PART I - FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

As used herein, the term “Company” refers to AmeriResource Technologies, Inc., a Delaware corporation, and its subsidiaries and predecessors, unless otherwise indicated. Consolidated, unedited, condensed interim financial statements including a balance sheet for the Company as of the quarter ended September 30, 2008, statement of operations and statement of cash flows for the interim period up to the date of such balance sheet and the comparable periods of the preceding year are attached hereto beginning on Page F-1 and are incorporated herein by this reference.

The consolidated financial statements for the Company included herein are unaudited but reflect, in management’s opinion, all adjustments, consisting only of normal recurring adjustments that are necessary for a fair presentation of the Company’s financial position and the results of its operations for the interim periods presented. Because of the nature of the Company’s business, the results of operations for the three and nine months ended September 30, 2008, are not necessarily indicative of the results that may be expected for the full fiscal year. The financial statements included herein should be read in conjunction with the financial statements and notes thereto included in the Form 10-KSB for the year ended December 31, 2007.

AMERIRESOURCE TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2008
(Unaudited)

NOTE 1-ORGANIZATION AND BASIS OF PRESENTATION

AmeriResource Technologies, Inc., formerly known as KLH Engineering Group, Inc (the Management Company), a Delaware corporation, was incorporated March 3, 1989 for the purpose of providing diversified civil engineering services throughout the United States, to be accomplished through acquisitions of small to mid-size engineering firms. On July 17, 1996, the Company changed its name to AmeriResource Technologies, Inc.

The accompanying unaudited and condensed consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP), for interim financial statements, and pursuant to the instructions for Form 10-Q, and Article 8 of regulation S-X of the Securities and Exchange Commission. Accordingly, the statements do not include certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles in the United States of America. In the opinion of management, all adjustments (consisting of normal or recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months and nine months ended September 30, 2008, are not necessarily indicative of the results that may be expected for the fiscal year ended December 31, 2008. For further information, the statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2007.

NOTE 2 -SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

The consolidated financial statements include the combined accounts of AmeriResource Technologies, Inc., West Texas Real Estate & Resources', Inc., RoboServer Systems, Inc., Self-Serve Technologies, Inc., Net2Auction Corporation, and AuctionWagon Inc., BizAuctions, Inc., BizAuctions Corp, and BusinessAuctions, Inc., and ARRT Receivables, Inc. All significant intercompany transactions and accounts have been eliminated in consolidation.

Basic and Diluted Loss per common share

Loss per common share is based on the weighted average number of common shares outstanding during the period. Potential common shares from options, warrants and convertible debt outstanding are not included in the computation because the effect would be antidilutive; therefore, basic and diluted earnings per share are the same.

(Unaudited)

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Company considers currency on hand, demand deposits with banks or other financial institutions, money market funds, and other investments with original maturities of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. In these financial statements assets and liabilities involve the extensive reliance on management's estimates. Actual results could differ from those estimates.

Stock Based Compensation

The Company has adopted the provisions of SFAS 123(R) in accounting for its stock based compensation. The Company compensates some employees and consultants in stock. The stock is valued using the closing price of the stock on the day of issuance. During the 9 months ended September 30, 2008, the Company recorded \$1,579,215 in salary, consulting, and legal expense for stock issued for services rendered.

ACCOUNTING PRONOUNCEMENTS

Recently Issued Accounting Standards

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155, Accounting for Certain Hybrid Financial Instruments ("SFAS No. 155"), which amends Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities ("SFAS No. 133") and Statement of Financial Accounting Standards

No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities ("SFAS No. 140"). SFAS No. 155 permits fair value measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, establishes a requirement to evaluate interests in securitized financial assets to

identify interests that are freestanding derivatives or hybrid financial instruments containing embedded derivatives. The Company does not expect the adoption of SFAS 155 to have a material impact on the consolidated financial position, results of operations or cash flows.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109" (FIN 48), which clarifies the accounting for uncertainty in tax positions. This Interpretation requires that we recognize in our financial statements the benefit of a tax position if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provision's of FIN 48 become effective as of the beginning of our 2008 fiscal year, with the cumulative effect of the change in accounting principle record as an adjustment to opening retained earnings. We do not expect the adoption of FIN 48 to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS NO. 157 "Fair Value Measurements". SFAS No. 157 defined fair values established a framework for measuring fair value in generally accepted accounting principles and expand disclosure about fair value in generally accepted accounting principles and expands disclosure about fair values. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within these fiscal years. Management believes that the adoption of SFAS No. 157 will not have a material impact on the consolidated financial results of the Company.

