| (8) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. |
|---|
| Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least  |
| 70% of our total assets.  |

- (9) Non-registered investment company.
- (10) A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either Libor or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower s option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect at March 31, 2008.
- (11) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$23.0 million aggregate principal amount of the portfolio company s senior term debt previously syndicated by us.
- (12) Principal amount denominated in Canadian dollars has been translated into U.S. dollars (see Note 2 to the consolidated financial statements).
- (13) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$25.0 million aggregate principal amount of the portfolio company s senior term debt previously syndicated by us.

#### ARES CAPITAL CORPORATION AND SUBSIDIARIES

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of March 31, 2008 (unaudited)

(dollar amounts in thousands, except per share data and as otherwise indicated)

### 1. ORGANIZATION

Ares Capital Corporation (the Company or ARCC or we) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940 (the Investment Company Act ). We were incorporated on April 16, 2004 and were initially funded on June 23, 2004. On October 8, 2004, we completed our initial public offering (the IPO). On the same date, we commenced substantial investment operations.

The Company has qualified and has elected to be treated for tax purposes as a regulated investment company, or a RIC , under the Internal Revenue Code of 1986 (the Code ), as amended. The Company expects to continue to qualify and to elect to be treated for tax purposes as a RIC. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments in private middle market companies.

We are externally managed by Ares Capital Management LLC (the Investment Adviser), an affiliate of Ares Management LLC (Ares Management), an independent international investment management firm. Ares Operations LLC (Ares Administration), an affiliate of Ares Management, provides the administrative services necessary for us to operate pursuant to an amended and restated administration agreement (the Administration Agreement).

Interim financial statements are prepared in accordance with generally accepted accounting principles in the United States (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain disclosures accompanying financial statements prepared in accordance with GAAP are omitted. In the opinion of management, all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of financial statements for the interim period, have been included. The current period s results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2008.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition for the periods presented. All significant intercompany balances and transactions have been eliminated.

#### Cash and Cash Equivalents

Cash and cash equivalents include short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

#### Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

#### Investments

Investment transactions are recorded on the trade date. Realized gains or losses are computed using the specific identification method. Investments for which market quotations are readily available are valued at such market

quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors based on the input of our management and audit committee. In addition, the board of directors currently receives input from independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio investment at least once during a trailing 12 month period. The valuation process is conducted at the end of each fiscal quarter, with approximately a quarter of our valuations of portfolio companies without market quotations subject to review by an independent valuation firm each quarter. In addition, the board may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company s ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have previously recorded it.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuation conclusions are then documented and discussed with our management.
- The audit committee of our board of directors reviews these preliminary valuations, as well as the input of an independent valuation firm with respect to the valuations of approximately a quarter of our portfolio companies.
- The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our management and audit committee and independent valuation firms.

#### Interest Income Recognition

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective yield method. The amortized cost of

investments represents the original cost adjusted for the accretion of discounts and amortization of premiums.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management s judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management s judgment, are likely to remain current. The

33

Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection. As of March 31, 2008, and December 31, 2007, \$20,687 aggregate principal amount of loans were placed on non-accrual status.

#### Payment-in-Kind Interest

The Company has loans in its portfolio that contain a payment-in-kind (PIK) provision. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company s status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash. For the three months ended March 31, 2008, \$5,426 in PIK income was recorded. For the three months ended March 31, 2007, \$2,087 in PIK income was recorded.

#### Capital Structuring Service Fees and Other Income

The Company s Investment Adviser seeks to provide assistance to our portfolio companies in connection with the Company s investments and in return the Company may receive fees for capital structuring services. These fees are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company s Investment Adviser provides vary by investment, but generally consist of reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company s Investment Adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, consulting, loan guarantees, commitments, and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

#### Foreign Currency Translation

The Company s books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

(1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.

(2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

The Company s offering costs are charged against the proceeds from equity offerings when received. There were no equity offerings during the three months ended March 31, 2008. For the three months ended March 31, 2007, the Company incurred approximately \$58 of offering costs.

#### **Debt Issuance Costs**

Debt issuance costs are being amortized over the life of the related credit facility using the straight line method, which closely approximates the effective yield method.

#### Federal Income Taxes

The Company has qualified and elected and intends to continue to qualify for the tax treatment applicable to RICs under Subchapter M of the Code and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from Federal income taxes. In order to qualify as a RIC, among other factors, the Company is required to timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended March 31, 2008 and March 31, 2007, the Company recorded benefits of approximately \$434 and \$64, respectively, for Federal excise tax.

Certain of our wholly owned subsidiaries are subject to Federal and state income taxes. For the three months ended March 31, 2008 and March 31, 2007, we recorded tax provisions of approximately \$112 and \$74, respectively, for these subsidiaries.

#### Dividends

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who

have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividends. While we generally use primarily newly issued shares to implement the plan, we may purchase shares in the open market in connection with our obligations under the plan.

#### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

#### Fair Value of Financial Instruments

The carrying value of the Company s financial instruments approximate fair value. See Note 8 for further information.

