Report of Independent Registered Public Accounting Firm

To the Board of Directors and shareholders of

Euro Tech Holdings Company Limited

We have audited the accompanying consolidated balance sheets of Euro Tech Holdings Company Limited as of December 31, 2008 and 2007 and the related consolidated statements of operations, shareholders' equity and cash flows for the years ended December 31, 2008, 2007 and 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. The audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Euro Tech Holdings Company Limited as of December 31, 2008 and 2007 and the results of its consolidated operations and cash flows for the years ended December 31, 2008, 2007 and 2006, in conformity with generally accepted accounting principles in the United States of America.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 Summary of significant accounting policies

(a) Basis of Consolidation

The consolidated financial statements include the accounts of Euro Tech Holdings Company Limited and its subsidiaries (the Group). The financial statements of variable interest entities (VIEs), as defined by the Financial Accounting Standards Board (FASB) Interpretation No. 46 (R) (FIN 46 (R)), are included in the consolidated financial statements, if applicable. In January 2003, the FASB issued FASB Interpretation No. 46 (FIN 46), Consolidation of Variable Interest Entities and amended it by issuing FIN 46 (R) in December 2003. FIN 46 (R) addresses consolidation by business enterprises of VIEs that either: (1) do not have sufficient equity investment at risk to permit the entity to finance its activities without additional subordinated financial support, or (2) have equity investors that lack an essential characteristic of a controlling financial interest.

The Group identified that certain retail shops established in the PRC qualified as variable interest entities as defined in FIN 46 (R). The retail shops are principally engaged in the retailing business of water and waste water related process control, analytical and testing instruments, disinfection equipment, supplies and related automation systems. The Company is the primary beneficiary of these retail shops and, accordingly, consolidated their financial statements effective December 31, 2004. The Company has a controlling financial interest in these retail shops and is subject to a majority of the risk of loss from the retailing activities, and is entitled to receive a majority of the retail shops residual returns. Total assets and liabilities of these consolidated VIEs total US\$107,386 and US\$66,412, as of December 31, 2008 and US\$150,602 and US\$289,127, as of December 31, 2007, respectively. The cumulative losses on consolidating these VIEs in the Group's consolidated statement of income in 2008 were US\$41,443 (2007: profits of US\$17,638 and 2006: losses of US\$152,723), including taxes of US\$3,126 (2007: US\$11,118 and 2006: US\$6,814). The assets of the entities consist mainly of cash and bank balances, trade and other receivables, inventories and property, plant and equipment. The creditors of these entities do not have recourse to the general credit of the Group. The Group will provide all the needed financing for the VIEs.

Investments in business entities in which the Company does not have control, but has the ability to exercise significant influence over operating and financial policies (generally 20-50 percent ownership), are accounted for using the equity method of accounting. All material intercompany balances and transactions have been eliminated on consolidation.

(b) Subsidiaries

A subsidiary is a company in which the Company holds, directly or indirectly, more than 50% of its outstanding voting share capital and over which it is able to exercise control.

(c) Revenue Recognition

The Group's main source of revenue is the sale of water and waste water related process control, analytical and testing instruments, disinfection equipment, supplies and related automation systems. The Company recognizes revenue when the product is delivered and the title is transferred. For certain products where installation is necessary, revenue is recognized upon completion of installation. Revenue earned from customer support services, which represents a minor percentage of total revenues, is recognized when such services are provided.

EURO TECH HOLDINGS COMPANY LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 Summary of significant accounting policies (Continued)

(c) Revenue Recognition (Continued)

Revenues and profits in long term fixed price contracts or the engineering income are recorded under the percentage of completion method in accordance with SOP 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts. This approach relies on estimates of total expected direct costs at completion, which are compared to actual direct costs incurred to date to arrive at an estimate of revenue and profit earned to date. Recognized revenue and profit are subject to revisions as the contract progresses to completion. Revisions to profit estimates are reflected in income in the period in which the facts that give rise to the revision become known. For any contract where it is identified that a loss will be incurred, the full loss will be recognized immediately.

(d) Research and Development Costs

Research and development costs (R&D costs) are expensed as incurred. The R&D costs amounted to approximately US\$89,000, US\$47,000 and US\$55,000 for the years ended December 31, 2008, 2007 and 2006 respectively and were included in Selling and Administrative expenses in the Group's consolidated statement of income.

