MICROFLUIDICS INTERNATIONAL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Description of Business

Company Overview

Edgar Filing: MICROFLUIDICS INTERNATIONAL CORP - Form 10-Q

References herein to we, us, our, or the Company are to Microfluidics International Corporation.

We, through our wholly-owned subsidiary, Microfluidics Corporation (Microfluidics), operate in one segment, producing and marketing a broad line of proprietary high-shear fluid processing systems used primarily in the pharmaceutical, biotechnology, digital ink, microelectronics, food, chemical and personal care industries.

The condensed consolidated financial statements include the accounts of our Company and our wholly-owned subsidiary, Microfluidics. All intercompany balances and transactions have been eliminated.

Our corporate headquarters and manufacturing operations are located in Newton, Massachusetts.

Certain accounts in the condensed consolidated financial statements and related notes have been reclassified to conform to current period presentation.

2. Interim Financial Statements

The condensed consolidated financial information for the three and nine months ended September 30, 2008 are unaudited but includes all adjustments (consisting only of normal recurring adjustments) that the Company considers necessary for a fair presentation of the financial position at such date and of the operating results and cash flows for the period. The results of operations for the three and nine months ended September 30, 2008 and 2007 are not necessarily indicative of results that may be expected for the entire year. The information contained in this Form 10-Q should be read in conjunction with the Company's audited financial statements, included in its Annual Report on Form 10-K as of and for the year ended December 31, 2007 filed with the Securities and Exchange Commission (SEC).

The balance sheet as of December 31, 2007 has been derived from our audited consolidated financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

3. Significant Accounting Policies

The significant accounting policies followed by the Company and its subsidiary in preparing its unaudited condensed consolidated financial statements are set forth in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

4. Revenue Recognition

Edgar Filing: MICROFLUIDICS INTERNATIONAL CORP - Form 10-Q

We recognize revenue in accordance with Staff Accounting Bulletin (SAB) No. 104, *Revenue Recognition in Financial Statements* . Revenue is recognized when all of the following criteria are met: i) persuasive evidence of an arrangement exists, ii) delivery has occurred, iii) the price to the customer is fixed and determinable, and iv) collectibility is reasonably assured. In revenue transactions where support services are requested, revenue is recognized on shipment since the support service obligation is not essential to the functionality of the delivered products. Revenue transactions involving non-essential support services obligations are those which can generally be completed in a short period of time at insignificant cost and the skills required to complete these support services are not unique to us and in many cases can be provided by third parties or the customers. The customer's purchase obligations are not contingent upon performance of support services, if any, by us. Proceeds received in advance of product shipment are recorded as customer advances in the consolidated balance sheets. Returns and customer credits are infrequent and recorded as a reduction to sales. Rights of returns are not included in sales arrangements. Discounts from list prices are recorded as a reduction to sales. On occasion, we provide machines for rent by customers. Income for the rental of equipment is recognized on a straight-line basis over the rental term. Rental income and product sales are classified in revenues in the consolidated statements of operations.

MICROFLUIDICS INTERNATIONAL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

5. Recent Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 162, *The Hierarchy of Generally Accepted Accounting Principles* . This new standard identifies the sources of accounting principles and framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy).

The Financial Accounting Standards Board (FASB) believes the GAAP hierarchy should be directed to entities because it is the entity (not its auditor) that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. Accordingly, the FASB concluded that the GAAP hierarchy should reside in the accounting literature established by the FASB and is issuing this statement to achieve that result. The new standard is effective 60 days following the Securities and Exchange Commission s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles* , and it is not expected that this Statement will result in a change in our current practice.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*. This new standard provides guidance for using fair value to measure assets and liabilities. The FASB believes SFAS No. 157 also responds to investors requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS No. 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value but does not expand the use of fair value in any new circumstances. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS No. 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS No. 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company s choice to use fair value on its earnings. SFAS No. 159 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. SFAS No. 159 does not eliminate disclosure requirements of other accounting standards, including fair value measurement disclosures in SFAS No. 157. This Statement is effective as of the beginning of an entity s first fiscal year beginning after November 15, 2007.

On January 1, 2008, we adopted both SFAS No. 157 and SFAS No. 159, neither of which had any material impact on our results of operations or financial position.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* . This new standard clarifies that a non-controlling or minority interest in a subsidiary is considered an ownership interest and accordingly, requires all entities to

Edgar Filing: MICROFLUIDICS INTERNATIONAL CORP - Form 10-Q

report such interests in subsidiaries as equity in the consolidated financial statements. SFAS No. 160 is effective for fiscal years beginning after December 15, 2008. We expect to adopt SFAS No. 160 on January 1, 2009, and we do not expect it to have a material effect on operations.

Table of Contents**MICROFLUIDICS INTERNATIONAL CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****6. Stock Based Compensation**

The Company accounts for stock-based compensation in accordance with SFAS No. 123R, *Share-based Payment* which was adopted January 1, 2006, using the modified prospective transition method.

