HYPERFEED TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2006

(1) NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

The unaudited consolidated financial statements herein have been prepared by the Company pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. The accompanying notes to unaudited interim consolidated financial statements have been prepared under the presumption that users of the interim financial information have either read or have access to the audited financial statements for the latest fiscal year ended December 31, 2005. Accordingly, footnote disclosures which would substantially duplicate the disclosures contained in the December 31, 2005 audited consolidated financial statements have been omitted from these interim consolidated financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these interim consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K.

HyperFeed Technologies, Inc., a Delaware corporation (HyperFeed or the Company), is a provider of enterprise-wide ticker plant, data platform, and transaction technology software and services to exchanges, financial institutions, content providers, channel partners, and value-added resellers. HyperFeed's advanced software technology serves as a corporate-wide ticker plant, providing firms in the financial services industry with the flexibility and agility to control their own data sources and data content in a cost-effective manner.

The Company has over twenty years of experience designing, building, and running ticker plants for the North American financial marketplace. The Company's software technology, including HyperFeed's Next Generation Ticker Plant (HTPX) product, is currently being used by over forty customers, including exchanges, large financial institutions, and customers of the Company's High Performance Center product. Additionally, the Company has deployed more than 1,500 of HyperFeed's high performance single server HBOX products at customer sites. The Company also offers its HyperFeed Market Data Platform (HMDP) product, which is based on Telerate's Trading Room System (TRS) technology, and its Open Collaborative Container (OCC) product for use with HMDP, which is based on Telerate's Active8 technology. HyperFeed's technology supports many firms demanding transaction and order routing systems.

HyperFeed principally derives revenue from licensing technology and providing management and maintenance services of HTPX, HBOX, HMDP, and OCC software, ticker plant and data platform technologies, and managed services. Additionally, HyperFeed derives revenue from the development of customized software.

HYPRWare, Inc. (HYPRWare) is a majority-owned subsidiary of HyperFeed that receives royalties related to license fees for customers it referred to a channel partner prior to December 31, 2002.

HyperFeed Acquisition Holdings, Inc., a Delaware corporation (Acquisition Holdings), is a wholly-owned subsidiary of HyperFeed.

PICO Holdings, Inc. (PICO) owns 80.0% of HyperFeed's common stock as of June 30, 2006.

CURRENT OPERATIONS: The Company has sustained significant losses in recent years and in the first six months of 2006. In particular, the Company incurred a net loss of \$6.8 million for the first six months of 2006 compared to a net loss of \$4.0 million for the same period in 2005, and an overall net loss of \$9.5 million for the fiscal year ended December 31, 2005. Included in the net loss of \$6.8 million for the first six months of 2006 is \$1.7 million of noncash interest expense related to the beneficial conversion feature of the Secured Convertible Promissory Note (the 2006 Convertible Note) issued by the Company to PICO in the first quarter of 2006 as described in Note 6 of the Notes to Unaudited Interim Consolidated Financial Statements. Operations through June 30, 2006 have been funded, in part, by advances on the 2006 Convertible Note. As of June 30, 2006, the Company has an outstanding principal balance of \$6.7 million under the terms of the 2006 Convertible Note and has accrued, but unpaid, interest of \$0.2 million. Additionally, the Company's negative cash flows from operating activities increased to \$4.1 million for the six months ended June 30, 2006 compared to \$1.7 million for the six months ended June 30, 2005. The recurring losses and negative cash flows raise substantial doubt about the Company's ability to continue as a going concern. Total revenue remained relatively unchanged at \$1.9 million for the first six months of 2006 and 2005.

On June 13, 2006, the Company announced that its Board of Directors approved a 1:1000 reverse stock split of its Common Stock to reduce ongoing operating costs including the substantial and increasing costs and expense associated with compliance with the laws, rules, and

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

regulations of the U.S. Securities and Exchange Commission (SEC). PICO, HyperFeed's majority stockholder, pursuant to applicable law and the Company's bylaws, approved the reverse stock split. Pending SEC review of certain filings the Company has made pursuant to the rules and regulations set forth in Section 13e-3 of the U.S. Securities Exchange Act of 1934 to effect the reverse stock

6

split, the reverse stock split is expected to reduce the number of stockholders of record to less than 300, which will permit the Company to terminate its obligation to file reports with the SEC (the "Going Private Transaction"). Pursuant to the terms of the Going Private Transaction, stockholders owning less than 1,000 shares would be paid an amount based on the closing price per share of the Company's Common Stock on the Over-The-Counter Bulletin Board market on the date of effectiveness of the reverse stock split. Stockholders owning more than 1,000 shares would remain as stockholders of the Company after the reverse stock split and would have fractional shares redeemed at the same rate. The Company estimates that an aggregate of \$400,000 would be paid to its stockholders to complete the reverse stock split. Funding for the transaction is expected to be provided by the 2006 Convertible Note. All amounts to be paid to HyperFeed stockholders in connection with the Going Private Transaction shall have been paid or accrued as a liability on the Company's balance sheet before the closing date.

On June 19, 2006, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") by and among HyperFeed, Acquisition Holdings, and Exegy Incorporated, a Delaware corporation ("Exegy"), pursuant to which HyperFeed and Exegy have agreed to combine their businesses through a merger of Exegy and Acquisition Holdings (the "Merger"). Exegy, which is a privately held company, will survive the Merger as a wholly-owned subsidiary of HyperFeed. The Company believes the combination will create an innovative technology company focused on producing unrivaled performance. Under the terms of the Merger Agreement, each Exegy common share will be converted into HyperFeed shares of common stock and each Exegy option will be converted into HyperFeed options, resulting in the stockholders of both HyperFeed and Exegy each owning 50% of the merged company on a fully diluted basis. The Merger Agreement is subject to customary conditions, and requires cash equity contributions by PICO and the stockholders of Exegy of US \$5.0 million each, prior to closing. As a condition to closing, HyperFeed shall have caused PICO to convert its 2006 Convertible Note in exchange for shares of HyperFeed Common Stock in accordance with the terms of the 2006 Convertible Note. Additionally, under the terms of the Merger Agreement, HyperFeed shall have completed the Going Private Transaction. The Merger is expected to close not later than October 31, 2006.

While the Company expects the Merger to close, if it fails to do so, the Company currently believes that its existing and anticipated capital resources, including cash and cash equivalents, accounts receivable, assets related to discontinued operations, cash expected to be received from holdbacks associated with the sale of its institutional consolidated market data feed business and financing from PICO, which currently is the Company's only source of financing, may not be sufficient to fund its operations beyond December 31, 2006. The Company believes that it will need to obtain additional capital in the immediate future both to fund investments needed to increase its operating revenues to levels that will sustain its operations and to fund operating deficits that it anticipates will continue until revenue increases can be realized. There can be no assurances that the Company will be successful in obtaining sufficient additional capital, or if it does, that the additional capital will enable the Company to improve its business so as to have a material positive effect on the Company's operations and cash flow. The Company believes that without additional investment, from PICO or other sources, it may be forced to cease operations at an undetermined future date. It is uncertain whether the Company's assets will retain any value if the Company ceases operations. There are no assurances that additional funding will be available to the Company before it may be forced to cease operations.

In the first quarter of 2006, the Company issued the 2006 Convertible Note to PICO for \$10.0 million, payable two years from issuance, as described in Note 6 of the Notes to Unaudited Interim Consolidated Financial Statements. The Company anticipates that PICO will convert the 2006 Convertible Note prior to the close of the Merger Agreement. However, in the event that the merger does not close, the Company may not have sufficient capital resources to repay or refinance the 2006 Convertible Note when it comes due in March 2008. In the event that PICO chooses not to convert the 2006 Convertible Note and the Company is unable to repay or refinance the 2006 Convertible Note at such time, PICO will also have the right to declare the 2006 Convertible Note in default and may, at its option, pursue any other remedies available to it. See the Company's Current Report on Form 8-K filed on March 31, 2006. If the Company requires additional capital resources, there can be no assurances that such capital will be available or that such capital will be available on terms satisfactory to the Company. If the Company does not obtain such capital, it may not have sufficient capital resources to fund continuing operations.

PRINCIPLES OF CONSOLIDATION: The accompanying unaudited interim consolidated financial statements include the accounts of HyperFeed and its subsidiaries, HYPRWare and Acquisition Holdings, and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. The consolidated interim financial statements include adjustments (consisting of normal recurring adjustments), including the elimination of all significant intercompany transactions in consolidation, which, in the opinion of management, are necessary for the fair presentation of the results of the interim periods presented.

REVENUE RECOGNITION: The Company principally derives revenue from licensing technology and providing management and maintenance services of HTPX, HBOX, HMDP, and OCC software, ticker plant and data platform technologies, and managed services. Additionally, the Company derives revenue from the development of customized software.

Revenue is recognized from the licensing of HTPX, HBOX, HMDP, and OCC (1) as payments from customers become due when the fee is not fixed or determinable at the outset of the arrangement or (2) ratably over the term of the agreement when post contract customer support (PCS) has a duration of one year or less. PCS is recognized ratably over the term. Revenue for the development of customized software, consulting, and implementation services is recognized based on time and materials from the application of contract accounting for the development of customized software, or based on an hourly rate when it is not a fixed fee arrangement. For licensing of the Company's software through its sales channels, revenue is recognized as payments from the reseller become due and generally commences after the software is installed at the reseller's customer site.

The Company applies the provisions of AICPA Statement of Position (SOP) 97-2, Software Revenue Recognition, as amended, which specifies the following four criteria that must be met prior to recognizing revenue: (1) persuasive evidence of the existence of an arrangement, (2) delivery, (3) fixed or determinable fee, and (4) probable collection. In addition, revenue earned on software arrangements involving multiple elements is allocated to each element based on the relative fair values of the elements. When applicable, revenue allocated to HyperFeed's software products (including specified upgrades/enhancements) is recognized upon delivery of the products. If the fee is considered fixed and determinable, it is recognized as revenue when the sale is effected. If the fee is not considered fixed and determinable, it is recognized as revenue as payments from customers become due. Revenue allocated to PCS is recognized ratably over the term of the support and revenue allocated to service elements (such as training) is recognized as the services are performed.

