(2) Incorporated by reference to p. F-72 of the Registrant's Annual Report on Form 20-F (File No. 1-15128) for the fiscal year ended December 31, 2000, filed with the SEC on June 28, 2001.

F-1

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders of
United Microelectronics Corporation

We have audited the accompanying consolidated balance sheets of United Microelectronics Corporation and subsidiaries as of December 31, 2001 and 2002, and the related consolidated statements of operations, changes in stockholders' equity and cash flows for the years ended December 31, 2000, 2001 and 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of UMC Group (USA), a wholly-owned subsidiary, and UMC Japan, a 51.47% owned subsidiary, whose statements reflect total assets of NT\$10,171 million and NT\$25,759 million, respectively, as of December 31, 2000, and total revenues of NT\$43,491 million and NT\$10,542 million, respectively, for the year then ended. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for UMC Group (USA) and UMC Japan, is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of United Microelectronics Corporation and subsidiaries as of December 31, 2001 and 2002 and the consolidated results of their operations and their cash flows for the years ended December 31, 2000, 2001 and 2002, in conformity with accounting principles generally accepted in

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

the Republic of China.

Accounting principles generally accepted in the Republic of China vary in certain significant respects from accounting principles generally accepted in the United States. The application of accounting principles generally accepted in the United States would have affected the consolidated stockholders' equity and financial position as of December 31, 2001 and 2002, and the consolidated results of operations for the years ended December 31, 2000, 2001 and 2002, to the extent summarized in Note 28 to the consolidated financial statements.

F-9

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. History and Organization

United Microelectronics Corporation ("the Company") was incorporated in May 1980 and commenced operations in April 1982. The Company's major business activity is the dedicated full service semiconductor wafer foundry. The Company provides a variety of services to fit individual customer's needs, including intellectual property, embedded IC design, design verification, mask tooling, wafer fabrication, testing, etc. The Company's common shares were publicly listed on the Taiwan Stock Exchange in July 1985 and its American Depository Shares ("ADSs") were listed on the New York Stock Exchange in September of 2000.

United Microelectronics Corporation, United Integrated Circuits Corporation ("United Integrated Circuits"), United Silicon Incorporated ("United Silicon"), United Semiconductor Corporation ("United Semiconductor") and UTEK Semiconductor Corporation ("UTEK Semiconductor") were merged into one publicly traded entity, the Company, on January 3, 2000.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and certain majority owned (50% or more) subsidiaries (hereinafter referred to collectively as "the Group") in accordance with the requirements of ROC Statement of Financial Accounting Standard ("ROC SFAS") No.7 and the regulations of the Taiwan Securities and Futures Commission ("Taiwan SFC"). All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

Pursuant to ROC SFAS NO.7 and the regulations of the SFC, if the total assets and operating revenues of a subsidiary are less than 10% of the non-consolidated total assets and operating revenues of the Company, respectively, the subsidiary's financial statements may, at the option of the Company, not be consolidated. Irrespective of the above test, when the total combined assets or operating revenues of all such non-consolidated subsidiaries constitute up to 30% of the Company's non-consolidated total assets or operating revenues, then each individual subsidiary with total assets or operating revenues up to 3% of the Company's non-consolidated total assets or operating revenues has to be included in the consolidation. Such subsidiaries are included in the consolidated financial statements thereafter, unless the percentage of the combined total assets or operating revenues for all such subsidiaries becomes less than 20% of the Company's respective unconsolidated amount.

F-10

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The consolidated financial statements include the financial statements of the Company and the following subsidiaries:

Hsun Chieh Investment Co., Ltd. ("Hsun Chieh"), incorporated on December 31, 1999, was created for the purpose of merging the following six companies as of that date: Hung Tien Investment Corporation ("Hung Tien"), Ta Lien Investment Corporation ("Ta Lien"), Hung Lien Investment Corporation ("Hung Lien"), Tung Hsin Investment Corporation, Hsun Chieh Corporation and Holtek Investment Corporation. The Company owned 99.97% of interest in Hsun Chieh as of December 31, 2001 and 2002, respectively. Hsun Chieh was consolidated for the years ended December 31, 2000, 2001 and 2002.

Nippon Foundry Inc. ("Nippon Foundry") was incorporated in May 1984 in Japan and is in the business of manufacturing semiconductor products. During the year 2001, Nippon Foundry was renamed to UMC Japan ("UMCJ"). The Group owned 51.51% and 51.47% of interest in UMCJ as of December 31, 2001 and 2002, respectively.

UMC Group (USA) ("UMC-USA") was incorporated on August 5, 1997, and is engaged in the business of sales of semiconductor products and providing related foundry services. The Company owned 100% of interest in UMC-USA as of December 31, 2001 and 2002.

UMCi Pte. Ltd. ("UMCi") was incorporated in January 2001. The Company held a 49.82% equity interest in UMCi as of December 31, 2001 and 2002. In accordance with the Foundry Venture Agreement with other shareholders of UMCi, the Company obtained the controlling influence over UMCi's decisions on its operations, personnel, and financial policies since incorporation. Therefore, UMCi has been included in the consolidation despite an equity interest of less than 50% since the year ended December 31, 2001.

United Microelectronics (Europe) B.V. ("UMC BV") was incorporated on May 23, 1989 and is engaged in the business of sales of semiconductor products and providing related foundry services. The Company acquired a 100% interest in UMC BV on May 15, 2002 and since then, UMC BV became a wholly-owned subsidiary of the Company.

United Microdisplay Optonics Corp. ("UMO") was incorporated on September 11, 2002 and is engaged in the business of manufacturing and sales of chips for Liquid Crystal On Silicon ("LCOS"). The Company owned an 85% equity interest in UMO as of December 31, 2002 and was consolidated as well.

F-11

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Fortune Venture Capital Corporation, United MicroMachining Corporation and United Foundry Service, Inc. were excluded from consolidation in accordance with the aforementioned exclusion rules for the year ended December 31, 2000. Fortune Venture Capital Corporation, United Foundry Services, Inc. and UMC Capital Corporation were excluded from consolidation in accordance with the aforementioned exclusion rules for the year ended December 31, 2001. Fortune Venture Capital Corporation, United Foundry Services, Inc., UMC Capital Corporation and United Microelectronics Corp. (Samoa) were excluded from consolidation in accordance with the aforementioned exclusion rules for the year ended December 31, 2002.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ significantly from those estimates.

Translation of Foreign Currency Transactions

The accounts of the Company are maintained in New Taiwan dollars, the functional currency. Transactions denominated in foreign currencies are translated into New Taiwan dollars at the exchange rates prevailing on the transaction dates. Receivables, other monetary assets, and liabilities denominated in foreign currencies are translated into New Taiwan dollars at the exchange rates prevailing at the balance sheet date. Exchange gains or losses are included in the current year's results. The financial statements of foreign subsidiaries and investees are translated into New Taiwan dollars using the spot rates as of each financial statement date for asset and liability accounts, average exchange rates for profit and loss accounts and historical exchange rates for equity accounts. The cumulative translation effects for subsidiaries and investees using functional currencies other than the New Taiwan dollars are included in the cumulative translation adjustment in stockholders' equity.

Convenience Translation into US Dollars

The Company prepares its financial statements in New Taiwan ("NT") dollars, its reporting currency. The United States ("US") dollar amounts disclosed in the financial statements as of December 31, 2002, are presented solely for the convenience of the readers and were translated at the Federal Reserve noon buying rate of NT\$34.70 to US\$1.00 in effect on December 31, 2002. Such translation amounts are unaudited and it should not be construed that the NT dollar amounts represent, or have been, or could be, converted into US dollars at that or any other rate.

F-12

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Derivative Financial Instruments

Hedging instruments are accounted for on a net accrual basis in accordance with the contractual interest rate or foreign exchange rate. Other derivative instruments are carried at fair value on the balance sheet date with any changes in unrealized gain or loss charged or credited to earnings for the year.

Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and with maturity dates that do not present significant risks or changes in value resulting from changes in interest rates.

Marketable Securities

Marketable securities are recorded at cost when acquired and are stated at the

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

lower of aggregate cost or market value at the balance sheet date. The market value of listed debt and equity securities or closed-end funds is determined by the average closing price during the last month of the fiscal year. The market value for open-ended funds is determined by their equity per unit at the balance sheet date. The amount by which aggregate cost exceeds market value is reported as a loss in the current year. In subsequent periods, recoveries of market value are recognized as a gain to the extent that the market value does not exceed the original aggregate cost of the investment.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is provided based on management's judgment and on the evaluation of collectibility and aging analysis of accounts and other receivables.

