

MID-STATE BANCSHARES
Form 10-Q
August 08, 2006

**United States
Securities and Exchange Commission**

Washington, D.C. 20429

FORM 10-Q

- Quarterly report under Section 13 or 15(d) of the Securities Exchange Act of 1934.**
For the quarterly period ended June 30, 2006.
- Transition report under Section 13 or 15(d) of the Securities Exchange Act of 1934**
for the transition period from N/A to N/A

Commission File Number 000-23925

MID-STATE BANCSHARES

(Exact name of registrant as specified in its charter)

California

(State or Other Jurisdiction of
Incorporation or Organization)

77-0442667

(I.R.S. Employer Identification No.)

1026 Grand Ave. Arroyo Grande, CA
(Address of Principal Executive Offices)

93420-0580
(Zip Code)

Registrant's Telephone Number: **(805) 473-7700**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. (See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act). Check one:

Large Accelerated Filer Accelerated Filer Non-accelerated Filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares of common stock of the Company outstanding as of July 25, 2006: 22,039,378 shares.

Mid-State Bancshares

Notes to Consolidated Financial Statements

(Information with respect to interim periods is unaudited)

NOTE A - BASIS OF PRESENTATION AND MANAGEMENT REPRESENTATION

The accompanying consolidated financial statements include the accounts of Mid-State Bancshares and its wholly owned subsidiary Mid-State Bank & Trust and the Bank's subsidiaries, MSB Properties and Mid-Coast Land Company (collectively the Company, Bank or Mid-State). All significant inter-company transactions have been eliminated in consolidation. These consolidated financial statements should be read in conjunction with the Form 10-K Annual Report for the year ended December 31, 2005 of Mid-State Bancshares. A summary of the Company's significant accounting policies is set forth in the Notes to Consolidated Financial Statements contained therein.

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States on a basis consistent with the accounting policies reflected in the audited consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2005. They do not, however, include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments including normal recurring accruals considered necessary for a fair presentation have been included. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for any other interim period or for the year as a whole.

NOTE B - EARNINGS PER SHARE

The following is a reconciliation of net income and shares outstanding to the income and number of shares used to compute Earnings Per Share (EPS). Figures are in thousands, except earnings per share data.

Diluted Earnings Per Share:						
Income available to Common Shareholders	\$ 17,697	22,828	\$ 0.78	\$ 18,602	23,468	\$ 0.79

NOTE C RECENT ACCOUNTING PRONOUNCEMENTS

In June 2004, the Emerging Issues Task Force of the Financial Accounting Standards Board (FASB) issued guidance on its Issue No. 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. The guidance made recommendations regarding unrealized losses on available-for-sale debt and equity securities accounted for under Statement of Financial Accounting Standards (SFAS) No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*. The guidance for evaluating whether an investment is other-than-temporarily impaired was to be applied in other-than-temporary impairment evaluations made in reporting periods beginning after June 15, 2004. The disclosures were to be effective in annual financial statements for fiscal years ending after December 15, 2003, for investments accounted for under Statements 115 and 124. On September 30, 2004, the FASB Board directed the issuance of FASB Staff Position (FSP) EITF Issue 03-1-a, *Implementation Guidance for the Application of Paragraph 16 of EITF Issue No. 03-1*. The proposed FSP would provide implementation guidance with respect to debt securities that are impaired solely due to interest rates and/or sector spreads and analyzed for other-than-temporary impairment under paragraph 16 of issue 03-1. The FASB asked constituents to comment on whether the application guidance with respect to minor impairments should also be applied to securities analyzed for impairment under paragraphs 10-15 of Issue 03-1. At the June 29, 2005 meeting, the Board decided not to provide additional guidance on the meaning of other-than-temporary impairment and directed the staff to finalize proposed FASB Staff Position (FSP) EITF 03-1-a, *Implementation Guidance for the Application of Paragraph 16 of EITF Issue No. 03-1*. The final FSP, retitled as FSP FAS 115-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, would:

1. Replace the guidance in paragraphs 10-18 of EITF Issue 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, and refer to existing other-than-temporary impairment guidance for example, FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, APB Opinion No. 18, *The Equity Method of Accounting for Investments in*

Common Stock, and SEC Staff Accounting Bulletin No. 59, *Accounting for Noncurrent Marketable Equity Securities*

2. Supersede Issue 03-1 and EITF Topic No. D-44, *Recognition of Other-Than-Temporary Impairment upon the Planned Sale of a Security Whose Cost Exceeds Fair Value*
3. Codify the guidance set forth in Topic D-44 and clarify that an investor should recognize an impairment loss no later than when the impairment is deemed other than temporary, even if a decision to sell has not been made
4. Be effective for other-than-temporary impairment analyses conducted in periods beginning after September 15, 2005.

At the September 7, 2005 meeting, the Board directed the staff to consider transition guidance for the proposed FSP. At the September 14, 2005 meeting, the Board decided to retain the paragraph in the proposed FSP pertaining to the accounting for debt securities subsequent to an other-than-temporary impairment and add a footnote to clarify that the proposed FSP does not address when a debt security should be designated as nonaccrual or how to subsequently report income on a nonaccrual debt security. In addition, the Board decided that (1) transition would be applied prospectively and (2) the effective date would be reporting periods beginning after December 15, 2005. Adoption of EITF Issue 03-1-a did not have a material impact on the Company's results of operations and its financial position.

The FASB issued a revision to SFAS No. 123, *Accounting for Stock-Based Compensation* in December 2004. The revised Statement is SFAS No. 123R (revised 2004), *Share-Based Payment* and it supercedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. It is effective for the Company as of January 1, 2006. The Statement requires that the Company measures the cost of employee services received in exchange for an award of equity instruments (share based payment awards) based on the grant date fair value of the award and the estimated number of awards that are expected to vest. The cost will be recognized over the period during which an employee is required to provide service in exchange for the award—usually the vesting period. Compensation cost for awards that vest would not be reversed if the awards expire without being exercised. The Company previously applied APB Opinion No. 25, in accounting for its Plan. Accordingly, no compensation expense was recognized for grants under the Plan prior to 2006. Pro forma disclosures of net income and earnings per share were disclosed in Note 15 of the Company's Annual Report on Form 10K. The Company adopted the revised Statement for the first quarter of 2006. The impact of adopting the accounting treatment was to reduce earnings by approximately \$408 thousand, after-tax, for the three months ended June 30, 2006. For the six months ended June 30, 2006, earnings were reduced by approximately \$805 thousand, after-tax.

FASB issued SFAS No. 154, *Accounting Changes and Error Corrections* on June 1, 2005, a replacement of APB No. 20 and SFAS No. 3. The Statement applies to all voluntary changes in accounting principle, and changes the requirements for accounting for and reporting of a change in accounting principle. SFAS No. 154 requires retrospective application to prior periods' financial statements of a voluntary change in accounting principle unless it is impracticable. APB No. 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS No. 154 improves financial reporting because its requirements enhance the consistency of financial information between periods. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Adoption of the Statement did not have a material effect on the Company's consolidated financial statements.