In accordance with SOP 97-2, revenue from contracts that do not require significant production, modification, or customization of software is recognized when the above criteria are met. Revenue from contracts that require significant production, modification, or customization of software is accounted for in conformity with the provisions of Accounting Research Bulletin No. 45, Long-Term Construction Contracts, using the relevant guidance therein, and SOP 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts. SOP 81-1 provides for revenue recognition under the percentage-of-completion or completed contract method depending on the facts and circumstances of contracts entered into and management's ability to reasonably estimate its progress toward completion. Contract losses, if any, are provided for in their entirety in the period they become known, without regard to the percentage-of-completion. For those contracts which the Company cannot reasonably estimate progress toward completion, the Company employs the completed contract method of accounting. Revenue from arrangements accounted for under contract accounting are allocated among licensed technologies, managed services, and consulting fees based on the contractual terms of the arrangements.

The use of contract accounting inherently includes the use of estimates of progress toward completion. Such estimates are subject to periodic revisions and, as a result, the financial statements could be materially impacted.

The Company applies the provisions of Emerging Issues Task Force (EITF) Issue No. 00-21, Accounting for Revenue Arrangements with Multiple Deliverables. EITF 00-21 addresses certain aspects of the accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities. Specifically, EITF 00-21 addresses how to determine whether an arrangement involving multiple deliverables contains more than one earnings process and, if it does, how to divide the arrangement into separate units of accounting consistent with the identified earnings processes for revenue recognition purposes. EITF 00-21 also addresses how arrangement consideration should be measured and allocated to the separate units of accounting in the arrangement.

HYPRWare derives revenue from royalties related to license fees collected by Townsend Analytics, Ltd. (Townsend) from subscribers to Townsend's service over the Internet who had been referred through HYPRWare prior to December 31, 2002. Revenue is recorded as royalties are reported from Townsend.

LICENSED AND DEVELOPED SOFTWARE COSTS: Licensed and developed software costs are accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 86, Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed. Costs associated with the planning and design phase of software development, including coding and testing activities necessary to establish technological feasibility of computer software products to be licensed or otherwise marketed, are expensed as research and development costs as incurred. Once technological feasibility has been determined, costs incurred in the construction phase of software development including coding, testing, and product quality assurance are capitalized. In accordance with SFAS No. 86, the Company has capitalized licensed software for which the Company believes technological feasibility has been established.

Amortization commences at the time of capitalization or, in the case of a new service offering, at the time the service becomes available for use. Unamortized capitalized costs determined to be in excess of the net realizable value of the product are expensed at the date of such determination. The accumulated amortization and related software development costs are removed from the respective accounts effective in the year following full amortization.

The Company's policy is to amortize capitalized software costs by the straight-line method over three to five years, the remaining estimated economic life of the product including the period being reported. The Company assesses the recoverability of its software

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

development costs against estimated future undiscounted cash flows. Given the highly competitive environment and technological changes, it is reasonably possible that those estimates of anticipated future gross revenue, the remaining estimated economic life of the product, or both may be reduced significantly.

STOCK BASED COMPENSATION: Effective January 1, 2006, the Company adopted SFAS No. 123(R), Share-Based Payment, using the modified-prospective-transition method. Under this transition method, compensation cost in 2006 includes cost for options granted prior to but not vested as of December 31, 2005, and options granted in 2006. Therefore, results for prior periods have not been restated. The Company recognized compensation expense of approximately \$0.1 million and \$0.2 million for the three and six months ended June 30, 2006, respectively.

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123 during the three and six months ended June 30, 2005. For the purposes of this pro forma disclosure, the value of the options is estimated using a Black-Scholes option-pricing model and amortized to expense over the options vesting periods.

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
Net loss, as reported	\$ (2,064,672)	\$ (4,033,321)
Compensation expense related to stock options granted and employee stock purchase plan issuances, net of taxes	(47,285)	(100,283)
Pro forma net loss	\$ (2,111,957)	\$ (4,133,604)
Basic and diluted net loss per share, as reported	\$ (0.67)	\$ (1.31)
Pro forma basic and diluted net loss per share	\$ (0.68)	\$ (1.34)

As of July 1, 2006, the Company has approximately \$0.7 million of unrecognized compensation cost related to unvested share-based compensation awards granted, which the Company expects to recognize over the next four years.

ACCOUNTS RECEIVABLE: Included in the Company's accounts receivable balances in the Consolidated Balance Sheets are unbilled receivables of \$44,100 at June 30, 2006. The Company did not have any unbilled receivables at December 31, 2005.

SOFTWARE LICENSE INDEMNIFICATIONS: In November 2002, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others (FIN 45). FIN 45 requires that the Company recognize the fair value for certain guarantee and indemnification arrangements issued or modified by the Company after December 31, 2002. In addition, the Company must continue to monitor the conditions that are subject to the guarantees and indemnifications, as required under previously existing generally accepted accounting principles, in order to identify if a loss has occurred. If the Company determines that a loss is probable, the estimated loss must be recognized as it relates to applicable guarantees and indemnifications. Some of the software licenses granted by the Company contain provisions that indemnify customers of the Company's software from damages and costs resulting from claims alleging that the Company's software infringes on the intellectual property rights of a third party. Historically, the Company has not been required to pay material amounts in connection with claims asserted under these provisions and, accordingly, the Company has not recorded a liability relating to these indemnification provisions.

(2) EMPLOYEE STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

The fair value of each option and stock appreciation right (SAR) grant is estimated using the Black-Scholes option-pricing model with the following weighted-average assumptions for the six months ended June 30, 2006 and 2005:

	2006	2005
Expected life	5.00 years	5.00 years
Dividend rate	0	% 0 %
Risk-free interest rate	4.30	% 3.90 %
Volatility factors	94	% 106 %

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

The weighted-average exercise price and weighted-average fair value of options granted during the six months ended June 30, 2006 and 2005 where the market price equals, exceeds, or is less than the exercise price at the time of grant is as follows:

	2006			2005		
	Equals	Exceeds	Is Less Than	Equals	Exceeds	Is Less Than
Exercise price	\$ 1.35			\$ 2.00		
Fair value of option	\$ 0.99			\$ 1.57		

The Company granted 12,500 options in the first quarter of 2006 and no options in the second quarter of 2006. The Company granted 20,000 options in the first quarter of 2005 and 31,645 options in the second quarter of 2005. No SARs were granted during the six months ended June 30, 2006 and 2005.

(3) SEGMENT INFORMATION

While the Company operates in one industry, financial services, in applying SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, the Company has identified three segments within which it operates. HyperFeed has two business segments, which are HTPX and HMDP. HTPX is offered as a complete turnkey solution for the normalization, databasing, integration and transmission of high performance, real-time data sources from market data sources, content providers, and proprietary in-house sources. HMDP, which the Company acquired in the second quarter of 2005, is a market data platform that integrates market data from any source into any type of display or application software: transactional, web distribution, risk management, or other mid and back-office systems. HMDP is currently generating no revenue because it is still in the developmental stage. In the first quarter of 2006, HyperFeed first began to differentiate between the operating results of HTPX and HMDP as reportable segments. The Company allocates resources based upon the operating results of these segments. HYPRWare derives revenue from royalties related to license fees collected by Townsend from subscribers to Townsend's service over the Internet who had been referred through HYPRWare. The accounting policies of the reportable segments are the same as those described in Note 1 of the Notes to Unaudited Interim Consolidated Financial Statements. Financial information relating to industry segments were as follows for the three and six months ended June 30, 2006 and June 30, 2005:

	Three Months Ended June 30, 2006		2005		Six Months Ended June 30, 2006		2005	
	Sales to unaffiliated customers							
HyperFeed HTPX	\$	807,569	\$	957,744	\$	1,728,480	\$	1,751,925
HyperFeed HMDP								
HYPRWare		74,302		86,785		151,875		181,658
Total revenue	\$	881,871	\$	1,044,529	\$	1,880,355	\$	1,933,583
Operating income (loss) from continuing operations								
HyperFeed HTPX	\$	(2,144,833)	\$	(1,638,235)	\$	(4,322,678)	\$	(3,378,124)
HyperFeed HMDP		(377,084)		(30,577)		(846,299)		(30,577)
HYPRWare		74,302		86,073		151,041		177,547
Total operating loss from continuing operations	\$	(2,447,615)	\$	(1,552,162)	\$	(5,017,936)	\$	(3,200,577)
HyperFeed HTPX		*		*		*		*
HyperFeed HMDP		*		*		*		*
HYPRWare		*		*		*		*

Total operating loss from continuing operations	*	*	*	*

(4) INTANGIBLES

On April 30, 2001, the Company acquired certain assets of Marketscreen.com, Inc. (Marketscreen) for \$100,000 and 45,000 shares of HyperFeed s common stock and, in conjunction with the Marketscreen acquisition, acquired certain assets of Lasdorf Corporate Services, Inc. (Lasdorf) for \$300,000. The acquisitions of Marketscreen and of Lasdorf s intellectual property were accounted for under the purchase method of accounting. The total purchase price of \$1,607,609 consisted of \$1,147,500 for the fair value of common stock issued, \$400,000 of cash consideration, and \$60,109 for acquisition fees and expenses.

During the fourth quarter of 2002, the Company conducted a review of the carrying value of goodwill and purchased intangible assets. Certain intangibles were determined to be impaired because the carrying amount of the assets exceeded the undiscounted future cash flows expected to be derived from the assets. The impairment losses aggregating \$0.7 million were measured as the amount by which the carrying amounts of the assets exceeded the fair values of the assets, determined based on the discounted future cash flows expected to be derived from the assets. No impairment losses were recorded after the fourth quarter of 2002. At December 31, 2005, the intangible asset was fully amortized.

