Recent Developments: On February 22, 2012, we priced a public stock offering for 12,000,000 shares of our common stock at \$10.95 per share (or \$10.82 per share net proceeds excluding expenses), raising \$129.84 million of gross proceeds. The offering is expected to close on February 28, 2012, subject to customary closing conditions.

On March 9, 2012, we entered into an Agreement of Resignation, Appointment and Acceptance (the "Agreement") with American Stock Transfer & Trust Company, LLC (the "Retiring Trustee") and U.S. Bank National Association (the "Successor Trustee"). Under the Agreement, we formally accepted the resignation of the Retiring Trustee and appointed the Successor Trustee under the Indenture, dated as of February 16, 2012 (the "Indenture"), by and between us and the Retiring Trustee, as supplemented by the First Supplemental Indenture, dated as of March 1, 2012, by and between us and the Retiring Trustee, as further supplemented by the Second Supplemental Indenture, dated as of March 8, 2012, by and between us and the Retiring Trustee, as further supplemented by the Joinder Supplemental Indenture, dated as of March 8, 2012, by and among us, the Retiring Trustee and the Successor Trustee. The Successor Trustee will be trustee for these Notes. We accepted the resignation of the Retiring Trustee and appointed the Successor Trustee in order to take advantage of a more efficient money market based system of settling issuances of notes issued pursuant to the Indenture not available through the Retiring Trustee.

On March 19, 2012, we entered into a definitive agreement to provide debt and equity for the acquisition of the businesses of First Tower Corp. ("First Tower"), a private multiline specialty finance company based in Flowood, Mississippi with over 150 branch offices. We are acquiring 80.1% of First Tower for \$110.2 million of cash and 14.5 million of our shares of common stock. We have the option, at our sole discretion, to substitute up to 100% cash in lieu of such 14.5 million shares of our common stock at a price per share based on average trading prices prior to the closing date. Completion of the acquisition is subject to regulatory approvals and is expected to close in approximately 60 to 120 days.

On March 27, 2012, we completed a first closing on an expanded five-year \$650 million revolving credit facility (the "Facility") for Prospect Capital Funding LLC. The new Facility, for which ten lenders have closed on \$410 million to date, includes an accordion feature that allows the Facility, at our discretion, to accept up to a total of \$650 million of commitments, an objective we target reaching with additional lenders. The revolving period of the Facility extends through March 2015, followed by an additional two year amortization period, with distributions allowed to us after the completion of the revolving period. Pricing for the Facility is one-month Libor plus 2.75%, with no minimum Libor floor achieving an approximately 125 basis point reduction in pricing (based on current Libor) from the previous three-year facility pricing of Libor (with a minimum Libor floor of 1%) plus 3.25%. The new Facility has an investment grade Moody's rating of Aa3. Improvements in the Facility include increases in advance rates under certain conditions, decreases in unused line fees, increases in maximum eligible loan sizes, and increases in baskets for longer-dated and quarterly pay loans.

On April 4, 2012, we added one additional lender to the committed lenders under the new Facility, increasing the total commitments under the new Facility to \$425 million.

On April 10, 2012, we updated our estimate of net income per share for the third fiscal quarter ended March 31, 2012 to \$0.50 to \$0.55 per share, a reduction of 3 cents per share from \$0.53 to \$0.58 per share. The reduction is primarily due to the increase in the average number of shares outstanding for the quarter from our issuance of 12,000,000 shares of common stock on February 22, 2012.

