SJW CORP. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2008

(in thousands, except share and per share data)

Note 1. General

In the opinion of SJW Corp., the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary for the fair presentation of the results for the interim periods. These adjustments consist only of normal recurring adjustments.

The Notes to Consolidated Financial Statements in SJW Corp.'s 2007 Annual Report on Form 10-K should be read with the accompanying condensed consolidated financial statements.

Water sales are seasonal in nature. The demand for water, especially by residential customers, is generally influenced by weather conditions. The timing of precipitation and climatic conditions can cause seasonal water consumption by residential customers to vary significantly. Due to the seasonal nature of the water business, the operating results for interim periods are not indicative of the operating results for a 12-month period. Revenue is generally higher in the warm, dry summer months when water usage and sales are greater and lower in the winter when cooler temperatures and increased rainfall curtail water usage and sales.

Basic earnings per share is calculated using income available to common shareholders, divided by the weighted average number of shares outstanding during the period. Diluted earnings per share is calculated using income available to the common shareholders divided by the weighted average number of common shares including both shares outstanding and shares potentially issued in connection with stock options, deferred restricted common stock awards under SJW Corp.'s Long-Term Incentive Plan (as amended, the Incentive Plan) and shares potentially issued under the Employee Stock Purchase Plan.

For the three months ended September 30, 2008 and 2007, the basic weighted average number of common shares was 18,423,325 and 18,350,007, respectively. For the nine months ended September 30, 2008 and 2007, the basic weighted average number of common shares was 18,401,458 and 18,325,206, respectively. For the three months ended September 30, 2008 and 2007, the diluted weighted average number of common shares was 18,618,780 and 18,561,631, respectively. For the nine months ended September 30, 2008 and 2007, the diluted weighted average number of common shares was 18,602,557 and 18,539,587, respectively. For the nine months ended September 30, 2008, 13,011 common stock units were excluded from the dilutive calculation because they were anti-dilutive.

Note 2. Long-Term Incentive Plan and Share-Based Payments

Common Shares

Edgar Filing: SJW CORP - Form 10-Q

On January 1, 2006, SJW Corp. adopted Statement of Financial Accounting Standards No. 123R, Share-Based Payment (SFAS 123R), which requires the measurement and recognition of compensation expense based on the estimated fair value for all share-based payment awards.

Edgar Filing: SJW CORP - Form 10-Q

As of September 30, 2008, the Incentive Plan allows non-employee directors of SJW Corp. to receive awards, authorizes the plan administrator to grant stock appreciation rights, and lists the performance criteria for performance shares. In addition, the Incentive Plan allows SJW Corp. to provide employees, including officers, and non-employee directors, the opportunity to acquire an equity interest in SJW Corp. The types of awards included in the Incentive Plan are stock options, dividend units, performance shares, rights to acquire restricted stock and stock bonuses. In addition, shares are issued under the Employee Stock Purchase Plan (ESPP). The remaining shares available for issuance under the Incentive Plan are 1,308,948. As of September 30, 2008, 354,845 shares are issuable upon the exercise of outstanding options, restricted stock units and deferred stock units. The total compensation cost charged to income under the Incentive Plan for the three and nine months ended September 30, 2008 was \$151 and \$443, respectively, and for the three and nine months ended September 30, 2007, was \$133 and \$505, respectively.

SJW Corp. utilizes the Black-Scholes option-pricing model to determine the fair value of stock options and ESPP purchases under SFAS 123R. The Black-Scholes option-pricing model incorporates various subjective assumptions including expected volatility, expected term, expected dividend yield and interest rates. The expected volatility for both stock options and ESPP purchases is estimated by historical stock price volatility over the estimated expected term of SJW Corp. s share-based awards. The expected term of SJW Corp. s share-based awards are based on historical experience.

Stock Options

No options were granted during the nine months ending September 30, 2008 and 2007.

For the nine months ended September 30, 2008, after taking into consideration the relevant facts and circumstances, SJW Corp. does not project any foreseeable terminations which could lead to forfeiture of unvested options. SJW Corp. has recognized share-based compensation expense for the stock options granted under the Incentive Plan of \$14 and \$44 for the three and nine months ended September 30, 2008, respectively, and \$23 and \$82 for the three and nine months ended September 30, 2007, respectively. As of September 30, 2008, total unrecognized compensation costs related to stock options amounted to \$25. These costs are expected to be recognized over a weighted average period of 0.44 year.

SFAS 123R requires the cash flows resulting from the tax benefits for deductions in excess of the compensation expense recorded for those options (excess tax benefits) to be classified as cash from financing activities. For the three months ended September 30, 2008, no options were exercised. For the nine months ended September 30, 2008, total cash received on exercise of options amounted to \$71 and the excess tax benefits realized from stock options exercised amounted to \$19. For the three and nine months ended September 30, 2007, total cash received on exercise of options amounted to \$465 and \$1,054, respectively, and the excess tax benefits realized from stock options exercised amounted to \$162 and \$391, respectively.

Deferred Restricted Stock and Deferral Election Programs and Restricted Stock Awards

Under SJW Corp. s Amended and Restated Deferred Restricted Stock Program (the Deferred Restricted Stock Program), SJW Corp. granted deferred restricted stock units to non-employee Board members. This program was amended effective January 1, 2008. As a result of that amendment, no new awards of deferred restricted stock units will be made under the Deferred Restricted Stock Program with respect to Board service after December 31, 2007. In addition, SJW Corp. s Deferral Election Program (as amended, the Deferral Program) includes retainer fees and meeting fees earned for the calendar year 2007 to be deferred into deferred restricted stock units. Prior to 2007, only

retainer fees were allowed to be converted under the Deferral Program. The retainer fees and meeting fees are collectively referred to as the Annual Service Fees. For any post-2007 calendar year, the Annual Service Fees that are deferred will be credited as a dollar amount to a deferred election account, and will no longer be deferred into deferred restricted stock units.

Edgar Filing: SJW CORP - Form 10-Q

On January 2, 2008, 7,258 restricted stock units were granted to several executives of SJW Corp. These units will vest in four equal successive installments upon completion of each year of service with no dividend equivalent rights. Share-based compensation expense is being recognized at grant date fair value of \$31.32 per unit over the vesting period beginning in 2008.

On January 30, 2008, 1,041 restricted stock units were granted to an executive of SJWTX, Inc. under the Incentive Plan. These units will vest in four equal successive installments upon completion of each year of service with no dividend equivalent rights. Share-based compensation expense is being recognized at grant date fair value of \$26.35 per unit over the vesting period beginning in 2008.

On August 11, 2008, 1,851 restricted stock units were granted to an executive of SJW Corp. These units will vest in four equal successive installments upon completion of each year of service with no dividend equivalent rights. The restricted stock units were valued at a market price of \$27.01 per share at the date of grant. Share-based compensation expense is being recognized at grant date fair value of \$24.58 per unit over the vesting period beginning August 2008. The grant date fair value is the market price reduced by the present value of the expected dividend stream during the four year period.

