**Report of Independent Accountants**

To the Participants and Employee Benefits Plan Committee of the  
Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan (the Plan ) at December 31, 2001 and December 31, 2000, and the changes in net assets available for benefits for the year ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan**

### **Notes to Financial Statements**

---

#### **1. General Description of the Plan**

The following description of the Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

##### **General**

The Plan was adopted by Watson Pharmaceuticals, Inc. and certain subsidiaries (collectively, the Company) on January 1, 1988. The Plan is a defined contribution plan covering substantially all employees of the Company who have met certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is administered by the Plan's Administration Committee.

The Plan is intended to be a qualified defined contribution plan, which satisfies the requirements of Section 401(k) of the Internal Revenue Code, as amended (the IRC). Under the IRC, participants are not liable for federal income taxes on employee contributions, Company contributions or Plan earnings thereon until such time as they are partially or completely withdrawn from the Plan.

Due to the Company's acquisition of Schein Pharmaceutical, Inc. in 2000, a large number of participants in The Retirement Plan of Schein Pharmaceutical, Inc. and Affiliates (the Schein Plan) were enrolled in the Plan effective August 26, 2000. The underlying net assets in the Schein Plan related to these new participants are expected to be transferred into the Plan subsequent to the receipt of a favorable determination letter from the Internal Revenue Service, which is expected to be received in 2002.

##### **Vesting**

Participant contributions and related earnings are fully vested immediately. Participants vest in Company matching contributions at a rate of 33 1/3% each year until fully vested after three years. Benefits attributable to each participant will become fully vested in all accounts and benefits in the event of death, disability, normal retirement at age 65, or the complete or partial termination of the Plan.

##### **Contributions**

Participants may elect to contribute from 1% to 20% of their total eligible compensation to the Plan, subject to a maximum dollar limitation as defined by the IRC. The Company contributes 50% of the first 8% of total compensation that a participant contributes to the Plan. In addition to Company matching contributions, the Company may elect to make discretionary profit sharing contributions. The Company did not make any profit sharing contributions in the year ended December 31, 2001.

##### **Participant Accounts**

Each participant's account is credited with (a) participant contributions, (b) Company matching contributions, (c) discretionary profit-sharing contribution, if any and (d) an allocation of account earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts. Changes to these investment elections are allowed at any time.

**Watson Pharmaceuticals, Inc.**  
**Employees 401(k) Profit-Sharing Plan**

**Notes to Financial Statements**

---

**Investment Options**

The investment fund options consist of various pooled separate accounts and registered investment company mutual funds and, as of July 2000, a Company stock fund, which are generally described below.

*Principal Guaranteed Interest Account* The fund invests in private market bonds, commercial mortgages and mortgage-backed securities.

*Principal Money Market Separate Account* The fund invests in high-quality commercial paper.

*Principal Government Securities Separate Account* The fund invests in various types of government securities.

*Principal Stock Emphasis Balanced Separate Account* The fund invests in other separate accounts of Principal Life Insurance Company, which usually invest from 50-100% of the assets in dynamic aggressive investment accounts and 0-50% in conservative and moderate investment accounts.

*Principal Large-Cap Stock Index Separate Account* The fund primarily invests in the common stocks of those companies listed in the Standard & Poor's 500 Stock Index.

*Principal Medium Company Value Separate Account* The fund invests in stocks of medium-sized companies whose stock prices relative to their companies' profits, assets, and other value measures are lower than average.

*Principal Small Company Value Separate Account* The fund invests in stocks of small-sized companies whose stocks are considered undervalued at the time of purchase.

*Principal International Stock Separate Account* The fund invests in common stocks of companies located outside the United States, mainly in Western Europe and Asia.

*Principal Mid-Cap Stock Index Separate Account* The fund invests in stocks found in the 400 Mid-Cap Stock Index.

*American Century Ultra Investment Fund* The fund invests at least 90% of assets in equities selected for their appreciation potential. The majority of these securities are common stocks issued by companies that meet certain standards for earnings and revenue growth.

*American Century International Growth Fund* The fund invests primarily in common stocks of foreign companies that meet certain fundamental and technical standards and whose earnings and revenues are growing at an accelerating pace.

*Vanguard Asset Allocation Fund* The fund is a domestic-hybrid fund, which divides its assets among common stocks, bonds, convertible securities and cash.

*Vanguard U.S. Growth Fund* The fund invests in common stocks of large companies that are projected to grow faster than the overall stock market.

*Vanguard Growth & Income Fund* The fund invests at least 65% of assets in securities included in the S&P 500 index.

*T. Rowe Price Mid-Cap Growth Fund* The fund invests in common stocks of companies of all sizes, with an emphasis toward mid-size companies those with market values that currently range from approximately \$1 billion to \$8 billion.