Inventories

Inventories are recorded at cost when acquired and stated at the lower of aggregate cost, based on the weighted average method, or market value at the balance sheet date. The market values of raw materials and supplies are determined on the basis of replacement cost while the work in process and finished goods are determined by net realizable values. An allowance for loss on decline in market value and obsolescence is provided, when necessary.

Long-term Investments

Long-term investments are recorded at cost when acquired. Investments acquired by contribution of technological know-how are credited to deferred credits among affiliates, which will be amortized to income over a period of five years.

F-13

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Investments in less than 20% owned listed companies where significant influence on operational decisions of the investees does not reside with the Group, are accounted for by the lower of aggregate cost or market value method. The unrealized loss resulting from the decline in market value of investments that are held for long-term investment purposes is deducted from the stockholders' equity. The Group's investments in less than 20% owned unlisted companies are accounted for under the cost method, unless an other than temporary impairment is evident, in which case they are written down to fair value as a new cost basis.

Investment income or loss from investments in both listed and unlisted companies is accounted for under the equity method provided that the Group owns at least 20% of the outstanding voting shares of the investees and has significant influence on operational decisions of the investees. The difference of the acquisition cost and the underlying equity in the investee's net assets is amortized over five years.

Unrealized intercompany gains and losses are eliminated under the equity method. Profit from sales of depreciable assets between the investee and the Company is amortized and recognized based on the assets' economic service lives. Profit from other types of intercompany transactions is recognized when realized. The increase in the Group's proportionate share in the net assets of its investee resulting from its subscription to additional shares of stock, issued by such

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

investee, at the rate not proportionate to its existing equity ownership in such investee, is credited to a capital reserve account. Any decrease in the Group's proportionate share in the net assets of investee is debited against the existing balance of the similar capital reserve account, where the credit balance can only be offset to zero. If any excess amount exists, it will be debited against unappropriated retained earnings.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Interest incurred on loans used to finance the construction of property, plant and equipment is capitalized and depreciated accordingly.

Depreciation is provided on the straight-line basis using the economic service lives of the assets less any salvage value. When the economic service lives are completed, property, plant and equipment, which are still in use, are depreciated over the newly estimated remaining useful lives of the salvage value. The economic service lives of the property, plant and equipment are as follows: buildings - 3 to 55 years; machinery and equipment - 5 years; transportation equipment - 2 to 5 years; furniture and fixtures - 2 to 20 years; leased assets and leasehold improvements - the lease period, or economic service lives, whichever is shorter.

F-14

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Maintenance and repairs are charged to expense as incurred. Significant renewals and improvements are treated as capital expenditures and are depreciated accordingly. When property, plant and equipment are disposed of, their original cost and accumulated depreciation are written off and the related gain, net of income tax, is included in the income statement and subsequently transferred to capital reserve in the same year. However, according to amendments in ROC Company Law, such transfer of gain to capital reserve shall no longer be required with effect on January 1, 2001. The accumulated gain transferred in prior years can be transferred back from the capital reserve and be treated as a one-time increase in retained earnings subject to shareholders' approval.

Deferred Charges

Deferred charges are stated at cost and amortized on a straight-line basis as follows: intellectual property and technology license fee - the term of contract or economic lives of the related technology, software - 3 years; facilities use rights - 15 years; bond issuance costs - over the life of the bonds; patents - over economic service lives; and acquired technological know-how - over the estimated useful life of the know-how.

At each balance sheet date, the Group assesses whether there is any indication of impairment other than temporary. If any such indication exists, the recoverable amount is estimated and provision for impairment losses is provided accordingly.

Convertible and Exchangeable Bonds

The excess of the stated redemption price over the par value is accrued as compensation interest payable over the redemption period, using the effective interest method.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

When convertible bondholders exercise their conversion rights, the book value of bonds is credited to common stock at an amount equal to the par value of the common stock and the excess is credited to capital reserve; no gain or loss is recognized on bond conversion.

When exchangeable bondholders exercise their rights to exchange for the reference shares, the book value of bonds is to be offset with the book value of the investment in reference shares and the related stockholder's equities accounts, with the difference recognized as gain or loss on disposal of investments.

F-15

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Pension Plan

The Group has funded defined benefit pension plans covering regular employees. The net pension cost is computed based on an actuarial valuation in accordance with the provision of ROC SFAS No. 18, which requires consideration of pension cost components such as service cost, interest cost, expected return on plan assets and amortization of net obligation at transition. The unrecognized net asset or obligation at transition is amortized on a straight-line basis over 15 years. The pension fund is managed by an independently administered pension fund association.

Capital Reserve

The following shall accrue as capital reserve: (1) any premiums on capital stock; (2) the net appraisal surplus of each fiscal year; (3) any gain on disposal of assets (not applicable for 2001 and after); (4) the fair market value of assets received from a merged company in excess of assumed liabilities and payment for shares held by shareholders of the merged company; (5) any donated surplus; and (6) change in an equity investee's capital structure. Capital reserve shall be exclusively used to cover accumulated deficits when the legal reserve is insufficient to cover the deficits or distribution of stock dividends.

Income Tax

Provision for income tax includes deferred tax resulting from temporary differences and investment tax credits. Deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements using enacted tax rates and laws that will be in effect when the difference is expected to reverse. Valuation allowance on deferred tax assets is provided to the extent that it is more likely than not that the tax benefits will not be realized. The Group recognized the tax benefit from the tax credit incurred in the year equipment is acquired, or the year the expenditure arises from research and development.

Income taxes (10%) on unappropriated earnings are recorded as expenses in the year when the shareholders have resolved that the earnings shall be retained.

Revenue Recognition

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

Revenue is recognized when title and liability for risk of loss or damage to the products have been transferred to customers usually upon shipment. Sales return and allowances taken into consideration of customers' complaint and past experience are accrued in the same year of sales. The connected cost is to be deducted from the total cost of goods sold.

F-16

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Research and Development

Costs incurred by the Group in research and development activities are expensed as incurred.

Minority Interests

Minority interests in the income statement includes interest in the earnings or losses of less than wholly-owned subsidiaries and the pre-acquisition earnings or losses of companies acquired during the year that the Group was not entitled to recognize.

Earnings Per Share

Earnings per share is calculated according to the ROC SFAS No.24. Basic earnings per share is computed by dividing net income by weighted average number of shares outstanding during the year. Diluted earnings per share is calculated by taking basic earnings per share into consideration plus additional common shares that would have been outstanding if the dilutive share equivalents had been issued. The net income would also be adjusted for the interest derived from any underlying dilutive share equivalents. The weighted-average outstanding shares are restated for stock dividends and bonus share issues.

Certain Risks and Uncertainties

The Group is engaged in the foundry business of manufacturing semiconductor products and sells its products primarily in Taiwan, Asia, North America and Europe, generally without requiring collateral. The Group's products are concentrated in the semiconductor industry, which is highly competitive and rapidly changing, and its inventories are subject to rapid technological obsolescence. While the Group has programs to minimize the required inventories on hand and considers technological obsolescence in estimating required allowances to reduce amounts to fair market value, such estimates could change in the future. Significant technological changes in the industry could affect operating results adversely.

Treasury Stock

Under ROC SFAS No. 30, treasury stock is accounted for under the cost method. Cost of treasury stock is shown as a deduction to stockholders' equity, while gain or loss of selling treasury stock is treated as adjustment to capital reserves.

The Company's stock held by its subsidiaries is also treated as treasury stock in the Company's stand-alone account since January 1, 2002.

F-17

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

3. Accounting Changes

On September 1, 2001, UNIPAC Optoelectronics Corp. ("UNIPAC") was merged into Acer Display Technology Inc. which was the surviving corporate entity and was renamed AU Optronics Corp. As the Group has lost its significant influence over the investee, the investment was then accounted for under the lower of cost or market value method. Similarly, upon the listing of MediaTek Incorporation on the Taiwan Stock Exchange in 2001, the Group lost its significant influence over MediaTek and therefore, the investment in MediaTek was accounted for under the lower of cost or market value method since then. Prior to these transactions, the Group's investments in UNIPAC and MediaTek Incorporation were accounted for by equity method.

Prior to January 1, 2002, treasury stock held by the Company's subsidiaries was accounted for in the consolidation level only. Since January 1, 2002, the Company has adopted ROC SFAS No. 30 to further include the Company's stock held by its subsidiaries as treasury stock in the Company's stand-alone account. This adoption has decreased the amount of long-term investment and stockholder's equity in the consolidated balance sheet by NT\$172 million, respectively, representing the treasury stock held by an unconsolidated subsidiary. The net impact caused by the accounting changes is considered insignificant.