On April 28, 2008 and May 9, 2008 a total of 34,512 shares of common stock were distributed to a retired member of SJW Corp.'s Board of Directors. Additionally, SJW Corp. paid cash in the amount of \$4 to settle the dividend equivalent rights earned for those shares with a lump-sum distribution. The excess tax benefits realized from the distribution of common stock to the retired member of the Board of Directors amounted to \$266.

On January 30, 2008, a total of 21,000 restricted and deferred restricted stock units were awarded to an executive of SJW Corp., which includes 7,000 performance-based restricted stock units that will convert into shares of SJW Corp.'s common stock upon vesting at the end of a three year period if specific performance goals set are attained. These units do not include dividend equivalent rights. The fair value of the performance-based restricted award was estimated using the fair value of SJW Corp.'s common stock with the effect of market conditions and no dividend yield on the date of grant, and assumes the performance goals will be attained. Share-based compensation expense is recognized at \$11.71 per unit over approximately 2.5 years. If such goals are not met and requisite service is not rendered, no compensation cost will be recognized and any recognized compensation cost will be reversed.

SJW Corp. has recognized an aggregate share-based compensation expense of \$137 and \$399 for the three and nine months ended September 30, 2008, respectively, and \$69 and \$242 for the three and nine months ended September 30, 2007, respectively, related to restricted and deferred restricted stock awards to employees. No share-based compensation expense was recognized for the three and nine months ended September 30, 2008, related to restricted and deferred restricted stock awards to non-employee Board members. SJW Corp. has recognized an aggregate share-based compensation expense of \$41 and \$181 for the three and nine months ended September 30, 2007, respectively, related to restricted and deferred restricted stock awards to non-employee Board members. As of September 30, 2008, the total unrecognized compensation costs were \$1,093. These costs are expected to be recognized over a weighted average period of 1.92 years.

For the three months ended September 30, 2008, no tax benefit was realized due to the fact that no stock was issued. For the nine months ended September 30, 2008, the tax benefit realized from restricted stock units and deferred stock units issuance amounted to \$305. For the three and nine months ended September 30, 2007, no tax benefit was realized due to the fact that no stock was issued.

Dividend Equivalent Rights

Under the Incentive Plan, holders of options, restricted stock and deferred restricted stock awards may have the right to receive dividend equivalent rights (DERs) each time a dividend is paid on common shares after the grant date. Stock compensation on DERs is recognized as a liability and recorded against retained earnings on the date dividends are issued. For the three and nine months ended September 30, 2008, \$41 and \$129, respectively, related to DERs were recorded against retained earnings and were accrued as a liability. For the three and nine months ending September 30, 2007, \$53 and \$171, respectively, related to DERs were recorded against retained earnings and were accrued as a liability.

SJW Corp.'s Deferred Restricted Stock and Deferral Election Programs for non-employee Board members were amended effective January 1, 2008, to allow the DERs with respect to the deferred shares to remain in effect only through December 31, 2017. Accordingly, the last DERs conversion into deferred restricted stock units will occur on the first business day in January 2018. Previously, no such time limitation was placed in the Deferral Election Program.

Employee Stock Purchase Plan

The ESPP allows eligible employees to purchase shares of SJW Corp.'s common stock at 85% of the fair market value of shares on the purchase date. Under the ESPP, employees can designate up to a maximum of 10% of their base compensation for the purchase of shares of common stock, subject to certain restrictions. A total of 270,400 shares of common stock have been reserved for issuance under the ESPP.

After considering the estimated employee terminations or withdrawals from the plan before the purchase date, SJW Corp.'s related ESPP expenses were \$17 and \$60 for the three and nine months ended September 30, 2008, respectively, and \$13 and \$56 for the three and nine months ended September 30, 2007, respectively, related to the ESPP.

The total unrecognized compensation costs related to the semi-annual offering period that ends January 31, 2009, for the ESPP is approximately \$35. This cost is expected to be recognized during the fourth quarter of 2008 and the first quarter of 2009.

Note 3. Nonregulated Business

The regulated activities of SJW Corp. consist of its subsidiaries, San Jose Water Company, a public utility regulated by the California Public Utilities Commission (CPUC) that operates within a service area approved by the CPUC and Canyon Lake Water Service Company, which is regulated by the Texas Commission on Environmental Quality. The nonregulated businesses of SJW Corp. are comprised of operating the City of Cupertino Municipal Water System and lease operations of eight commercial buildings and properties of SJW Land Company. The following tables represent the distribution of the regulated and nonregulated business activities for the three and nine months ended September 30, 2008 and 2007:

	Three Months Ended September 30, 2008			Three Months Ended September 30, 2007		
	Regulated	Non Regulated	Total	Regulated	Non Regulated	Total
Revenue	\$ 66,370	\$ 3,137	\$ 69,507	\$ 61,743	\$ 3,104	\$ 64,847
Expenses	55,938	2,104	58,042	52,023	2,093	54,116
Operating income	\$ 10,432	\$ 1,033	\$ 11,465	\$ 9,720	\$ 1,011	\$ 10,731

	Nine Months Ended September 30 2008			Nine Months Ended September 30 2007		
	Regulated	Non Regulated	Total	Regulated	Non Regulated	Total
Revenue	\$ 162,161	\$ 8,657	\$ 170,818	\$ 150,471	\$ 8,528	\$ 158,999
Expenses	138,228	5,823	144,051	129,785	6,014	135,799
Operating income	\$ 23,933	\$ 2,834	\$ 26,767	\$ 20,686	\$ 2,514	\$ 23,200

Note 4. Real Estate Investments

The major components of net nonutility property as of September 30, 2008 and December 31, 2007 are as follows:

	September 30, 2008	December 3, 2007
Land	\$ 22,369	\$ 22,369
Buildings and improvements	66,702	65,429
Intangibles	231	231
Subtotal	89,302	88,029
Less: accumulated depreciation and amortization	5,092	3,834
Total	\$ 84,210	\$ 84,195

Depreciation is computed using the straight-line method over the estimated service lives of the assets, ranging from 5 to 39 years.

Note 5. Employee Benefit Plans

The components of net periodic benefit costs for San Jose Water Company's pension plan, Executive Supplemental Retirement Plan and other postretirement benefit plan for the three and nine months ended September 30, 2008 and 2007 are as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2008	2007	2008	2007
Service cost	\$ 557	\$ 620	\$ 1,671	\$ 1,860
Interest cost	1,150	1,068	3,450	3,206
Other cost	266	369	798	1,106
Expected return on assets	(944)	(885)	(2,831)	(2,656)
	\$ 1,029	\$ 1,172	\$ 3,088	\$ 3,516

San Jose Water Company made a contribution of \$3,000 to the pension plan in the third quarter of 2008.

The accounting for pensions and other postretirement benefits requires the extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the employees, mortality, turnover, and medical costs to determine the present value of the benefit obligation and the fair value of plan assets at the end of the year. With the current market conditions, the funded status of the pension plans and the contributions could change due to fluctuations on the expected return on plan assets as well as the present value of the benefit obligation. Further, required plan contributions by SJW Corp. may increase and payout restrictions on benefit payments from the pension plan could result from declining asset values and a decreased expectation of return on assets. SJW Corp. will review the assumptions on the measurement date of December 31, 2008 to determine any change in the present value of the benefit obligation and the fair value of plan assets.