For the three month periods ended September 30, 2008 and 2007, the Company recognized stock-based employee compensation expense of \$63,000 and \$41,000, respectively. For the nine month periods ended September 30, 2008 and 2007, the Company recognized stock-based employee compensation expense of \$171,000 and \$178,000, respectively. Stock-based employee compensation expense for the three and nine month periods ended September 30, 2008 is included in General and Administrative expense of the unaudited condensed consolidated statement of operations.

The Company did not capitalize any stock-based compensation. The Company has established a valuation allowance for net deferred tax assets. Accordingly, no significant tax benefit on the stock-based compensation was recorded during the three and nine month periods ended September 30, 2008 and 2007.

The fair value of each option granted during the three and nine months ended September 30, 2008 and 2007 is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Dividend yield	None	None	None	None
Expected volatility	106.00	115.00	106.00	115.00
Risk-free interest rate	3.34%	4.25%	3.34%	4.51%
Expected life	5.0 years	5.0 years	5.0 years	5.0 years

The weighted average fair value of stock options granted during the nine months ended September 30, 2008 and September 30, 2007 were \$.74 and \$1.63 per share, respectively. For the three months ended September 30, 2008, 9,250 stock options were granted. There were no stock options granted during the three months ended September 30, 2007. We estimate forfeitures related to option grants at an annual rate of 9% for both 2008 and 2007.

Total unrecognized stock-based compensation expense related to unvested stock options, expected to be recognized over a weighted average period of 5 years, amounted to approximately \$1,401,000 at September 30, 2008.

The Company has three (3) shareholder approved stock option plans (collectively, the Stock Option Plans) as follows: (i) the 1988 Stock Plan, which authorized the grant of stock rights for up to 3,500,000 shares of common stock (the 1988 Plan); (ii) the 1989 Non-Employee Director Stock Option Plan (the 1989 Plan), which authorized the grant of nonqualified stock options for up to 500,000 shares of common stock; and (iii) the 2006 Stock Plan (the 2006 Plan) which authorizes the grant of stock rights for up to 4,000,000 shares of common stock, increased by the number of shares of common stock underlying unexercised options issued under either the 1988 Plan or the 1989 Plan (collectively referred to herein as the Prior Plans) that expired after June 20, 2006, and decreased by the number of shares of common stock issued and issuable pursuant to options outstanding under the Prior Plans. The 2006 Plan was approved by our shareholders at the Annual Meeting of Shareholders held on June 20, 2006. Upon adoption of the 2006 Plan by our shareholders, we ceased granting new options under the Prior Plans. The Prior Plans permitted, and the 2006 Plan permits, the granting of stock awards to employees, officers, and non-employee members of the Board of Directors. Options granted under the Prior Plans and the 2006 Plan permit vesting over a 3-to-5 year period and expire 5-to-10 years from the date of grant.

At September 30, 2008, 722,420 shares were available for future grants under the 2006 Plan and no shares were available for future grants under the Prior Plans.

Table of Contents**MICROFLUIDICS INTERNATIONAL CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

During the three months ended September 30, 2008, the Company issued 9,250 stock options pursuant to the 2006 Plan, at exercise prices equal to or greater than the fair market value of the Company's common stock on the date of the grant. During the nine months ended September 30, 2008 and 2007, the Company issued 417,847 and 72,232 stock options, pursuant to the 2006 Plan, respectively at exercise prices equal to or greater than the fair market value of the Company's common stock on the date of the grant.

During the three months ended September 30, 2008 and 2007 approximately 498,000 and 16,000 shares, respectively, were forfeited. During the nine months ended September 30, 2008 and 2007, approximately 550,000 and 64,000 shares, respectively, were forfeited.

Information regarding option activity for the nine months ended September 30, 2008 under the 2006 Plan is summarized below:

	Options Outstanding	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Term in Years
Options outstanding as of January 1, 2008	1,585,427	\$ 1.35	6.60
Granted	417,847	1.10	9.60
Exercised	(43,391)	0.53	4.00
Cancelled	(550,024)	1.49	6.07
Options outstanding as of September 30, 2008	1,409,859	\$ 1.25	6.67
Options exercisable as of September 30, 2008	1,192,580	\$ 1.45	5.55

7. Inventories

Inventories consist of the following:

(in thousands)	September 30, 2008	December 31, 2007
Raw materials	\$ 2,337	\$ 2,140
Work in progress	62	63
Finished goods	459	358
	2,858	2,561
Less: provision for excess inventory	(190)	(208)
Total inventories	\$ 2,668	\$ 2,353

8. Property, Plant and Equipment

Property, plant and equipment consist of the following:

(in thousands)	September 30, 2008	December 31, 2007
Furniture, fixtures and office equipment	\$ 889	\$ 686
Machinery, equipment and tooling	478	455
Leasehold improvements	656	96
	2,023	1,237
Less: accumulated depreciation and amortization	(1,056)	(912)
	\$ 967	\$ 325

Table of Contents**MICROFLUIDICS INTERNATIONAL CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

For the three months ended September 30, 2008 and 2007, depreciation expense was approximately \$86,000 and \$36,000, respectively. For the nine months ended September 30, 2008 and 2007, depreciation expense was approximately \$164,000 and \$110,000, respectively.