Note C : As the Group was not able to exercise significant influence over the investees, the investments were accounted for under the cost method.

Note D : Starting from the third quarter of 2001, the Group was unable to exercise significant influence over AU Optronics Corp. and MediaTek Incorporation's operations, personnel and financial policies. Accordingly, the Group changed its method of accounting for its investments in AU Optronics Corp. and MediaTek Incorporation from the equity method to lower of aggregate cost or market value method.

Note E : Among the shares held by the Group in AU Optronics Corp., approximately 139,770 thousand shares with the book value of NT\$2,075 million was utilized as reference shares for the Group's zero couple exchangeable bonds issued in May 2002.

Note F : The long-term investments were not pledged.

	=====	=====

(1) On April 27, 2000, the Company issued five-year secured bond amounting to NT\$3,990 million with stated interest rate of 5.6%. The bonds are repayable in installments every six months from April 27, 2002 to April 27, 2005.

(2) During the period from April 16 to April 27, 2001, the Company issued five-year and seven-year unsecured bonds totaling NT\$15,000 million, with face value of NT\$7,500 million, and stated interest rates of 5.1850% through 5.1195% and 5.2850% through 5.2170%, respectively. The five-year bonds and seven-year bonds are repayable starting from April 2004 to April 2006 and April 2006 to April 2008, respectively, both in three yearly installments at the rates of 30%, 30% and 40%.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

- (3) During the period from October 2 to October 15, 2001, the Company issued three-year and five-year unsecured bonds totaling NT\$10,000 million, each with face value of NT\$5,000 million, and with stated interest rates of 3.3912% through 3.420% and 3.4896% through 3.520%, respectively. The three-year bonds and five-year bonds are repayable in October 2004 and October 2006, respectively, upon the maturity of the bonds.
- (4) On December 12, 2001, the Company issued zero coupon convertible bonds amounting to US\$302.4 million on the Luxembourg Stock Exchange ("LSE"). The terms and conditions of the bonds are as follows:
- a. **Final Redemption**
Unless previously redeemed, repurchased, cancelled or converted, the bonds will be redeemed at 101.675% of their principal amount on March 1, 2004.
 - b. **Redemption at the Option of the Company**
The Company may redeem all, but not some only, of the bonds, subject to giving no less than 30 nor more than 60 days' advance notice, at the early redemption amount, provided that:
 - (a) On or at any time after June 13, 2003, the closing price of the ADSs on the New York Stock Exchange or other applicable securities exchange on which the ADSs are listed on any ADS trading day for 20 out of 30 consecutive ADS trading days ending at any time within the period of five ADS trading days prior to the date of the redemption notice shall have been at least 130% of the conversion price or last adjusted conversion price, as the case may be, on each such day, or
 - (b) At any time prior to maturity at least 90% in principal amount of the bonds have already been redeemed, repurchased, cancelled or converted.
 - c. **Conversion Period**
 - (a) In respect of the shares, on or after January 22, 2002 up to and including February 20, 2004 or
 - (b) In respect of the ADSs, on or after the later of January 22, 2002 and the date on which the shelf registration statement covering resales of certain ADSs issuable upon conversion of the bonds has been declared effective by the US SEC, up to and including February 20, 2004.

F-27

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

- d. **Conversion Price**
The conversion price
 - (a) In respect of the Shares, will be NT\$69.60 per Share, and
 - (b) In respect of the ADSs, will be US\$10.098 per ADS.
The applicable conversion price will be subject to adjustment for, among other things, subdivision or consolidation of Shares, including Shares represented by ADSs, bonus issues, right issues, distributions of cash and stock dividends and other dilutive events.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

- (5) On May 10, 2002, the Company issued a LSE listed zero coupon exchangeable bonds exchangeable for common shares of AU Optronics, Corp. ("AU") with an aggregate principal amount of US\$235 million. The terms and conditions of the bonds are as follows:

a. Final Redemption
Unless previously redeemed, exchanged or purchased and cancelled, the bonds will be redeemed at their principal amounts in US dollars on May 10, 2007.

b. Redemption at the Option of the Company
The Company may redeem the bonds, in whole or in part, in principal amount thereof, on or after August 10, 2002 and prior to May 10, 2007 at their principal amount, if the market price of the AU common shares, translated into US dollars at the prevailing exchange rate, for a period of 20 consecutive Trading Days, the last of which occurs not more than 10 days prior to the date upon which notice of such redemption is published, is at least 120% of the Exchange Price then in effect translated into US dollars at the rate of NT\$34.645=US\$1.00.

The Company may also redeem the bonds, in whole, but not in part, at their principal amount if at least 90% in principal amount of the bonds has already been exchanged, redeemed or purchased and cancelled.

c. Redemption at the Option of Bondholders
The Company will, at the option of the holders, redeem such bonds on February 10, 2005 at its principal amount.

d. Tax Redemption
The Company may redeem all, but not part, of the bond, at any time at their principal amount in US dollars, in the event of certain changes in the ROC's tax rules which would require the Company to gross up for payments of principal, or to gross up for payments of interest or premium, if any, at a rate exceeding 20%.

F-28

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

e. Exchange
Subject to prior permitted redemption and as otherwise provided in the offering, the bonds are exchangeable at any time on or after June 19, 2002 and prior to April 10, 2007, into AU shares or AU ADSs at an exchange price of NT\$58.25 per share, determined on the basis of a fixed exchange rate of NT\$34.645=US\$1.00; provided however, that if the exercise date falls within five business days from the beginning of, and during, any closed period, the right of the exchanging holder of the bonds to vote with respect to the shares it receives will be subject to certain restriction.

The Exchange Price will be subject to adjustment upon the occurrence of certain events including free distribution of AU common shares by AU; subdivision, consolidation or reclassification of AU common shares, distribution of stock dividends by AU, right issues and other dilutive events.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

(6) On March 25, 2002, the Company's subsidiary UMCJ issued LSE listed zero coupon convertible bonds with an aggregate principal amount of (Yen)17,000 million and the issue price was set at 101.75% of the principal amount. The terms and conditions of the bonds are as follows.

a. Final Redemption

Unless previously converted, purchased and cancelled or redeemed, the bonds will be redeemed on March 26, 2007 at 100% of their principal amount.

b. Early Redemptions

(a) On or at any time after March 25, 2005, UMCJ may redeem all but not some of the bonds if the last selling price of the shares reported on the OTC Market in Japan is at least 120% of the conversion price then in effect for at least 20 out of 30 consecutive trading days ending on the trading day immediately prior to the date of the notice of redemption; or the principal amount that have not been redeemed, repurchased and cancelled or converted is equal to or less than 10% of original aggregate principal amount.

F-29

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(b) In case of a Corporate Split or Share Exchange/ Share Transfer, UMCJ may redeem all but not some of the bonds on or prior to the effective date of the transaction, subject to giving no less than 30 nor more than 60 days' notice at the redemption amount, provided that UMCJ is not able to ensure holders of the bonds to be able to convert them into shares of stock and other securities and property which they would have received had the bonds been converted into shares immediately prior to the transaction or if such supplemental indenture is objected by holders of bonds of at least a majority in principal amount.

(c) If a change in who controls UMCJ occurs, holders of the bonds will be able to require UMCJ to redeem their bonds on the date that is 85 days after the change of control occurs.

c. Conversion Period

At any time on or after May 3, 2002 to and including March 19, 2007.

d. Conversion Price

The conversion price was set at (Yen)400,000 per share and may be adjusted for subdivision or consolidation of shares, rights issues, distribution of cash and stock dividends and other dilutive events.

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

15. Capital Stock

- (1) As recommended by the board of directors and approved by the shareholders' meeting on May 30, 2001, the Company issued 1,864,243,516 new shares from the capitalization of retained earnings of NT\$17,151 million and employees' bonus of NT\$1,491 million with the effective date on July 21, 2001.
- (2) As recommended by the board of directors and approved by the shareholders' meeting on June 3, 2002, the Company issued 2,139,150,230 new shares from the capitalization of retained earnings of NT\$19,680 million and employees' bonus of NT\$1,711 million. The effective date of the issuance was on August 11, 2002.
- (3) As of December 31, 2002, 22,000,000,000 common shares were authorized to be issued and 15,474,845,646 common shares were issued, each at par of NT\$10.
- (4) The Company has issued 173,693 thousand ADSs as of December 31, 2002. The number of common shares represented by the ADSs is 868,467 thousand shares.
- (5) On September 11, 2002, the Company was authorized by the relevant government authorities to issue Employee Stock Options. The total number of options to be granted under the plan is one billion units,

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

with each unit entitling the optionee to subscribe for one share of the Company's common stock. Settlement upon the exercise of the stock options will be made through the issuance of new shares by the Company. The grant period for options is six years and an optionee may exercise his/her options in accordance with certain schedules as prescribed by the plan starting from two years after the grant. The total number of option units outstanding as of December 31, 2002 was 928,059 thousand units and the exercise price for the options is NT\$20 per share.

