Nabors Industries Ltd. and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Nature of Operations

Nabors is the largest land drilling contractor in the world and one of the largest land well-servicing and workover contractors in the United States and Canada:

- We actively market approximately 521 land drilling rigs for oil and gas land drilling operations in the U.S. Lower 48 states, Alaska, Canada, South and Central America, Mexico, the Middle East, the Far East, the South Pacific, Russia and Africa.
- We actively market approximately 431 rigs for land well-servicing and workover work in the United States and approximately 176 rigs for land well-servicing and workover work in Canada.

We are also a leading provider of offshore platform workover and drilling rigs, and actively market 40 platform, 12 jackup and four barge rigs in the United States, including the Gulf of Mexico, and multiple international markets.

In addition to the foregoing services:

- We provide completion and production services, including hydraulic fracturing, cementing, nitrogen and acid pressure pumping services with over 805,000 hydraulic horsepower in key basins throughout the United States and Canada.
- We offer a wide range of ancillary well-site services, including engineering, transportation and disposal, construction, maintenance, well logging, directional drilling, rig instrumentation, data collection and other support services in select U.S. and international markets.
- We manufacture and lease or sell top drives for a broad range of drilling applications, directional drilling systems, rig instrumentation and data collection equipment, pipeline handling equipment and rig reporting software.

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

- We have a 51% ownership interest in a joint venture in Saudi Arabia, which owns and actively markets nine rigs in addition to the rigs we lease to the joint venture.

- We have invested in oil and gas exploration, development and production activities through both our wholly owned subsidiaries and our oil and gas joint ventures in which we hold 49-50% ownership interests.

The majority of our business is conducted through two business lines:

- Our Drilling and Rig Services business line includes our drilling operations for oil and natural gas wells, on land and offshore, and companies engaged in drilling technology, top drive manufacturing, directional drilling, construction services, and rig instrumentation and software.

- Our Completion and Production Services business line includes our well-servicing, fluid logistics, workover operations and our pressure pumping services.

In addition to these two primary business lines, we have an Oil and Gas operating segment. Our oil and gas exploration, development and production operations are included in our Oil and Gas operating segment, or in discontinued operations in some cases.

Unless the context requires otherwise, references in this report and in Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations to we, us, our, the Company or Nabors mean Nabors Industries Ltd., together with our subsidiaries where the context requires, including Nabors Industries, Inc., a Delaware corporation (Nabors Delaware).

Table of Contents

Note 2 Summary of Significant Accounting Policies

Interim Financial Information

The unaudited consolidated financial statements of Nabors are prepared in conformity with accounting principles generally accepted in the United States (GAAP). Certain reclassifications have been made to the prior periods to conform to the current-period presentation, with no effect on our consolidated financial position, results of operations or cash flows. Pursuant to the rules and regulations of the Securities and Exchange Commission (SEC), certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been omitted. Therefore, these financial statements should be read along with our annual report on Form 10-K for the year ended December 31, 2011 (2011 Annual Report). In management 's opinion, the consolidated financial statements contain all adjustments necessary to present fairly our financial position as of September 30, 2012, the results of our operations and other comprehensive income for the three and nine months ended September 30, 2012 and 2011, and cash flows and changes in equity for the nine months ended September 30, 2012 and 2011, in accordance with GAAP. Interim results for the three and nine months ended September 30, 2012 may not be indicative of results that will be realized for the full year ending December 31, 2012.

Our independent registered public accounting firm has reviewed and issued a report on these consolidated interim financial statements in accordance with standards established by the Public Company Accounting Oversight Board. Pursuant to Rule 436(c) under the Securities Act of 1933, as amended (the Securities Act), this report should not be considered a part of any registration statement prepared or certified within the meanings of Sections 7 and 11 of such Act.

Principles of Consolidation

Our consolidated financial statements include the accounts of Nabors, as well as all majority-owned and nonmajority-owned subsidiaries required to be consolidated under GAAP. All significant intercompany accounts and transactions are eliminated in consolidation.

Investments in operating entities where we have the ability to exert significant influence, but where we do not control operating and financial policies, are accounted for using the equity method. Our share of the net income (loss) of these entities is recorded as earnings (losses) from unconsolidated affiliates in our consolidated statements of income (loss), and our investment in these entities is included in both investment in unconsolidated affiliates and assets held for sale in our consolidated balance sheets. The portion of such investments included in investments in unconsolidated affiliates totaled \$70.2 million and \$371.0 million as of September 30, 2012 and December 31, 2011, respectively. At each of September 30, 2012 and December 31, 2011, the portion of such investments included in assets held for sale totaled \$13.7 million. See Note 4 Discontinued Operations for additional information.

We have investments in offshore funds, which are classified as long-term investments and are accounted for using the equity method of accounting based on our ownership interest in each fund.

Inventory

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

Inventory is stated at the lower of cost or market. Cost is determined using the first-in, first-out method and includes the cost of materials, labor and manufacturing overhead. Inventory included the following:

	September 30, 2012		December 31, 2011
	(In thousands)		
Raw materials	\$ 148,323	\$	133,480
Work-in-progress	45,959		50,951
Finished goods	62,876		88,421
	\$ 257,158	\$	272,852

Table of Contents**Goodwill**

We determined it was necessary to perform our annual goodwill impairment test, a Level 3 fair value measurement, during the second quarter of 2012. The impairment test compares the estimated fair value of the reporting unit to its carrying amount. If the carrying amount exceeds the fair value, a second step is required to measure the goodwill impairment loss. This second step compares the implied fair value of the reporting unit's goodwill to its carrying amount. If the carrying amount exceeds the implied fair value, an impairment loss is recognized in an amount equal to the excess. Our goodwill impairment test results required the second step measurement for two reporting units.

The fair values calculated in these impairment tests were determined using discounted cash flow models involving assumptions based on our utilization of rigs or other oil and gas service equipment, revenues and earnings from affiliates, as well as direct costs, general and administrative costs, depreciation, applicable income taxes, capital expenditures and working capital requirements. Our discounted cash flow projections for each reporting unit were based on financial forecasts. The future cash flows were discounted to present value using discount rates determined to be appropriate for each reporting unit. Terminal values for each reporting unit were calculated using a Gordon Growth methodology with a long-term growth rate of 3%.

Our estimated fair values of our reporting units incorporate judgment and the use of estimates by management. Potential factors requiring assessment include a further or sustained decline in our stock price, declines in natural gas and oil prices, a variance in results of operations from forecasts, and additional transactions in the oil and gas industry. Another factor in determining whether impairment has occurred is the relationship between our market capitalization and our book value. As part of our annual review, we compared the sum of our reporting units estimated fair value, which included the estimated fair value of non-operating assets and liabilities, less debt, to our market capitalization and assessed the reasonableness of our estimated fair value. Any of the above-mentioned factors may cause us to re-evaluate goodwill during any quarter throughout the year.

The carrying amounts and change of goodwill for our operating segments as of and for the nine months ended September 30, 2012 were as follows:

	Balance as of December 31, 2011	Acquisitions and Purchase Price Adjustments	Disposals and Impairments (In thousands)	Cumulative Translation Adjustment	Balance as of September 30, 2012
Drilling and Rig Services:					
U.S. Lower 48 Land					
Drilling	\$ 30,154	\$	\$	\$	\$ 30,154
U.S. Offshore	7,296		7,296(1)		
Alaska	19,995				19,995
International	18,983		18,983(1)		
Other Rig Services	34,766		3,035(2)	518	32,249
Subtotal Drilling and Rig Services	111,194		29,314	518	82,398
Completion and Production Services:					
U.S. Land Well-servicing	55,072				55,072

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

Pressure Pumping		334,992						334,992		
Subtotal Completion and Production Services		390,064						390,064		
Total	\$	501,258	\$		\$	29,314	\$	518	\$	472,462

(1) Represents the impairment of goodwill associated with our U.S. Offshore and International reporting units. As of June 30, 2012, these reporting units had no recorded goodwill. The impairments were deemed necessary due to the prolonged uncertainty of utilization of some of our rigs as a result of changes in our customers plans for future drilling operations in the Gulf of Mexico as well as our international markets. A significantly prolonged period of lower natural gas prices or changes in laws and regulations could continue to adversely affect the demand for and prices of our services, which could result in future goodwill impairment charges for other reporting units due to the potential impact on our estimate of our future operating results.

Table of Contents

(2) Represents the removal of goodwill in connection with our sale of Peak USA to an unrelated third party for \$13.5 million cash during the second quarter of 2012. Peak USA, a subsidiary included in our Other Rig Services reporting unit, provided trucking and logistics services to the oilfield service market in the U.S. Lower 48 states.

Note 3 Impairments and Other Charges

Impairments and other charges included the following:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Goodwill impairment	\$	\$	\$ 26,279	\$
Intangible asset impairment (1)			74,960	
Provision for retirement of assets (2)		98,072	46,264	98,072
Total impairments and other charges	\$	\$ 98,072	\$ 147,503	\$ 98,072

(1) Represents \$75.0 million related to the impairment of the Superior trade name. The Superior trade name was initially classified as a ten-year intangible asset at the date of acquisition in September 2010. The impairment is a result of the decision to cease using the Superior trade name to reduce confusion in the marketplace and enhance the Nabors brand.

(2) During the second quarter of 2012, we recorded a provision for retirement of long-lived assets in multiple operating segments, including \$26.5 million in Pressure Pumping, \$15.1 million in Canada and \$4.6 million in U.S. Land Well-servicing. The retirements in our Canada operations included functionally inoperable rigs and other drilling equipment. Our U.S. Land Well-servicing retirements included rigs and vehicles that would require significant repair to return to work. As we began the process of streamlining our operations and consolidating our Pressure Pumping and U.S. Land Well-servicing segments into one business line, Nabors Completion & Production Services, we decided to retire certain non-core assets. As we continue to streamline our lines of business, there could be future retirement or impairment charges, which could have a potential impact on our future operating results.

During the third quarter of 2011, we recorded a provision for retirement of long-lived assets in multiple operating segments including \$63.2 million in U.S. Lower 48 Land Drilling, \$26.1 million in International and \$8.9 million in U.S. Land Well-servicing. The retirements related to the decommissioning and retirement of a jackup rig, 116 land rigs, and a number of trucks and rigs for well-servicing. These assets were deemed economically noncompetitive for the market and were dismantled for parts and scrap.