**Watson Pharmaceuticals, Inc.**  
**Employees 401(k) Profit-Sharing Plan**

**Notes to Financial Statements**

---

*T. Rowe Price Small-Cap Stock Fund* The fund invests at least 65% of total assets in stocks of small companies those with market capitalizations of approximately \$1 billion or less. This includes mostly U.S. stocks, but can include foreign stocks, futures and options.

*Company Stock Fund* The fund invests in shares of Watson Pharmaceuticals, Inc. common stock ( Company common stock ).

**Participant Loans**

Participants may borrow a minimum of \$1,000 and a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Each loan is collateralized by the participant's vested account balance and bears interest commensurate with local prevailing rates as determined by the Plan's Administration Committee. Repayment of principal and interest is provided by uniform payroll deductions over a period of up to five years for all loans unless loan proceeds were used to purchase a primary residence. The period for repayment of loans used for a primary residence have a maximum repayment term of 15 years.

**Payment of Benefits**

Upon termination of service due to separation from the Company (including death, disability, or retirement), a participant will receive the value of the participant's vested interest in his or her account in a lump-sum amount or in certain cases, the participant may have the payment transferred to an IRA or another employer qualified plan, or the participant may elect to purchase a commercially insured annuity contract for the life of the participant. To the extent an account is vested in the Company Stock Fund, payment of all or part of that amount may be made in shares of Company common stock. Withdrawals are also permitted for financial hardship, which is determined pursuant to the provisions of the IRC, or, for participant contributions, after age 59 1/2.

**Forfeitures**

Forfeitures may be used to defray the reasonable costs and expenses of administering the Plan. Any forfeitures in excess of those used to defray costs and expenses shall either be reallocated among participants or used to reduce Company matching contributions and profit sharing contributions, if any.

**Administrative Expenses**

All administrative expenses related to the direct management of the Plan's investments and benefit payments are shared by the Plan and the Company. Professional fees incurred in connection with the Plan's annual compliance with ERISA and the Securities and Exchange Commission were paid by the Company. For the year ended December 31, 2001, the Company paid administrative expenses totaling approximately \$69,000 on behalf of the Plan.

**Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan will be allocated among the participants or their beneficiaries, after payment of any expenses properly chargeable to the Plan, in accordance with the provisions of ERISA.

---

**Watson Pharmaceuticals, Inc.**  
**Employees 401(k) Profit-Sharing Plan**

**Notes to Financial Statements**

---

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The financial statements of the Plan have been prepared on an accrual basis and in conformity with accounting principles generally accepted in the United States of America.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statement of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

**Risks and Uncertainties**

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value. Investments in pooled separate accounts are stated at fair value, based on the net asset value of the composite portfolio. Net asset value is the fair market value of the securities on the last business day of the Plan year. Shares of registered investment company mutual funds and common stock are valued at quoted market prices. Participant loans are valued at the unpaid principal amount of the loan, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The net depreciation in the fair value of investments presented in the Statement of Changes in Net Assets Available for Benefits includes both the realized gains or losses and the unrealized appreciation or depreciation on those investments.

**Payment of Benefits**

Payments to participants are recorded when paid.

**Watson Pharmaceuticals, Inc.**  
**Employees 401(k) Profit-Sharing Plan**

**Notes to Financial Statements**

**3. Investments**

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2001 and 2000:

	2001	2000
Principal Money Market Separate Account	\$ 5,664,057	\$ 4,308,532
Principal Government Securities Separate Account	4,436,810	2,145,058
Principal Large-Cap Stock Index Separate Account	5,817,419	5,420,055
Principal Guaranteed Interest Account	2,661,245	N/A
Vanguard Asset Allocation Fund	4,149,347	3,997,441
Vanguard U.S. Growth Fund	5,912,593	6,869,068
American Century Ultra Investment Fund	4,363,562	4,336,632
T. Rowe Price Mid-Cap Growth Fund	6,165,926	4,314,227

**4. Related-Party Transactions**

Certain Plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company, trustee of the Plan. Therefore, transactions in these shares qualify as party-in-interest transactions for which a statutory exemption exists. Fees paid by the Plan for the investment management services amounted to approximately \$186,000 for the year ended December 31, 2001.

Effective October 26, 2001, Principal Mutual Holding Company, the former parent company of the trustee, demutualized. As part of the demutualization process, Principal Financial Group, Inc., the new parent company of the trustee, conducted and closed an initial public offering. As a member of Principal Mutual Holding Company, the Plan was entitled to compensation as a result of the demutualization. As such, the Plan received 54,094 shares of Principal Financial Group, Inc. stock. In December 2001, the Employee Benefits Plan Committee authorized and approved the sale of such shares and the proceeds were allocated to the Plan participants. The shares were sold in December 2001 for total proceeds to the Plan of \$1,266,141. This amount is included in Other income on the Statement of Changes in Net Assets Available for Benefits.

**5. Tax Status**

The Internal Revenue Service has determined and informed the Company by letter dated December 20, 2000, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan, however, has been amended and restated since receiving the determination letter. The Company has applied for, but has not yet received, a new determination letter from the Internal Revenue Service. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
