THE COMPANY

We provide monitoring services and digital population health management in a healthcare setting, medical device manufacturing and centralized core laboratory services for clinical research. Since we became focused on cardiac monitoring in 1999, we have developed a proprietary integrated patient management platform that incorporates a wireless data transmission network, Food and Drug Administration ("FDA") cleared algorithms and medical devices and 24-hour monitoring service centers.

We operate under three reportable segments: (1) Healthcare, (2) Research and (3) Technology. The Healthcare segment is focused on the diagnosis and monitoring of cardiac arrhythmias or heart rhythm disorders. We offer cardiologists and electrophysiologists a full spectrum of solutions which provides them with a single source of cardiac monitoring services. These services range from the differentiated mobile cardiac telemetry service ("MCT"), which we market as Mobile Cardiac Outpatient Telemetry™ ("MCOT™") or External Cardiac Ambulatory Telemetry ("ECAT"), to wireless and trans telephonic event, traditional Holter, extended-wear Holter, Pacemaker and International Normalized Ratio ("INR") monitoring. The Research segment is engaged in central core laboratory services providing cardiac monitoring, imaging services, scientific consulting and data management services for drug and medical device trials. The Technology segment focuses on the development, manufacturing, testing and marketing of medical devices to medical companies, clinics and hospitals.

Our principal executive offices are located at 1000 Cedar Hollow Road, Malvern, Pennsylvania 19355. Our telephone number is (610) 729-7000.

Potential investors are urged to read and consider the risk factors relating to an investment in our company described in our most recent Annual Report on Form 10-K, as amended or supplemented by subsequent quarterly reports on Form 10-Q, which have been or will be incorporated by reference into this prospectus. A prospectus supplement applicable to each type or series of securities we offer will also contain a discussion of any material risks applicable to the particular type of securities we are offering under that prospectus supplement. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus and any prospectus supplement.

Such forward looking statements are based on current expectations and involve inherent risks and uncertainties, including important factors that could delay, divert or change any of these expectations, and could cause actual outcomes and results to differ materially from current expectations. These factors include, among other things:

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for the company for each of the years in the five-year period ended December 31, 2016. For purposes of computing the ratio of earnings to fixed charges, fixed charges include interest expense on debt and capital leases, deferred financing charges and a debt discount. Earnings are computed by adding interest expense and the amortization of deferred financing charges and the debt discount to earnings from operations before income taxes. Because we had no shares of preferred stock outstanding during any of the periods presented or as of the date of this prospectus, we do not separately present the ratio of earnings to

a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Consolidation, Merger and Sale of Assets

We may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to any person (a "successor person") unless:

we are the surviving corporation or the successor person (if other than BioTelemetry) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture; and

immediately after giving effect to the transaction, no Default or Event of Default, shall have occurred and be continuing.

Notwithstanding the above, any of our subsidiaries may consolidate with, merge into or transfer all or part of its properties to us. (Section 5.1)

Events of Default

"Event of Default" means with respect to any series of debt securities, any of the following:

default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of such default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);

default in the payment of principal of any security of that series at its maturity;

default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee or BioTelemetry and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding debt securities of that series as provided in the indenture;

certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of BioTelemetry; and

any other Event of Default provided with respect to debt securities of that series that is described in the applicable prospectus supplement. (Section 6.1)

No Event of Default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an Event of Default with respect to any other series of debt securities. (Section 6.1) The occurrence of certain Events of Default or an acceleration under the indenture may constitute an event of default under certain indebtedness of ours or our subsidiaries outstanding from time to time.

We will provide the trustee written notice of any Default or Event of Default within 30 days of becoming aware of the occurrence of such Default or Event of Default, which notice will describe in reasonable detail the status of such Default or Event of Default and what action we are taking or propose to take in respect thereof. (Section 6.1)

If an Event of Default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the debt securities of

that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all Events of Default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. (Section 6.2) We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

The indenture provides that the trustee may refuse to perform any duty or exercise any of its rights or powers under the indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in performing such duty or exercising such right or power. (Section 7.1(e)) Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series. (Section 6.12)

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

that holder has previously given to the trustee written notice of a continuing Event of Default with respect to debt securities of that series; and

the holders of not less than 25% in principal amount of the outstanding debt securities of that series have made written request, and offered indemnity or security satisfactory to the trustee, to the trustee to institute the proceeding as trustee, and the trustee has not received from the holders of not less than a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days. (Section 6.7)