FASB issued SFAS No. 155, *Accounting for Certain Hybrid Instruments*, on February 16, 2006 as an amendment of FASB Statements No. 133 and 140. The standard allows financial instruments that have

embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. The standard also a) clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133, b) establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation, c) clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives, and d) amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. The Company expects to adopt the Statement for the first quarter of 2007 and expects it will not have a material effect on its consolidated financial statements.

The FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* on March 17, 2006 as an amendment to SFAS No. 140. The standard will simplify the accounting for servicing assets and liabilities, such as those common with mortgage securitization activities. Specifically, the new Standard addresses the recognition and measurement of separately recognized servicing assets and liabilities and provides an approach to simplify efforts to obtain hedge-like (offset) accounting. The standard also clarifies when an obligation to service financial assets should be separately recognized as a servicing asset or a servicing liability, requires that a separately recognized servicing asset or servicing liability be initially measured at fair value, if practicable, permits an entity with a separately recognized servicing asset or servicing liability to choose either the amortization method or fair value method for subsequent measurement. SFAS No. 156 permits a servicer that uses derivative financial instruments to offset risks on servicing to report both the derivative financial instrument and related servicing asset or liability by using a consistent measurement attribute fair value. The Company expects to adopt the Statement for the first quarter of 2007 and expects it will not have a material effect on its consolidated financial statements.

NOTE D CORE DEPOSIT INTANGIBLES, NET

The following is a summary of the Company's core deposit intangibles. Figures are in thousands (unaudited).

	Gross Amount	June 30, 2006 Accumulated Amortization	Net Carrying Amount	Gross Amount	June 30, 2005 Accumulated Amortization	Net Carrying Amount
Core Deposit Intangible	\$ 11,597	\$ (5,550)	\$ 6,047	\$ 11,597	\$ (4,552)	\$ 7,045

	Gross Amount	Dec. 31, 2005 Accumulated Amortization	Net Carrying Amount
Core Deposit Intangible	\$ 11,597	\$ (5,114)	\$ 6,483

Aggregate Amortization Expense of Core Deposit Intangibles (\$ in 000's):

	Three Month Period Ended June 30,		Six Month Period Ended June 30,	
	2006	2005	2006	2005
Amortization of Core Deposit Intangible	\$ 218	\$ 344	\$ 436	\$ 687

The amortization expense for core deposit intangibles is included within other operating expenses on the consolidated statements of income. Based on a review of the Company's core deposit intangible at September 30, 2005 in relation to the core deposits retained to which the intangible relates, it was determined that a downward adjustment in the amortization rate was appropriate under generally accepted accounting principles. The projected amortization expense for core deposit intangibles, assuming no further acquisitions or dispositions or changes in amortization rates, is approximately \$872 thousand per year over the next five years.

NOTE E STOCK BASED COMPENSATION

On May 17, 2005, shareholders of the Company approved a new equity based compensation plan, the Mid-State Bancshares 2005 Equity Based Compensation Plan (the 2005 Plan) which reserves an additional 1,000,000 common shares for issuance in accordance with the terms of the Plan. The 2005 Plan provides for the grant of stock options, stock appreciation rights, restricted shares, restricted share units, performance based cash only awards, or any combination thereof. It replaced the 1996 Stock Option Plan which was limited in scope to the issuance of Stock Options. Shares available for issuance under the 1996 Plan are now included in the 2005 Plan, resulting in 933,061 shares currently being available to be issued (4.22% of current and issued outstanding common stock) as of June 30, 2006.

Through December 31, 2005, the Company accounted for its stock-based compensation in accordance with SFAS No. 123, Accounting for Stock Based Compensation. SFAS No. 123 allowed stock options to be valued using the intrinsic value method in accordance with APB No. 25, Accounting for Stock Issued to Employees. Effective January 1, 2006, the Company adopted SFAS No. 123R, Share Based Payment. This standard requires that all share-based compensation awards be measured at fair value at the date of grant and expensed over their vesting or service periods. The impact of adopting the new accounting treatment was to reduce income before tax and net income by approximately \$473 and \$408 thousand, respectively, for the three months ended June 30, 2006. On a per share basis, this amounted to two cents per share on both a basic and diluted basis. For the six months ended June 30, 2006, the impact was to reduce income before tax and net income by approximately \$913 and \$805 thousand, respectively. On a per share basis, this amounted to four cents per share on both a basic and diluted basis. Cash provided by operating activities and cash provided by financing activities related to stock option activity increased by \$2.4 million for the six months ended June 30, 2006.

Prior to 2006, the Company accounted for stock options under the provisions of Accounting Principles Board (APB) Opinion No. 25 and provided proforma net income and proforma earnings per share disclosures for employee stock option grants as if the fair-value-based method, defined in SFAS No. 123R had been applied. A summary of the proforma disclosure as of June 30, 2005 was as follows:

(dollars in 000 s except per share amounts)	Three Month Period Ended June 30, 2005	Six Month Period Ended June 30, 2005
Net income, as reported	\$ 9,512	\$ 18,602
Deduct: Total stock-based compensation expense determined under the fair value based method for all awards, net of related taxes	(584) (1,163
Proforma net income	\$ 8,928	\$ 17,439
Basic income per share, as reported	\$ 0.42	\$ 0.81
Proforma basic income per share	\$ 0.39	\$ 0.76
Diluted income per share, as reported	\$ 0.41	\$ 0.79
Proforma diluted income per share	\$ 0.38	\$ 0.74

In determining the pro forma disclosures in the previous table, the fair value of options granted was estimated on the date of grant using the Black-Scholes option pricing model and appropriate assumptions. The weighted average grant date fair values of the options granted during 2006 were based on the following assumptions:

- Risk Free Interest Rate = 4.6%
- Dividend Yield = 2.5%
- Stock Price Volatility = 34.9%
- Weighted Expected Lives of Option Grants = 8.5 years

Option awards are granted with an exercise price equal to the market price of the Company's common stock on the date of grant. While options are exercisable and expire as determined by the Board of Directors, they generally become exercisable over a five year period vesting 20% each year, and have a term of ten years. For purposes of determining the fair value of stock option awards, the Company uses the Black-Scholes option pricing model applied on a grant by grant basis. Risk free rates of interest were applied in the model as of the grant date based on data provided by the Federal Reserve Bank on its H.15 release. The dividend yield applied in the model was the dividend yield of the Company at time of grant. The expected volatility of the Company's stock price applied in the model was based on historical information from 1998 (when the Company was first listed on NASDAQ) through March 31, 2006. The expected average life applied in the model was estimated from historical information from 1998 through March 31, 2006 and was calculated by major employee groups. Compensation cost is recognized using a straight-line method over the vesting or service period and is net of estimated forfeitures.