A prolonged period of lower natural gas and oil prices and its potential impact on our utilization and dayrates could result in the recognition of future impairment charges to additional assets if future cash flow estimates, based upon information then available to management, indicate that the carrying value of those assets may not be recoverable.

Table of Contents**Note 4 Discontinued Operations**

Assets held for sale included the following:

(In thousands)	September 30, 2012	December 31, 2011
Assets Held for Sale		
Oil and Gas	\$ 394,710	\$ 385,414
Other Rig Services	9,524	16,086
Assets Held for Sale	\$ 404,234	\$ 401,500

Our condensed statements of income (loss) from discontinued operations for the three and nine months ended September 30, 2012 and 2011 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

(1) Includes approximately \$85 million of equity in earnings during the nine months ended September 30, 2011 for our proportionate share of Remora's net income, inclusive of the gains recognized for asset sales during the first nine months of 2011.

(2) Represents our aircraft logistics operations in Canada included in our Other Rig Services operating segment.

In April 2012, we sold our remaining wholly owned oil and gas business in Colombia to an unrelated third party for a cash purchase price of \$72.6 million, which resulted in a pre-tax gain of approximately \$48.5 million. This business was included in our assets held for sale as part of our Oil and Gas operating segment.

In May 2012, we sold some of our U.S. wholly owned oil and gas assets in the Fayetteville Shale, Floyd Shale, and Barnett Shale areas to unrelated third parties for cumulative cash receipts of \$5.7 million, which did not result in any gain or loss. In September 2012, we sold additional assets from our U.S. wholly owned oil and gas business for \$7.3 million, which resulted in a gain of approximately \$3.7 million. These assets were included in our assets held for sale as part of our Oil and Gas operating segment. Based on current market conditions, we adjusted the carrying value of our U.S. wholly owned oil and gas business in the second quarter of 2012 to reflect our assessment of its current fair value.

Our contracts with pipeline companies include pipeline transmission commitments in the Horn River Basin. During the year ended December 31, 2011, we evaluated current production levels, natural gas prices and the anticipated sales cycle related to the sale of properties corresponding to these commitments. As a result, we recorded liabilities for excess pipeline

Table of Contents

capacity. At September 30, 2012, we recorded liabilities of \$92.2 million, of which \$68.5 million is included in accrued liabilities and \$23.7 million is included in other long-term liabilities. At December 31, 2011, we recorded liabilities of \$125.7 million, of which \$54.3 million is included in accrued liabilities and \$71.4 million is included in other long-term liabilities. These amounts represent our best estimate of the excess capacity of the pipeline, based upon the estimated sales date of the properties, as compared to the contractual commitments. Our commitments beyond December 31, 2013 could approximate \$274.8 million if the related properties are not sold or developed. Decreases in actual production, natural gas prices or a change in the estimated sales date could result in future charges related to excess capacity of the pipeline that may materially impact our results of operations.

Based on current market conditions, we adjusted the carrying value of our aircraft logistics assets by \$7.8 million in 2012 to reflect our assessment of its current fair value.

Note 5 Cash and Cash Equivalents and Short-term Investments

Our cash and cash equivalents and short-term investments consisted of the following:

	September 30, 2012	December 31, 2011
	(In thousands)	
Cash and cash equivalents	\$ 471,562	\$ 398,575

(1) Our unrealized loss on corporate debt securities relates to our investment in NFR Energy LLC's 9.75% senior notes. This investment is in addition to our equity interest in NFR Energy LLC. The senior notes mature in 2017 and interest is paid semi-annually on February 15 and August 15. We do not intend to sell this investment, and it is less likely than not that we will be required to sell it to satisfy our own cash flow and working capital requirements. We believe that we will continue to collect all amounts due according to the contractual terms of the investment and, therefore, do not consider the decline in value of the investment to be other-than-temporary at September 30, 2012. See Note 8 Investments in Unconsolidated Affiliates for additional discussion of our equity investment.

(2) Our unrealized losses on available-for-sale debt securities held for more than one year are comprised of various types of securities. Each of these securities has a rating ranging from A to AAA from Standard & Poor's and ranging from A2 to Aaa from Moody's Investors Service and is considered of high credit quality. In each case, we do not intend to sell these investments, and it is less likely than not that we will be required to sell them to satisfy our own cash flow and working capital requirements. We believe that we will be able to collect all amounts due according to the contractual terms of each investment and, therefore, do not consider the decline in value of these investments to be other-than-temporary at September 30, 2012.

The estimated fair values of our corporate, mortgage-backed, mortgage-CMO and asset-backed debt securities at September 30, 2012, classified by time to contractual maturity, are shown below. Expected maturities differ from contractual maturities because the issuers of the securities may have the right to repay obligations without prepayment penalties and we may elect to sell the securities prior to the contractual maturity date.

	Estimated Fair Value September 30, 2012 (In thousands)
Debt securities:	
Due in one year or less	\$ 180
Due after one year through five years	17,900
Due in more than five years	16,990
Total debt securities	\$ 35,070

Note 6 Fair Value Measurements

The following table sets forth, by level within the fair value hierarchy, our financial assets that are accounted for at fair value on a recurring basis as of September 30, 2012. Our debt securities could transfer into or out of a Level 1 or 2 measure depending on the availability of independent and current pricing at the end of each quarter. During the three months ended September 30, 2012, there were no transfers of our financial assets between Level 1 and Level 2 measures. Our financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Recurring Fair Value Measurements

	Fair Value as of September 30, 2012			Total

Total short-term investments	\$ 106,846	\$ 41,155	\$	\$ 148,001

Nonrecurring Fair Value Measurements

Fair value measurements were applied with respect to our nonfinancial assets and liabilities measured on a nonrecurring basis, which would primarily consist of goodwill, intangible assets and other long-lived assets, assets acquired and liabilities assumed in a business combination, and asset retirement obligations.

Fair Value of Financial Instruments

The fair value of our financial instruments has been estimated in accordance with GAAP. We measure the estimated fair value of our long-term debt, subsidiary preferred stock and revolving credit facilities using significant other observable inputs, which represent Level 2 fair value measurements, including quoted market prices or prices quoted from third-party financial institutions as well as the terms and credit spreads for such instruments. The carrying and fair values of these liabilities were as follows:

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

	September 30, 2012		December 31, 2011	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(In thousands)			
5.375% senior notes due August 2012	\$	\$	\$ 274,604	\$ 281,188
6.15% senior notes due February 2018	968,403	1,155,180	967,490	1,113,986
9.25% senior notes due January 2019	1,125,000	1,470,139	1,125,000	1,419,514
5.00% senior notes due September 2020	697,572	769,146	697,343	734,475
4.625% senior notes due September 2021	697,847	726,285	697,667	708,176
Subsidiary preferred stock	69,188	68,625	69,188	68,625
Revolving credit facilities	1,190,000	1,190,000	860,000	860,000
Other	463	463	1,712	1,712
	\$ 4,748,473	\$ 5,379,838	\$ 4,693,004	\$ 5,187,676

The fair values of our cash equivalents, trade receivables and trade payables approximate their carrying values due to the short-term nature of these instruments.

As of September 30, 2012, our short-term investments were carried at fair market value and included \$124.8 million and

\$23.2 million in securities classified as available-for-sale and trading, respectively. As of December 31, 2011, our short-term investments were carried at fair market value and included \$129.3 million and \$11.6 million in securities classified as available-for-sale and trading, respectively.

Note 7 Share-Based Compensation

We have several share-based employee compensation plans, which are more fully described in Note 8 Share-Based Compensation in our 2011 Annual Report. Total share-based compensation expense, which includes both stock options and restricted stock, totaled \$4.8 million and \$9.0 million for the three months ended September 30, 2012 and 2011, respectively, and \$13.5 million and \$17.2 million for the nine months ended September 30, 2012 and 2011, respectively. Total share-based compensation is included in direct costs and general and administrative expenses in our consolidated statements of income (loss). Share-based compensation expense has been allocated to our various operating segments. See Note 15 Segment Information.

During the nine months ended September 30, 2012 and 2011, we awarded 934,648 and 1,049,540 shares of restricted stock, respectively, vesting over periods of up to four years, to our employees and directors. These awards had an aggregate value at their grant date of \$19.4 million and \$29.3 million, respectively. The fair value of restricted stock that vested during the nine months ended September 30, 2012 and 2011 was \$9.4 million and \$18.6 million, respectively.

The total intrinsic value of stock options exercised during the nine months ended September 30, 2012 and 2011 was \$5.7 million and \$15.8 million, respectively. Additionally, the intrinsic value of stock options surrendered during the nine months ended September 30, 2012 was \$17.9 million. The total fair value of stock options that vested during the nine months ended September 30, 2012 and 2011 was \$7.6 million and \$5.2 million, respectively.

Note 8 Investments in Unconsolidated Affiliates

We have several unconsolidated affiliates that are integral to our operations. For a full description, refer to Note 10 Investments in Unconsolidated Affiliates in our 2011 Annual Report.

At September 30, 2012 and December 31, 2011, our consolidated balance sheets reflect our investments in unconsolidated affiliates accounted for using the equity method totaling \$70.2 million and \$371.0 million, respectively. In addition, assets held for sale include investments in unconsolidated affiliates accounted for using the equity method totaling \$13.7 million at each of September 30, 2012 and December 31, 2011, respectively.

During each quarter of 2012 our unconsolidated U.S. oil and gas joint venture has recorded full-cost ceiling test writedowns of which we have recognized \$310.0 million during the nine months ended September 30, 2012 representing our proportionate share. The full-cost ceiling test writedowns during 2012 occurred as a result of the sustained low natural gas price environment when using the prior 12-month average natural gas price. We recorded these writedowns against the carrying value of our investment and, as of September 30, 2012, our equity investment has been written down to a zero balance.

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

Presented below is summarized income statement (loss) information for our unconsolidated U.S. oil and gas joint venture:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2011	2012	2011
(In thousands)				
Gross revenues	\$ 91,445	\$ 65,985	\$ 216,914	\$ 169,738
Gross margin	\$ 63,462	\$ 51,640	\$ 146,519	\$ 133,858
Net income (loss)	\$ (240,414)	\$ 15,127	\$ (649,926)	\$ 53,918
Nabors earnings (losses) from our U.S. oil and gas joint venture (1)	\$ (98,805)	\$ 34,909	\$ (301,800)	\$ 56,285

(1) During the three and nine months ended September 30, 2012, our unconsolidated U.S. oil and gas joint venture recorded full-cost ceiling test writedowns, of which our proportionate share was \$96.3 million and \$310.0 million, respectively. The writedowns are included in our Oil and Gas operating segment.