Note 6. Segment Reporting

SJW Corp. is a holding company with three subsidiaries: (i) San Jose Water Company, a water utility operation with both regulated and nonregulated businesses, (ii) SJW Land Company and its consolidated variable interest entity - 444 West Santa Clara Street, L.P., which operates commercial building rentals (Real Estate Services) and (iii) SJWTX, Inc. which is doing business as Canyon Lake Water Service Company (CLWSC), a regulated water utility located in Canyon Lake, Texas. In accordance with Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information, SJW Corp. has determined that it has two reportable business segments. The first segment is that of providing water utility and utility related services to its customers through SJW Corp.'s subsidiaries, San Jose Water Company and CLWSC, together referred to the Water Utility Services. The second segment is property management and investment activity conducted by SJW Land Company, the Real Estate Services.

SJW Corp.'s reportable segments have been determined based on information used by the chief operating decision maker. SJW Corp.'s chief operating decision maker is its President and Chief Executive Officer (CEO). The CEO reviews financial information presented on a consolidated basis that is accompanied by disaggregated information about operating revenue, net income and total assets, by subsidiaries.

Edgar Filing: SJW CORP - Form 10-Q

The tables below set forth information relating to SJW Corp.'s reportable segments. Certain allocated assets, revenue and expenses have been included in the reportable segment amounts. Other business activity of SJW Corp. not included in the reportable segments is included in the "All Other" category.

*The All Other category includes SJW Corp. without regard to its subsidiaries. Please refer to Notes to Consolidated Financial Statements in SJW Corp. s 2007 Annual Report on Form 10-K.

Note 7. Long-Term Liabilities

SJW Corp. s contractual obligations and commitments include senior notes, mortgages and other obligations. San Jose Water Company, a subsidiary of SJW Corp., has received advance deposit payments from its customers on construction projects. Refunds of the advance deposit payments constitute an obligation of San Jose Water Company.

Note 8. Adoption of Financial Accounting Standards Board Interpretation No. 48

SJW Corp. adopted the provisions of Financial Accounting Standards Board Interpretation No. 48 (FASB Interpretation 48), Accounting for Uncertainty in Income Taxes, on January 1, 2007. The total amount of unrecognized tax benefits, before the impact of deductions for state taxes, excluding interest and penalties was \$1,228 and \$1,205 as of September 30, 2008 and 2007, respectively. The amount of tax benefits, net of any federal benefits for state taxes and inclusive of interest that would impact the effective rate, if recognized, is approximately \$639 and \$618 as of September 30, 2008 and 2007, respectively.

SJW Corp. s policy is to classify interest and penalties associated with unrecognized tax benefits, if any, in tax expense. Accrued interest expense, net of the benefit of tax deductions which would be available on the payment of such interest, is approximately \$60 for both the nine months ended September 30, 2008 and 2007. SJW Corp. has not accrued any penalties for unrecognized tax benefits.

SJW Corp. anticipates that its unrecognized tax benefits balance will be reduced by approximately \$271 within the next 12 months following September 30, 2008 due to the lapsing of the applicable statute of limitations. Through September 30, 2008, since the adoption of FASB Interpretation 48, a cumulative reduction of \$78 was recorded to unrecognized tax benefits as a result of a lapse of the applicable statute of limitations.

Edgar Filing: SJW CORP - Form 10-Q

SJW Corp. files U.S. federal income tax returns and income tax returns in various states. The open tax years for the jurisdictions in which SJW Corp. files are as follows:

Jurisdiction	Years Open	
Federal	2005	2007
California	2004	2007
Arizona	2006	2007
Connecticut	2005	2007
Florida	2005	2007
Tennessee	2007	
Texas	2005	2007

Note 9. Fair Value Measurement

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS 157), Fair Value Measurements, which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. It also applies under other accounting pronouncements that require or permit fair value measurements. The fair value hierarchy for disclosure of fair value measurements under SFAS 157 is as follows:

Level 1:	Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2:	Quoted prices, other than quoted prices included in Level 1, that are observable for the assets or liabilities, either directly or indirectly.
Level 3:	Inputs that are unobservable for the assets or liabilities.

The following table summarizes the assets and liabilities measured at fair value on a recurring basis as required by SFAS 157, as of September 30, 2008:

	Balance as of September 30, 2008	Level 1	Level 2	Level 3
Assets:				
Investment in California Water Service Group	\$ 42,348	\$ 42,348		
Liabilities:				
Postretirement Benefit Plans	\$ 22,553	\$ 22,553		

The FASB has also issued FASB Staff Positions (FSP) 157-1 and 157-2. FSP 157-1 amends SFAS 157 to exclude SFAS No. 13 Accounting for Leases, and other accounting pronouncements that address fair value measurements for purposes of lease classification or measurement. FSP 157-2 defers the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). Nonfinancial assets and nonfinancial liabilities would include all assets and liabilities other than those meeting the definition of a financial asset or financial liability as defined in paragraph 6 of SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities. FSP 157-2 defers the effective date of SFAS 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of FSP 157-2. SJW Corp. has evaluated the impact of FSP 157-2 and has determined that it will not have a material impact on SJW Corp.'s financial position, results of operations or cash flows.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 (SFAS 159), The Fair Value Option for Financial Assets and Financial Liabilities. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, provided the entity also elects to apply the provisions of SFAS 157. SJW Corp. has adopted SFAS 159 and have elected not to measure any additional financial instruments and other items at fair value. SJW Corp. s adoption of SFAS 159 did not have a material impact on SJW Corp. s financial position, results of operations or cash flows.

Note 10. Commitment

On April 17, 2006, San Jose Water Company entered into an agreement with Adobe Systems Incorporated (Adobe) for Adobe to purchase approximately one acre of property and buildings located in San Jose, California for a total purchase price of approximately \$4,000. The transaction requires approval by the CPUC since the property and buildings are utility plant assets. Until the CPUC approves the sale of such property, it is not available for immediate sale and therefore will continue to be classified as an utility plant asset, rather than as an asset held-for-sale, in accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. On November 14, 2007, San Jose Water Company entered into a reverse exchange transaction for a property in San Jose, California, which will be the replacement property for the property that San Jose Water Company has entered into an agreement with Adobe to sell. San Jose Water Company had submitted the required documents to the CPUC to seek approval. On October 2, 2008, the CPUC authorized San Jose Water Company to sell the property to Adobe. However, the conditions of the reverse exchange had not been met and therefore the sale of this property did not qualify for the treatment as a 1031 reverse exchange. We expect that the sale will be finalized in the fourth quarter of 2008.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(in thousands, except share and per share data)

The information in this Item 2 should be read in conjunction with the financial information and the notes thereto included in Item 1 of this Form 10-Q and the consolidated financial statements and notes thereto and the related Management's Discussion and Analysis of Financial Condition and Results of Operations contained in SJW Corp.'s Annual Report on Form 10-K for the year ended December 31, 2007.