The following tables show a summary of stock option activity:

Edgar Filing: MID-STATE BANCSHARES - Form 10-Q

	Options	Weighted Average Exercise Price	Per Share Price Ranges
Outstanding at December 31, 2005	2,000,958	\$ 19.20	\$5.375 \$30.61
Granted from Jan. 1 to June 30, 2006	77,503	\$ 29.00	\$29.00 \$29.00
Exercised from Jan. 1 to June 30, 2006	(124,470)) \$ 13.63	\$5.375 \$25.79
Forfeited from Jan. 1 to June 30, 2006	(8,862)) \$ 18.33	\$15.50 \$24.64
Outstanding at June 30, 2006	1,945,129	\$ 19.95	\$12.125 \$30.61
Exercisable at June 30, 2006	1,267,586	\$ 17.15	\$12.125 \$30.61
Range of Expiration Dates	8/12/2008 to 2/16/2016		

Range of Exercise Prices	Total Amount Outstanding	Weighted Average Remaining Contractual Years	Weighted Average Exercise Price	Amount Exercisable	Weighted Average Exercise Price
\$9.183 - \$12.244	12,000	3.8	\$ 12.125	12,000	\$ 12.125
\$12.245 - \$15.305	421,543	3.3	\$ 14.529	421,543	\$ 14.529
\$15.306 - \$18.366	792,875	4.5	\$ 16.898	674,302	\$ 16.875
\$18.367 - \$21.427	10,800	5.8	\$ 19.620	6,800	\$ 19.641
\$21.428 - \$24.488	72,400	7.7	\$ 22.792	20,200	\$ 22.647
\$24.489 - \$27.549	318,637	8.0	\$ 25.882	88,873	\$ 25.477
\$27.550 - \$30.610	316,874	8.9	\$ 28.486	43,868	\$ 28.145
Total	1,945,129	5.6	\$ 19.949	1,267,586	\$ 17.150

The weighted average fair value of grants issued in the first half of 2006 was \$10.45. The weighted average fair value of all grants outstanding as of June 30, 2006 was \$6.97. The aggregate intrinsic value for vested options exercisable at June 30, 2006 was \$13,773,906 and the aggregate intrinsic value of unvested options not yet exercisable at June 30, 2006 was \$2,109,254.

The Company issued 26,229 restricted stock shares during the second quarter of 2006. These restricted shares will vest three years from the date of grant and vesting is subject to continued employment at the Company through the vesting date. Holders of restricted shares will have the right to receive dividends and vote the shares, but may not sell, assign, transfer, pledge or otherwise encumber the stock until after the shares are fully vested. The aggregate intrinsic value of these awards was \$718,760 as of June 30, 2006. A summary of restricted shares outstanding is as follows:

	Number of Restricted Shares	Aggregate Average Intrinsic Value Per Share
Outstanding at December 31, 2005	0	
Granted from Jan. 1 to June 30, 2006	26,229	\$ 28.00
Vested from Jan. 1 to June 30, 2006	0	
Forfeited from Jan. 1 to June 30, 2006	(559)) \$ 28.00
Outstanding at June 30, 2006	25,670	\$ 28.00

Compensation expense on restricted stock shares is accounted for using the straight-line method over the vesting or service period and is net of estimated forfeitures. The amount recognized was \$57 thousand, pre-tax, for the three months and six months ended June 30, 2006.

Unamortized compensation expense at June 30, 2006 amounted to approximately \$4.4 million related to stock options outstanding and \$0.7 million on restricted stock awards. The expense associated with stock options is expected to be recognized over a weighted average life of 1.74 years, assuming an estimated 5% forfeiture rate. The expense associated with restricted stock awards is expected to be recognized over a weighted average life of 2.75 years, assuming an estimated 2% forfeiture rate.

NOTE F SENIOR HOUSING CRIME PREVENTION FOUNDATION INVESTMENT

During the second quarter of 2005, the Company made an investment in the amount of \$30.0 million in a security of a U.S. government agency. That security was exchanged for an interest bearing investment in the Senior Housing Crime Prevention Foundation Investment Corporation (SHCPF-I) with the U.S. government agency held in safekeeping reflecting ownership by SHCPF-I and the pledge of that Security in favor of Mid-State Bank & Trust. The investment provides funding for the Senior Housing Crime Prevention Foundation in its efforts to prevent elder abuse in nursing homes throughout the Company's service area. This investment is displayed separately within the Company's Consolidated Statements of Financial Position.

NOTE G REPORTABLE BUSINESS SEGMENTS

Below is a summary statement of income for the three months and six months ended June 30, 2006 and 2005 for each reportable business segment.

Three Months Ended June 30.

(unaudited dollars in 000 s)	Community Banking		Mid Coast Land Company		Trust Services		Mid-State Bancshares	
	2006	2005	2006	2005	2006	2005	2006	2005
Interest Income	\$ 36,030	\$ 31,654	\$	\$	\$	\$	\$ 36,030	\$ 31,654
Interest Expense	6,578	3,694					6,578	3,694

NOTE H GUARANTEES

The Company has guarantees outstanding under performance standby letter of credit accommodations made to its customers in the ordinary course of business totaling \$37.5 million at June 30, 2006, down from \$44.4 million one year earlier.

Letters of credit are issued in connection with agreements made by customers to counterparties. Terms of these letters of credit are generally for one year and may or may not be collateralized by receivables or other assets. If the customer fails to comply with the agreement, the counterparty may enforce the letter of credit as a remedy. Credit risk arises from the possibility that the customer may not be able to repay the Company. The notional amount of the letter of credit accommodations represents the maximum amount of future cash payments.

Many of the commitments are expected to expire without being drawn upon. Accordingly, the total outstanding commitment amount does not necessarily represent future cash requirements. The Company does not anticipate any significant losses as a result of these transactions. Provision has been made for losses which may be sustained in the fulfillment of, or from an inability to fulfill, any commitments. The provision at June 30, 2006 was \$1.9 million, compared to \$1.8 million one year earlier, and is reflected on the Consolidated Statements of Financial Position as Allowance for Losses - Unfunded Commitments.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is management's discussion and analysis of the major factors that influenced our financial performance for the three months and six months ended June 30, 2006. This analysis should be read in conjunction with our 2005 Annual Report as filed on Form 10-K and with the unaudited financial statements and notes as set forth in this report. *Unless the context requires otherwise, the terms "Company," "us," "we," and "our" refers to Mid-State Bancshares on a consolidated basis.*

Certain statements contained in this Quarterly Report of Form 10-Q ("Report"), including, without limitation, statements containing the words "estimate," "believes," "anticipates," "intends," "may," "expects," "could," and words of similar import, constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements relate to, among other things, our current expectations regarding future operating results, net interest margin, strength of the local economy, our loan mix, cost of deposits and the recovery of unrealized losses in the investment portfolio and allowance for credit losses. These forward looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, those concerning (i) the Company's strategies, objectives and plans for expansion of its operations, products and services, and growth of its portfolio of loans, investments and deposits, (ii) the Company's beliefs and expectations regarding actions that may be taken by regulatory authorities having oversight of its operation and interest rates, (iii) the Company's beliefs as to the adequacy of its existing and anticipated allowances for loan and real estate losses and its expectations about the loss potential in its non-performing loans, (iv) the Company's beliefs and expectations concerning future operating results, (v) the growth of its loan portfolio, changes in its loan mix and changes in its net interest margin and (vi) the strength of the economy and the increasing levels of competition in its service area. Additional information on these and other factors that could affect financial results may be found in the Company's 2005 Annual Report as filed on form 10-K, including in Item 1A. Risk Factors. When relying on forward-looking statements to make decisions with respect to our Company, investors and others are cautioned to consider these and other risks and uncertainties. We disclaim any obligation to update any such factors or to publicly announce the results of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

Critical Accounting Policies and Estimates This Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as, disclosures included elsewhere in this Form 10-Q, are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements require Management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingencies. A summary of the more significant accounting policies of the Company can be found in Footnote One to the financial statements which is included in Item 8 of the Company's Annual Report on Form 10-K and in the Management's Discussion and Analysis included in Item 7 of that same report entitled "Critical Accounting Policies and Estimates."

