UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

**FORM 10-QSB**

**QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE  
SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2007

**TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE  
SECURITIES EXCHANGE ACT OF 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File Number 000-22083

**GLOBAL MED TECHNOLOGIES, INC.**

(Exact name of registrant as specified in its charter)

COLORADO

(State or other jurisdiction of  
incorporation or organization)

84-1116894

(IRS Employer Identification No.)

**12600 West Colfax, Suite C-420, Lakewood, Colorado 80215**

(Address of principal executive offices)

**(303) 238-2000**

(Issuer's telephone number)

**Not Applicable**

(Former name, former address and former fiscal year, if changed since last report)

Check mark whether the Issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

**APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY  
PROCEEDINGS DURING THE PRECEDING FIVE YEARS**

Check whether the registrant filed all documents and reports required to be filed by Section 12, 13 or 15(d) of the Exchange Act after the distribution of securities under a plan confirmed by a court. Yes  No

Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10QSB

**APPLICABLE ONLY TO CORPORATE ISSUERS**

As of April 27, 2007, 23,211,982 shares of the issuer's Common Stock were outstanding.

Transitional small Business Disclosure Format  
(Check One): Yes  No

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2007**

**1. BASIS OF PRESENTATION**

*Basis of Consolidation*

The accompanying unaudited condensed consolidated financial statements of Global Med Technologies, Inc. and Subsidiary (the Company or Global Med ) have been prepared by management in accordance with generally accepted accounting principles for interim financial information and with the regulations of the Securities and Exchange Commission. Accordingly, they do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of only normal recurring adjustments) considered necessary for a fair presentation of their financial position as of March 31, 2007 and the results of their operations for the three months ended March 31, 2007 and 2006 have been included.

While management believes the disclosures presented are adequate to prevent misleading information, it is suggested that the accompanying unaudited consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto contained in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2006, as filed with the Securities and Exchange Commission. The interim results of operations for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for any other interim period of 2007 or for the year ending December 31, 2007.

*Critical Accounting Policy*

The Company's software products typically have warranties. These warranties generally require that the Company make changes to the software due to defects or other factors that might impact the Company's regulatory compliance after the date of product shipment. Generally, the Company does not accrue for product warranties but defers revenue recognition on a component of the original software fee that is associated with the correction of errors and continued updates to regulatory requirements during the warranty period. The Company believes this allocation adequately reflects the timing of revenues and costs associated with these warranties.

During the three months ended March 31, 2007, the Company increased its accounts receivable reserves by \$25 thousand to \$221 thousand. The increased reserves were in response to the deterioration in the days outstanding of certain accounts receivable balances. The Company believes that its reserve for accounts receivable are appropriate. The Company may make changes to its revenue recognition practices with respect to specific customers as its assessment of collectibility changes. These changes are typically not material to the financial statements.

*Significant Customers*

During the three months ended March 31, 2007 and 2006, there were no customers accounting for more than 10% of revenues. Although the Company had no individual customers accounting for more than 10% of revenues, one of the Company's marketing partners that sells the Company's products directly to its customers accounted for 31.2% and 21.3% of revenues for the three months ended March 31, 2007 and 2006, respectively. In addition, this same marketing partner accounted for 50.3% of gross accounts receivable as of March 31, 2007 and 58.9% as of December 31, 2006, respectively.

**Table of Contents**

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2007 (continued)**

*Income Taxes*

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is required to the extent any deferred tax assets may not be realizable. For the three months ended March 31, 2007, the Company's provision for income taxes was \$22 thousand. The Company was able to utilize certain net operating loss (NOLs) carryforwards generated in prior years against its current years pre-tax income. The Company did not record a provision for income taxes for the three months ended March 31, 2006. No income tax was recognized for the three months ended March 31, 2006, because the Company has net operating loss carry forwards from prior periods that would offset any income taxes.