9. Accrued Expenses

Accrued expenses consist of the following:

(in thousands)	September 30, 2008	December 31, 2007
Accrued expenses	\$ 212	\$ 273
Accrued wages and vacation pay	428	164
Accrued commissions	126	234
Accrued warranty	70	54
	\$ 836	\$ 725

10. Industry Segment, Geographic and Enterprise-Wide Information

SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, requires companies to report selected information about operating segments, as well as enterprise-wide disclosures about products, services, geographic areas and major customers. Operating segments are determined based on the way management organizes its business for making operating decisions and assessing performance. The Company's chief decision-maker, as defined under SFAS No. 131, is the president and chief executive officer.

The Company has determined that it conducts its operations in one business segment: the development, manufacture, marketing and sale of process and formulation equipment. The Company's sales are primarily to companies with processing needs in the chemical, pharmaceutical, food, cosmetic, and biotechnology industries. The Company has less than 1% of total assets in foreign countries. As a result, the financial information disclosed herein represents all of the material financial information related to the Company's principal operating segment.

Approximate sales to customers by geographic markets, and percentage of total sales by geographic market, are as follows:

**Three Months Ended
September 30,**

**Nine Months Ended
September 30,**

Edgar Filing: MICROFLUIDICS INTERNATIONAL CORP - Form 10-Q

(in thousands)	2008		2007		2008		2007	
North America	\$ 1,971	56.1%	\$ 1,293	55.9%	\$ 4,892	42.9%	\$ 5,012	57.8%
Asia	683	19.5%	587	25.4%	1,753	15.4%	1,621	18.7%
Europe	857	24.4%	431	18.7%	4,762	41.7%	2,037	23.5%
	\$ 3,511	100.0%	\$ 2,311	100.0%	\$ 11,407	100.0%	\$ 8,670	100.0%

The users of the Company's systems are in various industries, including the chemical, pharmaceuticals, food, cosmetic and biotechnology industries.

No customers accounted for sales greater than 10% of the Company's revenues for the three months ended September 30, 2008. There was one customer who accounted for 19.7% of the Company's revenues for the nine months ended September 30, 2008.

Two customers accounted for 18.6% and 13.4%, respectively, of the trade accounts receivable as of September 30, 2008. A reduction or delay in orders from any of the Company's significant customers could have a material adverse effect on the Company's results of operations.

Table of Contents

MICROFLUIDICS INTERNATIONAL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

11. Stockholders Equity

During the three months ended September 30, 2008 the Company issued 43,391 shares of common stock as a result of the exercise of options by employees and directors, generating cash proceeds of approximately \$23,000. During the three months ended September 30, 2007, the Company issued 10,500 shares of common stock as a result of the exercise of options by employees and directors, generating cash proceeds of approximately \$5,000.

During the nine months ended September 30, 2008 and 2007, the Company issued 43,391 and 52,950 shares, respectively, of common stock as a result of the exercise of options by employees and directors, generating cash proceeds of approximately \$23,000 and \$54,000, respectively.

During each of the three months ended September 30, 2008 and 2007, the Company issued 9,160 and 12,511 shares of common stock as a result of the purchase of shares under the Company's Employee Stock Purchase Plan, (the Employee Stock Purchase Plan). During the nine months ended September 30, 2008 and 2007, the Company issued 20,409 and 27,864 shares, respectively, of common stock as a result of the purchase of shares under the Employee Stock Purchase Plan, generating cash proceeds of approximately \$20,000 and \$35,000, respectively.

12. Credit Facility

On June 30, 2008, the Company repaid the entire amount (the Payoff Amount) due under its Loan and Security Agreement (All Assets), dated March 3, 2004, with T.D. Banknorth, formerly known as Banknorth, N.A. (Banknorth), as modified pursuant to a Loan Modification Agreement dated November 20, 2006. The Payoff Amount was comprised of \$1,000,000 in principal, and approximately \$12,000 in interest and legal fees.

On June 30, 2008, the Company and its wholly owned subsidiary, Microfluidics Corporation, entered into a Loan and Security Agreement (the Domestic Loan Agreement) with a new lender, Silicon Valley Bank (SVB). On July 2, 2008, the Company and SVB entered into an Export-Import Bank Loan and Security Agreement (the Export-Import Loan Agreement) and together with the Domestic Loan Agreement, created the SVB Loan Agreement. The SVB Loan Agreement provided the Borrower with a revolving line of credit (Revolving Line of Credit).

The Revolving Line of Credit had a two-year term and allowed for a maximum outstanding balance of \$2,500,000. The principal amount outstanding under the SVB Loan Agreement accrued interest at a per annum rate equal to: (a) the greater of (i) five percent (5.00%) or (ii) the Lender's most recently announced prime rate, even if it is not the Lender's lowest rate, plus (b) one percent (1.00%). SVB's prime rate as of July 7, 2008 was 5.00%. Interest was payable on the last business day of each month. The Company was also required to maintain two financial covenants, and additional affirmative covenants.

As of September 30, 2008, the outstanding balance of the SVB Revolving Line of Credit was approximately \$2,000,000. As of September 30, 2007 the balance outstanding on Banknorth's term loan was approximately \$125,000 with no outstanding balance on its revolving credit line.