In September 2006, the Securities and Exchange Commission issued State Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements", (SAB 108), which addresses how to quantify the effect of financial statement errors. The provisions of SAB 108 become effective as of the year ended 2007, our fiscal year. We do not expect the adoption of SAB 108 to have a significant impact on the financial statements.

SFAS No. 141(R). In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations. SFAS No. 141(R) will significantly change the accounting for business combinations. Under SFAS No. 141(R), an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. It also amends the accounting treatment for certain specific items including acquisition costs and non controlling minority interests and includes a substantial number of new disclosure requirements. SFAS No. 141(R) applies prospectively to business combinations for

which the acquisition date is on or after January 1, 2009. The Company is currently evaluating the impact that the SFAS No. 141(R) will have on its financial statements.

SFAS No. 160. In December 2007, the FASB issued SFAS No. 160, "Non controlling Interests in Consolidated Financial Statements" - An Amendment of ARB No. 51. SFAS No. 160 establishes new accounting and reporting standards for the non controlling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires the recognition of a non controlling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the non-controlling interest will be included in consolidated net income on the face of the income statement. SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its non controlling interest. SFAS No. 160 is effective for fiscal years, and interim periods beginning after January 1, 2009. The Company is currently evaluating the impact that the SFAS No. 160 will have on its financial statements.

SFAS No. 161. In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133" ("FAS 161"). FAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. The guidance in FAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. This Statement encourages, but does not require, comparative disclosures for earlier periods at initial adoption. The Company is currently assessing the impact of FAS 161.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared in conformity with principles of accounting applicable to a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company has incurred continuing losses and has not yet generated sufficient working capital to support its operations. The Company's ability to continue as a going concern is dependent, among other things, on its ability to reduce certain costs, obtain new contracts and additional financing and eventually, attaining a profitable level of operations.

NOTE 8 – COMMITMENTS AND CONTINGENCIES

American Factors Group, LLC. Vs AmeriResource Technologies, Inc., et al. This case was filed in the United States District Court, filed in the United States District Court, District of New Jersey, Case Number 3:97cv01094(GEB). In February 2000, the parties stipulated to the dismissal of certain claims in this suit with prejudice. This stipulation dismissed all of the claims in this suit except for the claims against defendants Rod Clawson, Michael Cederstrom and Tim Masters. These remaining claims were resolved pursuant to a Settlement Agreement, which has been subsequently amended. The Settlement Agreement provided for the payment by the Company and Delmar Janovec of certain obligations and judgments entered against the defendants.

AMENDMENT #2 TO SETTLEMENT AGREEMENT

Amendment dated as of March 15, 2008 to Settlement Agreement dated July 12, 2007 (the “Agreement”) between American Factors Group LLC (“AFG”), AmeriResource Technologies, Inc. (“ARRT”), and Delmar Janovec (“Janovec”).

1. The date on which the \$222,000 owing by ARRT and Janovec pursuant to the Agreement is hereby extended to December 31, 2008.

NOTE 10-GOODWILL

Goodwill and Other Intangibles

In accordance with SFAS 142, "Goodwill and Other Intangible Assets", we test for impairment of goodwill annually using the Income Approach, which focuses on the income-producing capability of the respective property during the fourth quarter of each fiscal year. The underlying premise of this approach is that the value of an asset can be measured by the present worth of the net economic benefit (cash receipts less cash outlays) to be received over the life of the subject asset. The steps followed in applying this approach include estimating the expected after-tax cash flows attributable to the respective property and converting these after-tax cash flows to present value through discounting. The discounting process uses a rate of return, which accounts for both the time value of money and investment risk factors. The present value of the after-tax cash flows is then totaled to arrive at an indication of the fair value of the assets. If the fair value of the assets exceeds the carrying value, then impairment is measured based on the difference between the calculated fair value and the carrying value. Our consolidated financial statements reflect all adjustments required by SFAS 142.