#### 3. AGREEMENTS

The Company is party to an investment advisory agreement (the Advisory Agreement ) with the Investment Adviser under which the Investment Adviser, subject to the overall supervision of our board of directors, provides investment advisory services to the Company. For providing these services, the Investment Adviser receives a fee from us, consisting of two components a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 1.5% of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds). The base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters.

The incentive fee has two parts. One part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with payment-in-kind interest, preferred stock with payment-in-kind dividends and zero coupon securities, accrued income that we have not yet received in cash. The Investment Adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never received as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets (defined as total assets less indebtedness) at the end of the immediately preceding calendar quarter, is compared to a fixed hurdle rate of 2.00% per quarter.

We pay the Investment Adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

- no incentive fee in any calendar quarter in which the pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.50%) as the catch-up provision. The catch-up is meant to provide our Investment Adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeds 2.50% in any calendar quarter; and
- 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.50% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee (the Capital Gains Fee ) is determined and payable in arrears as of the end of each calendar year (or upon termination of the Advisory Agreement, as of the termination date), and is calculated at the end of each applicable year by subtracting (a) the sum of the Company s cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (b) the Company s cumulative aggregate realized capital gains, in each case calculated from October 8, 2004. If such amount is positive at the end of such year, then the Capital Gains Fee for such year is equal to 20.0% of such amount, less the aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee for such year.

#### ARES CAPITAL CORPORATION AND SUBSIDIARIES

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of March 31, 2008 (unaudited)

(dollar amounts in thousands, except per share data and as otherwise indicated)

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Company s portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the Company s portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in the Company s portfolio as of the applicable Capital Gains Fee calculation date and (b) the accreted or amortized cost basis of such investment.

We defer cash payment of any incentive fee otherwise earned by the Investment Adviser if during the most recent four full calendar quarter periods ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to the stockholders of the Company and (b) the change in net assets (defined as total assets less indebtedness) is less than 8.0% of our net assets at the beginning of such period. These calculations were appropriately pro rated during the first three calendar quarters following October 8, 2004 and are adjusted for any share issuances or repurchases.

For the three months ended March 31, 2008, we incurred \$7,087 in base management fees and \$6,493 in incentive management fees related to pre-incentive fee net investment income. For the three months ended March 31, 2008, we accrued no incentive management fees related to net realized capital gains. As of March 31, 2008, \$13,580 was unpaid and included in management and incentive fees payable in the accompanying consolidated balance sheet.

For the three months ended March 31, 2007, we incurred \$5,089 in base management fees and \$4,755 in incentive management fees related to pre-incentive fee net investment income. For the three months ended March 31, 2007, we accrued no incentive management fees related to net realized capital gains.

We are also party to a separate Administration Agreement with Ares Administration under which Ares Administration furnishes us with office, equipment and clerical, bookkeeping and record keeping services at our office facilities. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of Ares Administration s overhead in performing its obligations under the Administration Agreement, including our allocable portion of the cost of our officers and their respective staffs. Under the Administration Agreement, Ares Administration also performs or oversees the performance of our required administrative services, which include, among other things, being responsible for the financial records which we are required to maintain and preparing reports to our stockholders and reports filed with the SEC.

In addition, Ares Administration assists us in determining and publishing the net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Under the Administration Agreement, Ares Administration also provides on our behalf, managerial assistance to those portfolio companies to which we are required to provide such assistance. The Administration Agreement may be terminated by either party without penalty upon 60-days written notice to the other party.

For the three months ended March 31, 2008 and 2007, we incurred \$535 and \$210, respectively, in administrative fees. As of March 31, 2008, \$535 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

#### 4. EARNINGS PER SHARE

The following information sets forth the computation of basic and diluted net increase in stockholders equity per share resulting from operations for the three months ended March 31, 2008 and 2007:

| Diluted net increase in stockholders equity resulting |             |              |
| from operations per share:                            | \$<br>0.12  | \$<br>0.44   |

The difference between the denominator for basic net increase in stockholders equity resulting from operations per share and the denominator for diluted net increase in stockholders equity resulting from operations per share is the 24,228,030 transferable rights issued to stockholders of record on March 24, 2008 (see Note 14 for a further description of the transferable rights offering).

#### 5. INVESTMENTS

Under the Investment Company Act, we are required to separately identify non-controlled investments where we own more than 5% of a portfolio company s outstanding voting securities as affiliated companies. In addition, under the Investment Company Act, we are required to separately identify investments where we own more than 25% of a portfolio company s outstanding voting securities as control affiliated companies. We had no existing control relationship with any of the portfolio companies identified as affiliated companies or control affiliated companies prior to making the indicated investment.

For the three months ended March 31, 2008, the Company funded (A) \$275,531 aggregate principal amount of senior term debt, (B) \$36,996 aggregate principal amount of senior subordinated debt and (C) \$14,074 of investments in equity securities.

In addition, for the three months ended March 31, 2008, (1) \$92,404 aggregate principal amount of senior term debt were redeemed. Additionally, (a) \$61,542 aggregate principal amount of senior term debt, and (b) \$1,000 of investments in equity securities were sold.