Notwithstanding any other provision in the indenture, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, premium and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment. (Section 6.8)

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. (Section 4.3) If a Default or Event of Default occurs and is continuing with respect to the securities of any series and if it is known to a responsible officer of the trustee, the trustee shall deliver (or electronically deliver while Notes are in global form) to each Security holder of the securities of that series notice of a Default or Event of Default within 90 days after it occurs or, if later, after a responsible officer of the trustee has knowledge of such Default or Event of Default. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any Default or Event of Default (except in payment on any debt securities of that series) with respect to debt securities of that series if the trustee determines in good faith that withholding notice is in the interest of the holders of those debt securities. (Section 7.5)

Modification and Waiver

We and the trustee may modify, amend or supplement the indenture or the debt securities of any series without the consent of any holder of any debt security:

to cure any ambiguity, defect or inconsistency;

to comply with covenants in the indenture described above under the heading "Consolidation, Merger and Sale of Assets;"

to provide for uncertificated securities in addition to or in place of certificated securities;

to add guarantees with respect to debt securities of any series or secure debt securities of any series;

to surrender any of our rights or powers under the indenture;

to add covenants or events of default for the benefit of the holders of debt securities of any series;

to comply with the applicable procedures of the applicable depository;

to make any change that does not adversely affect the rights of any holder of debt securities;

to provide for the issuance of and establish the form and terms and conditions of debt securities of any series as permitted by the indenture;

to effect the appointment of a successor trustee with respect to the debt securities of any series and to add to or change any of the provisions of the indenture to provide for or facilitate administration by more than one trustee; or

to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act. (Section 9.1)

We may also modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

reduce the amount of debt securities whose holders must consent to an amendment, supplement or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;

reduce the principal of or premium on or change the fixed maturity of any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;

Edgar Filing: BioTelemetry, Inc. - Form S-3

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default in the payment of the principal of, premium or interest on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);

make the principal of or premium or interest on any debt security payable in currency other than that stated in the debt security;

make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, premium and interest on

those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; or

waive a redemption payment with respect to any debt security. (Section 9.3)

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. (Section 9.2) The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, any premium or any interest on any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration. (Section 6.13)

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (subject to certain exceptions). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money or U.S. government obligations in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal, premium, if any, and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the beneficial owners of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred. (Section 8.3)

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

we may omit to comply with the covenant described under the heading "Consolidation, Merger and Sale of Assets" and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and

any omission to comply with those covenants will not constitute a Default or an Event of Default with respect to the debt securities of that series ("covenant defeasance").

The conditions include:

depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient

in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and

delivering to the trustee an opinion of counsel to the effect that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred. (Section 8.4)

No Personal Liability of Directors, Officers, Employees or Stockholders

None of our past, present or future directors, officers, employees or stockholders, as such, will have any liability for any of our obligations under the debt securities or the indenture or for any claim based on, or in respect or by reason of, such obligations or their creation. By accepting a debt security, each holder waives and releases all such liability. This waiver and release is part of the consideration for the issue of the debt securities. However, this waiver and release may not be effective to waive liabilities under U.S. federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

Governing Law

The indenture and the debt securities, including any claim or controversy arising out of or relating to the indenture or the securities, will be governed by the laws of the State of New York.

The indenture will provide that we, the trustee and the holders of the debt securities (by their acceptance of the debt securities) irrevocably waive, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to the indenture, the debt securities or the transactions contemplated thereby.

The indenture will provide that any legal suit, action or proceeding arising out of or based upon the indenture or the transactions contemplated thereby may be instituted in the federal courts of the United States of America located in the City of New York or the courts of the State of New York in each case located in the City of New York, and we, the trustee and the holder of the debt securities (by their acceptance of the debt securities) irrevocably submit to the non-exclusive jurisdiction of such courts in any such suit, action or proceeding. The indenture will further provide that service of any process, summons, notice or document by mail (to the extent allowed under any applicable statute or rule of court) to such party's address set forth in the indenture will be effective service of process for any suit, action or other proceeding brought in any such court. The indenture will further provide that we, the trustee and the holders of the debt securities (by their acceptance of the debt securities) irrevocably and unconditionally waive any objection to the laying of venue of any suit, action or other proceeding in the courts specified above and irrevocably and unconditionally waive and agree not to plead or claim any such suit, action or other proceeding has been brought in an inconvenient forum. (Section 10.10)

PLAN OF DISTRIBUTION

We may sell the securities:

to or through underwriters or dealers;

through agents;

directly to purchasers;

through a combination of any such methods of sale; or

through any other method described in a prospectus supplement.

