443,821 shares or 1,832,865 shares of Common Stock would be outstanding as a result of the proposed Stock Split depending on the ratio selected by the Board of Directors.

The effect of any reverse stock split upon the market price of our Common Stock, however, cannot be predicted. Although some companies in similar circumstances that have effected a reverse stock split have experienced improved stock price performance, other companies have not. The trading price of the Company's Common Stock after the Stock Split may not rise in proportion to the reduction in the number of shares of the Company's Common Stock outstanding as a result of the Stock Split. Further, there can be no assurance that the Stock Split would lead to a sustained increase in the trading price of the Company's Common Stock. The trading price of the Company's Common Stock may change due to a variety of other factors, including the Company's operating results and factors related to its business and general market conditions. Finally, the resulting decrease in the number of shares of the Company's Common Stock outstanding could potentially have a negative impact

on the liquidity of its Common Stock on the NASDAQ Stock Market, especially in the case of larger block trades.

If the Company implements the Stock Split, it will also affect all outstanding warrants, options and other grants entitling the holders to purchase shares of the Company's Common Stock. Holders of these instruments will be able to purchase, upon exercise of their warrants, options or other grants, one-tenth, one-fifteenth or one-twentieth of the number of shares of the Company's Common Stock, which they would have been able to purchase upon such exercise immediately prior to the Stock Split, at a per share exercise price of ten (10), fifteen (15) or twenty (20) times the applicable exercise price before the Stock Split, depending on the ratio selected by the Board of Directors.

In addition, after the Stock Split is effected, the number of shares reserved for issuance in the Company's 1998 Stock Plan and 2000 Non-Management Plan will be reduced by one-tenth, one-fifteenth or one-twentieth of the number of shares reserved under these plans immediately prior to the Stock Split at an exercise price of ten (10), fifteen (15) or twenty (20) times the applicable exercise price before the Stock Split, depending on the ratio selected by the Board of Directors.

The proposed Stock Split will affect all of the Company's stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company or proportionate voting power, except to the extent that the Stock Split results in any of the stockholders owning a fractional share. No fractional shares will be issued as a result of the Stock Split. In lieu of issuing fractional shares, the Company will pay to any stockholder who otherwise would have been entitled to receive a fractional share as a result of the Stock Split cash at the market price. The market price for the Common Stock will be determined by reference to the average closing price of the Company's Common Stock on the NASDAQ Stock Market for the 20 business days prior to the day on which the Stock Split becomes effective. For example, depending on the ratio selected by the Board of Directors, a stockholder holding 133 shares of Common Stock prior to the Stock Split would receive 13, 8 or 6 shares of Common Stock and cash in lieu of any fraction of a post-split share of Common Stock.

If the Stock Split is implemented, the rights and preferences of the outstanding shares of the Company's Common Stock would remain the same after the Stock Split. The applicable Conversion Ratio of the outstanding shares of Series A Preferred Stock will be adjusted pursuant to the terms of the Series A Preferred Stock to reflect proportional adjustments necessary as a result of the Stock Split. Each share of Common Stock issued pursuant to the Stock Split would be fully paid and non-assessable. As of June 30, 2002, there were accreted dividends in the aggregate amount of approximately \$11,896,932 for the Series A Preferred Stock and no arrears in dividends for the Common Stock. The proposed Stock Split will not have an effect on the aggregate amount of arrears in dividends outstanding at the time of the Stock Split.

The Stock Split would also result in some stockholders owning odd-lots of fewer than 100 shares of the Company's Common Stock. Brokerage commission and other costs of transactions in odd-lots are generally higher than the costs of transactions in round-lots of even multiples of 100 shares.

The Stock Split will not affect the par value of shares of the Company's Common Stock. As a result, on the effective date of the Stock Split, the stated capital on the Company's balance sheet attributable to the Company's Common Stock will be reduced to one-tenth, one-fifteenth or one-twentieth of its present amount, depending on the ratio selected by the Board of Directors, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share net income or loss and per share net book value of the Company's Common Stock will be increased as a result of the Stock Split, because there will be fewer shares of Common Stock outstanding.

