Kilroy Realty Corporation Yes No Kilroy Realty, L. P. Yes No

The aggregate market value of the voting and non-voting shares of common stock held by non-affiliates of Kilroy Realty Corporation was approximately \$3,991,944,820 based on the quoted closing price on the New York Stock Exchange for such shares on June 30, 2013.

The aggregate market value of the voting and non-voting common units of limited partnership interest held by non-affiliates of Kilroy Realty, L.P. was approximately \$55,100,926 based on the quoted closing price on the New York Stock Exchange for Kilroy Realty Corporation shares on June 30, 2013.

As of February 5, 2014, 82,130,022 shares of Kilroy Realty Corporation’s common stock, par value \$.01 per share, were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Kilroy Realty Corporation’s Proxy Statement with respect to its 2014 Annual Meeting of Stockholders to be filed not later than 120 days after the end of the registrant’s fiscal year are incorporated by reference into Part III

of this Form 10 K.

EXPLANATORY NOTE TO THIS AMENDMENT NO. 1

This Amendment No. 1 (the “Amendment”) amends the annual reports on Form 10-K for the year ended December 31, 2013 of Kilroy Realty Corporation and Kilroy Realty, L.P., which were originally filed on February 14, 2014 (the “Original Filing”). This Amendment is being filed solely for the purpose of amending Exhibits 31.1, 31.2, 31.3, 31.4, 32.1, 32.2, 32.3 and 32.4, which, due to a scrivener’s error, inadvertently omitted applicable references to the Original Filing. No other changes have been made to the Original Filing. This Amendment does not reflect events that have occurred after the February 14, 2014 filing date of the Original Filing, or modify or update the disclosures presented therein, except to reflect the amendment described above.

EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2013 of Kilroy Realty Corporation and Kilroy Realty, L.P. Unless stated otherwise or the context otherwise requires, references to “Kilroy Realty Corporation” or the “Company,” “we,” “our,” and “us” mean Kilroy Realty Corporation, a Maryland corporation, and its controlled and consolidated subsidiaries, and references to “Kilroy Realty, L.P.” or the “Operating Partnership” mean Kilroy Realty, L.P., a Delaware limited partnership, and its controlled and consolidated subsidiaries.

The Company is a real estate investment trust, or REIT, and the general partner of the Operating Partnership. As of December 31, 2013, the Company owned an approximate 97.8% common general partnership interest in the Operating Partnership. The remaining approximate 2.2% common limited partnership interests are owned by non-affiliated investors and certain directors and officers of the Company. As the sole general partner of the Operating Partnership, the Company exercises exclusive and complete discretion over the Operating Partnership’s day-to-day management and control and can cause it to enter into certain major transactions including acquisitions, dispositions, and refinancings and cause changes in its line of business, capital structure and distribution policies.

There are a few differences between the Company and the Operating Partnership that are reflected in the disclosures in this Form 10-K. We believe it is important to understand the differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated, consolidated company. The Company is a REIT, the only material asset of which is the partnership interests it holds in the Operating Partnership. As a result, the Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing certain debt of the Operating Partnership. The Company itself is not directly obligated under any indebtedness, but guarantees some of the debt of the Operating Partnership. The Operating Partnership owns substantially all of the assets of the Company either directly or through its subsidiaries, conducts the operations of the Company’s business and is structured as a limited partnership with no publicly-traded equity. Except for net proceeds from equity issuances by the Company, which the Company is required to contribute to the Operating Partnership in exchange for units of partnership interest, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s incurrence of indebtedness or through the issuance of units of partnership interest.

Noncontrolling interests and stockholders’ equity and partners’ capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The common limited partnership interests in the Operating Partnership are accounted for as partners’ capital in the Operating Partnership’s financial statements and, to the extent not held by the Company, as noncontrolling interests in the Company’s financial statements. The Operating Partnership’s financial statements reflect the noncontrolling interest in Kilroy Realty Finance Partnership, L.P. a Delaware limited partnership (the “Finance Partnership”). This noncontrolling interest represents the Company’s 1% indirect general partnership interest in the Finance Partnership, which is directly held by Kilroy Realty Finance, Inc., a wholly owned subsidiary of the Company. The differences between stockholders’ equity,

partners' capital and noncontrolling interests result from the differences in the equity issued by the Company and the Operating Partnership in the Operating Partnership's noncontrolling interest in the Finance Partnership.

We believe combining the annual reports on Form 10-K of the Company and the Operating Partnership into this single report results in the following benefits:

• Combined reports better reflect how management and the analyst community view the business as a single operating unit;

• Combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;

• Combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and

• Combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

• consolidated financial statements;

• the following notes to the consolidated financial statements:

Note 6, Secured and Unsecured Debt of the Company;

Note 7, Secured and Unsecured Debt of the Operating Partnership;

Note 9, Noncontrolling Interests on the Company's Consolidated Financial Statements;

Note 10, Stockholders' Equity of the Company;

Note 11, Preferred and Common Units of the Operating Partnership;

Note 18, Net Income Available to Common Stockholders Per Share of the Company;

Note 19, Net Income Available to Common Unitholders Per Unit of the Operating Partnership;

Note 21, Quarterly Financial Information of the Company (Unaudited); and

Note 22, Quarterly Financial Information of the Operating Partnership (Unaudited);

Item 6. Selected Financial Data – Kilroy Realty Corporation;

Item 6. Selected Financial Data – Kilroy Realty, L.P.;

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations:

—Liquidity and Capital Resources of the Company; and

—Liquidity and Capital Resources of the Operating Partnership.

This report also includes separate sections under Item 9A. Controls and Procedures and separate Exhibit 31 and Exhibit 32 certifications for each of the Company and the Operating Partnership to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and 18 U.S.C. §1350.

PART I

This document contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including, without limitation, information concerning projected future occupancy and rental rates, lease expirations, debt maturity, potential investments, strategies such as capital recycling, development and redevelopment activity, projected construction costs, dispositions, future executive incentive compensation and other forward-looking financial data, as well as the discussion in “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Factors That May Influence Future Results of Operations.” Forward-looking statements are based on our current expectations, beliefs and assumptions, and are not guarantees of future performance. Forward-looking statements are inherently subject to uncertainties, risks, changes in circumstances, trends and factors that are difficult to predict, many of which are outside of our control. Accordingly, actual performance, results and events may vary materially from those indicated in the forward-looking statements, and you should not rely on the forward-looking statements as predictions of future performance, results or events. All forward-looking statements are based on currently available information and speak only as of the date on which they are made. We assume no obligation to update any forward-looking statement that becomes untrue because of subsequent events, new information or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under U.S. federal securities laws.

ITEM 1. BUSINESS

The Company

We are a self-administered REIT active in premier office submarkets along the West Coast. We own, develop, acquire and manage real estate assets, consisting primarily of Class A properties in the coastal regions of Los Angeles, Orange County, San Diego County, the San Francisco Bay Area and greater Seattle, which we believe have strategic advantages and strong barriers to entry. Class A real estate encompasses attractive and efficient buildings of high quality that are attractive to tenants, are well-designed and constructed with above-average material, workmanship and finishes and are well-maintained and managed. We own our interests in all of our properties through the Operating Partnership and the Finance Partnership and conduct substantially all of our operations through the Operating Partnership. We qualify as a REIT under the Internal Revenue Code of 1986, as amended (the "Code").

Our stabilized portfolio of operating properties was comprised of the following office properties at December 31, 2013:

	Number of Buildings	Rentable Square Feet	Number of Tenants	Percentage Occupied	
Stabilized Office Properties ⁽¹⁾	105	12,736,099	514	93.4	%

Excludes 12 properties located in San Diego, California that were held for sale at December 31, 2013 (see Note 17 "Discontinued Operations" to the consolidated financial statements included in this report). The sale of these properties closed on January 9, 2014 (see Note 23 "Subsequent Events" to the consolidated financial statements included in this report for further details).

Our stabilized portfolio includes all of our properties with the exception of properties held for sale, undeveloped land, development and redevelopment properties currently under construction or committed for construction, and "lease-up" properties. We define redevelopment properties as those properties for which we expect to spend significant development and construction costs on the existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. We define "lease-up" properties as properties we recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. During the fourth quarter of 2013, we completed one development property in San Francisco, California and stabilized a redevelopment property in Long Beach, California. As a result, these properties are included in our stabilized portfolio as of December 31, 2013.

As of December 31, 2013, the following properties were excluded from our stabilized portfolio:

	Number of Properties	Estimated Rentable Square Feet
Properties Held for Sale ⁽¹⁾	12	1,049,035
Development properties under construction ⁽²⁾	6	2,538,000
Lease-up properties	1	410,000

⁽¹⁾ Includes 12 properties located in San Diego, California. The sale of these properties closed on January 9, 2014 (see Note 23 "Subsequent Events" to our consolidated financial statements included in this report for further details).

⁽²⁾ Estimated rentable square feet upon completion.

As of December 31, 2013, all of our properties and development and redevelopment projects and all of our business is currently conducted in the state of California with the exception of twelve office properties located in the state of

Washington. All of our properties and development and redevelopment projects are 100% owned, excluding a development project owned by Redwood City Partners, LLC, a consolidated subsidiary created on June 27, 2013 (see additional information below) and certain properties held at Qualified Intermediaries for potential future Section 1031 Exchanges, which have been consolidated for financial reporting purposes (see Note 2 “Basis of Presentation and Significant Accounting Policies” to our consolidated financial statements included in this report).

On June 27, 2013, the Company entered into an agreement with an unaffiliated third party and formed a new consolidated subsidiary, Redwood City Partners, LLC. In connection with this transaction, the Company acquired a 0.35 acre land site, completing the first phase of the land assemblage for its plans to develop an approximate 300,000 square foot office project (the “Crossing/900” project) in Redwood City, California. In October 2013, the Company acquired a 2.0 acre undeveloped land parcel for \$17.0 million, completing the final phase of the land assemblage for the Crossing/900 project. The related assets, liabilities, and noncontrolling interest acquired in connection with this transaction are included in our consolidated financial statements as of the dates of acquisition.

We own our interests in all of our real estate assets through the Operating Partnership and the Finance Partnership. We conduct substantially all of our operations through the Operating Partnership of which we owned a 97.8% common general partnership interest as of December 31, 2013. The remaining 2.2% common limited partnership interest in the Operating Partnership as of December 31, 2013 was owned by non-affiliated investors and certain of our executive officers and directors. Kilroy Realty Finance, Inc., a wholly owned subsidiary of the Company, is the sole general partner of the Finance Partnership and owns a 1.0% common general partnership interest. The Operating Partnership owns the remaining 99.0% common limited partnership interest. We conduct substantially all of our development activities through Kilroy Services, LLC (“KSLLC”), which is a wholly owned subsidiary of the Operating Partnership. With the exception of the Operating Partnership, certain properties held in Section 1031 Exchanges and Redwood City Partners LLC, all of the Company’s subsidiaries are wholly owned.

Available Information; Website Disclosure; Corporate Governance Documents

Kilroy Realty Corporation was incorporated in the state of Maryland on September 13, 1996 and Kilroy Realty, L.P. was organized in the state of Delaware on October 2, 1996. Our principal executive offices are located at 12200 W. Olympic Boulevard, Suite 200 Los Angeles, California 90064. Our telephone number at that location is (310) 481-8400. Our website is www.kilroyrealty.com. The information found on, or otherwise accessible through, our website is not incorporated into, and does not form a part of, this annual report on Form 10-K or any other report or document we file with or furnish to the SEC. All reports we will file with the SEC will be available free of charge via EDGAR through the SEC website at www.sec.gov. In addition, the public may read and copy materials we file with the SEC at the SEC’s public reference room located at 100 F Street, N.E., Washington, D.C. 20549. All reports that we will file with the SEC will also be available free of charge on our website at www.kilroyrealty.com as soon as reasonably practicable after we file those materials with, or furnish them to, the SEC.

The following documents relating to corporate governance are also available free of charge on our website under “Investor Relations —Corporate Governance” and available in print to any security holder upon request:

• Corporate Governance Guidelines;

• Code of Business Conduct and Ethics;

• Audit Committee Charter;

• Executive Compensation Committee Charter; and

• Nominating / Corporate Governance Committee Charter.

You may request copies of any of these documents by writing to:

Business and Growth Strategies

Growth Strategies. We believe that a number of factors and strategies will enable us to continue to achieve our objectives of long-term sustainable growth in Net Operating Income (defined below) and FFO (defined below) as well as maximization of long-term stockholder value. These factors and strategies include:

- the quality, geographic location, physical characteristics, and operating sustainability of our properties;

- our ability to efficiently manage our assets as a low cost provider of commercial real estate through our seasoned management team possessing core capabilities in all aspects of real estate ownership, including property management, leasing, marketing, financing, accounting, legal, construction and development management;

- our ability to capitalize on inflection points in a real estate cycle to add quality assets to our portfolio at substantial discounts to long-term value, through either acquisition, development or redevelopment;

- our strong financial position that has and will continue to allow us to pursue attractive acquisition and development and redevelopment opportunities;

- our access to development, redevelopment, acquisition, and leasing opportunities as a result of our extensive experience and significant working relationships with major West Coast property owners, corporate tenants, municipalities, and landowners given our over 65-year presence in the West Coast markets;

- our capital recycling program (see “Item 7: Management’s Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources of the Operating Partnership” for additional information pertaining to the Company’s capital recycling program and related 2013 and 2014 property dispositions); and

- our active development and redevelopment program and our extensive future development pipeline of undeveloped land sites (see “Item 7: Management’s Discussion and Analysis of Financial Condition and Results of Operations —Information on Leases Commenced and Executed” for additional information pertaining to the Company’s in-process and future development pipeline).

“Net Operating Income” is defined as operating revenues (rental income, tenant reimbursements, and other property income) less property and related expenses (property expenses, real estate taxes, provision for bad debts, and ground leases) before depreciation. “FFO” is funds from operations as defined by the National Association of Real Estate Investment Trusts (“NAREIT”). See “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Results of Operations” and “—Non-GAAP Supplemental Financial Measures: Funds From Operations” for a reconciliation of these measures to generally accepted accounting principles (“GAAP”) net income available to common stockholders.

Operating Strategies. We focus on enhancing long-term growth in Net Operating Income and FFO from our properties by:

- maximizing cash flow from our properties through active leasing, early renewals, and effective property management;

- structuring leases to maximize returns and internal growth;

- managing portfolio credit risk through effective underwriting, including the use of credit enhancements and interests in collateral to mitigate portfolio credit risk;

managing operating expenses through the efficient use of internal management, leasing, marketing, financing, accounting, legal, and construction management functions;

maintaining and developing long-term relationships with a diverse tenant base;

managing our properties to offer the maximum degree of utility and operational efficiency to tenants;

7

building our current development projects to Leadership in Energy and Environmental Design (“LEED”) specifications. All of our development projects are now designed to achieve LEED certification, generally LEED Platinum or Gold. Our 333 Brannan Street and 350 Mission Street buildings are the first two ground-up LEED Platinum office development projects in San Francisco;

actively pursuing LEED certification for over 2.5 million square feet of office space under construction. During 2013, we significantly enhanced the sustainability profile of our portfolio, ending the year with 40% of our properties LEED certified and 53% ENERGY STAR certified. According to the most widely used global benchmark for sustainability performance, we now rank among the top three American office REITs in sustainable practices and properties;

continuing to effectively manage capital improvements to enhance our properties’ competitive advantages in their respective markets and improve the efficiency of building systems;

enhancing our management team with individuals who have extensive regional experience and are highly knowledgeable in their respective markets; and

attracting and retaining motivated employees by providing financial and other incentives to meet our operating and financial goals.

Acquisition Strategies. We believe we are well positioned to acquire properties and development and redevelopment opportunities as the result of our extensive experience, strong financial position and ability to access capital. We continue to actively monitor our target markets and to pursue the acquisition of value add office properties and development and redevelopment opportunities that add immediate Net Operating Income to our portfolio or play a strategic role in our future growth and that:

provide attractive yields and significant potential for growth in cash flow from property operations;

present growth opportunities in our existing or other strategic markets; and

demonstrate the potential for improved performance through intensive management, repositioning and leasing that should result in increased occupancy and rental revenues.

Development and Redevelopment Strategies. We and our predecessors have developed office properties primarily located in California since 1947. As of December 31, 2013, our future development pipeline was comprised of nine potential development sites, representing 120.9 gross acres of undeveloped land on which we believe we have the potential to develop between 2.7 million and 3.4 million square feet of office space, depending upon economic conditions. Our strategy with respect to development is to:

maintain a disciplined approach by emphasizing pre-leasing, commencing development in stages or phasing, and cost control;

continue to execute our build-to-suit philosophy in which we develop properties to be leased by specific committed tenants providing for lower-risk development;

be the premier provider of modern and collaborative office buildings on the West Coast;

reinvest capital from dispositions of selective assets into new state-of-the-market development and acquisition assets with higher cash flow and rates of return;

• evaluate redevelopment opportunities in supply-constrained markets because such efforts generally achieve similar returns to new development with reduced entitlement risk and shorter construction periods; and

• execute on our development projects under construction and our future development pipeline.

8

Redevelopment opportunities are those projects in which we spend significant development and construction costs on existing buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. We may engage in the additional development or redevelopment of office properties when market conditions support a favorable risk-adjusted return on such development or redevelopment. We expect that our significant working relationships with tenants, municipalities, and landowners on the West Coast will give us further access to development and redevelopment opportunities. We cannot assure you that we will be able to successfully develop or redevelop any of our properties or that we will have access to additional development or redevelopment opportunities.

Financing Strategies. Our financing policies and objectives are determined by our board of directors. Our goal is to limit our dependence on leverage and maintain a conservative ratio of debt-to-total market capitalization. As of December 31, 2013, our total debt as a percentage of total market capitalization was 33.2%, and our total debt and liquidation value of our preferred equity as a percentage of total market capitalization was 36.3%, both of which were calculated based on the quoted closing price per share of the Company's common stock of \$50.18 on December 31, 2013 (see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources of the Company—Capitalization" for additional information). Our financing strategies include:

- maintaining financial flexibility, including a low secured to unsecured debt ratio, to maximize our ability to access a variety of both public and private capital sources;

- maintaining a staggered debt maturity schedule in which the maturity dates of our debt are spread over several years to limit risk exposure at any particular point in the capital and credit market cycles;

- completing financing in advance of the need for capital; and

- managing interest rate exposure by generally maintaining a greater amount of fixed-rate debt as compared to variable-rate debt.

We utilize multiple sources of capital, including borrowings under our unsecured line of credit, proceeds from the issuance of public or private debt or equity securities and other bank and/or institutional borrowings, and dispositions of selective assets. There can be no assurance that we will be able to obtain capital as needed on terms favorable to us or at all. See the discussion under the caption "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Factors That May Influence Future Results of Operations" and "Item 1A. Risk Factors."

Significant Tenants

As of December 31, 2013, our 15 largest tenants in terms of annualized base rental revenues represented approximately 33.0% of our total annualized base rental revenues, defined as annualized monthly contractual rents from existing tenants as of December 31, 2013. Annualized base rental revenue includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue.

For further information on our 15 largest tenants and the composition of our tenant base, see "Item 2. Properties—Significant Tenants."

Competition

We compete with several developers, owners, operators and acquirers of office, undeveloped land and other commercial real estate, many of which own properties similar to ours in the same submarkets in which our properties are located. For further discussion of the potential impact of competitive conditions on our business, see “Item 1A. Risk Factors.”

Segment and Geographic Financial Information

As of December 31, 2013 and 2012, we had one reportable segment, our office properties segment. For information about our office property revenues and long-lived assets and other financial information, see “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Results of Operations.”

As of December 31, 2013, all of our properties and development and redevelopment projects and all of our business is currently conducted in the state of California with the exception of twelve office properties located in the state of Washington. All of our properties and development and redevelopment projects are 100% owned, excluding a development project owned by Redwood City Partners, LLC, a consolidated subsidiary created on June 27, 2013 (see Note 3 “Acquisitions” to our consolidated financial statements for additional information) and certain properties held in Section 1031 Exchanges, which have been consolidated for financial reporting purposes as variable interest entities (see Note 2 “Basis of Presentation and Significant Accounting Policies” to our consolidated financial statements included in this report).

Employees

As of December 31, 2013, we employed 219 people through the Operating Partnership, KSLLC, and Kilroy Realty TRS, Inc. We believe that relations with our employees are good.

Environmental Regulations and Potential Liabilities

Government Regulation Relating to the Environment. Many laws and governmental regulations relating to the environment are applicable to our properties, and changes in these laws and regulations, or their interpretation by agencies and the courts, occur frequently and may adversely affect us.

Existing conditions at some of our properties. Independent environmental consultants have conducted Phase I or similar environmental site assessments on all of our properties. We generally obtain these assessments prior to the acquisition of a property and may later update them as required for subsequent financing of the property or as requested by a tenant. Site assessments are generally performed to American Society for Testing and Materials standards then-existing for Phase I site assessments and typically include a historical review, a public records review, a visual inspection of the surveyed site, and the issuance of a written report. These assessments do not generally include any soil samplings or subsurface investigations. Depending on the age of the property, the Phase I may have included an assessment of asbestos-containing materials. For properties where asbestos-containing materials were identified or suspected, an operations and maintenance plan was generally prepared and implemented.

Historical operations at or near some of our properties, including the presence of underground or above ground storage tanks, may have caused soil or groundwater contamination. In some instances, the prior owners of the affected properties conducted remediation of known contamination in the soils on our properties, and we do not believe that further clean-up of the soils is required. We are not aware of any such condition, liability, or concern by any other means that would give rise to material environmental liability. However, the assessments may have failed to reveal all environmental conditions, liabilities, or compliance concerns; there may be material environmental conditions, liabilities, or compliance concerns that arose at a property after the review was completed; future laws, ordinances, or regulations may impose material additional environmental liability; and environmental conditions at our properties may be affected in the future by tenants, third parties, or the condition of land or operations near our properties, such as the presence of underground storage tanks. We cannot be certain that costs of future environmental compliance will not have an adverse effect on our financial condition, results of operations, cash flow, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to security holders.

Use of hazardous materials by some of our tenants. Some of our tenants handle hazardous substances and wastes on our properties as part of their routine operations. Environmental laws and regulations may subject these tenants, and potentially us, to liability resulting from such activities. We generally require our tenants in their leases to comply with these environmental laws and regulations and to indemnify us for any related liabilities. As of December 31, 2013, other than routine cleaning materials, approximately 5% of our tenants handled hazardous

substances and/or wastes on less than 4% of the aggregate square footage of our properties as part of their routine operations. These tenants are primarily involved in the life sciences business. The hazardous substances and wastes are primarily comprised of diesel fuel for emergency generators and small quantities of lab and light manufacturing chemicals including, but not limited to, alcohol, ammonia, carbon dioxide, cryogenic gases, dichlorophenol, methane, naturallyte acid, nitrogen, nitrous oxide, and oxygen which are routinely used by life science companies. We are not aware of any material noncompliance, liability, or claim relating to hazardous or toxic substances or petroleum products in connection with any of our properties, and management does not believe that on-going activities by our tenants will have a material adverse effect on our operations.

Costs related to government regulation and private litigation over environmental matters. Under applicable environmental laws and regulations, we may be liable for the costs of removal, remediation, or disposal of certain hazardous or toxic substances present or released on our properties. These laws could impose liability without regard to whether we are responsible for, or even knew of, the presence or release of the hazardous materials. Government investigations and remediation actions may have substantial costs, and the presence or release of hazardous substances on a property could result in governmental clean-up actions, personal injury actions, or similar claims by private plaintiffs.

Potential environmental liabilities may exceed our environmental insurance coverage limits, transactional indemnities or holdbacks. We carry what we believe to be commercially reasonable environmental insurance. Our environmental insurance policies are subject to various terms, conditions and exclusions. Similarly, in connection with some transactions we obtain environmental indemnities and holdbacks that may not be honored by the indemnitors or may fail to address resulting liabilities adequately. Therefore, we cannot provide any assurance that our insurance coverage or transactional indemnities will be sufficient or that our liability, if any, will not have a material adverse effect on our financial condition, results of operations, cash flows, quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to security holders.

ITEM 1A. RISK FACTORS

The following section sets forth material factors that may adversely affect our business and operations. The following factors, as well as the factors discussed in “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Factors That May Influence Future Results of Operations” and other information contained in this report, should be considered in evaluating us and our business.

Risks Related to our Business and Operations

Global market and economic conditions may adversely affect our liquidity and financial condition and those of our tenants. In the United States, market and economic conditions continue to be challenging with stricter regulations and modest growth. While recent economic data reflects moderate economic growth in the United States, the cost and availability of credit may continue to be adversely affected by governmental budget and global economic factors. Concern about continued stability of the economy and credit markets generally, and the strength of counterparties specifically, has led many lenders and institutional investors to reduce and, in some cases, cease to provide funding to borrowers. Volatility in the U.S. and international capital markets and concern over a return to recessionary conditions in global economies, and in the California economy in particular, may adversely affect our liquidity and financial condition and the liquidity and financial condition of our tenants. If these market conditions continue, they may limit our ability and the ability of our tenants to timely refinance maturing liabilities and access the capital markets to meet liquidity needs.

All of our properties are located in California and greater Seattle, Washington and we may therefore be susceptible to adverse economic conditions and regulations, as well as natural disasters, in those areas. Because all of our properties are concentrated in California and greater Seattle we may be exposed to greater economic risks than if we owned a more geographically dispersed portfolio. Further, within California, our properties are concentrated in Los Angeles, Orange County, San Diego County, and the San Francisco Bay Area, exposing us to risks associated with those specific areas. We are susceptible to adverse developments in the economic and regulatory environments of California and greater Seattle (such as business layoffs or downsizing, industry slowdowns, relocations of businesses, increases in real estate and other taxes, costs of complying with governmental regulations or increased regulation and other factors) as well as adverse weather conditions and natural disasters that occur in those areas (such as earthquakes, wind, landslides, droughts, fires and other events). In addition, California is also regarded as more litigious and more highly regulated and taxed than many other states, which may reduce demand for office space in California.

Any adverse developments in the economy or real estate market in California and the surrounding region, or in greater Seattle or any decrease in demand for office space resulting from the California or greater Seattle regulatory or business environment could impact our ability to generate revenues sufficient to meet our operating expenses or other obligations, which would adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Our performance and the market value of our securities are subject to risks associated with our investments in real estate assets and with trends in the real estate industry. Our economic performance and the value of our real estate assets and, consequently the market value of the Company’s securities, are subject to the risk that our properties may not generate revenues sufficient to meet our operating expenses or other obligations. A deficiency of this nature would adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Events and conditions applicable to owners and operators of real estate that are beyond our control and could impact our economic performance and the value of our real estate assets may include:

- local oversupply or reduction in demand for office or other commercial space, which may result in decreasing rental rates and greater concessions to tenants;
- inability to collect rent from tenants;
- vacancies or inability to rent space on favorable terms or at all;
- inability to finance property development and acquisitions on favorable terms or at all;

- increased operating costs, including insurance premiums, utilities, and real estate taxes;
- costs of complying with changes in governmental regulations;
- the relative illiquidity of real estate investments;
- changing submarket demographics;
- changes in space utilization by our tenants due to technology, economic conditions and business culture;
- the development of harmful mold or other airborne toxins or contaminants that could damage our properties or expose us to third-party liabilities; and
- property damage resulting from seismic activity or other natural disasters.

We depend upon significant tenants, and the loss of a significant tenant could adversely affect our financial condition, results of operations, ability to borrow funds and cash flows. As of December 31, 2013, our 15 largest tenants represented approximately 33.0% of total annualized base rental revenues. See further discussion on the composition of our tenants by industry and our largest tenants under “Item 2. Properties —Significant Tenants.”

Our financial condition, results of operations, ability to borrow funds, and cash flows would be adversely affected if any of our significant tenants fails to renew its lease(s), renew its lease(s) on terms less favorable to us, or becomes bankrupt or insolvent or otherwise unable to satisfy its lease obligations.

Downturn in tenants’ businesses may reduce our revenues and cash flows. For the year ended December 31, 2013, we derived approximately 98.4% of our revenues from continuing operations from rental income and tenant reimbursements. A tenant may experience a downturn in its business, which may weaken its financial condition and result in its failure to make timely rental payments or result in defaults under our leases. In the event of default by a tenant, we may experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment.

The bankruptcy or insolvency of a major tenant also may adversely affect the income produced by our properties. If any tenant becomes a debtor in a case under federal bankruptcy law, we cannot evict the tenant solely because of the bankruptcy. In addition, the bankruptcy court might permit the tenant to reject and terminate its lease with us. Our claim against the tenant for unpaid and future rent could be subject to a statutory cap that might be substantially less than the remaining rent actually owed under the lease. Therefore, our claim for unpaid rent would likely not be paid in full. Any losses resulting from the bankruptcy of any of our existing tenants could adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

A large percentage of our tenants operate in a concentrated group of industries and downturns in these industries could adversely affect our financial condition, results of operations and cash flows. As of December 31, 2013, as a percentage of our annualized base rental revenue, 36% of our tenants operated in the technology and media industry, 19% in the finance, insurance and real estate industries, 15% in the professional, business and other services industries, 12% in the education and health services industries and 18% in other industries. As we expand our acquisition and development activities in markets populated by knowledge and creative based tenants in the technology and media industry, our tenant mix may become more concentrated, further exposing us to risks associated with that industry. For a further discussion of the composition of our tenants by industry, see “Item 2. Properties —Significant Tenants.” An economic downturn in any of these industries, or in any industry in which a significant

number of our tenants currently or may in the future operate, could negatively impact the financial condition of such tenants and cause them to fail to make timely rental payments or default on lease obligations, fail to renew their leases or renew their leases on terms less favorable to us, become bankrupt or insolvent, or otherwise become unable to satisfy their obligations to us. As a result, a downturn in an industry in which a significant number of our tenants operate could adversely affect our financial conditions, result of operations and cash flows.

We may be unable to renew leases or re-lease available space. We had office space representing approximately 6.6% of the total square footage of our properties that was not occupied as of December 31, 2013. In addition, leases representing approximately 9.9% and 13.3% of the leased rentable square footage of our properties are scheduled to expire in 2014 and 2015, respectively. Above market rental rates on some of our properties may force us to renew or re-lease expiring leases at rates below current lease rates. We cannot provide any assurance that leases will be renewed or that available space will be re-leased at rental rates equal to or above the current rental rates. If the average rental rates for our properties decrease or existing tenants do not renew their leases, our financial condition, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders could be adversely affected.

We are subject to governmental regulations that may affect the development, redevelopment, and use of our properties.

Our properties are subject to regulation under federal laws, such as the Americans with Disabilities Act of 1990 (the "ADA"), pursuant to which all public accommodations must meet federal requirements related to access and use by disabled persons, and state and local laws addressing earthquake, fire, and life safety requirements. Although we believe that our properties substantially comply with requirements under applicable governmental regulations, none of our properties have been audited or investigated for compliance by any regulatory agency. If we were not in compliance with material provisions of the ADA or other regulations affecting our properties, we might be required to take remedial action, which could include making modifications or renovations to properties. Federal, state, or local governments may also enact future laws and regulations that could require us to make significant modifications or renovations to our properties. If we were to incur substantial costs to comply with the ADA or any other regulations, our financial condition, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders could be adversely affected.

