NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements include the accounts of AptarGroup, Inc. and its subsidiaries. The terms AptarGroup or Company as used herein refer to AptarGroup, Inc. and its subsidiaries. All significant intercompany accounts and transactions have been eliminated.

In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of consolidated financial position, results of operations, comprehensive income, changes in equity and cash flows for the interim periods presented. The accompanying unaudited condensed consolidated financial statements have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosure normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures made are adequate to make the information presented not misleading. Also, certain financial position data included herein was derived from the audited consolidated financial statements included in the Company s Annual Report on Form 10-K for the year ended December 31, 2011 but does not include all disclosures required by accounting principles generally accepted in the United States of America. Accordingly, these unaudited condensed consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2011. The results of operations of any interim period are not necessarily indicative of the results that may be expected for the year.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Changes to GAAP are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updates to the FASB s Accounting Standards Codification.

In May 2011, the FASB amended the guidance on fair value measurement and disclosure requirements. The amended guidance results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between GAAP and International Financial Reporting Standards (IFRS). This guidance is effective for the Company s fiscal year ending December 31, 2012 (including interim periods). The adoption of this standard had no impact on the Consolidated Financial Statements other than disclosure.

In June 2011, the FASB amended the guidance for the presentation of comprehensive income. The objective of this update is to improve the comparability, consistency, and transparency of financial reporting by increasing the prominence of items reported in other comprehensive income. This update requires that all non-owner changes in stockholders equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective for the Company s fiscal year ending December 31, 2012 (including interim periods). In December 2011, the FASB indefinitely deferred the guidance related to the presentation of reclassification adjustments out of other comprehensive income. The adoption of this standard results in the presentation of a new statement of comprehensive income. Otherwise, the adoption had no other impact on the Consolidated Financial Statements.

INCOME TAXES

Edgar Filing: APTARGROUP INC - Form 10-Q

The Company computes taxes on income in accordance with the tax rules and regulations of the many taxing authorities where the income is earned. The income tax rates imposed by these taxing authorities may vary substantially. Taxable income may differ from pretax income for financial accounting purposes. To the extent that these differences create differences between the tax basis of an asset or liability and its reported amount in the financial statements, an appropriate provision for deferred income taxes is made.

In its determination of which foreign earnings are permanently reinvested in foreign operations, the Company considers numerous factors, including the financial requirements of the U.S. parent company and those of its foreign subsidiaries, the U.S. funding needs for dividend payments and stock repurchases, and the tax consequences of remitting earnings to the U.S. From this analysis, current year repatriation decisions are made in an attempt to provide a proper mix of debt and shareholder capital both within the U.S. and for non-U.S. operations. The Company's policy is to permanently reinvest its accumulated foreign earnings and only will make a distribution out of current year earnings to meet the cash needs at the parent company. As such, the company does not provide for taxes on earnings that are deemed to be permanently reinvested. The effective tax rate for 2012 includes the estimated tax cost of repatriating \$82 million of current year earnings, of which approximately \$46 million was repatriated in the first quarter of 2012.

The Company provides a liability for the amount of tax benefits realized from uncertain tax positions. This liability is provided whenever the Company determines that a tax benefit will not meet a more-likely-than-not threshold for recognition. See Note 12 for more information.

NOTE 2 - INVENTORIES

At March 31, 2012 and December 31, 2011, approximately 19% and 21%, respectively, of the total inventories are accounted for by using the LIFO method. Inventories, by component, consisted of:

EMPLOYER CONTRIBUTIONS

In order to meet or exceed minimum funding levels required by U.S. law, the Company expects to contribute approximately \$14.0 million to its domestic defined benefit plans in 2012 and did not make any contributions as of March 31, 2012. The Company also expects to contribute approximately \$3.9 million to its foreign defined benefit plans in 2012 and as of March 31, 2012, has contributed approximately \$0.4 million.

NOTE 5 DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company maintains a foreign exchange risk management policy designed to establish a framework to protect the value of the Company's non-functional denominated transactions from adverse changes in exchange rates. Sales of the Company's products can be denominated in a currency different from the currency in which the related costs to produce the product are denominated. Changes in exchange rates on such inter-country sales or intercompany loans can impact the Company's results of operations. The Company's policy is not to engage in speculative foreign currency hedging activities, but to minimize its net foreign currency transaction exposure defined as firm commitments and transactions recorded and denominated in currencies other than the functional currency. The Company may use foreign currency forward exchange contracts, options and cross currency swaps to economically hedge these risks.

The Company maintains an interest rate risk management strategy to minimize significant, unanticipated earnings fluctuations that may arise from volatility in interest rates.

For derivative instruments designated as hedges, the Company formally documents the nature and relationships between the hedging instruments and the hedged items, as well as the risk management objectives, strategies for undertaking the various hedge transactions, and the method of assessing hedge effectiveness. Additionally, in order to designate any derivative instrument as a hedge of an anticipated transaction, the significant characteristics and expected terms of any anticipated transaction must be specifically identified, and it must be probable that the anticipated transaction will occur.

