ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On July 27, 2005, Monster Worldwide, Inc. (the Company ) announced its results of operations for the three and six month periods ended June 30, 2005. A copy of the Company s press release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

Included in the press release and the supplemental financial information issued by the Company and furnished herewith as Exhibits 99.1 and 99.2, are certain non-GAAP financial measures. The Company has provided certain non-GAAP financial information as additional information for its operating results. These measures are not in accordance with, or an alternative for, generally accepted accounting principles ( GAAP ) and may be different from non-GAAP measures reported by other companies. The Company believes that its presentation of non-GAAP measures such as operating income before depreciation and amortization, net cash and free cash flow, provide useful information to management and investors regarding certain financial and business trends relating to its financial condition and results of operations. In addition, the Company s management uses these measures for reviewing the financial results of the Company and for budgeting and planning purposes.

Operating income before depreciation and amortization is defined as income from operations before depreciation, amortization of intangible assets and amortization of stock based compensation. The Company considers operating income before depreciation and amortization to be an important indicator of its operational strength. This measure eliminates the effects of depreciation, amortization of intangible assets and amortization of stock based compensation from period to period, which the Company believes is useful to management and investors in evaluating its operating performance. Operating income before depreciation and amortization is a non-GAAP measure and may not be comparable to similarly titled measures reported by other companies.

Free cash flow is defined as cash flow from operating activities less capital expenditures. Free cash flow is considered a liquidity measure and provides useful information about the Company s ability to generate cash after investments in property and equipment. Free cash flow reflected herein is a non-GAAP measure and may not be comparable to similarly titled measures reported by other companies. Free cash flow does not reflect the total change in the Company s cash position for the period and should not be considered a substitute for such a measure.

ITEM 7.01 REGULATION FD DISCLOSURE

The Company has provided certain supplemental financial information that can be accessed through the Company s Investor Relations website at <http://ir.monsterworldwide.com>. This information is attached hereto as Exhibit 99.2. Such financial information is historical financial information of the Company that has been reclassified to reflect the historical results of the Directional Marketing businesses as discontinued operations, following the second quarter 2005 sale of these businesses. Additionally, the Company has reclassified its historical segment information to present a Corporate operating segment, which reflects certain direct corporate costs and allocated expenses. Historical operating expenses and operating margins associated with the Monster and Advertising & Communications divisions have been restated to reflect this new segment presentation.