Goodwill

At September 30, 2008, the company had goodwill recorded on the purchase of subsidiaries as follows: \$161,925 from the purchase of Auction Wagon, and \$265,571 on the purchase of BizAuctions. These amounts represent the cost of the purchase above the value of the other assets.

Intangible Assets

Intangible assets consist of the following: RoboServer patentable technologies, software, and processes totaling \$146,701 less accumulated amortization of \$28,280; and software in Auction Wagon of \$670 less accumulated amortization of \$ 282. These amounts are being amortized over 15 years.

BizAuctions Corp. and Business Auctions, Inc. are wholly-owned subsidiaries of BizAuctions, Inc. BizAuctions, Inc., is publicly traded on the Pink Sheets under the symbol "BZCN." Despite the operations of our various subsidiaries, the Company continues to search for viable business operations to acquire or merge with in order to increase the Company's revenues, asset base and achieve profitability.

The Company continues to search for viable business operations to acquire or merge with in order to increase the Company's asset base, revenues, shareholder value, and to achieve profitability on a consistent level.

AuctionWagon Inc.

AuctionWagon was incorporated in September of 2003 and became the first eBay consignment store in the Los Angeles market. AuctionWagon is the first company to qualify as both an eBay certified developer and an eBay Trading Post. AuctionWagon is a frontrunner in both the retail and software segments of the industry, being featured in Entrepreneur, the New York Times, and the Wall Street Journal. AuctionWagon currently markets its consignment software to drop-off stores, and maintains a national affiliate network of drop-off locations.

AuctionWagon's software, Store Manager Pro G2, performs virtually all of the functions needed by an eBay consignment store, from printing contracts, barcodes, and inventory labels to managing its inventory, payment, shipping, check writing, and integrating photo editing. The Store Manager Pro offers multiple levels of software supporting different business requirements and charges both a monthly fee and an initial fee. The fees range from \$99 to \$330 per month, per customer. Since January 1, 2006, AuctionWagon has added approximately 200 new customer accounts. AWI's software continues to be a widely used by commercial business users doing business on eBay. To learn more, please visit our website at www.auctionwagon.com.

BizAuctions, Inc., formerly Kootenai Corp.

On June 27, 2006, Net2Auction acquired control of Kootenai Corp. through the purchase of Fifty Million (50,000,000) shares of common stock from the majority shareholder of Kootenai Corp. for, One Hundred Seventy Thousand (\$170,000) US dollars. Kootenai Corp. later acquired BizAuctions Corp., from Net2Auction, Inc., for the issuance of Fifty Million (50,000,000) shares of common stock and Twelve Million (12,000,000) shares of Preferred stock. Subsequent to the acquisition of BizAuctions Corp., Kootenai Corp. changed its name to BizAuctions, Inc. BizAuctions, Corp., is a wholly-owned subsidiary of BizAuctions, Inc. BizAuctions is a publicly traded company which trades on the Pink Sheets under the symbol of BZCN.

BizAuctions has established itself as a leader within the eBay marketplace through its online auctions of well known name brand merchandise. Our designation on eBay as a Power-Seller ranks us amongst the most successful leaders on eBay in terms of sales and customer satisfaction. With a worldwide audience of approximately 250 million registered users, eBay provides us a well known and established forum to market and sell our merchandise for top dollar in a competitive bidding format.

Our strategy is that of the most basic of economic principles: Buy low and sell high. We have contracted with retailers that are leaders in their industry to purchase salvaged merchandise at a discount and sell for a profit on eBay. This salvaged merchandise is generally overstock inventory, display models, and customer returns. We sell everything from quality home goods and brand name clothes to high-tech electronics. We list the merchandise through our own proprietary software which is fully integrated and compliant with eBay. Once an auction ends, payment is collected via PayPal or credit card. We have our own designated Account Executives with both eBay and PayPal to help us achieve our highest potential.

Our sales volume and revenue has increased every period, as we have capitalized on the constant demand of a loyal and growing customer base. Our customers are excited to be able to purchase top of the line merchandise at a discount from retail prices. It is a winning combination that keeps us well positioned in the marketplace.

BizAuctions operates out of San Diego, CA. We are currently providing liquidation services to retailers in California, Arizona, and Colorado, and in the process of expanding into other states. Over the past 2 years, we have created and refined an efficient business model that will allow for expansion and growth in the years ahead. The current operational capacity has the ability to handle much more business that is limited only to our purchasing power. Our goal is to have operations strategically placed throughout the U.S. to accommodate our growth and demand for our products and services. For more information, please see www.bizauctions.com.

RoboServer Systems Corp.

RoboServer Systems Corp. is a leading provider of self-service technologies to the restaurant industries, and payment processing of parking tickets/citations for municipalities and governmental agencies. RoboServer systems are designed to work like ATM machines, allowing customers to quickly and easily place orders, pay, and go. Industry estimates and market observations show that self-serve technologies can reduce customer waiting time by as much as 33%.

During the first nine months of this calendar year, RoboServer began rolling out the first EasyPay kiosks. A pilot program was contracted with the City of St. Louis for a Parking Ticket Payment System Kiosk and the first unit was installed on July 3rd 2008. City officials report great success and are considering locations for more units City wide. Additional requests from Utility and Tax authorities of the City of St. Louis are being developed for implementation during the 4th quarter and the City has asked that we partner with their payment processing company to create a seamless product with one point of contact.

Additionally, a new system in the medical sector has been developed for pilot testing called RoboMedOffice. The new Robo Medical Office Software and kiosk system coincides nicely with the strict HIPAA regulations and allows patients to check in, fill in medical system/condition forms in privacy, and then automatically populates the patient's medical records without anyone seeing or overhearing sensitive data except for the authorized medical staff. A copy of the forms can be printed at the kiosk for patient use or to be attached to the patient's file during the exam or electronically sent to the physicians tablet for immediate use during the exam. Additional features such as selecting and scheduling their next appointment can be done at the kiosk and the reminder card printed right at the kiosk, as well as the system sending email or phone reminders automatically, greatly reducing the manpower currently required to handle administrative paperwork and reminder calls. Income opportunities are available by selling the patient copies of their personal medical records printed right at the kiosk with proper security code. Charges for records will be collected at the kiosk by accepting debit/credit cards. Patients will also be able to review outstanding balances and make full or partial payments.

RoboServer has been approached by a large national credit card processing company and has entered into preliminary contract discussions whereas; RoboServer will be the vendor of choice for the credit card processing. This will allow the company to position itself in a way that will allow their users to have another option for making payments. Several bids/quotes for this service have been tested and RoboServer anticipates having the agreement formalized during the 4th quarter of 2008 however, there is no assurance the Company will enter into an agreement during the 4th quarter of this calendar year.

RoboServer developed its first pilot of the “Assisted Server” two-screen model that was shown at the Las Vegas Restaurant, Hospitality, and Night Club Expo in March of 2007. The pilot “Assisted Server” was well received and resulted in numerous leads with various business owners in both the restaurant and night club segments. Business owners have expressed a need to migrate customers to self-service without losing contact with the customer during their ordering process. The “Assisted Server” can be used as self-service, assisted service or counter service since the unit has two screens, one facing the customer and a mirrored screen facing the cashier/counter helper. Businesses are very excited about the “Assisted Server,” because it is a natural progression from traditional POS line-ordering to self-service.

RoboServer installed pilot self-serve units in two (2) different fast-food franchisees, with the first installation at Angelo’s Burgers in Encinitas, CA, and the second installation at Dairy Queen in Oceanside, CA. The Angelo’s Burgers installation was completed in the fall of 2005, and the Dairy Queen in the spring of 2006. Since the installation of the pilot self-serve free-standing kiosk in Dairy Queen, RoboServer installed a 2nd model, a counter-top self-serve unit in the fall of 2007. RoboServer continues to receive numerous inquiries from some of the leading fast-food chains for the RoboServer self-serve kiosks. Self-Serve Technologies, Inc. is a wholly-owned subsidiary of RoboServer and is the entity that has performed all of the research, development, and modifications since the POS software and self-serve technologies were acquired in May, 2004. To learn more, please visit our website at www.roboservercorp.com.

For further information on the corporate structure and ownership of its subsidiaries, please review the following two pages of this statement and the Company’s Form 10 KSB for year ended December 31, 2007, filed on April 14, 2008, with the Securities and Exchange Commission. RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the audited financial statements and notes thereto included in our annual report on Form 10-KSB for the fiscal year ended December 31, 2007, and should further be read in conjunction with the financial statements included in this report. Comparisons made between reporting periods herein are for the three and nine-month periods ended September 30, 2008, as compared to the same period in 2007.

Revenues

Revenues for the three and nine month periods ended September 30, 2008, was \$742,258 and \$2,741,666 respectively, as compared to \$1,066,598 and \$1,991,792 for the same periods in 2007. The decrease in the three month's revenue of \$324,340 is attributed to a decrease in electronic sales through the Company's subsidiary BizAuctions' eBay business model and the increase in the nine month's revenue of \$749,874 respectively, is due to increased sales from the operations of the Company's subsidiary BizAuctions' eBay business model.

Operating Losses

The Company's operating losses of \$543,605 and \$2,137,571 for the three and nine months ended September 30, 2008, compared to losses of \$890,249 and \$2,532,727 for the same periods in 2007. The decrease in the three and nine month operating loss of \$346,644 and \$395,156, respectively, resulted mainly from decrease in consulting expenses for the three and nine months, respectively.

Net Losses

The Company recorded net losses of \$274,590, and \$1,650,904 for the three and nine months ended, September 30, 2008, as compared to \$478,465 and \$1,532,926 respectively, for the same periods in 2007. The decrease in the three months \$203,875 resulted from gain on sale of subsidiary, extinguishment of debt, and minority interest. The increase in the nine months of \$117,978 is due to increased legal expenses and salaries.

Expenses

The Company's expenses for the three and nine months ended September 30, 2008, as compared to 2007, are set forth below;

THREE MONTHS ENDED 9/30/2008 & 2007

Expenses	Quarter ended 9/30/2008	Quarter ended 9/30/2007
Selling General and Administrative	162,011	217,939
Consulting	304,791	760,352
Officers Salaries and Bonuses	122,010	25,000

Legal and Professional	44,926	44,869
Research and development	-0-	4,850
Cost of goods sold	638,797	888,345
Total Expenses	1,357,231	2,028,040

NINE MONTHS ENDED 9/30/2008 & 2007

Expenses	Nine months ended 9/30/2008	Nine months ended 9/30/2007
Selling General and Administrative	539,000	575,813
Consulting	1,459,456	1,998,050
Officers Salaries and Bonuses	408,807	75,000
Interest Expense	286,172	206,054
Legal and Professional	209,014	140,471
Research and development	-0-	4,850
Cost of goods sold	2,223,134	1,677,539
Total Expenses	5,125,583	4,677,777

The Selling General and Administrative expenses for the three and nine month period ended September 30, 2008, were \$162,011 and \$539,000 compared to \$217,939 and \$575,813 for the same periods in 2007. The decrease in the three and nine month expenses of \$55,928 and \$36,813 respectively, resulted from a decrease in general & administrative expenses for the period. The Company experienced a decrease of consulting and professional services rendered of \$455,561, and a decrease of cost of goods sold of \$249,548.

LIQUIDITY AND CAPITAL RESOURCES

The Company's net cash used in operating activities for the nine months ended September 30, 2008, decreased to \$410,689 as compared to net cash used in operating activities of \$694,057, for the same period in 2007. This decrease is mainly attributable to a decrease of minority interest between periods.

LIQUIDITY AND CAPITAL RESOURCES-(CONTINUED)

Net cash used in investing activities decreased to \$9,230 for the nine-months ended September 30, 2008, as compared to \$36,678 for the same period in 2007. This decrease is due to a reduction in purchase of assets.

Net cash provided by financing activities was \$348,764 for nine-months ended September 30, 2008, compared to \$800,022 for the same period in 2007. This decrease is due to decreases in borrowings and the issuance of common stock for cash.

The Company has relied upon its chief executive officer for its capital requirements and liquidity, in addition to raising capital from investors at the subsidiary level. The Company's recurring losses, lack of cash flow, and lack of cash on hand raise substantial doubts about the Company's ability to continue as a going concern. Management's plans with respect to these matters include raising additional working capital through equity or debt financing and acquisitions of ongoing concerns, which generate profits, allowing the Company to achieve consistent profitable operations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

OFF-BALANCE SHEET ARRANGEMENTS

We do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structure finance or special purpose entities ("SPEs"), which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes as part of our ongoing business. As of September 30, 2008, we were not involved in any unconsolidated SPE transactions.

ITEM 3. CONTROLS AND PROCEDURES

Based upon the evaluation, the Company's Chief Executive Officer and the person performing functions similar to that of a Principal Financial Officer of the Company concluded that the Company's disclosure controls are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings. There have been no significant changes in the Company's internal controls or in other factors which could significantly affect internal controls subsequent to the date the Company conducted its evaluation.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) promulgated under the Exchange Act. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of an issuer's financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Internal control over financial reporting includes policies and procedures that:

- Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transaction and dispositions of an issuer's assets; and
- Provide reasonable assurances that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that an issuer's receipts and expenditure are being made only in accordance with authorizations of its management and directors; and
- Provide reasonable assurance regarding prevention or timely detection of
- Unauthorized acquisitions, use or disposition of an issuer's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, the application of any evaluation of effectiveness to future periods is subject to the risk that controls may become inadequate because of changes in conditions, or that compliance with the policies or procedures may deteriorate.

As required by Rule 13a-15(c) promulgated under the Exchange Act, our management, with the participation of our Chief Executive Officer, evaluated the effectiveness of our internal control over financial reporting as of September 30, 2008. Management's assessment was based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in

Internal Control—Integrated Framework ("COSO"). Our assessment did not identify deficiencies that were determined to be significant deficiencies in internal control.

A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the initiation, authorization, and recording, processing or reporting of reliable financial data. Since there were significant deficiencies in our assessment, management concluded that our internal control over financial reporting was effective as of September 30, 2008, and December 31, 2007.

Remediation Plan

We are including information with respect to our internal control over financial reporting for the period subsequent to the September 30, 2008, and the December 31, 2007 periods in order to provide readers with a current understanding of the identified significant deficiencies, as well as how they were being addressed in our remediation plan.

Subsequent to September 30, 2008 and December 31, 2007 period, we had undertaken, extensive work to remediate the significant deficiencies identified in our internal control over financial reporting, including specific remediation initiatives as described below. The implementation of these initiatives was a priority for us in fiscal year 2006, 2007, and continues to be a priority in fiscal 2008. We had begun implementing the actions described below with respect to the identified significant deficiencies and had these deficiencies corrected by the year-end December 31, 2007;

Inadequate staffing. We have focused intensive efforts on improving the overall level of our staffing in a number of finance and accounting areas related to the significant deficiencies.

Ineffective Controls related to the Entering of Transactions into the General Ledger, Preparation of Certain Account Analyses, Account Summaries, and Account Reconciliations.

As a result of the adjustments made with respect to certain balance sheet accounts for the fiscal year-ended December 31, 2006, we determined a more detailed review for these accounts was necessary in connection with our quarterly and annual financial reporting process. The Company developed a more intensive financial close process to ensure a thorough review of entering transactions into the general ledger is performed, supporting schedules are adequately prepared and/or reviewed, and that they included adequate supporting documentation.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Since the filing of the Form 10KSB for the physical year end December 31, 2007, and the Form 10 Q filed for periods ended March 31, 2008 and June 30, 2008, there are no material changes except as noted below, have occurred to the legal proceedings reported herein. For additional information please review the Form 10 KSB filed with the Securities and Exchange Commission filed on April 14, 2008.

David Levitt, Plaintiff vs. BizAuctions, Corp, a Nevada corporation, BizAuctions, Inc., a Delaware corporation, Green Endeavors, LTD, a Delaware corporation, AmeriResource Technologies, Inc., a Delaware corporation, and Delmar Janovec, an individual. The complaint was filed on October 8, 2008 subsequent to the filing of this Form 10 Q in the Superior Court of the State of California, County of San Diego-South County Division, Case No. 37-2008-00073539-CU-QE-SC. The complaint is for breach of contract regarding issuance of restricted stock for services rendered, failure to pay minimum wages, overtime wages, and reimbursement for business expenses and other benefits, as well as attorney fees and expenses.

The Company and defendants will deny the allegations and vigorously defend its position on the matter.