Authorized Shares of Common Stock and Preferred Stock

The Stock Split, if implemented, would not change the number of authorized shares of the Company's Common Stock or Preferred Stock as designated by the Company's Certificate of Incorporation. Accordingly,

because the number of issued and outstanding shares of Common Stock would decrease, the number of shares remaining available for issuance under the Company's authorized pool of Common Stock would increase. These additional shares of Common Stock would be available for issuance from time to time for corporate purposes such as raising additional capital, acquisitions of companies or assets and sales of stock or securities convertible into Common Stock. The Company believes that the availability of the additional shares will provide it with the flexibility to meet business needs as they arise, to take advantage of favorable opportunities and to respond to a changing corporate environment. The Company has no current plan to issue shares from these additional shares.

Procedure for Effecting Reverse Stock Split and Exchange of Stock Certificates

If the Stock Split is approved by the stockholders and implemented, the Company will file an amendment to its Certificate of Incorporation with the Secretary of State of Delaware. The Stock Split will become effective at the effective time of the amendment to the Certificate of Incorporation. Beginning at the effective time of the Stock Split, each certificate representing the Company's Common Stock that was issued before the Stock Split will be deemed for all corporate purposes to evidence post-reverse stock split ownership. All shares subject to conversion of outstanding options, warrants, and other securities would also be automatically adjusted on the effective date.

As soon as practicable after the filing of the amendment to the Certificate of Incorporation and split of the Common Stock, the Company's stockholders will be notified that the Stock Split has been effected. The Company expects that its transfer agent will act as exchange agent for purposes of implementing the exchange of stock certificates. Holders of shares of Common Stock will be asked to surrender to the exchange agent certificates representing shares of Common Stock in exchange for certificates representing the reverse-split adjusted shares in accordance with the procedures to be set forth in a letter of transmittal to be sent by the exchange agent. No new certificates will be issued or cash in lieu of fractional share be paid to a stockholder until the stockholder has surrendered his or her outstanding certificate(s) together with the properly completed and executed letter of transmittal to the transfer agent. Stockholders should not destroy any stock certificates and should not submit any certificates until requested to do so. If your shares of the Company's Common Stock are deposited in book entry, your shares will be automatically converted to reflect the Stock Split without any action on your part.

Fractional Shares

The Company will not issue fractional shares in connection with the Stock Split. Stockholders who otherwise would be entitled to receive a fractional share because they hold an aggregate number of shares of pre-split Common Stock not evenly divisible by ten (10), fifteen (15) or twenty (20) (depending on the final split exchange ratio), will, upon surrender to the exchange agent of the certificate or certificates representing the pre-split Common Stock held by them, receive cash in respect of that fractional share at the market price as applicable to such stock. The market price for the Common Stock will be determined by reference to the average closing price of the Company's Common Stock on the NASDAQ Stock Market for the 20 business days prior to the day on which the Stock Split becomes effective.

No Dissenters' Rights

Under the Delaware General Corporation Law and the Company's bylaws, the Company's stockholders are not entitled to dissenters' rights with respect to the Stock Split. The Company does not anticipate independently providing the stockholders with any such rights.

Material Federal Income Tax Consequences

The following is a summary of material federal income tax consequences of the Stock Split and does not purport to be complete. It does not discuss any state, local, foreign or minimum income or other tax

consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, including banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which are subject to change retroactively as well as prospectively. This summary also assumes that the shares are held as a capital asset, as defined in the Internal Revenue Code of 1986 (generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of the stockholder.

Accordingly, each stockholder is urged to consult his, her or its tax advisor to determine the particular tax consequences to him, her or it of the Stock Split, including the application and effect of federal, state, local or foreign income tax and other laws.

Other than the cash payments for fractional shares discussed below, no gain or loss should be recognized by a stockholder upon the stockholder's exchange of shares pursuant to the Stock Split. The aggregate tax basis of the shares received in the Stock Split, including any fraction of a share deemed to have been received, would be the same as the stockholder's aggregate tax basis in the shares exchanged. Stockholders who receive cash upon redemption of their fractional share interests in the shares as a result of the Stock Split will generally recognize gain or loss based on their adjusted basis in the fractional share interests redeemed. The federal income tax liabilities generated by the receipt of cash in lieu of a fractional interest should not be material in amount in view of the low value of the fractional interest. The stockholder's holding period for the shares would include the period during which the stockholder held the pre-split shares surrendered in the Stock Split. Our beliefs regarding the tax consequence of the Stock Split are not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above. The state and local tax consequences of the Stock Split may vary significantly as to each stockholder, depending upon the state in which he or she resides.

