Edgar Filing: PRESSURE BIOSCIENCES INC - Form 8-K

Exchange Act (17 CFR 240.13e-4(c))

Item 2.01 Completion of Acquisition or Disposition of Assets.

On August 9, 2005, Pressure BioSciences, Inc. announced that it had sold 232,792 shares of common stock of VI Technologies, Inc. ("Vitex") in open market transactions during the period July 19, 2005 through August 3, 2005, for approximately \$1,771,000 in cash proceeds, net of charges and commission.

The shares of Vitex common stock which were sold represent a portion of the 860,982 shares of Vitex common stock the Company received in March 2005 in connection with the merger between Vitex and Panacos Pharmaceuticals, an antiviral drug discovery and development company. The Company continues to hold an additional 628,190 shares of Vitex, and may receive an additional 151,938 shares that are being held in escrow until September 2006 to fund any indemnification claims pursuant to the terms of a merger agreement between Vitex and Panacos Pharmaceuticals.

In late 1999, the Company founded Panacos Pharmaceuticals based on anti-viral technology the Company had been developing since 1992. In November 2000, the Company spun-off a majority of its ownership interest in Panacos Pharmaceuticals to two venture capital firms and retained a passive ownership interest in Panacos.

The Company's press release announcing the above-described transactions is attached hereto as Exhibit 99.1 and is hereby incorporated herein by reference in its entirety.