This report contains forward-looking statements within the meaning of the federal securities laws relating to future events and future results of SJW Corp. and its subsidiaries that are based on current expectations, estimates, forecasts, and projections about SJW Corp. and the industries in which SJW Corp. operates and the beliefs and assumptions of the management of SJW Corp. Such forward-looking statements are identified by words including expect, estimate, anticipate, intends, plans, may, should, will, and similar expressions. These forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Important factors that could cause or contribute to such differences include, but are not limited to, those discussed in this report and our most recent Form 10-K filed with the Securities and Exchange Commission (the SEC) under the item entitled Risk Factors, and in other reports SJW Corp. files with the SEC, specifically the most recent reports on Form 10-Q and Form 8-K, each as it may be amended from time to time. SJW Corp. undertakes no obligation to update the information contained in this report, including the forward-looking statements to reflect any event or circumstance that may arise after the date of this report.

General:

SJW Corp. is a holding company with three subsidiaries.

San Jose Water Company, a wholly owned subsidiary of SJW Corp., is a public utility in the business of providing water service to approximately 225,000 connections that serve a population of approximately one million people in an area comprising approximately 138 square miles in the metropolitan San Jose, California area.

The principal business of San Jose Water Company consists of the production, purchase, storage, purification, distribution, and retail sale of water. San Jose Water Company provides water service to customers in portions of the cities of Cupertino and San Jose and the cities of Campbell, Monte Sereno, Saratoga, and the Town of Los Gatos, and adjacent unincorporated territory, all in the County of Santa Clara in the State of California. San Jose Water Company distributes water to customers in accordance with accepted water utility methods which include pumping from storage and gravity feed from high elevation reservoirs. San Jose Water Company also provides nonregulated water related services under agreements with municipalities. These nonregulated services include full water system operations and billing and cash remittance services.

San Jose Water Company has utility property including land held in fee, impounding reservoirs, diversion facilities, wells, distribution storage and all water facilities and other property necessary to provide utility service to its customers. Under Section 851 of the California Public Utilities Code, properties currently used and useful in providing utilities services can not be disposed of unless California Public Utilities Commission (CPUC) approval is obtained.

Edgar Filing: SJW CORP - Form 10-Q

San Jose Water Company also has approximately 1,500 acres of nonutility property which has been identified as no longer used and useful in providing utility services. Approximately 16 acres of the nonutility property are located in the vicinity of the San Jose Metropolitan area. The remaining properties are located in the hillside area adjacent to San Jose Water Company's watershed properties.

SJW Land Company, a wholly owned subsidiary of SJW Corp., owns the following properties:

Description	Location	Acreage	Square Footage	Percentage of SJW Land Company Revenue
2 Commercial buildings	San Jose, California	2	28,000	13%
Warehouse building	Windsor, Connecticut	17	170,000	11%
Warehouse building	Orlando, Florida	8	147,000	6%
Retail building	El Paso, Texas	2	14,000	5%
Warehouse building	Phoenix, Arizona	11	176,000	12%
Warehouse building	Knoxville, Tennessee	29	346,000	22%
Commercial building	Knoxville, Tennessee	15	148,000	31%
Undeveloped land	Knoxville, Tennessee	10	N/A	N/A
Undeveloped land	San Jose, California	5	N/A	N/A

The California properties include a 70% limited partnership interest in 444 West Santa Clara Street, L.P. The limited partnership has been determined to be a Variable Interest Entity within the scope of FASB Interpretation No. 46R (FIN46R), Consolidation of Variable Interest Entities, with SJW Land Company as the primary beneficiary, and as a result, it has been consolidated with SJW Land Company.

Canyon Lake Water Service Company (CLWSC) provides service to approximately 8,700 connections that serve approximately 36,000 residents in a service area comprising more than 78 square miles in the growing region between San Antonio and Austin, Texas.

SJW Corp. also owns 1,099,952 shares of California Water Service Group, which represents approximately 5% of that company's outstanding shares as of September 30, 2008.

Business Strategy:

SJW Corp. focuses its business initiatives in four strategic areas:

- (1) Regional regulated water utility operations.
- (2) Regional nonregulated water utility related services provided in accordance with the guidelines established by the CPUC.

- (3) Real estate investment activities in SJW Land Company.
- (4) Out-of-region water and utility related services, primarily in the Western United States.

Regional Regulated Activities

SJW Corp.'s regulated utility operation is conducted through San Jose Water Company, a wholly owned water utility subsidiary that provides water service to the greater metropolitan San Jose area, and CLWSC, a 97.5% owned regulated water utility subsidiary in the state of Texas. SJW Corp. plans and applies a diligent and disciplined approach to maintaining and improving its water system infrastructure. It also seeks to acquire regulated water systems adjacent to or near its existing service territory.

Regional Nonregulated Activities

Operating in accordance with guidelines established by the CPUC, San Jose Water Company provides nonregulated water services under agreements with municipalities and other utilities. Nonregulated services include water system operations, billing and cash remittance processing, maintenance services, and telecommunication antenna leasing.

San Jose Water Company also seeks appropriate nonregulated business opportunities that complement its existing operations or that allow it to extend its core competencies beyond existing operations. San Jose Water Company seeks opportunities to fully utilize its capabilities and existing capacity by providing services to other regional water systems, benefiting its existing regional customers through increased efficiencies.

Real Estate Investment

SJW Land Company's real estate investments diversify SJW Corp.'s asset base and balances SJW Corp.'s concentration in regulated assets. SJW Land Company implements its real estate investment strategy by exchanging selected real estate assets for investments with a capital structure and risk and return profile that is consistent with SJW Corp.'s consolidated capital structure and risk and return profile.

Out-of-Region Opportunities

SJW Corp. also from time to time pursues opportunities to participate in out-of-region water and utility related services, particularly regulated water businesses, in the Western United States. SJW Corp. evaluates out-of-region and out-of-state opportunities that meet SJW Corp.'s risk and return profile.

The factors SJW Corp. considers in evaluating such opportunities include:

- regulatory environment;

- synergy potential;
- general economic conditions;
- potential profitability;
- additional growth opportunities within the region;
- water quality and environmental issues; and
- capital requirements.

SJW Corp. can not be certain it will be successful in consummating any transactions relating to such opportunities. In addition, any transaction will involve numerous risks. Some of the risks include the possibility of paying more than the value derived from the acquisition, the assumption of certain known and unknown liabilities related to the acquired assets, the risk of diverting management's attention from normal daily operations of the business, the potential for a negative impact to SJW Corp.'s financial condition and operating results, the risks of entering markets in which SJW Corp. has no or limited direct prior experience, and the potential loss of key employees of any acquired company. SJW Corp. cannot be certain that any transaction will be successful and will not materially harm its operating results or financial condition.