(e) Advertising and promotional expenses

Advertising and promotional expenses (A&P expenses) are expensed as incurred. The A&P expenses amounted to approximately US\$40,000, US\$78,000 and US\$76,000 for the years December 31, 2008, 2007 and 2006 respectively and were included in Selling and Administrative expenses in the Group's consolidated statement of income.

(f) Taxation

Edgar Filing: EURO TECH HOLDINGS CO LTD - Form 20-F/A

The Group accounts for income and deferred tax under the provision of Statement of Financial Accounting Standards (SFAS) No. 109: Accounting for Income Taxes , under which deferred taxes are recognized for all temporary differences between the applicable tax balance sheets and the consolidated balance sheet. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. SFAS No. 109 also requires the recognition of the future tax benefits of net operating loss carry forwards. A valuation allowance is established when the deferred tax assets are not expected to be realized within a reasonable period of time.

Effective January 1, 2007, the Company adopted FIN No. 48, Accounting for Uncertainty in Income Taxes. In accordance with FIN No. 48, the Company recognizes tax benefits that satisfy a greater than 50% probability threshold and provides for the estimated impact of interest and penalties for such tax benefits. The Company did not have such uncertain tax positions in 2007 and 2008.

Deferred tax assets and liabilities are measured using the enacted tax rates expected to be applicable for taxable income in the years in which temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income for the period that includes the enactment date.

Note 4 shows the applicable tax rates for individual subsidiary and variable interest entities, as well as the major temporary differences so recorded.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 Summary of significant accounting policies (Continued)

(g) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and demand deposits with banks.

(h) Receivables and Other Assets

Receivables and other assets are recorded at their nominal values. Valuation allowances are provided for identified individual risks for these line items. If the loss of a certain part of the receivables is probable, valuation allowances are provided to cover the expected loss. Receivables are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

(i) Inventories

Inventories are stated at the lower of cost, on the first-in, first-out method, or market value. Costs include purchase and related costs incurred in bringing each product to its present location and condition. Market value is calculated based on the estimated normal selling price, less further costs expected to be incurred for disposal. Provision is made for obsolete, slow moving or defective items, where appropriate.

(j) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Gains or losses on disposal are reflected in current operations. Major expenditures for betterments and renewals are capitalized. All ordinary repair and maintenance costs are expensed as incurred. Depreciation of property, plant and equipment is computed using the straight-line method over the assets' estimated useful lives as follows:

Office premises	47 to 51 years
Leasehold improvements	over terms of the leases or the useful lives whichever is less
Furniture, fixtures and office equipment	3 to 5 years
Motor vehicles	4 years
Testing equipment	3 years

(k) Impairment

The Group has adopted SFAS No. 144: Accounting for Impairment or Disposal of Long-Lived Assets which requires impairment losses to be recorded for property, plant and equipment to be held and used in operations when indicators of impairment are present. Reviews are regularly performed to determine whether the carrying value of assets is impaired. The Group determines the existence of such impairment by measuring the expected future cash flows (undiscounted and without interest charges) and comparing such amount to the carrying amount of the assets. An impairment loss, if one exists, is then measured as the amount by which the carrying amount of the asset exceeds the discounted estimated future cash flows. Assets to be disposed of are reported at the lower of the carrying amount or fair value of such assets less costs to sell. Asset impairment charges are recorded to reduce the carrying amount of the long-lived asset that will be sold or disposed of to their estimated fair values. Charges for the asset impairment reduce the carrying amount of the long-lived assets to their estimated salvage value in connection with the decision to dispose of such assets. There were no impairment losses recorded during each of the three years ended December 31, 2008.

(l) Operating Leases

Leases where substantially all the risks and rewards of ownership of the leased assets remain with the lessors are accounted for as operating leases. Rental payments under operating leases are charged to expense on the straight-line basis over the period of the relevant leases.

(m) Goodwill

The Group has adopted SFAS No.142: Goodwill and other intangible assets which assess the possible impairment of goodwill existing at the date of adoption and perform a subsequent impairment test on an annual basis.

(n) Foreign Currency Translation

The Company maintains its books and records in United States dollars. Its subsidiaries and affiliates maintain their books and records either in Hong Kong dollars or Chinese Renminbi (functional currencies). Foreign currency transactions during the year are translated into the respective functional currencies at the applicable rates of exchange at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into the respective functional currencies using the exchange rates prevailing at the balance sheet dates. Gains or losses from foreign currency transactions are recognized in the consolidated statements of income during the year in which they occur. Translation adjustments on subsidiaries' equity are included as cumulative translation adjustments.