Required Vote

Approval of the Stock Split described above requires the affirmative vote of a majority of the shares of Common Stock present and voting at the meeting in person or by proxy. As mentioned above, the Board of Directors has reserved the right not to effect the Stock Split even if it is approved by the stockholders. By casting a **FOR** vote in favor of any of the Stock Split Proposals, holders of the Common Stock will also be casting a vote in favor of the proposed amendment to the Certificate of Incorporation to effect such Stock Split.

The Board of Directors recommends a vote FOR each of the proposals to grant discretionary authority to the Board of Directors to effect a reverse stock split at a ratio of one-for-ten (Proposal 2), one-for-fifteen (Proposal 3) and one-for-twenty (Proposal 4) as described above.

PROPOSAL 5

**PROPOSAL TO AMEND THE eGAIN COMMUNICATIONS CORPORATION
1999 EMPLOYEE STOCK PURCHASE PLAN**

The Board of Directors has approved an amendment to eGain's 1999 Employee Stock Purchase Plan (the "ESPP"), subject to the approval of eGain's stockholders at the Annual Meeting. The following summary of the principal features of the Stock Purchase Plan is qualified by reference to the terms of the Stock Purchase Plan, a copy of which is available without charge upon stockholder request to Eric Smit, eGain Communications Corporation, 624 East Evelyn Avenue, Sunnyvale, California 94086.

Summary of Amendment

The amendment to the ESPP approved by the Board of Directors and submitted for stockholder approval provides for an increase in the number of shares of common stock reserved for sale and issuance under the ESPP by an aggregate of 500,000 shares.

Stock Purchase Plan

The ESPP was adopted by the Board of Directors in July 1999 and approved by eGain's stockholders thereafter. The purpose of the ESPP is to encourage stock ownership by eGain's employees and in doing so assist eGain in the retention and motivation of employees who are in a position to make material contributions to eGain's progress.

The ESPP permits employees to purchase eGain common stock at a favorable price and possibly with favorable tax consequences to the employees. Employees (including officers and employee directors of eGain but excluding 5% or greater stockholders) are eligible to participate if they are customarily employed for more than 20 hours per week and for at least five months in any calendar year. An employee may not, during any calendar year, participate in the ESPP if the rights of the employee to purchase eGain common stock under the ESPP and all other qualified employee stock purchase plans of eGain or its subsidiaries would accrue at a rate that exceeds \$25,000 of the fair market value of such stock determined at the time such rights are granted. Participation in the ESPP ends automatically on termination of employment with eGain. As of June 30, 2002, 170 employees were eligible to participate in the Stock Purchase Plan.

As of June 30, 2002, the following persons or groups had in total, purchased common stock under the ESPP in fiscal 2002 as follows: (i) the Chief Executive Officer and the other executive officers named in the Summary Compensation Table: Mr. Roy, no shares, Mr. Sinha, no shares, Mr. Grewal, no shares and Mr. Smit, no shares; (ii) all current executive officers of eGain as a group: 19,364 shares; (iii) all current directors who are not executive officers as a group: no shares; (iv) each nominee for director (other than the two directors listed in (i) above): Mr. Brown, no shares, Dr. Darukhanavala, no shares and Mr. Wolfson, no shares; and (v) all employees of eGain, including all current officers who are not executive officers as a group: 267,873 shares.

Administration and Term

The ESPP is administered by a Plan Administrator appointed by the Board of Directors. The ESPP is currently administered by the Compensation Committee of the Board of Directors. The ESPP will terminate in July 2009, unless sooner terminated by the Board of Directors.

Shares Offered for Sale

The Board of Directors will establish participation periods for the ESPP, none of which will exceed six months. During each participation period, payroll deductions will accumulate, without interest. On the purchase

dates set by the Board of Directors for each participation period, accumulated payroll deductions will be used to purchase common stock. The purchase price of the common stock under the ESPP will be equal to 85% of the fair market value per share of common stock on either the first day of the participation period or on the purchase date, whichever is less. Employees may withdraw their accumulated payroll deductions at any time up to the last day of a participation period. If an employee withdraws his or her payroll deductions during a participation period, payroll deductions shall cease and eGain will refund all amounts credited to the participants account in cash, without interest.

Amendment and Termination

The ESPP may be amended or modified by the Board of Directors, subject to applicable laws and stockholder approval only to the extent required by applicable laws, regulations or rules.