13. Long-Term Debt

MICROFLUIDICS INTERNATIONAL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

14. Income Taxes

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate for the full fiscal year. Cumulative adjustments to the tax provision are recorded in the interim period in which a change in the estimated annual effective rate is determined. The effective tax rate calculation includes determining both the current and deferred income tax expense as well as accounting for the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. The future tax consequences attributable to these differences result in deferred tax assets and liabilities, which are included on our consolidated balance sheets. We must assess the recoverability of the deferred tax assets by considering whether it is more likely than not that some portion or all of the deferred tax assets will be realized. To the extent we believe that recovery does not meet this more likely than not standard as required in SFAS No. 109, *Accounting for Income Taxes*, we must establish a valuation allowance. Changes in the valuation allowance are reflected in determining the effective tax rate for the year.

For the three and nine months ended September 30, 2008, the Company recognized no tax provision or benefit due to the loss from operations, nor adjusted the Company's full valuation allowance against its net deferred tax assets.

15. Subsequent Events

On October 20, 2008, the Company and SVB amended the existing loan and security agreement. Under the new terms, the maximum outstanding balance under the one-year facility may not exceed \$2,000,000. Interest will be charged at the prime rate plus two percent (2%), or six percent (6%), whichever is greater. Interest is payable when the advance made based on such financed receivable is due. The Company is no longer required to maintain the financial covenants contained in the Revolving Line of Credit, but the amended loan and security agreement contains certain of the affirmative covenants that were set forth in the original loan agreement. As of October 24, 2008, the outstanding balance under the amended loan and security agreement was approximately \$1,500,000.

On November 14, 2008, the Company entered into a financing transaction (the Financing) with a strategic investor (the Investor). The terms of the Financing include the issuance of a \$5.0 million convertible debenture with a seven year term bearing interest at 9% annually. The Investor may elect to convert the debt into the Company's common stock at a price per share of \$1.25. In addition, the Company issued warrants to the Investor to purchase additional common stock in two tranches. The first tranche is exercisable in whole or in part at \$2.00 per share, which could result in the Investor having a forty percent (40%) ownership interest in the Company. The second tranche is exercisable in whole or in part at \$3.00 per share, which could result in an increase of the Investor's ownership interest in the Company from forty percent (40%) to fifty percent (50%). In connection with the Financing, the Company's credit facility with Silicon Valley Bank, as amended on October 20, 2008, was paid in full.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Future Operating Results

This report may contain forward-looking statements that are subject to certain risks and uncertainties including statements relating to the Company's plan to achieve, maintain, and/or increase growth in revenue and/or market share, to achieve, maintain, and/or increase operating profitability, and/or to achieve, maintain, and/or increase net operating profitability. Such statements are based on the Company's current expectations and are subject to a number of factors and uncertainties that could cause actual results achieved by the Company to differ materially from those described in the forward-looking statements. The Company cautions investors that there can be no assurance that the actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including but not limited to, the following risks and uncertainties: (i) whether the performance advantages of the Company's Microfluidizer® materials processing equipment will be realized commercially or that a commercial market for the equipment will continue to develop, (ii) whether the timing of orders will significantly affect quarter to quarter revenues and resulting net income results for a particular quarter, which may cause increased volatility in the Company's stock price, (iii) whether the Company will have access to sufficient working capital through continued and improving cash flow from sales and ongoing borrowing availability, the latter being subject to the Company's ability to maintain compliance with the covenants and terms of the Company's loan agreement with its senior lender, (iv) whether the Company's Microfluidics Reaction Technology (defined below) will be adopted by customers as a means of producing innovative materials in large quantities, (v) whether the Company is able to deploy prototype Microfluidics Reaction Technology systems for nanoparticle production and then manufacture and introduce commercial production Microfluidics Reaction Technology equipment, (vi) whether the Company will achieve a greater proportion of its sales in the future through the sale of advanced processor production systems, and (vii) those risks set forth in Part II, Item 1A, Risk Factors, in this Quarterly Report on Form 10-Q for the period ended September 30, 2008 and in other Risk Factors included in the Company's filings with the Securities and Exchange Commission. The Company assumes no responsibility to update any forward-looking statements as a result of new information, future events, or otherwise.

Overview

We have specialized for over 20 years in manufacturing and marketing a broad line of materials processing systems, more specifically known as high shear fluid processing systems, which are systems used in numerous applications in the chemical, pharmaceutical, biotech, food and cosmetics industries.

Our line of high shear fluid processor equipment, marketed under our Microfluidizer® trademark and trade name, process premixed formulations to produce small, uniform structures, usually of the submicron and nanoscale size (commonly defined as particles having dimensions less than 100 nanometers) including nanostructures, microemulsions and nanosuspensions. The equipment produces commercial quantities of such materials important to producers of pharmaceuticals, coatings and other products.

Additionally, our equipment is used for cell disruption to harvest the cultivated contents of bacterial yeast, mammalian and/or plant cells and for liposomal encapsulation of materials for the cosmetics and biotech/biopharma industries.