(o) Derivative Instruments and Hedging Activities

SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), as amended by SFAS No. 137, Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB Statement No. 133 - an amendment of FASB Statement No. 133 , and SFAS No. 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities - an amendment of FASB Statement No. 133 , as well as the interpretations of the Derivatives Implementation Group (DIG), are applied as amended by SFAS No. 149, Amendment

Edgar Filing: EURO TECH HOLDINGS CO LTD - Form 20-F/A

of Statement 133 on Derivative Instruments and Hedging Activities . SFAS No. 133 contains accounting and reporting standards for hedging accounting and for derivative financial instruments, including certain derivative financial instruments embedded in other contracts.

SFAS No. 133 requires that all derivatives be recognized as either assets or liabilities in the consolidated balance sheet and measured at fair value. Depending on the documented designation of a derivative instrument, any change in fair value is recognized either in net income or shareholders' equity (as a component of accumulated other comprehensive income).

Fair values of derivative instruments are classified as operating assets or liabilities. Changes in fair value of derivative instruments affecting income are classified as other operating income or expenses. Please see note 17 for additional information regarding the Company's use of derivative instruments.

(p) Comprehensive Income

The Group has adopted SFAS No. 130: Reporting Comprehensive Income, which requires the Group to report all changes in equity during a period, except for those resulting from investment by owners and distribution to owners, in the financial statements for the period in which they are recognized. The Group has presented comprehensive income, which encompasses net income and foreign currency translation adjustments, in the consolidated statement of changes in shareholders' equity.

(q) Ordinary Share

Ordinary share refers to the \$0.01 par value capital stock as designated in the Company's Certificate of Incorporation. Treasury stock is accounted for using the cost method. When treasury stock is reissued, the value is computed and recorded using a weighted-average basis.

(r) Net income per Ordinary Share

Net income per ordinary share is computed in accordance with SFAS No. 128 Earnings Per Share, by dividing the net income by the weighted average number of shares of ordinary share outstanding during the period. The Company reports both basic earnings per share, which is based on the weighted average number of ordinary shares outstanding, and diluted earnings per share, which is based on the weighted average number of ordinary shares outstanding and all dilutive potential ordinary shares outstanding. Outstanding stock options are the only dilutive potential shares of the Company.

(s) Stock-based Compensation

The Group adopted the provisions of Statement 123 (revised 2004) (Statement 123(R)), Share-Based Payment, which revises Statement 123, Accounting for Stock-Based Compensation using the modified prospective application transition method. Statement 123(R) requires the Group

to recognize expense related to the fair value of our stock-based compensation awards, including employee stock options.

(t) Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts that are reported in the consolidated financial statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may be different from the estimates.

(u) Related Parties

Entities are considered to be related to the Group if the parties, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Group. Related parties also include principal owners of the Group, its management, members of the immediate families of principal owners of the Group and its management and other parties with which the Group may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

(v) Segment Information

The Company's segment reporting is prepared in accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information". The management approach required by SFAS No. 131 designates that the internal reporting structure that is used by management for making operating decisions and assessing performance should be used as the source for presenting the Company's reportable segments. The Company categorizes its operations into two business segments: Trading and Manufacturing, and Engineering.

(w) Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements" an amendment of ARB No. 51 (SFAS No. 160). SFAS No. 160 establishes accounting and reporting standards for noncontrolling interests in subsidiaries. This statement requires the reporting of all noncontrolling interests as a separate component of stockholders' equity, the reporting of consolidated net income (loss) as the amount attributable to both the parent and the noncontrolling interests and the separate disclosure of net income (loss) attributable to the parent and to the noncontrolling interests. In addition, this statement provides accounting and reporting guidance related to changes in noncontrolling ownership interests. Other than the reporting requirements described above which require retrospective application, the provisions of SFAS No. 160 are to be applied prospectively in the first annual reporting period beginning on or after December 15, 2008. The Company is currently evaluating the potential impact, if any, of the adoption of FAS No. 160 on the consolidated financial statements.