The deferred tax asset related to the net operating loss carry forward is fully reserved by a valuation allowance due to the uncertainty of the Company generating future taxable income. In assessing the realizability of deferred tax assets, management concluded that it is not more likely than not that the deferred tax assets will be realized. The ultimate realization of the deferred tax assets is dependent on the generation of future taxable income in the period in which the temporary differences become deductible. As the Company's deferred tax asset is comprised primarily of NOLs carryforwards which are subject to limitations and these limitations have fluctuated in four of the past eleven years, the limitations on the use of the NOLs, the potential for further NOL limitations and the susceptibility of any estimates of future income to variability have led the Company to maintain its valuation allowance for deferred taxes due to the uncertainty and extent to which any deferred tax assets will be utilized.

*Recently Issued Accounting Standards*

In September 2006, the FASB issued SFAS No. 157, Fair Value Measures (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measures required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, the year beginning January 1, 2008 for the Company. The Company has not yet determined the impact adoption will have on the Company.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159). SFAS No. 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of SFAS No. 159 on its consolidated financial position and results of operations.

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure. The Company adopted FIN 48 as of January 1, 2007. The adoption of FIN 48 had no impact on the Company's financial statements for the quarter ended March 31, 2007.

**Table of Contents**

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2007 (continued)**

Certain prior period amounts have been reclassified to conform with the current period presentation.

**2. PEOPLEMED.COM, INC.**

During 1999, Global Med formed a subsidiary, PeopleMed.com, Inc., ( PeopleMed ) a Colorado corporation, which is approximately 83% owned by the Company, to develop a software application designed to give HMO providers and other third party payers access to clinical information for chronic disease patients. This application allows doctors and other medical employees access to a patient's history. The remaining 17% of PeopleMed is owned by third parties and certain officers and directors of Global Med. There is no minority interest reflected in the March 31, 2007 or December 31, 2006 balance sheets because PeopleMed had a stockholders' deficit as of those dates.

**3. COMMITMENTS AND CONTINGENCIES**

*Legal Proceedings*

In September 2002, Global Med filed a lawsuit against Donnie L. Jackson, Jr., Global Med's former Vice President of Sales and Marketing. Global Med alleges, among other things, that prior to his resignation in July 2002 Mr. Jackson misappropriated certain trade secrets of Global Med. After leaving Global Med, Mr. Jackson became a management employee of one of Global Med's competitors. On March 30, 2005, the Superior Court of the State of California in and for the County of El Dorado granted the motion for summary judgment for Donnie L. Jackson, Jr. On September 1, 2005, the Company deposited \$1.004 million with the Superior Court in the State of California in the County of El Dorado. This deposit represents potential fees and attorneys' costs the Company could be required to pay in the event the Company did not prevail on appeal. The \$1.004 million is classified as a "Deposit in escrow" on the Company's balance sheets as of December 31, 2006 and March 31, 2007. Based on external evidence and the advice of legal counsel, the Company determined that it was more likely than not that the Company would be required to pay the \$1.004 million. As a result, the Company expensed the amount of the "Deposit in escrow" and set up a liability for \$1.004 million. On December 2006, the summary judgment was reversed by the California Court of Appeals and the matter was remanded to the trial court.

**4. STOCKHOLDERS EQUITY**

*Preferred Stock*

On March 29, 2006, the Company renegotiated certain terms related to the Series A Convertible Preferred Stock ( Series A ) and related warrants. From December 16, 2005 through March 28, 2006, the date prior to the renegotiated terms, the Company classified the Series A as mezzanine equity on the Company's balance sheet. As of March 29, 2006, the Company reclassified the Series A from mezzanine equity to equity based upon the renegotiated terms. The renegotiated terms resulted in the elimination and addition of several terms that made equity treatment more appropriate for the period after March 28, 2006. The significant terms that were eliminated and added are as follows:

1. Removal of cash payout for events that were outside the control of the Company, which included a change of control;

**Table of Contents**

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2007 (continued)**

2. Removal of certain clauses that would result in the resetting of the conversion price for the Series A and the related warrants in the event that the Company issued common share equivalents at a price that was less than the conversion price or exercise price of \$0.72 per common share;
3. Removal of provisions that allowed for dividends to occur in the future under certain circumstances;
4. Removal of preference in liquidation;
5. Addition of certain voting rights for preferred shareholders; and
6. The ability for the Company to determine a maximum number of common shares that the holders can convert the Series A and related warrants into.