FAIR VALUE HEDGES

The Company maintained an interest rate swap to convert a portion of its fixed-rate debt into variable-rate debt until May 31, 2011. Under the interest rate swap contract, the Company exchanged, at specified intervals, the difference between fixed-rate and floating-rate amounts, which was calculated based on an agreed upon notional amount. On May 31, 2011, this interest rate swap contract matured and was not renewed. No gain or loss was recorded in the income statement in 2011 as any hedge ineffectiveness for the period was immaterial.

CASH FLOW HEDGES

The Company had one foreign currency cash flow hedge until March 15, 2012. A French subsidiary of AptarGroup, AptarGroup Holding SAS, had hedged the risk of variability in Euro equivalent associated with the cash flows of an intercompany loan granted in Brazilian Real. The forward contracts utilized were designated as a hedge of the changes in the cash flows relating to the changes in foreign currency rates relating to the loan and related forecasted interest. On March 15, 2012, the loan and foreign currency forward contracts were repaid.

During the three months ended March 31, 2012, the Company did not recognize any net gain (loss) as any hedge ineffectiveness for the period was immaterial, and the Company did not recognize any net gain (loss) related to the portion of the hedging instrument excluded from the assessment of hedge effectiveness.

HEDGE OF NET INVESTMENTS IN FOREIGN OPERATIONS

A significant number of the Company's operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of the Company's foreign entities. A strengthening

Edgar Filing: APTARGROUP INC - Form 10-Q

U.S. dollar relative to foreign currencies has a dilutive translation effect on the Company's financial condition and results of operations. Conversely, a weakening U.S. dollar has an additive effect. The Company in some cases maintains debt in these subsidiaries to offset the net asset exposure. The Company does not otherwise actively manage this risk using derivative financial instruments. In the event the Company plans on a full or partial liquidation of any of its foreign subsidiaries where the Company's net investment is likely to be monetized, the Company will consider hedging the currency exposure associated with such a transaction.

OTHER

As of March 31, 2012, the Company has recorded the fair value of foreign currency forward exchange contracts of \$8.9 million in prepaid and other, \$0.7 million in miscellaneous other assets, \$0.7 million in accounts payable and accrued liabilities, and \$1.8 million in deferred and other non-current liabilities in the balance sheet. All forward exchange contracts outstanding as of March 31, 2012 had an aggregate contract amount of \$337 million.

NOTE 6 COMMITMENTS AND CONTINGENCIES

The Company, in the normal course of business, is subject to a number of lawsuits and claims both actual and potential in nature including the proceeding noted below. While management believes the resolution of these claims and lawsuits will not have a material adverse effect on the Company's financial position or results of operations or cash flows, claims and legal proceedings are subject to inherent uncertainties, and unfavorable outcomes could occur that could include amounts in excess of any accruals which management has established. Were such unfavorable final outcomes to occur, it is possible that they could have a material adverse effect on our financial position, results of operations and cash flows.

In 2010, a competitor filed a lawsuit against certain AptarGroup, Inc. subsidiaries alleging that certain processes performed by a supplier of a specific type of diptube utilized by the AptarGroup, Inc. subsidiaries in the manufacture of a specific type of pump infringes patents owned by the counterparty. This lawsuit sought an injunction barring the manufacture, use, sale and importation of this specific pump for use in fragrance containers. In April 2012, the Company's United States subsidiary was found to have infringed on patents owned by the counterparty within the United States. The ruling does not apply to manufacture or sales of pumps in countries outside the United States and no damages were assessed.

Under its Certificate of Incorporation, the Company has agreed to indemnify its officers and directors for certain events or occurrences while the officer or director is, or was serving, at its request in such capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a directors and officers liability insurance policy that covers a portion of its exposure. As a result of its insurance policy coverage, the Company believes the estimated fair value of these

Edgar Filing: APTARGROUP INC - Form 10-Q

indemnification agreements is minimal. The Company has no liabilities recorded for these agreements as of March 31, 2012.

NOTE 7 STOCK REPURCHASE PROGRAM

During the quarter ended March 31, 2012, the Company repurchased approximately 189 thousand shares for an aggregate amount of \$10.1 million. As of March 31, 2012, the Company has a remaining authorization to repurchase 3.4 million additional shares. The timing of and total amount expended for the share repurchase depends upon market conditions.

NOTE 8 EARNINGS PER SHARE

NOTE 9 SEGMENT INFORMATION

The Company operates in the packaging components industry, which includes the development, manufacture and sale of consumer product dispensing systems. The Company is organized into three reporting segments. Operations that sell dispensing systems primarily to the personal care, fragrance/cosmetic and household markets form the Beauty + Home segment. Operations that sell dispensing systems primarily to the prescription drug and consumer healthcare markets form the Pharma segment. Operations that sell dispensing systems primarily to the food and beverage markets form the Food + Beverage segment.