Edgar Filing: EURO TECH HOLDINGS CO LTD - Form 20-F/A

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations, (FAS No. 141 (R)), which replaces FASB Statement No. 141. FAS No. 141 (R) establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. The Statement also establishes disclosure requirements which will enable users to evaluate the nature and financial effects of the business combination. FAS No. 141 (R) is effective as of the beginning of an entity's fiscal year that begins after December 15, 2008, which will be the Company's year beginning January 1, 2009. An entity is precluded from implementing Statement 141R early. The Company is

currently evaluating the potential impact, if any, of the adoption of FAS No. 141 (R) on the consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* - an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires additional disclosures about the objectives of using derivative instruments, the method by which the derivative instruments and related hedged items are accounted for under Statement No. 133 and its related interpretations, and the effect of derivative instruments and related hedged items on financial position, financial performance, and cash flows. SFAS No. 161 also requires disclosure of the fair values of derivative instruments and their gains and losses in a tabular format. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company has no derivative instruments or hedging activities and this pronouncement is only disclosure-related; accordingly, SFAS 161 has no impact on the Company's financial position, consolidated results of operations or cash flows.

In April 2008, the FASB issued Staff Position (FSP) No. FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP FAS No. 142-3). FSP FAS No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. It is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years and should be applied prospectively to intangible assets acquired after the effective date. Early adoption is not permitted. FSP FAS No. 142-3 also requires expanded disclosure related to the determination of intangible asset useful lives for intangible assets and should be applied to all intangible assets recognized as of, and subsequent to the effective date. The impact of FSP FAS No. 142-3 will depend on the size and nature of acquisitions on or after January 1, 2009.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (SFAS No. 165). SFAS No. 165 provides general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS No. 165 is applicable for interim or annual periods after June 15, 2009. The application of SFAS No. 165 is not expected to have a material effect on the Company's consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets* - an amendment of FASB Statement No. 140 (SFAS No. 166). SFAS No. 166 seeks to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. SFAS No. 166 is applicable for annual periods after November 15, 2009 and interim periods therein and thereafter. The Company is currently evaluating the potential impact, if any, of the adoption of SFAS No. 166 on the consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (SFAS No. 167). SFAS No. 167 seeks to improve financial reporting by enterprises involved with variable interest entities. SFAS No. 167 is applicable for annual periods after November 15, 2009 and interim periods therein and thereafter. The Company is currently evaluating the potential impact, if any, of the adoption of SFAS No. 167 on the consolidated financial statements.

The Company does not believe that any other of the recently issued and adopted, but not yet effective, accounting standards would have a material effect on the accompanying financial statements.

14 PRC statutory reserve

Under the relevant PRC laws and regulations, the PRC subsidiaries are required to appropriate certain percentage of their respective net income to two statutory funds i.e. the statutory reserve fund and the statutory staff welfare fund. The PRC subsidiaries also appropriated certain amount of their net income to the expansion funds.

(i) Statutory reserve funds

Pursuant to applicable PRC laws and regulations, the PRC subsidiaries are required to allocate at least 10% of the companies' net income to the statutory reserve funds until such funds reaches 50% of the companies' registered capital. The statutory reserve funds can be utilized upon the approval by the relevant authorities, to offset accumulated losses or to increase registered capital of the companies, provided that such funds be maintained at a minimum of 25% of the companies' registered capital.

(ii) Statutory welfare funds

Pursuant to applicable PRC laws and regulations, the PRC subsidiaries are required to allocate certain amount of the companies' net income to the staff welfare funds determined by the Company. The staff welfare funds can only be used to provide staff welfare facilities and other collective benefits to the companies' employees. This fund is non-distributable other than upon liquidation of the PRC subsidiaries.

(iii) Expansion funds

The expansion reserve shall only be used to make up losses, expand the PRC subsidiaries' production operations, or increase the capital of the subsidiaries. The expansion fund can be utilized upon approval by relevant authorities, to convert into registered capital and issue bonus capital to existing investors, provided that such funds be maintained at a minimum of 25% of the companies' registered capital.

before end of November 2009. During the same year, no options had been exercised.

During the year ended December 31, 2008, all the 499,000 options granted in 2007 were cancelled. On January 24, 2008, 173,000 options with an exercise price of US\$2.56 per share were granted. These options were subsequently surrendered and cancelled on July 4, 2008.

The Company estimate the fair value of the options granted under the Black-Scholes pricing model.