Our properties are subject to land use rules and regulations that govern our development, redevelopment, and use of our properties. Changes in the existing land use rules and regulations and approval process that restrict or delay our ability to develop, redevelop, or use our properties (such as potential restrictions on the use and/or density of new developments, water use and other uses and activities) could have an adverse effect on our financial position, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Our debt level reduces cash available for distribution and may expose us to the risk of default under our debt obligations. Payments of principal and interest on our borrowings may leave us with insufficient cash resources to operate our properties or to pay in cash the distributions necessary to maintain the Company's REIT qualification. Our level of debt and the limitations imposed by our debt agreements may have substantial consequences to us, including the following:

- we may be unable to refinance our indebtedness at maturity, or the refinancing terms may be less favorable than the terms of our original indebtedness;
- cash flows may be insufficient to meet required principal and interest payments;
- we may be forced to dispose of one or more of our properties, possibly on disadvantageous terms;
- we may default on our obligations, and the lenders or mortgagees may foreclose on our properties that secure the loans and receive an assignment of rents and leases; and

our default under one mortgage loan could result in a default on other indebtedness with cross default provisions.

If one or more of these events were to occur, our financial condition, results of operations, cash flow, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders could be adversely affected. In addition, foreclosures could create taxable income without accompanying cash proceeds, which could require us to borrow or sell assets to raise the funds necessary to meet the REIT distribution requirements discussed below, even if such actions are not on favorable terms. As of December 31, 2013, we had approximately \$2.2 billion aggregate principal amount of indebtedness, of which \$265.3 million is contractually due prior to December 31, 2014. Our total debt and preferred equity at December 31, 2013 represented 36.3% of our total market capitalization (which we define as the aggregate of our long-term debt, liquidation value of our preferred equity, and the market value of the Company's common stock and the Operating Partnership's common units of limited partnership interest, or common units). For calculation of our market capitalization and additional information on debt maturities, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources of the Company —Capitalization" and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources of the Operating Partnership —Liquidity Uses."

The covenants in the Operating Partnership's revolving credit facility and term loan facility may limit our ability to make distributions to the holders of our common stock. The Operating Partnership's \$500 million unsecured revolving credit facility and \$150.0 million unsecured term loan facility contain financial covenants that could limit the amount of distributions we may pay on our common stock and preferred stock. We rely on cash distributions we receive from the Operating Partnership to pay distributions on our common stock and preferred stock and to satisfy our other cash needs, and the revolving credit facility and term loan facility provide that the Operating Partnership may not, in any year, make partnership distributions to us or other holders of its partnership interests in an aggregate amount in excess of the greater of:

95% of the Operating Partnership's consolidated funds from operations (as defined in each of the revolving credit facility and term loan agreements) for such year; and

an amount which results in distributions to us (excluding any preferred partnership distributions to the extent the same have been deducted from consolidated funds from operations (as so defined) for such year) in an amount sufficient to permit us to pay dividends to our stockholders that we reasonably believe are necessary to (a) maintain our qualification as a REIT for federal and state income tax purposes and (b) avoid the payment of federal or state income or excise tax.

In addition, the revolving credit facility and term loan facility provide that, if the Operating Partnership fails to pay any principal of or interest on any borrowings under the revolving credit facility or term loan facility, respectively, when due, then the Operating Partnership may make only those partnership distributions to us and other holders of its partnership interests necessary to enable us to make distributions to our stockholders that we reasonably believe are necessary to maintain our status as a REIT for federal and state income tax purposes. Any limitation on our ability to make distributions to our stockholders, whether as a result of these provisions in the revolving credit facility, the term loan facility or otherwise, could have a material adverse effect on the market value of our common stock.

A downgrade in our credit ratings could materially adversely affect our business and financial condition. The credit ratings assigned to the Operating Partnership's debt securities and our preferred stock could change based upon, among other things, our results of operations and financial condition. These ratings are subject to ongoing evaluation by credit rating agencies, and we cannot assure you that any rating will not be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. Moreover, these credit ratings do not apply to our common stock and are not recommendations to buy, sell or hold our common stock or any other securities. If any of the credit rating agencies that have rated the Operating Partnership's debt securities or our preferred stock downgrades or lowers its credit rating, or if any credit rating agency indicates that it has placed any such rating on a so-called "watch list" for a

possible downgrading or lowering or otherwise indicates that its outlook for that rating is negative, it could have a material adverse effect on our costs and availability of capital, which could in turn have a material adverse effect on our financial condition, results of operations, cash flows, the quoted trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

We face significant competition, which may decrease the occupancy and rental rates of our properties. We compete with several developers, owners, and operators of office, undeveloped land and other commercial real estate, many of which own properties similar to ours in the same submarkets in which our properties are located but which have lower occupancy rates than our properties. Therefore, our competitors have an incentive to decrease rental rates until their available space is leased. If our competitors offer space at rental rates below the rates currently charged by us for comparable space, we may be pressured to reduce our rental rates below those currently charged in order to retain tenants when our tenant leases expire. As a result, our financial condition, results of operations, cash flow, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders may be adversely affected.

In order to maintain the quality of our properties and successfully compete against other properties, we must periodically spend money to maintain, repair, and renovate our properties, which reduces our cash flows. If our properties are not as attractive to current and prospective tenants in terms of rent, services, condition, or location as properties owned by our competitors, we could lose tenants or suffer lower rental rates. As a result, we may from time to time be required to make significant capital expenditures to maintain the competitiveness of our properties. There can be no assurances that any such expenditure would result in higher occupancy or higher rental rates, or deter existing tenants from relocating to properties owned by our competitors.

Potential casualty losses, such as earthquake losses, may not be covered by insurance and payment of such losses may adversely affect our financial condition, results of operations and cash flows. We carry comprehensive liability, fire, extended coverage, rental loss, and terrorism insurance covering all of our properties. Management believes the policy specifications and insured limits are appropriate given the relative risk of loss, the cost of the coverage, and industry practice. We do not carry insurance for generally uninsurable losses such as loss from riots or acts of God. In addition, all of our properties are located in earthquake-prone areas. We carry earthquake insurance on our properties in an amount and with deductibles that management believes are commercially reasonable. However, the amount of our earthquake insurance coverage may not be sufficient to cover losses from earthquakes. We may also discontinue earthquake insurance on some or all of our properties in the future if the cost of premiums for earthquake insurance exceeds the value of the coverage discounted for the risk of loss. If we experience a loss that is uninsured or which exceeds policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. Further, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if the properties were irreparable.

We are subject to environmental and health and safety laws and regulations, and any costs to comply with, or liabilities arising under, such laws and regulations could be material. As an owner, operator, manager, acquirer and developer of real properties, we are subject to environmental and health and safety laws and regulations. Certain of these laws and regulations impose joint and several liability, without regard to fault, for investigation and clean-up costs on current and former owners and operators of real property and persons who have disposed of or released hazardous substances into the environment. At some of our properties, there are asbestos-containing materials, or tenants routinely handle hazardous substances as part of their operations. In addition, historical operations, including the presence of underground storage tanks, have caused soil or groundwater contamination at or near some of our properties. Although we believe that the prior owners of the affected properties or other persons may have conducted remediation of known contamination at these properties, not all such contamination has been remediated. Unknown or unremediated contamination or the compliance with existing or new environmental or health and safety laws and regulations could require us to incur costs or liabilities that could be material. See “Item 1. Business —Environmental Regulations and Potential Liabilities.”

We may be unable to complete acquisitions and successfully operate acquired properties. We continually evaluate the market of available properties and may continue to acquire office properties and undeveloped land when strategic opportunities exist. Our ability to acquire properties on favorable terms and successfully operate them is subject to

various risks, including the following:

we may potentially be unable to acquire a desired property because of competition from other real estate investors with significant capital, including both publicly traded and private REITs, institutional investment funds and other real estate investors;

even if we are able to acquire a desired property, competition from other real estate investors may significantly increase the purchase price;

even if we enter into agreements for the acquisition of a desired property, we may be unable to complete such acquisitions because they remain subject to customary conditions to closing, including the completion of due diligence investigations to management's satisfaction;

- we may be unable to finance acquisitions on favorable terms or at all;

- we may spend more than budgeted amounts in operating costs or to make necessary improvements or renovations to acquired properties;

- we may lease acquired properties at economic lease terms different than projected;

- we may acquire properties that are subject to liabilities for which we may have limited or no recourse; and

- we may be unable to complete an acquisition after making a nonrefundable deposit and incurring certain other acquisition-related costs.

If we cannot finance property acquisitions on favorable terms or operate acquired properties to meet financial expectations, our financial condition, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders could be adversely affected.

We may be unable to successfully complete and operate acquired, developed, and redeveloped properties. There are significant risks associated with property acquisition, development, and redevelopment, including the possibility that:

- we may be unable to lease acquired, developed, or redeveloped properties at projected economic lease terms or within budgeted timeframes;

- we may not complete development or redevelopment properties on schedule or within budgeted amounts;

- we may expend funds on and devote management's time to acquisition, development, or redevelopment properties that we may not complete;

- we may encounter delays or refusals in obtaining all necessary zoning, land use, and other required entitlements, and building, occupancy, and other required governmental permits and authorizations;

- we may encounter delays, refusals, unforeseen cost increases, and other impairments resulting from third-party litigation; and

- we may fail to obtain the financial results expected from properties we acquire, develop, or redevelop.

If one or more of these events were to occur in connection with our acquired properties, undeveloped land, or development or redevelopment properties under construction, we could be required to recognize an impairment loss. These events could also have an adverse impact on our financial condition, results of operations, cash flow, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

While we historically have acquired, developed, and redeveloped office properties in California markets, over the past few years we have acquired twelve properties in greater Seattle and may in the future acquire, develop, or redevelop properties for other uses and expand our business to other geographic regions where we expect the development or

acquisition of property to result in favorable risk-adjusted returns on our investment. Presently, we do not possess the same level of familiarity with development of property types other than mixed-use, office, or with certain outside markets, which could adversely affect our ability to acquire, develop or redevelop properties or to achieve expected performance.

Joint venture investments could be adversely affected by our lack of sole decision-making authority, our reliance on co-venturers' financial condition, and disputes between us and our co-venturers and could expose us to potential liabilities and losses.

As described more fully in Note 3 "Acquisitions" to our consolidated financial statements included in this report, on June 27, 2013, we entered into an agreement with an unaffiliated third party and formed a new consolidated subsidiary, Redwood City Partners, LLC, to ultimately develop and operate a new office complex in Redwood City, California. We are the managing member and expect to eventually own 93% of Redwood City Partners, LLC. In addition to this venture, we may continue to co-invest in the future with third parties through partnerships, joint ventures or other entities, or through acquiring non-controlling interests in, or sharing responsibility for, managing the affairs of a property, partnership, joint venture or other entity, which may subject us to risks that may not be present with other methods of ownership, including the following:

we would not be able to exercise sole decision-making authority regarding the property, partnership, joint venture or other entity, which would allow for impasses on decisions that could restrict our ability to sell or transfer our interests in such entity or such entity's ability to transfer or sell its assets;

partners or co-venturers might become bankrupt or fail to fund their share of required capital contributions, which could delay construction or development of a property or increase our financial commitment to the partnership or joint venture;

partners or co-venturers may pursue economic or other business interests, policies or objectives that are competitive or inconsistent with ours;

if we become a limited partner or non-managing member in any partnership or limited liability company, and such entity takes or expects to take actions that could jeopardize our status as a REIT or require us to pay tax, we may be forced to dispose of our interest in such entity;

disputes between us and partners or co-venturers may result in litigation or arbitration that would increase our expenses and prevent our officers and/or directors from focusing their time and effort on our business; and

we may, in certain circumstances, be liable for the actions of our third-party partners or co-venturers.

We own certain properties subject to ground leases and other restrictive agreements that limit our uses of the properties, restrict our ability to sell or otherwise transfer the properties and expose us to the loss of the properties if such agreements are breached by us, terminated or not renewed. As of December 31, 2013, we owned eleven office buildings, located on various land parcels and regions, which we lease individually on a long-term basis. As of December 31, 2013, we had approximately 1.9 million aggregate rentable square feet, or 14.6% of our total stabilized portfolio, of rental space located on these leased parcels and we may in the future invest in additional properties that are subject to ground leases or other similar restrictive arrangements. Many of these ground leases and other restrictive agreements impose significant limitations on our uses of the subject property, restrict our ability to sell or otherwise transfer our interests in the property or restrict our leasing of the property. These restrictions may limit our ability to timely sell or exchange the properties, impair the properties' value or negatively impact our ability to find suitable tenants for the properties. In addition, if we default under the terms of any particular lease, we may lose the ownership rights to the property subject to the lease. Upon expiration of a lease, we may not be able to renegotiate a new lease on favorable terms, if at all. The loss of the ownership rights to these properties or an increase of rental expense could have an adverse effect on our financial condition, results of operations, cash flow, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Real estate assets are illiquid, and we may not be able to sell our properties when we desire. Our investments in our properties are relatively illiquid, limiting our ability to sell our properties quickly in response to changes in economic or other conditions. In addition, the Code generally imposes a 100% prohibited transaction tax on the Company on profits derived from sales of properties held primarily for sale to customers in the ordinary course of business, which effectively limits our ability to sell properties other than on a selected basis. These restrictions on our ability to sell our properties could have an adverse effect on our financial condition, results of operations, cash flow, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

We may invest in securities related to real estate, which could adversely affect our ability to pay dividends and distributions to our security holders. We may purchase securities issued by entities that own real estate and may, in the future, also invest in mortgages. In general, investments in mortgages are subject to several risks, including:

• borrowers may fail to make debt service payments or pay the principal when due;

• the value of the mortgaged property may be less than the principal amount of the mortgage note securing the property; and

• interest rates payable on the mortgages may be lower than our cost for the funds used to acquire these mortgages.

Owning these securities may not entitle us to control the ownership, operation, and management of the underlying real estate. In addition, we may have no control over the distributions with respect to these securities, which could adversely affect our ability to pay dividends and distributions to our security holders.

We face risks associated with short-term liquid investments. From time to time, we have significant cash balances that we invest in a variety of short-term investments that are intended to preserve principal value and maintain a high degree of liquidity while providing current income. These investments may include (either directly or indirectly):

• direct obligations issued by the U.S. Treasury;

• obligations issued or guaranteed by the U.S. government or its agencies;

• taxable municipal securities;

• obligations (including certificates of deposits) of banks and thrifts;

- commercial paper and other instruments consisting of short-term U.S. dollar denominated obligations issued by corporations and banks;
- repurchase agreements collateralized by corporate and asset-backed obligations;

• both registered and unregistered money market funds; and

• other highly rated short-term securities.

Investments in these securities and funds are not insured against loss of principal. Under certain circumstances we may be required to redeem all or part of our right to redeem some or all of our investment may be delayed or suspended. In addition, there is no guarantee that our investments in these securities or funds will be redeemable at par value. A decline in the value of our investment or a delay or suspension of our right to redeem may have a material adverse effect on our results of operations or financial condition.

Future terrorist activity or engagement in war by the United States may have an adverse effect on our financial condition and operating results. Terrorist attacks in the United States and other acts of terrorism or war, may result in declining economic activity, which could harm the demand for and the value of our properties. In addition, the public perception that certain locations are at greater risk for attack, such as major airports, ports, and rail facilities, may decrease the demand for and the value of our properties near these sites. A decrease in demand could make it difficult for us to renew or re-lease our properties at these sites at lease rates equal to or above historical rates. Terrorist

activities also could directly impact the value of our properties through damage, destruction, or loss, and the availability of insurance for these acts may be less, and cost more, which could adversely affect our financial condition. To the extent that our tenants are impacted by future attacks, their businesses similarly could be adversely affected, including their ability to continue to honor their existing leases.

Terrorist acts and engagement in war by the United States also may adversely affect the markets in which our securities trade and may cause further erosion of business and consumer confidence and spending and may result in increased volatility in national and international financial markets and economies. Any one of these events may cause a decline in the demand for our office leased space, delay the time in which our new or renovated properties reach stabilized occupancy, increase our operating expenses, such as those attributable to increased physical security for our properties, and limit our access to capital or increase our cost of raising capital.

The enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”) will subject us to substantial additional federal regulation. There are significant corporate governance and executive compensation-related requirements that have been, and will in the future be, imposed on publicly-traded companies under the Dodd-Frank Act. Several of these provisions require the SEC to adopt additional rules and regulations in these areas. For example, the Dodd-Frank Act requires publicly-traded companies to give stockholders a non-binding vote on executive compensation and so-called “golden parachute” payments, heightens certain independence standards for compensation advisers and authorizes the SEC to promulgate rules that would allow stockholders to nominate their own candidates for board seats using a registrant’s proxy materials. Our efforts to comply with these requirements have resulted in, and are likely to continue to result in, an increase in expenses and a diversion of management’s time from other business activities. In addition, if stockholders do not vote to approve our executive compensation practices and/or our equity plan amendments, these actions may interfere with our ability to attract and retain key personnel who are essential to our future success. Given the uncertainty associated with both the results of the existing Dodd-Frank Act requirements and the manner in which additional provisions of the Dodd-Frank Act will be implemented by various regulatory agencies and through regulations, the full extent of the impact of such requirements on our operations is unclear. Accordingly, the changes resulting from the Dodd-Frank Act may impact the profitability of business activities, require changes to certain business practices, or otherwise adversely affect our financial condition, results of operations, cash flows, the quoted trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Our property taxes could increase due to reassessment or property tax rate changes. We are required to pay some state and local taxes on our properties. In addition, the real property taxes on our properties may increase as our properties are reassessed by taxing authorities or as property tax rates change. For example, under a current California law commonly referred to as “Proposition 13,” property tax reassessment generally occurs as a result of a “change in ownership” of a property, as specially defined for purposes of those rules. Because the property taxing authorities may not determine whether there has been a “change in ownership” or the actual reassessed value of a property for a period of time after a transaction has occurred, we may not know the impact of a potential reassessment for a considerable amount of time following a particular transaction. Therefore, the amount of property taxes we are required to pay could increase substantially from the property taxes we currently pay or have paid in the past, including on a retroactive basis. In addition, from time to time voters and lawmakers have announced initiatives to repeal or amend Proposition 13 to eliminate its application to commercial and industrial property and/or introduce split tax roll legislation. Such initiatives, if successful, would increase the assessed value and/or tax rates applicable to commercial property in California, including our office properties. An increase in the assessed value of our properties or our property tax rates could adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Unfavorable resolution of litigation matters and disputes could have a material adverse effect on our financial condition. From time to time, we are involved in legal proceedings, lawsuits and other claims. We may also be named as defendants in lawsuits allegedly arising out of our actions or the actions of our operators and tenants in which such operators and tenants have agreed to indemnify, defend and hold us harmless from and against various claims, litigation and liabilities arising in connection with their respective businesses. An unfavorable resolution of litigation could have an effect on our financial condition, results of operations, cash flow, the quoted trading price of our

securities, and our ability to satisfy our debt service obligations and to pay our ability to pay dividends and distributions to our security holders. Regardless of its outcome, litigation may result in substantial costs and expenses and significantly divert the attention of our management. There can be no assurance that we will be able to prevail in, or achieve a favorable settlement of, litigation. In addition, litigation, government proceedings or environmental matters could lead to increased costs or interruption of our normal business operations.

Our business could be adversely impacted if there are deficiencies in our disclosure controls and procedures or internal control over financial reporting. The design and effectiveness of our disclosure controls and procedures and internal control over financial reporting may not prevent all errors, misstatements or misrepresentations. While management will continue to review the effectiveness of our disclosure controls and procedures and internal control over financial reporting, there can be no guarantee that our internal control over financial reporting will be effective in accomplishing all control objectives all of the time. Deficiencies, including any material weakness, in our internal control over financial reporting that may occur in the future could result in misstatements of our results of operations, restatements of our financial statements, or otherwise adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

We face risks associated with security breaches through cyber attacks, cyber intrusions or otherwise, as well as other significant disruptions of our information technology (IT) networks and related systems. We face risks associated with security breaches, whether through cyber attacks or cyber intrusions over the Internet, malware, computer viruses, attachments to e-mails, persons inside our organization or persons with access to systems inside our organization, and other significant disruptions of our IT networks and related systems. The risk of a security breach or disruption, particularly through cyber attack or cyber intrusion, including by computer hackers, foreign governments and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased. Our IT networks and related systems are essential to the operation of our business and our ability to perform day-to-day operations (including managing our building systems), and, in some cases, may be critical to the operations of certain of our tenants. There can be no assurance that our efforts to maintain the security and integrity of these types of IT networks and related systems will be effective or that attempted security breaches or disruptions would not be successful or damaging. A security breach or other significant disruption involving our IT networks and related systems could adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

Risks Related to Our Organizational Structure

Loss of our key personnel could harm our operations and financial performance and adversely affect the quoted trading price of our securities. The leadership and performance of our executive and senior officers, particularly John B. Kilroy, Jr., President and Chief Executive Officer, Jeffrey C. Hawken, Executive Vice President and Chief Operating Officer, Eli Khouri, Executive Vice President and Chief Investment Officer, Tyler H. Rose, Executive Vice President and Chief Financial Officer, and Justin W. Smart, Executive Vice President, Development and Construction Services, play a key role in the success of the Company. They are integral to the Company's success for many reasons, including that each has a strong national or regional reputation in our industry and investment community. In addition, they have significant relationships with investors, lenders, tenants and industry personnel, which benefit the Company. Our ability to retain and motivate these individuals will depend on various factors, including our ability to provide them competitive share-based incentive compensation, which may be adversely impacted by our inability to grant share-settled awards under our 2006 Incentive Award Plan. See Note 12 "Share-Based Compensation" to our consolidated financial statements included in this report for more information regarding the number of shares that remain available to grant under our 2006 Incentive Award Plan. The loss or limited availability of the services of our key personnel could materially and adversely affect our business, financial condition, and results of operations and could be negatively perceived in the capital markets.

Our growth depends on external sources of capital that are outside of our control and the inability to obtain capital on terms that are acceptable to us, or at all, could adversely affect our financial condition and results of operations. The Company is required under the Code to distribute at least 90% of its taxable income (subject to certain adjustments and excluding any net capital gain), and the Operating Partnership is required to make distributions to the Company to

allow the Company to satisfy these REIT distribution requirements. Because of these distribution requirements, the Operating Partnership is required to make distributions to the Company, and we may not be able to fund future capital needs, including any necessary acquisition financing, from operating cash flow. Consequently, management relies on third-party sources of capital to fund our capital needs. We may not be able to obtain financing on favorable terms or at all. Any additional debt we incur will increase our leverage. Access to third-party sources of capital depends, in part, on general market conditions and the availability of credit, the market's perception of our growth potential, our current and expected future earnings, our cash flows and cash distributions, and the quoted trading price of our securities. If we cannot obtain capital from third-party sources, our financial condition, results of operations, cash flows, the quoted

trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders may be adversely affected.

Our common limited partners have limited approval rights, which may prevent us from completing a change of control transaction that may be in the best interests of all our security holders. The Company may not withdraw as the Operating Partnership's general partner or transfer its general partnership interest in the Operating Partnership without the approval of the holders of at least 60% of the units representing common limited partnership interests, including the common units held by the Company in its capacity as the Operating Partnership's general partner. In addition, the Company may not engage in a merger, consolidation, or other combination or the sale of substantially all of its assets or such similar transaction, without the approval of the holders of 60% of the common units, including the common units held by the Company in its capacity as the Operating Partnership's general partner. The right of our common limited partners to vote on these transactions could limit our ability to complete a change of control transaction that might otherwise be in the best interest of all our security holders.

In certain circumstances, our limited partners must approve our dissolution and the disposition of properties contributed by the limited partners. For as long as limited partners own at least 5% of all of the Operating Partnership's partnership interests, we must obtain the approval of limited partners holding a majority of the units representing common limited partnership interests before we may dissolve. As of December 31, 2013, limited partners owned approximately 2.2% of the Operating Partnership's partnership interests, of which 0.9% was owned by John B. Kilroy, Jr. In addition, we agreed to use commercially reasonable efforts to minimize the tax consequences to common limited partners resulting from the repayment, refinancing, replacement, or restructuring of debt, or any sale, exchange, or other disposition of any of our other assets. The exercise of one or more of these approval rights by the limited partners could delay or prevent us from completing a transaction that may be in the best interest of all our security holders.

The Chairman of our board of directors and our President and Chief Executive Officer has substantial influence over our affairs. John B. Kilroy, Jr. is the Chairman of our board of directors and our President and Chief Executive Officer. John B. Kilroy, Jr. beneficially owned, as of December 31, 2013, approximately 2.1% of the total outstanding shares of our common stock. The percentage of outstanding shares of common stock beneficially owned includes 137,334 shares of common stock, 424,680 restricted stock units that were vested and held by John B. Kilroy, Jr. at December 31, 2013, and assumes the exchange into shares of our common stock of the 782,059 common units of the Operating Partnership held by John B. Kilroy, Jr. (which may be exchanged for an equal number of shares of our common stock).

Pursuant to the Company's charter, no stockholder may own, actually or constructively, more than 7.0% (by value or by number of shares, whichever is more restrictive) of our outstanding common stock without obtaining a waiver from the board of directors. The board of directors has waived the ownership limits with respect to John B. Kilroy, Jr., members of his family and some of their affiliated entities. These named individuals and entities may own either actually or constructively, in the aggregate, up to 19.6% of the our common stock, excluding Operating Partnership units that are exchangeable into shares of our common stock. Consequently, John B. Kilroy Jr., has substantial influence over the Company, and because the Company is the manager of the Operating Partnership, over the Operating Partnership, and could exercise his influence in a manner that is not in the best interest of our stockholders, noteholders or unitholders. Also, John B. Kilroy Jr., may, in the future, have a substantial influence over the outcome of any matters submitted to our stockholders or unitholders for approval.

There are restrictions on the ownership of the Company's capital stock that limit the opportunities for a change of control at a premium to existing security holders. Provisions of the Maryland General Corporation Law, the Company's charter and bylaws, and the Operating Partnership's partnership agreement may delay, deter, or prevent a change of control of the Company, or the removal of existing management. Any of these actions might prevent our

security holders from receiving a premium for their shares of common stock or common units over the then-prevailing market price of the shares of our common stock.

In order for the Company to qualify as a REIT under the Code, its stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year for which an election to be a REIT has been made) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding shares of the Company's stock may be owned, actually or constructively, by five or fewer individuals (as defined in the Code to include certain entities) during the last half of a taxable year (other than the first year for which an election to be a REIT has been made). The Company's charter contains restrictions on the ownership

and transfer of its capital stock that are intended to assist the Company in complying with these requirements and continuing to qualify as a REIT. No single stockholder may own, either actually or constructively, absent a waiver from the board of directors, more than 7.0% (by value or by number of shares, whichever is more restrictive) of the Company's outstanding common stock. Similarly, absent a waiver from the board of directors, no single holder of the Company's 6.875% Series G Cumulative Redeemable Preferred stock (the "Series G Preferred Stock") may actually or constructively own more than 9.8% (by value or by number of shares, whichever is more restrictive) of the Company's Series G Preferred Stock; and no single holder of the Company's 6.375% Series H Cumulative Redeemable Preferred stock (the "Series H Preferred Stock") may actually or constructively own more than 9.8% (by value or by number of shares, whichever is more restrictive) of the Company's Series H Preferred Stock.

The constructive ownership rules under the Code are complex and may cause stock owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of less than the applicable ownership limit of a particular class of the Company's capital stock could, nevertheless, cause that individual or entity, or another individual or entity, to constructively own stock in excess of, and thereby subject such stock to, the applicable ownership limit.

The board of directors may waive the ownership limits if it is satisfied that the excess ownership would not jeopardize the Company's REIT status and if it believes that the waiver would be in our best interest. The board of directors has waived the ownership limits with respect to John B. Kilroy, Jr., members of his family and some of their affiliated entities. These named individuals and entities may own either actually or constructively, in the aggregate, up to 19.6% of our outstanding common stock, excluding common units that are exchangeable into shares of common stock. The board of directors has also waived the ownership limits with respect to the initial purchasers of the 4.25% Exchangeable Senior Notes due 2014 (the "4.25% Exchangeable Notes") and certain of their affiliated entities to beneficially own up to 9.8%, in the aggregate, of the Company's common stock in connection with hedging the capped call transactions.

If anyone acquires shares in excess of any ownership limits, the transfer to the transferee will be void with respect to the excess shares, the excess shares will be automatically transferred to a trust for the benefit of a qualified charitable organization, and the purported transferee or owner will have no rights with respect to those excess shares.

The Company's charter contains provisions that may delay, deter, or prevent a change of control transaction. The following provisions of the Company's charter may delay or prevent a change of control over us, even if a change of control might be beneficial to our security holders, deter tender offers that may be beneficial to our security holders, or limit security holders' opportunity to receive a potential premium for their shares and/or units if an investor attempted to gain shares beyond the Company's ownership limits or otherwise to effect a change of control:

the Company's charter authorizes the board of directors to issue up to 30,000,000 shares of the Company's preferred stock, including convertible preferred stock, without stockholder approval. The board of directors may establish the preferences, rights, and other terms, including the right to vote and the right to convert into common stock any shares issued. The issuance of preferred stock could delay or prevent a tender offer or a change of control even if a tender offer or a change of control was in our security holder's interest. As of December 31, 2013, 8,000,000 shares of the Company's preferred stock were issued and outstanding, consisting of 4,000,000 shares of the Company's Series G Preferred Stock and 4,000,000 shares of the Company's Series H Preferred Stock; and

the Company's charter states that any director, or the entire board of directors, may be removed from office at any time, but only for cause and then only by the affirmative vote of the holders of at least two thirds of the votes of the Company's capital stock entitled to be cast in the election of directors.

The board of directors may change investment and financing policies without stockholder or unitholder approval. Our board of directors determines our major policies, including policies and guidelines relating to our acquisition, development, and redevelopment activities, leverage, financing, growth, operations and distributions to our security holders. Our board of directors may amend or revise these and other policies and guidelines from time to time without stockholder or unitholder approval. Accordingly, our stockholders and unitholders will have limited control over changes in our policies and those changes could adversely impact our financial condition, results of operations, cash flows, the quoted trading price of our securities, and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

We are not limited in our ability to incur debt. Our financing policies and objectives are determined by the board of directors. Our goal is to limit our dependence on leverage and maintain a conservative ratio of debt to total market capitalization. However, our organizational documents do not limit the amount or percentage of indebtedness, funded or otherwise, that we may incur. As of December 31, 2013, we had approximately \$2.2 billion aggregate principal amount of indebtedness outstanding, which represented 33.2% of our total market capitalization. Our total debt and the liquidation value of our preferred equity as a percentage of total market capitalization was approximately 36.3% as of December 31, 2013. See “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources of the Company —Capitalization” for a calculation of our market capitalization. These ratios may be increased or decreased without the consent of our unitholders or stockholders. Increases in the amount of debt outstanding would result in an increase in our debt service, which could adversely affect cash flow and our ability to pay dividends and distributions to our security holders. Higher leverage also increases the risk of default on our obligations and limits our ability to obtain additional financing in the future.

We may issue additional common units and shares of capital stock without unitholder or stockholder approval, as applicable, which may dilute unitholder or stockholder investment. The Company may issue shares of our common stock, preferred stock, or other equity or debt securities without stockholder approval, including the issuance of shares to satisfy REIT dividend distribution requirements. Similarly, the Operating Partnership may offer its common or preferred units for contributions of cash or property without approval by our stockholders or the Operating Partnership’s unitholders. Further, under certain circumstances, the Company may issue shares of our common stock in exchange for the Operating Partnership’s outstanding 4.25% Exchangeable Notes. Existing security holders have no preemptive rights to acquire any of these securities, and any issuance of equity securities under these circumstances may dilute a unitholder’s or stockholder’s investment.