F-33

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

16. Treasury Stock

The Company bought back its own shares from the open market during the years ended December 31, 2001 and 2002. Details of the treasury stock transactions are as follows:

(In thousand shares)	Shares bought during the year ended December 31,	
	Purpose	
	2001	2002
For transfer to employees	4,990	49,114
For conversion of the convertible bonds into shares	129,035	20,693
Total Shares	134,025	69,807

According to Stock Exchange Regulations of Taiwan, total shares of treasury stock shall not exceed 10% of the Company's stock issued. Total purchase amount shall not exceed the sum of retained earnings and capital reserve-premiums and realized capital reserve. The Company's treasury stock possession did not, at any time during 2002, violate the regulation stated above. As of December 31, 2002, the Company held 236,267 thousand shares of treasury stock, which amounted to NT\$8,819 million.

Treasury stock shall not be pledged, nor does it possess voting rights or receive dividends, in compliance with Stock Exchange Regulations of Taiwan.

17. Retained Earnings

In accordance with the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- (1) Payment of all taxes and dues;
- (2) Offset prior years' operating losses;
- (3) Set aside 10% of the remaining amount after deducting items (1) and (2) as legal reserve;
- (4) Set aside 0.1% of the remaining amount after deducting items (1), (2) and (3) as directors' and supervisors' remuneration;

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

- (5) After deducting items (1), (2) and (3) above from the current year's earnings, any portion of the remaining amount together with the prior years' unappropriated earnings is to be allocated as follows: no less than 5% as employees' bonus which will be settled through issuance of new shares of the Company; and
- (6) The distribution of the remaining portion, if any, will be recommended by the board of directors and approved by the shareholders' meeting.

F-34

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The Company's Articles of Incorporation further provides that at least 50% of the dividends to the Company's shareholders, if any, must be paid in the form of stock dividends. Accordingly, no more than 50% of the dividends can be paid in the form of cash.

The appropriation of 2002 retained earnings has not yet been recommended by the board of directors as of the date of the Report of Independent Auditors. Information on board of directors' recommendations and shareholders' approvals can be obtained from the "Market Observation Post System" on the website of Taiwan Stock Exchange Corporation.

Details of the settlement of 2001 employees' bonus and remuneration of directors and supervisors are as follows:

	For the year ended December 31,	
	As approved by the shareholders' meeting	As recommended by the board of directors
1. Settlement of employees' bonus by issuance of new shares		
a. Number of shares (in thousands)	171,132	171,132
b. Amount (in thousands)	NT\$1,711,320	NT\$1,711,320
c. Percentage on total number of outstanding shares at end of year	1.30%	1.30%
2. Remuneration of directors and supervisors	-	-
3. Effect on earnings per share before retroactive adjustments		
a. Original basic and diluted loss per share	NT\$ (0.24)	NT\$ (0.24)
b. Revised basic and diluted loss per share taking into consideration the employees' bonus	NT\$ (0.37)	NT\$ (0.37)

	=====	=====

The Company's income tax returns through the year 1999 have been assessed and approved by the Tax Authority except that of 1998.

The Company is located in the Hsin-Chu Science-Based Industrial Park (HSIP). In order for business operations to be eligible to locate in the HSIP, the operations must be high technology related manufacturing activities. Based on the HSIP regulations, a preferential income tax rate of 20%, instead of 25% applicable to other business entities located in Taiwan, is imposed on profits generated from HSIP business operations through the year 2000. Starting from 2001, the preferential income tax rate of 20% is no longer available to HSIP business operations and the standard tax rate of 25% is applied.

F-37

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Pursuant to the "Statute for the Establishment and Administration of Science-Based Industrial Park", the Company was granted several four-year income tax exemption periods with respect to income derived from expansion of operations located in Hsin Chu Science-Based Industrial Park. The starting date of the exemption period attributable to the expansion in 1999 was not yet been elected by the Company. The other exemption periods will expire in December of 2007.

An enterprise earns an investment tax credit for the amount invested in emerging, important and strategic industries, production equipment, research and

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

development expenditure, employee training expenditure and other related costs. This credit may be applied over a period of five years.

As of December 31, 2002, the Group's unused investment tax credit is as follows:

Expiration Year	Investment tax credits
-----	-----
	NT\$'000
2002	3,280,896
2003	3,974,393
2004	5,899,913
2005	3,493,821
2006	5,976,823

	22,625,846
	=====

Under the rules of the Income Tax Law, operating loss can be carried forward for five years. As of December 31, 2002, the unutilized accumulative loss brought forward amounted to NT\$16,402 million, which will expire in 2006 and 2007.

The new Taiwan imputation tax system requires that any undistributed current earnings, on tax basis of a company derived on or after January 1, 1998 be subject to an additional 10% corporate income tax if the earnings are not distributed before a specific time. This 10% additional tax on undistributed earnings paid by the company can be used as tax credit by shareholders, including foreign shareholders, against the withholding tax on dividends. In addition, the domestic shareholders can claim a proportionate share in the company's corporate income tax as tax credit against its individual income tax liability effective 1998.

F-38

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The ending balance of unappropriated earnings available for 2002 appropriation amounted to NT\$23,005 million, of which NT\$64 million was earned prior to January 1, 1998.

As of December 31, 2002, the balance of imputation credit account ("ICA") was NT\$90 million. The actual creditable ratio for the appropriation of 2000 and 2001 retained earnings was 1.04% and 1.79%, respectively.

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

22. Commitments and Contingencies

- (1) The Group's unused letters of credit for imports of machinery were approximately NT\$76 million as of December 31, 2002.
- (2) The Group has entered into contracts, amounted to approximately NT\$15.6 billion, with third parties for rights to use patents registered by the third parties. The contract period was from 1995 to 2011. Royalty payables for the consecutive 5 years starting from 2003 through 2007 are approximately NT\$2.5 billion, NT\$1.3 billion, NT\$1.3 billion, NT\$1.2 billion, and NT\$1.3 billion, respectively.
- (3) The Group has signed several construction contracts for the expansion of factory space. As of December 31, 2002, these construction contracts amounted to approximately NT\$10.3 billion and the unaccrued portion of the contracts was approximately NT\$4.8 billion.
- (4) On October 27, 1997, Oak Technology Inc. ("Oak") filed a complaint seeking a damage of US\$750 million in the Northern District of California alleging that the Company breached a Settlement Agreement entered on July 31, 1997 with respect to a settlement of a dispute between the Company and Oak concerning certain CD ROM controller products made by the Company and a patent owned by Oak. The Company denied Oak's allegations and on December 24, 1997, filed its answer and affirmative defenses refuting Oak's claims. Based on the allegations that it is Oak which has breached the Settlement, the Company simultaneously filed a counterclaim against Oak, seeking damages and a return of the millions paid to Oak under the Settlement. In addition, the Company further seeks a declaration that the Oak patent is invalid and/or unenforceable. Though Oak filed a complaint later with the International Trade Commission ("ITC") repeating the allegations made in the District Court, both the ITC and the Court of Appeals for the Federal Circuit issued a ruling affirming that there was no infringement and no violation.

Oak filed enforceable commitments that it would no longer seek recoveries in connection with the Oak patent and accordingly, the District Court concluded there was no longer dispute between Oak and the Company on the patent and the Company's claim for a declaration of invalidity and unenforceability will be dismissed. The Company intends to continue to defend these matters vigorously. Furthermore, the management does not believe the Oak complaints will have any material adverse impact on the Company's operations and/or financial performance.