They will have an opportunity to make a statement, if they desire to do so, and will be available to respond to appropriate questions.

**REPORT OF THE COMPENSATION COMMITTEE
OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION**

The following report on executive compensation is provided by the Compensation Committee of the Board of Directors (the Compensation Committee) to assist stockholders in understanding the committee's objectives and procedures in establishing the compensation of eGain's executive officers and describes the bases on which it made fiscal 2002 compensation determinations. The Compensation Committee is currently comprised of three non-employee directors. In making its determinations, the Compensation Committee relied, in part, on independent surveys and public disclosures of compensation of management of companies in the ecommerce software industry.

Compensation Objectives

The Compensation Committee believes that compensation of eGain's executive officers should:

- encourage creation of stockholder value and achievement of strategic corporate objectives;
- provide a competitive total compensation package that enables eGain to attract and retain, on a long-term basis, high caliber personnel;
- integrate compensation with eGain's annual and long-term corporate objectives and focus executive behavior on the fulfillment of those objectives;
- align the interests of management and stockholders and enhance stockholder value by providing management with longer term incentives through equity ownership by management;
- provide total compensation opportunity that is competitive with companies in eGain's industry, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance; and
- provide fair compensation consistent with internal compensation programs.

Key Elements of Executive Compensation

The compensation of executive officers is based upon eGain's financial performance as well as an evaluation of eGain's progress in the achievement of certain business objectives, including the execution of corporate and collaborative agreements, the expansion of eGain's business and the attainment of certain operational and research and development milestones in eGain's technology development programs, as well as the achievement of individual business objectives by each executive officer. eGain's existing compensation structure for executive officers generally includes a combination of salary and stock options and may include cash bonuses for performance determined to be deserving of such bonuses by the Compensation Committee.

Salary. Salary levels are largely determined through comparisons with companies of similar headcount and market capitalizations or complexity in the ecommerce software industry. Actual salaries are based on individual performance contributions within a competitive salary range for each position that is established through job evaluation of responsibilities and market comparisons. The Compensation Committee, on the basis of its knowledge of executive compensation in the industry, believes that eGain's salary levels for the executive officers are at a level that the Compensation Committee, at the time such salary determinations were made, considered to be reasonable and necessary given eGain's financial resources and the stage of its development. The Compensation Committee reviews salaries on an annual basis. At such time, the Compensation Committee may change each executive officer's salary based on the individual's contributions and responsibilities over the prior 12 months and changes in median comparable company pay levels.

Stock Options. The Compensation Committee believes that by providing those persons who have substantial responsibility for the management and growth of eGain with an opportunity to increase their

ownership of eGain stock through stock option grants, the interests of stockholders and executive officers will be closely aligned. Therefore, executive officers are eligible to receive stock options when the Compensation Committee performs its annual salary review; although the Stock Option Committee, at its discretion, may grant options at other times in recognition of exceptional achievements. The number of shares underlying stock options granted to executive officers is based on competitive practices in the industry as determined by independent surveys and the Compensation Committee's knowledge of industry practice.

Chief Executive Officer Compensation

Ashutosh Roy is the eGain's Chief Executive Officer. At the commencement of the fiscal year, Mr. Roy's annual salary was \$125,000. At the request of Mr. Roy, the Compensation Committee considered and agreed to Mr. Roy's recommendation that his salary be reduced to \$1.00 for fiscal year 2002 in light of the difficult economic environment surrounding eGain's industry and as part of eGain's commitment to reduce its expense and pursue profitability. The Compensation Committee anticipates that in the future Mr. Roy's salary will return to a level commensurate with industry norms.

eGain's policy is generally to qualify compensation paid to executive officers for deductibility under Section 162(m) of the Internal Revenue Code. However, eGain reserves the discretion to pay compensation to its executive officers that may not be deductible.

Mr. Roy is a member of the Board of Directors, but did not participate in matters involving the evaluation of his own performance or the setting of his own compensation.

The Audit Committee met privately with the independent auditors, and discussed issues deemed significant by the auditors, including those required by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards), as amended. In addition, the Audit Committee discussed with the independent auditors their independence from eGain and its management, including the matters in the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with the Audit Committees).

In reliance on the reviews and discussions outlined above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in eGain's Annual Report on Form 10-K for the fiscal year ended June 30, 2002, for filing with the Securities and Exchange Commission.