The accounting policies of the segments are the same as those described in Note 1, Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. The Company evaluates performance of its business segments and allocates resources based upon segment income. Segment income is defined as earnings before interest expense in excess of interest income, certain corporate expenses and income taxes.

Financial information regarding the Company's reportable segments is shown below:

NOTE 10 ACQUISITIONS

In November 2011, the Company acquired a 20% minority investment in Oval Medical Technologies Limited (Oval Medical) for approximately \$3.2 million. In February 2012, the Company acquired an additional 2% minority investment for approximately \$0.3 million. Oval Medical has broad expertise in the design and development of injectable drug delivery devices. This investment represents a significant opportunity for the Pharma segment to enter a new category and broaden our product portfolio and customer reach. This investment is being accounted for under the equity method of accounting from the date of acquisition.

In October 2011, the Company acquired TKH Plastics Pvt Ltd (TKH), a leading provider of injection molded dispensing closures in India for approximately \$17 million in cash and approximately \$1 million in assumed debt. The acquisition will allow the Company to expand its geographical presence in India. After allocating a portion of the purchase price to fixed and

intangible assets, goodwill of approximately \$10.9 million was recorded on the transaction. The results of operations subsequent to the acquisition are included in the reported income statement. TKH is included in the Beauty + Home reporting segment.

Neither of these acquisitions had a material impact on the results of operations in 2012 or 2011 and therefore no proforma information is required.

NOTE 11 STOCK-BASED COMPENSATION

The Company issues stock options and restricted stock units to employees under Stock Awards Plans approved by shareholders. Stock options are issued to non-employee directors for their services as directors under Director Stock Option Plans approved by shareholders. Options are awarded with the exercise price equal to the market price on the date of grant and generally become exercisable over three years and expire 10 years after grant. Restricted stock units generally vest over three years.

Compensation expense recorded attributable to stock options for the first quarter of 2012 was approximately \$5.8 million (\$3.9 million after tax), or \$0.06 per basic and diluted share. The income tax benefit related to this compensation expense was approximately \$1.9 million. Approximately \$5.3 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales. Compensation expense recorded attributable to stock options for the first quarter of 2011 was approximately \$7.7 million (\$5.4 million after tax), or \$0.08 per basic and diluted share. The income tax benefit related to this compensation expense was approximately \$2.3 million. Approximately \$7.3 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales.

The Company uses historical data to estimate expected life and volatility. The weighted-average fair value of stock options granted under the Stock Awards Plans was \$10.35 and \$11.36 per share in 2012 and 2011, respectively. These values were estimated on the respective dates of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Stock Awards Plans:

Three months ended March 31,	2012	2011
Dividend Yield	1.8%	1.7%
Expected Stock Price Volatility	22.9%	23.3%
Risk-free Interest Rate	1.3%	2.7%
Expected Life of Option (years)	6.9	6.9

There were no grants under the Director Stock Option Plan during the three months ended 2012 and 2011.

A summary of option activity under the Company's stock option plans during the quarter ended March 31, 2012 is presented below:

The fair value of shares vested during the three months ended March 31, 2012 and 2011 was \$11.4 million and \$10.8 million, respectively. Cash received from option exercises was approximately \$19.7 million and the actual tax benefit realized for the tax deduction from option exercises was approximately \$5.8 million in the three months ended March 31, 2012. As of March 31, 2012, the remaining valuation of stock option awards to be expensed in future periods was \$14.9 million and the related weighted-average period over which it is expected to be recognized is 1.6 years.

The fair value of restricted stock unit grants is the market price of the underlying shares on the grant date. A summary of restricted stock unit activity as of March 31, 2012, and changes during the period then ended is presented below:

Table of Contents

	Shares	Weighted-Average Grant-Date Fair Value

Nonvested at March 31, 2012	21,945	\$ 47.82

Compensation expense recorded attributable to restricted stock unit grants for the first quarter of 2012 and 2011 was approximately \$219 thousand and \$208 thousand, respectively. The fair value of units vested during the three months ended March 31, 2012 and 2011 was \$316 thousand and \$346 thousand, respectively. The intrinsic value of units vested during the three months ended March 31, 2012 and 2011 was \$448 thousand and \$492 thousand, respectively. As of March 31, 2012 there was \$574 thousand of total unrecognized compensation cost relating to restricted stock unit awards which is expected to be recognized over a weighted-average period of 1.8 years.

NOTE 12 INCOME TAX UNCERTAINTIES

The Company had approximately \$9.2 and \$9.1 million recorded for income tax uncertainties as of March 31, 2012 and December 31, 2011, respectively. The \$0.1 million change in income tax uncertainties was primarily the result of currency changes. The amount, if recognized, that would impact the effective tax rate is \$8.6 and \$8.5 million, respectively. The Company estimates that it is reasonably possible that the liability for uncertain tax positions will decrease no more than \$5.0 million in the next twelve months from the resolution of various uncertain positions as a result of the completion of tax audits, litigation and the expiration of the statute of limitations in various jurisdictions.