The market price of our common stock may be adversely affected by future offerings of debt and equity securities by us or the Operating Partnership. In the future, we may increase our capital resources by offering our debt securities and/or preferred stock, the Operating Partnership’s debt securities and/or equity securities and our or the Operating Partnership’s other borrowings. Upon our liquidation, dissolution or winding-up, holders of such debt securities, our preferred stock and Operating Partnership’s equity securities, and lenders with respect to other borrowings by us and the Operating Partnership, will be entitled to receive distributions of our available assets prior to the holders of our common stock and it is possible that, after making distributions on these other securities and borrowings, no assets would be available for distribution to holders of our common stock. In addition, the Operating Partnership’s debt and equity securities and borrowings are structurally senior to our common stock, our debt securities and borrowings are senior in right of payment to our common stock, and our outstanding preferred stock has and any preferred stock we may issue in the future may have a preference over our common stock, and all payments (including dividends, principal and interest) and liquidating distributions on such securities and borrowings could limit our ability to pay dividends or make other distributions to the holders of our common stock. Because any decision to issue securities and make borrowings in the future will depend on market conditions and other factors, some of which may be beyond our control, we cannot predict or estimate the amount, timing or nature of our or the Operating Partnership’s future offerings or borrowings. Such future offerings or borrowings may reduce the market price of our common stock.

Sales of a substantial number of shares of the Company’s securities, or the perception that this could occur, could result in decreasing the quoted trading price per share of the Company’s common stock and of the Operating Partnership’s publicly-traded notes. Management cannot predict whether future issuances of shares of the Company’s common stock or the availability of shares for resale in the open market will result in decreasing the market price per share of the Company’s common stock. As of December 31, 2013, 82,153,944 shares of the Company’s common stock and 8,000,000 shares of the Company’s preferred stock, consisting of 4,000,000 shares of Series G Preferred Stock and 4,000,000 shares of Series H Preferred Stock, were issued and outstanding.

As of December 31, 2013, the Company had reserved for future issuance the following shares of common stock: 1,805,200 shares issuable upon the exchange, at the Company's option, of the Operating Partnership's common units; 7,414 shares remained available for grant under our 2006 Incentive Award Plan (see Note 12 "Shared-Based Compensation" to our consolidated financial statements included in this report); 1,158,407 shares issuable upon settlement of nonvested restricted stock units ("RSUs"); 143,022 shares contingently issuable upon settlement of RSUs subject to performance conditions; and 1,525,000 shares issuable upon exercise of outstanding options, as well as 5,640,939 shares potentially issuable under certain circumstances, in exchange for the 4.25% Exchangeable Notes. The Company has a currently effective registration statement registering 1,821,503 shares of our common stock for possible issuance to the holders of the Operating Partnership's common units. That registration statement also registers 141,634 shares of common stock held by certain stockholders for possible resale. The Company also has a currently

effective registration statement registering the 5,640,939 shares of our common stock that may potentially be issued in exchange for the Operating Partnership's presently outstanding 4.25% Exchangeable Notes. Consequently, if and when the shares are issued, they may be freely traded in the public markets.

Risks Related to Taxes and the Company's Status as a REIT

Loss of the Company's REIT status would have significant adverse consequences to us and the value of the Company's common stock. The Company currently operates in a manner that is intended to allow it to qualify as a REIT for federal income tax purposes under the Code. If the Company were to lose its REIT status, the Company would face adverse tax consequences that would substantially reduce the funds available for distribution to its stockholders for each of the years involved because:

- the Company would not be allowed a deduction for dividends paid to its stockholders in computing the Company's taxable income and would be subject to federal income tax at regular corporate rates;

- the Company could be subject to the federal alternative minimum tax and possibly increased state and local taxes; and

- unless entitled to relief under statutory provisions, the Company could not elect to be taxed as a REIT for four taxable years following the year during which the Company was disqualified.

In addition, if the Company failed to qualify as a REIT, it would not be required to make distributions to its stockholders. As a result of all these factors, the Company's failure to qualify as a REIT also could impair our ability to expand our business and raise capital and could adversely affect the value and quoted trading price of the Company's common stock.

Qualification as a REIT involves the application of highly technical and complex Code provisions for which there are only limited judicial and administrative interpretations. The complexity of these provisions and of the applicable Treasury regulations that have been promulgated under the Code is greater in the case of a REIT that, like the Company, holds its assets through a partnership. The determination of various factual matters and circumstances not entirely within our control may affect the Company's ability to continue to qualify as a REIT. For example, to qualify as a REIT, at least 95% of the Company's gross income in any year must be derived from qualifying sources. Also, the Company must make distributions to its stockholders aggregating annually at least 90% of the Company's net taxable income (excluding any net capital gains). In addition, legislation, new regulations, administrative interpretations, or court decisions may adversely affect the Company's security holders or the Company's ability to qualify as a REIT for federal income tax purposes or the desirability of an investment in a REIT relative to other investments. Although management believes that we are organized and operate in a manner to permit the Company to continue to qualify as a REIT, we cannot provide assurances that the Company has qualified or will continue to qualify as a REIT for tax purposes. We have not requested and do not plan to request a ruling from the Internal Revenue Service ("IRS") regarding the Company's qualification as a REIT.

To maintain the Company's REIT status, we may be forced to borrow funds during unfavorable market conditions. To qualify as a REIT, the Company generally must distribute to its stockholders at least 90% of the Company's net taxable income each year (excluding any net capital gains), and the Company will be subject to regular corporate income taxes to the extent that it distributes less than 100% of its net taxable income each year. In addition, the Company will be subject to a 4% nondeductible excise tax on the amount, if any, by which distributions it pays in any calendar year are less than the sum of 85% of its ordinary income, 95% of its net capital gains, and 100% of its undistributed income from prior years. To maintain the Company's REIT status and avoid the payment of federal income and excise taxes, the Operating Partnership may need to borrow funds and distribute or loan the proceeds to the Company so it can meet the REIT distribution requirements even if the then-prevailing market conditions are not favorable for these

borrowings. These borrowing needs could result from differences in timing between the actual receipt of income and inclusion of income for federal income tax purposes, or the effect of nondeductible capital expenditures, the creation of reserves, or required debt or amortization payments.

If a transaction intended to qualify as a Section 1031 Exchange is later determined to be taxable, we may face adverse consequences, and if the laws applicable to such transactions are amended or repealed, we may not be able to dispose of properties on a tax deferred basis. From time to time we dispose of properties in transactions that are intended to qualify as Section 1031 Exchanges. It is possible that the qualification of a transaction as a Section 1031 Exchange could be successfully challenged and determined to be currently taxable. In such case, our taxable income and earnings and profits would increase. This could increase the dividend income to our stockholders by reducing any return of capital they received. In some circumstances, we may be required to pay additional dividends or, in lieu of that, corporate income tax, possibly including interest and penalties. As a result, we may be required to borrow funds in order to pay additional dividends or taxes, and the payment of such taxes could cause us to have less cash available to distribute to our stockholders. In addition, if a Section 1031 Exchange were later to be determined to be taxable, we may be required to amend our tax returns for the applicable year in question, including any information reports we sent our stockholders. Moreover, it is possible that legislation could be enacted that could modify or repeal the laws with respect to Section 1031 Exchanges, which could make it more difficult or not possible for us to dispose of properties on a tax deferred basis.

Dividends payable by REITs, including us, generally do not qualify for the reduced tax rates available for some dividends. "Qualified dividends" payable to U.S. stockholders that are individuals, trusts and estates generally are subject to tax at preferential rates. Subject to limited exceptions, dividends payable by REITs are not eligible for these reduced rates and are taxable at ordinary income tax rates. The more favorable rates applicable to regular corporate qualified dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the shares of REITs, including the shares of our capital stock.

The tax imposed on REITs engaging in "prohibited transactions" may limit our ability to engage in transactions which would be treated as sales for federal income tax purposes. A REIT's net income from prohibited transactions is subject to a 100% penalty tax. In general, prohibited transactions are sales or other dispositions of property, other than foreclosure property, held primarily for sale to customers in the ordinary course of business. Although we do not intend to hold any properties that would be characterized as held for sale to customers in the ordinary course of our business, unless a sale or disposition qualifies under certain statutory safe harbors, such characterization is a factual determination and no guarantee can be given that the IRS would agree with our characterization of our properties or that we will always be able to make use of the available safe harbors.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities or liquidate otherwise attractive investments. To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our capital stock. If we fail to comply with one or more of the asset tests at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. In order to meet these tests, we may be required to forego investments we might otherwise make or to liquidate otherwise attractive investments. Thus, compliance with the REIT requirements may hinder our performance and reduce amounts available for distribution to our stockholders.

Legislative or regulatory action could adversely affect us. In recent years, numerous legislative, judicial and administrative changes have been made to the federal income tax laws applicable to investments in REITs and similar entities. Additional changes to tax laws are likely to continue to occur in the future, and any such changes may adversely impact our ability to qualify as a REIT, our tax treatment as a REIT, our ability to comply with contractual obligations or the tax treatment of our stockholders and limited partners.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

26

ITEM 2. PROPERTIES

General

Our stabilized portfolio of operating properties was comprised of the following office properties at December 31, 2013:

	Number of Buildings	Rentable Square Feet	Number of Tenants	Percentage Occupied	
Stabilized Office Properties ⁽¹⁾	105	12,736,099	514	93.4	%

Excludes 12 properties located in San Diego, California that were held for sale at December 31, 2013 (see Note 17 “Discontinued Operations” to our consolidated financial statements included in this report). The sale of these properties closed on January 9, 2014 (see Note 23 “Subsequent Events” to our consolidated financial statements included in this report for further details).

Our stabilized portfolio includes all of our properties with the exception of properties held for sale, undeveloped land, development and redevelopment properties currently under construction or committed for construction, and “lease-up” properties. We define redevelopment properties as those properties for which we expect to spend significant development and construction costs on the existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. We define “lease-up” properties as properties we recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. During the fourth quarter of 2013, we completed one development property in San Francisco, California and stabilized a redevelopment property in Long Beach, California. As a result, these properties are included in our stabilized portfolio as of December 31, 2013.

As of December 31, 2013, the following properties were excluded from our stabilized portfolio:

	Number of Properties	Estimated Rentable Square Feet
Properties Held for Sale ⁽¹⁾	12	1,049,035
Development properties under construction ⁽²⁾	6	2,538,000
Lease-up properties	1	410,000

⁽¹⁾ Includes 12 properties located in San Diego, California. The sale of these properties closed on January 9, 2014 (see Note 23 “Subsequent Events” to our consolidated financial statements included in this report for further details).

⁽²⁾ Estimated rentable square feet upon completion.

As of December 31, 2013, all of our properties and development and redevelopment projects and all of our business is currently conducted in the state of California with the exception of twelve office properties located in the state of Washington. All of our properties and development and redevelopment projects are 100% owned, excluding a development project owned by Redwood City Partners, LLC, a consolidated subsidiary created on June 27, 2013 (see Note 3 “Acquisitions” to our consolidated financial statements for additional information) and certain properties held in Section 1031 Exchanges, which have been consolidated for financial reporting purposes (see Note 2 “Basis of Presentation and Significant Accounting Policies” to our consolidated financial statements included in this report).

We own all of our properties through the Operating Partnership and the Finance Partnership. All our properties are held in fee, except for the eleven office buildings that are held subject to long-term ground leases for the land (see Note 15 “Commitments and Contingencies” to our consolidated financial statements included in this report for

additional information regarding our ground lease obligations).

In general, the office properties are leased to tenants on a full service gross, modified gross or triple net basis. Under a full service gross lease, we are obligated to pay the tenant's proportionate share of real estate taxes, insurance, and operating expenses up to the amount incurred during the tenant's first year of occupancy ("Base Year") or a negotiated amount approximating the tenant's pro-rata share of real estate taxes, insurance, and operating expenses ("Expense Stop"). The tenant pays its pro-rata share of increases in expenses above the Base Year or Expense Stop. A modified gross lease is similar to a full service gross lease, except tenants are obligated to pay their proportionate share of certain operating expenses, usually electricity, directly to the service provider. In addition, some office properties, primarily in the greater Seattle region, are leased to tenants on a triple net basis, pursuant to which the tenants pay their proportionate share of real estate taxes, operating costs, and utility costs.

Edgar Filing: KILROY REALTY CORP - Form 10-K/A

We believe that all of our properties are well maintained and do not require significant capital improvements. As of December 31, 2013, we managed all of our properties through internal property managers.

Office Properties

The following table sets forth certain information relating to each of the stabilized office properties owned as of December 31, 2013.

(1) Based on all leases at the respective properties in effect as of December 31, 2013. Includes month-to-month leases as of December 31, 2013.

Annualized base rental revenue includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded

(2) tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue. Excludes month-to-month leases and vacant space as of December 31, 2013.

(3) For these properties, the leases are written on a triple net basis.

(4) For these properties, the leases are written on a modified gross basis.

(5) For these properties, the leases are written on a modified net basis.

(6) For these properties, the leases are written on a gross basis.

(7) For this property, leases of approximately 16,000 square feet are written on a full service gross basis and approximately 107,000 square feet is written on a triple net basis.

(8) For this property, leases of approximately 41,000 rentable square feet are written on a full service gross basis, and approximately 105,000 rentable square feet is written on a gross basis.

(9) As of December 31, 2013, we have executed but not yet commenced one lease for approximately 48,000 square feet on a triple net basis.

(10) For this property, leases of approximately 82,000 rentable square feet are written on a modified gross basis, and approximately 22,000 rentable square feet is written on a gross basis.

(11) As of December 31, 2013, we have executed but not yet commenced one lease for approximately 131,000 square feet on a modified net basis.

(12) For this property, leases of approximately 123,000 rentable square feet are written on a modified net basis, and approximately 46,000 rentable square feet is written on a modified gross basis.

(13) For this property, leases of approximately 19,000 rentable square feet are written on a modified net basis, and approximately 22,000 rentable square feet is written on a modified gross basis.

(14) For this property, leases of approximately 402,000 rentable square feet are written on a triple net basis, and approximately 78,000 rentable square feet is written on a full service gross basis.

Completed and In-Process Redevelopment Projects

During the year ended December 31, 2013, we completed the following redevelopment project, which was added to our stabilized portfolio:

Completed Redevelopment Project	Construction Period		Stabilization Date ⁽¹⁾	Rentable Square Feet	% Leased	
	Start Date	Completion Date				
3880 Kilroy Airport Way Long Beach, California	3Q 2011	4Q 2012	4Q 2013	98,243	100	%

As of December 31, 2013, we had the following redevelopment project in lease up.

In-Process Redevelopment Project	Estimated Construction Period		Estimated Stabilization Date ⁽¹⁾	Estimated Rentable Square Feet	% Leased	
	Start Date	Completion Date				
Project In Lease-Up ⁽²⁾ 360 Third Street San Francisco, California ⁽³⁾⁽⁴⁾	4Q 2011	1Q 2013	1Q 2014	410,000	96	%

⁽¹⁾ Based on management's estimation of the earlier of stabilized occupancy of 95% or one year from the date of substantial completion.

⁽²⁾ Lease-up properties represent properties recently redeveloped that have not reached 95% occupancy and are within one year following cessation of major construction activities.

⁽³⁾ As of March 31, 2013, the building improvements were substantially complete. As of December 31, 2013, the building occupancy was 78%.

⁽⁴⁾ During the fourth quarter of 2013, the Company acquired the land underlying the ground lease for \$27.5 million.

Completed and In-Process and Future Development Pipeline and Other Land Holdings

During the year ended December 31, 2013, we completed the following development project, which was added to our stabilized portfolio of operating properties:

Completed Development Project	Construction Period		Rentable Square Feet	% Leased	
	Start Date	Completion / Stabilization Date			
331 Fairchild Drive San Francisco, California	4Q 2012	4Q 2013	87,565	100	%

The following table sets forth certain information relating to our in-process development pipeline as of December 31, 2013.

In-Process Development Projects	Estimated Construction Period	Estimated Stabilization Date	Estimated Rentable Square Feet	Office % Leased
	Start Date	Date	Square Feet	

	Completion Date			Feet	
UNDER CONSTRUCTION:

SUBTOTAL:				2,538,000	62%

⁽¹⁾ In January 2014, the Company obtained full entitlements to increase this project from a 27-story office tower to a 30-story office tower.

⁽²⁾ In January 2014, we signed a 182,000 square foot, twelve-year lease with Dropbox for the entirety of this project.

⁽³⁾ In October 2013, the Company acquired a 2.0 acre undeveloped land parcel for \$17.0 million, completing the final phase of the land assemblage for this project.

In the second quarter of 2013, the Company commenced redevelopment of the historical buildings encompassing approximately 100,000 rentable square feet. In the fourth quarter of 2013, the Company commenced development of the second phase of its 675,000 square foot mixed-use project, which encompasses office, multi-family and retail components.

The following table sets forth certain information relating to our future development pipeline as of December 31, 2013.

Location	Estimated Rentable Square Feet
FUTURE DEVELOPMENT PIPELINE:	
Los Angeles, California	
Academy Project, Hollywood ⁽¹⁾	475,000
San Diego, California	
9455 Towne Centre Drive, San Diego ⁽²⁾	150,000
Carlsbad Oaks – Lots 4, 5, 7 & 8, Carlsbad	288,000
The Heights at Del Mar, Del Mar	75,000 – 90,000
One Paseo, Del Mar ⁽³⁾	500,000
Pacific Corporate Center – Lot 8, Sorrento Mesa	170,000
Rancho Bernardo Corporate Center, I-15 Corridor	320,000 – 1,000,000
Santa Fe Summit – Phase II and III, 56 Corridor	600,000
Sorrento Gateway – Lot 2, Sorrento Mesa	80,000
SUBTOTAL:	2,658,000 – 3,353,000

⁽¹⁾ The Company acquired the property during the fourth quarter of 2013 and added to the Company's future development pipeline upon acquisition. The Company is planning to demolish the existing structures and is currently pursuing mixed-use entitlements for this project.

⁽²⁾ The Company is planning to demolish the existing two-story 45,195 rentable square foot office building and is currently pursuing entitlements to build a new five-story 150,000 rentable square foot building.

⁽³⁾ Estimated rentable square feet reflects existing office entitlements. The Company is currently pursuing mixed-use entitlements for this project, which would increase the estimated rentable square feet.

The following table sets forth certain information about our other land holdings as of December 31, 2013.

Other Land Holdings	Gross Site	Estimated Rentable	Total Costs as
Project	Acreage	Square Feet	of 12/31/2013 ⁽¹⁾
17150 Von Karman, Irvine, California	8.5	N/A	\$8.2

⁽¹⁾ Represents cash paid and costs incurred as of December 31, 2013. Includes existing investment at the commencement of redevelopment.

During the fourth quarter of 2011, the Company completed demolition of the industrial building at 17150 Von Karman. Simultaneously, the Company successfully obtained entitlements to reposition this site for residential use in preparation of a possible land sale. The Company's ultimate decision to sell this site and the timing of any potential future sale is dependent upon market conditions and other factors.

Significant Tenants

The following table sets forth information about our 15 largest tenants based upon annualized base rental revenues, as defined below, as of December 31, 2013.

Tenant Name	Annualized Base Rental Revenue ⁽¹⁾ (in thousands)	Percentage of Total Annualized Base Rental Revenue ⁽¹⁾	Lease Expiration Date
DIRECTV, LLC	\$ 23,760	6.1%	September 2027
Bridgepoint Education, Inc.	15,066	3.8%	Various ⁽⁴⁾
Intuit, Inc.	13,489	3.4%	August 2017
Delta Dental of California	10,798	2.8%	May 2018
AMN Healthcare, Inc.	8,341	2.1%	July 2018
Scan Group ⁽²⁾⁽³⁾	7,100	1.8%	Various ⁽⁵⁾
Group Health Cooperative	6,372	1.6%	September 2017
Neurocrine Biosciences, Inc.	6,366	1.6%	December 2019
Microsoft Corporation	6,256	1.6%	Various ⁽⁶⁾
Fish & Richardson P.C.	6,071	1.6%	October 2018
Splunk, Inc.	5,413	1.4%	February 2019
Wells Fargo ⁽²⁾	5,300	1.3%	Various ⁽⁷⁾
Scripps Health	5,199	1.3%	June 2021
BP Biofuels	5,158	1.3%	Various ⁽⁸⁾
Lucile Salter Packard Children's Hospital at Stanford	5,111	1.3%	September 2020
Total	\$ 129,800	33.0%	

Annualized base rental revenue includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded (1)tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue. Excludes month-to-month leases and vacant space as of December 31, 2013.

(2)The Company has entered into leases with various affiliates of the tenant.

In December 2013, Scan Group renewed and expanded their lease at Kilroy Airport Center in Long Beach, CA. As of December 31, 2013 revenue recognition had not commenced for the expansion premises. The annualized base (3)rental revenue and rentable square feet presented in this table include the projected annualized base rental revenue of approximately \$1.7 million and rentable square feet of approximately 50,000 for the expansion premises.

(4) The Bridgepoint Education Inc. leases, which contribute \$1.0 million, \$6.3 million and \$7.8 million, expire in February 2017, July 2018 and September 2018, respectively.

(5) The Scan Group leases, which contribute \$0.5 million and \$6.6 million, expire in June 2015 and April 2026, respectively.

(6) The Microsoft Corporation leases, which contribute \$3.1 million and \$3.1 million, expire in December 2014 and February 2019, respectively.

The Wells Fargo leases, which contribute \$0.3 million, \$0.2 million, \$0.4 million, \$0.07 million, \$2.0 million, (7)\$0.05 million, \$0.08 million, and \$2.2 million expire in August 2015, June 2016, July 2016, January 2017, September 2017, February 2018, February 2019, and November 2019, respectively.

(8) The BP Biofuel leases, which contribute \$2.9 million and \$2.3 million, expire in November 2015 and March 2017, respectively.

The following pie chart sets forth the composition of our tenant base by industry and as a percentage of our annualized base rental revenue based on the Standard Industrial Classifications as of December 31, 2013.

Lease Expirations

The following table sets forth a summary of our lease expirations for each of the next ten years beginning with 2014, assuming that none of the tenants exercise renewal options or termination rights. See further discussion of our lease expirations under “Item 1A. Risk Factors.”

Lease Expirations ⁽¹⁾

Year of Lease Expiration	# of Expiring Leases	Total Square Feet	% of Total Leased Square Feet	Annualized Base Rent (000's) ⁽²⁾	% of Total Annualized Base Rent ⁽²⁾	Annualized Rent per Square Foot ⁽²⁾
2014	105	1,153,089	9.9	% \$ 31,236	7.9	% \$27.09
2015	107	1,539,015	13.3	% 44,479	11.3	% 28.90
2016	83	870,819	7.5	% 23,318	5.9	% 26.78
2017	92	1,735,945	15.0	% 56,731	14.4	% 32.68
2018	54	1,545,020	13.3	% 63,276	16.1	% 40.95
2019	46	1,165,713	10.0	% 44,072	11.2	% 37.81
2020	36	1,409,407	12.1	% 47,157	12.0	% 33.46
2021	13	349,823	3.0	% 15,951	4.1	% 45.60
2022	11	185,994	1.6	% 7,076	1.8	% 38.04
2023	11	399,496	3.5	% 15,920	4.0	% 39.85
2024 and beyond	16	1,258,027	10.8	% 44,434	11.3	% 35.32
Total ⁽³⁾	574	11,612,348	100.0	% \$ 393,650	100.0	% \$33.90

(1) Excludes lease expirations for properties held for sale at December 31, 2013.

Annualized base rent includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue. Additionally, the underlying leases contain various expense structures including full service gross, modified gross and triple net. Amounts represent percentage of total portfolio annualized contractual base rental revenue.

The information presented for all lease expiration activity reflects leasing activity through December 31, 2013 for our stabilized portfolio. For leases that have been renewed early or space that has been re-leased to a new tenant, (3) the expiration date and annualized base rent information presented takes into consideration the renewed or re-leased lease terms. Excludes space leased under month-to-month leases, vacant space, and lease renewal options not executed as of December 31, 2013.

Secured Debt

As of December 31, 2013, the Operating Partnership had nine outstanding mortgage notes payable, which were secured by certain of our properties. Our secured debt represents an aggregate indebtedness of approximately \$545.9 million. See additional information regarding our secured debt in “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources —Liquidity Sources,” Notes 6 and 7 to our consolidated financial statements, and Schedule III —Real Estate and Accumulated Depreciation included with this report. Management believes that, as of December 31, 2013, the value of the properties securing the applicable secured obligations in each case exceeded the principal amount of the outstanding obligation.

ITEM 3. LEGAL PROCEEDINGS

We and our properties are subject to routine litigation incidental to our business. As of December 31, 2013, we are not a defendant in, and our properties are not subject to, any legal proceedings that we believe, if determined adversely to us, would have a material adverse effect upon our financial condition, results of operations, or cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

None.

36

PART II

ITEM 5. MARKET FOR KILROY REALTY CORPORATION'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Company's common stock is traded on the New York Stock Exchange ("NYSE") under the symbol "KRC." As of the date this report was filed, there were approximately 56 registered holders of the Company's common stock. The following table illustrates the high, low, and closing prices by quarter, as well as dividends declared, during 2013 and 2012 as reported on the NYSE.

	High	Low	Close	Per Share Common Stock Dividends Declared
2013				
First quarter	\$53.99	\$47.86	\$52.40	\$0.3500
Second quarter	59.58	50.11	53.01	0.3500
Third quarter	55.80	47.73	49.95	0.3500
Fourth quarter	54.04	48.89	50.18	0.3500
				Per Share Common Stock Dividends Declared
2012				
First quarter	\$46.61	\$37.92	\$46.61	\$0.3500
Second quarter	48.58	44.84	48.41	0.3500
Third quarter	49.88	44.78	44.78	0.3500
Fourth quarter	47.52	42.47	47.37	0.3500

The Company pays distributions to common stockholders quarterly each January, April, July and October, at the discretion of the board of directors. Distribution amounts depend on our FFO, financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code, and such other factors as the board of directors deems relevant.

MARKET FOR KILROY REALTY, L.P.'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

There is no established public trading market for the Operating Partnership's common units. As of the date this report was filed, there were 22 holders of record of common units (including through the Company's general partnership interest).

The following table reports the distributions per common unit declared during the years ended December 31, 2013 and 2012.

2013	Per Unit Common Unit Distribution Declared
First quarter	\$0.3500
Second quarter	0.3500
Third quarter	0.3500
Fourth quarter	0.3500
2012	Per Unit Common Unit Distribution

	Declared
First quarter	\$0.3500
Second quarter	0.3500
Third quarter	0.3500
Fourth quarter	0.3500

During 2013 and 2012, the Operating Partnership redeemed 16,303 and 10,000 common units, respectively, for the same number of shares of the Company's common stock.

PERFORMANCE GRAPH

The following line graph compares the change in cumulative stockholder return on shares of the Company's common stock to the cumulative total return of the NAREIT All Equity REIT Index, the Standard & Poor's 500 Stock Index, and the SNL REIT Office Index for the five-year period ended December 31, 2013. We include an additional index, the SNL REIT Office Index, to the performance graph since management believes it provides additional information to investors about our performance relative to a more specific peer group. The SNL REIT Office Index is a published and widely recognized index that comprises 21 office equity REITs, including us. The graph assumes the investment of \$100 in us and each of the indices on December 31, 2008 and, as required by the SEC, the reinvestment of all distributions. The return shown on the graph is not necessarily indicative of future performance.

ITEM 6. SELECTED FINANCIAL DATA – KILROY REALTY CORPORATION

The following tables set forth selected consolidated financial and operating data on an historical basis for the Company. The following data should be read in conjunction with our financial statements and notes thereto and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” included below in this report.

The consolidated balance sheet data as of December 31, 2013 and 2012 and the consolidated statement of operations data for the years ended December 31, 2013, 2012 and 2011 have been derived from the historical consolidated financial statements of Kilroy Realty Corporation audited by Deloitte & Touche LLP, an independent registered public accounting firm. The consolidated balance sheet data as of December 31, 2011, 2010 and 2009 and the consolidated statement of operations data for the years ended December 31, 2010 and 2009 have been derived from the historical consolidated financial statements of Kilroy Realty Corporation and adjusted to present the income from operating properties that were sold during the year ended December 31, 2013 or classified as held for sale at December 31, 2013, as income from discontinued operations and for the impact of subsequent accounting changes requiring retrospective application, if any.

Occupancy	93.4 %	92.8 %	90.1 %	87.5 %	80.6 %

(1) Represents the redemption value, less issuance costs of our 1,500,000 7.45% Series A Cumulative Preferred Units (“Series A Preferred Units”). The Series A Preferred Units were redeemed in 2012.

Includes the noncontrolling interest of the common units of the Operating Partnership and Redwood City Partners, LLC (a consolidated subsidiary created on June 27, 2013, see Note 3 “Acquisitions” to our consolidated financial statements included in this report for additional information).

We calculate FFO in accordance with the White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales of depreciable real estate and impairment write-downs associated with depreciable real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), and after adjustment for unconsolidated partnerships and joint ventures. Our calculation of FFO includes the amortization of deferred revenue related to tenant-funded tenant improvements and excludes the depreciation of the related tenant improvement assets.

We believe that FFO is a useful supplemental measure of our operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of our activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, our FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, we believe that FFO along with the required GAAP presentations provides a more complete measurement of our performance relative to our competitors and a more appropriate basis on which to make decisions involving operating, financing, and investing activities than the required GAAP presentations alone would

provide.

However, FFO should not be viewed as an alternative measure of our operating performance because it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs and could materially impact our results from operations.

Noncash adjustments to arrive at FFO were as follows: noncontrolling interest in earnings of the Operating Partnership, depreciation and amortization of real estate assets, and net gain (loss) from dispositions of operating properties. For additional information, see “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Non-GAAP Supplemental Financial Measure: Funds From Operations” including a reconciliation of the Company’s GAAP net income available for common stockholders to FFO for the periods presented.

FFO includes amortization of deferred revenue related to tenant-funded tenant improvements of \$10.7 million, \$9.1 (4) million, \$9.3 million, \$9.7 million and \$9.8 million for the years ended December 31, 2013, 2012, 2011, 2010 and 2009, respectively.

(5) Occupancy percentages and total square feet reported are based on the company’s stabilized office portfolio for the periods presented.

SELECTED FINANCIAL DATA – KILROY REALTY, L.P.

The following tables set forth selected consolidated financial and operating data on an historical basis for the Operating Partnership. The following data should be read in conjunction with our financial statements and notes thereto and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” included below in this report.

The consolidated balance sheet data as of December 31, 2013 and 2012 and the consolidated statement of operations data for the years ended December 31, 2013, 2012 and 2011 have been derived from the historical consolidated financial statements of Kilroy Realty, L.P. audited by Deloitte & Touche LLP, an independent registered public accounting firm. The consolidated balance sheet data as of December 31, 2011, 2010 and 2009 and the consolidated statement of operations data for the years ended December 31, 2010 and 2009 have been derived from the historical consolidated financial statements of Kilroy Realty, L.P. and adjusted to present the income from operating properties that were sold during the year ended December 31, 2013 or classified as held for sale at December 31, 2013, as income from discontinued operations, and for the impact of subsequent accounting changes requiring retrospective application, if any.

(1) Represents the redemption value, less issuance costs of the Operating Partnership's issued and outstanding 1,500,000 Series A Preferred Units. All Series A Preferred Units were redeemed in 2012.

(2) Includes the noncontrolling interests in consolidated subsidiaries and Redwood City Partners, LLC (a consolidated subsidiary created on June 27, 2013, see Note 3 "Acquisitions" to our consolidated financial statements included in this report for additional information).

(3) Occupancy percentages and total square feet reported are based on the company's stabilized office portfolio for the periods presented.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion relates to our consolidated financial statements and should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. The results of operations discussion is combined for the Company and the Operating Partnership because there are no material differences in the results of operations between the two reporting entities.