Note 9 Debt

Long-term debt consisted of the following:

	September 30, 2012	December 31, 2011
	(In thousands)	
5.375% senior notes due August 2012	\$	\$ 274,604
6.15% senior notes due February 2018	968,403	967,490
9.25% senior notes due January 2019	1,125,000	1,125,000
5.00% senior notes due September 2020	697,572	697,343
4.625% senior notes due September 2021	697,847	697,667
Revolving credit facilities	1,190,000	860,000
Other	463	1,712
	4,679,285	4,623,816
Less: current portion	389	275,326
	\$ 4,678,896	\$ 4,348,490

5.375% Senior Notes Due August 2012

During August 2012, we paid \$282.4 million at maturity of our 5.375% senior notes, representing principal of \$275.0 million and accrued interest of \$7.4 million. We used cash on hand and \$270 million from revolving credit facilities to pay this obligation.

Revolving Credit Facilities

At September 30, 2012, we had \$310 million of remaining availability from a combined total of \$1.5 billion under our existing revolving credit facilities. In September 2012, Nabors Delaware added a new lender to one of the facilities, which increased borrowing capacity to \$1.5 billion. The existing revolving credit facilities mature in September 2014, and can be used for general corporate purposes, including capital expenditures and working capital. The weighted average interest rate on borrowings at September 30, 2012 was 2.08%. We fully and unconditionally guarantee the obligations under all of these credit facilities.

The revolving credit facilities contain various covenants and restrictive provisions that limit our ability to incur additional indebtedness, make investments or loans and create liens and require us to maintain a net funded indebtedness to total capitalization ratio, as defined in each agreement. We were in compliance with all covenants under the agreements at September 30, 2012 and December 31, 2011. If we should fail to perform our obligations under the covenants, the revolving credit commitments could be terminated and any outstanding borrowings under the relevant facility could be declared immediately due and payable.

Note 10 Common Shares

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

During the nine months ended September 30, 2012, our employees exercised vested options and surrendered unexercised vested stock options to acquire 1.1 million of our common shares. We received \$17.0 million relating to exercised vested options. We used approximately \$21.0 million to repurchase surrendered unexercised vested options and to satisfy related tax withholding obligations pursuant to stock option share settlements and exercises by some of the employees. During the nine months ended September 30, 2011, our employees exercised vested options to acquire 1.0 million of our common shares, resulting in proceeds of \$12.2 million. For each of the nine months ended September 30, 2012 and 2011, we withheld .1 million of our common shares with a fair value of \$2.1 million and \$2.6 million, respectively, to satisfy tax withholding obligations in connection with the vesting of all stock awards.

At December 31, 2011, accrued liabilities included a provision of \$100 million for a contingent liability related to the change of our Chief Executive Officer in October 2011. In February 2012, our former Chief Executive Officer elected to forego triggering that payment. In connection with that development, we announced plans to make charitable contributions to benefit the needs of our employees and other community-based causes. During the first quarter of 2012, we contributed one million of our treasury shares to the Nabors Charitable Foundation, a 501(c)(3) organization, in support of this objective. We consider our former Chief Executive Officer to be a significant shareholder of the Company and, therefore, have recorded these transactions as equity. We recorded the release of the contingent liability, net of tax, through capital in excess of par as

a forgiveness of liability from a beneficial owner. We recorded the donation of the treasury shares at their weighted-average cost, net of tax, through capital in excess of par.

Shareholder Rights Plan

On July 16, 2012, the Board of Directors declared the issuance of one preferred share purchase right (a *Right*) for each Common Share issued and outstanding on July 27, 2012 (the *Record Date*) to the shareholders of record on that date. Each Right entitles the registered holder to purchase from the Company one one-thousandth of a Series A Junior Participating Preferred Share, par value US\$0.001 per share (the *Preferred Shares*), of the Company, at a price of \$70.00 per one one-thousandth of a Preferred Share (the *Purchase Price*), subject to adjustment.

Until the Distribution Date, the Rights will be evidenced, with respect to any Common Share certificates issued and outstanding as of the Record Date, by such Common Share certificate together with a copy of a summary of rights. The Distribution Date is defined as the earlier to occur of:

- (i) 10 days following a public announcement that a person or group of affiliated or associated persons (an *Acquiring Person*) has acquired beneficial ownership (including derivative positions) of 10% or more of the issued and outstanding Common Shares (or, in the event an exchange is effected in accordance with Section 24 of the Rights Agreement and the Board of Directors determines that a later date is advisable, then such later date that is not more than 20 days after such public announcement); or
- (ii) 10 business days (or such later date as may be determined by action of the Board of Directors prior to such time as any Person becomes an *Acquiring Person*) following the commencement of, or announcement of an intention to make, a tender offer or exchange offer the consummation of which would result in the beneficial ownership by a person or group of 10% or more of the issued and outstanding Common Shares.

The Rights are not exercisable until the Distribution Date. The Rights will expire on July 16, 2013 (the *Final Expiration Date*), unless the Final Expiration Date is extended or the Rights are earlier redeemed by the Company, in each case.

Note 11 Subsidiary Preferred Stock

During the three months ended September 30, 2012, dividends of \$0.75 million on outstanding shares of preferred stock were declared and paid in full.

Note 12 Commitments and Contingencies

Commitments

Employment Contract

The employment agreement for our CEO, Mr. Anthony G. Petrello, provides for a term through March 30, 2015, with automatic one-year extensions each April 1, unless either party gives notice of nonrenewal. In the event of Mr. Petrello's termination without cause or constructive termination without cause, he would be entitled to receive three times the average of his base salary and annual bonus during the three fiscal years preceding the termination. If, by way of example, Mr. Petrello were terminated without cause subsequent to September 30, 2012, his payment would be approximately \$31.1 million. The formula will be reduced to two times the average stated above after April 1, 2015. In the event of his death or disability, either he or his estate would be entitled to receive within 30 days thereafter a payment of \$50 million.

We do not have insurance to cover, and we have not recorded an expense or accrued a liability relating to, this potential obligation. See Note 18 Commitments and Contingencies to our 2011 Annual Report for additional discussion and description of Mr. Petrello's employment agreement.

Contingencies

Income Tax Contingencies

We are subject to income taxes in the United States and numerous other jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. We are regularly audited by tax authorities. Although we believe our tax estimates are reasonable, the final determination of tax audits and any related litigation could be materially different than what is reflected in income tax provisions and accruals. An audit or litigation could materially affect our financial position, income tax provision, net income, or cash flows in the period or periods challenged.

It is possible that future changes to tax laws (including tax treaties) could impact our ability to realize the tax savings recorded to date as well as future tax savings, resulting from our 2002 corporate reorganization. See Note 13 Income Taxes to our 2011 Annual Report for additional discussion.

On September 14, 2006, Nabors Drilling International Limited, one of our wholly owned Bermuda subsidiaries (NDIL), received a Notice of Assessment from Mexico's federal tax authorities in connection with the audit of NDIL's Mexico branch for 2003. The notice proposes to deny depreciation expense deductions relating to drilling rigs operating in Mexico in 2003. The notice also proposes to deny a deduction for payments made to an affiliated company for the procurement of labor services in Mexico. The amount assessed was approximately \$19.8 million (including interest and penalties). Nabors and its tax advisors previously concluded that the deductions were appropriate. NDIL's Mexico branch took similar deductions for depreciation and labor expenses from 2004 to 2008. On June 30, 2009, the government proposed similar assessments against the Mexico branch of another wholly owned Bermuda subsidiary, Nabors Drilling International II Ltd. (NDIL II) for 2006. We anticipate that a similar assessment will eventually be proposed against NDIL for 2005 through 2008 and against NDIL II for 2007 to 2010. We believe that the potential assessments will range from \$6 million to \$26 million per year for the period from 2005 to 2009, and in the aggregate, would be approximately \$90 million to \$95 million. Although Nabors and its tax advisors previously concluded that the deductions were appropriate for each of these years, a reserve has been recorded in accordance with GAAP. The statute of limitations for NDIL's 2004 tax year expired. Accordingly, during the fourth quarter of 2010, we released \$7.4 million from our tax reserves, which represented the reserve recorded for that tax year. If these additional assessments were made and we ultimately did not prevail, we would be required to recognize additional tax for the amount in excess of the current reserve.

Self-Insurance

We estimate the level of our liability related to insurance and record reserves for these amounts in our consolidated financial statements. Our estimates are based on the facts and circumstances specific to existing claims and our past experience with similar claims. These loss estimates and accruals recorded in our financial statements for claims have historically been reasonable in light of the actual amount of claims paid. Although we believe our insurance coverage and reserve estimates are reasonable, a significant accident or other event that is not fully covered by insurance or contractual indemnity could occur and could materially affect our financial position and results of operations for a particular period.

Effective April 1, 2012, our workers' compensation claims are subject to a \$2.0 million per-occurrence deductible, and our automobile claims are subject to a \$1.0 million per-occurrence deductible.

Litigation

Nabors and its subsidiaries are defendants or otherwise involved in a number of lawsuits in the ordinary course of business. We estimate the range of our liability related to pending litigation when we believe the amount and range of loss can be estimated. We record our best estimate of a loss when the loss is considered probable. When a liability is probable and there is a range of estimated loss with no best estimate in the range, we record the minimum estimated liability related to the lawsuits or claims. As additional information becomes available, we assess the potential liability related to our pending litigation and claims and revise our estimates. Due to uncertainties related to the resolution of lawsuits and claims, the ultimate outcome may differ from our estimates. For matters where an unfavorable outcome is reasonably possible and significant, we disclose the nature of the matter and a range of potential exposure, unless an estimate cannot be made at the time of disclosure. In the opinion of management and based on liability accruals provided, our ultimate exposure with respect to these pending lawsuits and claims is not expected to have a material adverse effect on our consolidated financial position or cash flows, although they could have a material adverse effect on our results of operations for a particular reporting period.