Selected Financial Data - Summary. The following table provides certain selected consolidated financial data as of and for the three months ending June 30, 2006 and 2005 (unaudited in 000 s, except per share data).

(In 000 s, except per share data)	Quarter Ended		At or for the 6 months ended		
	June 30, 2006	June 30, 2005	June 30, 2006	June 30, 2005

Performance Summary. The Company posted net income of \$8.9 million for the three months ended June 30, 2006 compared to \$9.5 million in the like 2005 period. On a per share basis, diluted earnings per share were \$0.39 in the 2006 period compared to \$0.41 in the same quarter of 2005. These earnings represent an annualized return on assets (R.O.A.) of 1.52% in the 2006 period compared to 1.63% in the same quarter of 2005. The annualized return on equity was 13.17% for the second quarter of 2006 compared to 13.87% in the second quarter of 2005. For the six month period ended June 30, 2006, the Company posted net income of \$17.7 million compared to \$18.6 million in the like 2005 period. On a per share basis, diluted earnings per share were \$0.78 in the 2006 period compared to \$0.79 in the year earlier period. These results represented a R.O.A. of 1.51% in the 2006 period compared to 1.61% in the 2005 period. The annualized return on equity was 12.97% for the first half of 2006 compared to 13.60% in the year earlier period. Results in 2006 were influenced by increases in non-interest expense which increased \$2.4 million and \$5.0 million, respectively, for the three month and six month periods of 2006 compared to 2005. These increases related primarily to staffing increases for growth and compliance, benefit cost increases and adoption of SFAS No. 123R, Share-Based Payment discussed above. SFAS No. 123R requires that the Company measures the cost of employee services received in exchange for an award of equity instruments and recognizes the cost over the period during which the employee is required to

Edgar Filing: MID-STATE BANCSHARES - Form 10-Q

provide service. The adoption of the new statement alone resulted in an after-tax charge to earnings of approximately \$408 thousand, or \$0.02 per share in the second quarter of 2006 and \$805 thousand for the six month period, or \$0.04 per share.

The Company's leverage capital ratio was 9.4% at June 30, 2006, the same level as one year earlier. This ratio is substantially above regulatory requirements for well capitalized banks.

Net Interest Income. The following table delineates the impacts of changes in the volume of earning assets, changes in the volume of interest bearing liabilities, and changes in interest rates on net interest income for the three month periods ended June 30, 2006 and 2005.

Dollars in 000 s	3 months ended June 30, 2006			3 months ended June 30, 2005			2006 Compared to 2005 Composition of Change		Total Change

Other Borrowings	57,337	647	4.53	% 24,730	235	3.81	% 339	73	412
TOTAL INTEREST BEARING LIABILITIES	1,537,182	6,578	1.72	% 1,505,662	3,694	0.98	% 623	2,261	2,884
NET INTEREST INCOME	\$ 2,107,590	\$ 29,452	5.61	% \$ 2,088,566	\$ 27,960	5.37	% \$ 446	\$ 1,046	\$ 1,492

Mid-State's annualized yield on interest earning assets was 6.86% for the three months ended June 30, 2006 (7.26% on a taxable equivalent basis) compared to 6.08% in the like 2005 period (6.50% on a taxable equivalent basis). The increase in yield is related to the general increase in interest rates. The Prime Rate, to which many of the Bank's loans are tied, averaged 7.90% in the second quarter of 2006 compared to 5.91% in the like period of 2005. Annualized interest expense as a percent of interest bearing liabilities also increased from 0.98% in the second three months of 2005 to 1.72% in the comparable 2006 period.

Overall, Mid-State's annualized net interest income, expressed as a percent of earning assets, increased from 5.37% for the second quarter of 2005 (5.79% on a taxable equivalent basis) to 5.61% in the comparable 2006 period (6.00% on a taxable equivalent basis). Annualized net interest income as a percent of average total assets increased from 4.79% in the three months ended June 30, 2005 (5.17% taxable equivalent) to 5.03% in the comparable 2006 period (5.39% taxable equivalent). Both the impact of the increase in general interest rates and the increase in volume of earning assets contributed to the \$1.5 million increase in net interest income. The Company has altered the mix of its earning asset base in favor of more loans, resulting in fewer investment securities held. Steps taken in this direction have included the restructuring of the commercial banking division, focused promotions of certain small business and consumer loan products, and retention of certain jumbo residential adjustable rate mortgages. The mix did improve across the comparable three month periods with loans averaging 74.0% of earning assets for 2006 compared to 69.9% in the like 2005 period. Earning assets averaged \$19.0 million higher for the three months ended June 30, 2006 compared to the like 2005 period (\$2,107.6

million compared to \$2,088.6 million). Average interest bearing deposits in this same time-frame were down \$1.1 million, (\$1,479.8 million compared to \$1,480.9 million). The funding of the earning asset growth came primarily from an increase in other borrowings, primarily Federal Home Loan Bank advances, which increased on average \$32.6 million across the comparable periods.

The following table delineates the impacts of changes in the volume of earning assets, changes in the volume of interest bearing liabilities, and changes in interest rates on net interest income for the six month period ended June 30, 2006 and 2005.

Dollars in 000 s	6 months ended June 30, 2006			6 months ended June 30, 2005			2006 Compared to 2005 Composition of Change		Total Change

Mid-State's annualized yield on interest earning assets was 6.74% for the six months ended June 30, 2006 (7.14% on a taxable equivalent basis) compared to 5.92% in the like 2005 period (6.34% on a taxable equivalent basis). The increase in yield is related to the general increase in interest rates. The Prime Rate, to which many of the Bank's loans are tied, averaged 7.67% in the first six months of 2006 compared to 5.68% in the like period of 2005. Annualized interest expense as a percent of interest bearing liabilities also increased from 0.86% in the first half of 2005 to 1.55% in the comparable 2006 period.

Overall, Mid-State's annualized net interest income, expressed as a percent of earning assets, increased from 5.30% for the six months ended June 30, 2005 (5.72% on a taxable equivalent basis) to 5.61% in the comparable 2006 period (6.01% on a taxable equivalent basis). Annualized net interest income as a percent of average total assets increased from 4.75% in the six months ended June 30, 2005 (5.13% taxable equivalent) to 5.03% in the comparable 2006 period (5.39% taxable equivalent). Both the impact of the increase in general interest rates and the increase in volume of earning assets contributed to the \$4.2 million increase in net interest income. As mentioned above, the Company has altered the mix of its earning asset base in favor of more loans, resulting in fewer investment securities held. Steps taken in this direction have included the restructuring of the commercial banking division, focused promotions of certain small business and consumer loan products, and retention of certain jumbo residential adjustable rate mortgages. The mix did improve across the comparable six month periods with loans averaging 72.7% of earning assets for 2006 compared to 69.4% in the like 2005 period. Earning assets averaged \$34.4 million higher for the six months ended June 30, 2006 compared to the like 2005 period (\$2,118.5 million compared to \$2,084.1 million). Average interest bearing deposits in this same time-frame were up \$1.1 million, (\$1,490.2 million compared to \$1,479.1 million). The funding of the earning asset

growth also came from an increase in other borrowings which increased on average \$28.4 million across the comparable periods.

