Re: The Swiss Helvetia Fund, Inc.

Karpus Management, Inc., d/b/a Karpus Investment Management ("Karpus") represents beneficial ownership of 536,678 shares or 1.65% of the outstanding common shares of The Swiss Helvetia Fund, Inc. ("SWZ" or the "Fund"). I write this letter to state our opposition to the Fund's proposal to approve changes to certain of the Fund's fundamental investment restrictions to permit the Fund to enter into futures and forward contracts and certain option contracts. Specifically, we have concerns with the removal of this restriction because of the poor experiences the Fund had with option contracts implemented earlier this year, without the restrictions removed. After experiencing a distressful downturn and eminent rally, the Fund was victimized by its option strategy, which was a major contributing factor to the poor net asset value performance that lagged the performance of the overall Swiss market. In fact, the Fund's net asset value has underperformed the Swiss Market Index by 18.37% on a year-to-date basis (through May 20, 2009). The fund originally implemented a traditional fundamental value investment strategy, which has induced shareholders to invest for many years. Option strategies, such as those proposed, have the potential to provide an excellent means for hedging; however, when implemented (managed) poorly it also has a great potential to expose the Fund to additional risks. Overall, we feel that if the Fund chooses to remove these restrictions that they deemed "fundamental," they must allow those shareholders that relied on the restrictions a means of exiting their investment near the net asset value of the Fund. Should you wish to discuss these concerns, please do not hesitate to contact me.

Sincerely,

Mitchell Thomas