F-45

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

- (5) The Group entered into several operating lease contracts. Future minimum lease payments under those leases with original maturities, which extend for more than one year as of December 31, 2002, are as follows:

For the year ended	Amount (NT\$'000)
December 31, 2003	207,633
December 31, 2004	211,732
December 31, 2005	202,364
December 31, 2006	168,738
December 31, 2007	154,116
January 1, 2008 and thereafter	2,160,103
Total	3,104,686

- (6) The Group entered into several wafer-processing contracts with its main clients. According to the contracts, the Group shall guarantee processing capacity, while the clients make deposits to the Group. In case the clients' orders do not meet the capacity guaranteed, the clients need to pay the Group penalties.
- (7) The Company entered into two three-year purchase agreements in January 2000 that committed the Company to purchase at least 75% of its 8-inch wafer consumption from two of its suppliers for the contract period.
- (8) As a condition precedent to the making of the loan contemplated by a US\$600 million Amortizing Term Loan Facility Agreement among UMCi, a subsidiary of the Company, and several financial institutions, the Company has provided a letter of undertaking to the financial institutions and Citicorp Investment Bank (Singapore) Ltd, the facility agent, to undertake that
- The Company shall continue to own and control, directly or indirectly, a minimum of 40% of the total issued and outstanding shares of UMCi. The Company shall also provide technical support to UMCi and maintain management control with no less than half seats of the board of directors.
 - The Company shall take necessary actions to ensure UMCi to have at least US\$600 million of issued and paid-in capital in cash by December 31, 2003, to make investments necessary to complete the 12-inch Fab Plant on time, and to meet all the obligations under the Facility Agreement.

23. Significant Disaster Loss

None.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

24. Significant Subsequent Event

- (1) The Company has granted 61 million in units of employee stock options on January 3, 2003 with an exercise price of NT\$22.5 per share.
- (2) After the special shareholders' meeting of Silicon Integrated Systems Corp. on January 14, 2003, the Company has held three seats of the board of directors. Silicon Integrated Systems Corp. is an investment of the Company accounted for under the cost method as of December 31, 2002.

25. Certain comparative amounts have been reclassified to conform with the current year's presentation.

26. Financial Instruments

- (1) The Group uses derivative financial instruments to manage its exposure to market risks associated with foreign currency exchange rate and interest rate fluctuations.

There were no derivative financial instruments outstanding as of December 31, 2001 and 2002 except for a forward exchange contract entered into by UMCJ in December 2001 as disclosed below.

- (2) UMCJ, a subsidiary of the Company, entered into foreign currency forward exchange contract with certain bank on December 17, 2001. The major information is as follows:

- a. Purposes: to manage certain risks arising from adverse fluctuations in foreign currency exchange rates.
- b. Notional amount and contract period:

As of December 31, 2001:

Notional amount	Contract period
US\$3million	January 4, 2002 ~ January 31, 2002

- c. Terms and characteristics of the forward exchange:

- (a) Term: UMCJ agrees to purchase US\$3 million using the contracted forward rate in USD/(Yen)127.77 during the contract period.
- (b) Credit risk: There is no significant credit risk with respect to the above transaction because the bank has good global standing.
- (c) Market risk: The market risk is low due to the nature of the forward exchange.

F-47

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

- (3) Non-derivative financial instruments

The carrying value and fair value (and methodologies used in estimating the fair value) of the Group's financial instruments at December 31, 2001 and 2002 were as follows:

	As of December 31, 2001		As of Decem
	Carrying Value	Fair Value	Carrying Value
	NT\$'000	NT\$'000	NT\$'000
Financial liabilities			
Liabilities with carrying value			
approximating fair value	22,085,770	22,085,770	19,193,135
Bonds payable	39,590,511	41,805,353	50,581,483
Long-term loans	24,825,001	24,825,001	19,521,111

The fair value of marketable securities, long-term investments and bonds payable is based on the quoted market value. If the market values of marketable securities and long-term investments are unavailable, net assets of the investee companies are used as fair value.

F-48

27. Segment Information

- (1) Operations in different industries
The Group operates principally in one industry. The Group's major business activity is the dedicated full services semiconductor wafer foundry.
- (2) Operations in different geographic areas

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

28. US GAAP Reconciliation

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the Republic of China ("ROC GAAP"), which differ in certain material respects from generally accepted accounting principles in the United States ("US GAAP"). Such differences include methods of consolidation and methods for measuring the amounts shown in the financial statements, as well as additional disclosures required by US GAAP. Material GAAP differences are as follows:

(1) Compensation

	For the year ended December	
	2000	2001
	NT\$'000	NT\$'000
Net income impact of compensation adjustments		
US GAAP adjustments:		
Remuneration to directors	(433,039)	-
Employee bonuses		
Accrual	(3,429,670)	-
Adjustment to fair market value	(6,764,918)	(3,238,647)
Total employee bonuses	(10,194,588)	(3,238,647)
Allocation to inventories, net of allocations to inventories in prior period and sold in current period	1,287,138	(1,287,138)
Total net income adjustment relating to compensation	(9,340,489)	(4,525,785)
	=====	=====

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

	As of December 31,	
	2001	2002
	NT\$'000	NT\$'000
Stockholders' equity impact of compensation adjustments		
US GAAP adjustments:		
Remuneration to directors	-	(6,367)
Employee bonuses	-	73,335
Total stockholders' equity adjustment relating to compensation	-	66,968

Remuneration to Directors - The Company's Articles of Incorporation requires a cash remuneration payment to its directors. Under ROC GAAP, such payments are charged directly to retained earnings in the period shareholders approve such payment.

Under US GAAP, such cash payments should be recorded as compensation expense in the period when services are rendered. The difference between US GAAP and ROC GAAP in this area would result in adjustments to net income and stockholders' equity as shown in the above schedules.

F-50

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Employee Bonuses - Certain employees of the Company are entitled to bonuses in accordance with provisions of the Company's Articles of Incorporation. Employee bonuses are determined as discussed in Note 17. Under ROC GAAP, such bonuses are appropriated from retained earnings in the period shareholders' approval is obtained. If such employee bonuses are settled through the issuance of stock, the amount charged against retained earnings is based on the par value of the common shares issued.

Under US GAAP, employee bonus expense is initially accrued when services are rendered and both the number of shares to be issued and the price per share are known. When bonuses are approved by the shareholders in the subsequent year, an additional compensation expense is recorded for the difference between the amount initially recorded and the fair market value of shares granted to employees. The difference between US GAAP and ROC GAAP in this area would result in adjustments to net income and stockholders' equity as shown in the above schedules. In addition, there is also a reclassification from retained earnings to capital reserve of NT\$24,128 million, NT\$27,367 million and NT\$ 29,305 million at December 31, 2000, 2001 and 2002.

(2) Equity Investments - Net income variance between US GAAP and ROC GAAP The Group's proportionate share of the income (loss) from an equity investee may differ if the equity investee's net income (loss) under ROC GAAP differs from US GAAP. The differences between ROC GAAP and US GAAP for the equity investees include accounting for compensation, technological know-how and investment in marketable securities, etc.

(3) Marketable Securities and Long-term Investments

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

Under ROC GAAP, marketable securities are carried at the lower of aggregate cost or market value. Under US GAAP Statement of Financial Accounting Standards, ("SFAS") 115, "Accounting for Certain Investments in Debt and Equity Securities," debt and equity securities that have readily determinable fair values are to be classified as either trading, available-for-sale or held-to-maturity securities. Debt securities that the Group has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and reported at amortized cost. Debt and equity securities that are bought and traded for short-term profit are classified as trading securities and reported at fair value, with unrealized gains and losses included in earnings. Debt and equity securities not classified as either held-to-maturity or trading securities are classified as available-for-sale securities and reported at fair value, with unrealized gains and losses excluded from earnings and reported in a separate component of stockholders' equity.

The Group holds marketable securities that are mainly classified as trading securities. The portion of trading gains and losses for the years ended December 31, 2000, 2001 and 2002 on trading securities still held at each of the respective balance sheet dates were NT\$0, NT\$19,868 and NT\$1,771,439 respectively.

F-51

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The Group holds long-term investments in equity securities that are classified as available-for-sale securities. Information on sales of available-for-sale equity securities for the years ended December 31, 2000, 2001 and 2002 are as follows:

	Proceeds from sales	Gross realized gains	Gross realized losses
	----- NT\$'000	----- NT\$'000	----- NT\$'000
For the year ended December 31, 2000	1,755,924	488,748	62,887
For the year ended December 31, 2001	2,743,503	1,987,304	137,178
For the year ended December 31, 2002	8,530,551	6,520,197	264

Information on available-for-sale equity securities still held at each balance sheet date is as follows:

	Fair Value	Total unrealized gains	Total unrealized losses
	----- NT\$'000	----- NT\$'000	----- NT\$'000
As of December 31, 2001	54,485,301	40,367,986	(313,750)
As of December 31, 2002	35,127,937	19,322,091	(574,484)

The Group did not transfer any available-for-sale securities to trading

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

securities for the years ended December 31, 2000, 2001 and 2002. The amount of gains (losses) reclassified from accumulated other comprehensive income into earnings on available-for-sale securities were NT\$46,229, NT\$169,049, and NT\$5,034,105 for the years ended December 31, 2000, 2001 and 2002, respectively.

