 FRAWLEY CORPORATION AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly the financial position as of June 30, 2001, the results of operations and changes in cash flows for the six months then ended.

NOTE 2: The results of operations for the six months ended June 30, 2001 as compared to the results of 2000 are not necessarily indicative of results to be expected for the full year.

FRAWLEY CORPORATION AND SUBSIDIARIES

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
 CONDITION AND RESULTS OF OPERATIONS

Specialized Health Services

-----

During the quarter ended June 30, 2001, operating revenues from Specialized Health Services increased by \$68,000 when compared to the same period in 2000. For the three months ending June 30, 2001 the health care operation reported a \$12,000 profit compared to a \$50,000 loss for the same period in 2000. For the six months ended June 30, 2001 Net Revenue was \$1,355,000 compared to \$1,398,000 in 2000 a reduction of \$43,000 and the loss of \$20,000 compared unfavorably to the 2000 profit of \$84,000. Although revenue decreased slightly, the Company continues to face serious difficulties in attracting patients. There is a decreasing number of insurance carriers providing benefits for inpatient treatment and in many HMO plans there is little coverage for chemical dependency treatment. Emphasis by insurance carriers on less expensive outpatient treatment programs makes the Company's inpatient treatment less accessible to many potential patients. The Company continues to present a strong argument for the success rate of the Schick program, compared to other programs, but a more prevalent theme in health care today is the cost of a program not the efficacy of the treatment. The Company will continue to explore more effective ways of attracting patients to the inpatient program.

The Company is currently seeking an investor to fund marketing and expansion of the health care services or a purchaser for the subsidiary. No assurances can be made that an investor will be found.

Real Estate

-----

For the quarter ended June 30, 2001, Real Estate Operations loss was \$88,000 compared to a loss in 2000 of \$111,000. During the first six months of this year Real Estate losses were \$181,000 as compared to a loss of \$188,000 for the same period in 2000. Real estate losses continue as the Company incurs carrying costs

and costs of improvements required to sell the property.

The undeveloped real estate market remains uncertain due to the downturn of the economy. The Company is actively advertising the undeveloped real estate for sale.

The Los Angeles County Regional Planning Commission, which governs real estate development, recently had public hearings to review a plan to further restrict development of land in the Santa Monica Mountains. The County of Los Angeles has adopted more stringent rules covering the development of raw land. These revised regulations will make it more difficult to develop the Company's property.

### Liquidity and Capital Resources

-----

The Company's recurring losses from continuing operations and difficulties in generating cash flow sufficient to meet its obligations raise substantial doubt about its ability to continue as a going concern.

The Seattle Hospital and outpatient treatment program reported a \$17,000 loss for the six months ended June 30, 2001 compared to a \$84,000 profit for the six months ended June 30, 2000. Management expects that cash flow will further tighten as the Company continues to experience a transition from the third party reimbursement to direct payment from patients. Debt secured by the Seattle Hospital in the amount of \$1,022,000 was due December 31, 2000. The Company has been unable to make its interest payments since February 2001. The Company has informed the lender that they are actively trying to obtain financing for the business.

The Company continues to incur legal expenses and has an obligation in 2001 to contribute to the Chatham Brothers toxic waste cleanup lawsuit.

Servicing outstanding debt continues to be a significant burden on the Company's operations.

The Company intends to raise capital for the health care business by seeking partners in health care and selling real estate. The sale of real estate may require further expenditure to prepare the land for sale, which would be financed through borrowings. The sale of the property is unpredictable and highly uncertain and there is no assurance that the improvements will increase the marketability of the property. The limited resources available to the Company will be towards the health care business and the continued reduction of non-producing assets.

## PART II - OTHER INFORMATION

### ITEM 1: Legal Proceedings

-----

The Company is named as a defendant in the Chatham Brothers toxic waste cleanup lawsuit. In February 1991, the Company was identified as one of many "Potentially Responsible Parties" (PRPs) in the Chatham Brothers toxic waste cleanup site case, filed by the State of California - Environmental Protection Agency, Department of Toxic Substances Control (DTSC) and involving the Hartley Pen Company previously owned by the Company.

On December 31, 1991, the Company and approximately 90 other companies were named in a formal complaint. The Company joined a group of defendants, each of whom was so notified and which are referred to as Potentially Responsible Parties (PRPs) for the purpose of negotiating with the DTSC and for undertaking remediation of the site. Between 1995 and 1998, the State of California adjusted the estimated cost of remediation on several occasions. As a result, the Company has increased their recorded liability to reflect their share. In January of 1998 the final remediation plan was approved by the State and in January of 1999 the PRP's consented to it, as well as the allocation of costs, and the consent decree was approved by the Court. As of December 31, 2000, the Company had paid over \$570,000 into the PRP group and had a cash call contribution payable of \$131,000. In addition, they carried accrued short-term and long-term liabilities of \$78,000 and \$1,424,000 respectively.

The Company is in dispute with its 1988 licensee over the trademark "Classics Illustrated." In 1998, the Company terminated its license agreement for breach of contract. The licensee has objected to the termination stating that the Company failed to notify the licensee of a potential problem with the trademark in Greece. A Greek court has ruled against a sublicensee in Greece. The Company believes that the license agreement supports that it adequately notified the licensee but would have to investigate the international trademark involving "Classics Illustrated." Management believes that there is no probable risk of loss related to this dispute.