Critical Accounting Policies:

SJW Corp. has identified the accounting policies delineated below as the policies critical to its business operations and the understanding of the results of operations. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. SJW Corp. bases its estimates on historical experience and other assumptions that are believed to be reasonable under the circumstances. The impact and any associated risks related to these policies on SJW Corp.'s business operations are discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect SJW Corp.'s reported and expected financial results. SJW Corp.'s critical accounting policies are as follows:

Revenue Recognition

SJW Corp. recognizes its regulated and nonregulated revenue when services have been rendered, in accordance with SEC Staff Accounting Bulletin 104, Revenue Recognition.

Metered revenue of San Jose Water Company and CLWSC (together referred to as the Water Utility Services) include billing to customers based on meter readings plus an estimate of water used between the customers' last meter reading and the end of the accounting period. The Water Utility Services read the majority of its customers' meters on a bi-monthly basis and records its revenue based on its meter reading results. Unbilled revenue from the last meter reading date to the end of the accounting period is estimated based on the most recent usage patterns, production records and the effective tariff rates. Actual results could differ from those estimates, which would result in adjusting the operating revenue in the period which the revision to the Water Utility Services estimates are determined. As of September 30, 2008 and December 31, 2007, accrued unbilled revenue was \$20,251 and \$12,654, respectively. Unaccounted-for water on a 12 month-to-date basis for September 30, 2008 and 2007 approximated 6.6% and 7.2%, respectively, as a percentage of production. The estimate is based on the results of past experience, the trend and efforts in reducing the Water Utility Services' unaccounted-for water through customer conservation, main replacements and lost water reduction programs.

SJW Corp. recognizes its nonregulated revenue based on the nature of the nonregulated business activities. Revenue from San Jose Water Company's nonregulated utility operations and billing or maintenance agreements are recognized when services have been rendered. Revenue from SJW Land Company is recognized ratably over the term of the leases.

Recognition of Regulatory Assets and Liabilities

Generally-accepted accounting principles for water utilities include the recognition of regulatory assets and liabilities as permitted by Statement of Financial Accounting Standards No. 71 (SFAS No. 71), Accounting for the Effects of Certain Types of Regulation. In accordance with SFAS No. 71, the Water Utility Services, to the extent applicable, record deferred costs and credits on the balance sheet as regulatory assets and liabilities when it is probable that these costs and credits will be recognized in the ratemaking process in a period different from when the costs and credits are incurred. Accounting for such costs and credits is based on management's judgment and prior historical ratemaking practices, and it occurs when management determines that it is probable that these costs and credits will be recognized in the future revenue of the Water Utility Services through the ratemaking process. The regulatory assets and liabilities recorded by the Water Utility Services, in particular, San Jose Water Company, primarily relate to the recognition of deferred income taxes for ratemaking versus tax accounting purposes and the postretirement pension benefits, medical costs, accrued benefits for vacation and asset retirement obligation that have not been passed through rates. The disallowance of any asset in future ratemaking, including deferred regulatory assets, would require San Jose Water Company to immediately recognize the impact of the costs for financial reporting purposes. No disallowance has been recognized as of September 30, 2008 and December 31, 2007. The net regulatory assets recorded by San Jose Water Company as of September 30, 2008 and December 31, 2007 were \$43,776 and \$44,712, respectively.

Pension Accounting

San Jose Water Company offers a defined benefit plan, an Executive Supplemental Retirement Plan and certain postretirement benefits other than pensions to employees retiring with a minimum level of service. Accounting for pensions and other postretirement benefits requires an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the employees, mortality, turnover, and medical costs.

The pension plan is administered by a Committee that is composed of an equal number of Company and Union representatives. Investment decisions have been delegated by the Committee to an Investment Manager, presently Wachovia Securities, LLC. Investment guidelines provided to the Investment Manager require that at least 25% of the plan assets be invested in bonds or cash. As of December 31, 2007, the plan assets consist of approximately 39% bonds, 2% cash and 59% equities. Furthermore, equities are to be diversified by industry groups and selected to achieve preservation of capital coupled with long-term growth through capital appreciation and income. The Investment Manager may only invest in bonds, commercial paper, money market funds with acceptable ratings from Moody's or Standard & Poor's and may not invest in commodities and futures contracts, private placements, options, letter stock, speculative securities, or hold more than 5% of assets in any one private corporation. The Investment Manager is reviewed regularly regarding performance by the Investment Consultant who provides quarterly reports to the Committee for review.

The market values of the plan assets are marked to market at the measurement date, which is December 31, each year. The investment trust assets incur unrealized market gains or losses from time to time. Both unrealized market gains and losses on pension assets are amortized over 13 years for actuarial expense calculation purposes.

San Jose Water Company utilizes each plan's projected benefit stream in conjunction with the Citigroup Pension Discount Curve, which is more designed to reflect AA market discount rates, in determining the discount rate used in calculating the pension and other postretirement benefit liabilities at the measurement date. For the year ending December 31, 2007, the composite discount rate used was 6.50%.

The accounting for pensions and other postretirement benefits requires the extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the employees, mortality, turnover, and medical costs to determine the present value of the benefit obligation and the fair value of plan assets at the end of the year. With the current market conditions, the funded status of the pension plans and the contributions could change due to fluctuations on the expected return on plan assets as well as the present value of the benefit obligation. Further, required plan contributions by SJW Corp. may increase and payout restrictions on benefit payments from the pension plan could result from declining asset values and a decreased expectation of return on assets. SJW Corp. will review the assumptions on the measurement date of December 31, 2008 to determine any change in the present value of the benefit obligation and the fair value of plan assets.

Income Taxes

SJW Corp. estimates its federal and state income taxes as part of the process of preparing the financial statements. The process involves estimating the actual current tax exposure together with assessing temporary differences resulting from different treatment of items for tax and accounting purposes, including the evaluation of the treatment acceptable in the water utility industry and regulatory environment. These differences result in deferred tax assets and liabilities, which are included within the balance sheet. If actual results, due to changes in the regulatory treatment, or significant changes in tax-related estimates or assumptions or changes in law, differ materially from these estimates, the provision for income taxes will be materially impacted.

Balancing Account

Pursuant to Section 792.5 of the California Public Utilities Code, a balancing account must be maintained for each expense item for which revenue offsets have been authorized. The purpose of a balancing account is to track the under-collection or over-collection associated with expense changes and the revenue authorized by the CPUC to offset those expense changes.

A separate balancing account must be maintained for each offset expense item (e.g., purchased water, purchased power and groundwater extraction charges). The balancing account balance varies with the seasonality of the water utility business such that, during the summer months when the demand for water is at its peak, the account tends to reflect an under-collection while, during the winter months when demand for water is relatively lower, the account tends to reflect an over-collection. Since the balances have to be approved by the CPUC before they can be incorporated into rates, San Jose Water Company does not recognize the balancing account in its revenue until the CPUC authorizes the change in customers' rates. However, had the balancing account been recognized in San Jose Water Company's financial statements, San Jose Water Company's retained earnings would be decreased by the amount of the account over-collection or increased by the amount of the account under-collection, less applicable taxes.