On September 23, 2004, the Company repurchased a customer contract that had been sold by HyperFeed to Interactive Data Corporation (IDC) as part of the sale of HyperFeed s institutional consolidated market data feed business in October 2003. As a result of this repurchase, the Company recorded an intangible asset of \$127,500. At December 31, 2005, the intangible asset was fully amortized.

On February 16, 2005, the Company acquired Focus Technology Group LLC (Focus), a Delaware limited liability company, developer of Smart Order Routing Technology for Traders (SORTT). The Company purchased substantially all of the assets of Focus, which primarily consisted of developed technology, a customer contract and relationships. The acquisition of Focus was considered to be an acquisition of a development stage enterprise, as defined under SFAS No. 141, Business Combinations, and was not considered a business combination. As a result, the transaction was accounted for under SFAS No. 142, Goodwill and Other Intangible Assets. The guaranteed portion of the purchase price was \$350,000 and was allocated to the identifiable intangible assets on the basis of their estimated fair values on the acquisition date. The Company allocated \$250,000 to developed technology, \$80,000 to non-compete agreements, and \$20,000 to customer contracts, with amortization periods of three years, two years, and one year, respectively. The purchase price also included a contingent portion dependent upon the achievement of certain growth targets for license and maintenance revenues from the SORTT applications through February 2008, not to exceed \$3.4 million in the aggregate. As of June 30, 2006, the Company did not have any contingent payments due.

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Intangible asset data is as follows:

	June 30, 2006		December 31, 2005	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangibles:				
Developed technology	\$ 250,000	\$ (114,583)	\$ 430,000	\$ (252,917)
Non-compete agreements	80,000	(55,000)	80,000	(35,000)
Acquired customer contract	20,000	(20,000)	147,500	(145,000)
Total	\$ 350,000	\$ (189,583)	\$ 657,500	\$ (432,917)
Estimated amortization, for the year ended				
December 31, 2006	\$ 125,833			
December 31, 2007	\$ 88,333			
December 31, 2008	\$ 10,417			

The net amortized intangibles at June 30, 2006 are \$160,417 and the weighted average amortization period is 2.66 years in total. The net amortized intangibles at June 30, 2005 are \$316,250 and the weighted average amortization period was 2.53 years in total.

(5) LICENSED SOFTWARE

On May 20, 2005, the Company entered into an exclusive license agreement with Reuters Limited, a corporation organized under the laws of England and Wales (Reuters), and Moneyline Telerate, a Delaware corporation (Telerate), to license globally in perpetuity the source code for both Telerate s Trading Room System (TRS) and Telerate s Active8 technology. In accordance with SFAS No. 86, the Company has recorded the \$1.0 million license fee as an asset under licensed and developed software costs with the corresponding liability recorded under accounts payable. The license fee is due in two installments with 25% payable January 15, 2006 and the remainder payable January 15, 2007. The licensed software has an estimated useful life of five years and amortization began in the third quarter of 2005. As a result of certain disputes between the Company and Reuters relating to the license agreement, the Company has not paid the portion of the license fee due on January 15, 2006.

In August 2005, the Company entered into an exclusive, multi-year distributor agreement with MarketXS, a leading European provider of real-time market data technology and trading solutions, that gives MarketXS the right to license, distribute, and support HyperFeed s HMDP and OCC products in Europe, the Middle East, and Africa. HyperFeed plans to provide software upgrades, maintenance and second level support, while MarketXS is expected to provide European development, technical sales, and first level maintenance support. The term of the distributor agreement varies, with certain elements extending through January 2015.

(6) LINE OF CREDIT AND CONVERTIBLE NOTE

On December 20, 2005, the Company issued a Promissory Note to PICO in the amount of \$810,000 at an interest rate of 7.0% per annum. The entire unpaid principal balance and related interest under the December 20, 2005 Promissory Note was due and payable not later than January 31, 2006. As described below, the December 20, 2005 Promissory Note has been cancelled.

On January 23, 2006, the Company issued a Promissory Note to PICO in the amount of \$1,500,000 at an interest rate of 7.0% per annum. The entire unpaid principal balance and related interest under the January 23, 2006 Promissory Note was due and payable not later than February 28, 2006. The Company paid off a \$500,000 line of credit with the borrowings from the January 23, 2006 Promissory Note and cancelled the line of credit. As described below, the January 23, 2006 Promissory Note has been cancelled.

On February 15, 2006, the Company issued a Promissory Note to PICO in the amount of \$3,310,000 at an interest rate of 7.0% per annum. The Company borrowed an additional \$1,000,000 under the February 15, 2006 Promissory Note. The principal sum borrowed under the December 20, 2005 Promissory Note, the January 23, 2006 Promissory Note, and the February 15, 2006 Promissory Note totaled \$3,310,000. In connection with this issuance, the December 20, 2005 Promissory Note and the January 23, 2006 Promissory Note were cancelled. The entire unpaid principal balance and related interest under the February 15, 2006 Promissory Note was due and payable not later than March 31, 2006. As described below, the February 15, 2006 Promissory Note has been cancelled.

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

On March 15, 2006, the Company issued a Promissory Note to PICO in the amount of \$4,160,000 at an interest rate of 7.0% per annum. The Company borrowed an additional \$850,000 under the March 15, 2006 Promissory Note. The principal sum borrowed under the February 15, 2006 Promissory Note and the March 15, 2006 Promissory Note totaled \$4,160,000. In connection with this

12

issuance, the February 15, 2006 Promissory Note was cancelled. The entire unpaid principal balance and related interest under the March 15, 2006 Promissory Note was due and payable not later than April 30, 2006. As described below, the March 15, 2006 Promissory Note has been replaced by the 2006 Convertible Note.

On March 30, 2006, the Company issued to PICO the 2006 Convertible Note, which replaced the March 15, 2006 Promissory Note. Under the terms of the 2006 Convertible Note, the Company may borrow up to \$10.0 million at an interest rate of prime plus 2.75%. The Company is obligated to repay all outstanding principal and accrued interest under the 2006 Convertible Note two years from issuance. The 2006 Convertible Note, which is convertible by PICO at any time into HyperFeed's common stock, provides that the number of shares that PICO would receive in connection with a conversion of any amounts outstanding under the 2006 Convertible Note would be determined by dividing the total outstanding amount to be converted by the lesser of (i) 80% of the five-day moving average per share price of HyperFeed's common stock on the date of conversion or (ii) 80% of \$1.05 per share. The number of shares of HyperFeed's common stock issuable upon conversion of the 2006 Convertible Note is not subject to a cap. It is anticipated that the 2006 Convertible Note will be converted upon the consummation of the Merger described in Note 1 above. In addition, in connection with issuing the 2006 Convertible Note, the Company issued to PICO a warrant to purchase 125,000 shares of HyperFeed's common stock at an exercise price of \$1.05 per share. The fair value assigned to the warrants was \$0.1 million. The warrant expires on March 30, 2009.

The 2006 Convertible Note contains a beneficial conversion feature and, as a result, the Company recorded additional paid in capital and interest expense of \$1.7 million for the six months ended June 30, 2006, in accordance with EITF Issue No. 00-27, Application of EITF Issue No. 98-5, Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios, to Certain Convertible Instruments. The 2006 Convertible Note is secured by all of the assets of the Company and contains customary representations, warranties, covenants, and events of default. As of June 30, 2006, the Company has borrowed \$6.7 million under the terms of the 2006 Convertible Note and has accrued, but unpaid, interest of \$0.2 million.

(7) DISCONTINUED OPERATIONS

On October 31, 2003, the Company sold its institutional consolidated market data feed business to IDC for \$8.5 million. The sale allowed HyperFeed to focus on its business model as a utility provider of technology, software, and managed services for financial institutions. The sale price of \$8.5 million included (1) an initial payment of \$7.0 million cash paid on October 31, 2003, (2) \$0.6 million in holdbacks payable upon completion of custom software and the fulfillment of certain transition services, and (3) an \$0.9 million indemnification holdback. The Company also entered into a transition services agreement whereby IDC reimbursed HyperFeed on a monthly basis for direct costs relative to the purchased business. These costs included costs associated with resources dedicated to the transition, communications expenses, and other related costs. Of the \$0.6 million in holdbacks related to completion of customer software and fulfillment of certain transition services, the Company received \$0.4 million and waived \$0.1 million during the first quarter of 2004 and received the final \$0.1 million during the third quarter of 2005. Of the \$0.9 million, indemnification holdback, as of June 30, 2006, the Company remains eligible to receive \$0.2 million, subject to satisfaction of certain conditions. This amount has previously been reduced by \$0.1 million attributable to the customer contract repurchased from IDC in September 2004, \$0.1 million received in the fourth quarter of 2004, \$0.3 million received in the fourth quarter of 2005, and \$0.2 million received in the first quarter of 2006. The Company received the remaining holdback in July 2006.

The disposition was accounted for as discontinued operations in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The results of operations for the discontinued businesses are as follows:

The Company recognized a gain from discontinued operations of \$102,000, net of a \$63,000 tax expense, for the three and six months ended June 30, 2006, compared to no gain for three and six months ended June 30, 2005. The Company had no operating expenses from discontinued operations for three and six months ended June 30, 2006 compared to operating expenses of \$17,050 and \$39,649, unadjusted for taxes, for the three and six months ended June 30, 2005, respectively. There were no revenue or direct costs of revenue from discontinued operations for the three and six months ended June 30, 2006 and 2005.