Forward-Looking Statements

Statements contained in this "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" that are not historical facts may be forward-looking statements, including statements or information concerning projected future occupancy and rental rates, lease expirations, debt maturity, potential investments, strategies such as capital recycling, development and redevelopment activity, projected construction costs, dispositions, future executive incentive compensation, pending, potential or proposed acquisitions and other forward-looking financial data, as well as the discussion in "—Factors That May Influence Future Results of Operations", "—Liquidity and Capital Resource of the Company", and "—Liquidity and Capital Resources of the Operating Partnership." Forward-looking statements can be identified by the use of words such as "believes," "expects," "projects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" and the negative of these words and phrases and similar expressions that do not relate to historical matters. Forward-looking statements are based on our current expectations, beliefs and assumptions, and are not guarantees of future performance. Forward-looking statements are inherently subject to uncertainties, risks, changes in circumstances, trends and factors that are difficult to predict, many of which are outside of our control. Accordingly, actual performance, results and events may vary materially from those indicated in the forward-looking statements, and you should not rely on the forward-looking statements as predictions of future performance, results or outcomes. Numerous factors could cause actual future events to differ materially from those indicated in forward-looking statements, including, among others:

• global market and general economic conditions and their effect on our liquidity and financial conditions and those of our tenants;

• adverse economic or real estate conditions in California and Washington including with respect to California's continuing budget deficits;

• risks associated with our investment in real estate assets, which are illiquid, and with trends in the real estate industry;

• defaults on or non-renewal of leases by tenants;

• any significant downturn in tenants' businesses;

• our ability to re-lease property at or above current market rates;

• costs to comply with government regulations, including environmental remediations;

• the availability of cash for distribution and debt service and exposure of risk of default under debt obligations;

• significant competition, which may decrease the occupancy and rental rates of properties;

• potential losses that may not be covered by insurance;

the ability to successfully complete acquisitions and dispositions on announced terms;

the ability to successfully operate acquired properties;

the ability to successfully complete development and redevelopment properties on schedule and within budgeted amounts;

- defaults on leases for land on which some of our properties are located;
- adverse changes to, or implementations of, applicable laws, regulations or legislation;
- environmental uncertainties and risks related to natural disasters; and
- the Company's ability to maintain its status as a REIT.

The factors included in this report are not exhaustive and additional factors could adversely affect our business and financial performance. For a discussion of additional risk factors, see the factors included in this report under the caption "Item 1A. Risk Factors," and in our other filings with the SEC. All forward-looking statements are based on currently available information and speak only as of the date of this report. We assume no obligation to update any forward-looking statement that becomes untrue because of subsequent events, new information or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under federal securities laws.

Company Overview

We are a self-administered REIT active in premier office submarkets along the West Coast. We own, develop, acquire and manage real estate assets, consisting primarily of Class A properties in the coastal regions of Los Angeles, Orange County, San Diego County, the San Francisco Bay Area and greater Seattle, which we believe have strategic advantages and strong barriers to entry. We own our interests in all of our real estate assets through the Operating Partnership and the Finance Partnership. We conduct substantially all of our operations through the Operating Partnership. We owned a 97.8% and 97.6% general partnership interest in the Operating Partnership as of December 31, 2013 and 2012, respectively. All our properties are held in fee except for the eleven office buildings which are held subject to long-term ground leases for the land (See Note 15 "Commitments and Contingencies" to our consolidated financial statements included in this report for additional information regarding our ground lease obligations).

2013 Highlights

We made significant progress on several fronts during 2013, and are well-positioned for continued long-term growth through our strong leasing performance, well timed acquisitions, development and redevelopment efforts, ongoing capital recycling program and successful financing activities.

Leasing. During 2013, we executed new and renewal office leases on 2.2 million square feet, marking the sixth consecutive year that KRC has achieved full-year leasing of two million square feet. As a result of our consistent and successful leasing efforts, occupancy in our stabilized office portfolio increased to 93.4% as of December 31, 2013, up from 92.8% as of December 31, 2012.

Operating Property Acquisitions. We remain a disciplined buyer of office properties and continue to focus on value-add opportunities in West Coast markets populated by knowledge and creative based tenants in a variety of industries, including technology, media, healthcare, entertainment and professional services. During 2013, we acquired two office buildings in greater Seattle and two office buildings and an undeveloped land parcel in the Del Mar submarket of San Diego County encompassing approximately 540,000 rentable square feet for a total purchase price of approximately \$296.4 million (see Note 3 "Acquisitions" to our consolidated financial statements included in this report for more information).

Development. During 2013, we continued our focus on value-add and highly accretive development opportunities and expanded our future development pipeline through targeted acquisitions of development opportunities on the West

Coast. In 2013, we acquired two land sites in Redwood City, California and formed a new consolidated subsidiary, Redwood City Partners, LLC (see Note 3 “Acquisitions” to our consolidated financial statements included in this report for more information) and in the fourth quarter we commenced construction of an approximately 300,000 square foot office space (the “Crossing/900” project) at these sites.

Additionally, in December 2013, we acquired the Academy Project, a Los Angeles development opportunity, located in the Hollywood submarket, and added it to our future development pipeline. Following an anticipated 18 to 24 month entitlement process, we plan to develop a mixed-use, media-oriented campus that will include approximately 475,000 square feet of low- and mid-rise office space, apartments and retail space.

During 2013, we completed one development project, 331 Fairchild Drive in the San Francisco Bay Area with a total investment of approximately \$44.7 million and added this property to our stabilized portfolio.

As of December 31, 2013, the Company had six development projects under construction, four of which are 100% preleased. These six projects aggregate approximately 2.5 million square feet of space, and the company estimates its total investment in these projects will be approximately \$1.5 billion. The total estimated investment includes lease commissions and excludes tenant improvement overages. Scheduled completion dates range from 2014 to 2016. See “—Factors that May Influence Future Operations – In-Process and Future Development Pipeline” for additional information.

Redevelopment. During 2013, we moved one redevelopment project, 3880 Kilroy Airport Way in the Long Beach submarket of Los Angeles from our lease-up portfolio to our stabilized portfolio. This project has a total investment of approximately \$19.7 million and was 100% leased at stabilization. See “—Factors that May Influence Future Operations – Redevelopment” for additional information.

Capital Recycling Program. We have continued to utilize our capital recycling program to provide additional capital to fund potential acquisitions, to finance development and redevelopment expenditures, to potentially repay long-term debt and for other general corporate purposes. Our general strategy is to target the disposition of mature properties or those that have limited upside for us and redeploy some or all of the capital into acquisitions where we can add additional value to generate higher returns (see “—Factors that May Influence Future Operations” for additional information).

In connection with this strategy, during 2013, we completed the sale of three office buildings to unaffiliated third parties in three separate transactions. Gross sales proceeds totaled approximately \$56.9 million of which \$32.2 million was held at qualified intermediaries at December 31, 2013 for potential future Section 1031 Exchanges. In February 2014, we successfully completed one of the the Section 1031 Exchanges and the \$32.2 million cash proceeds were released from the qualified intermediary. In addition, as of December 31, 2013, we classified 12 properties located in San Diego, California as properties held for sale and included the results for these properties in discontinued operations in our consolidated financial statements for all periods presented. The sale of these properties closed on January 9, 2014 for total gross sales proceeds of approximately \$294.7 million (see Note 23 “Subsequent Events” to our consolidated financial statements included in this report for additional information).

Financings. In addition to obtaining funding from our capital recycling program, we successfully completed a variety of financing and capital raising activities to fund our continued growth. See “—Liquidity and Capital Resources of the Operating Partnership” for additional information.

Critical Accounting Policies

The preparation of financial statements in conformity with GAAP requires us to make estimates, assumptions, and judgments that affect the reported amounts of assets, liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the reporting periods.

Certain accounting policies are considered to be critical accounting policies. Critical accounting policies are those policies that require our management team to make significant estimates and/or assumptions about matters that are uncertain at the time the estimates and/or assumptions are made or where we are required to make significant judgments and assumptions with respect to the practical application of accounting principles in our business operations. Critical accounting policies are by definition those policies that are material to our financial statements and for which the impact of changes in estimates, assumptions, and judgments could have a material impact to our financial statements.

The following critical accounting policies discussion reflects what we believe are the most significant estimates, assumptions, and judgments used in the preparation of our consolidated financial statements. This discussion of our critical accounting policies is intended to supplement the description of our accounting policies in the footnotes to our consolidated financial statements and to provide additional insight into the information used by management when evaluating significant estimates, assumptions, and judgments. For further discussion of our significant accounting policies, see Note 2 “Basis of Presentation & Significant Accounting Policies” to our consolidated financial statements included in this report.

Rental Revenue Recognition

Rental revenue is our principal source of revenue. The timing of when we commence rental revenue recognition depends largely on our conclusion as to whether we are or the tenant is the owner for accounting purposes of the tenant improvements at the leased property. When we conclude that we are the owner of tenant improvements for accounting purposes, we record the cost to construct the tenant improvements as an asset, and we commence rental revenue recognition when the tenant takes possession of or controls the finished space, which is typically when such tenant improvements are substantially complete.

The determination of whether we are or the tenant is the owner of the tenant improvements for accounting purposes is subject to significant judgment. In making that determination, we consider numerous factors and perform a detailed evaluation of each individual lease. No one factor is determinative in reaching a conclusion. The factors we evaluate include but are not limited to the following:

- whether the lease agreement requires landlord approval of how the tenant improvement allowance is spent prior to installation of the tenant improvements;

- whether the lease agreement requires the tenant to provide evidence to the landlord supporting the cost and what the tenant improvement allowance was spent on prior to payment by the landlord for such tenant improvements;

- whether the tenant improvements are unique to the tenant or reusable by other tenants;

- whether the tenant is permitted to alter or remove the tenant improvements without the consent of the landlord or without compensating the landlord for any lost utility or diminution in fair value; and

- whether the ownership of the tenant improvements remains with the landlord or remains with the tenant at the end of the lease term.

In addition, we also record the cost of certain tenant improvements paid for or reimbursed by tenants when we conclude that we are the owner of such tenant improvements using the factors discussed above. For these tenant-funded tenant improvements, we record the amount funded or reimbursed by tenants as deferred revenue, which is amortized and recognized as rental revenue over the term of the related lease beginning upon substantial completion of the leased premises. During the years ended December 31, 2013, 2012, and 2011, we capitalized \$15.1 million, \$24.0 million, and \$4.3 million, respectively, of tenant-funded tenant improvements. Leases at our development and redevelopment properties generally have higher tenant-funded tenant improvements and we expect the trend to increase as our development and redevelopment activities increase. For those periods, we also recognized \$10.7 million, \$9.1 million, and \$9.3 million, respectively, of noncash rental revenue related to the amortization of deferred revenue recorded in connection with tenant-funded tenant improvements.

When we conclude that we are not the owner and the tenant is the owner of tenant improvements for accounting purposes, we record our contribution towards those improvements as a lease incentive, which is amortized as a reduction to rental revenue on a straight-line basis over the term of the related lease, and rental revenue recognition begins when the tenant takes possession of or controls the space.

Our determination as to whether we are or the tenant is the owner of tenant improvements for accounting purposes is made on a lease-by-lease basis and has a significant impact on the amount of noncash rental revenue that we record related to the amortization of deferred revenue for tenant-funded tenant improvements, and can also have a significant effect on the timing of our overall revenue recognition.

Tenant Reimbursement Revenue

Reimbursements from tenants consist of amounts due from tenants for common area maintenance, real estate taxes, and other recoverable costs, including capital expenditures. Calculating tenant reimbursement revenue requires an in-depth analysis of the complex terms of each underlying lease. Examples of judgments and estimates used when determining the amounts recoverable include:

- estimating the final expenses, net of accruals, that are recoverable;
- estimating the fixed and variable components of operating expenses for each building;
- conforming recoverable expense pools to those used in establishing the base year or base allowance for the applicable underlying lease; and
- concluding whether an expense or capital expenditure is recoverable pursuant to the terms of the underlying lease.

During the year, we accrue estimated tenant reimbursement revenue in the period in which the tenant reimbursable costs are incurred based on our best estimate of the amounts to be recovered. Throughout the year, we perform analyses to properly match tenant reimbursement revenue with reimbursable costs incurred to date. Additionally, during the fourth quarter of each year, we perform preliminary reconciliations and accrue additional tenant reimbursement revenue or refunds. Subsequent to year end, we perform final detailed reconciliations and analyses on a lease-by-lease basis and bill or refund each tenant for any cumulative annual adjustments in the first and second quarters of each year for the previous year's activity. Our historical experience for the years ended December 31, 2013, 2012, and 2011 has been that our final reconciliation and billing process resulted in final amounts that approximated the total annual tenant reimbursement revenues recognized.

Allowances for Uncollectible Current Tenant Receivables and Deferred Rent Receivables

Tenant receivables and deferred rent receivables are carried net of the allowances for uncollectible current tenant receivables and deferred rent receivables. Current tenant receivables consist primarily of amounts due for contractual lease payments and reimbursements of common area maintenance expenses, property taxes, and other costs recoverable from tenants. Deferred rent receivables represent the amount by which the cumulative straight-line rental revenue recorded to date exceeds cash rents billed to date under the lease agreement. As of December 31, 2013 and 2012, current receivables were carried net of an allowance for uncollectible tenant receivables amount of \$2.1 million and \$2.6 million, respectively, for each period and deferred rent receivables were carried net of an allowance for deferred rent of \$2.1 million and \$2.6 million, respectively.

Management's determination of the adequacy of the allowance for uncollectible tenant receivables and the allowance for deferred rent receivables is performed using a methodology that incorporates a specific identification analysis and an aging analysis and includes an overall evaluation of our historical loss trends and the current economic and business environment. This determination requires significant judgment and estimates about matters that are uncertain at the time the estimates are made, including the creditworthiness of specific tenants, specific industry trends and conditions, and general economic trends and conditions. Since these factors are beyond our control, actual results can differ from our estimates, and such differences could be material.

With respect to the allowance for uncollectible tenant receivables, the specific identification methodology analysis relies on factors such as the age and nature of the receivables, the payment history and financial condition of the tenant, our assessment of the tenant's ability to meet its lease obligations, and the status of negotiations of any disputes with the tenant. With respect to the allowance for deferred rent receivables, given the longer-term nature of these

receivables, the specific identification methodology analysis evaluates each of our significant tenants and any tenants on our internal watchlist and relies on factors such as each tenant's financial condition and its ability to meet its lease obligations. We evaluate our reserve levels quarterly based on changes in the financial condition of tenants and our assessment of the tenant's ability to meet its lease obligations, overall economic conditions, and the current business environment.

For the years ended December 31, 2013, 2012, and 2011, we recorded a total provision for bad debts for both current tenant receivables and deferred rent receivables of approximately 0.1%, 0.0%, and 0.2%, respectively, of rental revenue. Our historical experience has been that actual write-offs of current tenant receivables and deferred rent receivables has approximated the provision for bad debts recorded for the years ended December 31, 2013, 2012, and 2011. In the event our estimates were not accurate and we had to change our allowances by 1% of revenue from continuing operations, the potential impact to our net income available to common stockholders would be approximately \$4.7 million, \$3.8 million, and \$3.1 million for the years ended December 31, 2013, 2012, and 2011, respectively.

Acquisitions

We record the acquired tangible and intangible assets and assumed liabilities of acquisitions of all operating properties and those development and redevelopment opportunities that meet the accounting criteria to be accounted for as business combinations at fair value at the acquisition date. We assess and consider fair value based on estimated cash flow projections that utilize available market information and discount and/or capitalization rates that we deem appropriate. Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, and market and economic conditions. The acquired assets and assumed liabilities for an operating property acquisition generally include but are not limited to: land and improvements, buildings and improvements, construction in progress and identified tangible and intangible assets and liabilities associated with in-place leases, including tenant improvements, leasing costs, value of above-market and below-market operating leases and ground leases, acquired in-place lease values and tenant relationships, if any.

The fair value of land is derived from comparable sales of land within the same submarket and/or region. The fair value of buildings and improvements, tenant improvements, and leasing costs are based upon current market replacement costs and other relevant market rate information.

The fair value of the above-market or below-market component of an acquired in-place operating lease is based upon the present value (calculated using a market discount rate) of the difference between (i) the contractual rents to be paid pursuant to the lease over its remaining non-cancellable lease term and (ii) management's estimate of the rents that would be paid using fair market rental rates and rent escalations at the date of acquisition measured over the remaining non-cancellable term of the lease for above-market operating leases and the initial non-cancellable term plus the term of any below-market fixed rate renewal options, if applicable, for below-market operating leases. The amounts recorded for above-market operating leases are included in deferred leasing costs and acquisition-related intangible assets, net on the balance sheet and are amortized on a straight-line basis as a reduction of rental income over the remaining term of the applicable leases. The amounts recorded for below-market operating leases are included in deferred revenue and acquisition-related liabilities, net on the balance sheet and are amortized on a straight-line basis as an increase to rental income over the remaining term of the applicable leases plus the term of any below-market fixed rate renewal options, if applicable. Our below-market operating leases generally do not include fixed rate or below-market renewal options.

The fair value of acquired in-place leases is derived based on management's assessment of lost revenue and costs incurred for the period required to lease the "assumed vacant" property to the occupancy level when purchased. This fair value is based on a variety of considerations including, but not necessarily limited to: (1) the value associated with avoiding the cost of originating the acquired in-place leases; (2) the value associated with lost revenue related to tenant reimbursable operating costs estimated to be incurred during the assumed lease-up period; and (3) the value associated with lost rental revenue from existing leases during the assumed lease-up period. Factors considered by us in performing these analyses include an estimate of the carrying costs during the expected lease-up periods, current market conditions, and costs to execute similar leases. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses, and estimates of lost rental revenue during the expected lease-up periods

based on current market demand at market rates. In estimating costs to execute similar leases, we consider leasing commissions, legal and other related expenses. The amount recorded for acquired in-place leases is included in deferred leasing costs and acquisition-related intangible assets, net on the balance sheet and amortized as an increase to depreciation and amortization expense over the remaining term of the applicable leases. If a lease were to be terminated or if termination were determined to be likely prior to its contractual expiration (for example resulting from bankruptcy), amortization of the related unamortized in-place lease intangible would be accelerated.

The determination of the fair value of any debt assumed in connection with a property acquisition is estimated by discounting the future cash flows using interest rates available for the issuance of debt with similar terms and remaining maturities.

The determination of the fair value of the acquired tangible and intangible assets and assumed liabilities of operating property acquisitions requires us to make significant judgments and assumptions about the numerous inputs discussed above. The use of different assumptions in these fair value calculations could significantly affect the reported amounts of the allocation of our acquisition related assets and liabilities and the related depreciation and amortization expense recorded for such assets and liabilities. In addition, because the value of above and below market leases are amortized as either a reduction or increase to rental income, respectively, our judgments for these intangibles could have a significant impact on our reported rental revenues and results of operations.

Costs directly associated with all operating property acquisitions and those development and redevelopment acquisitions that meet the accounting criteria to be accounted for as business combinations are expensed as incurred. During the years ended December 31, 2013, 2012, and 2011, we expensed \$2.0 million, \$4.9 million and \$4.1 million of acquisition costs respectively, based on the level of our acquisition activity during those years. Our acquisition expenses are directly related to our acquisition activity and if our acquisition activity was to increase or decrease, so would our acquisition costs. Costs directly associated with development acquisitions accounted for as asset acquisitions are capitalized as part of the cost of the acquisition. During the years ended December 31, 2013 and 2012, we capitalized \$2.3 million and \$0.7 million, respectively, of such acquisition costs. We did not capitalize any acquisition costs during the year ended December 31, 2011.

Evaluation of Asset Impairment

We evaluate our real estate assets for potential impairment whenever events or changes in circumstances indicate that the carrying amount of a given asset may not be recoverable. We evaluate our real estate assets for impairment on a property-by-property basis. Indicators we use to determine whether an impairment evaluation is necessary include:

• low occupancy levels or forecasted low occupancy levels at a specific property;

• current period operating or cash flow losses combined with a historical pattern or future projection of potential continued operating or cash flow losses at a specific property;

• deterioration in rental rates for a specific property as evidenced by sudden significant rental rate decreases or continuous rental rate decreases over numerous quarters, which could signal a continued decrease in future cash flow for that property;

• deterioration of a given rental submarket as evidenced by significant increases in market vacancy and/or negative absorption rates or continuous increases in market vacancy and/or negative absorption rates over numerous quarters, which could signal a decrease in future cash flow for properties within that submarket;

• significant increases in property sales yields, continuous increases in property sales yields over several quarters, or recent property sales at a loss within a given submarket, each of which could signal a decrease in the market value of properties;

• significant change in strategy or use of a specific property or any other event that could result in a decreased holding period, including classifying a property as held for sale, or significant development delay;

• evidence of material physical damage to the property; and

• default by a significant tenant when any of the other indicators above are present.

When we evaluate for potential impairment our real estate assets to be held and used, we first evaluate whether there are any indicators of impairment. If any impairment indicators are present for a specific real estate asset, we then perform an undiscounted cash flow analysis and compare the net carrying amount of the real estate asset to the real estate asset's estimated undiscounted future cash flow over the anticipated holding period. If the estimated undiscounted future cash flow is less than the net carrying amount of the real estate asset, we perform an impairment loss calculation to determine if the fair value of the real estate asset is less than the net carrying value of the real estate asset. Our impairment loss calculation compares the net carrying amount of the real estate asset to the real estate asset's estimated fair value, which may be based on estimated discounted future cash flow calculations or third-party valuations or appraisals. We recognize an impairment loss if the amount of the asset's net carrying amount exceeds the asset's estimated fair value. If we recognize an impairment loss, the estimated fair value of the asset becomes its new cost

basis. For a depreciable long-lived asset, the new cost basis will be depreciated (amortized) over the remaining useful life of that asset.

Our undiscounted cash flow and fair value calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flow and property fair values, including selecting the discount or capitalization rate that reflects the risk inherent in future cash flow. Estimating projected cash flow is highly subjective as it requires assumptions related to future rental rates, tenant allowances, operating expenditures, property taxes, capital improvements, and occupancy levels. We are also required to make a number of assumptions relating to future economic and market events and prospective operating trends. Determining the appropriate capitalization rate also requires significant judgment and is typically based on many factors including the prevailing rate for the market or submarket, as well as the quality and location of the properties. Further, capitalization rates can fluctuate resulting from a variety of factors in the overall economy or within regional markets. If the actual net cash flow or actual market capitalization rates significantly differ from our estimates, the impairment evaluation for an individual asset could be materially affected.

For each property where such an indicator occurred and/or for properties within a given submarket where such an indicator occurred, we completed an impairment evaluation. After completing this process, we determined that for each of the operating properties evaluated, undiscounted cash flows over the holding period were in excess of carrying value and, therefore, we did not record any impairment losses for these periods. We determined that for each of the properties held for sale, that the sale price less estimated costs to sell exceeded the carrying value and therefore we did not record any impairment losses for these properties.

Cost Capitalization and Depreciation

We capitalize costs associated with development and redevelopment activities, capital improvements, tenant improvements, and leasing activities. For the years ended December 31, 2013, 2012 and 2011, we capitalized \$7.3 million, \$3.1 million, and \$1.7 million, respectively, of internal costs to our qualifying redevelopment and development projects.

Amounts capitalized are depreciated or amortized over estimated useful lives determined by management. We depreciate buildings and improvements based on the estimated useful life of the asset, and we amortize tenant improvements and leasing costs over the shorter of the estimated useful life or estimated remaining life of the related lease. All capitalized costs are depreciated or amortized using the straight-line method.

Determining whether expenditures meet the criteria for capitalization and the assignment of depreciable lives requires management to exercise significant judgment. Expenditures that meet one or more of the following criteria generally qualify for capitalization:

- provide benefit in future periods;
- extend the useful life of the asset beyond our original estimates; and
- increase the quality of the asset beyond our original estimates.

Our historical experience has demonstrated that we have not had material write-offs of assets and that our depreciation and amortization estimates have been reasonable and appropriate.

Share-Based Incentive Compensation Accounting

At December 31, 2013, the Company had one share-based incentive compensation plan, the Kilroy Realty 2006 Incentive Award Plan, which is described more fully in Note 12 “Share-Based Compensation” to our consolidated financial statements included in this report. The Executive Compensation Committee determines compensation for our Chief Executive Officer, Chief Operating Officer, Chief Investment Officer and Chief Financial Officer (“the Executive Officers”). Compensation cost for all share-based awards, including options, requires measurement at estimated fair value on the grant date and compensation cost is recognized over the service vesting period, which represents the requisite service period. The grant date fair value for compensation programs that contain market measures are performed using complex pricing valuation models that require the input of assumptions, including judgments to estimate expected stock price volatility, expected life, and forfeiture rate. Specifically, the grant date fair

value of market measure-based share-based compensation programs are calculated using a Monte Carlo simulation pricing model and the grant date fair value of stock option grants are calculated using the Black-Scholes valuation model.

For the years ended December 31, 2013 and 2012, we recorded approximately \$5.3 million and \$3.9 million, respectively, of compensation expense related to programs that contained market measures and were therefore subject to such valuation models. If the valuation of the grant date fair value for such programs changed by 10%, the potential impact to our net income available to common stockholders would be approximately \$0.5 million and \$0.4 million for the years ended December 31, 2013 and 2012, respectively. There was no compensation expense related to market measure-based programs recorded for the years ended December 31, 2011 since our market measure-based share-based compensation programs and options were granted in 2012.

Factors That May Influence Future Results of Operations

Acquisitions. During 2013, we acquired two office buildings in greater Seattle and two office buildings in the Del Mar submarket of San Diego County for a total purchase price of approximately \$296.4 million. Additionally, during 2013, we continued or focus on value-add and highly accretive development opportunities and expanded our future development pipeline through targeted acquisitions of development opportunities on the West Coast. During 2012, we acquired 14 office buildings in seven transactions with an aggregate purchase price of approximately \$674.0 million and six development and redevelopment projects in six transactions with an aggregate purchase price of approximately \$340.3 million. We generally finance our acquisitions through proceeds from the issuance of debt and equity securities, borrowings under our revolving credit facility, proceeds from our capital recycling program and the assumption of existing debt.

As a key component of our growth strategy, we continue to evaluate value-add acquisition opportunities (including undeveloped land, development and redevelopment opportunities and office properties). As a result, at any point in time we may have one or more potential acquisitions under consideration that are in varying stages of evaluation, negotiation or due diligence review, which may include potential acquisitions under contract. We remain a disciplined buyer of office properties and continue to focus on value add opportunities in West Coast markets populated by knowledge and creative based tenants in a variety of industries, including technology, media, healthcare, entertainment and professional services. We cannot provide assurance that we will complete these acquisitions. In the future, we may enter into agreements to acquire additional properties or undeveloped land, either as wholly owned properties or through joint ventures, and those agreements typically will be subject to the satisfaction of closing conditions. We cannot provide assurance that we will enter into any agreements to acquire properties or undeveloped land or that the potential acquisitions contemplated by any agreements we may enter into in the future will be completed. Costs associated with acquisitions accounted for as business combinations are expensed as incurred, and we may be unable to complete an acquisition after making a nonrefundable deposit or incurring acquisition-related costs. In addition, acquisitions are subject to various other risks and uncertainties. During the year ended December 31, 2013, we expensed approximately \$2.0 million of third-party acquisition costs, and we anticipate that we may incur additional third-party acquisition costs during 2014. During the year ended December 31, 2013, we capitalized \$2.3 million of acquisition costs directly associated with development acquisitions accounted for as asset acquisitions. We expect that during 2014 we will continue to pursue value-add property acquisitions that either add immediate Net Operating Income to our portfolio or play a strategic role in our future growth.

Capital Recycling Program. We continuously evaluate opportunities for the potential disposition of properties and undeveloped land in our portfolio with the intent of recycling the proceeds generated from the disposition of non-strategic properties or lower return assets into capital used to fund new operating and development acquisitions, to finance development and redevelopment expenditures, to repay long-term debt and for other general corporate purposes. As part of this strategy, we attempt to enter into Section 1031 Exchanges, when possible, to defer some or

all of the taxable gains on the sales, if any, for federal and state income tax purposes.

In connection with this strategy, during 2013, we completed the sale of three office building to unaffiliated third parties in three separate transactions. Gross sales proceeds totaled approximately \$56.9 million of which \$32.2 million was held at qualified intermediaries at December 31, 2013 for potential future Section 1031 Exchanges. In February 2014, we successfully completed one of the the Section 1031 Exchanges and the \$32.2 million cash proceeds were released from the qualified intermediary. In addition, as of December 31, 2013, we classified 12 properties located in San Diego, California as properties held for sale and included the results for these properties in discontinued operations in our consolidated financial statements for all periods presented. The sale of these properties closed on January 9, 2014

for total gross sales proceeds of approximately \$294.7 million, which are being held by qualified intermediaries for potential future Section 1031 Exchanges as of the date of this report. We cannot assure you that any proceeds currently held by qualified intermediaries will be reinvested into qualifying replacement property or that the dispositions described above will qualify as Section 1031 Exchanges (see Note 23 "Subsequent Events" to our consolidated financial statements included in this report for additional information).

The timing of any potential future disposition transactions will depend on market conditions and other factors, including but not limited to our capital needs and our ability to defer some or all of the taxable gains on the sales. We cannot assure that we will dispose of any additional properties or that future acquisitions and/or dispositions, if any, will qualify as Section 1031 Exchanges.

Leasing Activity and Changes in Rental Rates. The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly developed or redeveloped properties, newly acquired properties with vacant space, and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Negative trends in one or more of these factors could adversely affect our rental income in future periods. The following tables set forth certain information regarding leasing activity for our stabilized portfolio during year ended December 31, 2013.

Information on Leases Commenced and Executed

For Leases Commenced ⁽¹⁾

Year Ended	1st & 2nd Generation ⁽²⁾				2nd Generation ⁽²⁾				Retention Rates ⁽⁸⁾	Weighted Average Lease Term (in months)
	Number of Leases ⁽³⁾		Rentable Square Feet ⁽³⁾		TI/LC per Sq. Ft. ⁽⁴⁾	Changes in Rents ⁽⁵⁾⁽⁶⁾	Changes in Cash Rents ⁽⁷⁾			
	New	Renewal	New	Renewal						
December 31, 2013	110	83	1,089,121	1,188,308	37.34	19.3 %	8.3 %	58.7 %	75	

For Leases Executed ⁽¹⁾⁽⁹⁾

Year Ended	1st & 2nd Generation ⁽²⁾				2nd Generation ⁽²⁾				Changes in Cash Rents ⁽⁷⁾	Weighted Average Lease Term (in months)
	Number of Leases ⁽³⁾		Rentable Square Feet ⁽³⁾		TI/LC per Sq. Ft. ⁽⁴⁾	Changes in Rents ⁽⁵⁾⁽⁶⁾				
	New	Renewal	New	Renewal						
December 31, 2013	113	77	1,026,042	1,126,607	31.49	20.7 %	11.3 %	72		

(1) Includes leases commenced and executed for properties held for sale at December 31, 2013.

(2) First generation leasing includes space where we have made capital expenditures that result in additional revenue generated when the space is re-leased. Second generation leasing includes space where we have made capital expenditures to maintain the current market revenue stream.

(3) Represents leasing activity for leases that commenced or signed during the period, including first and second generation space, net of month-to-month leases. Excludes leasing on new construction.

(4) Amounts exclude tenant-funded tenant improvements.

Calculated as the change between GAAP rents for new/renewed leases and the expiring GAAP rents for the same space. Excludes leases for which the space was vacant longer than one year or vacant when the property was acquired.

Excludes commenced and executed leases of approximately 593,000 and 455,000 rentable square feet, respectively, for the year ended December 31, 2013, for which the space was vacant longer than one year or being leased for the first time. Space vacant for more than one year is excluded from our change in rents calculations to provide a meaningful market comparison.

(6) Calculated as the change between stated rents for new/renewed leases and the expiring stated rents for the same space. Excludes leases for which the space was vacant longer than one year or vacant when the property was acquired.

(7) Calculated as the percentage of space either renewed or expanded into by existing tenants or subtenants at lease expiration.

(8) For the year ended December 31, 2013, 16 new leases totaling 422,000 rentable square feet were signed but not commenced as of December 31, 2013.