Changes in outstanding options under various plans mentioned above were as follows:

	2008		2007		2006	
	Number of options	Weighted average exercise price US\$	Number of options	Weighted average exercise price US\$	Number of options	Weighted average exercise price US\$
Outstanding, beginning of year	1,290,840	1.74	3,938,296	1.32	5,978,806	1.31

As of December 31, 2008, the options outstanding and exercisable had exercise prices in the range of US\$0.5787 to US\$3.33 and a weighted average unexpired life of approximately 2.7 years.

As of December 31, 2008	Shares	Intrinsic Value US\$ '000
Total outstanding in-the-money options	538,470	119,000
Total vested in-the-money options	538,470	119,000

The total intrinsic value of share options exercised for the twelve months ended December 31, 2008 and 2007 were approximately \$374,000 and \$3,492,000, respectively. At of December 31, 2008, there was no unrecognized stock-based compensation expense related to unvested stock options.

Table of Contents**EURO TECH HOLDINGS COMPANY LIMITED****NOTES TO THE CONSOLIDATED ACCOUNTS****15 Stock options (Continued)**

On January 1, 2006, the Group adopted the provisions of Statement 123 (revised 2004) (Statement 123(R)), Share-Based Payment, which revises Statement 123, Accounting for Stock-Based Compensation, and supersedes APB Opinion 25, Accounting for Stock Issued to Employees. Statement 123(R) requires us to recognize expense related to the fair value of our stock-based compensation awards, including employee stock options.

The Black-Scholes option-pricing model is used to estimate the fair value of the options granted. This requires the input of subjective assumptions, including the expected volatility of stock price, expected option term, expected risk-free rate over the expected option term and expected dividend yield rate over the expected option term. Because changes in subjective input assumptions can materially affect the fair value estimate, in directors' opinion, the existing model may not necessarily provide a realizable measure of the fair value of the stock options. Expected volatility is based on historical volatility in the 180 days prior to the issue of the options. Expected option term and dividend yield rate are based on historical trends. Expected risk-free rate is based on US Treasury securities with similar maturities as the expected terms of the options at the date of grant.

The following table summarizes the assumptions used during the years ended December 31, 2008 and 2007:

Assumptions	2008	2007
Expected volatility	75.9-86.7%	75.9-86.7%
Expected dividends	0%	0%
Expected term (years)	1.25	1.25
Risk-free rate	3.2-4.3%	3.2-4.3%

16 Pension plan

Prior to December 1, 2000, the Group had only one defined contribution pension plan for all its Hong Kong employees. Under this plan, all employees were entitled to pension benefits equal to their own contributions plus 50% to 100% of individual fund account balances contributed by the Group, depending on their years of service with the Group. The Group was required to make specific contributions at approximately 10% of the basic salaries of the employees to an independent fund management company.

With the introduction of the Mandatory Provident Fund Scheme, a defined contribution scheme managed by an independent trustee on December 1, 2000, the Group and its employees who joined the Group subsequently make monthly contributions to the scheme at 5% of the employee's cash income as defined under the Mandatory Provident Fund legislation. Contributions of both the Group and its employees are subject to a maximum of HK\$1,000 per month and thereafter contributions are voluntary and are not subject to any limitation. The Group and its employees made their first contributions in December 2000.

As stipulated by the rules and regulations in the PRC, the Group contributes to state-sponsored retirement plans for its employees in Mainland China. The Group contributes approximately ranging from 10% to 22% of the basic salaries of its employees, and has no further obligations for the actual payment of pension or post-retirement benefits beyond the annual contributions. The state-sponsored retirement plans are responsible for the entire pension obligations payable to retired employees.

During the years ended December 31, 2008, 2007 and 2006, the aggregate contributions of the Group to the aforementioned pension plans and retirement benefit schemes were approximately US\$291,000, US\$245,000 and US\$202,000 respectively.

17 Risk factor and Derivative Instruments

Financial risk factors

The Group's activities expose it to a variety of financial risks: foreign exchange rate risk and credit risk.

(i) Credit risk

The Group has no significant concentration of credit risk. The Group has policies in place to ensure that sales of products are made to customers with an appropriate credit history. The Group has policies that limit the amount of credit exposure to any customers. Derivative counterparties and cash transactions are limited to high credit quality banks.