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Assets and liabilities related to discontinued operations consist of the following:

	June 30, 2006	December 31, 2005
Assets Related to Discontinued Operations		
Accounts receivable, net of allowance for doubtful accounts of 2006: \$28,705; 2005: \$204,948	\$ 40,917	\$ 57,094
Total Assets Related to Discontinued Operations	\$ 40,917	\$ 57,094
Liabilities Related to Discontinued Operations		
Accounts payable	\$ 201,089	\$ 45,259
Accrued expenses	250,000	488,289
Total Liabilities Related to Discontinued Operations	\$ 451,089	\$ 533,548

(8) SIGNIFICANT CUSTOMERS

The Nasdaq Stock Market, Inc. accounted for approximately 10.7% and 2.0% of the Company's consolidated revenue for the six months ended June 30, 2006 and 2005, respectively, and approximately 8.0% and 2.4% of the company's consolidated revenue for the three months ended June 30, 2006 and 2005, respectively. ComStock accounted for approximately 10.2% and 19.1% of the Company's consolidated revenue for the six months ended June 30, 2006 and 2005, respectively, and approximately 8.4% and 16.8% of the Company's consolidated revenue for the three months ended June 30, 2006 and 2005, respectively. Susquehanna International Group, LLP accounted for approximately 7.5% and 12.5% of the Company's consolidated revenue for the six months ended June 30, 2006 and 2005, respectively, and approximately 8.0% and 11.6% of the Company's consolidated revenue for the three months ended June 30, 2006 and 2005, respectively.

(9) LITIGATION

On February 23, 2006, the Company filed a two-count complaint in the Tax Court of New Jersey contesting the determination by the New Jersey Division of Taxation that HyperFeed had nexus with New Jersey for the purposes of (i) the New Jersey Corporation Tax and (ii) the New Jersey Sales and Use Tax for the period beginning January 1, 1994 and forward. On April 25, 2006, the Company received notice that the New Jersey Division of Taxation has denied the allegations set forth in the two-count complaint. The Company intends to aggressively contest the determination. As of June 30, 2006, the Company had accrued \$250,000 in potential tax liability and recorded the expense in discontinued operations.

The Company is a party to various other legal proceedings incidental to its business operations, none of which is expected to have a material adverse effect on the financial condition or results of operations of the Company.

(10) PENDING TRANSACTIONS

On June 13, 2006, the Company announced that its Board of Directors approved a 1:1000 reverse stock split of its Common Stock to reduce ongoing operating costs including the substantial and increasing costs and expense associated with compliance with the laws, rules, and regulations of the SEC. PICO, HyperFeed's majority stockholder, pursuant to applicable law and the Company's bylaws, has approved the reverse stock split. Pending SEC review of certain filings the Company has made pursuant to the rules and regulations set forth in Section 13e-3 of the U.S. Securities Exchange Act of 1934 to effect the reverse stock split, the reverse stock split is expected to reduce the number of stockholders of record to less than 300, which will permit the Company to terminate its obligation to file reports with the SEC. Pursuant to the terms of the Going Private Transaction, stockholders owning less than 1,000 shares would be paid an amount based on the closing price per share of the Company's Common Stock on the Over-The-Counter Bulletin Board market on the date of effectiveness of the reverse stock split. Stockholders owning more than 1,000 shares would remain as shareholders of the Company after the reverse stock split and would have fractional shares redeemed at the same rate. The Company estimates that an aggregate of \$400,000 would be paid to its stockholders to complete the reverse stock split. Funding for the transaction is expected to be provided by the 2006 Convertible Note. All amounts to be paid to HyperFeed stockholders in connection with the Going Private Transaction shall have been paid or accrued as a liability on the Company's balance sheet before the closing date.

On June 19, 2006, the Company entered into the Merger Agreement by and among HyperFeed, Acquisition Holdings, and Exegy, pursuant to which HyperFeed and Exegy have agreed to combine their businesses through the Merger. Exegy, which is a privately held company, will survive the Merger as a wholly-owned subsidiary of HyperFeed. The Company believes the combination will create an innovative technology company focused on producing unrivaled performance. Under the terms of the Merger Agreement, each Exegy common share will be converted

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

into HyperFeed shares of common stock and each Exegy option will be converted into HyperFeed options, resulting in the stockholders of both HyperFeed and Exegy each owning 50% of the merged company on a fully diluted basis. The Merger Agreement is subject to customary conditions, and requires cash equity contributions by PICO and the stockholders of

14

Exegy of US \$5.0 million each, prior to closing. As a condition to closing, HyperFeed shall have caused PICO to convert its 2006 Convertible Note in exchange for shares of HyperFeed Common Stock in accordance with the terms of the 2006 Convertible Note. Additionally, under the terms of the Merger Agreement, HyperFeed shall have completed the Going Private Transaction. The Merger is expected to close not later than October 31, 2006.

While the Company expects the Merger to close, if it fails to do so, the Company currently believes that its existing and anticipated capital resources, including cash and cash equivalents, accounts receivable, assets related to discontinued operations, cash expected to be received from holdbacks associated with the sale of its institutional consolidated market data feed business and financing from PICO, which currently is the Company's only source of financing, may not be sufficient to fund its operations beyond December 31, 2006. The Company believes that it will need to obtain additional capital in the immediate future both to fund investments needed to increase its operating revenues to levels that will sustain its operations and to fund operating deficits that it anticipates will continue until revenue increases can be realized. There can be no assurances that the Company will be successful in obtaining sufficient additional capital, or if it does, that the additional capital will enable the Company to improve its business so as to have a material positive effect on the Company's operations and cash flow. The Company believes that without additional investment, from PICO or other sources, it may be forced to cease operations at an undetermined future date. It is uncertain whether the Company's assets will retain any value if the Company ceases operations. There are no assurances that additional funding will be available to the Company before it may be forced to cease operations.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause the results of HyperFeed Technologies, Inc. (HyperFeed) and its subsidiary, HYPRWare, Inc. (HYPRWare), (collectively, the Company) to differ materially from those expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including any statements of the plans, strategies and objectives of management for future operations; any statements regarding future economic conditions or performance; any statement of expectation or belief; and any statements of assumptions underlying any of the foregoing. The risks, uncertainties, and assumptions referred to above include risks related to the possibility of requiring additional financing; the Company's proposed reverse stock split, the completion of the proposed merger, the possible issuance of additional shares and significant dilution of our stockholders' ownership percentage associated with our secured convertible note payable; the execution of our business plan; the fluctuations in our financial results; our history of operating losses; attracting and retaining qualified management and key employees; the timely development and introduction of new product and service initiatives at competitive prices and performance levels; pending or future legal proceedings; the effect of economic and business conditions generally; and risks that are otherwise described in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 and from time to time in the Company's other reports and registration statements filed with the Securities and Exchange Commission.

OVERVIEW

The Company has sustained significant losses in recent years and in the first six months of 2006. In particular, the Company incurred a net loss of \$6.8 million for the first six months of 2006 compared to a net loss of \$4.0 million for the same period in 2005, and an overall net loss of \$9.5 million for the fiscal year ended December 31, 2005. Included in the net loss of \$6.8 million for the first six months of 2006 is \$1.7 million of noncash interest expense related to the beneficial conversion feature of the Secured Convertible Promissory Note (the 2006 Convertible Note) issued by the Company to PICO in the first quarter of 2006 as described in Note 6 of the Notes to Unaudited Interim Consolidated Financial Statements. Operations through June 30, 2006 have been funded, in part, by advances on the 2006 Convertible Note. As of June 30, 2006, the Company has an outstanding principal balance of \$6.7 million under the terms of the 2006 Convertible Note and has accrued, but unpaid, interest of \$0.2 million. Additionally, the Company's negative cash flows from operating activities increased to \$4.1 million for the six months ended June 30, 2006 compared to \$1.7 million for the six months ended June 30, 2005. The recurring losses and negative cash flows raise substantial doubt about the Company's ability to continue as a going concern. Total revenue for the first six months remained relatively unchanged at \$1.9 million for 2006 and 2005.

On June 13, 2006, the Company announced that its Board of Directors approved a 1:1000 reverse stock split of its Common Stock to reduce ongoing operating costs including the substantial and increasing costs and expense associated with compliance with the laws, rules, and regulations of the U.S. Securities and Exchange Commission (SEC). PICO, HyperFeed's majority stockholder, pursuant to applicable law and the Company's bylaws, has approved the reverse stock split. Pending SEC review of certain filings the Company has made pursuant to the rules and regulations set forth in Section 13e-3 of the U.S. Securities Exchange Act of 1934 to effect the reverse stock split, the reverse stock split is expected to reduce the number of stockholders of record to less than 300, which will permit the Company to terminate its obligation to file reports with the SEC (the Going Private Transaction). Pursuant to the terms of the Going Private Transaction, stockholders owning less than 1,000 shares would be paid an amount based on the closing price per share of the Company's Common Stock on the Over-The-Counter Bulletin

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Board market on the date of effectiveness of the reverse stock split. Stockholders owning more than 1,000 shares would remain as shareholders of the

15

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Company after the reverse stock split and would have fractional shares redeemed at the same rate. The Company estimates that an aggregate of \$400,000 would be paid to its stockholders to complete the reverse stock split. Funding for the transaction is expected to be provided by the 2006 Convertible Note. All amounts to be paid to HyperFeed stockholders in connection with the Going Private Transaction shall have been paid or accrued as a liability on the Company's balance sheet before the closing date.

On June 19, 2006, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") by and among HyperFeed, HyperFeed's subsidiary, HyperFeed Acquisition Holdings, Inc., a Delaware corporation ("Acquisition Holdings"), and Exegy Incorporated, a Delaware corporation ("Exegy"), pursuant to which HyperFeed and Exegy have agreed to combine their businesses through a merger of Exegy and Acquisition Holdings (the "Merger"). Exegy, which is a privately held company, will survive the Merger as a wholly-owned subsidiary of HyperFeed. The Company believes the combination will create an innovative technology company focused on producing unrivaled performance. Under the terms of the Merger Agreement, each Exegy common share will be converted into HyperFeed shares of common stock and each Exegy option will be converted into HyperFeed options, resulting in the stockholders of both HyperFeed and Exegy each owning 50% of the merged company on a fully diluted basis. The Merger Agreement is subject to customary conditions, and requires cash equity contributions by PICO and the stockholders of Exegy of US \$5.0 million each, prior to closing. As a condition to closing, HyperFeed shall have caused PICO to convert its 2006 Convertible Note in exchange for shares of HyperFeed Common Stock in accordance with the terms of the 2006 Convertible Note. Additionally, under the terms of the Merger Agreement, HyperFeed shall have completed the Going Private Transaction. The Merger is expected to close not later than October 31, 2006.