Table of Contents

On July 5, 2007, we received an inquiry from the U.S. Department of Justice relating to its investigation of one of our vendors and compliance with the Foreign Corrupt Practices Act. The inquiry relates to transactions with and involving Panalpina, which provided freight forwarding and customs clearance services to some of our affiliates. The inquiry focused on transactions in Kazakhstan, Saudi Arabia, Algeria and Nigeria. The Audit Committee of our Board of Directors engaged outside counsel to review some of our transactions with this vendor, received periodic updates at its regularly scheduled meetings, and the Chairman of the Audit Committee received updates between meetings as circumstances warranted. The investigation included a review of certain amounts paid to and by Panalpina in connection with obtaining permits for the temporary importation of equipment and clearance of goods and materials through customs. Both the SEC and the Department of Justice have been advised of the results of our investigation. The SEC has advised us in April 2012 that it concluded its review of this matter and does not intend to recommend any enforcement action against us. Although the Department of Justice has not concluded its inquiry, we do not anticipate that its final determination will have an adverse effect on the Company.

In 2009, the Court of Ouargla (in Algeria) entered a judgment of approximately \$19.7 million against us related to alleged customs infractions in 2009. We believe we did not receive proper notice of the judicial proceedings, and that the amount of the judgment was excessive in any case. We asserted the lack of legally required notice as a basis for challenging the judgment on appeal to the Algeria Supreme Court. On May 31, 2012, that court reversed the lower court and remanded the case to the Ouargla Court of Appeals for treatment consistent with the Supreme Court's ruling. Based upon our understanding of applicable law and precedent, we continue to believe that we will prevail. We do not believe that a loss is probable and have not accrued any amounts related to this matter. If we are ultimately required to pay a fine or judgment related to this matter, the amount of the loss could range from approximately \$140,000 to \$19.7 million.

In March 2011, the Court of Ouargla entered a judgment of approximately \$39.1 million against us relating to alleged violations of Algeria's foreign currency exchange controls, which require that goods and services provided locally be invoiced and paid in local currency. The case relates to certain foreign currency payments made to us by CEPSA, a Spanish operator, for wells drilled in 2006. Approximately \$7.5 million of the total contract amount was paid offshore in foreign currency, and approximately \$3.2 million was paid in local currency. The judgment includes fines and penalties of approximately four times the amount at issue, and is not payable pending appeal. We have appealed the ruling based on our understanding that the law in question applies only to resident entities incorporated under Algerian law. An intermediate court of appeals has upheld the lower court's ruling, and we have appealed the matter to the Algeria Supreme Court. While our payments were consistent with our historical operations in the country and, we believe, those of other multinational corporations there, as well as interpretations of the law by the Central Bank of Algeria, the ultimate resolution of this matter could result in a loss of up to \$31.1 million in excess of amounts accrued.

On September 21, 2011, we received an informal inquiry from the SEC related to perquisites and personal benefits received by the officers and directors of Nabors, including their use of non-commercial aircraft. Our Audit Committee and Board of Directors have been apprised of this inquiry and we are cooperating with the SEC. The ultimate outcome of this process cannot be determined at this time.

The previously disclosed purported shareholder derivative lawsuits filed in 2011 and 2012 against Nabors Industries Ltd. and its Board of Directors relating to certain compensation arrangements have been dismissed. The allegations of each lawsuit were substantially similar, alleging that the members of the Board breached their fiduciary duties, wasted corporate assets and committed oppressive conduct against shareholders by agreeing to certain compensation arrangements with two senior officers of the Company, Eugene M. Isenberg and Anthony G. Petrello. The lawsuits sought an award of monetary damages in an unspecified amount, disgorgement by Messrs. Isenberg and Petrello of allegedly excessive compensation in an unspecified amount of at least \$90 million, and reformation of Nabors' compensation practices. The cases were filed, respectively, before Judges Gray Miller and Ewing Werlein in the United States Southern District of Texas, Houston Division, and Judge Mike Miller of the 11th Judicial District Court of Harris County, Texas. The case pending before Judge Gray Miller was voluntarily dismissed on January 31, 2012. Judge Werlein entered a final judgment on July 30, 2012 dismissing the case pending in the United States Southern District of Texas, finding that plaintiffs lacked standing to sue and failed to state a claim for which relief could be

Table of Contents

granted. Plaintiffs initially appealed Judge Werlein's ruling to the United States Fifth Circuit Court of Appeals, but voluntarily dismissed the appeal on October 22, 2012. Plaintiffs in the remaining state court case filed an agreed motion to dismiss with prejudice on October 22, 2012. The Company does not anticipate any further material activity in connection with these lawsuits.

On March 9, 2012, Nabors Global Holdings II Limited (NGH2L) signed a contract with ERG Resources, LLC (ERG) relating to the sale of all of the Class A shares of NGH2L's wholly owned subsidiary, Ramshorn International Limited, an oil and gas exploration company. When ERG failed to meet its closing obligations, NGH2L terminated the transaction on March 19, 2012 and, as contemplated in the agreement, retained ERG's \$3 million escrow deposit. ERG filed suit the following day in the 61st Judicial District Court of Harris County, Texas, in a case styled *ERG Resources, LLC v. Nabors Global Holdings II Limited, Ramshorn International Limited, and Parex Resources, Inc.*; Cause No. 2012-16446, seeking injunctive relief to halt any sale of the shares to a third party, specifically naming as defendant Parex Resources, Inc. (Parex). The lawsuit also seeks monetary damages of up to \$100 million based on an alleged breach of contract by NGH2L and alleged tortious interference with contractual relations by Parex. Nabors successfully defeated ERG's effort to obtain a temporary restraining order from the Texas court on March 20, 2012. On March 23, 2012, ERG filed and obtained an *ex parte* stay from the Supreme Court of Bermuda (Commercial Court), in a case styled as *ERG Resources LLC v. Nabors Global Holdings II Limited*, Case No. 2012: No. 110. Nabors challenged the stay and, following a series of oral hearings on the matter, the Bermuda court discharged the stay by a ruling dated April 5, 2012. Nabors completed the sale of Ramshorn's Class A shares to a Parex affiliate on April 12, 2012, which mooted ERG's application for a temporary injunction that was scheduled for hearing by the Texas court on April 13, 2012. ERG retains its causes of action for monetary damages, but Nabors believes the claims are foreclosed by the terms of the agreement and are without factual or legal merit. While Nabors intends to vigorously defend the lawsuit, the ultimate outcome of the lawsuit cannot be determined at this time.

Off-Balance Sheet Arrangements (Including Guarantees)

We are a party to some transactions, agreements or other contractual arrangements defined as off-balance sheet arrangements that could have a material future effect on our financial position, results of operations, liquidity and capital resources. The most significant of these off-balance sheet arrangements involve agreements and obligations under which we provide financial or performance assurance to third parties. Certain of these agreements serve as guarantees, including standby letters of credit issued on behalf of insurance carriers in conjunction with our workers compensation insurance program and other financial surety instruments such as bonds. In addition, we have provided indemnifications, which serve as guarantees, to some third parties. These guarantees include indemnification provided by Nabors to our share transfer agent and our insurance carriers. We are not able to estimate the potential future maximum payments that might be due under our indemnification guarantees.

Management believes the likelihood that we would be required to perform or otherwise incur any material losses associated with any of these guarantees is remote. The following table summarizes the total maximum amount of financial guarantees issued by Nabors:

	Maximum Amount				
	Remainder of 2012	2013	2014 (In thousands)	Thereafter	Total
Financial standby letters of credit and other financial surety instruments	\$ 31,469	\$ 56,657	\$ 105	\$	\$ 88,231

Table of Contents**Note 13 Earnings (Losses) Per Share**

A reconciliation of the numerators and denominators of the basic and diluted earnings (losses) per share computations is as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2011	2012	2011
(In thousands, except per share amounts)				
Net income (loss) (numerator):				
Income (loss) from continuing operations, net of tax	\$ 65,818	\$ 87,190	\$ 109,783	\$ 252,629
Less: net (income) loss attributable to noncontrolling interest	(988)	(708)	453	355
Adjusted income (loss) from continuing operations, net of tax basic	64,830	86,482	110,236	252,984
Add: interest expense on assumed conversion of our 0.94% senior exchangeable notes, net of tax (1)				
Adjusted net income (loss) from continuing operations, net of tax diluted	64,830	86,482	110,236	252,984
Income (loss) from discontinued operations, net of tax	10,826	(12,226)	26,721	96,545
Adjusted net income (loss) attributable to Nabors	75,656	74,256	136,957	349,529
Earnings (losses) per share:				
Basic from continuing operations	\$.22	\$.30	\$.38	\$.88
Basic from discontinued operations	.04	(.04)	.09	.34
Total Basic	\$.26	\$.26	\$.47	\$ 1.22
Diluted from continuing operations	\$.22	\$.30	\$.38	\$.86
Diluted from discontinued operations	.04	(.05)	.09	.33
Total Diluted	\$.26	\$.25	\$.47	\$ 1.19
Shares (denominator):				
Weighted-average number of shares outstanding basic	290,367	287,487	289,822	286,971
Net effect of dilutive stock options, warrants and restricted stock awards based on the if-converted method	2,134	4,499	2,468	6,020
Assumed conversion of our 0.94% senior exchangeable notes due 2011 (1)				
Weighted-average number of shares outstanding diluted	292,501	291,986	292,290	292,991

(1) At maturity in May 2011, we redeemed the remaining aggregate principal amount of \$1.4 billion of our 0.94% senior exchangeable notes. Prior to maturity, we had purchased \$1.4 billion par value of these notes in the open market for cash of \$1.2 billion.

For all periods presented, the computation of diluted earnings (losses) per share excludes outstanding stock options and warrants with exercise prices greater than the average market price of Nabors common shares because their inclusion would be anti-dilutive and because they are not considered participating securities. The average number of options and warrants that were excluded from diluted earnings (losses) per share that would potentially dilute earnings per share in the future was 15,010,906 and 10,271,673 shares during the three months ended September 30, 2012 and 2011, respectively, and 13,934,259 and 7,678,536 shares during the nine months ended September 30, 2012 and 2011, respectively. In any period during which the average market price of Nabors common shares exceeds the exercise prices of these stock options and warrants, such stock options and warrants will be included in our diluted earnings (losses) per share computation using the if-converted

Table of Contents

method of accounting. Restricted stock will be included in our basic and diluted earnings (losses) per share computation using the two-class method of accounting in all periods because such stock is considered a participating security.

