NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions in Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the condensed consolidated financial statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the consolidated financial statements and notes thereto contained in our Annual Report on Form 10-K for the fiscal year ended February 24, 2017 ("Form 10-K"). The Condensed Consolidated Balance Sheet as of February 24, 2017 was derived from the audited Consolidated Balance Sheet included in our Form 10-K.

As used in this Quarterly Report on Form 10-Q ("Report"), unless otherwise expressly stated or the context otherwise requires, all references to "Steelcase," "we," "our," "Company" and similar references are to Steelcase Inc. and its subsidiaries in which a controlling interest is maintained. Unless the context otherwise indicates, reference to a year relates to the fiscal year, ended in February of the year indicated, rather than a calendar year. Additionally, Q1, Q2, Q3 and Q4 reference the first, second, third and fourth quarter, respectively, of the fiscal year indicated. All amounts are in millions, except share and per share data, data presented as a percentage or as otherwise indicated.

2. NEW ACCOUNTING STANDARDS

In March 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-07, Compensation - Retirement Benefits (Topic 715), to improve the presentation of net periodic pension cost and net periodic post-retirement benefit cost. The amended guidance requires that an employer disaggregate the service cost component from the other components of net benefit cost, provides explicit guidance on how to present the service cost component and the other components of net benefit cost in the income statement, and allows only the service cost component of net benefit cost to be eligible for capitalization. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted within the first interim period of a fiscal year. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements.

In October 2016, FASB issued ASU No. 2016-16, Income Taxes (Topic 740). The update is intended to improve the accounting for the income tax consequences of intra-entity transfers of assets other than inventory. In Q1 2018, we chose to early adopt this guidance, which did not have a material impact on our consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718), which is part of the FASB Simplification Initiative. The updated guidance simplifies several aspects of the accounting for share-based payment transactions. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, with early adoption permitted. We adopted this guidance in Q1 2018 and, as a result, the income tax effects of our share-based compensation awards, which aggregated \$0.7, were recognized as a component of Income tax expense on our Consolidated Statement of Income for the nine months ended November 24, 2017 instead of a component of Additional paid-in capital on our Consolidated Balance Sheet as of November 24, 2017. The remaining requirements of this new accounting guidance did not have a material impact on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes a new lease accounting model for lessees. The updated guidance requires an entity to recognize assets and liabilities arising from financing and operating leases, along with additional qualitative and quantitative disclosures. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, with early adoption permitted. We expect the adoption of this guidance will result in an increase in the assets and liabilities on our Consolidated Balance Sheets, and we are currently evaluating the extent of this increase.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which establishes a new standard on revenue recognition. The new standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard is designed to create greater comparability for financial statement users across industries and jurisdictions and also requires enhanced disclosures. The guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017, with early adoption permitted for fiscal years beginning after December 15, 2016. We are in the process of evaluating the impact that will result from adoption of the new standard, but based on analysis performed as of November 24, 2017, we do not anticipate a significant impact on our consolidated financial statements. We currently plan to apply the new standard using the modified retrospective method beginning in 2019.

3. EARNINGS PER SHARE

Earnings per share is computed using the two-class method. The two-class method determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Participating securities represent restricted stock units in which the participants have non-forfeitable rights to dividend equivalents during the performance period. Diluted earnings per share includes the effects of certain performance units in which the participants have forfeitable rights to dividend equivalents during the performance period.

5. FAIR VALUE

The carrying amounts for many of our financial instruments, including cash and cash equivalents, accounts and notes receivable, accounts and notes payable, short-term borrowings and certain other liabilities, approximate their fair value due to their relatively short maturities. Our short-term investments, foreign exchange forward contracts and long-term investments are measured at fair value on the Condensed Consolidated Balance Sheets.

Our total debt is carried at cost and was \$295.6 and \$297.4 as of November 24, 2017 and February 24, 2017, respectively. The fair value of our total debt is measured using a discounted cash flow analysis based on current market interest rates for similar types of instruments and was approximately \$325 and \$330 as of November 24, 2017 and February 24, 2017, respectively. The estimation of the fair value of our total debt is based on Level 2 fair value measurements.

We periodically use derivative financial instruments to manage exposures to movements in foreign exchange rates and interest rates. The use of these financial instruments modifies the exposure of these risks with the intention to reduce our risk of short-term volatility. We do not use derivatives for speculative or trading purposes.

The portion of inventories determined by the LIFO method was \$84.5 and \$77.9 as of November 24, 2017 and February 24, 2017, respectively.

7. SHARE-BASED COMPENSATION

Performance Units

During the nine months ended November 24, 2017, we awarded 154,500 performance units ("PSUs") to our executive officers. The PSUs awarded are earned after a three-year performance period, from 2018 through 2020, based on achievement of certain total shareholder return results relative to a comparison group of companies, which is a market condition, and, if earned, will be issued in the form of shares of Class A Common Stock. The number of shares that may be earned can range from 0% to 200% of the target amount; therefore, the maximum number of shares that can be issued under these awards is 309,000. These PSUs are expensed and recorded in Additional paid-in capital on the Condensed Consolidated Balance Sheets over the performance period. We used the Monte Carlo simulation model to calculate the fair value of these PSUs on the date of grant. The model resulted in a weighted average grant date fair value of \$21.77 per unit for these PSUs, compared to \$16.33 and \$24.15 per unit for similar PSUs granted in 2017 and 2016, respectively.

The weighted average grant date fair values were determined using the following assumptions:

	2018	2017	2016	
	Awards	Awards	Awards	
Three-year risk-free interest rate (1)	1.4	%0.9	%0.8	%
Expected term	3 years	3 years	3 years	
Estimated volatility (2)	31.8	%31.2	%29.4	%

(1) Based on the U.S. government bond benchmark on the grant date.

(2) Represents the historical price volatility of the Company's common stock for the three-year period preceding the grant date.

8. REPORTABLE SEGMENTS

Our reportable segments consist of the Americas segment, the EMEA segment and the Other category. Unallocated corporate costs are reported as Corporate.

The Americas segment serves customers in the U.S., Canada, the Caribbean Islands and Latin America with a portfolio of integrated architecture, furniture and technology products marketed to corporate, government, healthcare, education and retail customers through the Steelcase, Coalesse and Turnstone brands.

The EMEA segment serves customers in Europe, the Middle East and Africa primarily under the Steelcase and Coalesse brands, with an emphasis on freestanding furniture systems, storage and seating solutions.

The Other category includes Asia Pacific, Designtex and PolyVision. Asia Pacific serves customers in Asia and Australia primarily under the Steelcase brand with an emphasis on freestanding furniture systems, seating and storage solutions. Designtex primarily sells textiles, wall coverings and surface imaging solutions specified by architects and designers directly to end-use customers through a direct sales force primarily in North America. PolyVision manufactures ceramic steel surfaces for use in various applications globally, including static whiteboards and chalkboards sold through third party fabricators and distributors to the primary and secondary education markets and architectural panels and other special applications sold through general contractors for commercial and infrastructure projects.

Corporate costs include unallocated portions of shared service functions, such as information technology, corporate facilities, finance, human resources, research, legal and customer aviation, plus deferred compensation expense and income or losses associated with COLI. Corporate assets consist primarily of unallocated cash, short-term investments and COLI.

Revenue and operating income (loss) for the three and nine months ended November 24, 2017 and November 25, 2016 and total assets as of November 24, 2017 and February 24, 2017 by segment are presented below:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations:

This management's discussion and analysis of financial condition and results of operations should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended February 24, 2017. Reference to a year relates to the fiscal year, ended in February of the year indicated, rather than the calendar year, unless indicated by a specific date. Additionally, Q1, Q2, Q3 and Q4 reference the first, second, third and fourth quarter, respectively, of the fiscal year indicated. All amounts are in millions, except share and per share data, data presented as a percentage or as otherwise indicated.

Non-GAAP Financial Measures

This item contains certain non-GAAP financial measures. A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the condensed consolidated statements of income, balance sheets or statements of cash flows of the company. Pursuant to the requirements of Regulation G, we have provided a reconciliation below of non-GAAP financial measures to the most directly comparable GAAP financial measure.

The non-GAAP financial measures used are: (1) organic revenue growth (decline), which represents the change in revenue excluding estimated currency translation effects and the impacts of acquisitions and divestitures, and (2) adjusted operating income (loss), which represents operating income (loss) excluding restructuring costs (benefits). These measures are presented because management uses this information to monitor and evaluate financial results and trends. Therefore, management believes this information is also useful for investors.

Financial Summary

Overview

In Q3 2018, we posted a 2% revenue decline compared to the prior year, driven by a 4% decline in the Americas, partially offset by 4% growth in EMEA and 5% growth in the Other category. Revenue in the Americas was negatively impacted by continued declines in legacy furniture applications and reduced demand for day-to-day business. Orders for day-to-day business in the Americas were flat in November compared to the prior year following significant declines earlier in the quarter. We have been receiving positive feedback from our customers and dealers from our new product introductions, partnership offerings and the pending acquisition of AMQ Solutions, and the number of large project opportunities and our project win rates have been increasing.

Operating income declined compared to the prior year due to lower sales volume, increases in cost of sales as a percentage of revenue and higher operating expenses. The increase in operating expenses reflected continued investments in product development, sales, marketing and information technology that support our strategies, including developing new products, enhancements and applications, expanding ancillary offerings and marketing partnerships, addressing product gaps and pursuing other areas for growth.

Q3 2018 Compared to Q3 2017

We recorded net income of \$25.7 and diluted earnings per share of \$0.22 in Q3 2018 compared to net income of \$41.2 and diluted earnings per share of \$0.34 in Q3 2017. The Q3 2017 results included a benefit related to the outcome of a tax audit in EMEA that had a favorable impact on diluted earnings per share of \$0.03. Operating income of \$38.5 in Q3 2018 compared to operating income of \$54.6 in Q3 2017. The Q3 2018 results were driven by lower revenue in the Americas, higher cost of sales as a percentage of revenue in EMEA, and higher operating expenses globally. After

adjusting for the impact of restructuring benefits in the prior year, operating income of \$38.5 in Q3 2018 compared to adjusted operating income of \$54.4 in Q3 2017.

Table of Contents

Revenue of \$772.1 in Q3 2018 represented a decrease of \$14.4 or 2% compared to the prior year. The decrease in revenue was driven by lower revenue in the Americas, partially offset by growth of 4% in EMEA and 5% in the Other category. After adjusting for \$11.3 of favorable currency translation effects and a \$4.4 unfavorable impact due to divestitures, the organic revenue decline was \$21.3 or 3% compared to the prior year. On an organic basis, revenue in the Americas declined by 4%, revenue in EMEA declined by 1% and revenue in the Other category grew by 4% compared to the prior year.

Cost of sales as a percentage of revenue increased by 70 basis points to 67.4% of revenue in Q3 2018 compared to Q3 2017. The increase was driven by a 40 basis point increase in the Americas and a 210 basis point increase in EMEA. The increase in the Americas was driven by the impacts of unfavorable shifts in business mix, lower volume and approximately \$1 of higher commodity costs, partially offset by benefits associated with cost reduction efforts. The increase in EMEA was driven by unfavorable out-of-period accounting adjustments in the current quarter compared to favorable items in the prior year; benefits from gross margin improvement initiatives were offset by various operational inefficiencies and higher commodity costs.

Operating expenses of \$213.3 in Q3 2018 represented an increase of \$5.8 or 120 basis points as a percentage of revenue compared to the prior year. The increased spending compared to the prior year reflected investments in product development, sales, marketing and information technology in support of our strategies, partially offset by \$8 of lower variable compensation expense.

Our effective tax rate in Q3 2018 was 31.8% compared to a Q3 2017 effective tax rate of 24.8%. The Q3 2018 rate was below the U.S. federal statutory tax rate of 35% primarily due to favorable tax adjustments recorded in connection with filing our 2017 U.S. tax return. The Q3 2017 rate was below the U.S. federal statutory tax rate primarily due to a benefit related to the outcome of a tax audit in EMEA.

Year-to-Date 2018 Compared to Year-to-Date 2017

We recorded year-to-date 2018 net income of \$80.7 compared to year-to-date 2017 net income of \$98.8. The decline was driven by higher cost of sales as a percentage of revenue and higher operating expenses, partially offset by higher sales volume in the Other category. The year-to-date 2018 results reflected the net impact of the sale of property in Rosenheim, Germany and a favorable tax adjustment recorded in Q2 2018 which together increased diluted earnings per share by approximately \$0.05, partially offset by the defined benefit plan annuitizations recorded in Q1 2018 which decreased diluted earnings per share by approximately \$0.03.

Year-to-date 2018 revenue of \$2,282.8 represented an increase of \$19.5 or 1% compared to year-to-date 2017. The increase in revenue was driven by higher volume in the Other category, partially offset by lower volume in the Americas. After adjusting for \$6.1 of favorable currency translation effects and a \$6.2 unfavorable impact due to divestitures, the organic revenue increase was \$19.6 or 1%. On an organic basis, revenue increased by 14% in the Other category, while the Americas and EMEA each declined 1% compared to the prior year.

Cost of sales increased by 50 basis points to 67.0% of revenue in year-to-date 2018 compared to year-to-date 2017. The increase was due to a 100 basis point increase in the Americas, partially offset by an improvement of 150 basis points in the Other category. The increase in the Americas was driven by approximately \$6 of higher commodity costs, investments in support of product development and manufacturing agility, unfavorable shifts in business mix and \$3.4 of charges associated with the defined benefit plan annuitizations recorded in Q1 2018, partially offset by benefits associated with ongoing cost reduction efforts and \$6.0 of lower warranty costs compared to the prior year. The improvement in the Other category was driven by the impact of higher sales volume.

Operating expenses of \$630.4 in year-to-date 2018 represented an increase of \$25.9 or 90 basis points as a percentage of revenue compared to the prior year. The increased spending compared to the prior year reflected investments in product development, sales, marketing and information technology, partially offset by approximately \$10 of lower variable compensation expense.

There were no restructuring costs in year-to-date 2018 compared to net restructuring costs of \$4.7 in year-to-date 2017. The year-to-date 2017 amount included costs related to the closure of a manufacturing facility in High Point, North Carolina, the closure of a manufacturing facility in Durlangen, Germany and the establishment of the Learning + Innovation Center in Munich, Germany.

Edgar Filing: STEELCASE INC - Form 10-Q

Our year-to-date 2018 effective tax rate was 30.9% compared to a year-to-date 2017 effective tax rate of 32.4%. The year-to-date 2018 rate was below the U.S. federal statutory tax rate of 35% primarily due to favorable tax adjustments recorded in year-to-date 2018. The year-to-date 2017 rate was below the U.S. federal statutory tax rate of 35% due to the same factor as the quarter.

Operating income in the Americas decreased by \$12.1 and \$37.2, respectively, in Q3 2018 and year-to-date 2018 compared to the prior year. The decline in the quarter was driven by lower volume and higher operating expenses. The year-to-date results were driven by the same factors as the quarter, as well as higher cost of sales as a percentage of revenue. After adjusting for the impact of restructuring costs in the prior year, operating income of \$47.6 and \$147.1 in Q3 2018 and year-to-date 2018, respectively, compared to adjusted operating income of \$59.7 and \$186.9 in the prior year.

The Americas revenue represented 71.6% of consolidated revenue in Q3 2018. Revenue for Q3 2018 was \$552.8 compared to \$576.7 in Q3 2017. The 4% decrease in revenue was driven by continued declines in revenue associated with legacy furniture applications and reduced demand for day-to-day business. After adjusting for \$1.5 of favorable currency translation effects and a \$3.3 unfavorable impact due to a divestiture, the organic revenue decrease in Q3

2018 was \$22.1 or 4% compared to the prior year.

Table of Contents

Year-to-date 2018 revenue of \$1,656.3 represented a decrease of \$11.8 compared to year-to-date 2017. The 1% decrease was driven by the same factors as the quarter. After adjusting for \$0.8 of favorable currency translation effects and a \$3.3 unfavorable impact due to a divestiture, the year-to-date 2018 organic revenue decrease was \$9.3 or 1% compared to the prior year.

Cost of sales as a percentage of revenue increased 40 basis points in Q3 2018 compared to Q3 2017. The increase in the Americas was driven by the impacts of unfavorable shifts in business mix, lower volume and approximately \$1 of higher commodity costs, partially offset by benefits associated with cost reduction efforts. Year-to-date 2018 cost of sales represented an increase of 100 basis points compared to the prior year and was driven by approximately \$6 of higher commodity costs, higher investments in support of product development and manufacturing agility, unfavorable shifts in business mix, and \$3.4 of charges associated with the defined benefit plan annuitizations, partially offset by benefits associated with ongoing cost reduction efforts and \$6.0 of lower warranty costs compared to the prior year.

Operating expenses in Q3 2018 increased by \$1.7, or 140 basis points as a percentage of revenue, compared to the prior year primarily due to approximately \$11 of higher investments in product development, sales, marketing and information technology that support our product development and growth strategies, partially offset by approximately \$7 of lower variable compensation expense and an approximately \$2 favorable impact from a divestiture. Operating expenses increased by \$18.9, or 130 basis points as a percentage of revenue, in year-to-date 2018 compared to the prior year and was driven by the same factors as the quarter.

There were no restructuring costs recorded in the Americas in Q3 2018 or Q3 2017. There were no restructuring costs recorded in the Americas in year-to-date 2018 compared to restructuring costs of \$2.6 in year-to-date 2017 associated with the closure of the High Point manufacturing facility.

Operating results in EMEA declined in Q3 2018 and year-to-date 2018 compared to the prior year. The decline in Q3 2018 was driven by higher cost of sales as a percentage of revenue and higher operating expenses. The year-to-date decline was driven by higher operating expenses, which included a \$4.0 gain on the sale of the Rosenheim property recorded in Q2 2018.

Table of Contents

EMEA revenue represented 18.3% of consolidated revenue in Q3 2018. Revenue for Q3 2018 was \$141.1 compared to \$135.5 in Q3 2017. The increase in revenue was driven primarily by favorable currency translation effects and higher revenue in Iberia, partially offset by a decline in the United Kingdom and the Middle East. After adjusting for \$8.8 of favorable currency translation effects and a \$1.1 unfavorable impact due to divestitures, the organic revenue decline was \$2.1 or 1%. For year-to-date 2018, revenue declined slightly compared to the prior year as growth in Eastern Europe and the Middle East was more than offset by lower volume in Germany, Central Europe and France. Cost of sales as a percentage of revenue increased 210 basis points to 72.2% of revenue in Q3 2018 compared to the prior year. The increase in EMEA was driven by unfavorable out-of-period accounting adjustments in the current quarter compared to favorable items in the prior year. Benefits from gross margin improvement initiatives were offset by various operational inefficiencies and higher commodity costs. Year-to-date 2018 cost of sales was 73.4% of revenue which is consistent with the prior year.

Operating expenses in Q3 2018 and year-to-date 2018 increased by \$4.5 and \$2.5, respectively, compared to the prior year. The increase in Q3 2018 reflected higher costs related to a sales and dealer conference, product development, our new Learning + Innovation Center in Munich, and severance. The year-to-date 2018 increase was driven by the same factors as the quarter, partially offset by a \$4.0 gain on the sale of the Rosenheim property.

There were no restructuring costs in EMEA in Q3 2018 compared to restructuring benefits of \$0.2 in Q3 2017. The restructuring benefits in Q3 2017 represented favorable adjustments to employee separation costs relating to the establishment of the Learning + Innovation Center in Munich. There were no restructuring costs in EMEA in year-to-date 2018 compared to restructuring costs of \$2.1 in year-to-date 2017. The restructuring costs in year-to-date 2017 were associated with the closure of the Durlangen manufacturing facility and the establishment of the Learning + Innovation Center in Munich.

Other

The Other category includes Asia Pacific, Designtex and PolyVision. Asia Pacific serves customers in Asia and Australia primarily under the Steelcase brand with an emphasis on freestanding furniture systems, seating and storage solutions. Designtex primarily sells textiles, wall coverings and surface imaging solutions specified by architects and designers directly to end-use customers through a direct sales force primarily in North America. PolyVision manufactures ceramic steel surfaces for use in various applications globally, including static whiteboards and chalkboards sold through third party fabricators and distributors to the primary and secondary education markets and architectural panels and other special applications sold through general contractors for commercial and infrastructure projects.

Revenue in the Other category represented 10.1% of consolidated revenue in Q3 2018. Revenue in Q3 2018 increased \$3.9 or 5% compared to the prior year and reflected growth from all three businesses. Year-to-date 2018 revenue of \$254.1 represented an increase of \$32.5 or 15% compared to the prior year. The increase included growth from all three businesses, with particular strength coming from Asia Pacific (led by India and China).

Operating results in the Other category declined slightly in Q3 2018 compared to the prior year. Lower operating performance in Asia Pacific was partially offset by improved operating performance at PolyVision. Operating results in year-to-date 2018 were driven by strong performance in Asia Pacific, partially offset by lower income at Designtex which included \$3.0 of charges related to the defined benefit plan annuitizations in Q1 2018.

Corporate

Corporate costs include unallocated portions of shared service functions, such as information technology, corporate facilities, finance, human resources, research, legal and customer aviation, plus deferred compensation expense and income or losses associated with COLI.

	Three Months Ended		Nine Months Ended	
Statement of Operations Data — Corporate	November 24, 2017	November 25, 2016	November 24, 2017	November 25, 2016
Operating expenses	\$ 8.4	\$ 10.9	\$ 24.9	\$ 28.4

The decrease in operating expenses in Q3 2018 was primarily due to higher COLI income, partially offset by higher deferred compensation expense. The decrease in year-to-date 2018 operating expenses was primarily due to lower deferred compensation expense and higher COLI income compared to the prior year.

Liquidity and Capital Resources

Based on current business conditions, we target a range of \$75 to \$150 in cash and cash equivalents and short-term investments to fund day-to-day operations, including seasonal disbursements, particularly the annual payment of accrued variable compensation and retirement plan contributions in Q1 of each fiscal year. In addition, we may carry additional liquidity for potential investments in strategic initiatives and as a cushion against economic volatility.

Liquidity Sources	November 24, 2017	February 24, 2017
Cash and cash equivalents	\$ 244.1	\$ 197.1
Short-term investments	—	73.4
Company-owned life insurance	170.5	168.8
Availability under credit facilities	152.1	150.3
Total liquidity	\$ 566.7	\$ 589.6

As of November 24, 2017, we held a total of \$244.1 in cash and cash equivalents and no short-term investments. The short-term investments we held at the end of Q2 2018 were converted to cash and cash equivalents in Q3 2018 primarily to fund a pending acquisition. Of our total \$244.1 in cash and cash equivalents, approximately 76% was located in the U.S. and the remaining 24% was located outside of the U.S., primarily in Hong Kong, France, Mexico and China. The majority of amounts located outside the U.S. would be taxable if repatriated to the U.S. as dividends. However, such amounts are considered available to repay intercompany debt, available to meet local working capital requirements or permanently reinvested in foreign subsidiaries.

Our investments in COLI policies are intended to be utilized as a long-term funding source for long-term employee benefit obligations. However, COLI can be used as a source of liquidity for other purposes. We believe the financial strength of the issuing insurance companies associated with our COLI policies is sufficient to meet their obligations. COLI investments are recorded at their net cash surrender value.

Availability under credit facilities may be reduced related to compliance with applicable covenants.

We paid dividends of \$0.1275 per common share in each of Q1 2018, Q2 2018 and Q3 2018 and \$0.12 per share in Q1 2017, Q2 2017 and Q3 2017.

In year-to-date 2018, we made common stock repurchases of 2,393,969 shares, 393,969 of which were made to satisfy participants' tax withholding obligations upon the vesting of equity awards, pursuant to the terms of the Incentive Compensation Plan. In year-to-date 2017, we made common stock repurchases of 3,506,661 shares, 506,661 of which were made to satisfy participants' tax withholding obligations upon the vesting of equity awards.

As of the end of Q3 2018, we had \$99.2 of remaining availability under the \$150 share repurchase program approved by our Board of Directors in Q4 2016.

Off-Balance Sheet Arrangements

During Q3 2018, no material change in our off-balance sheet arrangements occurred.

Contractual Obligations

During Q3 2018, no material change in our contractual obligations occurred.

Liquidity Facilities

Our total liquidity facilities as of November 24, 2017 were:

Liquidity Facilities	November 24, 2017
Global committed bank facility	\$ 125.0
Various uncommitted lines	27.1
Total credit lines available	152.1
Less: Borrowings outstanding	—
Available capacity	\$ 152.1

We have a \$125 global committed five-year bank facility which was entered into in Q3 2017. As of November 24, 2017, there were no borrowings outstanding under the facility, our availability was not limited, and we were in compliance with all covenants under the facility.

The various uncommitted lines may be changed or canceled by the banks at any time. There were no outstanding borrowings under the uncommitted facilities as of November 24, 2017.

In addition, we have credit agreements totaling \$46.0 which can be utilized to support letters of credit, bank guarantees or foreign exchange contracts; letters of credit and bank guarantees totaling \$11.3 were outstanding under such facilities as of November 24, 2017. There were no draws on our standby letters of credit during Q3 2018.

Total consolidated debt as of November 24, 2017 was \$295.6. Our debt primarily consists of \$249.0 in term notes due in 2021 with an effective interest rate of 6.6%. In addition, we have a term loan with a balance as of November 24, 2017 of \$46.0. This term loan has a floating interest rate based on 30-day LIBOR plus 1.20% and is due in Q1 2024.

The term notes are unsecured and the term loan is secured by two aircraft. The term notes and the term loan do not contain financial covenants and are not cross-defaulted to our other debt facilities.

Liquidity Outlook

Our current cash and cash equivalents and short-term investment balances, funds available under our credit facilities, funds available from COLI and cash generated from future operations are expected to be sufficient to finance our known or foreseeable liquidity needs. We continue to maintain a conservative approach to liquidity and have flexibility over significant uses of cash including our capital expenditures and discretionary operating expenses.

Our significant funding requirements include a pending acquisition, operating expenses, non-cancelable operating lease obligations, capital expenditures, variable compensation and retirement plan contributions, dividend payments and debt service obligations.

We currently expect capital expenditures to approximate \$80 to \$90 in 2018 compared to \$61 in 2017. This amount includes investments in our global manufacturing operations, product development and the new Learning + Innovation Center in Munich. We closely manage capital spending to ensure we are making investments that we believe will sustain our business and preserve our ability to introduce innovative new products.

On December 19, 2017, we announced a quarterly dividend on our common stock of \$0.1275 per share, or approximately \$15.1, to be paid in Q4 2018. Future dividends will be subject to approval by our Board of Directors.

Critical Accounting Estimates

During Q3 2018, there have been no changes in the items that we have identified as critical accounting estimates.

Forward-looking Statements

From time to time, in written and oral statements, we discuss our expectations regarding future events and our plans and objectives for future operations. These forward-looking statements discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to us, based on current beliefs of management as well as assumptions made by, and information currently available to, us.

Forward-looking statements generally are accompanied by words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “intend,” “may,” “possible,” “potential,” “predict,” “project,” or other similar words, phrases or expressions. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties that could cause actual results to vary from our expectations because of factors such as, but not limited to, competitive and general economic conditions domestically and internationally; acts of terrorism, war, governmental action, natural disasters and other Force Majeure events; changes in the legal and regulatory environment; changes in raw materials and commodity costs; currency fluctuations; changes in customer demand; and the other risks and contingencies detailed in this Report, our most recent Annual Report on Form 10-K and our other filings with the Securities and Exchange Commission. We undertake no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk:

The nature of market risks (i.e., the risk of loss arising from adverse changes in market rates and prices) faced by us as of November 24, 2017 is the same as disclosed in our Annual Report on Form 10-K for the year ended February 24, 2017. We are exposed to market risks from foreign currency exchange, interest rates, commodity prices and fixed income and equity prices, which could affect our operating results, financial position and cash flows.

Foreign Exchange Risk

During Q3 2018, no material change in foreign exchange risk occurred.

Interest Rate Risk

During Q3 2018, no material change in interest rate risk occurred.

Commodity Price Risk

During Q3 2018, no material change in commodity price risk occurred.

Fixed Income and Equity Price Risk

During Q3 2018, no material change in fixed income and equity price risk occurred.

Item 4. Controls and Procedures:

(a) Disclosure Controls and Procedures. Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), as of November 24, 2017. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of November 24, 2017, our disclosure controls and procedures were effective in

(1) recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act and (2) ensuring that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) under the Exchange Act) during our third fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