While the Company expects the Merger to close, if it fails to do so, the Company currently believes that its existing and anticipated capital resources, including cash and cash equivalents, accounts receivable, assets related to discontinued operations, cash expected to be received from holdbacks associated with the sale of its institutional consolidated market data feed business and financing from PICO, which currently is the Company's only source of financing, may not be sufficient to fund its operations beyond December 31, 2006. The Company believes that it will need to obtain additional capital in the immediate future both to fund investments needed to increase its operating revenues to levels that will sustain its operations and to fund operating deficits that it anticipates will continue until revenue increases can be realized. There can be no assurances that the Company will be successful in obtaining sufficient additional capital, or if it does, that the additional capital will enable the Company to improve its business so as to have a material positive effect on the Company's operations and cash flow. The Company believes that without additional investment, from PICO or other sources, it may be forced to cease operations at an undetermined future date. It is uncertain whether the Company's assets will retain any value if the Company ceases operations. There are no assurances that additional funding will be available to the Company before it may be forced to cease operations.

In the first quarter of 2006, the Company issued the 2006 Convertible Note to PICO for \$10.0 million, payable two years from issuance, as described in Note 6 of the Notes to Unaudited Interim Consolidated Financial Statements. The Company anticipates that PICO will convert the 2006 Convertible Note prior to the close of the Merger Agreement. However, in the event that the Merger Agreement does not close, the Company may not have sufficient capital resources to repay or refinance the 2006 Convertible Note when it comes due in March 2008. In the event that PICO chooses not to convert the 2006 Convertible Note and the Company is unable to repay or refinance the 2006 Convertible Note at such time, PICO will also have the right to declare the 2006 Convertible Note in default and may, at its option, pursue any other remedies available to it. See the Company's Current Report on Form 8-K filed on March 31, 2006. If the Company requires additional capital resources, there can be no assurances that such capital will be available or that such capital will be available on terms satisfactory to the Company. If the Company does not obtain such capital, it may not have sufficient capital resources to fund continuing operations.

The Company derives revenue from software licensing, maintenance, and consulting fees. In general, the Company expects that its licensing fees will be structured as a one time fee with a recurring maintenance fee, a recurring monthly fee, based upon the nature, size, and scope of the licensee, or a monthly fee, based upon the number of end users that rely upon the products and services offered by the licensee. Consulting fees charged to customers are expected to vary based upon the nature, size, and scope of the projects undertaken.

The Company's direct costs of revenue are composed largely of software development amortization costs, royalty fees and labor associated with consulting services.

RESULTS OF OPERATIONS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2006 AND 2005

Revenue

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Total revenue for the first six months remained relatively unchanged at \$1.9 million for 2006 and 2005. Total revenue for the three months ended June 30, 2006 decreased 15.6% to \$0.9 million compared with \$1.0 million for the three months ended June 30, 2005.

16

HyperFeed revenue remained unchanged at \$1.7 million for the six months ended June 30, 2006 and decreased 15.7% to \$0.8 million for the three months ended June 30, 2006 as compared to \$1.0 million for the comparable period in 2005. The decline in HyperFeed revenue for the three-month period is due to two contracts that were structured as one-time fees and became fully amortized during 2005. HyperFeed revenue is derived from HTPX and HBOX software and ticker plant technologies and includes license and consulting revenue, including revenue from multi-year contracts with Chicago Board Options Exchange, Philadelphia Stock Exchange, ComStock, Inc., Susquehanna International Group, LLP, and The Nasdaq Stock Market, Inc. There was no HMDP revenue for the three and six months ended June 30, 2006 and 2005.

HYPRWare revenue decreased 16.4% to \$151,875 for the six months ended June 30, 2006 compared with \$181,658 for the six months ended June 30, 2005. For the three months ended June 30, 2006, HYPRWare revenue decreased 14.4% to \$74,302 compared with \$86,785 for the three months ended June 30, 2005. HYPRWare derives revenue from royalties related to license fees for customers it referred to Townsend Analytics, Ltd. (Townsend) prior to December 31, 2002. The decline in HYPRWare revenue is due to a decrease in royalties from Townsend as former HYPRWare customers serviced by Townsend decrease. The Company currently expects that any future revenue recognized by HYPRWare will be derived exclusively from royalties from the licensing agreement with Townsend and that the HYPRWare revenue will continue to decline.

Total Expenses

Total expenses (including direct costs of revenue, operating expenses, other expense, and expenses in discontinued operations) increased 47.5% to \$8.8 million for the six months ended June 30, 2006 compared with \$6.0 million for the six months ended June 30, 2005. Total expenses decreased 4.1% to \$3.0 million for the three months ended June 30, 2006 compared with \$3.1 million for the three months ended June 30, 2005. The increase in total expenses for the six-month period was principally due to \$1.3 million of labor costs, noncash interest expenses of \$1.0 million incurred in connection with the beneficial conversion feature related to the 2006 Convertible Note, and \$0.5 million in communication and data costs. The \$8.8 million of total expense for the six months ended June 30, 2006 consists of \$8.0 million for HTPX and \$0.8 million for HMDP. The \$3.0 million of total expense for the three months ended June 30, 2006 consists of \$2.8 million for HTPX and \$0.2 million for HMDP. Total expenses related to HMDP for the three and six months ended June 30, 2005 were \$30,577.

Direct Costs of Revenue

Total direct costs of revenue increased 57.9% to \$0.9 million for the six months ended June 30, 2006 compared with \$0.6 million for the six months ended June 30, 2005. For the three months ended June 30, 2006, total direct costs of revenue increased 58.1% to \$0.4 million compared with \$0.3 million for the three months ended June 30, 2005. The principal component of the increases for the three and six-month periods were \$0.1 million and \$0.2 million, respectively, for license fees related to the provision of third party data. Amortization of licensed and developed software costs increased 25.7% to \$0.6 million for the six months ended June 30, 2006 as compared to \$0.5 million for the six months ended June 30, 2005. Amortization of licensed and developed software costs remained relatively unchanged at \$0.3 million for the three months ended June 30, 2006 and 2005. Direct costs of revenue associated with HTPX for the six months ended June 30, 2006 were \$0.8 million and direct costs of revenue associated with HMDP were \$0.1 million for the six months ended June 30, 2006. Direct costs of revenue associated with HTPX for the three months ended June 30, 2006 were \$0.3 million and direct costs of revenue associated with HMDP were \$0.1 million for the three months ended June 30, 2006. There were no direct costs of revenue related to HMDP for the three and six months ended June 30, 2005. There are no direct costs of revenue related to HYPRWare service revenue as such amounts consist solely of royalty income. Gross margin decreased 27.6% to \$1.0 million for the six months ended June 30, 2006 compared with \$1.4 million for the six months ended June 30, 2005. Gross margin decreased 42.4% to \$0.4 million for the three months ended June 30, 2006 compared with \$0.8 million for the three months ended June 30, 2005. Direct costs as a percentage of total revenue increased to 47.2% for the six months ended June 30, 2006 compared with 29.1% for the six months ended June 30, 2005. Direct costs as a percentage of total revenue increased to 50.0% for the three months ended June 30, 2006 compared with 26.7% for the three months ended June 30, 2005. The increases in the proportion of direct costs of revenue to total revenue for the three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 were due to an overall increase in direct costs of revenue.

Operating Expenses

Total operating expenses increased 31.5% to \$6.0 million for the six months ended June 30, 2006 compared with \$4.6 million for the six months ended June 30, 2005. For the three months ended June 30, 2006, total operating expenses increased 24.6% to \$2.9 million compared with \$2.3 million for the three months ended June 30, 2005. Increases were experienced in all categories, except depreciation and amortization expenses and general and administrative expenses for the six-month period. Operating expenses related to HMDP for the three and six months ended June 30, 2005 were \$30,577. Total operating expenses as a percentage of total revenue increased to 319.7% for the six months ended June 30, 2006 compared to 236.5% for the six months ended June 30, 2005. Total operating expenses as a percentage of total revenue increased to 327.6% for the three months ended June 30, 2006 compared to 221.9% for the three months ended June 30, 2005. The increases in the proportion of total operating expenses to total revenue for the

three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 were due to an overall increase in total operating expenses.

Sales and marketing costs increased 23.1% to \$1.0 million for the six months ended June 30, 2006 compared with \$0.8 million for the six months ended June 30, 2005. Sales and marketing costs remained unchanged at \$0.5 million for the three months ended June 30, 2006 and 2005. The increase for the six-month period was primarily resulted from \$0.1 million of costs associated with selling the HMDP product, which the Company acquired in the second quarter of 2005, and \$0.1 million of additional labor costs due to growth in the Company's sales force. The \$1.0 million of sales and marketing costs for the six months ended June 30, 2006 consist of \$0.7 million for HTPX and \$0.3 million for HMDP. The \$0.5 million for the three months ended June 30, 2006 consist of \$0.4 million for HTPX and \$0.1 million for HMDP. There were no sales and marketing costs related to HMDP for the three and six months ended June 30, 2005. Sales costs as a percentage of total revenue increased to 55.6% for the six months ended June 30, 2006 compared to 43.9% for the six months ended June 30, 2005. Sales costs as a percentage of total revenue increased to 58.3% for the three months ended June 30, 2006 compared to 48.4% for the three months ended June 30, 2005. The increases in the proportion of sales and marketing costs to total revenue for the three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 were due to an overall increase in sales and marketing costs.