In addition, the revised terms have resulted in the Series A being closely and clearly related to equity. The changes to the related warrant agreement also resulted in the warrants no longer containing any embedded derivatives. As a result, the Company believes that the embedded derivatives identified with the Series A and the related warrants that existed prior to the renegotiated terms are no longer applicable. As a result, the Company reversed the remaining outstanding liability associated with the embedded derivatives in the amount of \$14.543 million, which included \$724 thousand of gain recognized during the three months ended March 31, 2006, to additional paid in capital for the period ended March 31, 2006.

**5. STOCK-BASED COMPENSATION**

The Company adopted Statement of Financial Accounting Standard No. 123R, Share Based Payment ( SFAS 123R ), on January 1, 2006. SFAS 123R requires all share-based payments, including grants of stock options, to be recognized in the income statement as an operating expense, based on their fair values.

Prior to adoption of SFAS 123R, Global Med accounted for stock-based employee compensation under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ( APB ). The Company has applied the modified prospective method in adopting SFAS 123R, and as a result, periods prior to the adoption of SFAS 123R have not been restated.

The following summarizes the activity of the Company's stock options for the three months ended March 31, 2007:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Number of shares under option:				
Outstanding at January 1, 2007	11,585,108	\$ 0.87		
Granted	216,436	0.73		
Exercised				
Canceled or expired	(185,000)	2.26		
Outstanding at March 31, 2007	11,616,544	\$ 0.87	4.6	\$586,720
Exercisable at March 31, 2007	10,227,368	\$ 0.82	4.7	\$579,060

**Table of Contents**

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2007 (continued)**

There were no options exercised during the three months ended March 31, 2007. The total intrinsic value of options exercised during the three-months ended March 31, 2007 was \$0.

The following summarizes the activity of the Company's stock options that have not vested for the three months ended March 31, 2007.

	Shares	Weighted Average Fair Value
Nonvested at January 1, 2007	1,193,990	\$1.17
Granted	216,436	0.73
Vested	(21,250)	1.00
Nonvested at March 31, 2007	1,389,176	\$1.16

As of March 31, 2007, there was \$1.342 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under existing stock option plans. This cost is expected to be recognized over a weighted-average period of 5 years. The total measurement fair value of shares vested during the three-months ended March 31, 2007 and 2006 was \$51 thousand and \$32 thousand, respectively.

The Black-Scholes option pricing model is used by the Company to determine the weighted average fair value of options. The fair value of options at date of grant and the assumptions utilized to determine such values are indicated in the following table:

	Three Months Ended March 31,	
	2007	2006
Weighted average fair value at date of grant for options granted during the period	\$158,000	\$422,000
Risk-free interest rates	4.56%	4.72%
Expected stock price volatility	329%	363%
Expected dividend yield	0	0

Under SFAS 123(R) forfeitures are estimated at the time of valuation and reduce expense ratably over the vesting period. This estimate is adjusted periodically based on the extent to which actual forfeitures differ, or are expected to differ, from the previous estimate. Under SFAS 123 and APB 25, the Company elected to account for forfeitures when awards were actually forfeited, at which time all previous pro forma expense was reversed to reduce pro forma expense for that period. As of March 31, 2007, the Company anticipates all outstanding options will vest.