17 Risk Factor and Derivative Instruments (Continued)

(ii) Foreign exchange risk

The Group operates in Hong Kong, the PRC and trades with both local and overseas customers, and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to purchases in, Hong Kong dollar, Renminbi and Euro. Foreign exchange risk arises from committed and unmatched future commercial transactions, such as confirmed import purchase orders and sales orders, recognized assets and liabilities, and net investment in the PRC operations. The Group uses derivative financial instruments such as foreign exchange contracts to hedge certain foreign currency exposures.

The Group's prevailing risk management policy is to hedge the net committed transactions (mainly sales and import purchases) in each major currency.

The Company's policy generally permits the use of derivatives if they are associated with underlying assets or liabilities, forecasted transactions, or legally binding rights or obligations. There were no such derivatives during the years ended December 31, 2008 and 2007.

18 Related party transactions

A related party is an entity that can control or significantly influence the management or operating policies of another entity to the extent one of the entities may be prevented from pursuing its own interests. A related party may also be any party the entity deals with that can exercise that control. There were no transactions with related parties in the years 2008, 2007 and 2006.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Owners of

Zhejiang Tianlan Environmental Protection Technology Company Limited

We have audited the accompanying consolidated balance sheets of Zhejiang Tianlan Environmental Protection Technology Company Limited as of December 31, 2009 and 2008 and the related consolidated statements of income, shareholders' equity and cash flows for the years ended December 31, 2009 and 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Zhejiang Tianlan Environmental Protection Technology Company Limited as of December 31, 2009 and 2008 and the results of its operations and its cash flows for the years ended December 31, 2009 and 2008, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 Summary of significant accounting policies - Continued

(b) Subsidiaries

A subsidiary is a company in which the Company holds, directly or indirectly, more than 50% of its outstanding voting share capital and over which it is able to exercise control.

(c) Revenue Recognition

The Group's main source of revenue is the construction and installation services of environmental protection equipment for flue gas desulfurization, dust removal and flue gas denitration. Revenues are recorded under the percentage of completion method in accordance with FASB ASC Subtopic 605-35, Revenue Recognition - Construction-Type and Production-Type Contracts, (previously Statement of Position (SOP) 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts). This approach is based on estimates of total efforts expended at completion, which are compared to actual efforts incurred to date to arrive at an estimate of revenue and profit earned to date. Recognized revenue and profit are subject to revisions as the contract progresses to completion. Revisions to profit estimates are reflected in income in the period in which the facts that give rise to the revision become known. For any contract where it is identified that a loss will be incurred, the full loss will be recognized immediately.

(d) Research and Development Costs

Research and development costs (R&D costs) are expensed as incurred. The R&D costs amounted to approximately RMB8,238,000 and RMB3,704,000 for the years ended December 31, 2009 and 2008 respectively and were included in Selling and Administrative expenses in the Group's consolidated statements of income.

(e) Advertising and promotional expenses

Edgar Filing: EURO TECH HOLDINGS CO LTD - Form 20-F/A

Advertising and promotional expenses (A&P expenses) are expensed as incurred. The A&P expenses amounted to approximately RMB39,000 and RMB104,000 for the years December 31, 2009 and 2008 respectively and were included in Selling and Administrative expenses in the Group s consolidated statement of income.

(f) Taxation

The Group accounts for income and deferred tax under the provision of FASB ASC Subtopic 740-10, Income Taxes, (previously Statement of Financial Accounting Standards (SFAS) No. 109: Accounting for Income Taxes), under which deferred taxes are recognized for all temporary differences between the applicable tax balance sheets and the consolidated balance sheet. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. ASC 740-10 also requires the recognition of the future tax benefits of net operating loss carry forwards. A valuation allowance is established when the deferred tax assets are not expected to be realized within a reasonable period of time.

(f) Taxation - Continued

In accordance with ASC-740-10, the Company recognizes tax benefits that satisfy a greater than 50% probability threshold and provides for the estimated impact of interest and penalties for such tax benefits. The Company did not have such uncertain tax positions in 2008 and 2009.

Deferred tax assets and liabilities are measured using the enacted tax rates expected to be applicable for taxable income in the years in which temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income for the period that includes the enactment date.

Note 4 shows the applicable tax rates for the Company and its subsidiaries, as well as the major temporary differences so recorded.

(g) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and demand deposits with banks.