General and administrative expenses remained unchanged at \$1.5 million for the six months ended June 30, 2006 and 2005. General and administrative expenses remained unchanged at \$0.7 million for the three months ended June 30, 2006 and 2005. The \$1.5 million of general and administrative expenses for the six months ended June 30, 2006 consists of \$1.4 million for HTPX and \$0.1 million for HMDP. The \$0.7 million of general and administrative expenses for the three months ended June 30, 2006 consist of \$0.7 million for HTPX and \$28,194 for HMDP. There were \$30,577 of general and administrative expenses related to HMDP for the three and six months ended June 30, 2005. General and administrative expenses as a percentage of total revenue increased to 81.6% for the six months ended June 30, 2006 compared to 79.5% for the six months ended June 30, 2005. General and administrative expenses as a percentage of total revenue increased to 84.7% for the three months ended June 30, 2006 compared to 70.6% for the three months ended June 30, 2005. The increase in the proportion of general and administrative costs to total revenue for the three months ended June 30, 2006 was due to a decrease in revenue compared to the three months ended June 30, 2005.

Research and development costs increased 53.5% to \$1.1 million for the six months ended June 30, 2006 compared with \$0.7 million for the six months ended June 31, 2005. Research and development costs increased 51.3% to \$0.5 million for the three months ended June 30, 2006 compared with \$0.3 million for the three months ended June 30, 2005. The increase for the six-month period resulted from \$0.2 million in additional labor costs and \$0.2 million for the outsourcing of labor, incurred in each case to enhance HyperFeed's product line. The increase for the three-month period resulted from \$0.1 million in additional labor costs and \$0.1 million for the outsourcing of labor, incurred in each case to enhance HyperFeed's product line. The \$1.1 million of research and development costs for the six months ended June 30, 2006 consists of \$0.9 million for HTPX and \$0.2 million for HMDP. The \$0.5 million of research and development costs for the three months ended June 30, 2006 consists of \$0.4 million for HTPX and \$0.1 million for HMDP. There were no research and development costs related to HMDP for the three and six months ended June 30, 2005. Research and development costs as a percentage of total revenue increased to 59.7% for the six months ended June 30, 2006 compared to 37.8% for the six months ended June 30, 2005. Research and development costs as a percentage of total revenue increased to 57.7% for the three months ended June 30, 2006 compared to 32.2% for the three months ended June 30, 2005. The increase in the proportion of research and development costs to total revenue for the three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 was due to an overall increase in research and development costs.

Operations costs increased 93.0% to \$2.0 million for the six months ended June 30, 2006 compared with \$1.0 million for the six months ended June 30, 2005. Operations costs increased 82.2% to \$1.0 million for the three months ended June 30, 2006 compared with \$0.5 million for the three months ended June 30, 2005. The increase for the six-month period resulted from \$0.5 million for communication costs, \$0.4 million in labor costs relating to the end of the transition service agreement period related to the sale of HyperFeed's institutional consolidated market data feed business, and \$0.1 million for data acquisition costs that the Company did not incur in the first half of 2005. The increase for the three-month period resulted from \$0.2 million for communication costs, \$0.2 million in labor costs, and \$0.1 million for data acquisition costs. Operations costs consist of technical support, data maintenance, data access, and communications costs. The \$2.0 million of operations costs for the six months ended June 30, 2006 consists of \$2.0 million for HTPX and \$0.1 million for HMDP. The \$1.0 million for operations costs for the three months ended June 30, 2006 consists of \$1.0 million for HTPX and \$38,031 for HMDP. There were no operations costs related to HMDP for the three and six months ended June 30, 2005. Operations costs as a percentage of total revenue increased to 107.3% for the six months ended June 30, 2006 compared to 54.1% for the six months ended June 30, 2005. Operations costs as a percentage of total revenue increased to 112.1% for the three months ended June 30, 2006 compared to 51.9% for the three months ended June 30, 2005. The increase in the proportion of operations costs to total revenue for the three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 was due to an overall increase in operations costs.

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Depreciation and amortization decreased 28.6% to \$0.3 million for the six months ended June 30, 2006 compared with \$0.4 million for the six months ended June 30, 2005. Depreciation and amortization decreased 33.3% to \$0.1 million for the three months ended June

18

30, 2006 compared to \$0.2 million for the three months ended June 30, 2005. The \$0.3 million of depreciation and amortization costs for the six months ended June 30, 2006 consists of \$0.3 million for HTPX and \$6,100 for HMDP. The \$0.1 million of depreciation and amortization costs for the three months ended June 30, 2006 consist of \$0.1 million for HTPX and \$3,657 for HMDP. There were no depreciation and amortization costs related to HMDP for the three months ended June 30, 2005. Depreciation and amortization as a percentage of total revenue decreased to 15.5% for the six months ended June 30, 2006 compared to 21.1% for the six months ended June 30, 2005. Depreciation and amortization as a percentage of total revenue decreased to 14.8% for the three months ended June 30, 2006 compared to 18.8% for the three months ended June 30, 2005. The decrease in the proportion of depreciation and amortization costs to total revenue for the three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 was due to a decrease in depreciable assets.

Interest Expense

Interest expense increased 139.8% to \$1.9 million for the six months ended June 30, 2006 compared with \$0.8 million for the six months ended June 30, 2005. Interest expense decreased 170.0% to a recovery of \$0.3 million for the three months ended June 30, 2006 compared with expense of \$0.5 million for the three months ended June 30, 2005. The increase for the six month period principally resulted from noncash interest expense of \$1.7 million recorded for the six months ended June 30, 2006 related to the beneficial conversion feature of the 2006 Convertible Note compared to noncash interest expenses of \$0.7 million recorded in the six months ended June 30, 2005 related to the beneficial conversion feature of an amended and restated Secured Convertible Promissory Note issued by the Company to PICO in the first quarter of 2005 (the Restated Convertible Note). Additionally, the Company recorded accrued interest of \$0.2 million for the six months ended June 30, 2006 on borrowings against the 2006 Convertible Note compared to \$0.1 million of accrued interest plus commitment fee for the six months ended June 30, 2005 against the borrowings under the Restated Convertible Note. HTPX absorbed 100.0% of the interest expense for the three and six months ended June 30, 2006 and 2005, respectively. As a result of a decrease in the price of HyperFeed's common stock, noncash interest related to the beneficial conversion feature of the 2006 Convertible Note was income during the second quarter of 2006. This result occurs due to the mark-to-market accounting for the beneficial conversion feature combined with the decline in the market price of HyperFeed's common stock.

Discontinued Operations

In June 2003, the Company sold the individual retail investor unit and related assets of its subsidiary, PCQuote.com, Inc., and, in October 2003, the Company sold its institutional consolidated market data feed business. Due to the completion of its obligations under the transition service agreement entered into in connection with the sale of its consolidated market data feed business in the second quarter of 2005, the Company did not record any income or expense related to discontinued operations for the three and six months ended June 30, 2006 compared with a net loss from discontinued operations of \$17,050 and \$39,649, unadjusted for tax, for the three and six months ended June 30, 2005, respectively. The net loss for the three and six months ended June 30, 2005 resulted from the incurrence of inbound communications costs associated with the Company's obligation under a transition services agreement related to the sale of its consolidated market data feed business. The Company recorded \$0.1 million, net of tax expense of \$0.1 million, as a gain on disposition of discontinued operations during the first quarter of 2006 related to holdbacks from the sale of its institutional consolidated market data feed business. The Company had no comparable gain the six months ended June 30, 2005.

As of June 30, 2006, assets related to discontinued operations consist of accounts receivable, net of allowance, prior to November 1, 2003. Liabilities related to discontinued operations consist of (1) accounts payables related to a sales tax settlement and (2) accrued expenses related to a potential tax liability. See Note 7 of the Notes to Unaudited Interim Consolidated Financial Statements. The Company expects the assets and liabilities related to the discontinued operations to be completely settled during 2008.

LIQUIDITY AND CAPITAL RESOURCES

Net cash and cash equivalents decreased to \$0.1 million at June 30, 2006 from \$0.3 million at December 31, 2005.

Operating activities used net cash of \$4.2 million for the six months ended June 30, 2006 compared to net cash used of \$1.7 million for the six months ended June 30, 2005. The net loss for the six months ended June 30, 2006 of \$6.8 millions was offset in part by noncash items, including \$1.7 million of interest expense related to the beneficial conversion feature of the 2006 Convertible Note, \$0.9 million of depreciation and amortization of long-lived assets, and \$0.2 million of stock based compensation expense. The net loss for the six months ended June 30, 2005 of \$4.0 million was offset in part by noncash items, including \$0.7 million interest expense related to the beneficial conversion feature of the Restated Convertible Note and \$0.9 million of depreciation and amortization of long-lived assets.

Investing activities used net cash of \$1.4 million for the six months ended June 30, 2006 compared to net cash used of \$1.2 million for the six months ended June 30, 2005. During the six months ended June 30, 2006, the Company invested \$0.4 million in equipment and \$1.0 million in its licensed and developed technology. The increase in the purchase of equipment resulted from the building of the Company's High Performance Center. Additionally, the Company established a \$0.1 million certificate of deposit during the first quarter of 2006. The Company collected \$0.1 million that is applied to a note receivable from Money.net. During the six months ended June 30, 2005, the Company invested \$0.1 million in

equipment and \$0.7 million in its developed technology. Additionally, in

19

the first quarter of 2005, the Company acquired the assets of Focus Technology Group LLC for \$0.4 million, as described in Note 4 of the Notes to Unaudited Interim Consolidated Financial Statements.

Financing activities provided net cash of \$5.4 million for the six months ended June 30, 2006 compared to net cash provided of \$2.8 million for the six months ended June 30, 2005.

On December 20, 2005, the Company issued a Promissory Note to PICO in the amount of \$0.8 million at an interest rate of 7.0% per annum. The entire unpaid principal balance and related interest under the December 20, 2005 Promissory Note was due and payable not later than January 31, 2006. As described below, the December 20, 2005 Promissory Note has been cancelled.

On January 23, 2006, the Company issued a Promissory Note to PICO in the amount of \$1.5 million at an interest rate of 7.0% per annum. The entire unpaid principal balance and related interest under the January 23, 2006 Promissory Note was due and payable not later than February 28, 2006. The Company paid off a \$0.5 million line of credit with the borrowings from the January 23 Promissory Note and cancelled the line of credit. As described below, the January 23, 2006 Promissory Note has been cancelled.