NOTE 13 FAIR VALUE

Authoritative guidelines require the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

As of March 31, 2012, the fair values of our financial assets and liabilities were categorized as follows:

	Total	Level 1	Level 2	Level 3
Assets				
Forward exchange contracts (a)	\$ 9,589	\$	\$ 9,589	\$

(a) Market approach valuation technique based on observable market transactions of spot and forward rates

The carrying amounts of the Company's other current financial instruments such as cash and equivalents, notes payable and current maturities of long-term obligations approximate fair value due to the short-term maturity of the instrument. The Company considers its long term obligations a Level 2 liability and utilizes the market approach valuation technique based on interest rates that are currently available to the Company for issuance of debt with similar terms and maturities. The estimated fair value of the Company's long term obligations was \$279 million as of March 31, 2012 and \$283 million as of December 31, 2011.

Table of ContentsNOTE 14. FACILITIES CONSOLIDATION AND SEVERANCE

In the second quarter of 2009, the Company announced a plan to consolidate two French dispensing closure manufacturing facilities and several sales offices in North America and Europe and subsequently expanded the program to include additional headcount reductions. The total costs associated with the consolidation/severance programs are \$7.6 million. The plan has been substantially completed, subject to the settlement of remaining reserve balances.

As of March 31, 2012 we have recorded the following activity associated with our consolidation/severance programs:

NET SALES

We reported net sales of \$592.5 million for the quarter ended March 31, 2012, 3% above first quarter 2011 net sales of \$576.5 million. The average U.S. dollar exchange rate strengthened compared to the Euro and other foreign currencies, such as the Brazilian Real and British Pound, in the first quarter of 2012 compared to the first quarter of 2011. Excluding changes in foreign currency rates, sales increased 6% compared to the 3% reported sales increase. Sales of tooling to customers increased \$6.9 million, excluding currency effects, and acquisitions did not have a significant impact on sales.

For further discussion on net sales by reporting segment, please refer to the segment analysis of net sales and segment income on the following pages.

The following table sets forth, for the periods indicated, net sales by geographic location:

Quarter Ended March 31,	2012	% of Total	2011	% of Total
Domestic	\$ 171,309	29%	\$ 159,988	28%

Other Foreign	95,480	16%	81,424	14%

COST OF SALES (EXCLUSIVE OF DEPRECIATION SHOWN BELOW)

Edgar Filing: APTARGROUP INC - Form 10-Q

Our cost of sales as a percent of net sales increased to 67.7% in the first quarter of 2012 compared to 66.4% in the same period a year ago. This increase is due to an increase in custom tooling sales to our customers. We had a \$6.9 million increase in sales of tooling to customers, excluding currency effects, in the first quarter of 2012 compared to the prior year first quarter. Traditionally, sales of custom tooling generate lower margins than our regular product sales; thus, an increase in sales of custom tooling negatively impacted cost of sales as a percentage of sales.

SELLING, RESEARCH & DEVELOPMENT AND ADMINISTRATIVE

Our Selling, Research & Development and Administrative expenses (SG&A) decreased by approximately \$2.0 million in the first quarter of 2012 compared to the same period a year ago primarily driven by currency changes of \$2.1 million. Normal inflationary increases were offset by a decrease in stock compensation expense due to lower substantive vesting requirements and a lower Black Scholes value. SG&A as a percentage of net sales decreased to 14.9% in the first quarter of 2012 compared to 15.7% for the same period a year ago due to the increase in sales and lower SG&A expenses due to the effects of changes in currency rates.

DEPRECIATION AND AMORTIZATION

Reported depreciation and amortization expenses decreased by approximately \$1.1 million in the first quarter of 2012 compared to the same period a year ago with currency changes representing approximately \$0.9 million of this decrease. Depreciation and amortization as a percentage of net sales decreased to 5.5% in the first quarter of 2012 compared to 5.8% for the same period a year ago due to the increase in sales and lower depreciation and amortization expense.

Table of Contents

OPERATING INCOME

Operating income increased approximately \$0.6 million in the first quarter of 2012 to \$70.4 million compared to \$69.8 million in the same period in the prior year. Better absorption of our overhead due to cost controls and higher sales were able to offset the increase in our cost of sales. Operating income as a percentage of net sales decreased slightly to 11.9% in the first quarter of 2012 compared to 12.1% for the same period in the prior year mainly due to the negative factors impacting cost of sales noted above.

NET OTHER EXPENSE

Net other expenses in the first quarter of 2012 increased to \$4.1 million from \$3.5 million in the same period in the prior year. Interest expense increased approximately \$0.6 million in the first quarter of 2012 primarily due to higher borrowing rates attributed to the replacement of our expiring \$200 million credit facility with a new revolving \$300 million credit facility in January 2012.