We continue our efforts to commercialize our proprietary equipment, processes and technology for the continuous production of precipitated submicron or nanoscale particles by interaction of discrete streams of reacting materials (Microfluidics Reaction Technology or MRT). We have undertaken commercialization efforts for our patented Multiple Stream Mixer/Reactor (MMR), which is a high, pressure multiple stream mixer/reactor.

In May 2007, we submitted a paper and presented a poster for a new product at the Nano Science and Technology Institute (NSTI) Nanotech 2007 Meeting. The presentation introduced a variant of our Microfluidics Reaction Technology, the Co-Reactor process and technology (Co-Reactor). The Co-Reactor utilizes our Microfluidizer processor equipped with a co-axial feed to, among other processes; advance the manufacturing nanosuspensions from the bottom up by chemical reactions or physical processes such as crystallization. It has been

demonstrated for a variety of drugs using solvent and anti-solvent crystallization. We anticipate commercialization and introduction of Co-Reactor technology and equipment in 2009.

Table of Contents

The technology embodied within our Microfluidizer high shear fluid processor is used for formulation of products that are normally very difficult to mix and stabilize. Microfluidizer processors through process intensification allow manufacturers in the chemical, pharmaceutical, cosmetic, and food processing industries to produce higher quality products with better characteristics on a more consistent basis than with other blending, mixing or homogenizing techniques.

Further, we guarantee scale up of formulations and results on our processor equipment from flow rates as low as 100 to 200 milliliters per minute on our laboratory and bench top models to more than 15 gallons per minute on our production models.

Additionally, the equipment is used for cell disruption to harvest the cultivated contents of bacterial, yeast, mammalian and/or plant cells and for liposomal encapsulation of materials for the cosmetics and biotech/biopharma industries.

Our management believes that future commercialization and growth of nanotechnology may be, in large part, enabled by the manufacturing capability of our processing equipment and our Microfluidics Reaction Technology.

We were incorporated in Delaware in 1983. The Company, formerly named Biotechnology Development Corporation, changed its name effective June 8, 1993 to Microfluidics International Corporation, and again changed its name effective July 12, 1999 to MFIC Corporation. On June 18, 2008, we changed the Company's name back to Microfluidics International Corporation. Our principal executive offices are located at 30 Ossipee Road, in Newton, Massachusetts 02464 and our telephone number is (617) 969-5452.

Table of Contents

Critical Accounting Policies

Our significant accounting policies are summarized in Note 1 to our consolidated financial statements included in Item 8 of our Annual Report on Form 10-K for the period ended December 31, 2007. However, certain of our accounting policies require the application of significant judgment by our management and such judgments are reflected in the amounts reported in our consolidated financial statements. In applying these policies, our management uses their judgment to determine the appropriate assumptions to be used in the determination of estimates. Those estimates are based on our historical experience, terms of existing contracts, our observance of market trends, information provided by our strategic partners and information available from other outside sources, as appropriate. Actual results may differ significantly from the estimates contained in our consolidated financial statements. There has been no change to our critical accounting policies through the quarter ended September 30, 2008. Our critical accounting policies are as follows:

- *Revenue Recognition.* We recognize revenue in accordance with Staff Accounting Bulletin (SAB) No. 104, *Revenue Recognition in Financial Statements* . Revenue is recognized when all of the following criteria are met: i) persuasive evidence of an arrangement exists, ii) delivery has occurred, iii) the price to the customer is fixed and determinable, and iv) collectibility is reasonably assured. In revenue transactions where support services are requested, revenue is recognized on shipment since the support service obligation is not essential to the functionality of the delivered products. Revenue transactions involving non-essential support services obligations are those which can generally be completed in a short period of time at insignificant cost and the skills required to complete these support services are not unique to us and in many cases can be provided by third parties or the customers. The customer's purchase obligations are not contingent upon performance of support services, if any, by us. Proceeds received in advance of product shipment are recorded as customer advances in the consolidated balance sheets. Returns and customer credits are infrequent and recorded as a reduction to sales. Rights of returns are not included in sales arrangements. Discounts from list prices are recorded as a reduction to sales. On occasion, we provide machines for rent by customers. Income for the rental of equipment is recognized on a straight-line basis over the rental term. Rental income and product sales are classified in revenues in the consolidated statements of operations.
- *Accounts Receivable Valuation.* We perform various analyses to evaluate accounts receivable balances and record an allowance for bad debts based on the estimated collectibility of the accounts such that the amounts reflect estimated net realizable value. If actual uncollectible amounts significantly exceed the estimated allowance, our operating results would be significantly and adversely affected.
- *Inventory Valuation.* We value our inventory at the lower of our actual cost or the current estimated market value. We regularly review inventory quantities on hand and inventory commitments with suppliers and record a provision for excess and obsolete inventory based primarily on our historical usage for the prior twenty-four month period. Although we make every effort to ensure the accuracy of our forecasts of future product demand, any significant unanticipated change in demand or technological developments could have a significant impact on the value of our inventory and our reported operating results.
- *Product Warranties.* Our products are generally sold with a twelve month warranty provision that requires us to remedy deficiencies in quality or performance of our products at no cost to our customers only after it has been determined that the cause of the deficiency is not due to the actions of the machine operator or product used in the machine. We have established a policy for replacing parts that wear out or break prematurely. The policy called for replacing the parts or repairing a machine within one year of the sale. Commencing in May of 2006, we amended our warranty by limiting to a period of 90 days our warranty coverage on certain critical wear items. We are now selling more advanced processor production systems than past years that may require more costly parts. We maintain a warranty reserve in the amount of \$70,000 which we believe to be adequate as of September 30, 2008.