**Table of Contents**

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2007 (continued)**

**6. NET INCOME PER SHARE**

Basic earnings per share is computed by dividing the net income by the weighted average number of common shares outstanding for the period. Diluted shares outstanding is calculated factoring in stock options, and warrants outstanding, and their equivalents are included in diluted computations through the treasury stock method unless they are antidilutive. Convertible securities are included in diluted computations through the if converted method unless they are antidilutive. Common share equivalents are excluded from the computation, as their effect would be antidilutive.

The following tables set forth the computation of basic and diluted earnings per share for the three months ended March 31, 2007 and 2006, respectively, (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Weighted average number of shares used in the basic		
Earnings per share computation	23,212	23,033
Effect of dilutive securities:		
Common stock options	838	2,110
Common stock warrants	657	2,805
Preferred stock convertible securities	13,854	13,854
Dilutive securities	15,349	18,769
Adjusted weighted average number of shares used in		
Diluted earnings per share computation	38,561	41,802

### **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

#### **Forward Looking Statements**

Certain statements in this Quarterly Report on Form 10-QSB are forward-looking in nature. These statements can be identified by the use of forward-looking terminology such as believes, expects, may, will, should, anticipates, or negative comparable terminology or by discussing strategy.

The risks and uncertainties, as well as others, are discussed in greater detail in the Company's other filings with the Securities Exchange Commission, including most recently its Form 10-KSB. There may be additional risks of which the Company is not presently aware or that it currently believes are immaterial which could have an adverse impact on our business. We make no commitment to revise or update any forward-looking statement in order to reflect events or circumstances that may change.

#### **Overview**

Global Med Technologies, Inc. ( Global Med or the Company ) provides information management software products and services to the health care industry. Wyndgate operates as a division of Global Med Technologies, Inc. and designs, develops, markets and supports information management software products for blood banks, hospitals, centralized transfusion centers and other healthcare related facilities. The Company's PeopleMed.com, Inc. ( PeopleMed ) subsidiary offers chronic disease management as an Application Service Provider ( ASP ). PeopleMed's system uses the Internet to coordinate sources and users of a patient's clinical information, including laboratory, pharmacy, primary and specialty care providers, claims and medical records. PeopleMed earns revenues primarily by providing ongoing ASP services. PeopleMed's revenues were not significant during the three months ended March 31, 2007 and 2006.

The Company has two main products in its Wyndgate division: SafeTrace® and SafeTrace Tx®. SafeTrace is used by blood centers and hospitals to track blood donations. SafeTrace Tx is used primarily by hospitals and centralized transfusion centers to help insure the quality of blood transfused into patient-recipients. Both products are designed to help the users comply with quality and safety standards of the U.S. Food and Drug Administration ( FDA ) for the collection and management of blood and blood products. The Company's Wyndgate division earns revenues primarily through the sale of software licenses, implementation of the software systems sold, and by providing maintenance for the SafeTrace and SafeTrace Tx software systems. During the three months ended March 31, 2007 and 2006, Wyndgate's revenues represented approximately 97% of the Company's total revenues. During these periods, PeopleMed's revenues represented the remainder.

The decision to purchase a new blood bank system is driven in large part by one or all of the following: replacing antiquated technology, upgrading the laboratory information system ( LIS ) of the hospital which typically includes the purchase of a blood bank system, and replacing existing products that have been sunsetted. The Company believes that because the purchase of an LIS by a hospital is a significant driver in the decision to purchase a blood bank system, the Company is heavily reliant on its relationships with its channel partners that sell their LIS systems in combination with the Company's blood bank products.

Entities that plan to purchase blood bank products primarily have three choices:

- Upgrade their current system with their existing vendor,
- Select a replacement system from an alternative vendor, or
- Replace their paper system with vendor software.

---

## **Table of Contents**

The Company's two primary locations are in Lakewood, Colorado, the corporate headquarters, and El Dorado Hills, California. The Company's primary operations include research and development, implementation staff, support services, and certain administrative staff. Approximately 40% of the Company's employees are not located in Lakewood, Colorado or El Dorado Hills, California. These employees provide support for the Company's sales and marketing, research and development, and implementation efforts.