Recognition of Gain/Loss on Utility Property, Nonutility Property and Real Estate Investments

In conformance with the generally-accepted accounting principles for rate-regulated public utilities, the cost of retired utility plant, including retirement costs (less salvage), is charged to accumulated depreciation and no gain or loss is recognized for utility plant used and useful in providing water utility services to customers.

Utility property in the Water Utility Services is property that is used and useful in providing water utility services to customers and is included in rate base for rate-setting purposes. In California, real estate type utility property is subject to CPUC Code Section 851, which states that any gain recognized will be divided with two-thirds going to the customers and one-third to the shareholders. Net gains or losses from the sale of utility property are recorded as a component of other (expense) income in the consolidated statement of income and comprehensive income.

Nonutility property in the Water Utility Services is property that is neither used nor useful in providing water utility services to customers and is excluded from the rate base for rate-setting purposes. San Jose Water Company recognized gain/loss on disposition of nonutility property in accordance with CPUC Code Section 790.

SJW Land Company owns real estate investment property which consists primarily of land and buildings. Net gains and losses from the sale of real estate investments are recorded as a component of other (expense) income in the consolidated statement of income and comprehensive income.

Recent Accounting Pronouncements:

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS 160), Noncontrolling Interests in Consolidated Financial Statements. SFAS 160 requires noncontrolling interests, previously referred to as minority interests, to be reported as a component of equity, net income and comprehensive income to be displayed for both the controlling and noncontrolling interests, along with other required disclosures and reconciliations. SFAS 160 is effective for financial statements issued for fiscal years beginning after December 15, 2008. SJW Corp. is in the process of evaluating the impact of this accounting standard.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141R (SFAS 141R), Business Combinations. SFAS 141R clarifies the information that a reporting entity provides in its financial reports about a business combination and it replaces SFAS 141. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. SJW Corp. is in the process of evaluating the impact of this accounting standard.

Liquidity and Capital Resources:

Water Utility Services budgeted capital expenditures for 2008, exclusive of capital expenditures financed by customer contributions and advances, are \$49,449, of which approximately \$21,000 will be spent to replace Water Utility Services mains in 2008. Year-to-date capital expenditures as of September 30, 2008 are approximately \$51,000, of which approximately \$48,000 is company-financed and \$3,000 is financed by customer contributions and advances.

Capital expenditures for Water Utility Services are incurred in connection with normal upgrading and expansion of existing facilities and to comply with environmental regulations. Over the next five years, the Water Utility Services expects to incur approximately \$263,311 in capital expenditures, which includes replacement of pipes and mains, and maintenance of water systems. The actual capital expenditures for Water Utility Services may vary from its projections due to changes in the expected demand for services, weather patterns, actions by governmental agencies and general economic conditions. Total additions to utility plant normally exceed company-financed additions as a result of new facilities construction funded with advances from developers and contributions in aid of construction.

A substantial portion of San Jose Water Company's distribution system was constructed during the period from 1945 to 1980. Expenditure levels for renewal and modernization of this part of the system will grow at an increasing rate as these components reach the end of their useful lives. In most cases, replacement cost will significantly exceed the original installation cost of the retired assets due to increases in the costs of goods and services.

Historically, the Water Utility Services' write-offs for uncollectible accounts represent less than 1% of its total revenue. Management believes it can continue to collect its accounts receivable balances at its historical collection rate.

Cash Flow from Operations

Cash flow from operations was \$35,561 for the nine months ended September 30, 2008. Cash flow from operations is primarily generated from net income adjusted for non-cash expenses for depreciation and amortization, deferred income taxes and changes in our assets and liabilities. For the nine months ended September 30, 2007, cash flow from operations was \$33,455.

Cash Flow from Investing Activities

For the nine months ended September 30, 2008, additions to utility plant was approximately \$47,612 which is comparable to the prior year of \$46,954. For the nine months ended September 30, 2007, additions to nonutility property was \$48,245 and sales proceeds from trust account offset these additions by \$31,261.

Cash Flow from Financing Activities

For the nine months ended September 30, 2008, net cash provided by financing activities decreased by approximately \$16,737 from the prior year due to a reduction in long-term borrowing, a reduction in receipts of advances and contributions in aid of construction which is partially offset by an increase in the net draw down on the line of credit. It is likely that our cash provided by financing activities will increase due to our increasing capital budget projections.

Sources of Capital:

San Jose Water Company's ability to finance future construction programs and sustain dividend payments depends on its ability to attract external financing and maintain or increase internally generated funds. The level of future earnings and the related cash flow from operations is dependent, in large part, upon the timing and outcome of regulatory proceedings.

Edgar Filing: SJW CORP - Form 10-Q

San Jose Water Company's financing activity is designed to achieve a capital structure consistent with regulatory guidelines of approximately 50% debt and 50% equity (book value). As of September 30, 2008, San Jose Water Company's funded debt and equity was approximately 48% and 52%, respectively.

Edgar Filing: SJW CORP - Form 10-Q

Historically, San Jose Water Company's internally-generated funds, which include allowances for depreciation and deferred income taxes, have provided approximately 50% of the future cash requirements for San Jose Water Company's capital expenditures. Funding for its future capital expenditure program is expected to be provided primarily through internally-generated funds and long-term debt and will be consistent with the regulator's guidelines.

San Jose Water Company has outstanding \$170,000 of unsecured senior notes as of September 30, 2008. The senior note agreements of San Jose Water Company generally have terms and conditions that restrict San Jose Water Company from issuing additional funded debt if (1) the funded debt would exceed 66-2/3% of total capitalization, and (2) net income available for interest charges for the trailing 12-calendar-month period would be less than 175% of interest charges. As of September 30, 2008, San Jose Water Company's net income available for interest charges was 385% of interest charges.

San Jose Water Company received two loans from the Safe Drinking Water State Revolving Fund (SDWSRF) amounting to \$2,007 and \$1,069, which require semi-annual payments over 20 years of principal and interest at an annual rate of 2.39% and 2.60%, respectively. San Jose Water Company has issued standby letters of credit with a commercial bank in the amount of \$2,000 and \$1,000, respectively, in support of these loans.

SJW Land Company's outstanding balance on mortgages totaled \$25,726 as of September 30, 2008, as a result of acquiring properties in various states. The mortgages have various payments, interest, amortization terms and all are secured by the respective properties.

SJW Land Company also has an outstanding mortgage in the amount of \$3,930 as of September 30, 2008, borrowed by its subsidiary, 444 West Santa Clara Street, L.P. The mortgage is due April 2011 and is secured by the partnership's real property and is non-recourse to SJW Land Company.

SJWTX, Inc., has outstanding \$15,000 of unsecured senior notes as of September 30, 2008. The senior note agreement has terms and conditions that restrict SJWTX, Inc. from issuing additional funded debt if (1) its funded debt would exceed 66-2/3% of total capitalization, and (2) net income available for interest charges for the trailing 12-calendar month period would be less than 175% of interest charges. In addition, SJW Corp. is a guarantor of the senior note which has terms and conditions that restrict SJW Corp. from issuing additional funded debt if (1) the funded consolidated debt would exceed 66-2/3% of total capitalization, and (2) the minimum net worth of SJW Corp. becomes less than \$125,000 plus 30% of the Water Utility Services cumulative net income, since December 31, 2005. As of September 30, 2008, SJW Corp. does not face any restrictions in issuing future indebtedness as a result of these terms and conditions.