(h) Receivables and Other Assets

Receivables and other assets are recorded at their nominal values. Doubtful debt allowances are provided for identified individual risks for these line items. If the loss of a certain part of the receivables is probable, doubtful debt allowances are provided to cover the expected loss.

Receivables are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

(i) Inventories

Inventories are stated at the lower of cost, on the first-in, first-out method, or market value. Costs include purchase and related costs incurred in bringing each product to its present location and condition. Market value is calculated based on the estimated normal selling price, less further costs expected to be incurred for disposal. Provision is made for obsolete, slow moving or defective items, where appropriate.

(j) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Gains or losses on disposal are reflected in current operations. Major expenditures for betterments and renewals are capitalized. All ordinary repair and maintenance costs are expensed as incurred. Depreciation of property, plant and equipment is computed using the straight-line method over the assets' estimated useful lives as follows:

Office premises	47-50 years
Leasehold improvements	over terms of the leases or the useful lives whichever is shorter
Plant and machineries	5 to 10 years
Furniture, fixtures and office equipment	5 years
Motor vehicles	5 years

(k) Impairment

The Group has adopted FASB ASC Subtopic 360-10, Property, Plant, and Equipment, (previously SFAS No. 144: Accounting for Impairment or Disposal of Long-Lived Assets) which requires impairment losses to be recorded for property, plant and equipment to be held and used in operations when indicators of impairment are present. Reviews are regularly performed to determine whether the carrying value of assets is impaired. The Group determines the existence of such impairment by measuring the expected future cash flows (undiscounted and without interest charges) and comparing such amount to the carrying amount of the assets. An impairment loss, if one exists, is then measured as the amount by which the carrying amount of the asset exceeds the discounted estimated future cash flows. Assets to be disposed of are reported at the lower of the carrying amount or fair value of such assets less costs to sell. Asset impairment charges are recorded to reduce the carrying amount of the long-lived asset that will be sold or disposed of to their estimated fair values. Charges for the asset impairment reduce the carrying amount of the long-lived assets to their estimated salvage value in connection with the decision to dispose of such assets. There were no impairment losses recorded during each of the two years ended December 31, 2009 and 2008.

(l) Operating Leases

Leases where substantially all the risks and rewards of ownership of the leased assets remain with the lessors are accounted for as operating leases. Rental payments under operating leases are charged to expense on the straight-line basis over the period of the relevant leases.

(m) Foreign Currency Translation

The Group maintains its books and records in Chinese Renminbi (functional currency). Foreign currency transactions during the year are translated into the functional currency at the applicable rates of exchange at the dates of the transactions. Monetary assets and liabilities denominated in foreign currency are translated into the functional currency using the exchange rates prevailing at the balance sheet dates. Gains or losses from foreign currency transactions are recognized in the consolidated statements of income during the year in which they occur.

(n) Comprehensive Income

The Group has adopted FASB ASC Subtopic 220-10, Comprehensive Income, (previously SFAS No. 130: Reporting Comprehensive Income,) which requires the Group to report all changes in equity during a period, except for those resulting from investment by owners and distribution to owners, in the financial statements for the period in which they are recognized. The Group has presented comprehensive income, which encompasses net income, in the consolidated statement of changes in shareholders' equity.

(o) Paid in capital

Paid in capital refers to the registered capital paid-up by the owners of the Company. The paid-in capital at both years ended December 31, 2009 and 2008 is RMB50,000,000.

(p) Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts that are reported in the consolidated financial statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions that the Group may undertake in the future, actual results may be different from the estimates.

(q) Related Parties

Entities are considered to be related to the Group if the parties, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Group. Related parties also include principal owners of the Group, its management, members of the immediate families of principal owners of the Group and its management and other parties with which the Group may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

(r) Recent Accounting Pronouncements

Edgar Filing: EURO TECH HOLDINGS CO LTD - Form 20-F/A

In May 2009, the FASB issued SFAS No. 165, Subsequent Events (now codified within ASC 855-10, Subsequent Events (ASC 855-10)). ASC 855-10 provides general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASC 855-10 is applicable for interim or annual periods after June 15, 2009. In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-09, Subsequent Events , which is codified as ASC 855, Amendments to Certain Recognition and Disclosure Requirements . This update amends the ASC855-10, to replace the term public entity with the term an SEC filer , in order to avoid potential conflict with some of the Securities and Exchange Commission s (SEC) guidance. All of the amendments in this update are effective immediately. The application of ASC 855 did not have a material effect on the Company s consolidated financial statements.