As of December 31, 2013, we believe that the weighted average cash rental rates for our stabilized portfolio, including recently acquired operating properties are approximately 5% under the current average market rental rates, although individual properties within any particular submarket presently may be leased either above, below, or at the current market rates within that submarket, and the average rental rates for individual submarkets may be above, below, or at the average cash rental rate of our portfolio.

In general, market rental rates have continued to increase in the majority of our submarkets over the last several quarters. Our rental rates and occupancy are impacted by general economic conditions, including the pace of regional economic growth and access to capital. Therefore, we cannot give any assurance that leases will be renewed or that available space will be re-leased at rental rates equal to or above the current market rates. Additionally, decreased demand and other negative trends or unforeseeable events that impair our ability to timely renew or re-lease space could have further negative effects on our future financial condition, results of operations, and cash flows.

Scheduled Lease Expirations. The following table sets forth certain information regarding our lease expirations for our stabilized portfolio for the next five years.

Lease Expirations ⁽¹⁾

Year of Lease Expiration	Number of Expiring Leases	Total Square Feet	% of Total Leased Sq. Ft.	Annualized Base Rent ⁽²⁾	% of Total Annualized Base Rent ⁽²⁾	Annualized Base Rent per Sq. Ft. ⁽²⁾
2014	105	1,153,089	9.9	% \$31,236	7.9	% \$27.09
2015	107	1,539,015	13.3	% 44,479	11.3	% 28.90
2016	83	870,819	7.5	% 23,318	5.9	% 26.78
2017	92	1,735,945	15.0	% 56,731	14.4	% 32.68
2018	54	1,545,020	13.3	% 63,276	16.1	% 40.95
Total	441	6,843,888	59.0	% \$219,040	55.6	% \$32.01

Excludes lease expirations for properties held for sale at December 31, 2013. The information presented for all lease expiration activity reflects leasing activity through December 31, 2013 for our stabilized portfolio. For leases that have been renewed early or space that has been re-leased to a new tenant, the expiration date and annualized base rent information presented takes into consideration the renewed or re-leased lease terms. Excludes space leased under month-to-month leases, intercompany leases, vacant space, and lease renewal options not executed as of December 31, 2013.

Annualized base rent includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue. Additionally, the underlying leases contain various expense structures including full service gross, modified gross and triple net. Percentages represent percentage of total portfolio annualized contractual base rental revenue. For additional information on tenant improvement and leasing commission costs incurred by the Company for the current reporting period, please see further discussion under the caption "Information on Leases Commenced and Executed."

In addition to the 0.8 million rentable square feet, or 6.6%, of currently available space in our stabilized portfolio, leases representing approximately 9.9% and 13.3% of the occupied square footage of our stabilized portfolio are scheduled to expire during 2014 and 2015, respectively. The leases scheduled to expire in 2014 and 2015 represent approximately 2.7 million rentable square feet or 19.2% of our total annualized base rental revenue. We believe that the weighted average cash rental rates are approximately 5% under the current average market rental rates for leases scheduled to expire during 2014 and 2015, although individual properties within any particular submarket presently may be leased either above, below, or at the current quoted market rates within that submarket, and the average rental rates for individual submarkets may be above, below, or at the average cash rental rate of our overall portfolio. Our ability to re-lease available space depends upon both general market conditions and the market conditions in the specific regions in which individual properties are located.

Redevelopment Projects

We believe that a portion of our potential long-term future growth will continue to come from redevelopment opportunities both through acquired properties and within our existing portfolio. Redevelopment opportunities are those projects in which we spend significant development and construction costs on existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. During the fourth quarter of December 31, 2013, we stabilized the following redevelopment project:

3880 Airport Way, Long Beach, submarket of Los Angeles, California on which we commenced redevelopment in the third quarter of 2011. This property, encompassing 98,243 rentable square feet, has a total investment of approximately \$19.7 million, including \$6.3 million net carrying value of the project at the commencement of redevelopment. The building was 100% leased at December 31, 2013.

As of December 31, 2013, we had one redevelopment project in lease-up.

360 Third Street, South of Market Area, submarket of San Francisco, California on which we commenced redevelopment in the fourth quarter of 2011. Redevelopment for this project was completed in the first quarter of 2013 and this property will move to our stabilized portfolio the first quarter of 2014. This project, which encompasses approximately 410,000 rentable square feet, will have a total estimated investment of approximately \$186.1 million at completion. As of December 31, 2013, the project was 96% leased and 78% occupied. Included in our total investment is the purchase of the land underlying the ground lease for \$27.5 million which closed in October 2013.

In-Process and Future Development Pipeline

We believe that a portion of our long-term future growth will also come from the completion of our under construction and in-process projects as well as executing on our future development pipeline, subject to market conditions. During 2012 and 2013, we increased our focus on value-add and highly accretive development opportunities and expanded our future development pipeline through targeted acquisitions of development opportunities on the West Coast.

We have a proactive planning process by which we continually evaluate the size, timing, costs and scope of our development program and, as necessary, scale activity to reflect the economic conditions and the real estate fundamentals that exist in our strategic submarkets. We expect to proceed in our development program with discipline and will be pursuing opportunities with attractive economic returns, in locations with transportation and retail amenities and in markets with strong fundamentals and visible demand. We plan to develop in phases as appropriate and we strongly favor starting projects that are pre-leased.

During the fourth quarter of December 31, 2013, we completed construction of the following development project:

331 Fairchild Drive, Mountain View, California, which we acquired in December 2012 and was 100% pre-leased. This property, encompassing 87,565 square feet, had a total investment of approximately \$44.7 million. In October 2013, the project was substantially complete and the tenant took possession of the building.

As of December 31, 2013, our in-process development pipeline consisted of the following six projects under construction.

690 E. Middlefield Road, Mountain View, California, which we acquired in May 2012. The development project, which is 100% pre-leased to Synopsys, Inc., has a total estimated investment of approximately \$196.9 million and is expected to encompass approximately 341,000 rentable square feet upon completion. Construction is currently in process and is expected to be completed in the first quarter of 2015.

350 Mission Street, South of Market Financial District, San Francisco, California, which we acquired in October 2012. Shortly after acquisition, we pre-leased the entire project to salesforce.com, inc. In the fourth quarter of 2013, we obtained full entitlements to increase this project from a 27-story building to a 30-story building which increased the square footage from 400,000 square feet to approximately 450,000 square feet. Salesforce.com will occupy the full 30-story building upon completion. The property is expected to be LEED platinum certified, the first ground up development property in the city expected to receive this designation. The development project has a total estimated investment of approximately \$277.5 million. Construction is currently in process and is expected to be completed in phases during 2015.

- 555-599 N. Mathilda Avenue, Sunnyvale, California, which we acquired in December 2012. The project, which is comprised of one operating property and a future development site, is 100% pre-leased. Our plan at

this project is to continue operating the existing building and develop an approximately 587,000 square foot office complex for LinkedIn, Inc., the tenant in the current existing building. The development project has a total estimated investment of approximately \$314.8 million. Construction is currently in process and is expected to be completed in the third quarter of 2014.

Columbia Square, in Hollywood, California, which we acquired in September 2012. The project is a historical media campus located in the heart of Hollywood, two blocks from the corner of Sunset Boulevard and Vine Street. During 2013, we commenced development on approximately 675,000 rentable square feet of a mixed-use project, which encompasses office, multi-family and retail components that we plan on completing in multiple phases. The project has a total estimated investment of approximately \$392.5 million. Our plan is to create a mixed-use campus that preserves the historical character while establishing a new center for entertainment and media companies. Construction is currently in process and is expected to be completed in three phases between the third quarter of 2014 and the second quarter of 2016.

In December 2013, we announced that we will be collaborating with the Kor Group, a Los Angeles-based development and management firm that specializes in high-end residential and hospitality projects, on the project programming, design and branding of the residential component of Columbia Square. This portion of the project will be a mix of high-end long-term rentals and extended stay apartment homes that will cater to traveling business, entertainment and creative professionals. It will be the first luxury extended stay property to be located in the heart of Hollywood. Construction completion of this component is which is expected for the spring of 2016.

333 Brannan Street, South of Market Area, San Francisco, California, which we acquired in July 2012. In January 2014, six weeks after our ground breaking in the fourth quarter of 2013, we signed a 182,000 square foot, twelve-year lease with Dropbox for the entirety of this project. Dropbox is expected to take occupancy of the LEED platinum property at the completion of construction in the third quarter of 2015. The project has a total estimated investment of approximately \$98.8 million. Construction is currently in process and is expected to be completed in the third quarter of 2015.

Crossing/900, in Redwood City, California, which we entered into an agreement in June 2013 with a local partner and acquired a 0.35 acre land site, completing the first phase of the land assemblage for our plans to develop an approximate 300,000 square foot office project. In October 2013, the Company acquired a 2.0 acre undeveloped land parcel for \$17.0 million, completing the final phase of the land assemblage for the project. The project has a total estimated investment of approximately \$182.0 million and began construction in the fourth quarter of 2013.

In the future, we may also enter into agreements to acquire other development or redevelopment opportunities, either as wholly owned properties or through joint ventures and those agreements typically will be subject to the satisfaction of closing conditions. In addition, as of December 31, 2013, we had additional undeveloped land holdings, located primarily in various submarkets in San Diego County and Los Angeles with an aggregate cost basis of approximately \$355.5 million and estimated rentable square feet of 2.7 million to 3.4 million.

This increase in our development and redevelopment activities will continue to cause an increase in the average development asset balances qualifying for interest and other carry cost capitalization in future periods. During the year ended December 31, 2013, we capitalized interest on in process development projects, redevelopment projects in lease-up, and development pipeline projects with an aggregate cost basis balance of approximately \$1.0 billion at December 31, 2013, as it was determined these projects qualified for interest and other carry cost capitalization under GAAP. For the years ended December 31, 2013 and 2012, we capitalized \$35.4 million and \$19.8 million, respectively, of interest to our qualifying redevelopment and development projects. For the years ended December 31, 2013 and 2012, we capitalized \$7.3 million and \$3.1 million, respectively, of internal costs to our qualifying redevelopment and development projects.

Incentive Compensation. Our Executive Compensation Committee determines compensation, including cash bonuses and equity incentives, for our executive officers. For 2013, the annual cash bonus program was structured to allow the Executive Compensation Committee to evaluate a variety of key quantitative and qualitative metrics at the end of the year and make a determination based on the Company's and management's overall performance. Our Executive

Compensation Committee also grants equity incentive awards from time to time that include performance-based or market-measure based vesting requirements and/or time-based vesting requirements. As a result, accrued incentive compensation and compensation expense for future awards may be affected by our operating and development performance, financial results, stock price, performance against applicable performance-based vesting goals, market conditions and other factors. Consequently, we cannot predict the amounts that will be recorded in future periods related to such incentive compensation.

As of December 31, 2013, there was approximately \$25.5 million of total unrecognized compensation cost related to outstanding nonvested shares of restricted common stock, RSUs and stock options issued under share-based compensation arrangements. Those costs are expected to be recognized over a weighted-average period of 2.2 years. The \$25.5 million of unrecognized compensation cost does not reflect the future compensation cost for any potential share-based awards that may be issued. Share-based compensation expense for potential future awards could be affected by our operating and development performance, financial results, stock price, performance against applicable performance-based vesting goals, market conditions and other factors. In addition our Executive Compensation Committee granted restricted stock units in January 2014, and, if our stockholders do not approve an increase to the share limit under our 2006 Plan then these awards may be cash settled and will be subject to variable plan accounting until a sufficient amount of shares are authorized for issuance under the 2006 Plan to cover the payment of these awards. Consequently, we cannot predict the amounts that will be recorded in future periods for such awards. See Note 12 “Share-Based Compensation” to our consolidated financial statements included in this report for additional information regarding our share-based incentive compensation plan.

Stabilized Portfolio Information

As of December 31, 2013, our stabilized portfolio was comprised of 105 office properties encompassing an aggregate of approximately 12.7 million rentable square feet. Our stabilized portfolio includes all of our properties with the exception of undeveloped land, development and redevelopment properties currently under construction or committed for construction, “lease-up” properties and properties held-for-sale. We define lease-up properties as properties recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. We define redevelopment properties as those properties for which we expect to spend significant development and construction costs on the existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. Our stabilized portfolio also excludes our future development pipeline, which is comprised of nine potential development sites, representing 120.9 gross acres of undeveloped land.

At December 31, 2013, our stabilized portfolio excluded 12 properties held for sale, one “lease-up” property and six development properties currently under construction.

The following table reconciles the changes in the rentable square feet in our stabilized portfolio of operating properties from December 31, 2012 to December 31, 2013:

	Number of Buildings	Rentable Square Feet
Total as of December 31, 2012	114	13,249,780
Acquisitions ⁽¹⁾	4	539,338
Completed development and redevelopment properties placed in-service	2	185,808
Dispositions and properties held for sale at December 31, 2013	(15) (1,249,341)
Remeasurement	—	10,514
Total as of December 31, 2013	105	12,736,099

(1) Excludes development and redevelopment property acquisitions.

Occupancy Information

The following table sets forth certain information regarding our stabilized portfolio:

Stabilized Portfolio Occupancy

Region	Number of Buildings	Rentable Square Feet	Occupancy at ⁽¹⁾			
			12/31/2013	12/31/2012	12/31/2011	
Los Angeles and Ventura Counties	27	3,506,527	93.7	% 94.0	% 83.5	%
Orange County	3	437,603	92.8	% 92.0	% 93.4	%
San Diego County	48	4,367,713	90.8	% 90.7	% 92.5	%
San Francisco Bay Area	15	2,376,619	94.8	% 95.5	% 93.3	%
Greater Seattle	12	2,047,637	96.7	% 93.3	% 89.9	%
Total Stabilized Portfolio	105	12,736,099	93.4	% 92.8	% 90.1	%
			Average Occupancy Year Ended December 31,			
			2013		2012	
Stabilized Portfolio ⁽¹⁾			92.1	% 91.3	%	
Same Store Portfolio ⁽²⁾			92.0	% 93.4	%	

(1) Occupancy percentages reported are based on our stabilized office portfolio as of the end of the period presented.

Occupancy percentages reported are based on office properties owned and stabilized as of January 1, 2012 and still (2) owned and stabilized as of December 31, 2013. See discussion under "Results of Operations" for additional information.

Current Regional Information

We have generally seen rental rates stabilize and start to improve in many of our submarkets. We have also seen vacancy rates in many of our submarkets starting to decrease.

Los Angeles and Ventura Counties. Our Los Angeles and Ventura Counties stabilized portfolio of 3.5 million rentable square feet was 93.7% occupied with approximately 219,000 available rentable square feet as of December 31, 2013 compared to 94.0% occupied with approximately 210,100 available rentable square feet as of December 31, 2012.

As of December 31, 2013, leases representing an aggregate of approximately 305,000 and 276,000 rentable square feet are scheduled to expire during 2014 and 2015, respectively, in this region. The aggregate rentable square feet under the leases scheduled to expire in this region during 2014 and in 2015 represents approximately 5.0% of our occupied rentable square feet and 4.7% of our annualized base rental revenues in our total stabilized portfolio as of December 31, 2013.

San Diego County. Our San Diego County stabilized portfolio of 4.4 million rentable square feet was 90.8% occupied with approximately 401,000 available rentable square feet as of December 31, 2013 compared to 90.7% occupied with approximately 486,800 available rentable square feet as of December 31, 2012. As of the date of this report, we have leased approximately 196,000 square feet of the 401,000 available rentable square feet as of December 31, 2013.

As of December 31, 2013, leases representing an aggregate of approximately 564,000 and 462,000 rentable square feet are scheduled to expire during 2014 and 2015, respectively, in this region. The aggregate rentable square feet under leases scheduled to expire during 2014 and 2015 represents approximately 8.8% of our occupied rentable square

feet and 6.2% of our annualized base rental revenues in our total stabilized portfolio as of December 31, 2013. As of the date of this report, of the 2014 lease expirations, we have executed one lease renewal representing approximately 133,000 rentable square feet and have received notices of termination for 216,000 rentable square feet. Additionally, subsequent to year end we have received notification of an early termination for an additional 78,000 rentable square feet originally set to expire in 2020.

San Francisco Bay Area. As of December 31, 2013, our San Francisco Bay Area stabilized portfolio of 2.4 million rentable square feet was 94.8% occupied with approximately 124,000 available rentable square feet, compared to 95.5% occupied with approximately 102,800 available rentable square feet as of December 31, 2012.

As of December 31, 2013, leases representing an aggregate of approximately 167,000 and 333,000 rentable square feet are scheduled to expire during 2014 and 2015, respectively, in this region. The aggregate rentable square feet under leases scheduled to expire during 2014 and 2015 represents approximately 4.3% of our occupied rentable square feet and 4.6% of our annualized base rental revenues in our total stabilized portfolio as of December 31, 2013.

Greater Seattle. As of December 31, 2013, our greater Seattle stabilized portfolio of 2.0 million rentable square feet was 96.7% occupied with approximately 68,000 available rentable square feet, compared to 93.3% occupied with approximately 116,100 available rentable square feet as of December 31, 2012. The increase in occupancy is primarily attributable to the acquisition of two office buildings encompassing approximately 320,400 rentable square feet that were 100.0% occupied as of December 31, 2013.

As of December 31, 2013, leases representing an aggregate of approximately 88,000 and 431,000 rentable square feet are scheduled to expire during 2014 and 2015, respectively, in this region. The aggregate rentable square feet under leases scheduled to expire during 2014 and 2015 represents approximately 4.5% of our occupied rentable square feet and 3.2% of our annualized base rental revenues in our total stabilized portfolio as of December 31, 2013.

Results of Operations

Comparison of the Year Ended December 31, 2013 to the Year Ended December 31, 2012

Net Operating Income

Management internally evaluates the operating performance and financial results of our stabilized portfolio based on Net Operating Income from continuing operations. We define “Net Operating Income” as operating revenues (rental income, tenant reimbursements, and other property income) less operating expenses (property expenses, real estate taxes, provision for bad debts, and ground leases).

Net Operating Income from continuing operations is considered by management to be an important and appropriate supplemental performance measure to net income (loss) because we believe it helps both investors and management to understand the core operations of our properties excluding corporate and financing-related costs and noncash depreciation and amortization. Net Operating Income is an unlevered operating performance metric of our properties and allows for a useful comparison of the operating performance of individual assets or groups of assets. This measure thereby provides an operating perspective not immediately apparent from GAAP income (loss) from operations or net income (loss). In addition, Net Operating Income is considered by many in the real estate industry to be a useful starting point for determining the value of a real estate asset or group of assets. Other real estate companies may use different methodologies for calculating Net Operating Income, and accordingly, our presentation of Net Operating Income may not be comparable to other real estate companies. Because of the exclusion of the items shown in the reconciliation below, Net Operating Income should only be used as a supplemental measure of our financial performance and not as an alternative to GAAP income (loss) from operations or net income (loss).

Management further evaluates Net Operating Income by evaluating the performance from the following property groups:

Same Store Properties – which includes the results of all of the office properties that were owned and included in our stabilized portfolio as of January 1, 2012 and still owned and included in the stabilized portfolio as of December 31, 2013;

Acquisition Properties – which includes the results, from the dates of acquisition through the periods presented, for the fourteen office buildings we acquired during 2012 and the four office buildings we acquired during the year ended December 31, 2013;

Stabilized Development and Redevelopment Properties – which includes the results generated by one office building that was moved into the stabilized portfolio upon completion of redevelopment in the fourth quarter of 2012, one office building that was moved into the stabilized portfolio upon completion of development and one redevelopment property that stabilized in December 2013 at the end of the lease-up; and

Other Properties – which includes the results of properties not included in our stabilized portfolio. These properties consist of one office building that was in the “lease-up” phase.

The following table sets forth certain information regarding the property groups within our stabilized portfolio as of December 31, 2013:

Group	# of Buildings	Rentable Square Feet
Same Store Properties	84	9,952,622

Edgar Filing: KILROY REALTY CORP - Form 10-K/A

Acquisition Properties	18	2,298,941
Stabilized Development and Redevelopment Properties	3	484,536
Total Stabilized Portfolio	105	12,736,099

58

Edgar Filing: KILROY REALTY CORP - Form 10-K/A

The following tables summarize the Net Operating Income from continuing operations, as defined, for our total portfolio for the years ended December 31, 2013 and 2012.

	Year Ended December 31,		Dollar Change	Percentage Change	
	2013	2012			
	(\$ in thousands)				
Reconciliation to Net Income:					
Net Operating Income, as defined	\$324,428	\$269,137	\$55,291	20.5	%
Unallocated (expense) income:					
General and administrative expenses	(39,660) (36,188) (3,472) 9.6	
Acquisition-related expenses	(1,962) (4,937) 2,975	(60.3)
Depreciation and amortization	(192,734) (153,251) (39,483) 25.8

Net Operating Income increased \$55.3 million, or 20.5%, for the year ended December 31, 2013 as compared to the year ended December 31, 2012 primarily resulting from:

• An increase of \$37.2 million attributable to the Acquisition Properties;

• An increase of \$4.2 million attributable to the Same Store Properties primarily resulting from:

• An increase in rental income of \$6.4 million primarily resulting from an increase in tenant renewals and new leases at higher rental rates;

• An increase in tenant reimbursements of \$2.1 million primarily due to higher reimbursable property expenses and real estate taxes;

• An increase in other property income of \$5.6 million primarily due to the receipt of a \$5.2 million property damage settlement payment at one of our properties;

• A partially offsetting increase in property and related expenses of \$9.8 million primarily resulting from:

• An increase of \$7.9 million in property expenses primarily as a result of an increase in certain recurring operating costs of approximately \$4.9 million related to property management expenses, utilities, insurance, other service-related costs, \$1.2 million of non-recurring expenses related to a property damage settlement and a \$1.8 million decrease in property-related insurance proceeds in the current year compared to the prior year; and

An increase in real estate taxes of \$1.8 million primarily as a result of higher assessment of value at several properties and a decrease in property tax refunds received in the current year compared to the prior year.

An increase of \$7.4 million attributable to the Stabilized Development and Redevelopment Properties, of which \$6.8 million is attributable to a full year of operating activity at 2260 E. Imperial Highway, located in the Los Angeles submarket of El Segundo which was stabilized in the fourth quarter of 2012; and

An increase of \$6.4 million attributable to the Other Properties primarily resulting from income generated in 2013 from one redevelopment property in lease-up that was 78% occupied at December 31, 2013 compared to 26% occupied at December 31, 2012.

Other Expenses and Income

General and Administrative Expenses

General and administrative expenses increased \$3.5 million, or 9.6%, for the year ended December 31, 2013 compared to the year ended December 31, 2012, primarily attributable to an increase in compensation expense related to higher payroll costs associated with the growth of the Company and the March 2012 and April 2013 renegotiations of our Chief Executive Officer's and Chief Operating Officer's employment agreements and costs associated with our accounting system conversion.

Depreciation and Amortization

Depreciation and amortization increased by \$39.5 million, or 25.8%, for the year ended December 31, 2013 compared to the year ended December 31, 2012, primarily related to the Acquisition Properties.

Interest Expense

The following table sets forth our gross interest expense, including debt discounts/premiums and loan cost amortization, net of capitalized interest, including capitalized debt discounts/premiums and loan cost amortization for the years ended December 31, 2013 and 2012.

	Year Ended December 31,		Dollar	Percentage
	2013	2012	Change	Change
	(\$ in thousands)			
Gross interest expense	\$111,238	\$98,906	\$12,332	12.5 %
Capitalized interest	(35,368)	(19,792)	(15,576)	78.7 %
Interest expense	\$75,870	\$79,114	\$(3,244)	(4.1)%

Gross interest expense, before the effect of capitalized interest, increased \$12.3 million, or 12.5%, for the year ended December 31, 2013 compared to the year ended December 31, 2012 resulting primarily from an increase in our average outstanding debt balances due to acquisitions and growth of the Company.

Capitalized interest increased \$15.6 million, or 78.7%, for the year ended December 31, 2013 compared to the year ended December 31, 2012, primarily attributable to an increase in our development and redevelopment activity, which resulted in higher average asset balances qualifying for interest capitalization.

Comparison of the Year Ended December 31, 2012 to the Year Ended December 31, 2011

The prior year discussion of the results from operations is separated into the following property groups:

Same Store Properties – which includes the results of all of the office properties that were owned and included in our stabilized portfolio as of January 1, 2011 and still owned and included in the stabilized portfolio as of December 31, 2013;

Acquisition Properties – which includes the results, from the dates of acquisition through the periods presented, for the ten office buildings we acquired during 2011 and the fourteen office buildings we acquired during 2012;

Stabilized Redevelopment Properties – which includes the results generated by two office buildings that were moved into the stabilized portfolio upon completion of redevelopment in the fourth quarter of 2012. Both office buildings were moved from the stabilized portfolio during 2012 to development during 2011, thus the prior year results reflect operating results of the properties prior to redevelopment; and

Other Properties – which includes the results of properties not included in our stabilized portfolio. These properties consist of one office building in “lease-up,” one redevelopment project under construction and one office building that was moved from the stabilized portfolio during 2012 to development since the property is being repositioned.

The following table sets forth certain information regarding the property groups within our stabilized portfolio as of December 31, 2012 still owned and included in the stabilized portfolio as of December 31, 2013.

Group	# of Buildings	Rentable Square Feet
Same Store Properties	84	9,952,622
Acquisition Properties	14	1,757,543
Stabilized Redevelopment Properties	2	410,046
Total Stabilized Portfolio	100	12,120,211

The following tables summarize the Net Operating Income from continuing operations, as defined, for our total portfolio for the year ended December 31, 2012 and 2011.

Total	274	0.3	17,452	201.1	163	51.7	1,011	40.0	18,900	20.3	
Net Operating Income, as defined	\$4,411	2.2	% \$44,758	216.7	% \$(40)	(17.9)%	\$2,547	319.2	% \$51,676	23.8	%

Net Operating Income increased \$51.7 million, or 23.8%, for the year ended December 31, 2012 as compared to the year ended December 31, 2011 primarily resulting from:

- An increase of \$44.8 million attributable to the Acquisition Properties;

- An increase of \$4.4 million attributable to the Same Store Properties primarily resulting from:

- An increase in rental income of \$4.7 million primarily resulting from an increase in tenant renewals and new leases at higher rental rates;

- An increase in tenant reimbursements of \$0.7 million primarily due to higher reimbursable property expenses;

- A partially offsetting decrease in other property income of \$0.8 million primarily due to a property damage settlement payment received in 2011 for one of our properties; and

- An increase in property and related expenses of \$0.3 million.

▲ An increase of \$2.5 million attributable to the Other Properties primarily resulting from:

● One redevelopment property in lease-up that was 50% occupied at December 31, 2012. The tenant took occupancy of this space in June 2012; and

● One in-process redevelopment property that was 17% occupied at December 31, 2012. The tenant took occupancy of this space in July 2012.

Other Expenses and Income

General and Administrative Expenses

General and administrative expenses increased \$8.0 million, or 28.6%, for the year ended December 31, 2012 compared to the year ended December 31, 2011, primarily attributable to an increase in compensation expense related to the February 2012 stock option grants made to our senior management team, higher payroll costs associated with the March 2012 renegotiation of our Chief Executive Officer's employment agreement and an increase in payroll and administrative costs associated with the growth of the Company.

Depreciation and Amortization

Depreciation and amortization increased by \$37.6 million, or 32.5%, for the year ended December 31, 2012 compared to the year ended December 31, 2011, primarily related to the Acquisition Properties.

Interest Expense

The following table sets forth our gross interest expense, including debt discounts/premiums and loan cost amortization, net of capitalized interest, including capitalized debt discounts/premiums and loan cost amortization for the year ended December 31, 2012 and 2011.

	Year Ended December 31,		Dollar	Percentage	
	2012	2011	Change	Change	
	(\$ in thousands)				
Gross interest expense	\$98,906	\$94,915	\$3,991	4.2	%
Capitalized interest	(19,792)	(9,130)	(10,662)	116.8	%
Interest expense	\$79,114	\$85,785	\$(6,671)	(7.8))%

Gross interest expense, before the effect of capitalized interest, increased \$4.0 million, or 4.2%, for the year ended December 31, 2012 compared to the year ended December 31, 2011 resulting from an increase in our average outstanding debt balances primarily as a result of acquisition activity, partially offset by a decrease in our weighted average GAAP effective rate from approximately 5.2% during the year ended December 31, 2011 to approximately 4.7% during the year ended December 31, 2012.

Capitalized interest increased \$10.7 million, or 116.8%, for the year ended December 31, 2012 compared to the year ended December 31, 2011, primarily attributable to an increase in our development and redevelopment activity, which resulted in higher average asset balances qualifying for interest capitalization.

Liquidity and Capital Resources of the Company

In this “Liquidity and Capital Resources of the Company” section, the term the “Company” refers only to Kilroy Realty Corporation on an unconsolidated basis and excludes the Operating Partnership and all other subsidiaries.

The Company’s business is operated primarily through the Operating Partnership. Distributions from the Operating Partnership are the Company’s source of capital. The Company believes the Operating Partnership’s sources of working capital, specifically its cash flow from operations and borrowings available under its revolving credit facility, are adequate for it to make its distribution payments to the Company and, in turn, for the Company to make its dividend payments to its preferred and common stockholders for the next twelve months. Cash flows from operating activities generated by the Operating Partnership for the year ended December 31, 2013 were sufficient to cover the Company’s payment of cash dividends to its stockholders. However, there can be no assurance that the Operating Partnership’s sources of capital will continue to be available at all or in amounts sufficient to meet its needs, including its ability to make distributions to the Company. The unavailability of capital could adversely affect the Operating Partnership’s ability to make distributions to the Company, which would in turn, adversely affect the Company’s ability to pay cash dividends to its stockholders.

The Company is a well-known seasoned issuer and the Company and the Operating Partnership have an effective shelf registration statement that provides for the public offering and sale from time to time by the Company of its preferred stock, common stock, depositary shares, warrants and guarantees of debt securities and by the Operating Partnership of its debt securities, in each case in unlimited amounts. The Company evaluates the capital markets on an ongoing basis for opportunities to raise capital, and, as circumstances warrant, the Company and the Operating Partnership may issue securities of all of these types in one or more offerings at any time and from time to time on an opportunistic basis, depending upon, among other things, market conditions, available pricing and capital needs. When the Company receives proceeds from the sales of its preferred or common stock, it is required by the Operating Partnership’s partnership agreement to contribute the net proceeds from those sales to the Operating Partnership in exchange for corresponding preferred or common partnership units of the Operating Partnership. The Operating Partnership may use these proceeds and proceeds from the sale of its debt securities to repay debt, including borrowings under its revolving credit facility, to develop new or existing properties, to make acquisitions of properties or portfolios of properties, or for general corporate purposes.

As the sole general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes, and the Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities and the revenues and expenses of the Company and the Operating Partnership are substantially the same on their respective financial statements. The section entitled “Liquidity and Capital Resources of the Operating Partnership” should be read in conjunction with this section to understand the liquidity and capital resources of the Company on a consolidated basis and how the Company is operated as a whole.

Distribution Requirements

The Company is required to distribute 90% of its taxable income (subject to certain adjustments and excluding net capital gain) on an annual basis to maintain qualification as a REIT for federal income tax purposes and is required to pay income tax at regular corporate rates to the extent it distributes less than 100% of its taxable income (including capital gains). As a result of these distribution requirements, the Operating Partnership cannot rely on retained earnings to fund its on-going operations to the same extent as other companies whose parent companies are not REITs. In addition, the Company may be required to use borrowings under the Operating Partnership’s revolving credit facility, if necessary, to meet REIT distribution requirements and maintain its REIT status. The Company may also need to continue to raise capital in the equity markets to fund the Operating Partnership’s working capital needs,

as well as potential developments of new or existing properties or acquisitions.