If we use underwriters or dealers in the sale, the securities will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions, including:

privately negotiated transaction;

at a fixed public offering price or prices, which may be changed;

in "at the market offerings" within the meaning of Rule 415(a)(4) of the Securities Act;

at prices related to prevailing market prices; or

at negotiated prices.

We will describe in a prospectus supplement the particular terms of the offering of the securities, including the following:

the names of any underwriters or dealers;

the purchase price and the proceeds we will receive from the sale (which may be the market price prevailing at the time of sale, a price related to the prevailing market price or a negotiated price);

any underwriting discounts and other items constituting underwriters' compensation;

any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers;

Edgar Filing: BioTelemetry, Inc. - Form S-3

any over-allotment options granted to the underwriters; and

any other information we think is important.

If securities are sold in an underwritten offering, we will execute an underwriting agreement with an underwriter or underwriters. The underwriters will use this prospectus and the prospectus supplement to sell the securities. The underwriting agreement will provide that the obligations of the underwriters are subject to specified conditions precedent and that the underwriters will be obligated to purchase all the securities if any are purchased. Underwriters may be involved in any at the market offering of securities by or on our behalf.

In connection with the sale of securities, underwriters may be considered to have received compensation from us in the form of underwriting discounts or commissions. They may also receive commissions from purchasers of securities for whom they may act as agent. Underwriters may sell securities to or through dealers. These dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters, and they may also receive commissions from the purchasers for whom they may act as agent.

Offers to purchase securities may be solicited by agents designated by us from time to time. Any agent involved in the offer or sale of the securities in respect of which this prospectus is delivered will be named, and any commissions payable by us to the agent will be set forth, in the applicable prospectus supplement. Unless otherwise set forth in the applicable prospectus supplement, any agent will be acting on a reasonable best efforts basis for the period of its appointment. Any agent may be deemed to be an underwriter, as that term is defined in the Securities Act of 1933, as amended, or the Securities Act, of the offered securities so offered and sold.

If we use a dealer in the sale of the securities, we will sell the securities to the dealer, as principal. The dealer may then resell these securities to the public at varying prices to be determined by the dealer at the time of resale. The prospectus supplement will name these dealers and the terms of these arrangements. In addition, the dealers may sell the securities to other dealers. The terms under which securities may be sold by a dealer to another dealer will be described in the applicable prospectus supplement.

Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters under the Securities Act. Also, any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters, dealers and agents may be entitled under agreements with us to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act, and to reimbursement by us for various expenses.

In order to facilitate the offering of the securities, any underwriters or agents, as the case may be, involved in the offering of such securities may engage in transactions that stabilize, maintain or otherwise affect the price of such securities. Specifically, the underwriters or agents, as the case may be, may overallocate in connection with the offering, creating a short position in such securities for their own account. In addition, to cover overallocations or to stabilize the price of such securities, the underwriters or agents, as the case may be, may bid for, and purchase, such securities in the open market. Finally, in any offering of such securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allotted to an underwriter or a dealer for distributing such securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters or agents, as the case may be, are not required to engage in these activities, and may end any of these activities at any time.

We may offer and sell the securities directly to institutional investors or others. These parties may be deemed to be underwriters under the Securities Act with respect to their resales. The prospectus supplement will include the terms of these transactions.

Any common stock sold pursuant to this prospectus will be listed on the NASDAQ Stock Market, subject to official notice of issuance. Any other securities sold pursuant to this prospectus may or may not be listed on a national securities exchange or a foreign securities exchange. The securities may not have an established trading market. No assurances can be given that there will be a market for any of the securities.