(r) Recent Accounting Pronouncements - Continued

In June 2009, the FASB issued SFAS No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles", (now codified within ASC 105, Generally Accepted Accounting Principles). ASC 105 establishes the Codification as the single source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. All guidance contained in the Codification carries an equal level of authority. Following this statement, FASB will not issue new standards in the form of statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standards Updates, which will serve only to: (1) update the Codification; (2) provide background information about the guidance; and (3) provide the bases for conclusions on the change(s) in the Codification. ASC 105 was effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification supersedes all existing non-SEC accounting and reporting standards. The adoption of ASC 105 did not have an impact on the Company's consolidated results of operations or financial position.

In August 2009, FASB issued ASU 2009-5 Fair Value Measurements and Disclosures (Topic 820) Measuring Liabilities at Fair Value (ASU 2009-5). ASU 2009-5 provides amendments to Subtopic 820-10, Fair Value Measurements and Disclosures-Overall, for the fair value measurement of liabilities. ASU 2009-5 clarifies that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value. ASU 2009-5 was effective for the Company for interim and annual periods ending after September 30, 2009. The adoption of ASU 2009-5 did not have a material impact on the Company's consolidated results of operations or financial position.

In December 2009, FASB issued ASU 2009-17 Consolidations (Topic 810) Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities (ASU 2009-17). ASU 2009-17 amends the FASB ASC for the issuance of FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R). The amendments in ASU 2009-17 replace the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which enterprise has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and (1) the obligation to absorb losses of the entity or (2) the right to receive benefits from the entity. ASU 2009-17 also requires additional disclosures about an enterprise's involvement in variable interest entities. ASU 2009-17 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009. The Company does not expect the adoption of ASU 2009-17 to have a material impact on its consolidated results of operations or financial position.

In January 2010, FASB issued ASU 2010-01, Entity, which is codified as ASC505, Accounting for Distributions to Shareholders with Components of Stock and Cash (A Consensus of the FASB Emerging Issues Task Force). The amendments in this Update clarify that the stock portion of a distribution to shareholders that allow them to elect to receive cash or shares with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance thus eliminating the diversity in practice. The

amendments in this Update are effective for interim and annual periods ending on or after December 15, 2009, and should be applied on a retrospective basis. The application of ASC 505 did not have a material effect on the Company's consolidated financial statements.

In January 2010, FASB issued ASU 2010-02 Accounting and Reporting for Decreases in Ownership of a Subsidiary- a Scope Clarification (ASU 2010-2). ASU 2010-2 addresses implementation issues related to the changes in ownership provisions in the Consolidation Overall Subtopic (Subtopic 810-10) of the FASB Accounting Standards Codification , originally issued as FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements. Subtopic 810-10 establishes the accounting and reporting guidance for noncontrolling interests and changes in ownership interests of a subsidiary. An entity is required to deconsolidate a subsidiary when the entity ceases to have a controlling financial interest in the subsidiary. Upon deconsolidation of a subsidiary, an entity recognizes a gain or loss on the transaction and measures any retained investment in the subsidiary at fair value. The gain or loss includes any gain or loss associated with the difference between the fair value of the retained investment in the subsidiary and its carrying amount at the date the subsidiary is deconsolidated. In contrast, an entity is required to account for a decrease in ownership interest of a subsidiary that does not result in a change of control of the subsidiary as an equity transaction. ASU 2010-2 is effective for the Company starting January 1, 2010. The Company does not expect the adoption of ASU 2010-2 to have a material impact on the Company s consolidated results of operations or financial position.

In January 2010, FASB issued ASU 2010-6 Improving Disclosures about Fair Measurements (ASU 2010-6). ASU 2010-6 provides amendments to subtopic 820-10 that require separate disclosure of significant transfers in and out of Level 1 and Level 2 fair value measurements and the presentation of separate information regarding purchases, sales, issuances and settlements for Level 3 fair value measurements. Additionally, ASU 2010-6 provides amendments to subtopic 820-10 that clarify existing disclosures about the level of disaggregation and inputs and valuation techniques. ASU 2010-6 is effective for financial statements issued for interim and annual periods ending after December 15, 2010. The Company does not expect the adoption of ASU 2010-06 to have a material impact on its consolidated results of operations or financial position.