As of March 31, 2008, investments and cash and cash equivalents consisted of the following:

|                           | Amortized Cost |           |    | Fair Value |  |  |

### 6. COMMITMENTS AND CONTINGENCIES

As of March 31, 2008, the Company had committed to make a total of approximately \$326,900 of investments in various revolving senior secured and subordinated loans. As of March 31, 2008, \$225,000 of this committed amount was unfunded. Additionally, \$279,700 of the \$326,900 in commitments extend beyond the maturity date of our Revolving Credit Facility (as defined in Note 7). Included within the \$326,900 in commitments in revolving secured and subordinated loans are commitments to issue up to \$12,500 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio companies were to default on their related payment obligations. As of March 31, 2008, the Company had \$10,800 in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability. Of these letters of credit, \$1,300 expire on June 10, 2013, \$500 expire on August 31, 2010, \$100 expire on April 1, 2009, \$1,400 expire on March 1, 2009, \$4,700 expire on February 28, 2009, \$100 expire on February 7, 2009, \$300 expire on January 31, 2009, and \$2,400 expire on September 30, 2008. These letters of credit may be extended under substantially similar

terms for additional one-year terms at the Company s option until the Revolving Credit Facility, under which the letters of credit were issued, matures on December 28, 2010.

As of March 31, 2008, the Company was subject to subscription agreements to fund up to an aggregate of \$114,300 of equity commitments, substantially all at the discretion of the Company, in private equity investment partnerships. As of March 31, 2008, \$2,300 of this amount was funded to these partnerships.

As of December 31, 2007, the Company had committed to make a total of approximately \$323,600 of investments in various revolving senior secured loans. As of December 31, 2007, \$244,400 was unfunded. Included within the \$323,600 commitment in revolving secured loans is a commitment to issue up to \$11,000 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio companies were to default on their related payment obligations. As of December 31, 2007, the Company had \$8,800 in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability. Of these letters of credit, \$1,300 expire on June 10, 2013, \$500 expire on August 31, 2010, \$4,600 expire on February 28, 2009 and \$2,400 expire on September 30, 2008. These letters of credit may be extended under substantially similar terms for additional one-year terms at the Company s option until the Revolving Credit Facility, under which the letters of credit were issued, matures on December 28, 2010.

As of December 31, 2007, the Company was subject to subscription agreements to fund up to an aggregate of \$111,800 of equity commitments, substantially all at the discretion of the Company in private equity investment partnerships. As of December 31, 2007, \$1,300 of this amount was funded to these partnerships.

#### 7. BORROWINGS

In accordance with the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing.

Our debt obligations consisted of the following as of March 31, 2008 and December 31, 2007:

|                           | N  | Iarch 31, 2008 | De | cember 31, 2007 |
|---------------------------|----|----------------|----|-----------------|
| Revolving Credit Facility | \$ | 466,643        | \$ | 282,528         |
| CP Funding Facility       |    | 85,000         |    | 85,000          |
| Debt Securitization       |    | 314,000        |    | 314,000         |
| Total                     | \$ | 865,643        | \$ | 681,528         |

The weighted average interest rate of all our debt obligations as of March 31, 2008 and December 31, 2007 was 3.84% and 5.66%, respectively.

#### **CP Funding Facility**

On October 29, 2004, we formed Ares Capital CP Funding LLC ( Ares Capital CP ), a wholly owned subsidiary of the Company, through which we established a revolving credit facility (the CP Funding Facility ). On November 3, 2004 (the Facility Effective Date ), we entered into the CP Funding Facility that, as amended, allows Ares Capital CP to issue up to \$350,000 of variable funding certificates ( VFC ). As of March 31, 2008, there was \$85,000 outstanding under the CP Funding Facility and the Company continues to be in compliance with all of the limitations and requirements of the CP Funding Facility. As of December 31, 2007, there was \$85,000 outstanding under the CP Funding Facility.

The CP Funding Facility is scheduled to expire on October 8, 2008 and is secured by all of the assets held by Ares Capital CP, which as of March 31, 2008 consisted of 20 investments. At expiration, at our election, any principal amounts then outstanding will be amortized over a 24-month period from the termination date.

The interest charged on the VFC is based on the commercial paper rate plus 1.00%. The interest charged on the VFC is payable quarterly. As of March 31, 2008 and December 31, 2007, the commercial paper rate was 3.0358% and 5.1147%, respectively. For the three months ended March 31, 2008 and 2007, the average interest rates (i.e. commercial paper rate plus the spread) were 4.90% and 6.04%, respectively. For the three months ended March 31, 2008 and 2007, the average outstanding balances were \$85,000 and \$51,122, respectively.

For the three months ended March 31, 2008 and 2007, the interest expense incurred on the CP Funding Facility was \$1,054 and \$798, respectively. Cash paid for interest expense during the three months ended March 31, 2008 and 2007 was \$1,338 and \$232, respectively.