The Company's net interest margin, which had generally been increasing in the rising rate environment of 2005, has flattened out in 2006 in the wake of intense deposit competition. This has translated to relatively flat net interest income for the Company in recent quarters. Average loans in the second quarter of 2006 were 2.7% ahead of the first quarter of this year but deposits decreased. Securing deposits or other borrowings at a reasonable cost to fund this loan growth has become more challenging. The Company has promotions planned during the balance of the year to bolster deposit growth.

Provision and Allowance for Loan Losses. For the three month and six month periods ended June 30, the Company did not make a provision for loan losses in either the 2006 or 2005 periods. Management believes that the allowance for loan losses and allowance for losses - unfunded commitments, which collectively stand at 0.9% of total loans at June 30, 2006, are adequate to cover inherent losses in the portfolio. Management has determined that the allocated and unallocated components of the reserve as calculated and required for its non performing loans and the general loan loss reserve are sufficient to offset potential losses arising from less than full recovery of the loans from the supporting collateral. The Company believes the unallocated portion of the reserve is necessary as a result of the losses inherent in those loans where economic factors may impact their collectibility even though specific reserves have not yet had to be allocated. These economic factors include, but are not limited to, cyclical changes in business activity, changing patterns of tourism, changing markets for agricultural products, changing patterns of retail and real estate sales activity, the housing bubble discussed in many economic publications, rising interest rates and others. Non performing loans consist of loans on non-accrual and loans past due 90 days or more but still accruing. The \$13.7 million of collective allowances for credit losses is approximately 5,265% of the level of non performing loans at June 30, 2006 compared to 294% one year earlier. The large increase in coverage from one year earlier is the result of a large drop in the level of non performing loans. The reduction in non performing loans was due primarily to the payoff in the second quarter of 2006 of one large relationship totaling approximately \$1.4 million and a \$2.5 million reduction through a combination of charge-off and partial principal payment on one other relationship in the third quarter of 2005.

Non performing loans were \$0.3 million at June 30, 2006 compared to \$5.2 million one year earlier and \$2.5 million at December 31, 2005. Management is not aware of any loans as of June 30, 2006 that would have a significant impact to non performing loans for which known credit problems of the borrower would cause serious doubts as to the ability of such borrower to comply with its present loan repayment terms, or any known events that would result in the loan being designated as non-performing at some future date. Management is however putting two loans on non accrual in July totaling approximately \$0.3 million as a result of deteriorations in underlying credit quality.

Specific reserves have been established for potential losses inherent in all of the Company's impaired loans and Management believes the balance is adequate at the present time. Moreover, there are additional unallocated reserves available to absorb other losses which are inherent in the portfolio as of June 30, 2006. The Company has not held any other real estate owned (property acquired through loan foreclosure) over the last twelve months. A combination of loan payoffs and improvements in the underlying credit quality of certain borrowers has also led to a drop in internally classified assets over this period. The improving trend in non performing loans, improvements in the level of internally classified assets, net recoveries from the Company's on-going collection efforts and the positive local economic conditions have improved the Company's asset quality and contributed to the Company's decision to make no provision for loan losses during the quarter or the first half of the year. It has however allocated some additional reserves (which were freed up when the \$1.4 million problem credit mentioned above was paid off in the second quarter of 2006) to cover additional losses inherent in the Company's real estate construction and land development loans, commercial and residential real estate loans and agricultural

Edgar Filing: MID-STATE BANCSHARES - Form 10-Q

loans. These sectors are now believed to have a modestly higher amount of losses inherent in them compared to Management's view at the end of March due particularly to a softening real estate market and weather related issues experienced by certain of the Company's agricultural customers.

Changes in the allowances for losses (in thousands) for the periods ended June 30, 2006, and 2005 are as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2006	2005	June 30, 2006	2005
Balance at beginning of period:				
Allowance for loan losses	\$ 11,931	\$ 13,630	\$ 11,896	\$ 13,799
Allowance for losses-unfunded commitments	1,696	1,624	1,761	1,783
Total allowances for losses at beginning of period	13,627	15,254	13,657	15,582
Additions (reductions) to the allowance for losses unfunded commitments charged (credited) to expense	184	135	119	(24)
Additions to the allowance for loan losses charged to provision			-	
Loans charged off	(169)	(384)	(289)	(694)
Recoveries of loans previously charged-off	93	157	248	298

Allowances for losses to loans, gross	0.9	% 1.0	% 0.9	% 1.0
Allowances for losses to non performing loans	5262.5	% 294.3	% 5262.5	% 294.3
Non-accrual loans to total loans, gross	0.0	% 0.3	% 0.0	% 0.3
Non performing assets to total assets	0.0	% 0.2	% 0.0	% 0.2

At June 30, 2006, the recorded investments in loans, which have been identified as impaired totaled \$867,000. Of this amount, \$158,000 related to loans with no valuation allowance and \$709,000 related to loans with a corresponding valuation allowance of \$356,000. Impaired loans totaled \$5,978,000 at June 30, 2005, of which \$2,250,000 related to loans with no valuation allowance and \$3,728,000 related to loans with a corresponding valuation allowance of \$2,515,000. The valuation allowance for impaired loans is included within the general allowance shown above and netted against loans on the consolidated statements of financial position. For the quarter ended June 30, 2006, the average recorded investment in impaired loans was \$1,118,000 compared to \$6,342,000 in the 2005 period. A loan is identified as impaired when it is probable that interest and principal will not be collected according to the contractual terms of the loan agreement. Because this definition is very similar to that used by bank regulators to determine on which loans interest should not be accrued, the Company expects that many impaired loans will be on non-accrual status.

Non-interest Income. Non-interest income for the second quarter of 2006 was \$6.0 million, compared to \$5.4 million earned in the 2005 period. For the full 6 months, non-interest income was \$10.9 million in 2006 compared to \$10.8 million in 2005. The 2005 results were bolstered by a \$330 thousand gain on a life insurance policy in the first quarter of that year which did not recur in 2006. 2006 results benefited from a \$325 thousand gain in the second quarter representing the Company's proportional interest in a sold merchant processing business in which it had an interest. The Company also benefited from increases in service charges and fees, primarily the result of increased NSF fees, in the 2006 periods compared to the like 2005 periods. These were partially offset by declines in net gains on sale of securities and sale of loans held for sale.

Non-interest Expense. Staff expense was \$12.6 million in the second quarter of 2006 compared to \$10.7 million in the like 2005 period. For the six months year-to-date, salaries and benefits totaled \$24.7 million in 2006 compared to \$21.7 million in 2005. Approximately \$473 thousand (pre-tax) of the increase for the quarter and \$913 thousand (pre-tax) of the increase for the 6 months year-to-date related to the adoption of SFAS 123R and the expensing of share based payment awards previously discussed. We now expect the accounting change will reduce earnings by approximately \$1.7 million after-tax in 2006. An additional \$1.2 million of the increase across the two quarters, and \$1.3 million across the two six month periods, represents higher salary expense relating to a combination of hiring additional personnel to staff up for the soon to be opened Westlake village branch location, increasing staff for compliance purposes (especially as it relates to Bank Secrecy Act and U.S.A. Patriot Act provisions) and regular salary increases across the Company. Benefit costs also increased \$299 thousand and \$811 thousand in comparing the three month and six month periods ending June 30, respectively, primarily for increased group insurance costs and incentive programs.

Occupancy and furniture expense increased \$103 thousand from \$3.1 million in the 2005 period to \$3.2 million in the second quarter of 2006. Year-to-date, these expenses were up \$313 thousand to \$6.4 million in 2006. Modest increases in rental expense and maintenance expense accounted for the increase.

Other operating expense increased \$344 thousand from \$5.5 million in the second quarter of 2005 to \$5.8 million in the comparable 2006 period. For the six months ended June 30, the increase was \$1.7 million to \$11.5 million in 2006 compared to \$9.8 million in 2005. These changes were primarily the result of increases in accruals for accounting, auditing, and professional services of \$103 thousand across the comparable quarters and \$882 thousand between the six month year-to-date periods. Management expects accounting, auditing and professional services to continue at higher expense levels in view of the continuing costs of compliance with Sarbanes Oxley legislation and the Bank Secrecy Act.

Provision for Income Taxes. The provision for income taxes in 2006 was 35.4% and 35.2% of pre-tax income, respectively, for the three months and six months ended June 30, 2006. This compares to 32.7% in the second quarter of 2005 and 33.5% for the six month period. The primary reason for the increase in the tax provision rate was the treatment related to not booking a tax benefit at this time on \$655 thousand year-to-date, and \$318 thousand for the second quarter, of the compensation cost associated with incentive stock option expense. Some benefit associated with this cost may be realized in future periods as these incentive stock options are exercised and the underlying stock sold. A tax benefit was realized in the provision calculation associated with non qualified stock option expense and restricted stock awards. While the normal combined federal and state statutory tax rate is 42% for Mid-State Bancshares, the tax-exempt income generated by its municipal bond portfolio is the primary reason that the effective rate has been lower in both 2006 and 2005.

Balance Sheet. Total assets at June 30, 2006 totaled \$2.328 billion, down somewhat from the level one year earlier of \$2.351 billion. Total deposits declined 2.0% to \$1.986 billion from \$2.026 billion one year earlier. Time deposits under \$100 thousand increased from \$229.8 million one year earlier to \$250.6 million at period end and time deposits over \$100 thousand increased by \$30.4 million. Management believes that the higher

relative levels of time deposits with balances over \$100 thousand is not the result of any change in pricing methodology on its part, but rather, reflects greater depositor sensitivity to today's rising interest rate levels with funds from other deposit categories flowing into this category. Non Interest Bearing Demand also decreased from \$561.4 million one year earlier to \$521.5 million in the current year. All other core deposit categories of NOW, Money Market and Savings decreased to \$998.4 million from \$1.049 billion one year earlier. Loan activity over the last year has increased, with net loans increasing by \$75.4 million from \$1.477 billion to \$1.552 billion at period-end. Loans held for sale (single family, mortgage originations) decreased to \$8.9 million from \$10.9 million one year earlier. Stockholders' equity decreased by \$7.5 million when comparing June, 2006 over June, 2005 (see below under Capital Resources for a recap of the components of this change).

The Company's mix of earning assets has improved in recent quarters with loans now averaging 74.0% of average earning assets in the second quarter of 2006 compared to 69.9% in the comparable 2005 period. These higher yielding assets relative to investments and fed funds sold helped contribute to the Company's higher net interest margin from one year earlier. Going forward, however, the impact of competitive pricing on new loans resulting from increased competition from other local community banks, continued intense competition from the major banks, and the expanded influence of conduit financing (the making of loans at attractive rates to borrowers which are pooled together, packaged and sold by Wall Street firms as commercial mortgage backed securities to investors) in the Bank's trade area by non-banks may lead to additional pressure on the yield from the loan portfolio. This could contribute to a possible drag on the net interest margin in future periods, notwithstanding the benefit to the Bank of having half of the portfolio tied to Prime in a rising rate environment. Management also believes that with increased interest rates and more intense pricing pressure affecting competition, the growth rates enjoyed in the real estate sector of the loan portfolio are likely to slow. Therefore, additional emphasis in 2006 is being placed on growing the Company's commercial and industrial loans. Displayed below is a summary of loans outstanding by type as of June 30, 2006 and 2005 (excludes loans held for sale).

(dollars in 000 s)	June 30, 2006	2005
Construction and development loans	\$ 271,757	\$ 273,186
Real estate loans	847,968	765,483

Agricultural production	39,286	34,490
Commercial, other	215,071	217,138
	1,568,092	1,494,155
Less allowance for loan losses	(11,855)	(13,403)
Less deferred loan fees, net	(3,923)	(3,789)
TOTAL LOAN PORTFOLIO	\$ 1,552,314	\$ 1,476,963

Mid-State Bancshares' loan to deposit ratio of 78.7% at June 30, 2006 is up from the 73.6% ratio one year earlier. There is internal liquidity to fund increases in this ratio through liquidation of Mid-State's \$510.2 million investment portfolio which is categorized entirely as available for sale, though not as great as in previous periods. The Company can also fund additional loan growth through the accumulation of additional deposits or of additional borrowings, such as from the Federal Home Loan Bank. The Bank's internal policy for its loan to deposit ratio is to maintain it in the 60% to 80% range and significant increases in this ratio in the future are unlikely.

Investment Securities and Fed Funds Sold. Of the \$510.2 million portfolio at June 30, 2006, 4% is invested in U.S. treasury securities, 25% is invested in U.S. government agency obligations, 69% is invested in municipal and corporate securities and 2% is invested in mortgage-backed securities. On a combined basis, sixty-seven percent of all investment securities and fed funds sold mature within five years. Approximately 26% of the total portfolio matures in less than one year. The Company's investment in mortgage-backed securities consist of investments in FNMA and FHLMC pools which have contractual maturities of up to 15 years. The actual time of repayment may be shorter due to prepayments made on the underlying collateral.

A summary of investment securities owned is as follows:

June 30, 2006

(amounts in 000 s)	Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Market Value
Securities Available For Sale				
U.S. Treasury securities	\$ 21,784	\$	\$ (271)	\$ 21,513
Securities of U.S. government agencies and corporations	131,251	52	(1,856)	129,447
Mortgage backed securities	8,591	140	(242)	8,489
Obligations of states and political subdivisions	337,527	1,929	(5,336)	334,120
Other investments	16,747		(103)	16,644
TOTAL	\$ 515,900	\$ 2,121	\$ (7,808)	\$ 510,213

December 31, 2005

(amounts in 000 s)	Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Market Value
Securities Available For Sale				
U.S. Treasury securities	\$ 22,868	\$	\$ (222)	\$ 22,646
Securities of U.S. government agencies and corporations	216,218	171	(1,802)	214,587
Mortgage backed securities	8,672	313	(46)	8,939
Obligations of states and political subdivisions	354,356	4,342	(2,047)	356,651
Other investments	16,559	22	(72)	16,509
TOTAL	\$ 618,673	\$ 4,848	\$ (4,189)	\$ 619,332

The following table shows those investments with gross unrealized losses and their market value aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at June 30, 2006.

(amounts in 000 s)	Less than 12 months		12 months or more		Total Market Value	Unrealized Losses
	Market Value	Unrealized Losses	Market Value	Unrealized Losses		
U.S. Treasury securities	\$ 10,551	\$ (230)	\$ 10,962	\$ (41)	\$ 21,513	\$ (271)
Securities of U.S. government agencies and corporations	59,057	(826)	65,327	(1,030)	124,384	(1,856)
Mortgage backed securities	2,336	(179)	543	(63)	2,879	(242)
Obligations of states and political subdivisions	121,164	(2,553)	78,701	(2,783)	199,865	(5,336)
Other investments	296	(4)	3,907	(99)	4,203	(103)
TOTAL	\$ 193,404	\$ (3,792)	\$ 159,440	\$ (4,016)	\$ 352,844	\$ (7,808)

All of the unrealized losses identified in the table above are primarily attributable to changes in general interest rate levels and are not considered to be other than a temporary impairment. The unrealized losses are not the result of any deteriorating financial conditions or near term prospects of the underlying issuers and Management believes that it has the intent and ability to retain these investment securities to allow for the eventual recovery in market value.

Capital Resources. On June 15, 2005 the Board authorized the repurchase of up to five percent of its outstanding shares, or up to 1,141,373 additional shares of the Company's common stock. This authorization does not have an expiration date. There were 308,251 shares of the Company's common stock repurchased in the second quarter of 2006 at an average price of \$27.52 per share. For the six months ended June 30, 2006, there were 524,082 shares repurchased at an average price of \$27.92 per share. As of June 30, 2006, the Company is continuing the program and can repurchase up to 292,593 additional shares under the June 2005 authorization. For the three months and six months ended June 30, 2005, 315,787 and 509,557 shares were repurchased, respectively, at an average price of \$26.06 and \$26.52, respectively. Effective in the middle of the second quarter of 2006, the Board of Directors has authorized an increase in the number of shares repurchased on a daily basis to approximately 5,000 shares per day.

In other matters concerning capital, the Board of Directors declared quarterly dividends of \$0.18 per share in both the first and second quarter of 2006 compared to \$0.16 declared in each of the first two quarters of 2005. The Company began paying this new higher rate with the fourth quarter 2005 dividend.

Liquidity. The focus of the Company's liquidity management is to ensure its ability to meet cash requirements. Sources of liquidity include cash, due from bank balances (net of Federal Reserve requirements to maintain reserves against deposit liabilities), fed funds sold, investment securities (net of pledging requirements), loan repayments, deposits and fed funds borrowing lines. Typical demands on liquidity are deposit run-off from demand deposits and savings accounts, maturing time deposits, which are not renewed, and anticipated funding under credit commitments to customers.

In January of 2006, the Company added \$25.0 million of additional borrowings from the Federal Home Loan Bank (FHLB) in the form of a five year fixed rate credit advance at 4.75%. The borrowing reflects the Company's on-going desire to diversify its funding sources at a reasonable cost, allowing it to create a profitable spread for the income statement.

The Company has adequate liquidity at the present time. Its loan to deposit ratio at June 30, 2006 was 78.7% versus 73.6% one year earlier compared to its targeted internal policy ratio of 60% to 80%. The Company's internally calculated liquidity ratio stands at 24.7% at June 30, 2006, which is above its minimum policy of 15% and below the 30.6% level of June 30, 2005. Management is not aware of any future capital expenditures or other significant demands or commitments which would severely impair liquidity.

Contractual Obligations. As of June 30, 2006, the Company had the following contractual obligations. Long term debt represents fixed rate borrowings that the Company has obtained from the FHLB of San Francisco.

	One Year Or Less	Over One to Three Years	Over Three to Five Years	Over Five Years	Total
Long Term Debt	\$	\$ 20,000	\$ 27,000	\$	\$ 47,000
Operating Leases	2,289	4,153	3,504	3,702	13,648
Total Obligations	\$ 2,289	\$ 24,153	\$ 30,504	\$ 3,702	\$ 60,648

Off Balance Sheet Transactions and Other Related Transactions. Off-balance sheet arrangements are any contractual arrangement to which an unconsolidated entity is a party, under which the Company has: 1) any obligation under a guarantee contract; 2) a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets; 3) any obligation under certain derivative instruments; or 4) any obligation under a material variable interest held by the Company in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the Company, or engages in leasing, hedging or research and development services with the Company. In the ordinary course of business, the Company has entered into off-balance sheet financial instruments consisting of commitments to extend credit, commercial letters of credit, and standby letters of credit.

The Company is contingently liable for letter of credit accommodations made to its customers in the ordinary course of business totaling \$37.5 million at June 30, 2006, down from \$44.4 million one year earlier. Additionally, the Company has undisbursed loan commitments, also made in the ordinary course of business, totaling \$702.1 million, which was up from the \$653.1 million outstanding one year earlier. The Company has an allowance for losses-unfunded commitments totaling \$1,880,000 and \$1,759,000 at June, 2006 and 2005, respectively, to cover losses inherent in its letter of credit accommodations and undisbursed loan commitments.

There are no Special Purpose Entity (SPE) trusts, corporations, or other legal entities established by Mid-State which reside off-balance sheet. There are no other off-balance sheet items other than the aforementioned items related to letter of credit accommodations and un-disbursed loan commitments.

The Company does make loans and leases to related parties (directors and officers) in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with persons of similar creditworthiness, and in the opinion of Management, have not involved more than the normal risk of repayment or presented any other unfavorable features. These loans and leases totaled \$34.0 million and \$11.4 million at June 30, 2006 and 2005, respectively.

In the ordinary course of business, the Company is a party to various operating leases. For a fuller discussion of these financial instruments, refer to Note 6 of the Company's consolidated financial statements contained in Item 8 of Part II of the Company's December 31, 2005 Annual Report on Form 10K.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

The Company expects its risk exposure to changes in interest rates to remain manageable and well within acceptable policy ranges. A review as of June 30, 2006 of the potential changes in the Company's net interest income over a 12 month time horizon showed that it could fluctuate under extreme alternative rate scenarios from between +2.6% and -5.1% of the base case (rates unchanged) of \$127.7 million. The Company's policy is to maintain a structure of assets and liabilities which are such that net interest income will not vary more than plus or minus 15% of the base forecast over the next 12 months. Management expects that its exposure to interest rate risk is manageable and it will continue to strive for an optimal trade-off between risk and earnings.

The following table presents a summary of the Company's net interest income forecasted for the coming 12 months under alternative interest rate scenarios.

	Change From Base	
Rates Down Very Significantly (Prime down to 5.25% over 10 months)	-5.1	%
Rates Down Significantly (Prime down to 6.25% over 10 months)	-2.8	%
Rates Down Slightly (Prime down to 7.25% over 10 months)	-1.2	%
Base Case - Rates Unchanged (Prime unchanged at 8.25%)		
Rates Up Slightly (Prime up to 9.25% over 10 months)	+0.5	%
Rates Up Significantly (Prime up to 10.25% over 10 months)	+0.5	%
Rates Up Very Significantly (Prime up to 11.25% over 10 months)	+2.6	%

Net interest income under the above scenarios is influenced by the characteristics of the Company's assets and liabilities. In the case of NOW, savings and money market deposits (total \$998.4 million) interest is based on rates set at the discretion of management ranging from 0.25% to 2.00%. In a downward rate environment, there is a limit to how far these deposit instruments can be re-priced and this behavior is similar to that of fixed rate instruments. In an upward rate environment, the magnitude and timing of changes in rates on these deposits is assumed to be more reflective of variable rate instruments.

It is important to note that the above table is a summary of several forecasts and actual results may vary. The forecasts are based on estimates and assumptions of management that may turn out to be different and may change over time. Factors affecting these estimates and assumptions include, but are not limited to - competitors' behavior, economic conditions both locally and nationally, actions taken by the Federal Reserve Board, customer behavior, and management's responses. Changes that vary significantly from the assumptions and estimates may have significant effects on the Company's net interest income. Therefore the results of this analysis should not be relied upon as indicative of actual future results. Historically, the Company has been able to manage its Net Interest Income in a fairly narrow range reflecting the Company's relative insensitivity to interest rate changes. The impact of prepayment behavior on mortgages, real estate loans, mortgage backed securities, securities with call features, etc. is not considered material to the sensitivity analysis. Over the last 5 calendar years (2001 - 2005), the Company's net interest margin (which is net interest income divided by average earning assets of the Bank) had ranged from a low of 4.95% to a high of 6.06% (not taxable equivalent). The Company's net interest margin in 2005 of 5.32% is in the middle of this range by historical standards, coming off the higher levels

experienced in 2001 of 6.06% and the low in 2004 of 4.95%. Recent increases in interest rates (e.g. seventeen 25 basis point increases in the Federal Funds Rate and Prime Rate) which began at the end of June 2004 have led to an improving net interest margin for the Company to 5.61% in the first half of 2006. The net interest margin under the forecasted alternative scenarios ranges from 5.54% to 5.98%. Management believes this range of scenarios is reasonable given current interest rate levels, but no assurances can be given that actual future experience will fall within this range. Indeed, during the first two quarters of 2006, the net interest margin has been flat at 5.61% in both quarters with a small decline in deposits and some growth in the loan portfolio. Securing deposits at a reasonable cost to fund loan growth is an on-going challenge. The Company has promotions planned in the balance of the year to bolster deposit growth.

The impact of competitive pricing on new loans resulting from increased competition from other local community banks, continued intense competition from the major banks, and the expanded influence of conduit financing in the Company's trade area by non-banks (the making of loans at attractive rates to borrowers which are pooled together, packaged and sold by Wall Street firms as commercial mortgage backed securities to investors) partially offset the benefit received from the higher prime rate during the quarter. While the upward movement in the Prime Rate is generally positive for the Company's net interest margin, the influences of competitive pricing and the refinancing of existing loans at lower rates can, and has to some extent, offset these benefits. Additionally, the Company's discretionary priced liabilities such as NOW, Savings and Money Market accounts will likely come under increasing pressure to have their pricing increased in the current rate environment. Moreover, time deposits also are rolling over at ever higher interest rate levels further contributing to downward pressure on the net interest margin. And, further exacerbating the above issues, core deposit growth has been sluggish so far in 2006, making the Company more reliant on higher costing funding sources such as time deposits and other borrowings. While the Company's margin has generally improved over the past eight calendar quarters, there can be no guarantee that this will continue and in fact, Management believes it will tend to stabilize near current levels. As mentioned above, during the first two calendar quarters of 2006, the Company's net interest margin was identical at 5.61% in both periods.

The Company's exposure with respect to interest rate derivatives, exchange rate fluctuations, and/or commodity price movements is nil. The Company does not own any instruments within these markets.

Item 4 Controls and Procedures

As of the end of the period covered by this report, Management, including the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures with respect to the information generated for use in this Quarterly Report. The evaluation was based in part upon reports and certifications provided by a number of executives. Based upon, and as of the date of that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective to provide reasonable assurances that information required to be disclosed in the reports the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within time periods specified in the SEC's rules and forms.

There was no change in the Company's internal controls over financial reporting during the quarter ended June 30, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

In designing and evaluating disclosure controls and procedures, the Company's Management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurances of achieving the desired control objectives and Management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

PART II - OTHER INFORMATION

Item 1 - Legal Proceedings

Mid-State is not a party to any material legal proceeding.

Item 1A. Risk Factors

There were no material changes during the second quarter of 2006 in the risk factors disclosed in the Company's December 31, 2005 Annual Report on Form 10K.

Item 2 - Unregistered Sale of Equity Securities and Use of Proceeds

On June 15, 2005 the Board authorized the repurchase of up to five percent of its outstanding shares, or up to 1,141,373 additional shares of the Company's common stock. This authorization does not have an expiration date. There were 308,251 shares of the Company's common stock repurchased in the second quarter of 2006 at an average price of \$27.52 per share. All of these shares were purchased in open market transactions. As of June 30, 2006, the Company is continuing the program and can repurchase up to 292,593 additional shares under the June 2005 authorization. Effective during the second quarter of 2006, the Board of Directors has authorized an increase in the number of shares repurchased on a daily basis to approximately 5,000 shares per day.

The following table provides the information with respect to the purchases made under the publicly announced stock repurchase programs during the quarter ended June 30, 2006. All of these shares were purchased in open market transactions or in block purchases or in privately negotiated transactions in compliance with Securities and Exchange Commission (SEC) rules.

Month of	Total Number of Shares Purchased	Average Price Paid Per Share	Remaining Shares That May be Purchased Under the Authorization	Dollar Value of Shares That May be Purchased Under the Authorization (1)
April 2006	101,024	\$ 28.69	499,820	\$ 13,899,994
May 2006	120,664	\$ 27.16	379,156	\$ 10,024,885
June 2006	86,563	\$ 26.66	292,593	\$ 8,192,604
Totals	308,251	\$ 27.52	292,593	\$ 8,192,604

(1) Value is based on the closing price of the Company's stock at month-end multiplied by the number of shares that may be purchased under the authorization.

Item 3 - Defaults Upon Senior Securities

Not applicable.

Item 4 - Submission of Matters to a Vote of Security Holders

The election of four persons for a term of three years to the Board of Directors of the Company was submitted to the shareholders for approval at their annual meeting held on May 25, 2006. All four persons on the slate were elected and the results of the voting were as follows:

NAME	FOR	WITHHELD
Trudi Carey	18,581,921	201,896
Ed Heron	18,515,286	268,531
James Lokey	18,630,892	152,925
Steve Maguire	18,574,896	208,921

No other matters were submitted to shareholders at the annual meeting or otherwise during this quarter.

Item 5 - Other Information

None.

Item 6 - Exhibits

A) Exhibits

Exhibit No.	Exhibit
31.1	Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32	Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