SJW Corp. and its subsidiaries have unsecured lines of credit available allowing aggregate short-term borrowings of up to \$35,000 at rates that approximate the bank's prime or reference rate. At September 30, 2008, SJW Corp. and its subsidiaries had available unused short-term bank lines of credit of \$16,100. Cost of borrowing on the unsecured lines of credit averaged 3.91% for the first nine months of 2008. The lines of credit will expire on June 1, 2010.

SJW Corp.'s ability to secure capital financing at a reasonable cost is dependent on a number of factors, including the condition of the capital markets. With the current turbulence in the capital markets, there can be no assurance that new capital will be available at the time SJW Corp. goes to market for new financing. Further, if such capital is available, there can be no assurance that its cost will be in the range of historical borrowing rates.

Results of Operations:Overview

SJW Corp. s consolidated net income for the three months ended September 30, 2008 was \$8,257, an increase of \$246, or approximately 3%, from \$8,011 in the third quarter of 2007. For the nine months ended September 30, 2008, consolidated net income was \$17,253, an increase of \$1,714, or approximately 11%, from \$15,539 for the same period in 2007.

Operating Revenue

	Operating Revenue by Segment				
	Three Months Ended September 30		Nine Months Ended September 30		
	2008	2007	2008	2007	
Water Utility Services	\$ 67,812	63,174	\$ 165,749	154,074	
Real Estate Services	1,695	1,673	5,069	4,814	
All Other				111	
	\$ 69,507	64,847	\$ 170,818	158,999	

The change in operating revenue from the same period in 2007 was due to the following factors:

	Three Months Ended September 30, 2008 vs. 2007 Increase/(decrease)		Nine Months Ended September 30, 2008 vs. 2007 Increase/(decrease)	
Utility:				
Consumption changes	\$ 185		\$ 831	
New customers increase (decrease)	(18)		432	
Rate increases	4,471	7%	10,412	7%
Real Estate Services	22		255	
All Other			(111)	
	\$ 4,660	7%	\$ 11,819	7%

All Other	105	308	517	997	
	\$ 58,042	54,116	\$ 144,051	135,799	

Edgar Filing: SJW CORP - Form 10-Q

The change in operating expenses from the same period in 2007 was due to the following factors:

	Three Months Ended September 30, 2008 vs. 2007 Increase/(decrease)		Nine Months Ended September 30, 2008 vs. 2007 Increase/(decrease)	
Water production costs:				
Change in surface water supply	\$	(357)	\$	(1,868) (1)%
Change in usage and new customers		(535)	(1)%	(347)
Purchased water and groundwater extraction charge and energy price increases		2,159	3%	4,653 3%
Total water production costs		1,267	2%	2,438 2%
Nonwater production costs:				
Administrative and general		747	1%	1,179 1%
Other operating expense		619	1%	1,122 1%
Maintenance		477	1%	1,006
Property taxes and other nonincome taxes		180		255
Depreciation and amortization		298	1%	1,060 1%
Total nonwater production costs		2,321	4%	4,622 3%
Income taxes		338	1%	1,192 1%
Total operating expenses	\$	3,926	7%	\$ 8,252 6%

San Jose Water Company's water supply consists of groundwater from wells, surface water from watershed run off and diversion, and imported water purchased from Santa Clara Valley Water District (SCVWD). Surface water is the least expensive source of water and its availability significantly impacts the water production costs of San Jose Water Company. CLWSC's primary supply is water pumped from Canyon Lake at two lake intakes. This supply is supplemented by groundwater pumped from wells.

Water production costs increased \$1,267 and \$2,438 for the third quarter and year-to-date of 2008, respectively. The increase in water production costs was primarily attributable to \$2,159 and \$4,653 for the quarter and year-to-date, respectively, in higher per-unit costs for purchased water, groundwater extraction and energy price increases. These increases were partially offset by \$535 due to lower customer usage and \$357, which was attributable to purchasing less water due to the increased surface water supply compared to a year ago.

Water Utility Services' water production for the three and nine months ended September 30, 2008 decreased 206 and increased 3 million gallons, respectively, from the same periods in 2007. During these periods, more surface and groundwater were used when compared to the same period in 2007.

Edgar Filing: SJW CORP - Form 10-Q

The change in the Water Utility Services source of supply mix was as follows:

	Three Months Ended September 30, 2008 vs. 2007 Increase/(decrease)		Nine Months Ended September 30, 2008 vs. 2007 Increase/(decrease)	
	(in million gallons)			
Purchased water	(919)	(5)%	(2,795)	(7)%
Surface water	294	2%	1,207	3%
Groundwater	430	3%	1,615	4%
Reclaimed water	(11)		(24)	
	(206)		3	

The changes in the source of supply mix were consistent with the changes in the water production costs.

Quarterly nonwater production costs increased \$2,321 in the third quarter of 2008 from 2007 due to \$747 in administrative and general expenses, \$619 in other operating expenses, \$477 in maintenance expenses, \$298 in depreciation and amortization expense from increased real estate property and utility plant and \$180 in property and other nonincome taxes. Income tax expense increased \$338 due to higher taxable income in the third quarter of 2008 versus the third quarter of 2007.

Year-to-date nonwater production costs increased \$4,622, or 3%, compared to 2007. The increase is primarily attributable to \$1,179 in administrative and general expenses due to increases in salaries and wages, professional fees and reserves, \$1,122 in other operating expenses from increased permitting fees and one-time expenses for consulting and professional service fees, \$1,006 in maintenance expenses due to increased fuel and paving costs, and \$1,060 in depreciation expense from increased utility plant. Income tax expense increased \$1,192 year-to-date for 2008 due to increased taxable income. The effective income tax rates for the periods ended September 30, 2008 and 2007 approximated 40% and 41%, respectively.

The change in comprehensive income for the three and nine months ended September 30, 2008 and 2007 was due to the changes in market value of the investment in California Water Service Group.

Water Supply and Energy Resources

San Jose Water Company's water supply is obtained from groundwater wells, local surface water from watershed run off and diversion, and the purchase of imported treated water from the SCVWD under the terms of a master contract with SCVWD expiring in 2051. Groundwater level in 2008 remains comparable with 30-year normal levels.

On October 6, 2008, SCVWD's 10 reservoirs were approximately 51% full with 85,975 acre-feet of water in storage. The rainfall in the season commencing July 1, 2008 was approximately 60% of historical season average to date.

Edgar Filing: SJW CORP - Form 10-Q

Rainfall at San Jose Water Company's Lake Elsman was measured at 0.74 inches for the season commencing July 1, 2008 through June 30, 2009, which is typical for this normal dry time of year. Local surface water is a less costly source of water than groundwater or purchased water and its availability significantly impacts San Jose Water Company's results of operations.