Agents, underwriters and dealers may be customers of, engage in transactions with or perform services for, us and our subsidiaries in the ordinary course of business.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The following unaudited pro forma condensed combined financial information and related notes present the historical condensed combined financial information of BioTelemetry, Inc. (herein referred to as the "Company", "we", "our", "us" and similar terms unless the context indicates otherwise) and Telcare, Inc. and subsidiary ("Telcare"), after giving effect to the acquisition of Telcare that was completed on December 1, 2016 (the "Acquisition"), pursuant to which, the Company acquired certain assets and assumed certain liabilities of Telcare as well as all of the outstanding stock of Telcare's sole subsidiary, Telcare Medical Supply, Inc. ("TMS"). The Acquisition was accounted for as a business combination in accordance with the guidance contained in the Financial Accounting Standards Board's Accounting Standards Codification Topic 805, *Business Combinations* ("ASC 805"). The unaudited pro forma condensed combined financial information gives effect to the acquisition of Telcare based on the assumptions and adjustments described in the accompanying notes to the unaudited pro forma condensed combined financial information.

On February 13, 2017, the Company filed a Current Report on Form 8-K/A which included unaudited pro forma condensed combined financial information in the form of an unaudited pro forma condensed balance sheet as of September 30, 2016, presented as if the Acquisition had occurred on September 30, 2016, and unaudited condensed combined statements of operations and comprehensive income for the nine months ended September 30, 2016 and for the year ended December 31, 2015, presented as if the Acquisition had occurred on January 1, 2015. The following unaudited condensed combined statement of operations and comprehensive income updates and supersedes this previously reported unaudited pro forma condensed combined financial information for the year ended December 31, 2016, presented as if the Acquisition had occurred on January 1, 2016. From December 1, 2016 forward, the results of Telcare are included in the historical results of the Company.

The unaudited pro forma condensed combined financial information was prepared in accordance with Article 11 of the U.S. Securities and Exchange Commission's Regulation S-X. The unaudited pro forma adjustments reflecting the transaction have been prepared in accordance with the guidance for business combinations presented in ASC 805, and reflect the allocation of our preliminary purchase price to the assets acquired and liabilities assumed in the Acquisition based on their estimated fair values. The historical financial information has been adjusted in the unaudited pro forma condensed combined financial information to give effect to pro forma events that are: (i) directly attributable to the Acquisition; (ii) factually supportable; and (iii) with respect to the condensed combined statements of operations and comprehensive income, expected to have a continuing impact on our combined results of operations.

The unaudited pro forma condensed combined financial information is presented for informational purposes only and is not necessarily indicative of the operating results or financial position that would have occurred if the Acquisition had been affected on the dates previously set forth, nor is it indicative of the future operating results or financial position in combination. Our preliminary purchase price allocation was made using our best estimates of fair value, which are dependent upon certain valuation and other analyses that are not yet final. As a result, the unaudited pro forma purchase price adjustments related to the Acquisition are preliminary and subject to further adjustments as additional information becomes available and as additional analyses are performed during the applicable measurement period under ASC 805 (up to one year from the Acquisition date). There can be no assurances that any final valuations will not result in material adjustments to our preliminary estimated purchase price allocation. Further, the unaudited pro forma condensed combined financial information does not give effect to the potential impact of anticipated synergies, operating efficiencies, cost savings or transaction and integration costs that may result from the Acquisition.

1. Basis of Pro Forma Presentation

On December 1, 2016, through our wholly-owned subsidiary, BioTelemetry Care Management, LLC, we entered into a Share and Asset Purchase Agreement (the "Agreement") with Telcare, pursuant to which the Company acquired the outstanding stock of Telcare's sole subsidiary, TMS, as well as certain assets and liabilities of Telcare. The unaudited pro forma condensed combined statement of operations and comprehensive income for the year ended December 31, 2016 combines our historical condensed consolidated statements of operations and comprehensive income with the condensed consolidated statements of operations and comprehensive income of Telcare as if the Acquisition had occurred on January 1, 2016. From December 1, 2016 forward, the results of Telcare are included in the historical results of the Company.

The historical financial information is adjusted in the unaudited pro forma condensed combined financial information to give effect to pro forma events that are: (i) directly attributable to the

Table of Contents

Acquisition; (ii) factually supportable; and (iii) with respect to the condensed combined statements of operations and comprehensive income, expected to have a continuing impact on our combined results.

2. Preliminary Consideration Transferred

Pursuant to the Agreement, we paid total consideration of \$7.0 million in cash at closing, with the potential for a performance-based earn out of up to \$5.0 million, should Telcare's operations meet certain financial milestones as defined in the Agreement. The fair value of the total consideration transferred in the Acquisition, including contingent consideration, is estimated at \$9.7 million.