The Company is also required to pay a commitment fee for any unused portion of the CP Funding Facility. Initially, the commitment fee was 0.175% per annum. Currently, the commitment fee is equal to 0.125% per annum calculated based on an amount equal to \$200,000 less the borrowings outstanding under the CP Funding Facility. As soon as the borrowings outstanding under the CP Funding Facility equal or exceed \$200,000, the fee is calculated based on an amount equal to \$350,000 less the borrowings outstanding under the CP Funding Facility. For the three months ended March 31, 2008 and 2007, the commitment fees incurred on the CP Funding Facility were \$36 and \$46, respectively.

#### Revolving Credit Facility

In December 2005, we entered into a senior secured revolving credit facility (the Revolving Credit Facility) under which, as amended, the lenders have agreed to extend credit to the Company in an aggregate principal amount not exceeding \$510,000 at any one time outstanding. The Revolving Credit Facility expires on December 28, 2010 and with certain exceptions is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the CP Funding Facility and those held as a part of the Debt Securitization, discussed below) which as of March 31, 2008 consisted of 169 investments.

The Revolving Credit Facility also includes an accordion feature that allows us to increase the size of the Revolving Credit Facility to a maximum of \$765,000 under certain circumstances. As of March 31, 2008, there was \$466,643 outstanding under the Revolving Credit Facility and the Company continues to be in compliance with all of the limitations and requirements of the Revolving Credit Facility. As of December 31, 2007, there was \$282,528 outstanding under the Revolving Credit Facility.

The interest charged under the Revolving Credit Facility is generally based on LIBOR (one, two, three or six month) plus 1.00%. As of March 31, 2008, the one, two, three and six month LIBOR were 2.70%, 2.70%, 2.69% and 2.61%, respectively. For the three months ended March 31, 2008, the average interest rate was 5.16%, the average outstanding balance was \$354,385, the interest expense incurred was \$4,560 and the cash paid for interest expense was \$4,755. As of December 31, 2007, the one, two, three and six month LIBOR were 4.60%, 4.65%, 4.70% and 4.60%, respectively. For the three months ended March 31, 2007 the average interest rate was 6.47%, the average outstanding balance was \$202,011, the interest expense incurred was \$3,221 and the cash paid for interest expense was \$2,986. The Company is also required to pay a commitment fee of 0.20% for any unused portion of the Revolving Credit Facility. For the three months ended March 31, 2008 and 2007, the commitment fees incurred were \$73 and \$39, respectively.

The amount available for borrowing under the Revolving Credit Facility is reduced by any standby letters of credit issued through the Revolving Credit Facility. As of March 31, 2008, the Company had \$13,700 in standby letters of credit issued through the Revolving Credit Facility. As of December 31, 2007, the Company had \$11,400 in standby letters of credit issued through the Revolving Credit Facility.

As of March 31, 2008, the Company had a non-U.S. borrowing on the Revolving Credit Facility denominated in Canadian dollars. As of March 31, 2008 and December 31, 2007, unrealized appreciation on this borrowing was \$1,207 and \$822, respectively.

#### Debt Securitization

On July 7, 2006, through our wholly owned subsidiary, ARCC CLO 2006 LLC ( ARCC CLO ), we completed a \$400,000 debt securitization (the Debt Securitization ) and issued approximately \$314,000 principal amount of asset-backed notes (including \$50,000 of revolving notes, all of which were drawn down as of March 31, 2008) (the CLO Notes ) to third parties that were secured by a pool of middle market loans that have been purchased or originated by the Company. The CLO Notes are included in the March 31, 2008 consolidated balance sheet. We retained approximately \$86,000 of certain BBB and non-rated securities in the Debt Securitization (the Retained Notes ). The CLO Notes mature on December 20, 2019, and, as of March 31, 2008, there was \$314,000 outstanding under the Debt Securitization (excluding the Retained Notes). The blended pricing of the CLO Notes, excluding fees, is approximately 3-month LIBOR plus 34 basis points.

The classes, amounts, ratings and interest rates (expressed as a spread to LIBOR) of the CLO Notes are as follows:

(1) Revolving class, all of which was drawn as of March 31, 2008.

As of March 31, 2008, there were 71 investments securing the notes. The interest charged under the Debt Securitization is based on 3-month LIBOR which as of March 31, 2008 was 2.69% and as of December 31, 2007 was 4.70%. For the three months ended March 31, 2008 and 2007, the effective average interest rates were 5.07% and 5.79%, respectively. For the three months ended March 31, 2008 and 2007, we incurred \$3,970 and \$3,949 of interest expense, respectively. For the three months ended March 31, 2008 and 2007, the cash paid for interest was \$4,180 and \$3,925, respectively. The Company is also required to pay a commitment fee of 0.175% for any unused portion of the Class A-1A VFN Notes. There were no commitment fees incurred for the three months ended March 31, 2008. For the three months ended March 31, 2007, the commitment fees incurred were \$16 on these notes.