Note 14 Supplemental Balance Sheet, Income Statement and Cash Flow Information

Accrued liabilities include the following:

	September 30, 2012	December 31, 2011
	(In thousands)	
Accrued compensation	\$ 164,883	\$ 173,732
Deferred revenue	146,051	172,578
Other taxes payable	56,574	44,652
Workers compensation liabilities	22,645	22,645
Interest payable	33,751	99,869
Warranty accrual	5,964	5,237
Litigation reserves	30,672	23,687
Provision for termination payment		100,000
Current liability to discontinued operations	68,545	54,287
Professional fees	3,892	6,413
Income taxes payable	35,551	27,710
Current deferred tax liability		269
Other accrued liabilities	5,108	13,404
	\$ 573,636	\$ 744,483

Investment income (loss) includes the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
	(In thousands)			
Interest and dividend income	\$ 1,160	\$ 1,541	\$ 6,110	\$ 5,314
Gains (losses) on investments, net (1)	6,064	(814)	26,734(2)	6,718(3)

(1) Includes net unrealized gains/(losses) of \$4.2 million and \$(1.4) million, during the three months ended September 30, 2012 and 2011, respectively, and \$11.6 million and \$(8.1) million during the nine months ended September 30, 2012 and 2011, respectively, from our trading securities.

(2) Includes \$14.0 million of realized gain related to debt securities in addition to unrealized gains discussed above.

(3) Includes \$12.9 million of realized gain related to one of our overseas fund investments classified as long-term investments, partially offset by unrealized losses discussed above.

Losses (gains) on sales and retirements of long-lived assets and other expense (income), net includes the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
	(In thousands)			
Losses (gains) on sales, retirements and involuntary conversions of long-lived assets	\$ 2,621	\$ (13,746)	\$ 6,801	\$ (13,612)
Litigation expenses	3,255	2,295	8,791	12,221
Foreign currency transaction losses (gains)	2,766	79	5,021	525
Losses (gains) on derivative instruments	(268)	(679)	(1,281)	(1,540)
Losses (gains) on debt extinguishment				58
Other losses (gains)	1,889	444	2,505	1,248
	\$ 10,263	\$ (11,607)	\$ 21,837	\$ (1,100)

(1) All periods present the operating activities of our wholly owned oil and gas businesses in the United States, Canada and Colombia, our equity interests in joint ventures in Canada and Colombia, and our aircraft logistics operations in Canada as discontinued operations.

(2) Includes our drilling technology and top drive manufacturing, directional drilling, rig instrumentation and software, and construction services. These services represent our other companies that are not aggregated into a reportable operating segment.

(3) Includes earnings (losses), net from unconsolidated affiliates, accounted for using the equity method, of \$(.7) million and \$(1.2) million for the three months ended September 30, 2012 and 2011, respectively, and \$(.7) million and \$3.0 million for the nine months ended September 30, 2012 and 2011, respectively.

(4) Includes earnings (losses), net from unconsolidated affiliates, accounted for using the equity method, of \$(98.8) million and \$34.9 million for the three months ended September 30, 2012 and 2011, respectively, and \$(301.8) million and \$56.3 million for the nine months ended September 30, 2012 and 2011, respectively.

(5) Represents the elimination of inter-segment transactions.

(6) Adjusted income (loss) derived from operating activities is computed by subtracting direct costs, general and administrative expenses, and depreciation and amortization from Operating revenues and then adding Earnings (losses) from unconsolidated affiliates (excluding our proportionate share of full-cost ceiling test writedowns recorded by our oil and gas joint venture). These amounts should not be used as a substitute for those amounts reported in accordance with GAAP. However, management evaluates the performance of our business units and the consolidated company based on several criteria, including adjusted income (loss) derived from operating activities, because it believes that these

financial

Table of Contents

measures accurately reflect our ongoing profitability. A reconciliation of this non-GAAP measure to income (loss) from continuing operations before income taxes, which is a GAAP measure, is provided in the above table.

(7) Includes earnings (losses), net from unconsolidated affiliates, accounted for using the equity method, of \$(2.5) million (excluding \$96.3 million, which represents our proportionate share of full-cost ceiling test writedowns by our oil and gas joint venture) and \$34.9 million for the three months ended September 30, 2012 and 2011, respectively, and \$8.2 million (excluding \$310.0 million, which represents our proportionate share of full-cost ceiling test writedowns by our oil and gas joint venture) and \$56.3 million, for the nine months ended September 30, 2012 and 2011, respectively.

(8) Represents the elimination of inter-segment transactions and unallocated corporate expenses and assets.

(9) Includes \$70.2 million and \$76.9 million of investments in unconsolidated affiliates accounted for using the equity method as of September 30, 2012 and December 31, 2011, respectively.

(10) Includes \$294.1 million of investments in unconsolidated affiliates accounted for using the equity method as of December 31, 2011.

Note 16 Condensed Consolidating Financial Information

Nabors has fully and unconditionally guaranteed all of the issued public debt securities of Nabors Delaware. The following condensed consolidating financial information is included so that separate financial statements of Nabors Delaware are not required to be filed with the SEC. The condensed consolidating financial statements present investments in both consolidated and unconsolidated affiliates using the equity method of accounting.

The following condensed consolidating financial information presents condensed consolidating balance sheets as of September 30, 2012 and December 31, 2011, statements of income (loss) and statements of other comprehensive income for the three and nine months ended September 30, 2012 and 2011, and statements of cash flows for the nine months ended September 30, 2012 and 2011, of (a) Nabors, parent/guarantor, (b) Nabors Delaware, issuer of public debt securities guaranteed by Nabors, (c) the non-guarantor subsidiaries, (d) consolidating adjustments necessary to consolidate Nabors and its subsidiaries and (e) Nabors on a consolidated basis.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders
of Nabors Industries Ltd.:

We have reviewed the accompanying consolidated balance sheet of Nabors Industries Ltd. and its subsidiaries (the Company) as of September 30, 2012, and the related consolidated statements of income and other comprehensive income for the three-month and nine-month periods ended September 30, 2012 and September 30, 2011 and the consolidated statements of cash flows and of changes in equity for the nine-month periods ended September 30, 2012 and September 30, 2011. This interim financial information is the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2011, and the related consolidated statements of income, changes in equity and of cash flows for the year then ended (not presented herein), and in our report dated February 29, 2012, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2011, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

We often discuss expectations regarding our future markets, demand for our products and services, and our performance in our annual and quarterly reports, press releases, and other written and oral statements. Statements relating to matters that are not historical facts are

forward-looking statements within the meaning of the safe harbor provisions of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). These forward-looking statements are based on an analysis of currently available competitive, financial and economic data and our operating plans. They are inherently uncertain and investors should recognize that events and actual results could turn out to be significantly different from our expectations. By way of illustration, when used in this document, words such as anticipate, believe, expect, plan, intend, estimate, project, will, should, could, may, predict and similar expressions identify forward-looking statements.

You should consider the following key factors when evaluating these forward-looking statements:

- fluctuations in worldwide prices of and demand for natural gas and oil;
- fluctuations in levels of natural gas and oil exploration and development activities;
- fluctuations in the demand for our services;
- the existence of competitors, technological changes and developments in the oilfield services industry;
- the existence of operating risks inherent in the oilfield services industry;
- the possibility of changes in tax and other laws and regulations;
- the possibility of political instability, war or acts of terrorism; and

- general economic conditions including the capital and credit markets.

Our businesses depend to a large degree on the level of spending by oil and gas companies for exploration, development and production activities. Therefore, a sustained increase or decrease in the price of natural gas or oil that has a material impact on exploration, development or production activities could also materially affect our financial position, results of operations and cash flows.

The above description of risks and uncertainties is by no means all-inclusive, but is designed to highlight what we believe are important factors to consider. For a more detailed description of risk factors, please refer to Part I, Item 1A. *Risk Factors* in our 2011 Annual Report.

Management Overview

The following discussion and analysis is intended to help the reader understand the results of our operations and our financial condition. This information is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and the accompanying notes thereto.

The majority of our business is conducted through two business lines:

- Our Drilling and Rig Services business line includes our drilling operations for oil and natural gas wells, on land and offshore, and companies engaged in drilling technology, top drive manufacturing, directional drilling, construction services, and rig instrumentation and software.
- Our Completion and Production Services business line includes our well-servicing, fluid logistics, workover operations and our pressure pumping services.

Table of Contents

In addition to these two primary business lines, we have an Oil and Gas operating segment. Our oil and gas exploration, development and production operations are included in our Oil and Gas operating segment, or in discontinued operations in some cases.

The magnitude of customer spending on new and existing wells is the primary driver of our business. Our customers' spending is determined principally by their internally generated cash flow and to a lesser extent by joint venture arrangements and funding from the capital markets. In our Drilling and Rig Services business line, operations have traditionally been driven by natural gas prices, but the majority of current activity is being driven by the price of oil and natural gas liquids from unconventional reservoirs (shales). In our Completion and Production Services business line, operations are primarily driven by oil prices. The Henry Hub natural gas spot price (per Bloomberg) averaged \$2.74 per thousand cubic feet (mcf) during the 12-month period ended September 30, 2012, down from \$4.11 per mcf average during the prior 12 months. West Texas intermediate spot crude oil prices (per Bloomberg) averaged \$95.59 per barrel for the 12 months ended September 30, 2012, up from \$92.80 per barrel average during the preceding 12 months.

Operating revenues and Earnings (losses) from unconsolidated affiliates for the three months ended September 30, 2012 totaled \$1.7 billion, representing an increase of \$24.7 million, or 2%, as compared to the three months ended September 30, 2011, and \$5.1 billion for the nine months ended September 30, 2012, representing an increase of \$706.4 million, or 16%, as compared to the nine months ended September 30, 2011. Adjusted income derived from operating activities and income from continuing operations for the three months ended September 30, 2012 totaled \$225.5 million and \$65.8 million, respectively, representing decreases of 16% and 25%, respectively, compared to the three months ended September 30, 2011. Adjusted income derived from operating activities for the nine months ended September 30, 2012 totaled \$777.1 million, representing an increase of 19%, compared to the nine months ended September 30, 2011. Income from continuing operations for the nine months ended September 30, 2012 totaled \$109.8 million (\$.38 per diluted share), representing a decrease of 57%, compared to the corresponding prior year period.