EFFECTIVE TAX RATE

The reported effective tax rate increased to 33.9% in the first quarter ended March 31, 2012 compared to 32.9% in the first quarter of 2011. The quarter increase is related to the mix of earnings in higher tax countries and the French surtax enacted late in 2011.

NET INCOME ATTRIBUTABLE TO APTARGROUP, INC.

We reported net income attributable to AptarGroup, Inc. of \$43.8 million in the first quarter of 2012 compared to \$44.5 million in the first quarter of 2011.

BEAUTY + HOME SEGMENT

Operations that sell dispensing systems primarily to the personal care, fragrance/cosmetic and household markets form the Beauty + Home segment.

Three Months Ended March 31,	2012		2011	
Net Sales	\$	377,151	\$	376,262
Segment Income		32,972		32,653
Segment Income as a percentage of Net Sales		8.7%		8.7%

Edgar Filing: APTARGROUP INC - Form 10-Q

Net sales for the quarter ended March 31, 2012 increased less than 1% to \$377.2 million compared to \$376.3 million in the first quarter of the prior year. Excluding changes in exchange rates, sales increased 3% from the prior year, of which 1% came from increased tooling sales. Sales, excluding foreign currency changes, to the fragrance/cosmetic, personal care and household markets increased approximately 5%, 2% and 8%, respectively, in the first quarter of 2012 compared to 2011 mainly due to growth in Asia and Latin America.

Segment income for the first quarter of 2012 increased approximately 1% to \$33.0 million compared to \$32.7 million reported in the same period in the prior year. Segment income increased primarily due to the higher sales noted above.

PHARMA SEGMENT

Operations that sell dispensing systems to the pharmaceutical market form the Pharma segment.

Three Months Ended March 31,	2012	2011
Net Sales	\$ 140,043	\$ 132,004
Segment Income	39,372	38,888
Segment Income as a percentage of Net Sales	28.1%	29.5%

Net sales for the Pharma segment increased by 6% in the first quarter of 2012 to \$140.0 million compared to \$132.0 million in the first quarter of 2011. Sales, excluding changes in foreign currency rates, increased 8%. Sales of products, excluding foreign currency changes, to the prescription drug market increased 11% while sales to consumer health care increased 3%. Sales to the prescription drug market increased mainly due to increased demand for our nasal dispensing pump used with allergy products in North America.

Segment income in the first quarter of 2012 increased approximately 1% to \$39.4 million compared to \$38.9 million reported in the same period in the prior year. This increase is mainly attributed to higher sales, offset by lower margins on tooling sales and startup costs for our new Indian facility.

Table of ContentsFOOD + BEVERAGE SEGMENT

Operations that sell dispensing systems primarily to the food and beverage markets form the Food + Beverage segment.

Three Months Ended March 31,	2012		2011	
Net Sales	\$	75,304	\$	68,252
Segment Income		6,788		7,572
Segment Income as a percentage of Net Sales		9.0%		11.1%

Net sales for the quarter ended March 31, 2012 increased approximately 10% to \$75.3 million compared to \$68.3 million in the first quarter of the prior year. Sales, excluding changes in foreign currency rates, increased 11%. Higher tooling sales, excluding changes in foreign currency rates, represented a \$1.4 million increase when comparing the first quarter of 2012 to the same period in the prior year. Excluding foreign currency changes, sales to the food market increased 8% while the beverage markets increased approximately 19%, mainly due to higher custom tooling sales.

Segment income in the first quarter of 2012 decreased approximately 10% to \$6.8 million compared to \$7.6 million reported in the same period in the prior year. Although we showed strong sales growth, a large percentage of this growth is tooling related which carries lower margins than normal product sales. We also incurred start-up costs associated with our new facility in Lincolnton, North Carolina, which negatively impacted our segment results in the first quarter of 2012.

CORPORATE & OTHER

In addition to our three operating business segments, AptarGroup assigns certain costs to Corporate & Other, which is presented separately in Note 9. Corporate & Other primarily includes certain corporate compensation and information technology costs which are not allocated directly to our operating segments. Corporate & Other expense decreased to \$8.6 million for the quarter ended March 31, 2012 compared to \$9.8 million in the first quarter of the prior year mainly due to lower stock compensation expense.

FOREIGN CURRENCY

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial statements of our foreign entities. Our primary foreign exchange exposure is to the Euro, but we have foreign exchange exposure to the Brazilian Real, British Pound, Swiss Franc and South American and Asian currencies, among others. We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain transactions and firm purchase and sales commitments denominated in foreign currencies. A strengthening U.S. dollar relative to foreign currencies has a dilutive translation effect on our financial statements. Conversely, a weakening U.S. dollar has an additive effect. In some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Changes in exchange rates on such inter-country sales could materially impact our results of operations.

Edgar Filing: APTARGROUP INC - Form 10-Q

QUARTERLY TRENDS

Our results of operations in the second half of the year typically are negatively impacted by plant shutdowns in December. In the future, our results of operations in a quarterly period could be impacted by factors such as changes in product mix, changes in material costs, changes in growth rates in the industries to which our products are sold, recognition of equity based compensation expense for retirement eligible employees in the period of grant and changes in general economic conditions in any of the countries in which we do business.