On February 15, 2006, the Company issued a Promissory Note to PICO in the amount of \$3.3 million at an interest rate of 7.0% per annum. The Company borrowed an additional \$1.0 million under the February 15, 2006 Promissory Note. The principal sum borrowed under the December 20, 2005 Promissory Note, the January 23, 2006 Promissory Note, and the February 15, 2006 Promissory Note totaled \$3.3 million. In connection with this issuance, the December 20, 2005 Promissory Note and the January 23, 2006 Promissory Note were cancelled. The entire unpaid principal balance and related interest under the February 15, 2006 Promissory Note was due and payable not later than March 31, 2006. As described below, the February 15, 2006 Promissory Note has been cancelled.

On March 15, 2006, the Company issued a Promissory Note to PICO in the amount of \$4.2 million at an interest rate of 7.0% per annum. The Company borrowed an additional \$0.9 million under the March 15, 2006 Promissory Note. The principal sum borrowed under the February 15, 2006 Promissory Note and the March 15, 2006 Promissory Note totaled \$4.2 million. In connection with this issuance, the February 15, 2006 Promissory Note was cancelled. The entire unpaid principal balance and related interest under the March 15, 2006 Promissory Note was due and payable not later than April 30, 2006. As described below, the March 15, 2006 Promissory Note has been replaced by the 2006 Convertible Note.

On March 30, 2006, the Company issued to PICO the 2006 Convertible Note which replaced the March 15, 2006 Promissory Note. Under the terms of the 2006 Convertible Note, the Company may borrow up to \$10.0 million at an interest rate of prime plus 2.75%. The Company is obligated to repay all outstanding principal and accrued interest under the 2006 Convertible Note two years from issuance. The 2006 Convertible Note, which is convertible by PICO at any time into HyperFeed's common stock, provides that the number of shares that PICO would receive in connection with a conversion of any amounts outstanding under the 2006 Convertible Note would be determined by dividing the total outstanding amount to be converted by the lesser of (i) 80% of the five-day moving average per share price of HyperFeed's common stock on the date of conversion or (ii) 80% of \$1.05 per share. The number of shares of HyperFeed's common stock issuable upon conversion of the 2006 Convertible Note is not subject to a cap. It is anticipated that the 2006 Convertible Note will be converted upon the consummation of the Merger described in Note 1 of the Notes to Unaudited Interim Consolidated Financial Statements. In addition, in connection with issuing the 2006 Convertible Note, the Company issued to PICO a warrant to purchase 125,000 shares of HyperFeed's common stock, at an exercise price of \$1.05 per share. The warrant expires on March 30, 2009.

The 2006 Convertible Note contains a beneficial conversion feature and, as a result, the Company recorded \$1.7 million of additional paid-in-capital and interest expense for the six months ended June 30, 2006. The 2006 Convertible Note is secured by all of the assets of the Company and contains customary representations, warranties, covenants, and events of default. As of June 30, 2006, the Company had borrowed \$6.7 million under the terms of the 2006 Convertible Note and recorded accrued, but unpaid, interest of \$0.2 million.

The Company has sustained significant losses in recent years and in the first six months of 2006. In particular, the Company incurred a net loss of \$6.8 million for the first six months of 2006 compared to a net loss of \$4.0 million for the same period in 2005, and an overall net loss of \$9.5 million for the fiscal year ended December 31, 2005. Included in the net loss of \$6.8 million for the first six months of 2006 is \$1.7 million of noncash interest expense related to the beneficial conversion feature of the 2006 Convertible Note. Operations through June 30, 2006 have been funded, in part, by advances on the 2006 Convertible Note. As of June 30, 2006, the Company has an outstanding principal balance of \$6.7 million under the terms of the 2006 Convertible Note and has accrued, but unpaid, interest of \$0.2 million. Additionally, the Company's negative cash flows from operating activities increased to \$4.1 million for the six months ended June 30, 2006 compared to \$1.7 million for the six months ended June 30, 2005. The recurring losses and negative cash flows raise substantial doubt about the Company's ability to continue as a going concern. Total revenue remained relatively unchanged at \$1.9 million for the first six months of 2006 and 2005.

On June 13, 2006, the Company announced that its Board of Directors approved a 1:1000 reverse stock split of its Common Stock to reduce ongoing operating costs including the substantial and increasing costs and expense associated with compliance with the laws, rules, and regulations of the SEC. PICO, HyperFeed's majority stockholder, pursuant to applicable law and the Company's bylaws, has approved the reverse stock split. Pending SEC review of certain filings the Company has made pursuant to the rules and regulations set forth in Section 13e-3 of the U.S. Securities Exchange Act of 1934 to effect the reverse stock split, the reverse stock split is expected to reduce the number of stockholders of record to less than 300, which will permit the Company to terminate its obligation to file reports with the SEC. Pursuant to the terms of the Going Private Transaction, stockholders owning less than 1,000 shares would be paid an amount based on the closing price per share of the Company's Common Stock on the Over-The-Counter Bulletin Board market on the date of effectiveness of the reverse stock split. Stockholders owning more than 1,000 shares would remain as shareholders of the Company after the reverse stock split and would have fractional shares redeemed at the same rate. The Company estimates that an aggregate of \$400,000 would be paid to its stockholders to complete the reverse stock split. Funding for the transaction is expected to be provided by the 2006 Convertible Note. All amounts to be paid to HyperFeed stockholders in connection with the Going Private Transaction shall have been paid or accrued as a liability on the Company's balance sheet before the closing date.

On June 19, 2006, the Company entered into the Merger Agreement by and among HyperFeed, Acquisition Holdings, and Exegy, pursuant to which HyperFeed and Exegy have agreed to combine their businesses through the Merger. Exegy, which is a privately held company, will survive the Merger as a wholly-owned subsidiary of HyperFeed. The Company believes the combination will create an innovative technology company focused on producing unrivaled performance. Under the terms of the Merger Agreement, each Exegy common share will be converted into HyperFeed shares of common stock and each Exegy option will be converted into HyperFeed options, resulting in the stockholders of both HyperFeed and Exegy each owning 50% of the merged company on a fully diluted basis. The Merger Agreement is subject to customary conditions, and requires cash equity contributions by PICO and the stockholders of Exegy of US \$5.0 million each, prior to closing. As a condition to closing, HyperFeed shall have caused PICO to convert its 2006 Convertible Note in exchange for shares of HyperFeed Common Stock in accordance with the terms of the 2006 Convertible Note. Additionally, under the terms of the Merger Agreement, HyperFeed shall have completed the Going Private Transaction. The Merger is expected to close not later than October 31, 2006.

While the Company expects the Merger to close, if it fails to do so, the Company currently believes that its existing and anticipated capital resources, including cash and cash equivalents, accounts receivable, assets related to discontinued operations, cash expected to be received from holdbacks associated with the sale of its institutional consolidated market data feed business and financing from PICO, which currently is the Company's only source of financing, may not be sufficient to fund its operations beyond December 31, 2006. The Company believes that it will need to obtain additional capital in the immediate future both to fund investments needed to increase its operating revenues to levels that will sustain its operations and to fund operating deficits that it anticipates will continue until revenue increases can be realized. There can be no assurances that the Company will be successful in obtaining sufficient additional capital, or if it does, that the additional capital will enable the Company to improve its business so as to have a material positive effect on the Company's operations and cash flow. The Company believes that without additional investment, from PICO or other sources, it may be forced to cease operations at an undetermined future date. It is uncertain whether the Company's assets will retain any value if the Company ceases operations. There are no assurances that additional funding will be available to the Company before it may be forced to cease operations.

In the first quarter of 2006, the Company issued the 2006 Convertible Note to PICO for \$10.0 million, payable two years from issuance, as described in Note 6 of the Notes to Unaudited Interim Consolidated Financial Statements. The Company anticipates that PICO will convert the 2006 Convertible Note prior to the close of the Merger Agreement. However, in the event that the Merger Agreement does not close, the Company may not have sufficient capital resources to repay or refinance the 2006 Convertible Note when it comes due in March 2008. In the event that PICO chooses not to convert the 2006 Convertible Note and the Company is unable to repay or refinance the 2006 Convertible Note at such time, PICO will also have the right to declare the 2006 Convertible Note in default and may, at its option, pursue any other remedies available to it. See the Company's Current Report on Form 8-K filed on March 31, 2006. If the Company requires additional capital resources, there can be no assurances that such capital will be available or that such capital will be available on terms satisfactory to the Company. If the Company does not obtain such capital, it may not have sufficient capital resources to fund continuing operations.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

General: Management's Discussion and Analysis of Financial Condition and Results of Operations discusses the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the

disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period.

On an on-going basis, management evaluates its estimates and judgments, including those related to bad debts and intangible assets. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable

21

under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Management believes the following critical accounting policies, among others, affect its more significant judgments and estimates used in the preparation of its consolidated financial statements.

Revenue Recognition: The Company principally derives revenue from licensing technology and providing management and maintenance services of HTPX, HBOX, HMDP, and OCC software, ticker plant and data platform technologies, and managed services. Additionally, the Company derives revenue from the development of customized software.

Revenue is recognized from the licensing of HTPX, HBOX, HMDP, and OCC (1) as payments from customers become due when the fee is not fixed or determinable at the outset of the arrangement or (2) ratably over the term of the agreement when post contract customer support (PCS) has a duration of one year or less. PCS is recognized ratably over the term. Revenue for the development of customized software, consulting, and implementation services is recognized based on time and materials from the application of contract accounting for the development of customized software, or based on an hourly rate when it is not a fixed fee arrangement. For licensing of the Company's software through its sales channels, revenue is recognized as payments from the reseller become due and generally commences after the software is installed at the reseller's customer site.