During the three and nine months ended September 30, 2012, our income (loss) from continuing operations was negatively impacted as a result of charges arising from oil and gas full-cost ceiling test writedowns and other impairments. Earnings (losses) from unconsolidated affiliates includes full-cost ceiling test writedowns of \$96.3 million and \$310.0 million, respectively, for the three and nine months ended September 30, 2012, representing our proportionate share of the writedowns. Income (loss) from continuing operations for the nine months ended September 30, 2012 was further negatively impacted as a result of impairments and other charges, which included \$75.0 million to impair an intangible asset related to the Superior trade name, a provision for the retirement of long-lived assets totaling \$46.2 million in multiple operating segments and goodwill impairment totaling \$26.3 million.

Excluding these charges, our operating results improved as a result of increased demand for our services and products due to increased drilling activity in oil- and liquids-rich shale plays and increased well-servicing activity in the U.S. and Canada. This has more than offset the drop in demand from gas-related plays.

The lower price environment for natural gas has reduced activity in our gas-driven markets and is adversely impacting our pressure pumping business as the reduced activity has created a sooner-than-anticipated oversupply of pumping equipment. Directionally, similar forces are at work on land drilling in gas-driven markets, but to a lesser degree. We anticipate a protracted weak spot market in pressure pumping operations and flat to slightly lower industry rig activity throughout 2012. While the U.S. Land Drilling and Pressure Pumping operating segments face these headwinds, we expect healthy operations in our remaining segments for the remainder of the year. The key factors supporting our views are:

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

- the current term contracts in both our Lower 48 Land Drilling and Pressure Pumping operating segments, combined with new and contracted rig deployments in 2012, will mitigate to a degree the continued reduction in gas drilling activity arising from weaker natural gas pricing;
- the increased activity expected in our International operations throughout the year as the result of new contracts for the deployments in international markets; and
- an expected gradual improvement in our U.S. Offshore results as the pace of permit issuance improves and contributions from a new platform construction project increase throughout 2012.

Table of Contents

The following tables set forth certain information with respect to our reportable segments and rig activity:

Total rig years (3)	364.4	364.4			382.4	349.5	32.9	9%
Rig Hours: (12)								
U.S. Land Well-servicing	217,675	205,610	12,065	6%	651,005	589,140	61,865	11%
Canada Well-servicing	43,849	49,788	(5,939)	(12)%	136,603	132,196	4,407	3%
Total rig hours	261,524	255,398	6,126	2%	787,608	721,336	66,272	9%

(1) All periods present the operating activities of our wholly owned oil and gas businesses in the United States, Canada and Colombia, our equity interests in joint ventures in Canada and Colombia, and our aircraft logistics operations in Canada as discontinued operations.

(2) Includes our drilling technology and top drive manufacturing, directional drilling, rig instrumentation and software, and construction services. These services represent our other companies that are not aggregated into a reportable operating segment.

(3) Includes earnings (losses), net from unconsolidated affiliates, accounted for using the equity method, of \$(.7) million and \$(1.2) million for the three months ended September 30, 2012 and 2011, respectively, and \$(.7) million and \$3.0 million for the nine months ended September 30, 2012 and 2011, respectively.

(4) Includes earnings (losses), net from unconsolidated affiliates, accounted for using the equity method, of \$(98.8) million and \$34.9 million for the three months ended September 30, 2012 and 2011, respectively, and \$(301.8) million and \$56.3 million for the nine months ended September 30, 2012 and 2011, respectively.

(5) This number is so large that it is not meaningful.

(6) Represents the elimination of inter-segment transactions.

(7) Adjusted income (loss) derived from operating activities is computed by subtracting direct costs, general and administrative expenses, and depreciation and amortization from Operating revenues and then adding Earnings (losses) from unconsolidated affiliates (excluding our proportionate share of full-cost ceiling test writedowns recorded by our oil and gas joint venture). These amounts should not be used as a substitute for those amounts reported in accordance with GAAP. However, management evaluates the performance of our business units and the consolidated company based on several criteria, including adjusted income (loss) derived from operating activities, because it believes that these financial measures accurately reflect our ongoing profitability. A reconciliation of this non-GAAP measure to income (loss) from continuing operations before income taxes, which is a GAAP measure, is provided in the above table.

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

(8) Includes earnings (losses), net from unconsolidated affiliates, accounted for using the equity method, of \$(2.5) million (excluding our proportionate share of the full-cost ceiling test writedowns totaling \$96.3 million) and \$34.9 million for the three months ended September 30, 2012 and 2011, respectively, and \$8.2 million (excluding our proportionate share of the full-cost ceiling test writedowns totaling \$310.0 million) and \$56.3 million for the nine months ended September 30, 2012 and 2011, respectively.

(9) Represents the elimination of inter-segment transactions and unallocated corporate expenses.

(10) Excludes well-servicing rigs, which are measured in rig hours. Includes our equivalent percentage ownership of rigs owned by unconsolidated affiliates. Rig years represent a measure of the number of equivalent rigs operating during a given period. For example, one rig operating 182.5 days during a 365-day period represents 0.5 rig years.

Table of Contents

(11) International rig years include our equivalent percentage ownership of rigs owned by unconsolidated affiliates, which totaled 2.5 years and 2.0 years during the three months ended September 30, 2012 and 2011, respectively, and 2.5 years and 2.0 years during the nine months ended September 30, 2012 and 2011, respectively.

(12) Rig hours represents the number of hours that our well-servicing rig fleet operated during the specified periods.

Table of Contents**Segment Results of Operations****Drilling and Rig Services**

Our Drilling and Rig Services business line includes drilling on land and offshore, drilling technology, top drive manufacturing, directional drilling, construction services, and rig instrumentation and software.

U.S. Lower 48 Land Drilling. The results of operations for this segment were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)	
	2012	2011			2012	2011		
(In thousands, except percentages and rig activity)								
Operating revenues	\$ 461,860	\$ 430,895	\$ 30,965	7%	\$ 1,451,928	\$ 1,214,447	\$ 237,481	20%
Adjusted income derived from operating activities	\$ 114,884	\$ 104,877	\$ 10,007	10%	\$ 372,997	\$ 284,203	\$ 88,794	31%
Rig years	193.8	201.8	(8.0)	(4)%	210.2	194.7	15.5	8%

Operating results increased during the three months ended September 30, 2012 compared to the corresponding 2011 period due to higher average dayrates, partially offset by a decrease in drilling activity. Operating results increased during the nine months ended September 30, 2012 compared to the corresponding 2011 period primarily due to higher average dayrates and increased drilling activity, driven by deployment of rigs into oil-rich shale areas. These increases were partially offset by increases in operating costs associated with drilling activity, as well as higher depreciation expense related to new rigs placed into service during the past year.

U.S. Offshore. The results of operations for this segment were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)	
	2012	2011			2012	2011		
(In thousands, except percentages and rig activity)								
Operating revenues	\$ 66,675	\$ 46,069	\$ 20,606	45%	\$ 207,768	\$ 116,807	\$ 90,961	78%
Adjusted income (loss) derived from operating activities	\$ (3,650)	\$ 2,457	\$ (6,107)	(249)%	\$ 14,006	\$ (2,579)	\$ 16,585	643%
Rig years	12.8	10.8	2.0	19%	12.9	9.4	3.5	37%

Operating revenues increased during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods resulting primarily from higher utilization for the MODS® rigs and SuperSundowner™ platform rigs, and profits related to a major construction project.

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

The increase was partially offset by declining activities for the Sundowner® platform rigs in our shallow water areas.

Adjusted income (loss) decreased during the three months ended September 30, 2012 compared to the corresponding 2011 period due to the lower utilization for the Sundowner® platform rigs and workover jackup rigs, which produce higher margins. Adjusted income (loss) increased during the nine months ended September 30, 2012 compared to the corresponding 2011 period due to the overall higher utilization for the MODS® rigs and SuperSundowner™ platform rigs, and profits related to a major construction project.

Table of Contents

Alaska. The results of operations for this segment were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)		
	2012	2011			2012	2011			
	(In thousands, except percentages and rig activity)								
Operating revenues	\$ 27,249	\$ 27,027	\$ 222	1%	\$ 121,958	\$ 100,678	\$ 21,280		21%
Adjusted income derived from operating activities	\$ 3,973	\$ 3,021	\$ 952	32%	\$ 40,288	\$ 22,328	\$ 17,960		80%
Rig years	4.6	4.7	(0.1)	(2)%	5.7	4.8	0.9		19%

The increase in operating results during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods was due to higher average dayrates and increased drilling activity, driven primarily by an overall increase in winter exploration activity in the first and second quarters of 2012, as well as increased camp activity and margins.

Canada. The results of operations for this segment were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)		
	2012	2011			2012	2011			
	(In thousands, except percentages and rig activity)								
Operating revenues	\$ 135,786	\$ 145,587	\$ (9,801)	(7)%	\$ 420,469	\$ 406,004	\$ 14,465		4%
Adjusted income derived from operating activities	\$ 22,889	\$ 21,604	\$ 1,285	6%	\$ 68,458	\$ 58,084	\$ 10,374		18%
Rig years	34.0	41.8	(7.8)	(19)%	34.3	38.0	(3.7)		(10)%
Rig hours	43,849	49,788	(5,939)	(12)%	136,603	132,196	4,407		3%

Operating revenues decreased during the three months ended September 30, 2012 as compared to the corresponding 2011 period as a result of lower drilling and production services activity, driven by lower customer demand and poor weather. Operating revenues increased during the nine months ended September 30, 2012 as compared to the corresponding 2011 period as a result of higher overall average dayrates in drilling and increased activity in production services, partially offset by the lower drilling activity.

Adjusted income derived from operating activities increased during the three and nine months ended September 30, 2012 as compared to the corresponding 2011 periods as a result of an overall increase in drilling average dayrates and production services activity, offsetting the decline in drilling activities. Average drilling dayrates in 2012 continue to be driven by oil exploration and supported by strong oil prices.