Overall, the Company's revenues for the three months ended March 31, 2007 increased to \$3.719 million from \$2.816 million for the prior year's comparable quarter. Cost of revenues for the quarter ended March 31, 2007 increased to \$1.139 million from \$1.019 million for the comparable period in 2006. For the quarter ended March 31, 2007 and 2006, the Company's operating expenses were \$2.284 million and \$1.739 million, respectively. The Company's net income was \$287 thousand for the three months ended March 31, 2007; the net income was \$779 thousand for the comparable period during 2006.

For the three months ended March 31, 2007 and 2006, the Company's operations generated positive cash flows from operating activities in the amount of \$504 thousand and \$133 thousand, respectively. The Company believes that its current customer base and projected backlog of business, as well as sales to new customers, will be sufficient to fund operations, and likely will generate positive cash flows from operations and negative cash flows from investing activities through 2007, and possibly thereafter. The Company believes that based on its recurring revenues, current backlog, and its projected pipeline of business, it will be profitable during 2007 and possibly thereafter.

Management of the Company is focused on increasing its revenues and cash flows through direct sales efforts, increasing its marketing footprint through adding additional channel partners and strategic alliances, and developing new products and enhanced functionality to its existing product mix to attract potential customers. The Company is currently reviewing opportunistic business acquisitions.

As documented in Note 3 of the financial statements, the Company is currently involved in certain legal proceedings. In September 2002, Global Med filed a lawsuit against Donnie L. Jackson, Jr., Global Med's former Vice President of Sales and Marketing. Global Med alleges, among other things, that prior to his resignation in July 2002 Mr. Jackson misappropriated certain trade secrets of Global Med. After leaving Global Med, Mr. Jackson became a management employee of one of Global Med's competitors. On March 30, 2005, the Superior Court of the State of California in and for the County of El Dorado granted the motion for summary judgment for Donnie L. Jackson, Jr. On September 1, 2005, the Company deposited \$1.004 million with the Superior Court in the State of California in the County of El Dorado. This deposit represents potential fees and attorneys' costs the Company could be required to pay in the event the Company did not prevail on appeal. The \$1.004 million is classified as a "Deposit in escrow" on the Company's balance sheets as of December 31, 2006 and March 31, 2007. Based on external evidence and the advice of legal counsel, the Company determined that it was more likely than not that the Company would be required to pay the \$1.004 million. As a result, the Company expensed the amount of the "Deposit in escrow" and set up a liability for \$1.004 million. On December 2006, the summary judgment was reversed by the California Court of Appeals and the matter was remanded to the trial court. Although Global Med believes that the California Appellate Court's opinion may result in the return of the \$1.004 million deposit the Company made in September 2005 with the Superior Court in the State of California, the return of the deposit in escrow cannot be assured.

## **Balance Sheet Changes**

As of March 31, 2007 compared with December 31, 2006, certain balance sheet accounts changed substantially. Cash increased by \$459 thousand, primarily as a result of the increase in cash flows from operations. Net accounts receivable decreased \$1.051 million, primarily as a result of the collection of certain accounts receivable balances that related to certain customers' annual maintenance contracts that were billed during the fourth quarter of 2006 and collected during the first quarter of 2007. Accounts receivable also decreased as a result of a \$25 thousand increase in the allowance for doubtful accounts associated with certain problem accounts. Deferred revenues decreased \$459 thousand, primarily as a result of the recognition of revenue related to certain accounts that are billed annually for which the billing occurred during the fourth quarter but revenue recognition did not begin until the first quarter of 2007.

**Table of Contents**

**Results of Operations**

*THREE MONTHS ENDED MARCH 31, 2007 COMPARED TO THREE MONTHS ENDED MARCH 31, 2006*

**Revenues.** Revenues are comprised primarily of license fees, maintenance and usage fees, and implementation and consulting services revenues.