### 8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of the Company s financial instruments approximate fair value. Effective January 1, 2008, the company adopted Statement of Financial Accounting Standards No. 159, the Fair Value Option for Financial Assets and Liabilities (SFAS 159), which provides companies with an option to report selected financial assets and liabilities at fair value. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company s choice to use fair value on its earnings. SFAS 159 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. With the exception of other assets and debt, all assets and liabilities approximate fair value on the balance sheet. The carrying value of interest receivable, receivable and payable for open trades, accounts payable

and accrued expenses, management and incentive fees payable and interest and facility fees payable approximate fair value due to their short maturity.

Following are the carrying and fair values of our debt instruments as of March 31, 2008 and December 31, 2007:

For cash and cash equivalents and investments, effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157) which expands application of fair value accounting.

SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure of fair value measurements. SFAS 157 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with SFAS 157, these inputs are summarized in the three broad levels listed below:

- Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the valuation policy approved by our board of directors that is consistent with SFAS 157 (see Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value.

The following table presents fair value measurements of cash and cash equivalents and investments as of March 31, 2008:

|                           | Fair Value Measurements Using |    |         |    |         |    |           |

# 9. RELATED PARTY TRANSACTIONS

In accordance with the Advisory Agreement, we bear all costs and expenses of the operation of the Company and reimburse the Investment Adviser for all such costs and expenses incurred in the operation of the Company. For the

three months ended March 31, 2008 and 2007, the Investment Adviser incurred such expenses totaling \$401 and \$558, respectively. As of March 31, 2008, \$265 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

During 2006, we entered into a sublease agreement with Ares Management, whereby Ares Management subleases approximately 25% of the office facilities that we lease, for a fixed rent equal to 25% of the basic annual rent payable by us under our lease, plus certain additional costs and expenses. For the three months ended March 31, 2008 and 2007, such amounts payable to the Company totaled \$69 and \$42, respectively. As of March 31, 2008, there were no unpaid amounts.

As of March 31, 2008, Ares Investments, an affiliate of the Investment Adviser, owned 1,216,667 shares of the Company s common stock representing approximately 1.7% of the total shares outstanding as of March 31, 2008.

See Notes 3, 10 and 14 for descriptions of other related party transactions.

#### 10. INVESTMENT IN IVY HILL MIDDLE MARKET CREDIT FUND LTD.

On November 19, 2007, we established a middle market credit fund, Ivy Hill Middle Market Credit Fund, Ltd. ( Ivy Hill ), which is managed by our wholly owned subsidiary Ivy Hill Asset Management, L.P. in exchange for a 0.50% management fee on the average total assets of Ivy Hill. As of March 31, 2008, the total assets of Ivy Hill were approximately \$225,000. For the three months ended March 31, 2008, the Company earned \$197 in management fees. Ivy Hill primarily invests in first and second lien bank debt of middle market companies. Ivy Hill was initially funded with \$404,000 of capital including a \$56,000 investment by the Company consisting of \$40,000 of Class B notes and \$16,000 of subordinated notes.

Ivy Hill purchased \$24,542 of investments from the Company during the three months ended March 31, 2008. There was no gain or loss recognized by the Company on these transactions.

#### **OVERVIEW**

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company (a BDC) under the Investment Company Act of 1940 (the Investment Company Act o). We were founded on April 16, 2004 and were initially funded on June 23, 2004 and on October 8, 2004 completed our initial public offering (the IPO).

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and long-term mezzanine debt, which in some cases includes an equity component, and, to a lesser extent, in equity investments in private U.S. middle market companies.

We are externally managed by Ares Capital Management LLC (the Investment Adviser), an affiliate of Ares Management LLC, an independent international investment management firm. Ares Operations LLC (Ares Administration), an affiliate of Ares Management LLC, provides the administrative services necessary for us to operate.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities and indebtedness of private U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

We have qualified and elected to be treated as a regulated investment company, or a RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code ). To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders at least 90% of our

investment company taxable income, as defined by the Code, for each year. Pursuant to these elections, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders.

<sup>(1)</sup> New investment commitments includes new agreements to fund revolving credit facilities or delayed draw loans.

<sup>(2)</sup> Number of new investments represents each commitment to a particular portfolio company.

When we refer to the weighted average yield in this report, we compute it with respect to particular securities by taking the (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt included in such securities, and dividing it by (b) total income producing securities and debt at fair value included in such securities.

The Investment Adviser employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, the Investment Adviser grades all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended to reflect the performance of the portfolio company s business, the collateral coverage of the investments and other factors considered relevant. Under this system, investments with a grade of 4 involve the least amount of risk in our portfolio. The portfolio company is performing above expectations and the trends and risk factors are generally favorable, including a potential exit. Investments graded 3 involve a level of risk that is similar to the risk at the

time of origination. The portfolio company is performing as expected and the risk factors are neutral to favorable. All new investments are initially graded 3. Investments graded 2 involve a portfolio company performing below expectations and indicates that the investment s risk has increased materially since origination. The portfolio company may be out of compliance with debt covenants, however, payments are generally not more than 120 days past due. For investments graded 2, we increase procedures to monitor the portfolio company and we will write down the fair value of the investment if it is deemed to be impaired. An investment grade of 1 indicates that the portfolio company is performing materially below expectations and that the investment risk has substantially increased since origination. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Investments graded 1 are not anticipated to be repaid in full and we will reduce the fair market value of the investment to the amount we anticipate will be recovered. The Investment Adviser employs half-point increments to reflect underlying trends in portfolio company operating or financial performance, as well as the general outlook. As of March 31, 2008, the weighted average investment grade of the investments in our portfolio was 3.0 and two loans were past-due or on non-accrual. The weighted average investment grade of the investments in our portfolio as of December 31, 2007 was 3.0. The distribution of the grades of our portfolio companies as of March 31, 2008 and December 31, 2007 is as follows (dollar amounts in thousands):

|         | March 31, 2008  |                        | December        | 31, 2007               |