Under ROC GAAP, if an investor company invests in equity securities that are traded in an open market and uses the cost method for valuation purposes, then an investor company shall recognize losses if evidence suggests that the value of an investment has been impaired and it is unlikely that the stock price will recover. The new cost of the long-term investment is the book value after recognizing the losses. Under US GAAP, for individual securities classified as either available-for-sale or held-to-maturity, an enterprise shall determine whether a decline in fair value below the amortized cost basis is other than temporary. If the decline in fair value is judged to be other than temporary, the cost basis of the individual security shall be written down to fair value as a new cost basis and the amount of the write-down shall be included in earnings. The new cost basis shall not be changed for subsequent recoveries in fair value. Subsequent increases in the fair value of available-for-sale securities shall be included in the other comprehensive income.

F-52

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The Group has written down NT\$415 million, NT\$536 million and NT\$1,409 million under ROC GAAP against certain available-for-sale securities for the years ended December 31, 2000, 2001 and 2002. For US GAAP purpose, the Group further wrote down an additional NT\$296 million, NT\$3,305 million and NT\$781 million for the years ended December 31, 2000, 2001 and 2002. Among the NT\$1,409 million recognized under ROC GAAP for the year ended December 31, 2002, NT\$432 million had already been written down under US GAAP for the year ended December 31, 2001, which therefore has led to an increase in net income under US GAAP for the year ended December 31, 2002.

Under ROC GAAP, equity investments where a company has an ownership interest of at least 20% are generally required to be accounted for under the equity method. However, when there is evidence indicating that the investor company does not have significant influence over the equity investee, despite an ownership interest of 20% or more, the investor company should not account for the equity investee under equity method. On the contrary, when there is evidence indicating that the investor company has significant influence over the equity investee's operating and financial policies, despite an ownership interest of less than 20%, the investor company will account for the equity investee under equity method. Under US GAAP, the Group is required to use the equity method of accounting for an investment in common stock when the investment in voting stock gives it the ability to exercise significant influence over operating and financial policies of an investee. An investment (direct or indirect) of 20% or more of the voting stock of an investee leads to a presumption that in the absence of evidence to the contrary an investor has the ability to exercise significant influence over an investee. There were no significant differences between ROC GAAP and US GAAP on balance sheets as of December 31, 2001 and 2002 and on income statements for the three years ended December 31, 2000, 2001 and 2002.

(4) Treasury Stock and Gain on Disposal of Treasury Stock

Under ROC GAAP, when the Group's equity investee sells the Company's stock it recognizes the gain or loss in its statement of operations. Under US GAAP, the Group's equity in income (loss) of an investee is adjusted to eliminate the

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

Company's proportionate share of any such gains or losses. Further, the Company's stock owned by an investee is proportionately deducted from the investment as treasury stock.

F-53

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(5) Technological Know-how

The Group entered into three joint ventures from 1995 through 1996. Both the Group and the joint venture partner contributed cash to the joint ventures. In addition, the Group contributed technological know-how to the joint ventures for shares of the joint venture companies. The technological know-how contributed has not been recognized on the Group's balance sheet, as these were internally generated intangible assets with no carrying value. Both parties mutually agreed to the value of this transferred technological know-how before the transfer of shares.

Under ROC GAAP, the Group recognized the cash contributed as the initial cost of the investment. The difference between the proportionate share of the net assets in the joint venture and the cash contributed is amortized to income over the estimated useful life of the technological know-how, which is the source of this difference. Further, under ROC GAAP, the joint venture recognized a value for the technological know-how as an intangible asset contributed, which is the cause of the difference between the proportionate share of the net assets and the cash contributed.

Under US GAAP, the investor initially records its joint venture investment at cost, representing the amount of cash contributed and/or net book value of non-cash assets contributed. The joint venture normally records cash investments at the amount contributed, the non-cash assets at fair value and intangible assets at the predecessor basis, which is normally zero. The difference between the proportionate share of the net assets in the joint venture and the cost of the investments is amortized to income over a period of five years. The joint venture does not recognize value for the technological know-how contributed, thus causing a difference with ROC GAAP.

This practice only applies to entities that are being consolidated or accounted for under the equity method.

F-54

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(6) Convertible and Exchangeable Bonds

Convertible Bonds

When convertible securities are issued, ROC GAAP does not recognize or account for any beneficial conversion feature embedded in the securities. Under US GAAP, as prescribed in the Emerging Issues Task Force ("EITF") Topic D-60, as amended by EITF 98-5, Accounting for the Issuance of Convertible Preferred Stock and Debt Securities with a Non-detachable Conversion Feature, such beneficial

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

conversion features should be recognized and measured by allocating a portion of the proceeds equal to the intrinsic value of that feature to capital reserve. That amount should be calculated at the issuance date as the difference between the conversion price and the fair value of the common stock, multiplied by the number of shares into which the security is convertible (intrinsic value). As a result, a bond discount is recognized by allocating a portion of the proceeds equal to the intrinsic value of that feature to capital reserve. The Group recognized interest expense of NT\$1,274 million from February 1994, the date of issuance of the bonds, to May 1994, the date of first conversion, relating to a NT\$1.5 billion bond. The Group also recognized interest expense of NT\$6,086 million from June 1994, the date of issuance of the bonds, to May 1996, the date of first conversion, relating to an US\$160 million bond.

The Group recognized interest expense of approximately NT\$800 million from May 10, 2000, the date of issuance of the bonds, to June 1, 2000, the date of first conversion, related to its (Yen)10 billion bond.

In addition, according to EITF 85-17, the Group recognized an imputed interest expense together with a compensation interest of NT\$570 million in total for the year ended December 31, 2002, relating to the US\$302.4 million zero coupon convertible bonds issued on December 12, 2001.

When a subsidiary or investee (the "Issuer") issues convertible bonds to other parties, including the parent or investor, and bonds are converted into shares of the Issuer, the parent's or investor's ownership in the Issuer may decrease. Also, the parent's or investor's ownership in the Issuer may increase upon conversion. Under ROC GAAP, this decrease or increase is treated as a one-time decrease or increase to capital reserve and /or retained earnings.

Under US GAAP, a decrease in ownership is recognized as a gain or loss in the income statement upon conversion, as long as the value of the proceeds can be objectively determined and the realization of the gain is reasonably assured at the time of conversion. Under US GAAP, for the years ended December 31, 2000, 2001 and 2002, approximately NT\$141 million, nil and NT\$9.5 million were reclassified from capital reserve to a gain in the income statement relating to these transactions.

F-55

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Further under US GAAP, an increase in ownership is treated as a purchase of additional shares and the difference between the total cost of the investment and the proportionate share of the fair value net assets is first allocated to identifiable tangible and intangible assets and the remaining unallocated amounts to goodwill, which was amortized over their respective estimated useful lives up to January 1, 2002. Upon the first adoption of the SFAS No.141, "Business Combination" and SFAS No.142, "Goodwill and Other Intangible Assets" by the Group on January 1, 2002, goodwill created from acquisition is no longer to be amortized. Under US GAAP, for the year ended December 31, 2000, the Group capitalized goodwill of NT\$468.3 million related to a subsidiary's convertible bond, with NT\$49.4 million, NT\$93.7 million, and nil being amortized in the income statement for the years ended December 31, 2000, 2001, and 2002, respectively. Further, upon conversion of an equity investment's bond, which increased the Group's ownership, the difference of NT\$519 million between the total cost of the investment and proportionate share of the fair value net assets was being amortized over 5 years, which accounted for NT\$54.8 million and

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

NT\$103.9 million for the years ended December 31, 2000 and 2001, respectively. Again, due to the first adoption of SFAS No.141 & 142 on January 1, 2002, no amortization was made for the year ended December 31, 2002. Details of the new accounting treatment on goodwill are set out in the footnote "Adoption of SFAS No.141 & 142" in the "Additional US GAAP Disclosures".