Revenues for the three months ended March 31, 2007 increased by \$903 thousand or 32.1% to \$3.719 million from \$2.816 million for the comparable period in 2006. The Company's revenues increased in all three of the categories noted above. Software license fees increased \$530 thousand or 99.8% to \$1.061 million from \$531 thousand for the three months ended March 31, 2007 and 2006, respectively. Maintenance revenues increased \$366 thousand or 27.2% to \$1.712 million from \$1.346 million for the periods ended March 31, 2007 and 2006, respectively. Implementation revenues increased \$7 thousand to \$946 million from \$939 thousand for the three months ended March 31, 2007 and 2006, respectively. The increase in software license revenues was due primarily to the increase in the value of software sales during the quarter. With respect to the increases in maintenance revenue, the Company's recurring revenue base continues to grow as new customers are added.

**Cost of revenue.** Cost of revenue as a percentage of total revenues was 30.6% and 36.2% for the three months ended March 31, 2007 and 2006, respectively. Cost of revenues increased \$120 thousand or 11.8% to \$1.139 million for the three months ended March 31, 2007 from \$1.019 million for the comparable period in 2006. The increase in cost of sales for the three months ended March 31, 2007 compared with the same period in 2006 was due primarily to an increase of \$93 thousand in third party software costs related to products resold by the Company.

**Gross profit.** Gross profit as a percentage of total revenue was 69.4% and 63.8% for the three months ended March 31, 2007 and 2006, respectively. Gross profit and the gross profit percentage increased primarily as a result of the increase in software and maintenance revenues, which have higher margins than the Company's implementation revenues. For the three months ended March 31, 2007, software license revenues increased to \$1.061 million from \$531 thousand for the three months ended March 31, 2006. Therefore, software license fee revenues were 28.5% of total revenues during the three months ended March 31, 2007 versus 18.9% for comparable period in 2006. In addition, implementation revenues which typically have lower margins were 25.1% and 31.1% of total revenues for the three months ended March 31, 2007 and 2006, respectively. Because software license revenues typically have margins that are more than double the margins on implementation revenues, the significant increase in software license revenues in aggregate and as a percentage of total revenues, had a significant impact on the margins for the current quarter. The Company's ability to maintain or improve upon the margins experienced during the current quarter will depend primarily on the revenue mix in future periods and the Company's then pricing policies.

**General and administrative.** General and administrative expenses increased \$169 thousand to \$806 thousand or 26.5%, for the three months ended March 31, 2007 compared to \$637 thousand for the comparable period in 2006. The primary reasons for the increase were a \$39 thousand increase in the Company's reserve for bad debt expense, a \$68 thousand increase in wage-related expenses, a \$26 thousand increase in employee training related expenses, and a \$24 thousand increase in legal expenses. The increased bad debt reserves were in response to the deterioration in the days outstanding of certain accounts receivable balances. See further discussion of the increased bad debt reserve in Note 1 of the financial statements.

## **Table of Contents**

**Sales and marketing.** For the three months ended March 31, 2007 sales and marketing expenses increased \$21 thousand or 4.2% to \$516 thousand compared with \$495 thousand for the comparable period in 2006. The increase in sales and marketing expenses was primarily due to the increase in system sales during the three months ended March 31, 2007 when compared with the comparable period during 2006.

**Research and development.** Research and development expenses increased \$360 thousand or 63.8% to \$924 thousand for the three months ended March 31, 2007 compared to \$564 thousand for the three months ended March 31, 2006. The primary reason for the increase is the \$232 thousand increase in labor-related expenses and a \$108 thousand increase in consulting related expenses. The significant increase in these expenses is primarily attributable to the development of new technology and products. The Company is nearing the completion of the development cycle of these products, and the Company intends to bring these products to market. Because some of the products the Company is developing are considered medical devices by the FDA, the Company will be required to obtain FDA 510(k) clearance for these medical devices prior to their sale or introduction into the market. At the present time, the Company is expensing all of the costs of research and development related to these new products.