Table of Contents

Results of Operations

Three Months Ended September 30, 2008 vs. September 30, 2007

Revenues

Total revenues for the three months ended September 30, 2008 were approximately \$3,511,000, as compared to revenues of \$2,311,000 for the comparable prior year period, an increase of approximately \$1,200,000, or 51.9%.

North American sales for the three months ended September 30, 2008 increased to approximately \$1,971,000, or 52.4% as compared to sales of approximately \$1,293,000 for the three months ended September 30, 2007. The increase in North American sales was principally due to an increase in the sale of lab machines of approximately \$710,000, offset in part by a decrease in the sale of spare parts of \$32,000.

Foreign sales were approximately \$1,540,000 for the three months ended September 30, 2008, compared to \$1,018,000 for the three months ended September 30, 2007, an increase of \$522,000, or 51.3%. The increase in foreign sales was principally due to an increase in the sale of lab machines of approximately \$553,000. This increase was attributable to sale of our recently introduced M110P lab machines and a result of the investment made in our European and Asian sale channels.

Cost of Goods Sold

Cost of goods sold for the three months ended September 30, 2008 was approximately \$1,708,000, or 48.6% of revenue, compared to \$1,118,000, or 48.4% of revenue, for the comparable prior year period.

The increase in cost of sales in absolute dollars for the three months ended September 30, 2008, reflects the overall increase in sales. The Company's major product lines have different profit margins, as well as multiple profit margins within each product line.

Research and Development Expenses

Research and development expenses for the three months ended September 30, 2008 were approximately \$569,000, compared to \$436,000 for the comparable prior year period, an increase of approximately \$133,000, or 30.5%. The increase in research and development expenses was primarily due to an increase in planned increases in payroll and related costs of approximately \$131,000, an increase in consultants of \$20,000, and an increase in travel and entertainment of approximately \$11,000, partially offset by a decrease in laboratory expenses of approximately

\$32,000.

Selling Expenses

Selling expenses for the three months ended September 30, 2008 were approximately \$1,199,000, compared to \$840,000 for the comparable prior year period, an increase of \$359,000, or 42.7%. The increase is primarily attributable to planned increases in payroll and related costs of approximately \$155,000, an increase in travel and entertainment of approximately \$57,000 and an increase in recruiting costs of approximately \$30,000.

General and Administrative Expenses

General and administrative expenses for the three months ended September 30, 2008, were approximately \$1,057,000, compared to \$784,000 for the comparable prior year period, an increase of \$273,000, or 34.8%.

The increase is primarily attributable to planned increases in payroll and related costs of approximately \$62,000, an increase in consultant's costs of approximately \$76,000 and professional fees of approximately \$75,000, and an increase in stock option expense of approximately \$25,000, due to the hiring of new employees.

Interest Income and Expense

Interest expense for the three months ended September 30, 2008 was approximately \$39,000 compared to \$7,000 for the comparable prior year period, an increase of approximately \$32,000. The increase is attributable to the increase in borrowing under the line of credit, and the incremental fees associated with an early termination of an investment instrument prior to its maturity date.

As a result of borrowings under the line, there was no interest income for the three months ended September 30, 2008 compared to \$15,000 for the comparable prior year period. This decrease is due to a decrease in cash available for investment.

Table of Contents

Income Tax Provision

For the three months ended September 30, 2008 and 2007 the Company recognized no tax benefit from the loss from operations, as the Company has a full valuation reserve against its deferred tax assets.

Nine months Ended September 30, 2008 vs. September 30, 2007

Revenues

Total revenues for the nine months ended September 30, 2008 were approximately \$11,407,000, as compared to revenues of \$8,670,000 for the comparable prior year period, an increase of approximately \$2,737,000, or 31.6%.

North American sales for the nine months ended September 30, 2008 of approximately \$4,892,000, remained at approximately the same level as compared to sales of approximately \$5,012,000 for the nine months ended September 30, 2007. Due to the nature of the sale of capital equipment, one specific quarter can be impacted by the timing of the sale of one or more large production machines.

Foreign sales were approximately \$6,515,000 for the nine months ended September 30, 2008, compared to \$3,658,000 for the nine months ended September 30, 2007, an increase of \$2,857,000, or 78.1%. The increase in foreign sales was principally due to an increase in the sale of both our laboratory and production machines of approximately \$2,633,000 and an increase in the sales of spare parts of approximately \$224,000. The expansion of our sales coverage through the investment in sale distribution channels and in our European and Asian markets contributed to the increase in sales.

Cost of Goods Sold

Cost of goods sold for the nine months ended September 30, 2008 was approximately \$5,542,000, or 48.6% of revenue, compared to \$3,765,000, or 43.4% of revenue, for the comparable prior year period.