As of March 31, 2008, the weighted average yield of the debt and income producing equity securities in our portfolio was approximately 11.24%. As of March 31, 2008, the weighted average yield on our entire portfolio was 9.86%. The weighted average yield on our senior term debt, senior subordinated debt and income producing equity securities was 10.55%, 13.45% and 10.18%, respectively. Of the senior term debt, as of March 31, 2008, the weighted average yield attributable to first lien senior term debt and second lien senior term debt was 9.49% and 12.14%, respectively.

As of December 31, 2007, the weighted average yield of the debt and income producing equity securities in our portfolio was approximately 11.68%. As of December 31, 2007, the weighted average yield on our entire portfolio was 10.22%. The weighted average yield as of December 31, 2007, on our senior term debt, senior subordinated debt and income producing equity securities was 11.19%, 13.23% and 10.36%, respectively. Of the senior term debt, the weighted average yield as of December 31, 2007, attributable to first lien senior term debt and second lien senior term debt was 10.53% and 12.38%, respectively.

**Investment Income** 

For the three months ended March 31, 2008, total investment income increased \$12.5 million, or 31%, over the three months ended March 31, 2007. For the three months ended March 31, 2008, total investment income consisted of \$45.9 million in interest income from investments, \$3.9 million in capital structuring service fees, \$0.5 million in dividend income, \$1.3 million in other income and \$0.5 million in interest income from cash and cash equivalents. Interest income from investments increased \$12.0 million, or 36%, to \$45.9 million for the three months ended March 31, 2008 from \$33.8 million for the comparable period in 2007. The increase in interest income from investments was primarily due to the increase in the overall size of the portfolio. The average investments, at fair value, for the quarter increased from \$1.3 billion for the three months ended March 31, 2007 to \$1.8 billion for the comparable period in 2008.

**Operating Expenses** 

For the three months ended March 31, 2008, total expenses increased \$5.8 million, or 28%, over the three months ended March 31, 2007. Base management fees increased \$2.0 million, or 39%, to \$7.1 million for the three months ended March 31, 2008 from \$5.1 million for the comparable period in 2007, primarily due to the increase in the size of the portfolio. Incentive management fees related to pre-incentive fee net investment income increased \$1.7 million, or 37%, to \$6.5 million for the three months ended March 31, 2008 from \$4.8 million for the comparable period in 2007, primarily due to the increase in the size of the portfolio and the related increase in net investment income. Interest expense and credit facility fees increased \$1.4 million, or 16%, to \$9.9 million for the three months ended March 31, 2008 from \$8.5 million for the comparable period in 2007, primarily due to the increase in the average outstanding borrowings. There were \$753.4 million in average outstanding borrowings during the three months ended March 31, 2008 compared to average outstanding borrowings of \$529.6 million in the comparable period in 2007.

#### Income Tax Expense, Including Excise Tax

The Company has qualified and elected and intends to continue to qualify and elect for the tax treatment applicable to RICs under subchapter M of the Code, and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended March 31, 2008 and March 31, 2007, the Company recognized \$0.4 million and \$0.1 million, respectively, of benefits for federal excise tax.

Certain of our wholly owned subsidiaries are subject to federal and state income taxes. For the three months ended March 31, 2008 and March 31, 2007, we recorded tax provisions of approximately \$0.1 million for these subsidiaries.

#### **Net Unrealized Gains/Losses**

For the three months ended March 31, 2008, the Company had net unrealized losses of \$17.0 million, which primarily consisted of \$30.1 million of unrealized depreciation less \$13.0 million of unrealized appreciation. The most significant changes in unrealized depreciation consisted of \$5.7 million for the investment in MPBP Holdings, Inc., \$3.5 million for the investment in Primis Marketing Group, Inc., \$3.3 million for the investment in Courtside Acquisition Corp., \$2.6 million for the investment in CT Technologies Intermediate Holdings, Inc., \$2.5 million for the investment in Growing Family, Inc., \$2.3 million for the investment in Apple & Eve, LLC and \$1.6 million for the investment in Abingdon Investments Limited. The most significant changes in unrealized appreciation consisted of \$7.3 million for the investment in Reflexite, Inc. and \$5.0 million for the investment in Equinox EIC Partners, LLC.