We generally incur increased stock option expense in the first quarter compared with the rest of the fiscal year. Our estimated stock option expense on a pre-tax basis (in \$ millions) for the year 2012 compared to the prior year is as follows:

		2012		2011
First Quarter	\$	5.8	\$	7.7
Second Quarter (estimated)		2.9		1.7
Third Quarter (estimated)		2.1		2.8
Fourth Quarter (estimated)		1.9		1.6
	\$	12.7	\$	13.8

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash flow from operations and our revolving credit facility. Cash and equivalents decreased to \$329.8 million at March 31, 2012 from \$377.6 million at December 31, 2011. Total short and long-term interest bearing debt also decreased in the first quarter of 2012 to \$406.6 million from \$438.6 million at December 31, 2011. These decreases are primarily due to the repatriation of approximately \$46 million from Europe to the United States in the first quarter of 2012. These repatriated funds were used to pay down a portion of our revolving credit facility. The ratio of our Net Debt

Table of Contents

(interest bearing debt less cash and cash equivalents) to Net Capital (stockholder's equity plus Net Debt) was 5.3% at the end of March 2012 compared to 4.5% at December 31, 2011.

In the first quarter of 2012, our operations provided approximately \$13.7 million in cash flow compared to using \$4.1 million for the same period a year ago. The increase in cash flow is primarily attributable to an improvement in working capital. During the first quarter of 2012, we utilized the majority of the operating cash flows to finance capital expenditures.

We used \$42.0 million in cash for investing activities during the first quarter of 2012, compared to \$24.5 million during the same period a year ago. The increase in cash used for investing activities is due primarily to \$17.4 million more spent on capital expenditures in the first quarter of 2012 compared to the first quarter of 2011. Cash outlays for capital expenditures for 2012 are estimated to be approximately \$160 million but could vary due to changes in exchange rates as well as the timing of capital projects.

Our net cash used for financing activities in the first quarter of 2012 was \$32.4 million compared to providing \$15.6 million in the first quarter of 2011. The decrease in cash from financing activities was primarily due to a decrease in our borrowings as we were able to utilize \$46 million of repatriated funds to pay down a portion of our revolving credit facility.

On January 31, 2012, we entered into a new revolving credit facility that provides for unsecured financing of up to \$300 million. This new facility matures on January 31, 2017 and replaces a previously existing \$200 million unsecured financing facility that would have matured in 2012 and was cancelled without any early termination penalty on January 31, 2012. We initially drew \$185 million in borrowings from the new credit facility, of which \$165 was used to repay in full the outstanding obligations under the previous credit facility. Each borrowing under the new credit facility will bear interest at rates based on LIBOR, prime and other similar rates, in each case plus an applicable margin. A facility fee on the total amount of the facility is also payable quarterly, regardless of usage. The applicable margins for borrowings under the new credit facility and the facility fee percentage may change from time to time depending on changes in our consolidated leverage ratio. The representations, covenants and events of default in the new credit facility are substantially similar to the representations, covenants and events of default contained in the previous credit facility.

Our revolving credit facility and certain long-term obligations require us to satisfy certain financial and other covenants including:

	<u>Requirement</u>	<u>Level at March 31, 2012</u>
Debt to total capital ratio	Maximum of 55%	22.7%

Based upon the above debt to total capital ratio covenant we had the ability to borrow approximately an additional \$1.3 billion at March 31, 2012 before the 55% requirement would be exceeded.

Our foreign operations have historically met cash requirements with the use of internally generated cash or borrowings. These foreign subsidiaries have financing arrangements with several foreign banks to fund operations located outside the U.S., but all these lines are uncommitted. Cash generated by foreign operations has generally been reinvested locally. The majority of our \$329.8 million in cash and equivalents is located outside of the U.S. We manage our global cash requirements considering (i) available funds among the many subsidiaries through which we conduct business, (ii) the geographic location of our liquidity needs, and (iii) the cost to access international cash balances. Our total cash and equivalents at March 31, 2012 was \$329.8 million, of which 99% is located outside the U.S. Our U.S. operations generate sufficient cash flows to fund their liquidity needs and do not depend on cash located outside of the U.S. for their operations. Nevertheless, we are a dividend payer and have an active share repurchase program. These two items are funded with any remaining positive cash flows from the U.S. operations and are supplemented by additional borrowings from our revolving credit facility and the repatriations of current year foreign earnings. Specifically, in the U.S., we have an unsecured \$300 million revolving line of credit of which \$165 million was unused and available as of March 31, 2012 and believe we have the ability to borrow additional funds should the need arise. Historically, the tax consequences associated with repatriating current year earnings to the U.S. has been between 10% and 14% of the repatriated amount. We would not expect future impacts to be materially different.