During the year ended December 31, 2002, the Group has invested a total amount of NT\$2,502 million in three convertible bonds. Under the SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", an embedded derivative instrument shall be separated from the host contract and accounted for as a derivative instrument pursuant to the statement if a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, b) the contract that embodies both the embedded derivative instrument and the host contract is not remeasured at fair value with changes in fair value reported in earnings as they occur and c) a separate instrument with the same terms as the embedded derivative instrument would be a derivative instrument subject to the requirements of SFAS No. 133. For an available-for-sale convertible debt securities, the conversion option embedded must be separated from the debt host contract and accounted for as a derivative instrument provided that the conversion option would, as a freestanding instrument, be a derivative instrument subject to the requirement of SFAS No. 133 since the embedded conversion option satisfied the above three criteria. As a result, the embedded option contracts in the convertible bonds with the initial amount of NT\$104 million in total at date of purchase were separated from the debt host contracts and were accounted for as trading securities reporting at fair value, with unrealized loss of NT\$25 million included in earnings for the year ended December 31, 2002. On the other hand, the debt host contracts with the initial amount of NT\$2,397 million were classified as available-for-sale securities, with an unrealized gain of NT\$46 million reported in other comprehensive income.

F-56

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Exchangeable Bonds

Bonds that are exchangeable into common stock of a third party is an expansion on the concept of convertible bonds.

Under ROC GAAP, when exchangeable bondholders exercise their rights to exchange for the reference shares, the book value of bonds is to be offset with the book value of the investment in the reference shares together with the related stockholder's equities, with the difference recognized as gain or loss on disposal of investments.

Under US GAAP, as prescribed by SFAS No.133 and discussed above, the exchangeable feature within exchangeable bonds is an embedded equity derivative within a debt instrument that satisfies the three criteria which requires it to be bifurcated and separately accounted for. The fair value of the exchangeable option feature of the Group's first exchangeable bonds issued in May 2002 was measured as NT\$2,025 million as at the date of issuance, which resulted to a reclassification from the bond value to financial instrument liability under US GAAP, accordingly. As of December 31, 2002, the fair value of the option has decreased by NT\$1,752 million, resulting in a gain being recognized for the year ended December 31, 2002 under US GAAP.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

(7) Principle of Acquisition under the Purchase Method

Under ROC GAAP, the fair value of the net assets received is deemed to be the value of the consideration for the acquisition of the remaining interests in United Semiconductor, United Silicon, UTEK Semiconductor and United Integrated Circuits and is reflected in the common stock and capital reserve in the balance sheet. The Group estimated the fair value of the net assets acquired through two valuation models, profitability and net worth model, and a discounted cash flows model. They also used other considerations such as the valuation of current operations, synergies, technical knowledge and future prospects. Under US GAAP, the acquisition was accounted for using the purchase method of accounting and the purchase price was determined using the market value of the shares exchanged. The difference between the fair value of the shares exchanged and the fair value of the net assets acquired creates goodwill. Goodwill was amortized on a straight-line basis over ten years. Upon the adoption of SFAS No.141 & 142 on January 1, 2002 by the Group, the goodwill ceased to be amortized and is subject to impairment test only. The details of the adoption of SFAS No.141 & 142 are set out in the "Additional US GAAP Disclosures". The purchase price under US GAAP was determined based on the average closing market price of the Company's stock on the five trading days beginning two days before June 16, 1999, the first day of trading after the announcement of the acquisition to determine the fair values of the shares exchanged.

F-57

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The purchase price was allocated to the tangible and intangible assets and liabilities acquired based on their estimated fair values at January 3, 2000, as follows (in NT\$ millions):

Current assets	\$38,188
Other assets	47,673
Liabilities	(43,318)
Goodwill	122,835

Purchase price	\$165,378
	=====

As of January 1, 2002, the carrying value of the unamortized balance of the goodwill was measured as NT\$98,268 million.

(8) Earnings Per Share

Under ROC GAAP, basic earnings per share are calculated by dividing net income by the weighted average number of shares outstanding during the year. Diluted earnings per share is calculated by taking basic earnings per share into consideration plus additional common shares that would have been outstanding if the dilutive share equivalents had been issued. The net income would also be adjusted for the interest derived from any underlying dilutive share equivalents. The weighted-average outstanding shares are restated for stock dividends issued and shares issued for employee bonuses, as described under (1) Compensation above.

Under US GAAP, basic earnings per share is calculated by dividing net income by the weighted average number of shares outstanding during the year. Diluted earnings per share are calculated by taking into consideration additional common shares that would have been outstanding if the dilutive share equivalents had been issued. The net income would also

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

be adjusted for the interest derived from any underlying dilutive share equivalents.

(9) Tax Effect of US GAAP Adjustments

Undistributed earnings generated after 1997 are subject to a 10% tax in compliance with the Income Tax Law of the ROC. Under ROC GAAP, the 10% tax on undistributed earnings is recorded as an expense at the time shareholders resolve that its earnings shall be retained. Under US GAAP, the Group would measure its income tax expense, including the tax effects of temporary differences, using the tax rate that includes the tax on undistributed earnings.

F-58

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(10) Principles of Consolidation

Under ROC GAAP, certain 50% or more owned subsidiaries are not consolidated if they meet specific exclusion rules detailed in the accounting policies footnote. Under US GAAP, the Company consolidates those subsidiaries which are excluded from consolidation under ROC GAAP due to the exclusion rules (Fortune Venture Capital Corporation, UMC Capital Corporation, United Microelectronics Corp. (Samoa), and United Foundry Services, Inc.) The net income and stockholders' equity variances between US GAAP and ROC GAAP for those entities are included in the adjustment for equity investments.

(11) Stock Dividends

Under ROC GAAP, stock dividends are recorded at par with a charge to retained earnings. Under US GAAP, if the ratio of distribution is less than 25 percent of the same class of shares outstanding, the fair value of the shares issued should be charged to retained earnings. The accumulative effect of these dividends would have decreased retained earnings and increased capital reserve for the years ended December 31, 2000, 2001 and 2002 by approximately NT\$127,880 million, NT\$187,416 million and NT\$243,546 million, respectively.

(12) Gain on Disposal of Fixed Assets

Under ROC GAAP, gains and losses from the disposal of fixed assets are both recognized in the statement of operations, with gains reclassified from retained earnings to capital reserve. However, according to amendments in ROC Company Law, such transfer of gains to capital reserve shall no longer be required with effect on January 1, 2001. Under US GAAP, the reclassification of the gain from retained earnings is not permitted. The effect of this gain would have increased retained earnings and decreased capital reserve for the years ended December 31, 2000 by NT\$173 million. According to the new amendments in ROC Company Law, such gains transferred to capital reserve in previous years can be reclassified to retained earnings subject to shareholder's approval. An amount of NT\$171 million was then transferred from capital reserve to retained earnings during the year ended December 31, 2002 under ROC GAAP.

(13) Gross Profit

Inventory loss provision, gain from disposal of property, plant and equipment, and gain from foreign currency exchange were presented below the operating income subtotal in the statement of operations as permitted under ROC GAAP. Under US GAAP, the inventory loss provision is included in the determination of gross profit. Further, the inventory loss provision, gain

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

from disposal of property, plant and equipment, and gain from foreign currency exchange are included in the determination of operating income.

F-59

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(14) Reclassification of Certificates of Deposit

Under ROC GAAP, cash and cash equivalents include certificates of deposit. Under US GAAP, cash equivalents are short-term, highly liquid investments that are readily convertible to cash with original maturities of three months or less. Thus, certificates of deposit with original maturities of greater than three months are classified as cash equivalents under ROC GAAP but should be included in marketable securities for trading purpose under US GAAP.

(15) Employee Stock Options

The Group has elected to follow Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" (APB 25) and related interpretations in accounting for its employee stock options because, as discussed below, the alternative fair value accounting provided for under SFAS No. 123, "Accounting for Stock-Based Compensation", requires use of option valuation models that were not developed for use in valuing employee stock options. Under APB 25, because the exercise price of the Company's employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized for the Company.

On September 11, 2002, the Company was authorized to issue Employee Stock Options. The total number of options to be granted under the plan is one billion units, with each unit entitling the optionee to subscribe for one share of the Company's common stock. The grant period for options is six years and an optionee may exercise his/her options starting from two years after the grant: employees may exercise up to 50% of the options after two years, up to 75% after three years and up to 100% after four years. The total number of option units outstanding as of December 31, 2002 was 928,059 thousand units and the exercise price for the options is NT\$20 per share.

Pro forma information regarding net income and earnings per share is required by SFAS No. 123, and has been determined as if the Group had accounted for its employee stock options under the fair value method of that Statement. The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions, respectively: risk-free interest rate of 1.98%; dividend yields of 22.63%; volatility factors of the expected market price of the Company's common stock of 0.54; and a weighted-average expected life of the option of 4.4 years.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Group's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

F-60

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period. The Group's pro forma information follows (in thousands except for earnings per share information):

	For the year ended December 31,		
	2000	2001	2002
	NT\$'000	NT\$'000	NT\$'000
Net income, as reported under US GAAP	27,133,811	(23,246,991)	293,653
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	-	-	5,387
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(170,382)	(284,663)	(398,583)
Pro forma net income	26,963,429	(23,531,654)	(99,543)
Earnings (loss) per share (in dollars):			
Basic and diluted - as reported	1.91	(1.58)	0.02
Basic and diluted - pro forma	1.90	(1.60)	(0.01)

The pro forma net income effect for the year ended December 31, 2000 and 2001 is mainly attributable to the employee stock options issued by a subsidiary of the Company.