Table of Contents

International. The results of operations for this segment were as follows:

	Three Months		Increase/ (Decrease)		Nine Months		Increase/ (Decrease)	
	Ended September 30, 2012	2011			Ended September 30, 2012	2011		
(In thousands, except percentages and rig activity)								
Operating revenues and Earnings from unconsolidated affiliates	\$ 329,245	\$ 281,686	\$ 47,559	17%	\$ 940,332	\$ 809,394	\$ 130,938	16%
Adjusted income derived from operating activities	\$ 30,299	\$ 29,015	\$ 1,284	4%	\$ 67,838	\$ 100,363	\$ (32,525)	(32)%
Rig years	119.2	105.3	13.9	13%	119.3	102.6	16.7	16%

Operating revenues and Earnings from unconsolidated affiliates increased during the three and nine months ended September 30, 2012 as compared to the corresponding 2011 periods as a result of an increase in the utilization of our overall rig fleet, partially offset by lower margins. Adjusted income derived from operating activities decreased during the nine months ended September 30, 2012 as compared to the corresponding 2011 period primarily due to decreases in average dayrates and lower utilization of our jackup rigs in Saudi Arabia, lower offshore activity in Congo, and lower margins in Iraq.

Other Rig Services. The results of operations for this segment were as follows:

	Three Months		Increase/ (Decrease)		Nine Months		Increase/ (Decrease)	
	Ended September 30, 2012	2011			Ended September 30, 2012	2011		
(In thousands, except percentages)								
Operating revenues and Earnings from unconsolidated affiliates	\$ 188,694	\$ 190,744	\$ (2,050)	(1)%	\$ 659,066	\$ 462,779	\$ 196,287	42%
Adjusted income derived from operating activities	\$ 16,207	\$ 20,175	\$ (3,968)	(20)%	\$ 74,232	\$ 42,465	\$ 31,767	75%

Operating results for our Canrig business were higher in the corresponding 2011 period than during the three months ended September 30, 2012 primarily due to a significant project completed in 2011, which had generated revenues of approximately \$18.2 million. Operating results during the three and nine months ended September 30, 2012 as compared to the corresponding 2011 periods reflect continued increases in demand in the United States and Canada drilling markets. Our operating results reflect higher third-party rental of capital equipment and higher sales of RIGWATCH® software and ROCKIT® directional drilling systems, as well as higher top-drive rental sales.

Partially offsetting the decreases during the three months ended September 30, 2012 as compared to the corresponding 2011 period were the positive operating results in Alaska, which had increased demand for our construction and rig-moving business due to an overall increase in the 2012 winter exploration activity. The increases were partially offset by decreased demand for our directional drilling business. Operating costs in the U.S. remained consistent with 2011 levels, while operating costs in Canada decreased during the first half of 2012.

Table of Contents**Completion and Production Services**

Our Completion and Production Services business line includes well-servicing, fluid logistics, workover operations and pressure pumping services.

U.S. Land Well-servicing. The results of operations for this segment were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)	
	2012	2011			2012	2011		
	(In thousands, except percentages and rig activity)							
Operating revenues	\$ 222,034	\$ 189,356	\$ 32,678	17%	\$ 645,740	\$ 503,752	\$ 141,988	28%
Adjusted income derived from operating activities	\$ 32,766	\$ 22,839	\$ 9,927	43%	\$ 83,253	\$ 50,488	\$ 32,765	65%
Rig hours	217,675	205,610	12,065	6%	651,005	589,140	61,865	11%

Operating results increased during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods primarily due to an increase in rig and truck utilization facilitated by capital invested over the past few years to increase our rig and truck fleets as well as frac tanks. Higher equipment utilization and price improvements were driven primarily by sustained higher oil prices.

Pressure Pumping. The results of operations for this segment were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)	
	2012	2011			2012	2011		
	(In thousands, except percentages and rig activity)							
Operating revenues	\$ 381,241	\$ 343,723	\$ 37,518	11%	\$ 1,166,940	\$ 867,512	\$ 299,428	35%
Adjusted income derived from operating activities	\$ 47,218	\$ 65,052	\$ (17,834)	(27)%	\$ 158,222	\$ 152,655	\$ 5,567	4%

Operating revenues increased during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods primarily due to the increased levels of fracturing activity and associated increase in our assets deployed in the major producing areas in the United States.

Adjusted income derived from operating activities decreased during the three months ended September 30, 2012 compared to the corresponding 2011 period primarily due to lower margins on product sales as a result of higher commodity prices.

Table of Contents

Oil and Gas. The results from our U.S. oil and gas unconsolidated affiliate were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)	
	2012	2011			2012	2011		
(In thousands, except percentages)								
Earnings (losses) from unconsolidated affiliate	\$ (98,805)	\$ 34,909	\$ (133,714)	(383)%	\$ (301,801)	\$ 56,285	\$ (358,086)	(636)%
Adjusted income derived from operating activities	\$ (2,486)	\$ 34,909	\$ (37,395)	(107)%	\$ 8,230	\$ 56,285	\$ (48,055)	(85)%

Earnings (losses) from unconsolidated affiliate decreased during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods primarily as a result of full-cost ceiling test writedowns recorded by our unconsolidated U.S. oil and gas joint venture during each of the quarters of 2012, of which our proportionate share totaled \$96.3 million and \$310.0 million, respectively, for the three and nine months ended September 30, 2012. Excluding the writedowns, the operating results for this same joint venture decreased during the three and nine months of 2012 as compared to the corresponding 2011 periods due to sustained lower natural gas prices. Adjusted income derived from operating activities excludes the impact of the full-cost ceiling test writedowns for the three and nine months ended September 30, 2012. There were no such writedowns during 2011.

Discontinued Operations

Our condensed statements of income (loss) from discontinued oil and gas operations for the three and nine months ended September 30, 2012 and 2011 were as follows:

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)	
	2012	2011			2012	2011		
(In thousands, except percentages)								
Operating revenues and Earnings from unconsolidated affiliate								
Oil and Gas	\$ 12,859	\$ 10,630	\$ 2,229	21%	\$ 19,079	\$ 116,046	\$ (96,967)	(84)%
Other Rig Services(1)	\$ 8,334	\$ 9,341	\$ (1,007)	(11)%	\$ 18,750	\$ 21,180	\$ (2,430)	(11)%
Income (loss) from discontinued operations, net of tax								
Oil and Gas	\$ 11,092	\$ (13,978)	\$ 25,070	179%	\$ 35,054	\$ 97,442	\$ (62,388)	(64)%
Other Rig Services(1)	\$ (266)	\$ 1,752	\$ (2,018)	(115)%	\$ (8,333)	\$ (897)	\$ (7,436)	(829)%

(1) Represents our aircraft logistics operations in Canada included in our Other Rig Services operating segment.

In April 2012, we sold our remaining wholly owned oil and gas business in Colombia to an unrelated third party for a cash purchase price of \$72.6 million, which resulted in a pre-tax gain of approximately \$48.5 million. This business was included in our assets held for sale as part of our Oil and Gas operating segment.

In May 2012, we sold some of our U.S. wholly owned oil and gas assets in the Fayetteville Shale, Floyd Shale, and Barnett Shale areas to unrelated third parties for cumulative cash receipts of \$5.7 million, which did not result in any gain or loss. In September 2012, we sold additional assets from our U.S. wholly owned oil and gas business for \$7.3 million, which resulted in a gain of approximately \$3.7 million. These assets were included in our assets held for sale as part of our Oil and

Table of Contents

Gas operating segment. Based on current market conditions, we adjusted the carrying value of our U.S. wholly owned oil and gas business in the second quarter of 2012 to reflect our assessment of its current fair value.

Based on current market conditions, we adjusted the carrying value of our aircraft logistics assets by \$7.8 million in 2012 to reflect our assessment of its current fair value.

OTHER FINANCIAL INFORMATION**General and administrative expenses**

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)		
	2012	2011			2012	2011			
(In thousands, except percentages)									
General and administrative expenses	\$ 131,887	\$ 119,431	\$ 12,456	10%	\$ 401,845	\$ 358,352	\$ 43,493	12%	
General and administrative expenses as a percentage of operating revenues	7.5%	7.4%	0.1%	1%	7.4%	8.3%	(0.9)%	(11)%	

General and administrative expenses increased during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods primarily as a result of increases in wages to support a higher headcount as a result of increased operations for a majority of our operating segments. As a percentage of operating revenues, general and administrative expenses decreased during the nine months ended September 30, 2012 as compared to the corresponding prior year period.

Depreciation and amortization

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)		
	2012	2011			2012	2011			
(In thousands, except percentages)									
Depreciation and amortization expense	\$ 269,597	\$ 234,085	\$ 35,512	15%	\$ 778,234	\$ 684,337	\$ 93,897	14%	

Depreciation and amortization expense increased during the three and nine months ended September 30, 2012 compared to the corresponding 2011 periods primarily as a result of the incremental depreciation expense from (i) newly constructed rigs recently placed into service, (ii) additional completion and production services assets and (iii) rig upgrades and other capital expenditures made during 2011 and 2012.

Table of Contents**Interest expense**

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)
	2012	2011			2012	2011	
	(In thousands, except percentages)						
Interest expense	\$ 63,604	\$ 58,060	\$ 5,544	9.5%	\$ 189,717	\$ 195,781	\$ (6,064) (3.1)%

Interest expense increased during the three months ended September 30, 2012 compared to the corresponding 2011 period primarily as a result of the 2012 interest expense related to our August 2011 issuance of 4.625% senior notes due September 2021 and interest on larger amounts outstanding on our revolving credit facilities.

Interest expense decreased during the nine months ended September 30, 2012 compared to the corresponding 2011 period primarily as a result of the redemption in May 2011 of our remaining 0.94% senior exchangeable notes, aggregate principal amount \$1.4 billion, and the redemption in August 2012 of our 5.375% senior notes, aggregate principal amount \$275 million. The decrease was partially offset by interest expense increases discussed above.

Investment income (loss)

	Three Months Ended September 30,		Increase/ (Decrease)		Nine Months Ended September 30,		Increase/ (Decrease)
	2012	2011			2012	2011	
	(In thousands, except percentages)						
Investment income	\$ 7,224	\$ 727	\$ 6,497	894%	\$ 32,844	\$ 12,032	\$ 20,812 173%

Investment income for the three months ended September 30, 2012 included (i) net unrealized gains of \$4.2 million from our trading securities, (ii) interest and dividend income of \$1.2 million from our cash, other short-term and long-term investments, (iii) a gain of \$1.5 million from a sale of debt securities and (iv) realized gains of \$0.3 million from other long-term investments.