We believe we are in a strong financial position and have the financial resources to meet business requirements in the foreseeable future. We have historically used cash flow from operations as our primary source of liquidity. Our primary uses of liquidity are to invest in equipment and facilities that are necessary to support our growth and to make acquisitions that will contribute to the achievement of our strategic objectives. Other uses of liquidity include paying dividends to shareholders and repurchasing shares of our common stock. In the event that customer demand would decrease significantly for a prolonged period of time and negatively impact cash flow from operations, we would have the ability to restrict and significantly reduce capital expenditure levels, as well as evaluate our acquisition strategy and dividend and share repurchase programs. A prolonged and significant reduction in capital expenditure levels could increase future repairs and maintenance costs as well as have a negative

Edgar Filing: APTARGROUP INC - Form 10-Q

impact on operating margins if we were unable to invest in new innovative products.

On April 12, 2012, the Board of Directors declared a quarterly dividend of \$0.22 per share payable on May 17, 2012 to stockholders of record as of April 26, 2012.

OFF-BALANCE SHEET ARRANGEMENTS

We lease certain warehouse, plant and office facilities as well as certain equipment under noncancelable operating leases expiring at various dates through the year 2029. Most of the operating leases contain renewal options and certain equipment leases include options to purchase during or at the end of the lease term. Other than operating lease obligations, we do not have any off-balance sheet arrangements.

RECENTLY ISSUED ACCOUNTING STANDARDS

In September 2011, the FASB amended the guidance on the annual testing of goodwill for impairment. The amended guidance will allow companies to assess qualitative factors to determine if it is more-likely-than-not that goodwill might be impaired and

whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. This guidance will be effective for the Company's fiscal year ending December 31, 2012, with early adoption permitted. The Company does not believe that this new guidance will have a material impact on its consolidated financial statements.

Other accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our consolidated financial statements upon adoption.

OUTLOOK

We are encouraged by the many projects we are actively working on with our customers across all of our segments and we are on schedule with bringing our newer facilities' capacity on-line. In the near-term, we expect the challenging input cost environment to continue and there is inflation in some emerging regions. We also anticipate currency exchange rates to create headwinds in the second quarter compared to the prior year. Presently we expect diluted earnings per share to be in the range of \$.70 to \$.75 per share compared to our all-time high quarterly earnings per share of \$.74 reported last year.

FORWARD-LOOKING STATEMENTS

Certain statements in Management's Discussion and Analysis and other sections of this Form 10-Q are forward-looking and involve a number of risks and uncertainties, including certain statements set forth in the Liquidity and Capital Resources, Off Balance Sheet Arrangements, and Operations Outlook sections of this Form 10-Q. Words such as expects, anticipates, believes, estimates, and other similar expressions or future or conditional verbs such as will, should, would and could are intended to identify such forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on our beliefs as well as assumptions made by and information currently available to us. Accordingly, our actual results may differ materially from those expressed or implied in such forward-looking statements due to known or unknown risks and uncertainties that exist in our operations and business environment, including but not limited to:

- economic, environmental and political conditions worldwide;
- the cost of materials and other input costs (particularly resin, metal, anodization costs and transportation and energy costs);
- the availability of raw materials and components (particularly from sole sourced suppliers) as well as the financial viability of these suppliers;
- changes in customer and/or consumer spending levels;
- our ability to contain costs and improve productivity;
- our ability to increase prices;
- significant fluctuations in foreign currency exchange rates;
- volatility of global credit markets;
- changes in capital availability or cost, including interest rate fluctuations;

Edgar Filing: APTARGROUP INC - Form 10-Q

- the timing and magnitude of capital expenditures;
- our ability to identify potential new acquisitions and to successfully acquire and integrate such operations or products;
- direct or indirect consequences of acts of war or terrorism;
- cybersecurity threats that could impact our networks and reporting systems;
- the impact of natural disasters;
- changes or difficulties in complying with government regulation;
- changing regulations or market conditions regarding environmental sustainability;
- work stoppages due to labor disputes;
- fiscal and monetary policy, including changes in worldwide tax rates;
- competition, including technological advances;
- our ability to protect and defend our intellectual property rights, as well as litigation involving intellectual property rights;
- the outcome of any legal proceeding that has been or may be instituted against us and others;
- our ability to meet future cash flow estimates to support our goodwill impairment testing;
- the demand for existing and new products;
- our ability to manage worldwide customer launches of complex technical products, in particular in developing markets;
- the success of our customers' products, particularly in the pharmaceutical industry;
- difficulties in product development and uncertainties related to the timing or outcome of product development;
- significant product liability claims; and
- other risks associated with our operations.

Although we believe that our forward-looking statements are based on reasonable assumptions, there can be no assurance that actual results, performance or achievements will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Please refer to Item 1A (Risk Factors) of Part I included in the Company's Annual Report on Form 10-K for additional risk factors affecting the Company.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of our financial condition and results of operations. Our primary foreign exchange exposure is to the Euro, but we also have foreign exchange exposure to the Brazilian Real, British Pound, Swiss Franc and South American and Asian currencies, among others. A strengthening U.S. dollar relative to foreign currencies has a dilutive translation effect on our financial condition and results of operations. Conversely, a weakening U.S. dollar has an additive effect.