On April 11, 2012, we priced \$130 million in aggregate principal amount of 5.5-year unsecured 5.375% Convertible Senior Notes Due 2017 (the "2017 Notes"). We also granted the initial purchasers of the 2017 Notes an option to purchase up to an additional \$20 million in aggregate principal amount of 2017 Notes. The offering closed on April 16, 2012. The 2017 Notes are convertible into shares of Prospect's common stock at an initial conversion rate of 85.8442 shares of Prospect's common stock per \$1,000 principal amount of 2017 Notes, which is equivalent to a conversion price of approximately \$11.65 per share of common stock, representing a 10% conversion premium over the last reported sale price of Prospect's common stock on April 10, 2012, which was \$10.59 per share. The conversion price for the 2017 Notes will not be reduced for monthly cash dividends paid to common shares at or below the rate of 10.15 cents per share, subject to anti-dilution and other adjustments. Interest on the 2017 Notes will be payable semiannually in arrears on April 15 and October 15 of each year, beginning October 15, 2012. The 2017 Notes will mature on October 15, 2017, unless previously converted in accordance with their terms. The 2017 Notes are general unsecured obligations of Prospect, rank equally in right of payment with Prospect's existing and future senior unsecured debt, and rank senior in right of payment to any potential subordinated debt, should any be issued in the future. We intend to use the net proceeds from the sale of the 2017 Notes to maintain balance sheet liquidity, including repayment of debt under its credit facility, investments in high quality short-term debt instruments or a combination thereof, and thereafter to make long-term investments in accordance with Prospect's investment objectives. The 2017 Notes have no restrictions related to the type and security of assets in which Prospect might invest.

Edgar Filing: PROSPECT CAPITAL CORP - Form 497

On April 18, 2012, we added three additional lenders to the committed lenders under the new Facility, increasing the total commitments under the new Facility to \$482.5 million.

PROSPECTUS SUMMARY

This section summarizes the legal and financial terms of the notes that are described in more detail in "Description of Notes" beginning on page S-40. Final terms of any particular notes will be determined at the time of sale and will be contained in the pricing supplement, which will be included with this prospectus supplement, relating to those notes. The terms in that pricing supplement may vary from and supersede the terms contained in this summary and in "Description of Notes." In addition, you should read the more detailed information appearing elsewhere in this prospectus supplement, the accompanying prospectus and in that pricing supplement.

The terms "we," "us," "our" and "Company" refer to Prospect Capital Corporation; "Prospect Capital Management," "Investment Advisor" and "PCM" refer to Prospect Capital Management LLC; and "Prospect Administration" and the "Administrator" refer to Prospect Administration LLC.

The Company

Prospect Capital Corporation is a financial services company that primarily lends to and invests in middle market privately-held companies. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the "1940 Act." We invest primarily in senior and subordinated debt and equity of companies in need of capital for acquisitions, divestitures, growth, development and recapitalization. We work with the management teams or financial sponsors to seek investments with historical cash flows, asset collateral or contracted pro-forma cash flows.

Typically, we concentrate on making investments in companies with annual revenues of less than \$500 million and enterprise values of less than \$250 million. Our typical investment involves a secured loan of less than \$50 million with some form of equity participation. From time to time, we acquire controlling interests in companies in conjunction with making secured debt investments in such companies. In most cases, companies in which we invest are privately held at the time we invest in them. We refer to these companies as "target" or "middle market" companies and these investments as "middle market investments."

We seek to maximize total returns to our investors, including both current yield and equity upside, by applying rigorous credit analysis and asset-based and cash-flow based lending techniques to make and monitor our investments. Many of our investments to date have been in energy-related industries. We have made no investments to date in the real estate or mortgage industries, and we do not intend currently to focus on such investments.

We are currently pursuing multiple investment opportunities, including purchases of portfolios from private and public companies, as well as originations and secondary purchases of particular securities. We also regularly evaluate control investment opportunities in a range of industries, some of these investments could be material to us. There can be no assurance that we will successfully consummate any investment opportunity we are currently pursuing. If any of these opportunities are consummated, there can be no assurance that investors will share our view of valuation or that any assets acquired will not be subject to future write downs, each of which could have an adverse effect on our stock price.

As of December 31, 2011, we held investments in 75 portfolio companies. The aggregate fair value as of December 31, 2011 of investments in these portfolio companies held on that date is approximately \$1.717 billion. Our portfolio across all our long-term debt had an annualized current yield of 12.2% as of December 31, 2011. The yield includes interest as well as dividends.

On February 6, 2012, we announced the declaration of monthly dividends in the following amounts and with the following dates:

\$0.101450 per share for February 2012 to holders of record on February 29, 2012 with a payment date of March 23, 2012;

\$0.101500 per share for April 2012 to holders of record on April 30, 2012 with a payment date of May 24, 2012.

Recent Investment Activity

On January 4, 2012, Energy Solutions Holdings, Inc. (f/k/a Gas Solutions Holdings, Inc.) ("Energy Solutions") sold its gas gathering and processing assets ("Gas Solutions") for a sale price of \$200.5 million, including a potential earnout of \$28.0 million that will be paid based on the future performance of Gas Solutions. After expenses, including structuring fees of \$9.97 million paid to us, Energy Solutions received approximately \$148.69 million in cash and an additional \$10.0 million is being held in escrow. Currently, our loans to Energy Solutions remain outstanding and are collateralized by the cash held by Energy Solutions as a result of the sale transaction. The accounting for the sale of Gas Solutions has yet to be finalized, but will not result in any dividend income or realized gain recognition by us until cash payments are received from Energy Solutions.

On January 9, 2012, Arrowhead General Insurance Agency, Inc. repaid the \$27.0 million loan receivable to us.

On January 12, 2012, we made a follow-on investment of \$16.5 million to purchase 86.8% of the Class D Notes in CIFC Funding 2011-I, Ltd.

On January 17, 2012, we provided \$18.33 million of secured second-lien financing to a financial services processing company purchased by a leading private equity sponsor.

On January 31, 2012, Aircraft Fasteners International, LLC repaid the \$7.44 million loan receivable to us.

On February 2, 2012, NRG Manufacturing Inc. ("NRG") was sold to an outside buyer for \$123.26 million. In conjunction with the sale, the \$37.22 million loan that was outstanding was repaid. We also received a \$26.94 million make-whole fee for early repayment of the outstanding loan, which will be recorded as interest income in the quarter ending March 31, 2012. Further, we received a \$3.8 million advisory fee for the transaction, which will be recorded as other income in the quarter ending March 31, 2012. After expenses, including the make whole and advisory fees discussed above, \$40.89 million was available to be distributed to stockholders. While our 408 shares of NRG common stock represented 67.1% of the ownership, we only received net proceeds of \$25.99 million as our contribution to the escrow amount was proportionately higher than the other shareholders. In connection with the sales, we will recognize a realized gain of \$24.81 million in the results for the quarter ended March 31, 2012. In total, we received proceeds of \$93.98 million at closing. In addition, there is \$11.13 million being held in escrow of which 80% is due to us upon release of the escrowed amounts. This will be recognized as additional gain when and if received.

On February 15, 2012, we provided \$25 million of secured second-lien financing to a leading provider of Web security and wide area network (WAN) optimization solutions.

Between January 30, 2012 and February 2, 2012, we repurchased \$4.96 million of our August 2016 convertible bonds at a price of 97.5% of par, including commissions. The transactions will result in our recognizing \$10,000 of loss in the quarter ended March 31, 2012.

RISK FACTORS

Your investment in the notes will involve certain risks. This prospectus supplement and the accompanying prospectus do not describe all of those risks.

You should, in consultation with your own financial and legal advisors, carefully consider the following discussion of risks before deciding whether an investment in the notes is suitable for you. The notes will not be an appropriate investment for you if you are not knowledgeable about significant features of the notes or financial matters in general. You should not purchase the notes unless you understand, and know that you can bear, these investment risks.

Our amount of debt outstanding will increase as a result of this offering. Our current indebtedness could adversely affect our business, financial condition and results of operations and our ability to meet our payment obligations under the notes and our other debt.

As of February 15, 2012, we and our subsidiaries had approximately \$490 million of senior indebtedness outstanding, \$172 million of which was secured indebtedness and \$318 million of which was unsecured indebtedness.

The use of debt could have significant consequences on our future operations, including:

making it more difficult for us to meet our payment and other obligations under the notes and our other outstanding debt;

resulting in an event of default if we fail to comply with the financial and other restrictive covenants contained in our debt agreements, which event of default could result in all of our debt becoming immediately due and payable;

reducing the availability of our cash flow to fund investments, acquisitions and other general corporate purposes, and limiting our ability to obtain additional financing for these purposes;

subjecting us to the risk of increased sensitivity to interest rate increases on our indebtedness with variable interest rates, including borrowings under our amended senior credit facility; and

limiting our flexibility in planning for, or reacting to, and increasing our vulnerability to, changes in our business, the industry in which we operate and the general economy.

Any of the above-listed factors could have an adverse effect on our business, financial condition and results of operations and our ability to meet our payment obligations under the notes and our other debt.

Our ability to meet our payment and other obligations under our debt instruments depends on our ability to generate significant cash flow in the future. This, to some extent, is subject to general economic, financial, competitive, legislative and regulatory factors as well as other factors that are beyond our control. We cannot assure you that our business will generate cash flow from operations, or that future borrowings will be available to us under our existing or amended senior credit facility or otherwise, in an amount sufficient to enable us to meet our payment obligations under the notes and our other debt and to fund other liquidity needs. If we are not able to generate sufficient cash flow to service our debt obligations, we may need to refinance or restructure our debt, including any notes sold, sell assets, reduce or delay capital investments, or seek to raise additional capital. If we are unable to implement one or more of these alternatives, we may not be able to meet our payment obligations under the notes and our other debt.

Table of Contents

The notes will be effectively subordinated to any existing and future secured indebtedness and structurally subordinated to existing and future liabilities and other indebtedness of our subsidiaries.

The notes will be our general, unsecured obligations and will rank equally in right of payment with all of our existing and future unsubordinated, unsecured senior indebtedness, including without limitation, the \$150 million of 6.25% Convertible Senior Notes due 2015 and the \$168 million of 5.5% Convertible Senior Notes due 2016. As a result, the notes will be effectively subordinated to our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness and structurally subordinated to any existing and future liabilities and other indebtedness of our subsidiaries. These liabilities may include indebtedness, trade payables, guarantees, lease obligations and letter of credit obligations. The notes do not restrict us or our subsidiaries from incurring indebtedness, including senior secured indebtedness in the future, nor do they limit the amount of indebtedness we can issue that is equal in right of payment to the notes. As of February 15, 2012, we had \$172 million outstanding under our credit facility. Our credit facility is secured by certain of our assets and the indebtedness thereunder is therefore effectively senior to the notes to the extent of the value of such assets.

The indenture and supplemental indentures under which the notes will be issued will contain limited protection for holders of the notes.

The indenture and supplemental indentures (collectively, the "indenture") under which the notes will be issued offer limited protection to holders of the notes. The terms of the indenture and the notes do not restrict our or any of our subsidiaries' ability to engage in, or otherwise be a party to, a variety of corporate transactions, circumstances or events that could have an adverse impact on your investment in the notes. In particular, the terms of the indenture and the notes will not place any restrictions on our or our subsidiaries' ability to:

issue securities or otherwise incur additional indebtedness or other obligations, including (1) any indebtedness or other obligations that would be equal in right of payment to the notes, (2) any indebtedness or other obligations that would be secured and therefore rank effectively senior in right of payment to the notes to the extent of the values of the assets securing such debt, (3) indebtedness of ours that is guaranteed by one or more of our subsidiaries and which therefore is structurally senior to the notes and (4) securities, indebtedness or obligations issued or incurred by our subsidiaries that would be senior to our equity interests in our subsidiaries and therefore rank structurally senior to the notes with respect to the assets of our subsidiaries, in each case other than an incurrence of indebtedness or other obligation that would cause a violation of Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act or any successor provisions;

pay dividends on, or purchase or redeem or make any payments in respect of, capital stock or other securities ranking junior in right of payment to the notes;

sell assets (other than certain limited restrictions on our ability to consolidate, merge or sell all or substantially all of our assets);

enter into transactions with affiliates;

create liens (including liens on the shares of our subsidiaries) or enter into sale and leaseback transactions;

make investments; or

create restrictions on the payment of dividends or other amounts to us from our subsidiaries.

In addition, the indenture will not require us to offer to purchase the notes in connection with a change of control or any other event.

Table of Contents

Furthermore, the terms of the indenture and the notes do not protect holders of the notes in the event that we experience changes (including significant adverse changes) in our financial condition, results of operations or credit ratings, as they do not require that we or our subsidiaries adhere to any financial tests or ratios or specified levels of net worth, revenues, income, cash flow, or liquidity.

Our ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the notes may have important consequences for you as a holder of the notes, including making it more difficult for us to satisfy our obligations with respect to the notes or negatively affecting the trading value of the notes.

Certain of our current debt instruments include more protections for their holders than the indenture and the notes. See in the accompanying prospectus "Risk Factors Risks Relating to Our Business The Notes present other risks to holders of our common stock, including the possibility that the Notes could discourage an acquisition of the Company by a third party and accounting uncertainty" and " In addition to regulatory restrictions that restrict our ability to raise capital, our credit facility contains various covenants which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting our liquidity, financial condition and results of operations." In addition, other debt we issue or incur in the future could contain more protections for its holders than the indenture and the notes, including additional covenants and events of default. The issuance or incurrence of any such debt with incremental protections could affect the market for and trading levels and prices of the notes.

Our credit ratings may not reflect all risks of your investment in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes and our access to the capital markets. These credit ratings may not reflect the potential impact of risks relating to structure or marketing of the notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

We may choose to redeem notes when prevailing interest rates are relatively low.

If your notes will be redeemable at our option, we may choose to redeem your notes from time to time, especially when prevailing interest rates are lower than the rate borne by the notes. If prevailing rates are lower at the time of redemption, you would not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on the notes being redeemed. Our redemption right also may adversely impact your ability to sell your notes as the optional redemption date or period approaches.

Survivor's Option may be limited in amount.

We will have a discretionary right to limit the aggregate principal amount of notes subject to the Survivor's Option that may be exercised in any calendar year to an amount equal to the greater of \$2,000,000 or 2% of the outstanding principal amount of all notes outstanding as of the end of the most recent calendar year. We also have the discretionary right to limit to \$250,000 in any calendar year the aggregate principal amount of notes subject to the Survivor's Option that may be exercised in such calendar year on behalf of any individual deceased beneficial owner of notes. Accordingly, no assurance can be given that exercise of the Survivor's Option for the desired amount will be permitted in any single calendar year.

Table of Contents

We cannot assure that a trading market for your notes will ever develop or be maintained.

In evaluating the notes, you should assume that you will be holding the notes until their stated maturity. The notes are a new issue of securities. We cannot assure you that a trading market for your notes will ever develop, be liquid or be maintained. Many factors independent of our creditworthiness affect the trading market for and market value of your notes. Those factors include, without limitation:

the method of calculating the principal and interest for the notes;

the time remaining to the stated maturity of the notes;

the outstanding amount of the notes;

the redemption or repayment features of the notes; and

the level, direction and volatility of interest rates generally.

There may be a limited number of buyers when you decide to sell your notes. This may affect the price you receive for your notes or your ability to sell your notes at all.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

(All figures in this section are in thousands except share, per share and other data)

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this prospectus supplement and the accompanying prospectus. Historical results set forth are not necessarily indicative of our future financial position and results of operations.

Overview

We are a financial services company that primarily lends to and invests in middle market privately-held companies. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We invest primarily in senior and subordinated debt and equity of companies in need of capital for acquisitions, divestitures, growth, development and recapitalization. We work with the management teams or financial sponsors to seek investments with historical cash flows, asset collateral or contracted pro-forma cash flows.

We seek to be a long-term investor with our portfolio companies. From our July 27, 2004 inception to the fiscal year ended June 30, 2007, we invested primarily in industries related to the industrial/energy economy. Since then, we have widened our strategy to focus in other sectors of the economy and continue to reduce our exposure to the energy industry, and our holdings in the energy and energy related industries now represent less than 13% of our investment portfolio.

The aggregate value of our portfolio investments was \$1,716,603 and \$1,463,010 as of December 31, 2011 and June 30, 2011, respectively. During the six months ended December 31, 2011, our net cost of investments increased by \$212,477, or 14.8%, as a result of thirteen new investments, several follow-on investments and a revolver advance of \$373,943, accrued payment-in-kind interest of \$3,329 and accretion of purchase discount of \$2,575, while we received full repayment on six investments, sold one investment, received several partial prepayments, amortization payments and a revolver repayment totaling \$166,261 and recognized a net realized loss of \$1,109. During the six months ended December 31, 2011, Deb Shops filed for bankruptcy and a plan for reorganization was proposed. The plan, which is expected to be approved by the bankruptcy court, will eliminate our debt position with no payment to us. As a result, we determined that the impairment of Deb Shops was other-than-temporary and recorded a realized loss of \$14,607 for the full amount of the amortized cost. This realized loss was primarily offset by our sale of 392 shares of NRG common stock in December 2011 for which we realized a gain of \$12,131.

Compared to the end of last fiscal year (ended June 30, 2011), net assets increased by \$58,127 or 5.2% during the six months ended December 31, 2011, from \$1,114,357 to \$1,172,484. This increase resulted from the issuance of new shares of our common stock (less offering costs) in the amount of \$14,895, dividend reinvestments of \$5,393, and another \$104,392 from operations. These increases, in turn, were offset by \$66,553 in dividend distributions to our stockholders. The \$104,392 increase in net assets resulting from operations is net of the following: net investment income of \$64,385, net realized loss on investments of \$1,109 and an increase in net assets due to changes in net unrealized appreciation of investments of \$41,116.

Investment Holdings

As of December 31, 2011, we continue to pursue our investment strategy and continue to diversify the portfolio. In May 2007, we changed our name to "Prospect Capital Corporation" and terminated our policy to invest at least 80% of our net assets in energy companies. Since that time, we have reduced our exposure to the energy industry, and our holdings in the energy and energy related industries now represent less than 13% of our investment portfolio.

At December 31 2011, approximately \$1,716,603 or 146.4% of our net assets are invested in 75 long-term portfolio investments and 5.2% of our net assets are invested in money market funds.

During the six months ended December 31, 2011, we originated \$377,272 of new investments. Our origination efforts are focused primarily on secured lending, to reduce the risk in the portfolio, investing primarily in first lien loans, though we also continue to close selected junior debt and equity investments. In addition to targeting investments senior in corporate capital structures with our new originations, we have also increased our origination business mix of third party private equity sponsor owned companies, which tend to have more third party equity capital supporting our debt investments than non-sponsor transactions. Our performing loan portfolio's annualized current yield decreased from 12.3% as of June 30, 2011 to 12.2% as of December 31, 2011 across all long-term debt investments. We

expect Prospect's current asset yield may continue to decline modestly as we continue to reduce credit risk. Generally, we have seen a decrease in interest rates on loans issued during our fiscal year ended June 30, 2011 and the six months ending December 31, 2011 in comparison to the rates in effect prior to June 30, 2010 as we continue to reduce the risk profile of the portfolio. Monetization of other equity positions that we hold is not included in this yield calculation. In many of our portfolio companies, we hold equity positions, ranging from minority interests to majority stakes, which we expect over time to contribute to our investment returns. Some of these equity positions include features such as contractual minimum internal rates of returns, preferred distributions, flip structures and other features expected to generate additional investment returns, as well as contractual protections and preferences over junior equity, in addition to the yield and security offered by our cash flow and collateral debt protections.

We classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally deemed to exist when a company or individual possesses or has the right to acquire within 60 days or less, a beneficial ownership of 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through the possession outright or via the right to acquire within 60 days or less, beneficial ownership of 5% or more of the outstanding voting securities of another person.

As of December 31, 2011, we own controlling interests in AIRMALL USA, Inc. ("AIRMALL"), Ajax Rolled Ring & Machine, Inc. ("Ajax"), AWCNC, LLC, Borga, Inc., C&J Cladding LLC, Energy Solutions, Integrated Contract Services, Inc. ("ICS"), Manx Energy, Inc. ("Manx"), NMMB Holdings, Inc. ("NMMB"), NRG, Nupla Corporation and R-V Industries, Inc. ("R-V"). We also own an affiliated interest in BNN Holdings Corp. f/k/a Biotronic NeuroNetwork ("Biotronic"), Boxercraft Incorporated ("Boxercraft"), Smart, LLC, and Sport Helmets Holdings, LLC ("Sport Helmets").