F-61

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

A summary of the Company's stock option activity, and related information for the years ended December 31, 2002 follows:

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

2002

	Options (in thousands)	Weighted-Average Exercise Price
Outstanding-beginning of year	-	-
Granted	939,000	NT\$20
Exercised	-	-
Forfeited	(10,941)	20
Outstanding-end of year	928,059	20
Exercisable at end of year	-	-
Weighted-average fair value of options granted during the year	NT\$1.07	

Exercise price for options outstanding as of December 31, 2002 is NT\$20. The weighted-average remaining contractual life of those options is 5.8 years.

(16) Summarized financial information

Summarized financial information for equity investees is as follows:

	As of December 31,		
	2001	2002	
	NT\$'000	NT\$'000	US\$'000
Current assets	31,945,226	33,313,560	960,045

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Concentration of credit risk

The Group designs, develops, manufactures and markets a variety of semiconductor products. Financial instruments that potentially subject the Group to significant concentrations of credit risk consist principally of cash and cash equivalents and trade accounts and notes receivable. The Group limits its exposure to credit loss by depositing its cash and cash equivalents with high credit quality financial institutions. The Group's revenues and trade accounts and notes receivable are derived primarily from the sale of production foundry wafers, including memory and logic products and wafers. For the years ended December 31, 2001 and 2002, the Group distributes its products on a global basis but mainly to customers in North America (37.81% and 37.64%, respectively), Asia (42.07% and 51.25%, respectively,) and Europe and others (20.12% and 11.11%, respectively). The Group's sales are primarily denominated in currencies other than NT Dollars, primarily US Dollars. One customer's revenue represented 11% of the consolidated revenue for the year ended December 31, 2001 while two customers' revenue represented 12% and 13%, respectively, of the consolidated revenue for the year ended December 31, 2002. The Group routinely assesses the financial strength of substantially all customers. For significant domestic sales the Group also requires certain collateral to mitigate the credit risk.

Adoption of SFAS No.141 and 142

In June 2001, the Financial Accounting Standard Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets". SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 as well as all purchase method business combinations completed after June 30, 2001. SFAS No. 141 also specifies criteria intangible assets acquired in a purchase method business combination must meet to be recognized and reported apart from goodwill, noting that any purchase price allocable to an assembled workforce may not be accounted for separately. SFAS No. 142 requires that goodwill and intangible assets with indefinite useful lives should no longer be amortized, but instead be tested for impairment at least annually in accordance with the provisions of SFAS No. 142. SFAS No. 142 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets".

The Group adopted SFAS No.141 & 142 on January 1, 2002. Upon adoption, the Group did not identify additional intangible assets related to previous acquisitions and the goodwill created from the acquisition of the remaining interests in United Semiconductor, United Silicon, UTEK Semiconductor and United Integrated Circuits prior to June 30, 2001 as well as those created from the acquisition of an equity investee were no longer to be amortized but instead subject to impairment test annually or when indication of impairment is noted. Similarly, the goodwill created upon conversion of convertible bonds ceased to be amortized. The annual goodwill impairment test performed by the Group did not result in the recognition of any impairment loss as of December 31, 2002.

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

As of January 1, 2002, the unamortized goodwill amounted to NT\$98,593 million, and unamortized equity-method goodwill (included in long-term investment) amounted to NT\$526 million. The information on net income exclusive of amortization expense related to the above mentioned goodwill is presented as follows:

	For the year ended	
	2000	2001
	NT\$'000	NT\$'000
Net income (loss) as reported under US GAAP	27,133,811	(23,246,991)
Add back: amortization of goodwill	12,332,937	12,377,169
Add back: amortization of equity-method goodwill	131,758	180,811
Adjusted net income	39,598,506	(10,689,011)
	=====	=====
Basic and diluted earnings per share:		
Net income (loss) as reported under US GAAP	1.91	(1.58)
Goodwill amortization	0.87	0.84
Equity-method goodwill amortization	0.01	0.01
Adjusted net income	2.79	(0.73)
	=====	=====

On May 15, 2002, the Company acquired 100% of the interest in UMC BV with a cash consideration of approximately NT\$187 million. UMC BV is principally engaged in the business of sales of semiconductor products and providing related foundry services. The Company expected to develop UMC BV into its major communication channel on sales to Europe.

The estimated fair value of the assets acquired and liabilities assumed at the date of acquisition are summarized as follows:

	At May 15, 2002
	NT\$'000
Cash and cash equivalents	121,564
Other current assets	190,218
Property, plant and equipment	4,348
Total assets acquired	316,130

Current liabilities	128,578
Long-term debt	-

Net assets acquired	187,552	
Consideration paid	187,552	

F-72

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Adoption of SFAS No.144

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", which supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of". SFAS No. 144 retains the fundamental provisions of SFAS No. 121 for recognition and measurement of the impairment of long-lived assets to be held and used and measurement of long-lived assets to be disposed of by sale. SFAS No. 144 addresses certain implementation issues related to SFAS No. 121. This Statement also supersedes the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions", for segments of a business to be disposed of. SFAS No. 144 retains the basic provisions of APB Opinion No. 30 for the presentation of discontinued operations in the income statement but broadens that presentation to include a component of an entity, rather than a segment of a business. The adoption of SFAS No. 144 on January 1, 2002 did not have any material effect on the Group's financial position or results of operations.

New Accounting Pronouncements

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations", which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. The standard applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and (or) normal use of the asset.

SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The fair value of the liability is added to the carrying amount of the associated asset and this additional carrying amount is depreciated over the life of the asset. The liability is accreted at the end of each period through charges to operating expense. If the obligation is settled for other than the carrying amount of the liability, the Group will recognize a gain or loss on settlement. SFAS No. 143 is effective for the Group beginning January 2003 and the Group is currently evaluating the effect that implementation of the new standard will have on its financial position, results of operations, and cash flows.

In June 2002, the FASB issued SFAS No.146 "Accounting for Costs Associated with Exit or Disposal Activities." The Statement represents the second and final phase of the FASB's project on accounting for the impairment or disposal of long

Edgar Filing: UNITED MICROELECTRONICS CORP - Form 6-K

lived assets and for obligations associated with exit or disposal activities. The adoption of SFAS No. 146 in January 2003 is not expected to have a material effect on the Group's financial position or results of operations.

F-73

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

During the year ended December 31, 2002, the FASB has issued SFAS No.145, "Rescission of FASB Statements No.4, 44 and 64, Amendment of FASB Statement No.13, and Technical Corrections", SFAS No.147 "Acquisition of Certain Financial Institutions" and SFAS No.148 "Accounting for Stock-Based Compensation-Transition and Disclosure." These Statements were effective for the Group during the year ended December 31, 2002 and did not have any material effect on the earnings or financial position of the Group for the year then ended.

In November 2002, the FASB issued Interpretation No.45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN45"). FIN45 requires certain guarantees to be recorded at fair value, which is different from the general current practice of recording a liability only when a loss is probable and reasonably estimable, as those terms are defined in SFAS No.5, "Accounting for Contingencies." FIN45 also requires a guarantor to make significant new disclosures for virtually all guarantees even if the likelihood of the guarantor's having to make payments under the guarantee is remote. The disclosure requirements of FIN45 are effective for financial statements of interim or annual periods ending after December 15, 2002.

The Group held several cash deposits with a total amount of approximately NT\$6,854 million as of December 31, 2002. The repayment in full, including any accrued interest, of these deposits is subject to the non-occurrence of one or more credit events, which are referenced to the entities' fulfillment of their own obligations as well as repayment of their corporate bonds. Upon the occurrence of one or more of such credit events, the Group may receive nil or less than the full amount of these deposits and any payment received may be delayed due to the occurrence of certain events. The underlying reference entities are summarized as follows:

UNITED MICROELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

In addition, the Group has made several commitments under different contracts such as operating lease contracts or other agreements. Please refer to Note 22 for details.

The initial recognition and initial measurement provisions of FIN45 are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The Group believes that the adoption of the standard will not have a material impact on its financial statements.