The increase in cost of sales in absolute dollars for the nine months ended September 30, 2008, reflects the overall increase in sales. The Company's major product lines have different profit margins, as well as multiple profit margins within each product line. The increase in cost of goods sold as a percentage of sales is attributable to the sale of laboratory machines for the nine months ended September 30, 2008 that had a higher material cost component than laboratory machines sold in the comparable period last year, and increased sales of our custom production machines.

Research and Development Expenses

Research and development expenses for the nine months ended September 30, 2008 were approximately \$1,631,000, compared to \$1,411,000 for the comparable prior year period, an increase of approximately \$220,000, or 15.6%. The increase in research and development expenses was primarily due to planned increases in payroll and related costs of approximately \$228,000 and consultant costs of approximately \$39,000. These increases were partially offset by a reduction in laboratory supplies of approximately \$48,000.

Selling Expenses

Selling expenses for the nine months ended September 30, 2008 were approximately \$3,327,000 compared to \$2,649,000 for the comparable prior year period, an increase of \$678,000, or 25.6%. The increase is primarily attributable to planned increases in payroll and related costs of approximately \$383,000, an increase in travel and entertainment costs of approximately \$144,000, consultant costs of approximately \$48,000 and an increase in sales meetings costs of approximately \$60,000. These increases were partially offset by a decrease in commission expense of \$111,000. The increase in payroll is attributable to the hiring of a more experienced sales staff at a higher remuneration. The decrease in commission expense was primary attributable to the sale of production units directly to customers that had no outside representative for the region, in which the unit was sold, resulting in non-commissionable sales.

Table of Contents

General and Administrative Expenses

General and administrative expenses for the nine months ended September 30, 2008, were approximately \$3,174,000, compared to \$2,267,000 for the comparable prior year period, an increase of \$907,000, or 40.0%.

The increase in general and administrative expenses is principally due to planned increases in payroll and related costs of approximately \$520,000, including one time costs of approximately \$164,000 associated with the retirement of the Company's president and the departure of an officer of the Company, consultant costs of approximately \$218,000, an increase in travel and entertainment due to new employees of approximately \$83,000, and an increase in stock option expense related to the hiring of new employees of approximately \$57,000.

Interest Income and Expense

Interest expense for the nine months ended September 30, 2008 was approximately \$50,000, compared to \$15,000 for the comparable prior year period, an increase of approximately \$35,000. The increase was due to the increase in borrowing under the line of credit, and fees associated with an early termination of an investment security.

Interest income for the nine months ended September 30, 2008 was \$21,000 compared to \$53,000 for the comparable prior year period, a decrease of \$32,000. The decrease is due to a decrease in cash available for investment.

Income Tax Provision

For the nine months ended September 30, 2008 and 2007 the Company recognized no tax benefit due on the loss from operations, as the Company maintains a full valuation allowance against its deferred tax assets.

Liquidity and Capital Resources

As of September 30, 2008, the Company had approximately \$557,000 in cash and cash equivalents, compared to \$756,000 as of December 31, 2007.

For the nine months ended September 30, 2008, the Company used cash of approximately \$1,116,000 by an increase in accounts payable and accrued expenses, to fund the net loss from operations, coupled with increases in inventories, accounts receivable, and prepaid expenses and other assets. For the nine months ended September 30, 2007, the Company used cash of approximately \$440,000 due to an increase in

Edgar Filing: MICROFLUIDICS INTERNATIONAL CORP - Form 10-Q

inventories, a decrease in current liabilities, and a loss from operations, partially offset by a decrease in trade accounts receivables.

The Company used cash of \$806,000 and \$146,000 for investing activities for the nine months ended September 30, 2008 and 2007, respectively, for the purchase of capital equipment and renovations to our Company's facilities.

The Company generated cash of \$1,723,000 and used cash of \$106,000 for financing activities for the nine months ended September 30, 2008 and 2007, respectively. For the nine months ended September 30, 2008, the Company generated cash from the proceeds from a new revolving credit line received from Silicon Valley Bank (SVB), offset by the pay down of the line of credit from the Company's previous lender, Banknorth, N.A.

The Company used cash of \$106,000 for financing activities for the nine months ended September 30, 2007. Net cash used for financing activities for the nine months ended September 30, 2007 were for principal payments on the term loan and capital equipment loans, partially offset by proceeds from the issuance of common stock from options exercised and proceeds from stock issued from the Employee Stock Purchase Plan.

As of September 30, 2008, the Company maintained a loan and security agreement (the Credit Facility) with Silicon Valley Bank (SVB), providing the Company with a \$2,500,000, two-year revolving credit line. As of September 30, 2008, the outstanding balance due under its revolving credit line was approximately \$2,000,000. As of September 30, 2007, there was no balance due under its revolving credit line and a balance of \$125,000 under its term loan facility with the Company's previous lender, Banknorth, N.A.