**Depreciation and Software Amortization.** Depreciation and software amortization costs were \$38 thousand and \$43 thousand for the periods ended March 31, 2007 and 2006, respectively.

**Interest expense.** Interest expense was \$3 thousand for the three months ended March 31, 2007 and 2006.

**Change in Estimated Fair Value of Derivative.** The Company recognized a gain of \$724 thousand related to the change in value of certain derivatives associated with the Company's Series A Convertible preferred stock for the period ended March 31, 2006. The Company recognized no such gain or loss for the comparable period in 2007.

**Provision of Income Taxes.** For the three months ended March 31, 2007, the Company's income taxes increased by \$22 thousand when compared with the comparable period in 2006. The Company was able to utilize certain net operating loss carry forwards generated in prior years against the current year's pre-tax income in order to reduce its statutory rates. The Company did not record a provision for income taxes for the three months ended March 31, 2006. No income tax was recognized for the three months ended March 31, 2006, because the Company had net operating loss carry forwards from prior periods that offset any income taxes.

**Net income.** The Company's net income was \$287 thousand and \$779 thousand for the three months ended March 31, 2007 and 2006, respectively.

## **Liquidity and Capital Resources**

The Company had cash and cash equivalents of \$3.013 million as of March 31, 2007 compared to \$2.554 million at December 31, 2006, none of which was restricted.

The Company had net working capital of \$505 thousand as of March 31, 2007 and \$172 thousand at December 31, 2006.

---

## **Table of Contents**

The Company had shareholders' equity of \$717 thousand and virtually no debt as of March 31, 2007. The Company believes that it will generate positive cash flows from operations and negative cash flows from investing activities through 2007, and possibly thereafter. While the Company's plans may change, the Company currently intends to spend between \$200 thousand to \$250 thousand during 2007 on capital equipment. The Company's cash flows from operations should be sufficient to meet its current cash requirements exclusive of acquisitions. The Company believes that based on its current backlog as well as projected pipeline of business, it will be able to achieve profitability for the year ended December 31, 2007 and possibly thereafter.

The payment of dividends by the Company is within the discretion of its Board of Directors and depends in part upon the Company's earnings, capital requirements and financial condition. Since its inception, the Company has not paid any dividends on its common stock and does not anticipate paying such dividends in the foreseeable future. The Company intends to retain earnings, if any, to finance its operations or make acquisitions. In accordance with the terms of the Company's Series A Convertible Preferred Stock, the Company cannot issue dividends on the common stock while the Series A is outstanding unless an equal dividend is declared on the Series A. The dividend on the Series A would be calculated by determining the number of common shares the Series A is convertible into and then applying the same dividend to the Series A that was provided to the common shareholders.

Cash flows from operations provided \$504 thousand in cash for the three months ended March 31, 2007. The cash provided during the three months ended March 31, 2007 consisted primarily of the net income of \$287 thousand, net of non-cash changes which provided \$136 thousand and changes in operating assets and liabilities which provided \$81 thousand. The primary source of the Company's operating cash inflows is its billings to customers for sale of software, services, and maintenance and support. For the three months ended March 31, 2007 and 2006, the Company's accounts receivable billings were approximately \$3.2 million and \$3 million, respectively. For the quarter ended March 31, 2007, the Company collected approximately \$4.2 million from accounts receivable. As a result of the cash collections from accounts receivable being significantly more than the billings, the Company's gross accounts receivable balance decreased by approximately \$1 million, while the cash balance increased by approximately \$500 thousand. The Company's cash outflows from operations were approximately \$3.7 million and consisted primarily of two components, payroll and vendor-related expenses. Payroll related expenses typically range from 50%-60% of the Company's cash outflows from operation with vendor payments typically making up the majority of the remaining amount. The Company believes that the cash flows from its recurring customer base, accounts receivable, backlog, and new system sales will provide for positive cash flows from operations on an annual basis in 2007 and possibly thereafter. Interest and non-operating cash flows are typically not material.