For the three months ended March 31, 2007, the Company had an increase in net unrealized gain/loss of \$4.3 million, which was comprised of \$7.6 million in unrealized appreciation, \$3.0 million in unrealized depreciation and \$0.3 million relating to the reversal of prior period unrealized net appreciation. The most significant changes in net unrealized appreciation were unrealized appreciation of \$3.6 million for the investment in Daily Candy, Inc., \$1.7 million for the investment in Industrial Container Services, Inc., \$1.1 million for the investment in Reflexite, Inc. and \$900,000 for the

investment in Waste Pro USA, Inc. offset by unrealized depreciation of \$3.0 million for the investment in Diversified Collection Services, Inc.

#### Net Realized Gains/Losses

During the three months ended March 31, 2008, the Company had \$155.2 million of sales and repayments resulting in \$0.2 million of net realized gains. During the three months ended March 31, 2007, the Company had \$118.2 million in gross proceeds of sales and repayments resulting in \$0.4 million of net realized gains. The most significant realized gains during the three months ended March 31, 2007 were as a result of the repayment of the investment in Wastequip, Inc. and the partial repayment of the investment in Reflexite, Inc.

#### FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Since the Company s inception, the Company s liquidity and capital resources have been generated primarily from the net proceeds of public offerings of common stock, the Debt Securitization, advances from the CP Funding Facility and the Revolving Credit Facility, as well as cash flows from operations.

We expect to continue to raise new capital in order to fund our investment objectives by issuing both debt and equity securities in the future, amending our Facilities and/or recycling lower yielding investments. However, the terms of any future debt and equity issuances, amendments or our ability to recycle cannot be determined and there can be no assurances that the debt or equity markets, amendments to our Facilities or the ability to recycle will be achievable to us on terms we deem acceptable or that our cost of capital will not increase.

### **Equity Offerings**

There were no equity offerings during the three months ended March 31, 2008. The following table summarizes the total shares issued and net proceeds we received after deducting underwriting and offering costs for the three months ended March 31, 2007 (in millions, except per share amounts):

|   | Shares issued | Offering price per share | Proceeds net of<br>underwriting and<br>offering costs |

Part of the proceeds from our public offerings in 2007 were used to repay outstanding indebtedness. The remaining unused portions of the proceeds from our public offerings were used to fund investments in portfolio companies in accordance with our investment objective and strategies and market conditions.

As of March 31, 2008, total market capitalization for the Company was \$916.7 million compared to \$1.1 billion as of December 31, 2007.

### **Debt Capital Activities**

Our debt obligations consisted of the following as of March 31, 2008 and December 31, 2007 (in millions):

|                           | Ma | rch 31, 2008 | December 31, 2007 |   |  |

The weighted average interest rate and weighted average maturity of all our outstanding borrowings as of March 31, 2008 were 3.84% and 6.0 years, respectively.

The weighted average interest rate and weighted average maturity of all our outstanding borrowings as of December 31, 2007 were 5.66% and 6.9 years, respectively.

The ratio of total debt outstanding to stockholders equity as of March 31, 2008 was 0.78:1:00 compared to 0.60:1.00 as of December 31, 2007.

As of March 31, 2008, the available amount for borrowing under the Revolving Credit Facility was \$510.0 million (see Note 7 to the Consolidated Financial Statements for more detail on the Revolving Credit Facility arrangement). As of March 31, 2008, there was \$466.6 million outstanding under the Revolving Credit Facility. The Revolving Credit Facility expires on December 28, 2010.

As of March 31, 2008, the available amount for borrowing under the CP Funding Facility was \$350.0 million (see Note 7 to the consolidated financial statements for more detail on the CP Funding Facility arrangement). As of March 31, 2008, there was \$85.0 million outstanding under the CP Funding Facility. The CP Funding Facility expires on October 8, 2008 unless extended prior to such date with the consent of the lenders.

As part of the Debt Securitization, \$314.0 million principal amount of asset-backed notes (including \$50.0 million revolving notes all of which had been drawn as of March 31, 2008) were issued to third parties and secured by a pool of middle market loans that had been purchased or originated by the Company. As of March 31, 2008, we also own approximately \$86.0 million of certain BBB and non-rated securities that we retained in the Debt Securitization. As of March 31, 2008, there was \$314.0 million aggregate principal amount of CLO Notes outstanding. The CLO Notes mature on December 20, 2019.

As of March 31, 2008, we had a long-term issuer rating of Baa3 from Moody s Investor Service and a long-term counterparty credit rating from Standard & Poor s Ratings Service of BBB.

#### OFF BALANCE SHEET ARRANGEMENTS

As of March 31, 2008, the Company had committed to make a total of approximately \$326.9 million of investments in various revolving senior secured and subordinated loans. As of March 31, 2008, \$225.0 million of this committed amount was unfunded. Additionally, \$279.7 million of the \$326.9 million in commitments extend beyond the maturity date of our Revolving Credit Facility. Included within the \$326.9 million in commitments in revolving secured and subordinated loans are commitments to issue up to \$12.5 million in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio companies were to default on their related payment obligations. As of March 31, 2008, the Company had \$10.8 million in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability. Of these letters of credit, \$1.3 million expire on June 10, 2013, \$0.5 million expire on August 31, 2010, \$0.1 million expire on April 1, 2009, \$1.4 million expire on March 1, 2009, \$4.7 million expire on February 28, 2009, \$0.1 million expire on February 7, 2009, \$0.3 million expire on January 31, 2009, and \$2.4 million expire on September 30, 2008. These letters of credit may be extended under substantially similar terms for additional one-year terms at the Company s option until the Revolving Credit Facility, under which the letters of credit were issued, matures on December 28, 2010.

