Item 1.01. Entry into a Material Definitive Agreement.

On September 27, 2010, Oshkosh Corporation (the "Company") entered into a Credit Agreement among the Company, various subsidiaries of the Company party thereto as borrowers and various lenders and agents party thereto (the "Credit Agreement"). The Credit Agreement replaced the Company's existing credit agreement.

The Credit Agreement provides for (i) a revolving credit facility that matures in October 2015 with an initial maximum aggregate amount of availability of \$550 million and (ii) a \$650 million term loan facility due in quarterly principal installments of \$16.25 million commencing December 31, 2010 with a balloon payment of \$341.25 million due at maturity in October 2015. Availability under the revolving credit facility is reduced by outstanding letters of credit, which were approximately \$36.5 million as of September 27, 2010. The Company may increase the aggregate amount of the revolving credit and/or term loan commitments under the Credit Agreement, including by the addition of one or more additional tranches of term loans, by an aggregate amount of up to \$400 million if certain conditions are satisfied, including that the Company is not in default under the Credit Agreement at the time of the increase and that the Company obtains the consent of the lenders participating in the increase. On September 27, 2010, the Company borrowed approximately \$150 million under the revolving credit facility in addition to the \$650 million of term loans under the term loan facility to refinance the balance then outstanding under the Company's existing credit agreement, to pay certain fees and expenses in connection with the closing of the Credit Agreement and for other corporate purposes.

The Company's obligations under the Credit Agreement are guaranteed by certain of its domestic subsidiaries, and the Company will guarantee the obligations of certain of its subsidiaries under the Credit Agreement to the extent such subsidiaries borrow directly under the Credit Agreement. Subject to certain exceptions, the Credit Agreement is secured by (i) a first-priority perfected lien and security interests in substantially all of the personal property of the Company, each material subsidiary of the Company and each subsidiary guarantor, (ii) mortgages upon certain real property of the Company and certain of its domestic subsidiaries and (iii) a pledge of the equity of each material subsidiary and each subsidiary guarantor.

Borrowings under the Credit Agreement bear interest at a variable rate equal to (i) LIBOR plus a specified margin, which may be adjusted upward or downward depending on whether certain criteria are satisfied, or (ii) for dollar-denominated loans only, the base rate (which is the highest of (a) the administrative agent's prime rate, (b) the federal funds rate plus 0.50% or (c) the sum of 1% plus one-month LIBOR) plus a specified margin, which may be adjusted upward or downward depending on whether certain criteria are satisfied.

The Company must also pay (1) an unused commitment fee ranging from 0.40% to 0.50% per annum of the average daily unused portion of the aggregate revolving credit commitments under the Credit Agreement and (2) a fee ranging from 1.125% to 3.50% per annum of the maximum amount available to be drawn for each letter of credit issued and outstanding under the Credit Agreement.

The Credit Agreement contains various restrictions and covenants, including requirements that the Company maintain certain financial ratios at prescribed levels and restrictions on the ability of the Company and certain of its subsidiaries to consolidate or merge, create liens, incur additional indebtedness, dispose of assets, consummate acquisitions and make investments in joint ventures and foreign subsidiaries. The Credit Agreement contains the following financial covenants: (i) a maximum leverage ratio (defined as, with certain adjustments, the ratio of the Company's consolidated indebtedness to consolidated net income before interest, taxes, depreciation, amortization,

Edgar Filing: OSHKOSH CORP - Form 8-K

non-cash charges and certain other items (EBITDA) as of the last day of any fiscal quarter of 4.50 to 1.0; (ii) a minimum interest coverage ratio (defined as, with certain adjustments, the ratio of the Company's EBITDA to the Company's consolidated cash interest expense) of 2.50 to 1.0 as of the last day of any fiscal quarter; and (iii) a maximum senior secured leverage ratio (defined as, with certain adjustments, the ratio of the Company's consolidated secured indebtedness to the Company's EBITDA) of (a) 3.25 to 1.0 as of the end of each fiscal quarter through and including the fiscal quarter ending September 30, 2011, (b) 3.0 to 1.0 as of the end of each fiscal quarter thereafter through and including the fiscal quarter ending September 30, 2012 and (c) 2.75 to 1.0 as of the end of the fiscal quarter ending December 31, 2012 and each fiscal quarter thereafter.

Additionally, with certain exceptions, the Credit Agreement limits the ability of the Company to pay dividends and other distributions. However, so long as no event of default exists under the Credit Agreement or would result from such payment, the Company may pay dividends and other distributions in an aggregate amount not exceeding the sum of:

- (i) \$50 million during any fiscal year; plus
- (ii) the excess of (a) 25% of the cumulative net income of the Company and its consolidated subsidiaries for all fiscal quarters ending after September 27, 2010, over (b) the cumulative amount of all such dividends and other distributions made in any fiscal year ending after such date that exceed \$50 million; plus
- (iii) for each of the first four fiscal quarters ending after September 27, 2010, \$25 million per fiscal quarter, in each case provided that the leverage ratio (as defined) as of the last day of the most recently ended fiscal quarter was less than 2.0 to 1.0; plus
- (iv) for the period of four fiscal quarters ending September 30, 2011 and for each period of four fiscal quarters ending thereafter, \$100 million during such period, in each case provided that the leverage ratio (as defined) as of the last day of the most recently ended fiscal quarter was less than 2.0 to 1.0.

The Credit Agreement also contains customary events of default. If an event of default under the Credit Agreement occurs and is continuing, then the lenders may declare any outstanding obligations under the Credit Agreement to be immediately due and payable. In addition, if the Company or any other borrower or guarantor becomes the subject of voluntary or involuntary proceedings under any bankruptcy, insolvency or similar law, then any outstanding obligations under the Credit Agreement will automatically become immediately due and payable. Loans outstanding under the Credit Agreement will bear interest at a rate of 2.0% per annum in excess of the otherwise applicable rate upon acceleration of such loans or, upon the lenders' request, during the continuance of any event of default under the Credit Agreement.

The foregoing description of the Credit Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Credit Agreement filed herewith as Exhibit 4.1 and incorporated herein by reference.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.