### **ITEM 3. CONTROLS AND PROCEDURES.**

#### **(A) Evaluation Of Disclosure Controls And Procedures**

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's Principal Executive Officer/Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. The Company's disclosure controls and procedures are designed to provide a reasonable level of assurance of achieving the Company's disclosure control objectives. The Company's Principal Executive Officer/Principal Accounting Officer has concluded that the Company's disclosure controls and procedures are, in fact, effective at this reasonable assurance level as of the period covered.

#### **(B) Changes In Internal Controls Over Financial Reporting**

In connection with the evaluation of the Company's internal controls during the Company's last fiscal quarter, the Company's Principal Executive Officer/Principal Financial Officer has determined that there are no changes to the Company's internal controls over financial reporting that has materially affected, or is reasonably likely to materially effect, the Company's internal controls over financial reporting.

#### **(C) Internal Controls Over Financial Reporting.**

As a result of Section 404 of the Sarbanes-Oxley Act of 2002 and the rules issued hereunder, the Company will be required to furnish in its Annual Report on Form 10-KSB for the year ending December 31, 2007 a report on management's assessment of the effectiveness of our internal controls over financial reporting. For the year ended December 31, 2008, the Company's independent registered public accounting firm, Ehrhardt Keefe Steiner & Hottman PC (EKS&H), will be required to attest to and report on management's assessment. The Company has begun work related to Section 404, but the Company has not yet fully evaluated or performed any tests on our compliance with this Section. Although the Company believes that the controls and procedures that were in place for the quarter ended March 31, 2007 provide reasonable assurance the Company's control objectives are being met, neither the Company nor our auditors have confirmed this objective as will be required under Section 404. As a result, there is the possibility that material deficiencies as defined in Section 404 could exist.

**PART II OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

In September 2002, Global Med filed a lawsuit against Donnie L. Jackson, Jr., Global Med's former Vice President of Sales and Marketing. Global Med alleges, among other things, that prior to his resignation in July 2002 Mr. Jackson misappropriated certain trade secrets of Global Med. After leaving Global Med, Mr. Jackson became a management employee of one of Global Med's competitors. On March 30, 2005, the Superior Court of the State of California in and for the County of El Dorado granted the motion for summary judgment for Donnie L. Jackson, Jr. On September 1, 2005, the Company deposited \$1.004 million with the Superior Court in the State of California in the County of El Dorado. This deposit represents potential fees and attorneys' costs the Company could be required to pay in the event the Company did not prevail on appeal. The \$1.004 million is classified as a "Deposit in escrow" on the Company's balance sheets as of December 31, 2006 and March 31, 2007. Based on external evidence and the advice of legal counsel, the Company determined that it was more likely than not that the Company would be required to pay the \$1.004 million. As a result, the Company expensed the amount of the "Deposit in escrow" and set up a liability for \$1.004 million. On December 2006, the summary judgment was reversed by the California Court of Appeals and the matter was remanded to the trial court.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS** None.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

There were no matters submitted to a vote of the security holders during the first quarter ended March 31, 2007.

**ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K**

**Exhibit 31** Certification of the Chairman and Chief Executive Officer and Acting Principal Financial Officer, Pursuant to Section 302 of Sarbanes-Oxley Act of 2002.

**Exhibit 32** Certification of Chairman and Chief Executive Officer and Acting Principal Financial and Accounting Officer.

A Current Report on Form 8-K was filed on January 4, 2007 announcing the summary judgment reversal in favor of the Company.

A Current Report on Form 8-K was filed on February 26, 2007 announcing the Company's results for the quarter and year ended December 31, 2006.