To the extent that San Jose Water Company has to pump water from wells during peak periods to satisfy customer demand when imported water is insufficient, higher energy costs will be incurred. Currently, the CPUC has no established procedure for water utilities to recover the additional costs incurred due to such unanticipated changes in water supply mix. There can be no assurance that such costs will be recovered in full or in part.

In December, 2007, U.S. Eastern District Court issued a Final Interim Remedial order to reduce the amount of water pumped from the San Joaquin-Sacramento River Delta during the breeding season of the Delta Smelt, which commences in December and ends in June of each year. SCVWD has advised San Jose Water Company that the order does not contain any new provisions that would alter SCVWD's opinion on near-term water supply impacts previously estimated in SCVWD's water supply operations and contingency planning for 2008. While San Jose Water Company does not believe this order will have a near term impact on its water supply, its impact on future periods is uncertain and is contingent on dry to wet hydrologic conditions.

The continuing dry weather in California and concerns about the San Joaquin-Sacramento River Delta prompted Governor Schwarzenegger on June 3, 2008 to issue an Executive Order (S-06-08) declaring a state-wide water emergency. The order directed state agencies to take immediate action to address drought conditions and water delivery reductions that may exist by expediting grant programs, technical assistance, and water conservation outreach. The order did not mandate water use restrictions or reductions.

San Jose Water Company is working with SCVWD to assess the potential impact of the order on water supply in our service area. As a contingent measure for the possibility of a third consecutive dry year in 2009, SCVWD is continuing to ask the public to voluntarily reduce water usage by 10%. In 2008, San Jose Water Company expects to receive full contract deliveries from the SCVWD and therefore believes that its various sources of water supply are sufficient to meet customer demand for the immediate foreseeable future.

CLWSC has long-term contracts with the Guadalupe-Blanco River Authority (GBRA). The terms of the agreements expire in 2044 and 2050. The agreements provide CLWSC with 6,000 acre-feet of water annually from Canyon Lake at prices to be adjusted periodically by the GBRA.

Regulatory Affairs

Almost all of the operating revenue of San Jose Water Company results from the sale of water at rates authorized by the CPUC. The CPUC sets rates that are intended to provide revenue sufficient to recover operating expenses and produce a specified return on common equity. The timing of rate decisions could have an impact on the results of operations.

On November 11, 2006, the CPUC issued its final decision in San Jose Water Company's current general rate case proceeding. The decision authorized San Jose Water Company rate increases of approximately \$3,500 or 2.0% for 2007, \$5,400 or 3.0% for 2008, and \$4,000 or 2.2% for 2009. The rate increases for 2008 and 2009 are subject to adjustments based upon the inflation escalation factors realized at the time of the increase. The decision also authorizes additional rate recoveries to be phased in as capital projects are completed over the three-year period and the recovery of approximately \$450 from San Jose Water Company's balancing and memorandum accounts. These rate increases are designed to produce a return on common equity of 10.13%, which is comparable with recent authorized returns for water utilities in California.

Edgar Filing: SJW CORP - Form 10-Q

Effective July 1, 2008, the CPUC approved an advice letter allowing a revenue increase of \$6,100 to offset the increased cost of purchased water and higher groundwater extraction charges charged to San Jose Water Company by SCVWD. Subsequently, effective August 1, 2008, the CPUC allowed a revenue increase of approximately one percent for the Mountain District to offset the same increase in cost of purchased water and higher groundwater extraction charges charged to San Jose Water Company by the SCVWD.

Effective August 7, 2008, the CPUC approved an advice letter allowing the implementation of a surcharge in the Mountain District to repay a low interest loan of \$1,069 obtained by San Jose Water Company from the SDWSRF.

On August 21, 2008, the CPUC issued a final decision which approved a settlement agreement between San Jose Water Company and the CPUC's Division of Ratepayer Advocates regarding a conservation rate design, the implementation of a water revenue adjustment mechanism, and the addition of \$150 annually for conservation efforts. The decision requires San Jose Water Company to implement two-tiered increasing block rates on or about November 19, 2008. The implementation of the tiered rates will not affect the authorized revenue requirement.

Effective September 9, 2008, the CPUC approved an advice letter allowing a revenue increase of \$727 for plant improvements placed in service by San Jose Water Company.

Effective October 2, 2008, the CPUC approved an advice letter allowing a revenue increase of \$470 for plant improvements placed in service by San Jose Water Company.

The sale of San Jose Water Company's office facility located at 374 West Santa Clara Street was approved by the CPUC on October 2, 2008. The decision also approves an increase of approximately \$1,134 in the revenue requirement for 2008 resulting from the replacement of the Main Office. The decision determines that the ratepayers' share of the net proceeds from the transaction is approximately \$1,513 and that the proceeds should be distributed to San Jose Water Company's customers through a surcredit on customer bills.

Balancing Account Recovery Procedures

As of September 30, 2008 and December 31, 2007, the total accrued balance in San Jose Water Company's balancing account was an over-collection of \$1,964 and \$1,656, respectively, including interest. All the memorandum type balancing accounts will be reviewed by the CPUC in San Jose Water Company's next general rate case.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

SJW Corp. is subject to market risks in the normal course of business, including changes in interest rates and equity prices. The exposure to changes in interest rates is a result of financings through the issuance of fixed-rate, long-term debt and short-term funds obtained through the variable rate line of credit. SJW Corp. also owns 1,099,952 shares of California Water Service Group and is exposed to the risk of changes in equity prices.

SJW Corp. has no material derivative financial instruments, financial instruments with significant off-balance sheet risks, or financial instruments with concentrations of credit risk. There is no material sensitivity to change in market rates and prices.

ITEM 4. CONTROLS AND PROCEDURES

SJW Corp.'s management, with the participation of SJW Corp.'s Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the SJW Corp.'s disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that SJW Corp.'s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or "the Act") as of the end of the period covered by this report have been designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by SJW Corp. in the reports that it files or submits under the Act is recorded, processed, summarized, and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. SJW Corp. believes that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

There has been no change in internal control over financial reporting during the third fiscal quarter of 2008 that has materially affected, or is reasonably likely to materially affect, the internal controls over financial reporting of SJW Corp.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

SJW Corp. is subject to ordinary routine litigation incidental to its business. There are no pending legal proceedings to which SJW Corp. or any of its subsidiaries is a party, or to which any of its properties is the subject, that are expected to have a material effect on SJW Corp.'s business, financial position, results of operations or cash flows.

ITEM 5. OTHER INFORMATION

On October 22, 2008, the Board of Directors of SJW Corp. declared the regular quarterly dividend of \$0.16125 per common share. The dividend will be paid on December 1, 2008 to shareholders of record as of the close of business on November 3, 2008.

ITEM 6. EXHIBITS

See Exhibit Index located immediately following the Certification of this document, which is incorporated herein by reference as required to be filed by Item 601 of Regulation S-K for the quarter ended on September 30, 2008.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

SJW CORP.