The Company applies the provisions of AICPA Statement of Position (SOP) 97-2, Software Revenue Recognition, as amended, which specifies the following four criteria that must be met prior to recognizing revenue: (1) persuasive evidence of the existence of an arrangement, (2) delivery, (3) fixed or determinable fee, and (4) probable collection. In addition, revenue earned on software arrangements involving multiple elements is allocated to each element based on the relative fair value of the elements. When applicable, revenue allocated to HyperFeed's software products (including specified upgrades/enhancements) is recognized upon delivery of the products. If the fee is considered fixed and determinable, it is recognized as revenue when the sale is effected. If the fee is not considered fixed and determinable, it is recognized as revenue as payments from customers become due. Revenue allocated to PCS is recognized ratably over the term of the support and revenue allocated to service elements (such as training) is recognized as the services are performed.

In accordance with SOP 97-2, revenue from contracts that do not require significant production, modification, or customization of software is recognized when the above criteria are met. Revenue from contracts that require significant production, modification, or customization of software is accounted for in conformity with the provisions of Accounting Research Bulletin No. 45, Long-Term Construction Contracts, using the relevant guidance therein, and SOP 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts. SOP 81-1 provides for revenue recognition under the percentage-of-completion or completed contract method depending on the facts and circumstances of contracts entered into and management's ability to reasonably estimate its progress toward completion. Contract losses, if any, are provided for in their entirety in the period they become known, without regard to the percentage-of-completion. For those contracts which the Company cannot reasonably estimate progress toward completion, the Company employs the completed contract method of accounting. Revenue from arrangements accounted for under contract accounting are allocated among licensed technologies, managed services, and consulting fees based on the contractual terms of the arrangements.

The use of contract accounting inherently includes the use of estimates of progress toward completion. Such estimates are subject to periodic revisions and, as a result, the financial statements could be materially impacted.

The Company applies the provisions of Emerging Issues Task Force (EITF) Issue No. 00-21, Accounting for Revenue Arrangements with Multiple Deliverables. EITF 00-21 addresses certain aspects of the accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities. Specifically, EITF 00-21 addresses how to determine whether an arrangement involving multiple deliverables contains more than one earnings process and, if it does, how to divide the arrangement into separate units of accounting consistent with the identified earnings processes for revenue recognition purposes. EITF 00-21 also addresses how arrangement consideration should be measured and allocated to the separate units of accounting in the arrangement.

HYPRWare derives revenue from royalties related to license fees for customers it referred to Townsend prior to December 31, 2002. Revenue is recorded as royalties are reported from Townsend.

Allowance For Doubtful Accounts: The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make payments for services or debtors to satisfy note receivable obligations. The Company analyzes accounts receivable, customer credit-worthiness, current economic trends and changes in its customer payment terms when evaluating the adequacy of the allowance for doubtful accounts and notes receivable. If the financial condition of the Company's customers or debtors deteriorates, resulting in an impairment of their ability to make payments, additional allowances may be required.

Valuation of Intangible Assets and Software Development Costs: The Company assesses the impairment of intangible assets on an annual basis or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the

22

Company considers important which could trigger an impairment review include significant underperformance relative to expected historical or projected future operating results, significant changes in the manner of its use of the acquired assets or the strategy for its overall business, and significant negative industry or economic trends. The Company assesses the recoverability of its software development costs against estimated future revenue over the estimated remaining economic life of the software.

Capitalization of Licensed and Developed Software Costs: Licensed and developed software costs are accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 86, Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed. Costs associated with the planning and design phase of software development, including coding and testing activities necessary to establish technological feasibility of computer software products to be licensed or otherwise marketed, are expensed as research and development costs as incurred. Once technological feasibility has been determined, costs incurred in the construction phase of software development including coding, testing, and product quality assurance are capitalized. In accordance with SFAS No. 86, the Company has capitalized licensed software for which the Company believes technological feasibility has been established.

Amortization commences at the time of capitalization or, in the case of a new service offering, at the time the service becomes available for use. Unamortized capitalized costs determined to be in excess of the net realizable value of the product are expensed at the date of such determination. The accumulated amortization and related licensed and developed software costs are removed from the respective accounts effective in the year following full amortization.

The Company's policy is to amortize capitalized software costs by the straight-line method over three to five years, the remaining estimated economic life of the product including the period being reported. The Company assesses the recoverability of its licensed and developed software costs against estimated future undiscounted cash flows. Given the highly competitive environment in which the Company operates and rapid technological changes, it is reasonably possible that those estimates of anticipated future gross revenue, the remaining estimated economic life of the product, or both may be reduced significantly.

RECENT ACCOUNTING PRONOUNCEMENTS

In February 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments, which eliminates the exemption from applying SFAS No.133 to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. SFAS No. 155 also allows the election of fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement event. Adoption is effective for all financial instruments acquired or issued after the beginning of the first fiscal year that begins after September 15, 2006. Early adoption is permitted. The adoption of SFAS No. 155 is not expected to have a material effect on the Company's consolidated financial position, results of operations, or cash flows.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, which requires all separately recognized servicing assets and servicing liabilities be initially measured at fair value. SFAS No. 156 permits, but does not require, the subsequent measurement of servicing assets and servicing liabilities at fair value. Adoption is required as of the beginning of the first fiscal year that begins after September 15, 2006. Early adoption is permitted. The adoption of SFAS No. 156 is not expected to have a material effect on the Company's consolidated financial position, results of operations, or cash flows.

CONTRACTUAL OBLIGATIONS AND OFF-BALANCE SHEET ARRANGEMENTS

To facilitate an understanding of our contractual obligations and off-balance sheet arrangements, the following data is provided:

Contractual Obligations

	Total	Payments Due by Period			After 5 Years
		Within 1 Year	2-3 Years	4-5 Years	
Long-term debt (1)	\$ 6,680,000	\$	\$ 6,680,000	\$	\$
Operating leases	1,203,436	495,474	574,186	133,776	

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

Total contractual obligations	\$	7,883,436	\$	495,474	\$	7,254,186	\$	133,776	\$
-------------------------------	----	-----------	----	---------	----	-----------	----	---------	----

(1) Long-term debt does not include future interest payments.

The Company has no material unconditional purchase obligations as defined by SFAS No. 47, Disclosure of Long-Term Purchase Obligations .

23

Off Balance Sheet Arrangements

Under the terms of the lease agreement for the Chicago office, the Company has an existing letter of credit in the amount of \$75,000, for which a \$75,000 certificate of deposit serves as collateral. The Company is not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on its financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2006, the Company had excess cash invested in a money market account. The Company does not expect any material loss, if at all, on these investments.

In connection with issuing the 2006 Convertible Note, the Company issued to PICO a warrant to purchase 125,000 shares of HyperFeed's common stock, at an exercise price of \$1.05 per share. The warrant expires on March 30, 2009. All else remaining constant, for every \$0.10 per share increase over \$1.05 per share price of HyperFeed's common stock, the Company would incur interest expense of approximately \$7,700 in connection with the fair value of the warrants. All else remaining constant, for every 1.0% increase in the discount rate, the Company would incur interest expense of approximately \$800 in connection with the fair value of the warrants.

The Company is subject to variable interest rates that could fluctuate with market conditions.

ITEM 4. Controls and Procedures

a) *Disclosure Controls and Procedures.* The Company maintains a system of disclosure controls and procedures that is designed to ensure that information required to be disclosed by the Company in this Quarterly Report on Form 10-Q and in other reports required to be filed under the U.S. Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC for such filings. As required by Rule 13a-15(b) under the Exchange Act, the Company's management, under the direction of our Chief Executive Officer and Principal Accounting Officer, reviewed and performed an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of June 30, 2006. Based on that review and evaluation, the Chief Executive Officer and Principal Accounting Officer, along with the Company's management, have determined that as of June 30, 2006, the disclosure controls and procedures were and are effective as designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act relating to the Company and its consolidated subsidiaries would be accumulated and communicated to them, as appropriate, to allow timely disclosures regarding required disclosures..

b) *Internal Control Over Financial Reporting.* There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rule 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II

ITEM 1. Legal Proceedings

On February 23, 2006, the Company filed a two-count complaint in the Tax Court of New Jersey contesting the determination by the New Jersey Division of Taxation that HyperFeed had nexus with New Jersey for the purposes of (i) the New Jersey Corporation Tax and (ii) the New Jersey Sales and Use Tax for the period beginning January 1, 1994 and forward. On April 25, 2006, the Company received notice that the New Jersey Division of Taxation has denied the allegations set forth in the two-count complaint. The Company intends to aggressively contest the determination. As of June 30, 2006, the Company had accrued \$250,000 in potential tax liability and recorded the expense in discontinued operations.

Edgar Filing: HYPERFEED TECHNOLOGIES INC - Form 10-Q

The Company is a party to various other legal proceedings incidental to its business operations, none of which is expected to have a material adverse effect on the financial condition or results of operations of the Company.

ITEM 1A. Risk Factors

There have been no material changes from the risk factors disclosed in Item 1A - Risk Factors of the Company's Annual Report on Form 10-K for the year ended December 31, 2005, other than the following additional risk factor:

24

The Company will need additional capital to sustain operations

The Company believes that it will need to obtain additional capital in the immediate future both to fund investments needed to increase its operating revenues to levels that will sustain its operations and to fund operating deficits that it anticipates will continue until revenue increases can be realized. There can be no assurances that the Company will be successful in obtaining sufficient additional capital, or if it does, that the additional capital will enable the Company to improve its business so as to have a material positive effect on the Company's operations and cash flow. The Company believes that without additional investment, from PICO or other sources, it may be forced to cease operations at an undetermined future date. Additionally, the Company believes that its financing available under the 2006 Convertible Note may not be sufficient to fund operations beyond December 31, 2006. It is uncertain whether the Company's assets will retain any value if the Company ceases operations. There are no assurances that additional funding will be available to the Company before it may be forced to cease operations.

ITEM 6. Exhibits

- | | |
|--------------|---|
| Exhibit 31.1 | Certification of the Principal Executive Officer Pursuant to Rules 13a-14(a) and 15d-14(a) under the Exchange Act. |
| Exhibit 31.2 | Certification of the Principal Accounting Officer Pursuant to Rules 13a-14(a) and 15d-14(a) under the Exchange Act. |
| Exhibit 32 | Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. |

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