The Company intends to continue to make, but has not committed to make, regular quarterly cash distributions to common stockholders and common unitholders from cash flow from operating activities. All such distributions are at the discretion of the board of directors. The Company has historically distributed amounts in excess of its taxable income resulting in a return of capital to its stockholders and the Company currently believes it has the ability to maintain distributions at the 2013 levels to meet the REIT distribution requirements for 2014. In addition, to the extent that the Company cannot successfully complete Section 1031 Exchanges to defer some or all of the taxable gains related to completed or future property dispositions, the Company may choose to distribute a special dividend to avoid having

to pay income taxes on such gains. The Company considers market factors and its performance in addition to REIT requirements in determining our distribution levels. Amounts accumulated for distribution to stockholders are invested primarily in interest-bearing accounts and short-term interest-bearing securities, which are consistent with the Company's intention to maintain its qualification as a REIT. Such investments may include, for example, obligations of the Government National Mortgage Association, other governmental agency securities, certificates of deposit, and interest-bearing bank deposits.

On December 16, 2013, the Board of Directors declared a regular quarterly cash dividend of \$0.35 per share of common stock payable on January 15, 2014 to stockholders of record on December 31, 2013 and caused a \$0.35 per Operating Partnership unit cash distribution to be paid in respect of the Operating Partnership's common limited partnership interests, including those owned by the Company. The total cash quarterly dividends and distributions paid on January 15, 2014 was \$29.4 million.

On December 16, 2013, the Board of Directors declared a dividend of \$0.42969 per share on the Series G Preferred Stock and \$0.39844 per share on the Series H Preferred Stock for the period commencing on and including November 15, 2013 and ending on and including February 17, 2014. The dividend will be payable on February 18, 2014 to Series G Preferred and Series H Preferred stockholders of record on January 31, 2014. The quarterly dividends payable on February 18, 2014 to Series G and Series H Preferred stockholders is expected to total \$3.3 million.

Debt Covenants

The covenants contained within the revolving credit facility and the term loan facility prohibit the Company from paying dividends in excess of 95% of FFO.

Capitalization

As of December 31, 2013, our total debt as a percentage of total market capitalization was 33.2% and our total debt and liquidation value of our preferred equity as a percentage of total market capitalization was 36.3%, which was calculated based on the closing price per share of the Company's common stock of \$50.18 on December 31, 2013 as shown in the following table:

	Shares/Units at December 31, 2013	Aggregate Principal Amount or \$ Value Equivalent	% of Total Market Capitalization

Total equity and noncontrolling interests		4,413,070	66.8	
Total Market Capitalization		\$6,609,438	100.0	%

Represents gross aggregate principal amount due at maturity before the effect of net unamortized premiums as of (1) December 31, 2013. The aggregate net unamortized premiums totaled approximately \$8.6 million as of December 31, 2013.

(2) Value based on \$25.00 per share liquidation preference.

(3) Represents common units not owned by the Company.

(4) Value based on closing price per share of our common stock of \$50.18 as of December 31, 2013.

Liquidity and Capital Resources of the Operating Partnership

In this “Liquidity and Capital Resources of the Operating Partnership” section, the terms “we,” “our,” and “us” refer to the Operating Partnership or the Operating Partnership and the Company together, as the context requires.

General

Our primary liquidity sources and uses are as follows:

Liquidity Sources

- Net cash flow from operations;
- Borrowings under the Operating Partnership’s revolving credit facility and term loan facility;
- Proceeds from additional secured or unsecured debt financings;
- Proceeds from public or private issuance of debt or equity securities; and
- Proceeds from the disposition of selective assets through our capital recycling program.

Liquidity Uses

- Property or undeveloped land acquisitions;
- Property operating and corporate expenses;
- Capital expenditures, tenant improvement and leasing costs;
- Debt service and principal payments, including debt maturities;
- Distributions to common and preferred security holders;
- Development and redevelopment costs; and
- Outstanding debt repurchases.

General Strategy

Our general strategy is to maintain a conservative balance sheet with a top credit profile and to maintain a capital structure that allows for financial flexibility and diversification of capital resources. We manage our capital structure to reflect a long-term investment approach and utilize multiple sources of capital to meet our long-term capital requirements. We believe that our current projected liquidity requirements for the next twelve-month period, as set forth above under the caption “—Liquidity Uses,” will be satisfied using a combination of the liquidity sources listed above. We believe our conservative leverage and staggered debt maturities provide us with financial flexibility and enhances our ability to obtain additional sources of liquidity if necessary, and, therefore, we are well-positioned to refinance or repay maturing debt and to pursue our strategy of seeking attractive acquisition opportunities, which we may finance, as necessary, with future public and private issuances of debt and equity securities.

Summary of 2013 Funding Transactions

We continue to be active in the capital markets to finance our acquisition and development activity and our continued desire to improve our debt maturities and lower our overall weighted average cost of capital. This was primarily a result of the following transactions:

Capital Markets / Debt Transactions

In September 2013, the Company completed an underwritten public offering of 6,175,000 shares of its common stock. The net offering proceeds (after deducting underwriting discounts and commissions and offering expenses) of approximately \$295.9 million were contributed to the Operating Partnership (see Notes 10 “Stockholders’ Equity of the Company” and 11 “Preferred and Common Units of the Operating Partnership” to our consolidated financial statements included in this report for additional information).

During the year ended December 31, 2013, we issued and sold a total of 1,040,838 of our common stock shares under our at-the-market stock offering program at a weighted average price of \$53.11 per share before selling commissions. The net offering proceeds (after deducting sales agent compensation) of approximately \$54.4 million were contributed to the Operating Partnership (see “—Liquidity Sources” below for additional information).

In January 2013, the Operating Partnership issued unsecured senior notes in an underwritten public offering with an aggregate principal balance of \$300.0 million that are scheduled to mature on January 15, 2023. The unsecured senior notes require semi-annual interest payments each January and July based on a stated annual interest rate of 3.800%.

In January 2013, the Operating Partnership assumed a secured mortgage loan with a principal balance of \$83.9 million that was recorded at fair value resulting in a premium of \$11.6 million in connection with an acquisition. We also repaid a secured mortgage loan with an outstanding principal balance of \$83.1 million that was scheduled to mature in April 2013 (see Note 7 “Secured and Unsecured Debt of the Operating Partnership” to our consolidated financial statements included in this report for additional information).

Capital Recycling Program

During 2013, we completed the sale of three office building to unaffiliated third parties in three separate transactions. Gross sales proceeds totaled approximately \$56.9 million of which \$32.2 million was held at qualified intermediaries at December 31, 2013 for potential future Section 1031 Exchanges. In February 2014, we successfully completed one of the Section 1031 Exchanges and the \$32.2 million cash proceeds were released from the qualified intermediary. In addition, as of December 31, 2013, we classified 12 properties located in San Diego, California as properties held for sale and included the results for these properties in discontinued operations in our consolidated financial statements for all periods presented. The sale of these properties closed on January 9, 2014 for total gross sales proceeds of approximately \$294.7 million (see “—Factors that May Influence Future Operations” and Note 23 “Subsequent Events” to our consolidated financial statements included in this report for additional information).

After the effect of these aforementioned transactions, as of December 31, 2013, we had approximately \$35.4 million of unrestricted cash on hand, \$49.8 million of restricted cash and \$45.0 million outstanding borrowings on our revolving credit facility.

Liquidity Sources

Credit Facility

The following table summarizes the balance and terms of our revolving credit facility as of December 31, 2013 and December 31, 2012, respectively:

	December 31, 2013	December 31, 2012		
	(in thousands)			
Outstanding borrowings	\$45,000	\$185,000		
Remaining borrowing capacity	455,000	315,000		
Total borrowing capacity ⁽¹⁾	\$500,000	\$500,000		
Interest rate ⁽²⁾	1.62	% 1.66		%
Facility fee-annual rate ⁽³⁾	0.300%			
Maturity date ⁽⁴⁾	April 2017			

(1) We may elect to borrow, subject to bank approval, up to an additional \$200.0 million under an accordion feature under the terms of the revolving credit facility.

(2) The revolving credit facility interest rate was calculated based on an annual rate of London Interbank Offered Rate ("LIBOR") plus 1.450% as of both December 31, 2013 and December 31, 2012.

(3) The facility fee is paid on a quarterly basis and is calculated based on the total borrowing capacity. In addition to the facility fee, we also incurred debt origination and legal costs of approximately \$5.0 million when we entered into the revolving credit facility in 2010, an additional \$3.3 million when we amended the terms of the revolving credit facility in June 2011 and an additional \$1.9 million when we amended the terms of the revolving credit facility in November 2012. The unamortized balance of these costs is amortized through the extended maturity date of the revolving credit facility.

(4) Under the terms of the revolving credit facility, we may exercise an option to extend the maturity date by one year.

We intend to borrow under the revolving credit facility from time to time for general corporate purposes, to fund potential acquisitions, to finance development and redevelopment expenditures and to potentially repay long-term debt.

Capital Recycling Program

In connection with our capital recycling program, we continuously evaluate opportunities for the potential disposition of properties and undeveloped land in our portfolio with the intent of recycling the proceeds generated from the dispositions of non-strategic or lower return assets into capital used to fund new operating and development acquisitions, to finance development and redevelopment expenditures, to repay long-term debt and for other general corporate purposes. As part of our strategy, we attempt to enter into Section 1031 Exchanges, when possible, to defer some or all of the taxable gains on the sales, if any, for federal and state income tax purposes.

During 2013, we completed the sale of three office buildings to unaffiliated third parties in two separate transactions. Gross sales proceeds totaled approximately \$56.9 million of which \$32.2 million was held by qualified intermediaries at December 31, 2013 for potential future Section 1031 Exchanges. In February 2014, we successfully completed one of the Section 1031 Exchanges and the \$32.2 million cash proceeds were released from the qualified intermediary. In addition, as of December 31, 2013, we classified 12 properties located in San Diego, California as properties held for sale and included the results for these properties in discontinued operations in our consolidated financial statements for all periods presented. The sale of these properties closed on January 9, 2014 for total gross sales proceeds of

approximately \$294.7 million, which are being held by qualified intermediaries for potential future Section 1031 Exchanges as of the date of this report. We cannot assure you that any proceeds currently held by qualified intermediaries will be reinvested into qualifying replacement property or that the dispositions described above will qualify as Section 1031 Exchanges.

The timing of any potential future disposition transactions will depend on market conditions and other factors including but not limited to our capital needs and our ability to defer some or all of the taxable gains on the sales. We cannot assure you that we will dispose of any additional properties or that future acquisitions and/or dispositions, if any, will qualify as Section 1031 Exchanges.

At-The-Market Stock Offering Program

Under our at-the-market stock offering program, which commenced in July 2011, we may offer and sell shares of our common stock having an aggregate gross sales price of up to \$200.0 million from time to time in “at-the-market” offerings. The following table sets forth information regarding sales of our common stock under our at-the-market offering program for years ended December 31, 2013 and 2012:

	Year Ended December 31,	
	2013	2012
	(in millions, except share data)	
Shares of common stock sold during the year	1,040,838	787,118
Aggregate gross proceeds	\$55.3	\$37.0
Aggregate net proceeds after sales agent compensation	\$54.4	\$36.3

The proceeds from the sales were used to fund development and redevelopment expenditures and for general corporate purposes. Since commencement of the program, we have sold 2,183,261 shares of common stock having an aggregate gross sales price of \$105.3 million. As of December 31, 2013, shares of common stock having an aggregate gross sales price of up to \$94.7 million remain available to be sold under this program. Actual future sales will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company’s common stock and our capital needs. We have no obligation to sell the remaining shares available for sale under this program.

Shelf Registration Statement

As discussed above under “—Liquidity and Capital Resources of the Company,” the Company is a well-known seasoned issuer and the Company and the Operating Partnership have an effective shelf registration statement that provides for the public offering and sale from time to time by the Company of its preferred stock, common stock, depository shares and guarantees of debt securities and by the Operating Partnership of its debt securities, in each case in unlimited amounts. The Company evaluates the capital markets on an ongoing basis for opportunities to raise capital, and, as circumstances warrant, the Company and the Operating Partnership may issue securities of all of these types in one or more offerings at any time and from time to time on an opportunistic basis, depending upon, among other things, market conditions, available pricing and capital needs. When the Company receives proceeds from the sales of its preferred or common stock, it is required by the Operating Partnership’s partnership agreement to contribute the net proceeds from those sales to the Operating Partnership in exchange for corresponding preferred or common partnership units of the Operating Partnership. The Operating Partnership may use these proceeds and proceeds from the sale of its debt securities to repay debt, including borrowings under its revolving credit facility, to develop new or existing properties, to make acquisitions of properties or portfolios of properties, or for general corporate purposes.

Exchangeable Notes, Unsecured Debt, and Secured Debt

The aggregate principal amount of our 4.25% Exchangeable Notes, unsecured debt, and secured debt of the Operating Partnership outstanding as of December 31, 2013 was as follows:

	Aggregate Principal Amount Outstanding (in thousands)
Unsecured Revolving Credit Facility	\$45,000
Unsecured Term Loan Facility due 2016	150,000
4.25% Exchangeable Notes due 2014 ⁽¹⁾	172,500
Unsecured Senior Notes due 2014	83,000
Unsecured Senior Notes due 2015 ⁽¹⁾	325,000
Unsecured Senior Notes due 2018 ⁽¹⁾	325,000
Unsecured Senior Notes due 2020 ⁽¹⁾	250,000
Unsecured Senior Notes due 2023 ⁽¹⁾	300,000
Secured Debt ⁽¹⁾	545,868
Total Exchangeable Notes, Unsecured Debt, and Secured Debt	\$2,196,368

Represents gross aggregate principal amount due at maturity before the effect of net unamortized premiums as of (1)December 31, 2013. The aggregate net unamortized premiums totaled approximately \$8.6 million as of December 31, 2013.

Debt Composition

The composition of the Operating Partnership's aggregate debt balances between secured and unsecured and fixed-rate and variable-rate debt as of December 31, 2013 and December 31, 2012 was as follows:

	Percentage of Total Debt		Weighted Average Interest Rate		
	December 31, 2013	December 31, 2012	December 31, 2013	December 31, 2012	
Secured vs. unsecured:					
Unsecured ⁽¹⁾	75.1	% 72.9	%	4.6	%
Secured	24.9	27.1	5.2	%	5.2
Variable-rate vs. fixed-rate:					
Variable-rate	8.9	16.4	1.9	%	1.8
Fixed-rate ⁽¹⁾	91.1	83.6	5.0	%	5.3
Stated rate ⁽¹⁾			4.8	%	4.7
GAAP effective rate ⁽²⁾			4.8	%	4.7
GAAP effective rate including debt issuance costs			5.1	%	5.1

(1)Excludes the impact of the amortization of any debt discounts/premiums.

(2)Includes the impact of the amortization of any debt discounts/premiums, excluding debt issuance costs.

Liquidity Uses

Contractual Obligations

The following table provides information with respect to our contractual obligations as of December 31, 2013. The table: (i) indicates the maturities and scheduled principal repayments of our secured debt, 4.25% Exchangeable Notes, unsecured debt, and revolving credit facility; (ii) indicates the scheduled interest payments of our fixed-rate and variable-rate debt as of December 31, 2013; (iii) provides information about the minimum commitments due in connection with our ground lease obligations and other lease and contractual commitments; and (iv) provides estimated redevelopment and development commitments as of December 31, 2013. Note that the table does not reflect our available debt maturity extension options and reflects gross aggregate principal amounts before the effect of unamortized discounts/premiums.

	Payment Due by Period				Total
	Less than 1 Year (2014) (in thousands)	2-3 Years (2015-2016)	4-5 Years (2017-2018)	More than 5 Years (After 2018)	
Principal payments: secured debt ⁽¹⁾	\$9,846	\$169,535	\$198,476	\$168,011	\$545,868
Principal payments: 4.25% Exchangeable Notes ⁽²⁾	172,500	—	—	—	172,500
Principal payments: unsecured revolving credit facility	—	—	45,000	—	45,000
Principal payments: unsecured debt ⁽³⁾	83,000	475,000	325,000	550,000	1,433,000
Interest payments: fixed-rate debt ⁽⁴⁾	98,408	147,748	104,291	106,191	456,638
Interest payments: variable-rate debt ⁽⁵⁾	2,880	3,574	—	—	6,454
Interest payments: unsecured revolving credit facility ⁽⁶⁾	729	1,458	184	—	2,371
Ground lease obligations ⁽⁷⁾	3,095	6,190	6,190	156,912	172,387
Lease and contractual commitments ⁽⁸⁾	85,298	2,078	—	—	87,376
Development and redevelopment commitments ⁽⁹⁾	375,000	183,000	—	—	558,000
Total	\$830,756	\$988,583	\$679,141	\$981,114	\$3,479,594

(1) Represents gross aggregate principal amount before the effect of the unamortized premium of approximately \$14.6 million as of December 31, 2013.

(2) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$4.1 million as of December 31, 2013.

(3) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$1.9 million as of December 31, 2013.

As of December 31, 2013, 91.1% of our debt was contractually fixed. The information in the table above reflects (4) our projected interest rate obligations for these fixed-rate payments based on the contractual interest rates, interest payment dates and scheduled maturity dates.

As of December 31, 2013, 6.8% of our debt bore interest at variable rates which was incurred under the term loan facility. The variable interest rate payments are based on LIBOR plus a spread of 1.750% as of

(5) December 31, 2013. The information in the table above reflects our projected interest rate obligations for these variable-rate payments based on outstanding principal balances as of December 31, 2013, the scheduled interest payment dates and the contractual maturity dates.

As of December 31, 2013, 2.1% of our debt bore interest at variable rates which was incurred under the unsecured revolving credit facility. The variable interest rate payments are based on LIBOR plus a spread of 1.450% as of

(6) December 31, 2013. The information in the table above reflects our projected interest rate obligations for these variable-rate payments based on outstanding principal balances as of December 31, 2013, the scheduled interest payment dates and the contractual maturity dates.

(7) Reflects minimum lease payments through the contractual lease expiration date before the impact of extension options.

(8) Amounts represent commitments under signed leases and contracts for operating properties, excluding tenant-funded tenant improvements. The timing of these expenditures may fluctuate.

(9) Amounts represent commitments under signed leases for pre-leased development projects and contractual commitments for lease-up projects and projects under construction as of December 31, 2013. The timing of these

expenditures may fluctuate based on the ultimate progress of construction.

Other Liquidity Uses

Debt Maturities

As of December 31, 2013, we had unsecured debt with principal balances of \$172.5 million and \$83.0 million scheduled to mature in November 2014 and August 2014, respectively. We believe our conservative leverage and staggered debt maturities provide us with financial flexibility and enhances our ability to obtain additional sources of liquidity if necessary, and, therefore, we are well-positioned to refinance or repay maturing debt and to pursue our strategy of seeking attractive acquisition opportunities, which we may finance, as necessary, with future public and private issuances of debt and equity securities.

Potential Future Acquisitions

In 2013, we acquired four buildings and two undeveloped land sites for approximately \$305.5 million in cash. In 2012, we acquired 14 buildings for approximately \$454.8 million in cash and acquired six development property opportunities for approximately \$333.9 million in cash. These transactions were funded through various capital raising activities and, in selected instances, the assumption of existing indebtedness. We expect to continue to monitor our target markets and to pursue the acquisition of value add office properties and development and redevelopment opportunities that add immediate Net Operating Income to our portfolio or play a strategic role in our future growth.

Development and Redevelopment Opportunities

As of December 31, 2013, we had six development projects under construction. These projects have a total estimated investment of approximately \$1.5 billion, of which we have incurred approximately \$637.4 million and committed an additional \$558.0 million as of December 31, 2013. In addition, we currently have additional development projects that we may commence construction on in 2014. This total estimated investment is based on market conditions and our anticipation of project approvals. Actual costs could vary depending on changes in circumstances. Ultimate timing of these expenditures may fluctuate given the ultimate progress and leasing status of the projects.

We remain a disciplined buyer of office properties and continue to focus on value add opportunities in West Coast markets populated by knowledge and creative based tenants in a variety of industries, including technology, media, healthcare, entertainment and professional services. We expect that any material acquisitions or development activities will be funded with borrowings under the revolving credit facility, the public or private issuance of debt or equity securities, the disposition of assets under our capital recycling program or through the assumption of existing debt.

Potential Future Leasing Costs and Capital Improvements

Given the current economic conditions, the amounts we are required to spend on tenant improvements and leasing costs would need to remain at current levels for us to be able to execute leases at current market terms, as evidenced in the table below. The amounts we ultimately incur for tenant improvements and leasing costs will depend on actual leasing activity. Tenant improvements and leasing costs generally fluctuate in any given period depending on factors such as the type and condition of the property, the term of the lease, the type of the lease, the involvement of external leasing agents, and overall market conditions. Capital expenditures may fluctuate in any given period subject to the nature, extent, and timing of improvements required to maintain our properties.

We believe we could spend approximately \$45 to \$50 million in capital improvements, tenant improvements and leasing costs in 2014 for properties within our stabilized portfolio, depending on leasing activity, in addition to approximately \$87.4 million of lease and contractual commitments included in our capital commitments table above.

The following tables set forth our historical actual capital expenditures, and tenant improvements and leasing costs for deals commenced, excluding tenant-funded tenant improvements, for renewed and re-tenanted space within our stabilized portfolio for each of the three years during the period ended December 31, 2013 on a per square foot basis.

	Year Ended December 31,		
	2013	2012	2011
Office Properties:			
Capital Expenditures:			
Capital expenditures per square foot	\$0.73	\$0.78	\$0.71
Tenant Improvement and Leasing Costs ⁽¹⁾			
Replacement tenant square feet ⁽²⁾	850,295	607,118	468,530
Tenant improvements per square foot commenced	\$39.24	\$31.75	\$24.95
Leasing commissions per square foot commenced	\$12.25	\$11.22	\$11.46
Total per square foot	\$51.48	\$42.97	\$36.41
Renewal tenant square feet	1,188,308	629,664	709,427
Tenant improvements per square foot commenced	\$16.90	\$9.63	\$27.73
Leasing commissions per square foot commenced	\$10.32	\$7.91	\$9.27
Total per square foot	\$27.22	\$17.53	\$37.00
Total per square foot per year	\$5.97	\$5.30	\$4.01
Average remaining lease term (in years)	6.3	5.7	9.2

-
- (1) Includes only tenants with lease terms of 12 months or longer. Excludes leases for month-to-month and first generation tenants.
- (2) Excludes leases for which the space was vacant for longer than one year, or vacant when the property was acquired by the Company.

Capital expenditures per square foot decreased moderately in 2013. As all of our properties are well-maintained and do not require significant capital improvements, we currently anticipate future capital expenditure levels to be consistent with historical levels. The 2013 increase in replacement tenant improvements per square foot commenced is primarily due to increased activity in San Diego and greater Seattle, which commanded higher lease and tenant improvement rates. The 2013 increase in renewal tenant improvements per square foot commenced is primarily due to the commencement of two significant lease renewals in 2013. Excluding these two leases, office tenant improvements per square foot leased would be materially consistent with the previous year.

Distribution Requirements

For a discussion of our dividend and distribution requirements, see “Liquidity and Capital Resources of the Company—Distribution Requirements.”

Other Potential Future Liquidity Uses

We remain a disciplined buyer of office properties and continue to focus on value add opportunities in West Coast markets populated by knowledge and creative based tenants in a variety of industries, including technology, media, healthcare, entertainment and professional services. We expect that any material acquisitions or development activities will be funded with borrowings under the revolving credit facility, the public or private issuance of debt or equity securities, the disposition of assets under our capital recycling program or through the assumption of existing debt.

In addition, the amounts we are required to spend on tenant improvements and leasing costs we ultimately incur will depend on actual leasing activity. Tenant improvements and leasing costs generally fluctuate in any given period depending on factors such as the type of property, the term of the lease, the type of the lease, the involvement of external leasing agents, and overall market conditions. Capital expenditures may fluctuate in any given period subject to the nature, extent, and timing of improvements required to maintain or improve our properties.

Factors That May Influence Future Sources of Capital and Liquidity of the Company and the Operating Partnership

We continue to evaluate sources of financing for our business activities, including borrowings under the revolving credit facility, issuance of public and private equity securities, unsecured debt and fixed-rate secured mortgage financing, and proceeds from the disposition of selective assets through our capital recycling program. However, our ability to obtain new financing or refinance existing borrowings on favorable terms could be impacted by various factors, including the state of economic conditions, the state of the credit and equity markets, significant tenant defaults, a decline in the demand for office properties, a decrease in market rental rates or market values of real estate assets in our submarkets, and the amount of future borrowings. These events could result in the following:

• Decreases in our cash flows from operations, which could create further dependence on the revolving credit facility;

• An increase in the proportion of variable-rate debt, which could increase our sensitivity to interest rate fluctuations in the future; and

• A decrease in the value of our properties, which could have an adverse effect on the Operating Partnership’s ability to incur additional debt, refinance existing debt at competitive rates, or comply with its existing debt obligations.

In addition to the factors noted above, the Operating Partnership’s credit ratings are subject to ongoing evaluation by credit rating agencies and may be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. In the event that the Operating Partnership’s credit ratings are downgraded, we may incur higher borrowing costs and may experience difficulty in obtaining additional financing or refinancing existing indebtedness.

Debt Covenants

The revolving credit facility, term loan facility, unsecured senior notes, and certain other secured debt arrangements contain covenants and restrictions requiring us to meet certain financial ratios and reporting requirements. Key existing financial covenants and their covenant levels include:

Unsecured Credit Facility and Term Loan Facility (as defined in the applicable Credit Agreements):	Covenant Level	Actual Performance as of December 31, 2013
Total debt to total asset value	less than 60%	35%
Fixed charge coverage ratio	greater than 1.5x	2.3x
Unsecured debt ratio	greater than 1.67x	2.52x
Unencumbered asset pool debt service coverage	greater than 2.0x	3.3x

Unsecured Senior Notes due 2015, 2018, 2020 and 2023
(as defined in the applicable Indentures):

Total debt to total asset value	less than 60%	40%
Interest coverage	greater than 1.5x	4.2x
Secured debt to total asset value	less than 40%	10%
Unencumbered asset pool value to unsecured debt	greater than 150%	266%

The Operating Partnership was in compliance with all its debt covenants as of December 31, 2013. Our current expectation is that the Operating Partnership will continue to meet the requirements of its debt covenants in both the short and long term. However, in the event of an economic slowdown or continued volatility in the credit markets, there is no certainty that the Operating Partnership will be able to continue to satisfy all the covenant requirements.

Consolidated Historical Cash Flow Summary

The following summary discussion of our consolidated historical cash flow is based on the consolidated statements of cash flows in Item 15. "Exhibits and Financial Statement Schedules" and is not meant to be an all-inclusive discussion of the changes in our cash flow for the periods presented below. The cash flow amounts shown below include the activities of discontinued operations. Our historical cash flow activity for the year ended December 31, 2013 as compared to the year ended December 31, 2012 is as follows:

	Year Ended December 31,		Dollar Change	Percentage Change	
	2013	2012			
	(\$ in thousands)				
Net cash provided by operating activities	\$240,576	\$180,724	\$59,852	33.1	%
Net cash used in investing activities	(506,520)	(706,506)	199,986	(28.3))%
Net cash provided by financing activities	284,621	537,705	(253,084)	(47.1))%

Operating Activities

Our cash flows from operating activities depend on numerous factors including the occupancy level of our portfolio, the rental rates achieved on our leases, the collectability of rent and recoveries from our tenants, the level of operating expenses, the impact of property acquisitions and related financing activities, and other general and administrative costs. Our net cash provided by operating activities increased by \$59.9 million, or 33.1%, for the year ended December 31, 2013 compared to the year ended December 31, 2012 primarily as a result of an increase in cash Net

Operating Income generated from our Acquisition Properties. See additional information under the caption “—Results of Operations.”

75

Investing Activities

Our cash flows used in investing activities is generally used to fund property, development and redevelopment acquisitions, recurring and nonrecurring capital expenditures for our operating properties, and development and redevelopment projects, net of proceeds received from dispositions of operating properties. Our net cash used in investing activities decreased by \$200.0 million, or 28.3%, for the year ended December 31, 2013 compared to the year ended December 31, 2012. The net decrease was primarily attributable to the receipt of \$228.8 million of restricted cash from escrow during the year ended December 31, 2013 related to proceeds from the sale of our industrial portfolio that was set aside at December 31, 2012 to facilitate Section 1031 Exchanges, a decrease of approximately \$252.2 million of cash paid for acquisitions of operating properties, net of cash acquired, as compared to the prior period and a decrease of \$242.4 million of net proceeds received from dispositions of operating properties as compared to the prior period. This net decrease was offset by an increase of \$236.8 million attributable to the increased expenditures for development and redevelopment properties and undeveloped land.

Financing Activities

Our net cash provided by financing activities is principally impacted by our capital raising activities, net of dividends and distributions paid to common and preferred security holders. Net cash provided by financing activities decreased by \$253.1 million, or 47.1%, for the year ended December 31, 2013 compared to the year ended December 31, 2012 primarily due to a decrease in the level of equity raising activities in 2013 compared to the prior year period.

Off-Balance Sheet Arrangements

As of December 31, 2013 and as of the date this report was filed, we did not have any off-balance sheet transactions, arrangements, or obligations, including contingent obligations.

Non-GAAP Supplemental Financial Measure: Funds From Operations

We calculate FFO in accordance with the White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales of depreciable real estate and impairment write-downs associated with depreciable real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), and after adjustment for unconsolidated partnerships and joint ventures. Our calculation of FFO includes the amortization of deferred revenue related to tenant-funded tenant improvements and excludes the depreciation of the related tenant improvement assets.

We believe that FFO is a useful supplemental measure of our operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of our activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, our FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, we believe that FFO along with the required GAAP presentations provides a more complete measurement of our performance relative to our competitors and a more appropriate basis on which to make decisions involving operating, financing, and investing activities than the required GAAP presentations alone would provide.

However, FFO should not be viewed as an alternative measure of our operating performance because it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs and could materially impact our results from operations.

The following table presents our FFO for the years ended December 31, 2013, 2012, 2011, 2010 and 2009:

	Year ended December 31,				
	2013	2012	2011	2010	2009
	(in thousands)				
Net income available to common stockholders	\$30,630	\$249,826	\$50,819	\$4,512	\$21,794
Adjustments:					
Net income attributable to noncontrolling common units of the Operating Partnership	685	6,187	1,474	178	1,025
Depreciation and amortization of real estate assets	199,558	168,687	135,467	102,898	86,825
Net gain on dispositions of discontinued operations	(12,252)	(259,245)	(51,587)	(949)	(2,485)
Funds From Operations ⁽¹⁾	\$218,621	\$165,455	\$136,173	\$106,639	\$107,159

Includes amortization of deferred revenue related to tenant-funded tenant improvements of \$10.7 million, \$9.1 million, \$9.3 million, \$9.7 million and \$9.8 million for the years ended December 31, 2013, 2012, 2011, 2010 and 2009, respectively. Reported amounts are attributable to common stockholders and common unitholders.

The following table presents our weighted average shares of common stock and common units outstanding for the years ended December 31, 2013, 2012, 2011, 2010 and 2009:

	Year Ended December 31,				
	2013	2012	2011	2010	2009
Weighted average shares of common stock outstanding	77,343,853	69,639,623	56,717,121	49,497,487	38,705,101
Weighted average common units outstanding	1,822,407	1,763,635	1,720,323	1,723,131	1,731,095
Effect of participating securities – nonvested shares and restricted stock units	1,224,208	1,127,534	924,747	812,865	785,582
Total basic weighted average shares / units outstanding	80,390,468	72,530,792	59,362,191	52,033,483	41,221,778
Effect of dilutive securities – Exchangeable Notes, stock options and contingently issuable shares	1,765,025	1,123,482	187,134	15,708	27,025
Total diluted weighted average shares / units outstanding	82,155,493	73,654,274	59,549,325	52,049,191	41,248,803

Inflation

The majority of the Company's leases require tenants to pay for recoveries and escalation charges based upon the tenant's proportionate share of, and/or increases in, real estate taxes and certain operating costs, which reduce the Company's exposure to increases in operating costs resulting from inflation.

New Accounting Pronouncements

There are currently no recently issued accounting pronouncements that are expected to have a material effect on our financial condition and results of operations in future periods.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The primary market risk we face is interest rate risk. We mitigate this risk by following established risk management policies and procedures. These policies include maintaining prudent amounts of debt, including a greater amount of fixed-rate debt as compared to variable-rate debt in our portfolio, and may include the periodic use of derivative instruments. As of December 31, 2013 and 2012, we did not have any interest-rate sensitive derivative assets or liabilities.

Information about our changes in interest rate risk exposures from December 31, 2012 to December 31, 2013 is incorporated herein by reference from “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources of the Operating Partnership.”

Market Risk

As of December 31, 2013, approximately 8.9% of our total outstanding debt of \$2.2 billion was subject to variable interest rates. The remaining 91.1% bore interest at fixed rates. All of our interest rate sensitive financial instruments are held for purposes other than trading purposes.

In general, interest rate fluctuations applied to our variable-rate debt will impact our future earnings and cash flows. Conversely, interest rate fluctuations applied to our fixed-rate debt will generally not impact our future earnings and cash flows, unless such instruments mature or are otherwise terminated and need to be refinanced. However, interest rate fluctuations will impact the fair value of the fixed-rate debt instruments.

We generally determine the fair value of our secured debt, revolving credit facility, and unsecured term loan facility by performing discounted cash flow analyses using an appropriate market discount rate. We calculate the market rate by obtaining period-end treasury rates for maturities that correspond to the maturities of our fixed-rate debt and then adding an appropriate credit spread based on information obtained from third-party financial institutions. We calculate the market rate of our revolving credit facility and unsecured term loan facility by obtaining the period-end LIBOR rate and then adding an appropriate credit spread based on information obtained from third-party financial institutions. These credit spreads take into account factors, including but not limited to, our credit profile, the tenure of the debt, amortization period, whether the debt is secured or unsecured, and the loan-to-value ratio of the debt to the collateral. These calculations are significantly affected by the assumptions used, including the discount rate, credit spreads, and estimates of future cash flow. We determine the fair value of the liability component of our 4.25% Exchangeable Notes by performing discounted cash flow analyses using an appropriate market interest rate based upon spreads for our publicly traded debt. We determine the fair value of each of our publicly traded unsecured senior notes based on their quoted trading price at the end of the reporting period. See Note 16 “Fair Value Measurements and Disclosures” in the consolidated financial statements included in this report for additional information on the fair value of our financial assets and liabilities as of December 31, 2013 and December 31, 2012.

As of December 31, 2013, the total outstanding balance of our variable-rate debt was comprised of borrowings on our revolving credit facility of \$45.0 million and borrowings on our unsecured term loan facility of \$150.0 million, which were indexed to LIBOR plus a spread of 1.450% (weighted average interest rate of 1.62%) and 1.750% (weighted average interest rate of 1.92%), respectively. As of December 31, 2012, the total outstanding balance of our variable-rate debt was comprised of borrowings on our revolving credit facility of \$185.0 million and borrowings on our unsecured term loan facility of \$150.0 million, which were indexed to LIBOR plus a spread of 1.450% (weighted average interest rate of 1.66%) and 1.750% (weighted average interest rate of 1.97%), respectively. Assuming no changes in the outstanding balance of our existing variable-rate debt as of December 31, 2013, a 100 basis point increase in the LIBOR rate would increase our projected annual interest expense, before the effect of capitalization, by approximately \$2.0 million. Comparatively, if interest rates were 100 basis points higher as of December 31, 2012,

our projected annual interest expense, before the effect of capitalization, would have been \$3.4 million higher.

The total carrying value of our fixed-rate debt, including our 4.25% Exchangeable Notes, was approximately \$2.0 billion and \$1.7 billion as of December 31, 2013 and December 31, 2012, respectively. The total estimated fair value of our fixed-rate debt was approximately \$2.1 billion and \$1.9 billion as of December 31, 2013 and December 31, 2012, respectively. For sensitivity purposes, a 100 basis point increase in the discount rate equates to a decrease in the total fair value of our fixed-rate debt of approximately \$85.1 million, or 4.0%, as of December 31, 2013. Comparatively, a 100 basis point increase in the discount rate equates to a decrease in the total fair value of our fixed-rate debt of approximately \$71.8 million, or 3.8%, as of December 31, 2012.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

80

ITEM 9A. CONTROLS AND PROCEDURES

Kilroy Realty Corporation

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act is processed, recorded, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures as of December 31, 2013, the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded, as of that time, that our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no significant changes that occurred during the fourth quarter of the most recent year covered by this report in the Company's internal control over financial reporting identified in connection with the evaluation referenced above that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of assets that could have a material effect on the consolidated financial statements.

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is supported by written policies and procedures and by an appropriate segregation of responsibilities and duties. The Company has used the criteria set forth in the Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission to assess our internal control over financial reporting. Based upon this assessment, management concluded that internal control over financial reporting operated effectively as of December 31, 2013.

Deloitte & Touche LLP, the Company's independent registered public accounting firm, has audited the Company's financial statements and has issued a report on the effectiveness of the Company's internal control over financial

reporting.

81

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Kilroy Realty Corporation
Los Angeles, California

We have audited the internal control over financial reporting of Kilroy Realty Corporation (the “Company”) as of December 31, 2013, based on criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedules as of and for the year ended

December 31, 2013, of the Company and our report dated February 13, 2014, expressed an unqualified opinion on those financial statements and financial statement schedules.

Kilroy Realty, L.P.

The Operating Partnership maintains disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is processed, recorded, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer of its general partner, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Operating Partnership carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer of its general partner, of the effectiveness of the design and operation of the disclosure controls and procedures as of December 31, 2013, the end of the period covered by this report. Based on the foregoing, the Chief Executive Officer and Chief Financial Officer of its general partner concluded, as of that time, that the Operating Partnership's disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no significant changes that occurred during the fourth quarter of the most recent year covered by this report in the Operating Partnership's internal control over financial reporting identified in connection with the evaluation referenced above that has materially affected, or is reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Internal control over financial reporting is a process designed by, or under the supervision of, the Chief Executive Officer and Chief Financial Officer of the Operating Partnership's general partner and effected by the board of directors, management, and other personnel of its general partner to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of assets that could have a material effect on the consolidated financial statements.

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is supported by written policies and procedures and by an appropriate segregation of responsibilities and duties. The Operating Partnership has used the criteria set forth in the Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission to assess our internal control over financial reporting. Based upon this assessment, management concluded that internal control over financial reporting operated effectively as of December 31, 2013.

Deloitte & Touche LLP, the Operating Partnership's independent registered public accounting firm, has audited the Operating Partnership's financial statements and has issued a report on the effectiveness of the Operating Partnership's

internal control over financial reporting.

83

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Kilroy Realty, L.P.
Los Angeles, California

We have audited the internal control over financial reporting of Kilroy Realty L.P. (the “Operating Partnership”) as of December 31, 2013, based on criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Operating Partnership’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Operating Partnership’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Operating Partnership maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedules as of and for the year ended

December 31, 2013, of the Operating Partnership and our report dated February 13, 2014, expressed an unqualified opinion on those financial statements and financial statement schedules.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Kilroy Realty Corporation
Los Angeles, California

We have audited the accompanying consolidated balance sheets of Kilroy Realty Corporation (the “Company”) as of December 31, 2013 and 2012, and the related consolidated statements of operations, equity, and cash flows for each of the three years in the period ended December 31, 2013. Our audits also included the financial statement schedules listed in the Index at Item 15. These financial statements and financial statement schedules are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and 2012, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 13, 2014, expressed an unqualified opinion on the Company’s internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Partners of Kilroy Realty, L.P.
Kilroy Realty, L.P.
Los Angeles, California

We have audited the accompanying consolidated balance sheets of Kilroy Realty, L.P. (the “Operating Partnership”) as of December 31, 2013 and 2012, and the related consolidated statements of operations, capital, and cash flows for each of the three years in the period ended December 31, 2013. Our audits also included the financial statement schedules listed in the Index at Item 15. These financial statements and financial statement schedules are the responsibility of the Operating Partnership’s management. Our responsibility is to express an opinion on these financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Operating Partnership as of December 31, 2013 and 2012, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Operating Partnership’s internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 13, 2014, expressed an unqualified opinion on the Operating Partnership’s internal control over financial reporting.

F - 13

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 Three Years Ended December 31, 2013

1. Organization and Ownership

Kilroy Realty Corporation (the “Company”) is a self-administered real estate investment trust (“REIT”) active in premier office submarkets along the West Coast. We own, develop, acquire and manage real estate assets, consisting primarily of Class A properties in the coastal regions of Los Angeles, Orange County, San Diego County, the San Francisco Bay Area and greater Seattle, which we believe have strategic advantages and strong barriers to entry. Class A real estate encompasses attractive and efficient buildings of high quality that are attractive to tenants, are well-designed and constructed with above-average material, workmanship and finishes and are well-maintained and managed. We qualify as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”). The Company’s common stock is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “KRC.”

We own our interests in all of our real estate assets through Kilroy Realty, L.P. (the “Operating Partnership”) and Kilroy Realty Finance Partnership, L.P. (the “Finance Partnership”). We conduct substantially all of our operations through the Operating Partnership. Unless stated otherwise or the context indicates otherwise, the terms “Kilroy Realty Corporation” or the “Company,” “we,” “our,” and “us” refer to Kilroy Realty Corporation and its consolidated subsidiaries and the term “Operating Partnership” refers to Kilroy Realty, L.P. and its consolidated subsidiaries. The descriptions of our business, employees, and properties apply to both the Company and the Operating Partnership.

Our stabilized portfolio of operating properties was comprised of the following office properties at December 31, 2013:

	Number of Buildings	Rentable Square Feet (unaudited)	Number of Tenants	Percentage Occupied (unaudited)	
Stabilized Office Properties ⁽¹⁾	105	12,736,099	514	93.4	%

⁽¹⁾ Excludes 12 properties located in San Diego, California that were held for sale at December 31, 2013 (see Note 17 (1) “Discontinued Operations” for additional information). The sale of these properties closed on January 9, 2014 (see Note 23 “Subsequent Events” for additional information).

Our stabilized portfolio includes all of our properties with the exception of properties held for sale, undeveloped land, development and redevelopment properties currently under construction or committed for construction, and “lease-up” properties. We define redevelopment properties as those properties for which we expect to spend significant development and construction costs on the existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. We define “lease-up” properties as properties we recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. During the fourth quarter of 2013, we completed one development property in San Francisco, California and stabilized a redevelopment property in Long Beach, California. As a result, these properties are included in our stabilized portfolio as of December 31, 2013.

As of December 31, 2013, the following properties were excluded from our stabilized portfolio:

	Number of Properties	Estimated Rentable Square Feet (unaudited)
Properties Held for Sale ⁽¹⁾	12	1,049,035
Development properties under construction ⁽²⁾	6	2,538,000

Lease-up properties	1	410,000
---------------------	---	---------

-
- (1) Includes 12 properties located in San Diego, California. The sale of these properties closed on January 9, 2014 (see Note 23 “Subsequent Events” for additional information).
- (2) Estimated rentable square feet upon completion.

As of December 31, 2013, all of our properties and development and redevelopment projects and all of our business was conducted in the state of California with the exception of twelve office properties located in the state of Washington. All of our properties and development and redevelopment projects are 100% owned, excluding a development project owned by Redwood City Partners, LLC, a consolidated subsidiary created on June 27, 2013 (see Note 3 “Acquisitions” for additional information) and certain properties held in Section 1031 Exchanges, which have been consolidated for financial reporting purposes (see Note 2 “Basis of Presentation and Significant Accounting Policies” for additional information).

F - 14

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

As of December 31, 2013, the Company owned a 97.8% common general partnership interest in the Operating Partnership. The remaining 2.2% common limited partnership interest in the Operating Partnership as of December 31, 2013 was owned by non-affiliated investors and certain of our executive officers and directors (see Note 9 “Noncontrolling Interests on the Company’s Consolidated Financial Statements” for additional information). Both the general and limited common partnership interests in the Operating Partnership are denominated in common units. The number of common units held by the Company is at all times equivalent to the number of outstanding shares of the Company’s common stock, and the rights of all the common units to quarterly distributions and payments in liquidation mirror those of the Company’s common stockholders. The common limited partners have certain redemption rights as provided in the Operating Partnership’s Seventh Amended and Restated Agreement of Limited Partnership (as amended, the “Partnership Agreement.” See Note 9 “Noncontrolling Interests on the Company’s Consolidated Financial Statements” for additional information).

Kilroy Realty Finance, Inc., which is a wholly owned subsidiary of the Company, is the sole general partner of the Finance Partnership and owns a 1.0% common general partnership interest in the Finance Partnership. The Operating Partnership owns the remaining 99.0% common limited partnership interest. Kilroy Services, LLC (“KSLLC”), which is a wholly owned subsidiary of the Operating Partnership, is the entity through which we conduct substantially all of our development activities. With the exception of the Operating Partnership and Redwood City Partners, LLC (see Note 3 “Acquisitions” and Note 9 “Noncontrolling Interests on the Company’s Consolidated Financial Statements” for additional information), all of our subsidiaries are wholly owned.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of the Company include the consolidated financial position and results of operations of the Company, the Operating Partnership, the Finance Partnership, KSLLC, Redwood City Partners, LLC and all of our wholly owned and controlled subsidiaries. The consolidated financial statements of the Operating Partnership include the consolidated financial position and results of operations of the Operating Partnership, the Finance Partnership, KSLLC, Redwood City Partners, LLC and all wholly owned and controlled subsidiaries of the Operating Partnership. All intercompany balances and transactions have been eliminated in the consolidated financial statements.

Partially Owned Entities and Variable Interest Entities

Our accounting policy is to consolidate entities in which we have a controlling financial interest and significant decision making control over the entities operations. In determining whether we have a controlling financial interest in a partially owned entity and the requirement to consolidate the accounts of that entity, we consider factors such as ownership interest, board representation, management representation, size of our investment (including loans), authority to control decisions, and contractual and substantive participating rights of the members. In addition to evaluating control rights, we also consolidate entities in which the other member has no substantive kick-out rights to remove the Company as the managing member.

We also evaluate whether the entity is a variable interest entity (“VIE”) and whether we are the primary beneficiary. VIEs are entities in which the equity investors do not have sufficient equity at risk to finance their endeavors without additional financial support or that the holders of the equity investment at risk do not have a controlling financial interest. We are deemed to be the primary beneficiary of a VIE when we have the power to direct the activities of the VIE that most significantly impact the VIEs economic performance and the obligation to absorb losses or receive benefits that could potentially be significant to the VIE.

If the requirements for consolidation are not met, the Company would account for investments under the equity method of accounting if we have the ability to exercise significant influence over the entity. Equity method investments would be initially recorded at cost and subsequently adjusted for our share of net income or loss and cash contributions and distributions each period. The Company did not have any equity method investments at December 31, 2013 or December 31, 2012.

F - 15

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

As of December 31, 2013, the consolidated financial statements of the Company and the Operating Partnership included four VIEs, in which we were deemed to be the primary beneficiary. One of the VIEs was established during the second quarter of 2013 as a result of an acquisition (see Note 3 “Acquisitions” for additional information regarding the Redwood City, California acquisition) and the remaining VIEs were established during the third and fourth quarter of 2013 to facilitate a potential like-kind exchange pursuant to Section 1031 of the Code (“Section 1031 Exchanges”) to defer taxable gains on dispositions for federal and state income tax purposes. To realize the tax deferral available under a Section 1031 Exchange, the Company must complete the Section 1031 Exchanges, if any, and complete the sale of the to-be-exchanged properties within 180 days of the acquisition date (see Note 3 “Acquisitions” for additional information). The VIEs established during the third and fourth quarter of 2013 will be terminated upon the completion of the Section 1031 Exchanges or the expiration of the 180 day period, as applicable. The impact of consolidating the VIEs increased the Company’s total assets, liabilities and noncontrolling interests by approximately \$251.8 million (of which \$234.5 million is related to real estate held for investment on our consolidated balance sheet), \$12.1 million and \$4.9 million, respectively, at December 31, 2013. In February 2014, we successfully completed one of the Section 1031 Exchanges.

As of December 31, 2012, the consolidated financial statements of the Company and the Operating Partnership included two VIEs, in which we were deemed to be the primary beneficiary. The VIEs were established during 2012 to facilitate potential Section 1031 Exchanges to defer taxable gains on dispositions for federal and state income tax purposes. The impact of consolidating the VIEs increased the Company’s total assets and liabilities by approximately \$337.0 million (of which \$319.8 million is related to real estate held for investment on our consolidated balance sheet) and \$111.1 million, respectively, at December 31, 2012. The Section 1031 Exchanges were completed in March 2013 and these entities were no longer VIEs at December 31, 2013.

Significant Accounting Policies

Acquisitions

We record the acquired tangible and intangible assets and assumed liabilities of acquisitions of operating properties and development and redevelopment opportunities that meet the accounting criteria to be accounted for as business combinations at fair value at the acquisition date. The acquired assets and assumed liabilities for an acquisition generally include but are not limited to (i) land and improvements, buildings and improvements, undeveloped land and construction in progress and (ii) identified tangible and intangible assets and liabilities associated with in-place leases, including tenant improvements, leasing costs, value of above-market and below-market operating leases and ground leases, acquired in-place lease values and tenant relationships, if any. Any debt assumed and equity (including common units of the Operating Partnership) issued in connection with a property acquisition is recorded at fair value on the date of acquisition.

The fair value of land and improvements is derived from comparable sales of land and improvements within the same submarket and/or region. The fair value of buildings and improvements, tenant improvements and leasing costs considers the value of the property as if it was vacant as well as current replacement costs and other relevant market rate information.

The fair value of the above-market or below-market component of an acquired in-place operating lease is based upon the present value (calculated using a market discount rate) of the difference between (i) the contractual rents to be paid pursuant to the lease over its remaining non-cancellable lease term and (ii) our estimate of the rents that would be paid using fair market rental rates and rent escalations at the date of acquisition measured over the remaining non-cancellable term of the lease for above-market operating leases and the initial non-cancellable term plus the term of any below-market fixed rate renewal options, if applicable, for below-market operating leases. Our below-market

operating leases generally do not include fixed rate or below-market renewal options. The amounts recorded for above-market operating leases are included in deferred leasing costs and acquisition-related intangible assets, net on the balance sheet and are amortized on a straight-line basis as a reduction of rental income over the remaining term of the applicable leases. The amounts recorded for below-market operating leases are included in deferred revenue and acquisition-related intangible liabilities, net on the balance sheet and are amortized on a straight-line basis as an increase to rental income over the remaining term of the applicable leases plus the term of any below-market fixed rate renewal options, if applicable.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The fair value of acquired in-place leases is derived based on our assessment of lost revenue and costs incurred for the period required to lease the “assumed vacant” property to the occupancy level when purchased. The amount recorded for acquired in-place leases is included in deferred leasing costs and acquisition-related intangible assets, net on the balance sheet and amortized as an increase to depreciation and amortization expense over the remaining term of the applicable leases. Fully amortized intangible assets are written off each quarter.

We record the acquisition of undeveloped land that does not meet the accounting criteria to be accounted for as business combinations and the subsequent acquisition of the fee interest in land and improvements underlying our properties at the purchase price paid and capitalize the associated acquisition costs. During the years ended December 31, 2013 and 2012, we capitalized \$2.3 million and \$0.7 million, respectively, in acquisition costs associated with the acquisition of undeveloped land. We did not capitalize any acquisition costs during the year ended December 31, 2011.

Operating Properties

Operating properties are generally carried at historical cost less accumulated depreciation. Properties held for sale are reported at the lower of the carrying value or the fair value less estimated cost to sell. The cost of operating properties includes the purchase price or development costs of the properties. Costs incurred for the renovation and betterment of the operating properties are capitalized to our investment in that property. Maintenance and repairs are charged to expense as incurred.

When evaluating properties to be held and used for potential impairment, we first evaluate whether there are any indicators of impairment for any of our properties. If any impairment indicators are present for a specific property, we then perform an undiscounted cash flow analysis and compare the net carrying amount of the property to the property’s estimated undiscounted future cash flow over the anticipated holding period. If the estimated undiscounted future cash flow is less than the net carrying amount of the property, we then perform an impairment loss calculation to determine if the fair value of the property is less than the net carrying value of the property. Our impairment loss calculation compares the net carrying amount of the property to the property’s estimated fair value, which may be based on estimated discounted future cash flow calculations or third-party valuations or appraisals. We would recognize an impairment loss if the asset’s net carrying amount exceeds the asset’s estimated fair value. If we were to recognize an impairment loss, the estimated fair value of the asset (less costs to sell for assets held for sale) would become its new cost basis. For a depreciable long-lived asset, the new cost basis would be depreciated (amortized) over the remaining useful life of that asset. We did not record any impairment losses for the periods presented.

Cost Capitalization

All costs clearly associated with the development, redevelopment and construction of a property are capitalized as project costs, including internal compensation costs. In addition, the following costs are capitalized as project costs during periods in which activities necessary to prepare development and redevelopment properties for its intended use are in progress: pre-construction costs essential to the development of the property, interest, real estate taxes and insurance.

For development and redevelopment properties that are pre-leased, we cease capitalization when revenue recognition commences, which is upon substantial completion of tenant improvements.

For development and redevelopment properties that are not pre-leased, we may not immediately build out the tenant improvements. Therefore we cease capitalization when revenue recognition commences upon substantial completion of the tenant improvements, but in any event, no later than one year after the cessation of major construction

activities. We also cease capitalization on a development or redevelopment property when activities necessary to prepare the property for its intended use have been suspended.

For development or redevelopment properties with multiple tenants and staged leasing, we cease capitalization and begin depreciation on the portion of the development or redevelopment property for which revenue recognition has commenced.

F - 17

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Once major construction activity has ceased and the development or redevelopment property is in the lease-up phase, the costs capitalized to construction in progress are transferred to land and improvements, buildings and improvements, and deferred leasing costs and acquisition-related intangible assets, net on our consolidated balance sheets as the historical cost of the property.

Depreciation and Amortization of Buildings and Improvements

The cost of buildings and improvements and tenant improvements are depreciated using the straight-line method of accounting over the estimated useful lives set forth in the table below. Depreciation expense for buildings and improvements, including discontinued operations, for the three years ended December 31, 2013, 2012, and 2011 was \$145.3 million, \$125.9 million and \$106.0 million, respectively.

Asset Description	Depreciable Lives
Buildings and improvements	25 – 40 years
Tenant improvements	1 – 20 years ⁽¹⁾

(1) Tenant improvements are amortized over the shorter of the lease term or the estimated useful life.

Discontinued Operations and Properties Held for Sale

The revenues and expenses of operating properties that have been sold, if material, and the revenues and expenses of operating properties that have been classified as held for sale, if material, are reported in the consolidated statements of operations as discontinued operations for all periods presented through the date of the applicable disposition. The net gains (losses) on disposition of operating properties are reported in the consolidated statements of operations as discontinued operations in the period the properties are sold. In determining whether the revenues, expenses, and net gains (losses) on dispositions of operating properties are reported as discontinued operations, we evaluate whether we have any significant continuing involvement in the operations, leasing, or management of the sold property. If we were to determine that we had any significant continuing involvement, the revenues, expenses and net gain (loss) on dispositions of the operating property would not be recorded in discontinued operations.

An operating property is classified as held for sale when certain criteria are met, including but not limited to the availability of the asset for immediate sale, the existence of an active program to locate a buyer and the probable sale or transfer of the asset within one year. If such criteria are met, we present the applicable assets and liabilities related to the property held for sale, if material, separately on the balance sheet and we would cease to record depreciation and amortization expense. Properties held for sale are reported at the lower of their carrying value or their estimated fair value less the estimated costs to sell. As of December 31, 2013, there are 12 properties located in San Diego, California that were held for sale. As of December 31, 2012, we did not have any buildings and improvements classified as held for sale.

Revenue Recognition

We recognize revenue from rent, tenant reimbursements, parking and other revenue once all of the following criteria are met: (i) the agreement has been fully executed and delivered, (ii) services have been rendered, (iii) the amount is fixed or determinable, and (iv) the collectability of the amount is reasonably assured.

Minimum annual rental revenues are recognized in rental revenues on a straight-line basis over the term of the related lease. Rental revenue recognition commences when the tenant takes possession or controls the physical use of the leased space. In order for the tenant to take possession, the leased space must be substantially ready for its intended

use. To determine whether the leased space is substantially ready for its intended use, we evaluate whether the Company owns or the tenant owns the tenant improvements. When we conclude that the Company is the owner of tenant improvements, rental revenue recognition begins when the tenant takes possession of the finished space, which is when such tenant improvements are substantially complete. In certain instances, when we conclude that the Company is not the owner (the tenant is the owner) of tenant improvements, rental revenue recognition begins when the tenant takes possession of or controls the space.

F - 18

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

When we conclude that the Company is the owner of tenant improvements, we record the cost to construct the tenant improvements, whether paid for or reimbursed by the tenants, as a capital asset. For these tenant improvements, we record the amount funded by or reimbursed by the tenants as deferred revenue, which is amortized on a straight-line basis as additional rental income over the term of the related lease.

When we conclude that the tenant is the owner of tenant improvements for accounting purposes, we record our contribution towards those improvements as a lease incentive, which is included in deferred leasing costs and acquisition-related intangible assets, net on our consolidated balance sheets and amortized as a reduction to rental income on a straight-line basis over the term of the lease.

Tenant Reimbursements

Reimbursements from tenants, consisting of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, are recognized as revenue in the period the recoverable costs are incurred. Tenant reimbursements are recognized and recorded on a gross basis, as we are generally the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier, and have credit risk.

Other Property Income

Other property income primarily includes amounts recorded in connection with lease terminations and tenant bankruptcy settlement payments. Lease termination fees are amortized over the remaining lease term, if applicable. If there is no remaining lease term, they are recognized when received and realized. Other property income also includes miscellaneous income from tenants, such as fees related to the restoration of leased premises to their original condition and fees for late rental payments.

Allowances for Uncollectible Tenant and Deferred Rent Receivables

We carry our current and deferred rent receivables net of allowances for uncollectible amounts. Our determination of the adequacy of these allowances is based primarily upon evaluations of individual receivables, current economic conditions, historical loss experience, and other relevant factors. The allowances are increased or decreased through the provision for bad debts on our consolidated statements of operations.

Cash and Cash Equivalents

We consider all highly-liquid investments with original maturities of three months or less to be cash equivalents.

Restricted Cash

Restricted cash consists of cash proceeds from dispositions that are temporarily held at qualified intermediaries for purposes of facilitating potential Section 1031 Exchanges and cash held in escrow related to acquisition holdbacks. Restricted cash also includes cash held as collateral to provide credit enhancement for the Operating Partnership's mortgage debt, including cash reserves for capital expenditures, tenant improvements and property taxes.

Marketable Securities / Deferred Compensation Plan

Marketable securities reported in our consolidated balance sheets represent the assets held in connection with the Kilroy Realty Corporation 2007 Deferred Compensation Plan (the "Deferred Compensation Plan") (see Note 13

“Employee Benefit Plans” for additional information). The Deferred Compensation Plan assets are held in a limited rabbi trust and invested in various mutual and money market funds. As a result, the marketable securities are treated as trading securities for financial reporting purposes and are adjusted to fair value at the end of each accounting period, with the corresponding gains and losses recorded in interest income and other net investment gains.

F - 19

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

At the time eligible management employees (“Participants”) defer compensation or earn mandatory Company contributions, or if we were to make a discretionary contribution, we record compensation cost and a corresponding deferred compensation plan liability, which is included in accounts payable, accrued expenses, and other liabilities on our consolidated balance sheets. This liability is adjusted to fair value at the end of each accounting period based on the performance of the benchmark funds selected by each Participant, and the impact of adjusting the liability to fair value is recorded as an increase or decrease to compensation cost. The impact of adjusting the deferred compensation plan liability to fair value and the changes in the value of the marketable securities held in connection with the Deferred Compensation Plan generally offset and therefore does not significantly impact net income.

Deferred Leasing Costs

Costs incurred in connection with successful property leasing are capitalized as deferred leasing costs and classified as investment activities in the statement of cash flows. Deferred leasing costs consist primarily of leasing commissions and also include certain internal payroll costs and lease incentives, which are amortized using the straight-line method of accounting over the lives of the leases which generally range from one to 20 years. We reevaluate the remaining useful lives of leasing costs as the creditworthiness of our tenants and economic and market conditions change. If we determine that the estimated remaining life of a lease has changed, we adjust the amortization period accordingly. Fully amortized deferred leasing costs are written off each quarter.

Deferred Financing Costs

Financing costs related to the origination or assumption of long-term debt are deferred and generally amortized using the straight-line method of accounting, which approximates the effective interest method, over the contractual terms of the applicable financings. As of December 31, 2013 and 2012, deferred financing costs were reported net of accumulated amortization of \$13.2 million and \$16.6 million, respectively.

Debt Discounts and Premiums

Original issuance debt discounts and discounts/premiums related to recording debt acquired in connection with operating property acquisitions at fair value are generally amortized and accreted on a straight-line basis, which approximates the effective interest method. Discounts are recorded as additional interest expense from date of issuance or acquisition through the contractual maturity date of the related debt. Premiums are recorded as a reduction to interest expense from the date of issuance or acquisition through the contractual maturity date of the related debt. Our secured debt is presented including unamortized premiums of \$14.6 million and \$7.2 million as of December 31, 2013 and 2012, respectively. Our unsecured senior notes are presented net of unamortized discounts of \$1.9 million and \$2.1 million, as of December 31, 2013 and 2012, respectively.

Exchangeable Debt Instruments

The initial proceeds from exchangeable debt that may be settled in cash, including partial cash settlements, are bifurcated between a liability component and an equity component associated with the embedded conversion option. The liability and equity components of exchangeable debt are separately accounted for in a manner such that the interest expense on the exchangeable debt is not recorded at the stated rate of interest but rather at an effective rate that reflects the issuer’s conventional debt borrowing rate at the date of issuance.

We calculate the liability component of exchangeable debt based on the present value of the contractual cash flows discounted at a comparable market conventional debt borrowing rate at the date of issuance. The difference between the principal amount and the fair value of the liability component is reported as a discount on the exchangeable debt

that is accreted as additional interest expense from the issuance date through the contractual maturity date using the effective interest method. A portion of this additional interest expense is capitalized to the development and redevelopment balances qualifying for interest capitalization each period. The liability component of the exchangeable debt is reported net of discounts on our consolidated balance sheets.

We calculate the equity component of exchangeable debt based on the difference between the initial proceeds received from the issuance of the exchangeable debt and the fair value of the liability component at the issuance date. The equity component is included in additional paid-in-capital, net of issuance costs, on our consolidated balance sheets. We allocate issuance costs for exchangeable debt between the liability and the equity components based on their relative values.

F - 20

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Noncontrolling Interests in the Company's Consolidated Financial Statements

Noncontrolling interests in the Company's consolidated financial statements represent the common limited partnership interests in the Operating Partnership not held by the Company ("noncontrolling common units") and our interest in a consolidated subsidiary, formed during the year ended December 31, 2013, Redwood City Partners, LLC (see Note 3 "Acquisitions" for additional information).

Noncontrolling common units are presented in the equity section of the Company's consolidated balance sheets and reported at their proportionate share of the net assets of the Operating Partnership. Noncontrolling interests with redemption provisions that permit the issuer to settle in either cash or shares of common stock must be further evaluated to determine whether equity or temporary equity classification on the balance sheet is appropriate. Since the common units contain such a provision, we evaluated the accounting guidance and determined that the common units qualify for equity presentation in the Company's consolidated financial statements (see Note 9 "Noncontrolling Interests on the Company's Consolidated Financial Statements").

Net income attributable to noncontrolling common units is allocated based on their relative ownership percentage of the Operating Partnership during the reported period. The noncontrolling interest ownership percentage is determined by dividing the number of noncontrolling common units by the total number of common units outstanding. The issuance or redemption of additional shares of common stock or common units results in changes to the noncontrolling interest percentage as well as the total net assets of the Company. As a result, all equity transactions result in an allocation between equity and the noncontrolling interest in the Company's consolidated balance sheets and statements of equity to account for the changes in the noncontrolling interest ownership percentage as well as the change in total net assets of the Company.

Preferred Partnership Interests on the Operating Partnership's Consolidated Balance Sheets

Preferred partnership interests of the Operating Partnership represent the issued and outstanding 4,000,000 6.875% Series G Cumulative Redeemable Preferred Units ("Series G Preferred Units") and the 4,000,000 6.375% Series H Cumulative Redeemable Preferred Units ("Series H Preferred Units"), which were outstanding as of December 31, 2013 and 2012.

The Series G and Series H Preferred Units are presented in the permanent equity section of the Operating Partnership's consolidated balance sheets given that the Series G and Series H Preferred Units may be redeemed only at our option (see Note 11 "Preferred and Common Units of the Operating Partnership"). The Company is the holder of both the Series G and Series H Preferred Units and for each Series G and Series H Preferred Unit, the Company has an equivalent number of shares of the Company's 6.875% Series G Cumulative Redeemable Preferred Stock and shares of the Company's 6.375% Series H Cumulative Redeemable Preferred Stock publicly issued and outstanding.

Common Partnership Interests on the Operating Partnership's Consolidated Balance Sheets

The common units held by the Company and the noncontrolling common units held by the common limited partners are both presented in the permanent equity section of the Operating Partnership's consolidated balance sheets in partners' capital. The redemption rights of the noncontrolling common units permit us to settle the redemption obligation in either cash or shares of the Company's common stock at our option (see Note 9 "Noncontrolling Interests on the Company's Consolidated Financial Statements" for additional information).

Noncontrolling Interests on the Operating Partnership's Consolidated Balance Sheets

Noncontrolling interests of the Operating Partnership represent the Company's 1.0% general partnership interest in the Finance Partnership and the Operating Partnership's interest in a new consolidated subsidiary, Redwood City Partners, LLC (see Note 3 "Acquisitions" for additional information). The 1.0% general partnership interest in the Finance Partnership noncontrolling interest is presented in the permanent equity section of the Operating Partnership's consolidated balance sheets given that these interests are not convertible or redeemable into any other ownership interest of the Company or the Operating Partnership.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Equity Offerings

Underwriting commissions and offering costs incurred in connection with common equity offerings and our at-the-market stock offering program (see Note 10 “Stockholders’ Equity of the Company”) are reflected as a reduction of additional paid-in capital. Issuance costs incurred in connection with preferred equity offerings are reflected as a reduction of the carrying value of the preferred equity.

The Company records preferred stock issuance costs as a noncash preferred equity distribution at the time we notify the holders of preferred stock or units of our intent to redeem such shares or units.

The net proceeds from any equity offering of the Company are contributed to the Operating Partnership in exchange for a number of common or preferred units equivalent to the number of shares of common or preferred stock issued and are reflected in the Operating Partnership’s consolidated financial statements as an increase in partners’ capital.

Share-based Incentive Compensation Accounting

Compensation cost for all share-based awards, including options, requires measurement at estimated fair value on the grant date and recognition of the compensation cost is recognized over the service vesting period, which represents the requisite service period, on a straight-line basis. The grant date fair value of market measure-based share-based compensation plans are calculated using a Monte Carlo simulation pricing model. The grant date fair value of stock option grants is calculated using the Black-Scholes valuation model. Equity awards settled in cash are valued at the fair value of our common stock on the period end date through the settlement date. Equity awards settled in cash are remeasured at each reporting period and are recognized as a liability in the consolidated balance sheet during the vesting period until settlement.

For share-based awards in which the performance period precedes the grant date, we recognize compensation cost over the requisite service period, which includes both the performance and service vesting periods, using the accelerated attribution expense method. The requisite service period begins on the date the Executive Compensation Committee authorizes the award and adopts any relevant performance measures.

During the performance period for a share-based award program when the performance period precedes the grant date, we estimate the total compensation cost of the potential future awards. We then record compensation cost equal to the portion of the requisite service period that has elapsed through the end of the reporting period. For programs with performance-based measures, the total estimated compensation cost is based on our most recent estimate of the probable achievement of the pre-established specific corporate performance measures. These estimates are based on our latest internal forecasts for each performance measure. For programs with market measures, the total estimated compensation cost is based on the fair value of the award at the reporting date.

In accordance with the provisions of our share-based incentive compensation plans, we accept the return of shares of Company common stock, at the current quoted market price, from certain key employees to satisfy minimum statutory tax-withholding requirements related to shares that vested during the period.

For share based awards granted by the Company, the Operating Partnership issues a number of common units equal to the number of shares of common stock ultimately granted by the Company in respect of such awards.

Basic and Diluted Net Income (Loss) Available to Common Stockholders per Share

Basic net income (loss) available to common stockholders per share is computed by dividing net income (loss) available to common stockholders, after the allocation of income to participating securities, by the weighted-average number of vested shares of common stock outstanding, for the period. Diluted net income (loss) available to common stockholders per share is computed by dividing net income (loss) available for common stockholders, after the allocation of income to participating securities, by the sum of the weighted-average number of shares of common stock outstanding for the period plus the assumed exercise of all dilutive securities. The impact of the outstanding common units is considered in the calculation of diluted net income (loss) available to common stockholders per share. The common units are not reflected in the diluted net income (loss) available to common stockholders per share calculation because the exchange of common units into common stock is on a one for one basis, and the common units are allocated net income on a per share basis equal to the common stock (see Note 18 "Net Income Available to Common Stockholders

F - 22

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Per Share of the Company”). Accordingly, any exchange would not have any effect on diluted net income (loss) available to common stockholders per share.

Nonvested share-based payment awards (including nonvested restricted stock units (“RSUs”), vested market-measure RSUs and dividend equivalents issued to holders of RSUs) containing nonforfeitable rights to dividends or dividend equivalents are accounted for as participating securities and included in the computation of basic and diluted net income (loss) available to common stockholders per share pursuant to the two-class method. The dilutive effect of stock options are reflected in the weighted average diluted outstanding shares calculation by application of the treasury stock method. The dilutive effect of the exchangeable debt instruments is reflected in the weighted average diluted outstanding shares calculation when the average quoted trading price of the Company’s common stock on the NYSE for the periods presented was above the exchangeable debt exchange prices. The dilutive effect of the outstanding nonvested shares of common stock (“nonvested shares”) and RSUs that have not yet been granted but are contingently issuable under the share-based compensation programs is reflected in the weighted average diluted shares calculation by application of the treasury stock method at the beginning of the quarterly period in which all necessary conditions have been satisfied.

Basic and Diluted Net Income (Loss) Available to Common Unitholders per Unit

Basic net income (loss) available to common unitholders per unit is computed by dividing net income (loss) available to common unitholders, after the allocation of income to participating securities, by the weighted-average number of vested common units outstanding, for the period. Diluted net income (loss) available to common unitholders per unit is computed by dividing net income (loss) available to common unitholders, after the allocation of income to participating securities, by the sum of the weighted-average number of common units outstanding for the period plus the assumed exercise of all dilutive securities.

The dilutive effect of stock options, Exchangeable Notes, outstanding nonvested shares, RSUs, and awards containing nonforfeitable rights to dividend equivalents are reflected in diluted net income (loss) available to common unitholders per unit in the same manner as noted above for net income (loss) available to common stockholders per share.

Fair Value Measurements

The fair value of our financial assets and liabilities are disclosed in Note 16 to our consolidated financial statements. The only financial assets recorded at fair value on a recurring basis in our consolidated financial statements are our marketable securities. We elected not to apply the fair value option for any of our eligible financial instruments or other items.

We determine the estimated fair value of financial assets and liabilities utilizing a hierarchy of valuation techniques based on whether the inputs to a fair value measurement are considered to be observable or unobservable in a marketplace. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. This hierarchy requires the use of observable market data when available. The following is the fair value hierarchy:

Level 1 – quoted prices for identical instruments in active markets;

Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and

Level 3 – fair value measurements derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

We determine the fair value for the marketable securities using quoted prices in active markets for identical assets. Our other financial instruments, which are only disclosed at fair value, are comprised of secured debt, unsecured senior notes, unsecured line of credit, unsecured term loan facility and Exchangeable Notes.

F - 23

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

We generally determine the fair value of our secured debt, unsecured line of credit, and unsecured term loan facility by performing discounted cash flow analyses using an appropriate market discount rate. We calculate the market rate by obtaining period-end treasury rates for maturities that correspond to the maturities of our fixed-rate debt and then adding an appropriate credit spread based on information obtained from third-party financial institutions. We calculate the market rate of our unsecured line of credit and unsecured term loan facility by obtaining the period-end London Interbank Offered Rate (“LIBOR”) rate and then adding an appropriate credit spread based on information obtained from third-party financial institutions. These credit spreads take into account factors, including but not limited to, our credit profile, the tenure of the debt, amortization period, whether the debt is secured or unsecured, and the loan-to-value ratio of the debt to the collateral. These calculations are significantly affected by the assumptions used, including the discount rate, credit spreads and estimates of future cash flow. We determine the fair value of the liability component of our Exchangeable Notes by performing discounted cash flow analyses using an appropriate market interest rate based upon spreads for our publicly traded debt. We determine the fair value of each of our publicly traded unsecured senior notes based on their quoted trading price at the end of the reporting period, if such prices are available.

Carrying amounts of our cash and cash equivalents, restricted cash and accounts payable approximate fair value due to their short-term maturities.

Income Taxes

We have elected to be taxed as a REIT under Sections 856 through 860 of the Code. To qualify as a REIT, we must distribute annually at least 90% of our adjusted taxable income, as defined in the Code, to our stockholders and satisfy certain other organizational and operating requirements. For distributions with respect to taxable years ended on or before December 31, 2011, Internal Revenue Service (“IRS”) guidance allows REITs to satisfy up to 90% of this requirement through the distribution of shares of common stock, if certain conditions are met. We generally will not be subject to federal income taxes if we distribute 100% of our taxable income for each year to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income taxes (including any applicable alternative minimum tax) on our taxable income at regular corporate rates and we may not be able to qualify as a REIT for four subsequent taxable years. Even if we qualify for taxation as a REIT, we may be subject to certain state and local taxes on our income and property and to federal income taxes and excise taxes on our undistributed taxable income. Accordingly, no provision for income taxes has been made in the accompanying financial statements. We believe that we have met all of the REIT distribution and technical requirements for the years ended December 31, 2013, 2012 and 2011, and we were not subject to any federal income taxes (see Note 20 “Tax Treatment of Distributions” for additional information). We intend to continue to adhere to these requirements and maintain the Company’s REIT status.

In addition, any taxable income from our taxable REIT subsidiary, which was formed in 2002, is subject to federal, state, and local income taxes. For the years ended December 31, 2013, 2012 and 2011 the taxable REIT subsidiary had de minimis taxable income.

Uncertain Tax Positions

We include favorable tax positions in the calculation of tax liabilities if it is more likely than not that our adopted tax position will prevail if challenged by tax authorities.

As a result of our REIT status, we are able to claim a dividends-paid deduction on our tax return to deduct the full amount of common and preferred dividends paid to stockholders when computing our annual taxable income. Since this dividends-paid deduction has historically exceeded our taxable income, the Company has historically had

significant return of capital to its stockholders. In order for us to be required to record any unrecognized tax benefits or additional tax liabilities, any adjustment for potential uncertain tax positions would need to exceed the return of capital.

We evaluated the potential impact of identified uncertain tax positions for all tax years still subject to potential audit under state and federal income tax law and concluded that our return of capital would not be materially affected for any of the years still subject to potential audit. As of December 31, 2013, the years still subject to audit are 2009 through 2012 under the California state income tax law and 2010 through 2012 under the federal income tax law. We concluded that we did not have any unrecognized tax benefits or any additional tax liabilities as of December 31, 2013 and 2012.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates.

Segment

We currently operate in one operating segment, our office properties segment. As of December 31, 2013, all of our properties and development and redevelopment projects and all of our business was conducted in the state of California with the exception of twelve office properties located in the state of Washington.

Concentration of Credit Risk

All of our properties and development and redevelopment projects and all of our business is currently conducted in the state of California with the exception of the ownership and operation of twelve office properties located in the state of Washington. The ability of the tenants to honor the terms of their leases is dependent upon the economic, regulatory, and social factors affecting the communities in which the tenants operate.

As of December 31, 2013, our 15 largest tenants represented approximately 33.0% of total annualized base rental revenues.

We have deposited cash with financial institutions that is insured by the Federal Deposit Insurance Corporation (“FDIC”) up to \$250,000 per institution. As of December 31, 2013 and 2012, we had cash accounts in excess of FDIC insured limits.

Recent Accounting Pronouncements

There are no recently issued accounting pronouncements that are expected to have a material effect on our financial condition and results of operations in future periods.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

3. Acquisitions

Operating Properties

During the years ended December 31, 2013 and 2012, we acquired the 18 operating office properties, listed below, from unrelated third parties. Unless otherwise noted, we funded these acquisitions with proceeds from the Company's public offerings of common stock (see Note 10 "Stockholders' Equity of the Company"), borrowings under the unsecured line of credit (see Note 7 "Secured and Unsecured Debt of the Operating Partnership"), disposition proceeds (see Note 17 "Discontinued Operations"), the assumption of existing debt and/or the issuance of common units of the Operating Partnership.

Property	Date of Acquisition	Number of Buildings	Rentable Square Feet (unaudited)	Occupancy as of December 31, 2013 (unaudited)	Purchase Price (in millions) ⁽¹⁾
2013 Acquisitions					
320 Westlake Ave. N. and 321 Terry Ave. N., Seattle, WA ⁽²⁾⁽³⁾	January 16, 2013	2	320,398	100.0%	\$170.0
12780 and 12790 El Camino Real, San Diego, CA ⁽⁴⁾	September 19, 2013	2	218,940	100.0%	126.4
Total ⁽⁵⁾		4	539,338		\$296.4

Total ⁽¹¹⁾		14	1,759,603		\$674.0

(1) Excludes acquisition-related costs and non-lease related accrued liabilities assumed. Includes assumed unpaid leasing commissions and tenant improvements.

(2) We acquired these properties through a new special purpose entity wholly owned by the Finance Partnership. In connection with this acquisition, we assumed secured debt with an outstanding principal balance of

(3) \$83.9 million that was recorded at fair value on the acquisition date, resulting in a premium of approximately \$11.6 million (see Note 7 "Secured and Unsecured Debt of the Operating Partnership").

As of December 31, 2013, these properties, together the "Heights of Del Mar" project, are temporarily being held in a separate VIE to facilitate potential Section 1031 Exchanges (see Note 2 "Basis of Presentation and Significant Accounting Policies"). The \$126.4 million purchase price includes \$9.4 million for 4.2 acres of undeveloped land the Company acquired in connection with this acquisition.

(5) The results of operations for the properties acquired during 2013 contributed \$17.5 million and \$0.9 million to revenues and net income from continuing operations, respectively, for the year ended December 31, 2013.

We acquired these properties through the acquisition of the ownership interest of the bankruptcy remote LLC that owned the properties. In connection with this acquisition we also acquired cash of approximately \$4.0 million and other assets of approximately \$0.2 million and we assumed current liabilities of approximately \$0.6 million and secured debt with an outstanding principal balance of \$34.0 million and a premium of \$1.7 million as a result of recording the debt at fair value at the acquisition date (see Note 7 “Secured and Unsecured Debt of the Operating Partnership”).

In connection with this acquisition, we assumed secured debt with an outstanding principal balance of \$83.6 million and a premium of \$1.4 million as a result of recording this debt at fair value on the acquisition date. In January 2013, we repaid this loan prior to the stated maturity (see Note 7 “Secured and Unsecured Debt of the Operating Partnership” for additional information).

As part of the consideration for this transaction, we issued 118,372 common units of the Operating Partnership valued at \$47.34 per unit, which was the Company’s closing stock price on the NYSE on the acquisition date. In connection with this acquisition we also assumed secured debt with an outstanding principal balance of \$53.9 million and a premium of \$3.1 million as a result of recording this debt at fair value on the acquisition date (see Note 7 “Secured and Unsecured Debt of the Operating Partnership”). We also assumed \$4.7 million of accrued liabilities in connection with this acquisition that are not included in the purchase price above.

In connection with this acquisition, we assumed secured debt with an outstanding principal balance of \$40.7 million and a premium of \$2.7 million as a result of recording this debt at fair value on the acquisition date (see Note 7 “Secured and Unsecured Debt of the Operating Partnership”).

This operating property was acquired in connection with the purchase of the 555 N. Mathilda Ave. development property discussed in further detail in the “Development and Redevelopment Project Sites” section of this footnote, for a total purchase price of \$137.6 million.

(11) The results of operations for the properties acquired during 2012 contributed \$18.9 million and \$3.4 million to revenues and net income from continuing operations, respectively, for the year ended December 31, 2012.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The related assets, liabilities and results of operations of the acquired properties are included in the consolidated financial statements as of the date of acquisition. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the respective acquisition dates for our 2013 acquisitions:

2013 Acquisitions	Total 2013 Acquisitions ⁽¹⁾ (in thousands)
Assets	
Land and improvements	\$53,790
Buildings and improvements ⁽²⁾	218,211
Undeveloped land and construction in progress ⁽³⁾	9,360
Deferred leasing costs and acquisition-related intangible assets ⁽⁴⁾	30,789
Total assets acquired	312,150
Liabilities	
Deferred revenue and acquisition-related intangible liabilities ⁽⁵⁾	4,190
Secured debt ⁽⁶⁾	95,496
Accounts payable, accrued expenses and other liabilities	422
Total liabilities assumed	100,108
Net assets and liabilities acquired ⁽⁷⁾	\$212,042

(1) The purchase price of the two acquisitions completed during the year ended December 31, 2013 were individually less than 5% and in aggregate less than 10% of the Company's total assets as of December 31, 2013.

(2) Represents buildings, building improvements and tenant improvements.

(3) In connection with one of the acquisitions, we acquired undeveloped land of approximately 4.2 acres that was added to the Company's future development pipeline upon acquisition.

Represents in-place leases (approximately \$19.6 million with a weighted average amortization period of 4.7 years), (4) above-market leases (approximately \$3.2 million with a weighted average amortization period of 6.1 years), and leasing commissions (approximately \$7.9 million with a weighted average amortization period of 5.9 years).

(5) Represents below-market leases (approximately \$4.2 million with a weighted average amortization period of 7.7 years).

Represents the mortgage loan, which includes an unamortized premium of approximately \$11.6 million at the date (6) of acquisition, assumed in connection with the properties acquired in January 2013 (see Note 7 "Secured and Unsecured Debt of the Operating Partnership" for additional information).

(7) Reflects the purchase price net of assumed secured debt and other lease-related obligations.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the respective acquisition dates for our 2012 acquisitions:

2012 Acquisitions	4100-4700 Bohannon Dr., Menlo Park, CA (in thousands)	10900 NE 4th St., Bellevue, WA	599 N. Mathilda, Sunnyvale, CA	All Other Acquisitions ⁽¹⁾	Total 2012 Acquisitions
Assets					
Land and improvements ⁽²⁾	\$38,810	\$25,080	\$13,538	\$40,211	\$117,639
Buildings and improvements ⁽³⁾	124,617	150,877	12,558	257,458	545,510
Cash and cash equivalents	—	—	—	3,973	3,973
Restricted cash	—	—	—	5,329	5,329
	9,470	16,469	3,004	30,570	59,513

Deferred leasing costs and acquisition-related intangible assets ⁽⁴⁾					
Prepaid expenses and other assets	—	—	—	184	184
Total assets acquired	172,897	192,426	29,100	337,725	732,148
Liabilities					
Deferred revenue and acquisition-related intangible liabilities ⁽⁵⁾	10,380	4,940	—	19,700	35,020
Secured debt, net ⁽⁶⁾	—	84,984	—	136,048	221,032
Accounts payable, accrued expenses and other liabilities	137	627	—	5,584	6,348
Total liabilities assumed	10,517	90,551	—	161,332	262,400
Net assets and liabilities acquired ⁽⁷⁾	\$ 162,380	\$ 101,875	\$ 29,100	\$ 176,393	\$ 469,748

(1) The purchase price of all other acquisitions during the year ended December 31, 2012 were individually less than 5% and in aggregate less than 10% of the Company's total assets as of 2012.

In connection with the acquisitions of 701, 801, and 837 N. 34th St., Seattle, WA, we assumed the lessee obligations under a ground lease with an initial expiration in December 2041. The ground lease obligation contains three 10-year extension options and one 45-year extension option. In connection with the acquisitions of 601 108th Ave., N.E., Bellevue, WA, we assumed the lessee obligation under a ground lease that is scheduled to expire in November 2093 (see Note 15 "Commitments and Contingencies" for additional information pertaining to these ground leases).

(3) Represents buildings, building improvements and tenant improvements.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Represents in-place leases (approximately \$43.4 million with a weighted average amortization period of 4.7 years), above-market leases (approximately \$1.4 million with a weighted average amortization period of 3.8 years), (4) leasing commissions (approximately \$14.2 million with a weighted average amortization period of 3.4 years), and a below-market ground lease obligation (approximately \$0.5 million with a weighted average amortization period of 59.6 years).

Represents below-market leases (approximately \$33.9 million with a weighted average amortization period of 6.5 (5) years) and an above-market ground lease obligation (approximately \$1.1 million with a weighted average amortization period of 29.6 years).

Represents the fair value of the mortgage loans assumed, which includes an aggregate unamortized premium (6) balance of approximately \$8.9 million at the dates of acquisition (see Note 7 “Secured and Unsecured Debt of the Operating Partnership”).

(7) Reflects the purchase price plus cash and restricted cash received, net of assumed secured debt, lease-related obligations and other accrued liabilities.

Development and Redevelopment Project Sites

Crossing/900

On June 27, 2013, the Company entered into an agreement with an unaffiliated third party and formed a new consolidated subsidiary, Redwood City Partners, LLC. In connection with this transaction, the Company acquired a 0.35 acre land site, completing the first phase of the land assemblage for its plans to develop an approximate 300,000 square foot office project (the “Crossing/900” project) in Redwood City, California. In October 2013, the Company acquired a 2.0 acre undeveloped land parcel for \$17.0 million, completing the final phase of the land assemblage for the Crossing/900 project. The related assets, liabilities, and noncontrolling interest acquired in connection with this transaction are included in our consolidated financial statements as of the date of acquisition. The following table summarizes the allocation of the assets acquired and liabilities assumed at the acquisition date (in thousands):

	Phase I	Phase II	Total Crossing/900
Assets			
Undeveloped land and construction in progress	\$11,222	\$17,000	\$28,222
Total assets	11,222	17,000	28,222
Liabilities			
Secured debt ⁽¹⁾	1,750	—	1,750
Accounts payable, accrued expenses and other liabilities	1,952	1,475	3,427
Total liabilities	3,702	1,475	5,177
Noncontrolling interest in consolidated subsidiary	4,885	—	4,885
Net assets and liabilities acquired	\$2,635	\$15,525	\$18,160

(1) This note was repaid as of December 31, 2013.

Academy Project

In November 2013, we acquired an undeveloped land project site, Academy Project, in Hollywood, California for a purchase price of \$45.7 million, including the assumption of \$0.7 million of accrued liabilities. As of December 31, 2013, this property was temporarily being held in a separate VIE to facilitate a potential Section 1031 Exchange (see Note 2 “Basis of Presentation and Significant Accounting Policies” for additional information). As of December 31, 2013, the project is included in our future development pipeline and, as a result, the underlying assets

were included as undeveloped land and construction in progress in our consolidated financial statements.

360 Third Street

In November 2012, we exercised an option to purchase the land underlying the ground leases at 360 Third Street in San Francisco, California for \$27.5 million. This transaction closed in October 2013 and the land was included as land and improvements in our consolidated financial statements on the acquisition date. As of December 31, 2013, this property was temporarily being held in a separate VIE to facilitate a potential Section 1031 Exchange (see Note 2 “Basis of Presentation and Significant Accounting Policies” for additional information). In February 2014, we successfully completed this Section 1031 Exchange.

F - 28

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

During the year ended December 31, 2012, we acquired six development and redevelopment project sites, respectively from unrelated third parties. Unless otherwise noted, we funded these acquisitions with proceeds from the Company's public offering of common stock (see Note 10 "Stockholders' Equity of the Company"), disposition proceeds (see Note 17 "Discontinued Operations") and/or borrowings under the unsecured line of credit (see Note 7 "Secured and Unsecured Debt of the Operating Partnership" for additional information).

Project	Date of Acquisition	Type	Purchase Price (in millions) ⁽¹⁾
2012 Acquisitions			
690 E. Middlefield Road, Mountain View, CA ⁽²⁾⁽³⁾	May 9, 2012	Development	\$74.5
333 Brannan Street, San Francisco, CA	July 20, 2012	Development	18.5
Columbia Square, Los Angeles, CA ⁽⁴⁾	September 28, 2012	Development and Redevelopment	65.0
350 Mission Street, San Francisco, CA	October 23, 2012	Development	52.0
331 Fairchild Drive, Mountain View, CA ⁽²⁾⁽⁵⁾⁽⁶⁾	December 4, 2012	Development	21.8
555 N. Mathilda Avenue, Sunnyvale, CA ⁽²⁾⁽⁷⁾⁽⁸⁾	December 17, 2012	Development	108.5
Total			\$340.3

(1) Excludes leasing costs and/or other accrued liabilities assumed in connection with the acquisitions.

(2) Acquisition of these development sites are accounted for as business combinations because the projects were 100% pre-leased upon acquisition.

(3) The total purchase price for this acquisition was comprised of a cash purchase price of \$74.5 million plus \$9.5 million of assumed leasing commissions and other accrued liabilities.

(4) In connection with this acquisition we also assumed \$1.1 million of other accrued liabilities which are not included in the purchase price above.

(5) The total purchase price for this acquisition was comprised of a cash purchase price of \$18.9 million plus \$2.9 million of development costs reimbursed to the seller. In addition, we assumed \$2.1 million of leasing commissions and other accrued liabilities which are not included in the purchase price above.

(6) In October, we stabilized the 331 Fairchild Drive development project in Mountain View, California.

As of December 31, 2012, this property was temporarily being held in a separate VIE to facilitate a potential (7) Section 1031 Exchange (see Note 2 "Basis of Presentation and Significant Accounting Policies"). The VIE was terminated in upon exchange in 2013.

(8) This development site was acquired with the purchase of the 555 Mathilda operating property for a total cash purchase price of \$137.6 million plus \$2.4 million of development costs reimbursed to the seller. In addition, we assumed \$11.8 million of other accrued liabilities which are not included in the purchase price above.

The related assets and liabilities of the acquired projects are included in the consolidated financial statements as of the date of acquisition. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the respective acquisition dates for our 2012 development and redevelopment acquisitions:

2012 Acquisitions	555 N. Mathilda, Sunnyvale, CA (in thousands)	All Other Acquisitions	Total
Assets			
Undeveloped land and construction in progress	\$120,243	\$244,584	\$364,827
Restricted cash ⁽¹⁾	11,250	—	11,250
Prepaid expenses and other assets	—	1,300	1,300
Total assets acquired	131,493	245,884	377,377

Liabilities

Accounts payable, accrued expenses and other liabilities ⁽¹⁾	23,071	9,752	32,823
Total liabilities assumed	23,071	9,752	32,823
Net assets and liabilities acquired ⁽²⁾	\$108,422	\$236,132	\$344,554

(1) In connection with this acquisition, restricted cash is being held in escrow to pay for potential environmental costs and contingent development costs. Any unused amounts will be released to the seller.

(2) Reflects the purchase price including assumed leasing commissions, net of assumed accrued liabilities.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.

Total	\$115,474	\$ 13,352	\$57,319	\$ 477	\$ (43,679)	\$ (6,097)

(1) Represents estimated annual amortization related to above-market operating leases. Amounts will be recorded as a decrease to rental income in the consolidated statements of operations.

(2) Represents estimated annual amortization related to below-market ground lease obligations. Amounts will be recorded as an increase to ground lease expense in the consolidated statements of operations.

(3) Represents estimated annual amortization related to below-market operating leases. Amounts will be recorded as an increase to rental income in the consolidated statements of operations.

(4) Represents estimated annual amortization related to above-market ground lease obligations. Amounts will be recorded as a decrease to ground lease expense in the consolidated statements of operations.

5. Receivables

Current Receivables, net

Current receivables, net is primarily comprised of contractual rents and other lease-related obligations due from tenants. The balance consisted of the following as of December 31, 2013 and 2012:

	December 31, 2013 (1)	December 31, 2012
	(in thousands)	
Current receivables	\$12,866	\$11,801
Allowance for uncollectible tenant receivables	(2,123)	(2,581)
Current receivables, net	\$10,743	\$9,220

(1) Excludes current receivables, net related to properties held for sale at December 31, 2013.

Deferred Rent Receivables, net

Deferred rent receivables, net consisted of the following as of December 31, 2013 and 2012:

	December 31, 2013 (1)	December 31, 2012
	(in thousands)

F - 31

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

6. Secured and Unsecured Debt of the Company

In this Note 6, the “Company” refers solely to Kilroy Realty Corporation and not to any of our subsidiaries. The Company itself does not hold any indebtedness. All of our secured and unsecured debt is held directly by the Operating Partnership.

The Company generally guarantees all the Operating Partnership’s unsecured debt obligations including the unsecured revolving credit facility, the \$150.0 million unsecured term loan facility, the 6.45% unsecured senior notes due 2014, the 5.00% unsecured senior notes due 2015, the 4.80% unsecured senior notes due 2018, the 6.625% unsecured senior notes due 2020, the 3.80% unsecured senior notes due in 2023 and the 4.25% Exchangeable Notes. As of December 31, 2013 and 2012, the Operating Partnership had \$1.6 billion and \$1.5 billion, respectively, outstanding in total under these unsecured debt obligations.

In addition, although the remaining \$0.6 billion of the Operating Partnership’s debt for both December 31, 2013 and 2012 is secured and non-recourse to the Company, the Company provides limited customary secured debt guarantees for items such as voluntary bankruptcy, fraud, misapplication of payments and environmental liabilities.

The Company and the Operating Partnership are both named parties to the capped call option transactions discussed further in Note 7.

Debt Covenants and Restrictions

One of the covenants contained within the credit facility and the term loan facility, as discussed further below in Note 7 prohibits the Company from paying dividends in excess of 95% of funds from operations (“FFO”).

7. Secured and Unsecured Debt of the Operating Partnership

Secured Debt

The following table sets forth the composition of our secured debt as of December 31, 2013 and 2012:

Type of Debt	Annual Stated Interest Rate (1)	GAAP Effective Rate (1)(2)	Maturity Date	December 31,	
				2013 ⁽³⁾	2012 ⁽³⁾
				(in thousands)	
Mortgage note payable	4.27%	4.27%	February 2018	\$133,117	\$135,000
Mortgage note payable ⁽⁴⁾	4.48%	4.48%	July 2027	97,000	97,000
Mortgage note payable ⁽⁵⁾	6.05%	3.50%	June 2019	92,502	—
Mortgage note payable ⁽⁶⁾	6.37%	3.55%	April 2013	—	83,116
Mortgage note payable	6.51%	6.51%	February 2017	67,663	68,615