As of March 31, 2008, the Company was subject to subscription agreements to fund up to an aggregate of \$114.3 million of equity commitments, substantially all at the discretion of the Company in private equity investment partnerships. As of March 31, 2008, \$2.3 million of

this amount was funded to these partnerships.

As of December 31, 2007, the Company had committed to make a total of approximately \$323.6 million of investments in various revolving senior secured loans. As of December 31, 2007, \$244.4 million [of this amount] was unfunded. Included within the \$323.6 million commitment in revolving secured loans is a commitment to issue up to \$11.0 million in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio companies were to default on their related payment obligations. As of December 31, 2007, the Company had \$8.8 million in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability. Of these letters of credit, \$1.3 million expire on June 10, 2013, \$0.5 million expire on August 31, 2010, \$4.6 million expire on February 28, 2009 and \$2.4 million expire on September 30, 2008. These letters of credit may be extended under substantially similar terms for additional one-year terms at the Company s option until the Revolving Credit Facility, under which the letters of credit were issued, matures on December 28, 2010.

As of December 31, 2007, the Company was subject to subscription agreements to fund up to an aggregate of \$111.8 million of equity commitments, substantially all at the discretion of the Company in private equity investment partnerships. As of December 31, 2007, \$1.3 million of this amount was funded to these partnerships.

#### RECENT DEVELOPMENTS

As of May 6, 2008, we had made \$2.6 million of investments (including agreements to fund revolving credit facilities or delayed draw loans) since March 31, 2008. Of these investments, approximately 81% were made in senior subordinated debt and 19% in equity/other securities. Of these investments, none bear interest at floating rates and 81% bear interest at fixed rates with a weighted average stated rate of 16.0%. As of May 6, 2008, we exited \$23.0 million of investments since March 31, 2008. Of these investments, all were first lien senior secured debt securities. Of these investments, 99% bear interest at floating rates with a weighted average stated rate of LIBOR plus 4.8% and 1% bear interest at fixed rates with a weighted average stated rate of 11.8%.

In addition, as of May 6, 2008, we had an investment backlog and pipeline of \$213.8 million and \$269.3 million, respectively. We expect to syndicate a portion of these investments and commitments to third parties. The consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. We cannot assure you that we will make any of these investments or that we will syndicate any portion of such investments and commitments.

On April 28, 2008, we completed a transferable rights offering, issuing 24,228,030 shares at a subscription price of \$11.0016 per share, less dealer manager fees of \$0.22 per share. Net proceeds from the initial subscription phase, after deducting the dealer managers fees and estimated offering expenses, were approximately \$260 million. Ares Investments, an affiliate of the Investment Adviser, purchased 1,643,215 shares in the rights offering, bringing its total shares owned to 2,859,882 shares of common stock representing approximately 2.9% of the total shares outstanding as of April 28, 2008.

### Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the spread between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of March 31, 2008, approximately 44% of the investments at fair value in our portfolio were at fixed rates while approximately 44% were at variable rates and 12% were non-interest earning. In addition, the Debt Securitization, the CP Funding Facility and the Revolving Credit Facility all feature variable rates.

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Based on our March 31, 2008 balance sheet, the following table shows the impact on net income of base rate changes in interest rates assuming no changes in our investment and borrowing structure (in millions).

| Basis Point Change    | Inter | rest Income | In | terest Expense | Net Income  |

Portfolio Valuation

Investments for which market quotations are readily available are valued at such market quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors based on the input of our management and audit committee. In addition, the board of directors currently receives input from independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio investment at least once during a trailing 12 month period. The valuation process is conducted at the end of each fiscal quarter, with approximately a quarter of our valuations of portfolio companies subject to review by independent valuation firms each quarter. In addition, the board may take into account the following factors, as relevant, in fair value valuation of our investments: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company s ability to make payments and its earnings, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have previously recorded it.

In addition, changes in the market environment, such as inflation, and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuation conclusions are then documented and discussed with our management.
- The audit committee of our board of directors reviews these preliminary valuations, as well as the input of independent valuation firms with respect to the valuations of approximately a quarter of our portfolio companies.

• The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our management and audit committee and independent valuation firms.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, our President and our Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to the Company that is required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934.

| There have been no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.  |

| PART II OTHER INFORMATION  |
| Item 1. Legal Proceedings.   |
| We are not subject to any material pending legal proceeding, and no such proceedings are known to be contemplated.   |
| Item 1A. Risk Factors.   |
| In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, which could materially affect our business, financial condition or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. |
| Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.   |
| We did not sell any securities during the period covered in this report that were not registered under the Securities Act of 1933.   |
| We did not repurchase any shares issued during the period covered in this report.  |