Additionally, in some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Any changes in exchange rates on such inter-country sales may impact our results of operations.

We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain firm purchase and sales commitments and intercompany cash transactions denominated in foreign currencies.

The table below provides information as of March 31, 2012 about our forward currency exchange contracts. The majority of the contracts expire before the end of the second quarter of 2012.

Buy/Sell		Contract Amount (in thousands)	Average Contractual Exchange Rate	Min / Max Notional Volumes
Euro/U.S. Dollar	\$	189,974	1.2762	185,001-190,851
U.S. Dollar/Euro		48,213	0.7495	278-48,213
Swiss Franc/Euro		32,889	0.8280	28,813-32,889

Chinese Yuan/U.S. Dollar		1,484	0.1581	1,456-2,114
Other		1,918		
Total	\$	336,968		

As of March 31, 2012, we have recorded the fair value of foreign currency forward exchange contracts of \$8.9 million in prepaid and other, \$0.7 million in miscellaneous other assets, \$0.7 million in accounts payable and accrued liabilities and \$1.8 million in deferred and other non-current liabilities in the balance sheet.

The Company maintained an interest rate swap to convert a portion of its fixed-rate debt into variable-rate debt until May 31, 2011. Under the interest rate swap contract, the Company exchanged, at specified intervals, the difference between fixed-rate and floating-rate amounts, which was calculated based on an agreed upon notional amount. On May 31, 2011, this interest rate swap contract matured and was not renewed. No gain or loss was recorded in the income statement in 2011 as any hedge ineffectiveness for the period was immaterial.

The Company had one foreign currency cash flow hedge until March 15, 2012. A French subsidiary of AptarGroup, AptarGroup Holding SAS, had hedged the risk of variability in Euro equivalent associated with the cash flows of an intercompany loan granted in Brazilian Real. The forward contracts utilized were designated as a hedge of the changes in the cash flows relating to the changes in foreign currency rates relating to the loan and related forecasted interest. On March 15, 2012, the loan and foreign currency forward contracts were repaid. During the three months ended March 31, 2012, the Company did not recognize any net gain (loss) as any hedge ineffectiveness for the period was immaterial, and the Company

Edgar Filing: APTARGROUP INC - Form 10-Q

did not recognize any net gain (loss) related to the portion of the hedging instrument excluded from the assessment of hedge effectiveness.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management has evaluated, with the participation of the chief executive officer and chief financial officer of the Company, the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of March 31, 2012. Based on that evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures were effective as of such date.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

RECENT SALES OF UNREGISTERED SECURITIES

The employees of AptarGroup S.A.S. and Valois S.A.S., our subsidiaries, are eligible to participate in the FCP Aptar Savings Plan (the Plan). All eligible participants are located outside of the United States. An independent agent purchases shares of our Common Stock available under the Plan for cash on the open market and we do not issue shares. We do not receive any proceeds from the purchase of shares of our Common Stock under the Plan. The agent under the Plan is Banque Nationale de Paris Paribas Fund Services. No underwriters are used under the Plan. All shares are sold in reliance upon the exemption from registration under the Securities Act of 1933 provided by Regulation S promulgated under that Act. During the quarter ended March 31, 2012, the Plan purchased 3,350 shares of our Common Stock on behalf of the participants at an average price of \$52.92 per share, for an aggregate amount of \$177.3 thousand, and sold 1,280 shares of our Common Stock on behalf of the participants at an average price of \$54.27 per share, for an aggregate amount of \$69.5 thousand. At March 31, 2012, the Plan owns 27,776 shares of our Common Stock.

ISSUER PURCHASES OF EQUITY SECURITIES

The following table summarizes the Company's purchases of its securities for the quarter ended March 31, 2012:

Period	Total Number Of Shares Purchased	Average Price Paid Per Share	Total Number Of Shares Purchased As Part Of Publicly Announced Plans Or Programs	Maximum Number Of Shares That May Yet Be Purchased Under The Plans Or Programs
1/1 1/31/12		\$		3,590,124
2/1 2/29/12	67,633	52.96	67,633	3,522,491
3/1 3/31/12	121,800	53.48	121,800	3,400,691
Total	189,433	\$ 53.29	189,433	3,400,691

The Company announced the existing repurchase program on July 19, 2011. There is no expiration date for this repurchase program.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company held its Annual Meeting of Stockholders on May 2, 2012. Set forth below are the final voting results for each of the proposals submitted to a vote of the stockholders.

Edgar Filing: APTARGROUP INC - Form 10-Q

Each of the three directors proposed by the Company for election was elected to serve until the Company's 2015 Annual Meeting of Stockholders or until his or her successor has been elected and qualified. The voting results were as follows:
