Notes to Financial Statements
September 30, 2007

Note 1 Basis of Presentation

Unaudited Interim Financial Statements
The accompanying interim unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB of Regulation S-B. They may not include all information and footnotes required by generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements for the year ended June 30, 2007 included in the Company s Form 10-KSB filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements included in the Form SB-2. In the opinion of Management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the three months ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ending June 30, 2008.

Note 2 Subsequent Events

On October 24, 2007, the Company entered into a binding letter of intent with the stockholders of QMotions Inc. (QMotions). QMotions agreed to transfer all issued and outstanding shares of QMotions to the Company in accordance with the following:

1) The issuance of 29,000,000 shares of the Company s common stock to the shareholders of QMotions;
2) A loan of US$500,000 from the Company to QMotions;
3) Complete a financing of 2,000,000 units at a price of US$1.25 per unit and issue two year warrants exercisable at US$1.50 per warrant;
4) The cancelation and return to treasury of 53,000,000 (subsequent to the stock split as noted below) restricted common shares in the capital of the Company with the closing of the acquisition on November 28, 2007; and
5) Have maximum liabilities at closing, on November 28, 2007, totaling US$15,000.

On November 9, 2007, the Company completed an 1 to 18 stock split whereby each of the Company`s issued and outstanding shares were exchanged for 18 new shares of the company.

Item 2. Management s Discussion and Analysis or Plan of Operation.

FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as may , should , expects , plans , anticipates , believes , estimates , predicts , potential or continue or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled Risk Factors , that may cause our or our industry s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our", and "Puppy Zone" mean Puppy Zone Enterprises, Inc., unless otherwise indicated.

Corporate History

We were incorporated in the State of Nevada on April 27, 2005. Other than as set out herein, we have not been involved in any bankruptcy, receivership or similar proceedings, nor have we been a party to any material reclassification, merger, consolidation or purchase or sale of a significant amount of assets not in the ordinary course of our business. On July 27, 2006, our common stock received approval for quotation on the NASD's OTC Bulletin Board under the symbol PPYZ .

On October 16, 2007, our President and director Tamara Huculak, and our Secretary, Treasurer and director Maria Estrada resigned and were replaced by Steve Bajic. Concurrently, Mr. Bajic also acquired 3,000,000 shares of common stock pursuant to a private sale by Maria Estrada and Tamara Huculak. Mr. Bajic s focus was to identify business alternatives and additional financing for our Company.

On October 24, 2007, we entered into a binding letter of intent to acquire all the outstanding shares of QMotions, Inc. ("QMotions"), in consideration of which the Company has agreed to, among other things:

(a) issue 29,000,000 shares of the Company s common stock to QMotions shareholders;

(b) arrange a loan US$500,000 to QMotions;

(c) enter into a definitive Share Exchange Agreement; and,

(d)

complete a financing of 2,000,000 units at a price of $1.25 per unit and issue two-year warrants exercisable at $1.50 per warrant.

On November 9, 2007, the Company effected a 18 for 1 forward split of our common stock and are now quoted on the OTC Bulletin Board under the symbol PUPZ .

Results of Operations

From the date of our incorporation on April 25, 2005 to September 30, 2007, we have been a development stage company that has generated minimal revenues.

Three month period ended September 30, 2007 compared with the three month period ended September 30, 2006.

We posted an operating loss and had operating expenses of $7,086 for the three month period ended September 30, 2007 compared to a loss of $7,943 for the three month period ended September 30, 2006.

Our operating expenses for the three month period ended September 30, 2007 compared to the three month period ended September 30, 2006 are classified primarily into the following two categories:

- professional fees, which consist primarily of legal fees and accounting and auditing fees for the year end audit. The amount incurred by our company during for the three month period ended September 30, 2007 was $5,910, compared to the three month period ended September 30, 2006 of $7,740; and
- Office and miscellaneous fees, which consist primarily of fees paid by for rent, postage and other day to day operational expenses. The amount incurred by our company during the three month period ended June 30, 2007 was $1,106 compared to $132 for the three month period ended September 30, 2006.

Financial Condition, Liquidity and Capital Resources

From inception on April 25, 2005 to September, 2007 we were engaged in the franchising of Doggy Day Care services. Principal capital resources have been acquired through the issuance of common stock.

At September 30, 2007, we had a working capital deficit of $16,542.

At September 30, 2007, we had current assets of $3,490.

At September 30, 2007, our total liabilities were $20,032.

At September 30, 2007 we had cash on hand of $3,490.

Cash Requirements

Presently, our revenues are not sufficient to meet our operating and capital expenses. Management projects that we will require additional funding to expand our current operations, although we anticipate that our current funds will enable us to address our minimal current and ongoing expenses and continue with the marketing and promotion activity connected with the development and marketing of our virtual calling card and fax products and services throughout the period ending June 30, 2008.

There is doubt about our ability to continue as a going concern as the continuation of our business is dependent upon obtaining additional financing. The issuance of additional equity securities by us will result in a dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Purchase of Significant Equipment

We do not anticipate that we will expend any significant amount on equipment for our present or future operations.

Going Concern

Due to our being a development stage company and not having generated revenues, in their report on our financial statements for the period from incorporation on April 27, 2005 to September 30, 2007, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure.

We have historically incurred losses, and through September 30, 2007 have incurred losses of $69,542 from our inception. Because of these historical losses, we will require additional working capital to develop our business operations. We intend to raise additional working capital through private placements, public offerings, bank financing and/or advances from related parties or shareholder loans.

The continuation of our business is dependent upon obtaining further financing.. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current or future stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, public offerings and/or bank financing necessary to support our working capital requirements. To the extent that funds generated from operations and any private placements, public offerings and/or bank financing are insufficient, we will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to us. If adequate working capital is not available we may not increase our operations.

These conditions raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should we be unable to continue as a going concern.

Application of Critical Accounting Policies

Our financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management s application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financials.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

Management does not believe that any recently issued, but not yet effective accounting standards if currently adopted could have a material effect on the accompanying financial statements.

RISK FACTORS

Much of the information included in this quarterly report includes or is based upon estimates, projections or other "forward looking statements". Such forward looking statements include any projections or estimates made by us and our management in connection with our business operations. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumption or other future performance suggested herein.

Such estimates, projections or other "forward looking statements" involve various risks and uncertainties as outlined below. We caution the reader that important factors in some cases have affected and, in the future, could materially affect actual results and cause actual results to differ materially from the results expressed in any such estimates, projections or other "forward looking statements".

We have a limited operating history that you can use to evaluate us and therefore we may not survive if we meet some of the problems, expenses, difficulties, complications and delays frequently encountered by a start up company.

We were incorporated in April 2005 and on April 27, 2005 we acquired the business assets of TPZ Enterprises, including various trademarks associated with the Puppy Zone franchise system, franchise agreements and the training and operating manuals of the Puppy Zone franchise system. To date, we have focused our attention on fine tuning and marketing our Puppy Zone franchise system. Accordingly, you can evaluate our business, and therefore our future prospects, based only on a limited operating history. You must consider our prospects in light of the risks and uncertainties encountered by start up companies. To date, we have completed only part of our plan to become a successful dog day care franchisor. As a start-up company, we can provide no assurances that we will be able to make the necessary steps to achieve profitability in the future, such as expanding our customer base.

We are subject to all the substantial risks inherent in the commencement of a new business enterprise with new management. We can provide no assurance that we will be able to successfully generate revenues, operate profitably, or make any distributions to the holders of our securities. We have a limited business history for you to analyze or to aid you in making an informed judgment as to the merits of an investment in our securities. Any investment in our common stock should be considered a high risk investment because you will be placing funds at risk in an unseasoned start-up company with unforeseen costs, expenses, competition and other problems to which start-up ventures are often subject.

As we have such a limited history of operation, you will be unable to assess our future operating performance or our future financial results or condition by comparing these criteria against our past or present equivalents.

We may require additional funds to achieve our current business strategy and our inability to obtain additional financing will inhibit our ability to expand or even maintain our business operations .

We may need to raise additional funds through public or private debt or sale of equity to achieve our current business strategy. The financing we need may not be available when needed. Even if this financing is available, it may be on terms that we deem unacceptable or are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. Our inability to obtain financing will inhibit our ability to implement our development strategy, and as a result, could require us to diminish or suspend our development strategy and possibly cease our operations.

If we are unable to obtain financing on reasonable terms, we could be forced to delay, scale back or eliminate certain product and service development programs. In addition, such inability to obtain financing on reasonable terms could have a negative effect on our business, operating results, or financial condition to such extent that we are forced to restructure, file for bankruptcy, sell assets or cease operations, any of which could put your investment dollars at significant risk.

If we are unable to generate significant revenues from our operations, we may be unable to expand our Puppy Zone franchise system and may be forced to cease operations.

If we are unable to generate significant revenues from our future franchise arrangements with franchisees, we could be forced to delay, scale back or eliminate certain services and product development programs. We intend to develop and sell franchises in the dog day care industry. Ultimately the expansion of our franchises and featured destinations may allow us to become profitable. However, if we fail to generate significant revenues in the future, then we will not able to expand our product line as we anticipate. This failure to expand may hurt our ability to raise additional capital which could have a negative effect on our business, operating results, or financial condition to such extent that we are forced to restructure, file for bankruptcy, sell assets or cease operations, any of which could put your investment dollars at significant risk.

We expect to experience significant and rapid growth in the scope and complexity of our business as our Puppy Zone franchise system gains acceptance in the market. If we are unable to hire additional staff to handle sales and marketing of our services and manage our operations, our growth could harm our future business results and may strain our managerial and operational resources.

If our Puppy Zone franchise gains acceptance in the market after our marketing campaigns, we expect to experience significant and rapid growth in the scope and complexity of our business. We will need to hire staff to market our franchise system, manage operations, handle sales and marketing efforts and perform finance and accounting functions. We will be required to hire a broad range of personnel in order to successfully advance our operations. This growth is likely to place a strain on our management and operational resources. If we fail to develop and implement effective systems, or hire and retain sufficient personnel for the performance of all of the functions necessary to effectively service and manage our future franchise relationships, or fail to manage growth effectively, our business will fail and you will lose your entire investment in our company.

If we are unable to hire and retain key personnel, then we may not be able to implement our business plan.

We depend on the services of our officers and director, Steve Bajic. Our success depends on the continued efforts of these individuals to manage our business operations. At the present time, Mr. Bajic devotes approximately 15 hours per week. The loss of the services of either Mr. Bajic could have a negative effect on our business, financial condition and results of operations. In addition, our success in expanding our business operations is largely dependent on our ability to hire highly qualified personnel. In addition, we may lose employees or consultants that we hire due to higher salaries and fees being offered by competitors or other businesses in the industry.

Steve Bajic s control of our company may prevent you from causing a change in the course of our operations and may affect the market price of our common stock.

Steve Bajic beneficially owns 75% of our common stock. Accordingly, for as long as Mr. Bajic continues to own more than 50% of our common stock, he will be able to elect our entire board of directors, control all matters that require a stockholder vote (such as mergers, acquisitions and other business combinations) and exercise a significant amount of influence over our management and operations. Therefore, depending on the number of our securities sold, your ability to cause a change in the course of our operations may be impeded. As such, the value attributable to the right to vote is limited. This concentration of ownership could result in a reduction in value to the common stock you own because of the ineffective voting power, and could have the effect of preventing us from undergoing a change of control in the future.

Other than trademarks registrations in Canada of the trademark The Puppy Zone , The Puppy Zone Dog Day Care and Adventure Centre and the related designs and the trademark registration in the United States of the trademark The Puppy Zone , we currently do not have any other formal protection for our intellectual property. If we are unable to protect our trade names, know how and trade secrets, our efforts to increase public recognition of our Puppy Zone franchise system may be impaired and we may be required to incur substantial costs to protect our name, know how and trade secrets.

Other than the trademark registrations described above, we have not made any applications for the protection of our intellectual property rights. As a consequence we may not be able to prevent the unauthorized use of our trade names, know how and trade secrets. We may be unable to prevent third parties from acquiring and using names or business methods that are similar to, infringe upon or otherwise decrease the value of our name, our know how, our trade secrets and other proprietary rights that we may hold. We may need to bring legal claims to enforce or protect any intellectual property rights that we assert. Any litigation, whether successful or unsuccessful, could result in substantial costs and diversions of resources. Any claims, by or against us, could be time consuming and costly to defend or litigate, divert our attention and resources and result in the loss of goodwill associated with our trade names, know how, and trade secrets.

Because our directors have foreign addresses this may create potential difficulties relating to service of process in the event that you wish to serve them with legal documents.

Neither of our current directors and officers have resident addresses in the United States. They are both resident in Canada. Because our officers and directors have foreign addresses this may create potential difficulties relating to the service of legal or other documents on any of them in the event that you wish to serve them with legal documents.

Trading of our stock may be restricted by the SEC's penny stock regulations, which may limit a stockholder's ability to buy and sell our stock.

The Securities and Exchange Commission has adopted regulations which generally define penny stock to be any equity security that has a market price (as defined) less than $5.00 per share or an exercise price of less than $5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors . The term accredited investor refers generally to institutions with assets in excess of $5,000,000 or individuals with a net worth in excess of $1,000,000 or annual income exceeding $200,000 or $300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

Item 3. Controls and Procedures.

As required by Rule 13a-15 under the Exchange Act, we have carried out an evaluation of the effectiveness of the design and operation of our company s disclosure controls and procedures as of the end of the period covered by this quarterly report, being September 30, 2007. This evaluation was carried out under the supervision and with the participation of our company s management, including our company s president and chief executive officer. Based upon that evaluation, our company s president and chief executive officer concluded that our company s disclosure controls and procedures are effective as at the end of the period covered by this report. There have been no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our company s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our company s reports filed under the Exchange Act is accumulated and communicated to management, including our company s president as appropriate, to allow timely decisions regarding required disclosure.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities.