The estimated fair value of the contingent consideration is measured using unobservable inputs such as projected payment dates, probabilities of meeting specified milestones and other such variables resulting in payment amounts which are discounted back to present value using a probability-weighted discounted cash flow model. These methods require the use of significant judgments and assumptions. As such, the estimated fair value of the contingent consideration, which is based on our preliminary assumptions, is subject to material change.

3. Preliminary Purchase Price Allocation

Under the acquisition method of accounting outlined in ASC 805, the identifiable assets acquired and liabilities assumed in the Acquisition are recorded at their Acquisition-date fair values and are included in the Company's consolidated financial position from December 1, 2016 forward. Our unaudited pro forma adjustments are preliminary in nature and based on the estimates of fair value for all assets acquired and liabilities assumed to illustrate the estimated effect of the Acquisition on our condensed consolidated statement of operations and comprehensive income as if the Acquisition had occurred on January 1, 2016. Accordingly, the unaudited pro forma purchase price allocation is subject to further adjustments as additional information becomes available and as additional analyses are performed. The primary areas that are not yet finalized relate to our estimated fair values for inventory, identifiable intangible assets and deferred taxes. There can be no assurances that any final valuations will not result in material adjustments to our preliminary estimated purchase price allocation.

Edgar Filing: BioTelemetry, Inc. - Form S-3

Table of Contents

The following table summarizes the preliminary purchase price allocation for the assets acquired and liabilities assumed in connection with the Acquisition:

	Amount	Weighted Average Life (Years)
Fair value of assets acquired		
Other accounts receivable	\$ 235	
Inventory	1,834	
Prepaid expenses and other current assets	1,261	
Property and equipment	55	
Other assets	933	
Identifiable intangible assets:		
Customer relationships	400	5
Technology	2,000	5
Trade name	400	Indefinite
Total identifiable intangible assets	2,800	
Total assets acquired	7,118	
Fair value of liabilities assumed		
Accounts payable	459	
Accrued liabilities	273	
Deferred revenue	49	
Total liabilities assumed	781	
Total identifiable net assets	6,337	
Fair value of consideration transferred	9,700	
Goodwill	\$ 3,363	

The excess of the fair value of the total consideration transferred for the Acquisition over the net assets acquired has been recognized as goodwill, which represents the expected future benefits arising from the assembled workforce and other synergies attributable to cost savings opportunities.

Our unaudited pro forma purchase price allocation includes certain identifiable intangible assets with an estimated fair value of approximately \$2.8 million. The fair value of the identifiable intangible assets acquired was estimated using a combination of asset-based and income-based valuation methodologies. The asset-based valuation methodology established a fair value estimate based on the cost of replacing the asset, less amortization from functional use and economic obsolescence, if present and measureable. The income-based valuation methodology utilizes a probability-weighted discounted cash flow technique where the expected future economic benefits of ownership of an asset are discounted back to present value. This valuation technique requires us to make certain assumptions about, including, but not limited to, future operating performance and cash flow, royalty rates and other such variables which are discounted to present value using a discount rate that reflects the risk factors associated with future cash flow, the characteristics of the assets acquired and the experience of the acquired business. Such estimates are subject to change, possibly materially, as additional information becomes available and as additional analyses are performed.

4. Pro Forma Adjustments

The pro forma adjustments included in the unaudited pro forma condensed combined financial information are as follows:

- a.) Adjustment to eliminate revenues recognized related to a change in the accounting for certain outstanding accounts receivable for a significant customer. In 2016, Telcare entered into a note receivable with this customer which is included as an asset with an estimated fair value of approximately \$2.1 million in our preliminary purchase price allocation. The note receivable is allocated between its current and long-term portions as a component of prepaid expenses and other current assets and other assets above. The adjustment also includes the elimination of related professional fees incurred to facilitate the note receivable.
- b.) Adjustment for salaries, benefits and other employee-related expenses which are attributable to certain operations of Telcare not acquired by the Company as part of the Acquisition.
- c.) Adjustment for professional fees which are attributable to certain operations of Telcare not acquired by the Company as part of the Acquisition.
- d.) Adjustment to eliminate rent and other facility charges for locations not acquired by the Company as part of the Acquisition.
- e.) Adjustment to eliminate severance and other charges which are attributable to certain operations of Telcare not acquired by the Company as part of the Acquisition.
- f.) Adjustment to eliminate the interest expense of \$0.1 million, and certain other charges, associated with Telcare's historical debt. None of Telcare's debt was assumed by the Company as a result of the Acquisition.
- g.) Adjustment to reflect amortization expense on acquired definite-lived intangible assets.
- h.) Adjustment to eliminate certain non-recurring transaction costs associated with the Acquisition, which are included in the historical results of the Company and Telcare.
- i.) Adjustment to reflect the tax benefit of the combined results of operations and pro forma adjustments at the Company's historical effective tax rates of 4.8% before the year ended December 31, 2016. The pro forma presentation utilizes the Company's historical effective tax rates due to significant net operating loss carryforwards that can be utilized to offset future taxable income for the Company. The Company maintained a full valuation allowance against the related deferred tax assets until December 31, 2016. The current effective tax rate primarily reflects alternative minimum tax assessments as well as certain book-to-tax differences for the Company's indefinite-lived intangible assets.

Item 15. Indemnification of Directors and Officers.

Section 145 of the DGCL empowers a corporation to indemnify its directors and officers and to purchase insurance with respect to liability arising out of their capacity or status as directors and officers, provided that the person acted in good faith and in a manner the person reasonably believed to be in the best interests of the company, and, with respect to any criminal action, had no reasonable cause to believe the person's actions were unlawful. The DGCL further provides that the indemnification permitted thereunder shall not be deemed exclusive of any other rights to which the directors and officers may be entitled under the company's bylaws, any agreement, a vote of stockholders or otherwise.

Our bylaws require that the company indemnify its directors and officers to the fullest extent not prohibited by the DGCL or any other applicable law; provided, however, that the company may modify the extent of such indemnification by individual contracts with the company's directors and officers; and, provided, further, that the company shall not be required to indemnify any director or officer in connection with any proceeding (or part thereof) initiated by such person unless: (i) such indemnification is expressly required to be made by law; (ii) the proceeding was authorized by our board of directors; (iii) such indemnification is provided by the company, in its sole discretion, pursuant to the powers vested in the company under the DGCL or any other applicable law or (iv) such indemnification is required to be made under Section 43(d) of the bylaws of the Company.

Our bylaws provide further that the company shall advance to any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was a director or officer of the company, or is or was serving at the request of the company as a director or officer of another corporation, partnership, joint venture, trust or other enterprise, prior to the final disposition of the proceeding, promptly following request therefor, all expenses incurred by any director or officer in connection with such proceeding provided, however, that if the DGCL requires, an advancement of expenses incurred by a director or officer in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the company of an undertaking, by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal that such indemnitee is not entitled to be indemnified for such expenses under the bylaws of the company or otherwise.

Table of Contents

Section 102(b)(7) of the DGCL permits a corporation to provide in its certificate of incorporation that a director of the company shall not be personally liable to the company or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the company or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) for payments of unlawful dividends or unlawful stock repurchases or redemptions or (iv) for any transaction from which the director derived an improper personal benefit. Our certificate of incorporation provides that the liability of the directors of the company for monetary damages shall be eliminated to the fullest extent under applicable law. If the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the company shall be eliminated to the fullest extent permitted by the DGCL, as so amended.

We maintain insurance policies under which our directors and officers are insured, within the limits and subject to the limitations of those policies, against certain expenses in connection with the defense of, and certain liabilities which might be imposed as a result of, actions, suits or proceedings to which they are parties by reason of being or having been directors or officers. The coverage provided by these policies may apply whether or not we would have the power to indemnify such person against such liability under the provisions of the DGCL.

Item 17. Undertakings.

The undersigned Registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by section 10(a)(3) of the Securities Act;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of this registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in this registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in this registration statement; and
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in this registration statement or any material change to such information in this registration statement;

provided, however, that the undertakings set forth in subparagraphs (i), (ii) and (iii) above do not apply if the information required to be included in a post-effective amendment by those subparagraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in this registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no

statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(6) That, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(7) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 15 of the registration statement, or otherwise (other than insurance), the registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(8) To file an application for the purpose of determining the eligibility of the trustee to act under subsection (a) of Section 310 of the Trust Indenture Act of 1939, as amended, in accordance with the rules and regulations prescribed by the SEC under Section 305(b)(2) of the Trust Indenture Act of 1939, as amended.