On October 20, 2008, the Company amended and restated its credit facility with Silicon Valley Bank. This new agreement, which is a demand line, provides financing for the Company up to \$2,000,000 based on eligible accounts receivables as defined in the loan and security agreement, with no financial covenants. Management has committed to investments in sales and marketing as part of the current operating plan. Those investments are likely to draw down our cash in advance of us receiving the additional revenues anticipated from such investments. With a net loss

Table of Contents

from operations of approximately \$2,300,000 through September 30, 2008, the Company believes cash flow from operations, its existing cash balance, together with this credit facility would not be sufficient to meet the Company's working capital requirements. Therefore, as of November 14, 2008, the Company entered into a financing transaction (the "Financing") with a strategic investor (the "Investor"). The terms of the Financing include the issuance of a \$5.0 million convertible debenture with warrants. The proceeds were received by the Company on November 14, 2008. In connection with the Financing, the Company's credit facility with Silicon Valley Bank was paid in full on November 14, 2008 and the SVB facility was terminated. For additional terms of the Financing, see Note 15 (Subsequent Events) of the Notes to the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for the period ended September 30, 2008.

The Company's contractual obligations as of September 30, 2008 are as follows:

(in thousands)	Total as of September 30, 2008	Payable During Remainder of 2008	Payable in 2009	Payable in 2010
Operating leases	\$ 997	\$ 115	\$ 441	\$ 441

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The Company's variable rate debt is not exposed to cash flow changes but it is exposed to prime rate changes in the event of major financial market fluctuation and the possible requirement to refinance the actual variable rate debt.

Item 4T. Controls and Procedures

The certificates of the Company's chief executive officer and chief financial officer attached as Exhibits 31.1 and 31.2 to this Quarterly Report on Form 10-Q include, in paragraph 4 of such certifications, information concerning the Company's disclosure controls and procedures, and internal control over financial reporting. Such certifications should be read in conjunction with the information contained in this Item 4T for a more complete understanding of the matters covered by such certifications.

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's chief executive officer and chief financial officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of September 30, 2008. The term "disclosure controls and procedures", as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its chief executive officer and chief financial officer, as appropriate, to allow timely decisions to be made regarding required disclosure. It should be noted that any system of controls and procedures, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met and that management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of the Company's disclosure controls and procedures as of September 30, 2008, the Company's chief executive officer and chief financial officer concluded that, as of such date, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes to the Company's internal control over financial reporting during the quarter ended September 30, 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is not a party to any material legal proceedings.

Item 1A. Risk Factors

You should carefully consider the risks and uncertainties described below (and in our other filings with the Securities and Exchange Commission) and the other information in this filing before deciding to purchase our common stock. If any of these risks or uncertainties occurs, our business, financial condition or operating results could be materially harmed. In that case the trading price of our common stock could decline and you could lose all or part of your investment. The risks and uncertainties described below are not the only ones we may face, although they reflect the risks that management believes are material at this time.

We believe that this filing contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to regulatory risks and clinical uncertainties. Such statements are based on management's current expectations and are subject to facts that could cause results to differ materially from the forward-looking statements. For further information you are encouraged to review our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2007. We assume no continuing obligation to update the information contained in this filing.

We have experienced operating losses from continuing operations in two of our last five fiscal years, including the fiscal year ended December 31, 2007, and we may not be able to achieve consistent profitability in the future.

For two of the past five fiscal years, as well as the nine months ended September 30, 2008, we have experienced losses from continuing operations. During the nine months ended September 30, 2008 and the fiscal year ended December 31, 2007, we had a net loss of \$2,300,000 and \$1,507,000 respectively, and it is anticipated that we will have a net loss in the current fiscal year.

Our cash position has been reduced and could decrease further if revenues do not increase as anticipated.

Our liquidity, as measured by the ratio of our current assets (minus inventory) to our current liabilities, has fallen from approximately 2.6 as of December 31, 2006 and 2.3 as of December 31, 2007 to approximately .81 as of September 30, 2008. This change is primarily due to increases in drawings under our revolving line of credit and increases in our accounts payable. In addition, while management has committed to investing in the growth of our business, particularly with regard to making investments in sales and marketing, those investments are likely to draw down our cash in advance of us receiving the additional revenues anticipated from such investments. As a result, if revenues do not increase as anticipated, or revenues are delayed beyond expectations, and we continue to experience net losses from operations as described above, our cash position could be further reduced and we could confront liquidity problems of varying degrees even though the Financing that we have obtained is sufficient to meet our cash requirements in the near term.

Our international business operations expose us to a variety of risks.

For the three months ended September 30, 2008 and 2007, shipments outside of North America accounted for approximately 43.9% and 44.1%, respectively, of our net revenues in those periods.

We attempt to reduce some of our risk related to sales and shipments outside of the United States by requiring that our contracts generally be paid in United States Dollars. Nevertheless, a downturn in the economies of Japan, Korea or Europe might reduce investment in new technology or products while a weakening of foreign currency against the United States Dollar would make our products more expensive, each of which could have a substantial impact on our operating results.

In addition, a significant portion of our total net revenue is subject to the risks associated with shipping to foreign markets in general, including unexpected changes in legal and regulatory requirements; changes in tariffs; political and economic instability; risk of terrorism; difficulties in managing distributors and representatives; difficulties in protecting our intellectual property overseas; and natural disasters, any of which could have a negative impact on our operating results.