Investment income for the nine months ended September 30, 2012 included (i) a \$14.0 million realized gain related to the sale of some of our debt securities, (ii) net unrealized gains of \$11.6 million from our trading securities, (iii) interest and dividend income of \$6.1 million from our cash, other short-term and long-term investments and (iv) realized gains of \$1.1 million from other long-term investments.

Investment income for the three months ended September 30, 2011 included interest and dividend income of \$1.5 million from our cash, other short-term and long-term investments and realized gains of \$0.6 million from other long-term investments, partially offset by unrealized losses of \$1.4 million from our trading securities.

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

Investment income for the nine months ended September 30, 2011 included (i) a \$12.9 million realized gain recorded in the first quarter of 2011 relating to one of our overseas fund investments classified as long-term investments, (ii) \$1.9 million realized gains from other long-term investments and (iii) \$5.3 million interest and dividend income from our cash, other short-term and long-term investments. Investment income was partially offset by net unrealized losses of \$8.1 million from our trading securities.

Table of Contents**Gains (losses) on sales and retirements of long-lived assets and other income (expense), net**

	Three Months		Increase/ (Decrease)		Nine Months		Increase/ (Decrease)

(In thousands, except percentages)

(1) The number is so large that it is not meaningful.

The amount of gains (losses) on sales and retirements of long-lived assets and other income (expense), net for the three and nine months ended September 30, 2012 was primarily comprised of (i) net losses on sales and retirements of long-lived assets of approximately \$2.6 million and \$6.8 million, respectively, (ii) foreign currency transaction losses of \$2.8 million and \$5.0 million, respectively, and (iii) net increases to our litigation reserves of \$3.3 million and \$8.8 million, respectively.

The amount of gains (losses) on sales and retirements of long-lived assets and other income (expense), net for the three and nine months ended September 30, 2011 was primarily comprised of the \$12.2 million gain recognized in connection with our acquisition of the remaining 50 percent equity interest in Peak and net gains on sales and retirements of long-lived assets of approximately \$1.6 million and \$1.4 million, respectively, partially offset by net increases to our litigation reserves of \$2.3 million and \$12.2 million, respectively.

Impairments and other charges

	Three Months		Increase/ (Decrease)		Nine Months		Increase/ (Decrease)	
	Ended September 30, 2012	2011			Ended September 30, 2012	2011		
Impairments and other charges	\$ 98,072	\$ (98,072)	(100)%	\$ 147,503	\$ 98,072	\$ 49,431	50%	

(In thousands, except percentages)

The amount of impairments and other charges for the nine months ended September 30, 2012 included: (i) \$26.3 million from goodwill impairment associated with our U.S. Offshore and International reporting units, (ii) \$75.0 million related to the impairment of the Superior trade name, and (iii) \$46.2 million for a provision for retirement of long-lived assets in our Canada, U.S. Land Well-servicing and Pressure Pumping operating segments. The impairment of goodwill related to our U.S. Offshore and International reporting units. As of June 30, 2012, these reporting units had no recorded goodwill. The impairments were deemed necessary due to the prolonged uncertainty of utilization of some of our rigs as a result of changes in our customers' plans for future drilling operations in the Gulf of Mexico as well as our international markets.

The Superior trade name was initially classified as a ten-year intangible asset at the date of acquisition in September 2010. The impairment is a result of the decision to cease using the Superior trade name to reduce confusion in the marketplace and enhance the Nabors brand.

Our provision for retirement of long-lived assets included (i) \$15.1 million to Canada operations for functionally obsolete or inoperable rigs, (ii) \$4.6 million to our U.S. Land Well-servicing operations for assets that would require significant repair to return to work and (iii) \$26.5 million to our Pressure Pumping operations for retirement of non-core assets as a result of the consolidation of our Pressure Pumping and U.S. Land Well-servicing segments into one business line, Nabors Completion & Production Services. As we continue to streamline our lines of business, there could be future retirement or impairment charges, which could have a potential impact on our future operating results. In addition, a prolonged period of lower natural gas and oil prices and its potential impact on our utilization and dayrates could result in the recognition of future impairment charges to additional assets if future cash

Table of Contents

flow estimates, based upon information then available to management, indicate that the carrying value of those assets may not be recoverable.

During the third quarter of 2011, we recorded a provision for retirement of long-lived assets to multiple operating segments including \$63.2 million to U.S. Lower 48 Land Drilling, \$26.1 million to International and \$8.9 million to U.S. Land Well-servicing. The retirements related to the decommissioning and retirement of a jackup rig, 116 land rigs and a number of trucks and rigs for well-servicing. These assets were deemed economically non-competitive for the market and were dismantled for parts and scrap.

For additional information on the foregoing, see Note 2 Summary of Significant Accounting Policies and Note 3 Impairments and Other Charges.

Income tax rate

	Three Months		Increase/ (Decrease)	Nine Months		Increase/ (Decrease)		
	Ended September 30, 2012	2011		Ended September 30, 2012	2011			
Effective income tax rate from continuing operations	(6.4)%	29.9%	(36.3)%	(121)%	20.5%	31.8%	(11.3)%	(36)%

Our effective income tax rate during the three and nine months ended September 30, 2012 decreased substantially when compared to the corresponding 2011 periods primarily as a result of a lower proportion of income being generated in the United States during each of these periods. Income generated in the United States is generally taxed at a higher rate than that of other jurisdictions.

We are subject to income taxes in the United States and numerous other jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes. One of the most volatile factors in this determination is the relative proportion of our income or loss being recognized in high- versus low-tax jurisdictions. In the ordinary course of our business, there are many transactions and calculations for which the ultimate tax determination is uncertain. We are regularly audited by tax authorities. Although we believe our tax estimates are reasonable, the final outcome of tax audits and any related litigation could be materially different than what is reflected in our income tax provisions and accruals. The results of an audit or litigation could materially affect our financial position, income tax provision, net income, or cash flows.

Various bills have been introduced in Congress that could reduce or eliminate the tax benefits associated with our reorganization as a Bermuda company. Nabors' reorganization was completed on June 24, 2002. There has been and we expect that there may continue to be legislation proposed by Congress from time to time which, if enacted, could limit or eliminate the tax benefits associated with our reorganization.

Because we cannot predict whether any legislation will ultimately be adopted, no assurance can be given that the tax benefits associated with our reorganization will ultimately accrue to the benefit of the Company and its shareholders. It is possible that future changes to the tax laws

(including tax treaties) could impact our ability to realize the tax savings recorded to date as well as future tax savings resulting from our reorganization.

Table of Contents

Liquidity and Capital Resources

Cash Flows

Our cash flows depend, to a large degree, on the level of spending by oil and gas companies for exploration, development and production activities. Sustained increases or decreases in the price of natural gas or oil could have a material impact on these activities, and could also materially affect our cash flows. Certain sources and uses of cash, such as the level of discretionary capital expenditures, purchases and sales of investments, issuances and repurchases of debt and of our common shares are within our control and are adjusted as necessary based on market conditions. The following is a discussion of our cash flows for the nine months ended September 30, 2012 and 2011.

Operating Activities. Net cash provided by operating activities totaled \$1.1 billion during the nine months ended September 30, 2012 compared to net cash provided by operating activities of \$1.1 billion during the corresponding 2011 period. Net cash provided by operating activities is our primary source of capital and liquidity. Factors affecting changes in operating cash flows are largely the same as those that affect net earnings, with the exception of non-cash expenses such as depreciation and amortization, impairments and other charges, share-based compensation, deferred income taxes and our proportionate share of earnings or losses from unconsolidated affiliates. Net income (loss) adjusted for non-cash components was approximately \$1.3 billion and \$1.1 billion for the nine months ended September 30, 2012 and 2011, respectively. Additionally, changes in working capital items such as increases or decreases in receivables or payables can be a significant factor in the determination of operating cash flows. Changes in working capital items used \$160.9 million and provided \$27.4 million, respectively, in cash flows for the nine months ended September 30, 2012 and 2011.

Investing Activities. Net cash used for investing activities totaled \$1.1 billion during the nine months ended September 30, 2012 compared to net cash used for investing activities of \$1.4 billion during the corresponding 2011 period. The primary use of cash for investing activities is for capital expenditures related to rig-related enhancements, new construction and equipment, as well as sustaining capital expenditures. During the nine months ended September 30, 2012 and 2011, we used cash for capital expenditures totaling \$1.2 billion and \$1.5 billion, respectively.

During the nine months ended September 30, 2012 and 2011, cash of \$128.4 million and \$110.5 million, respectively, was provided in proceeds from sales of assets and recoveries from insurance claims. Additionally during the nine months ended September 30, 2011, we received a distribution of \$143.0 million from an unconsolidated affiliate related to proceeds it received from the sale of some of its oil and gas assets.

Financing Activities. Net cash provided by financing activities totaled \$45.9 million during the nine months ended September 30, 2012 and consisted primarily of increased amounts outstanding from our revolving credit facilities by \$330 million, net, of which the majority was used in connection with the redemption of our \$275 million 5.375% senior notes in August 2012. Net cash used for financing activities was \$97.9 million during the corresponding 2011 period. During the nine months ended September 30, 2011, we used \$1.2 billion in proceeds from our revolving credit facilities to redeem the remaining amounts of our 0.94% senior exchangeable notes. During the nine months ended September 30, 2012 and 2011, we repaid \$380 million and \$700 million, respectively, of borrowings from our revolving credit facilities.

Future Cash Requirements

We currently expect capital expenditures over the next 12 months to approximate \$0.9 - \$1.1 billion. This amount could increase as a result of future projects that meet our risk and return criteria, but in any event our intention is for capital expenditures to stay at an amount less than operating cash flows. We had outstanding purchase commitments of approximately \$0.6 billion at September 30, 2012, primarily for rig-related enhancements, new construction and equipment, as well as sustaining capital expenditures, other operating expenses and purchases of inventory. This amount could change significantly based on market conditions and new business opportunities. The level of our outstanding purchase commitments and our expected level of capital expenditures over the next 12 months represent a number of capital programs that are currently underway or planned. These programs will result in an expansion in the number of land drilling rigs, pressure pumping and well-servicing equipment that we own and operate. We can reduce the planned expenditures if necessary, or increase them if market conditions and new business opportunities warrant it.

We have historically completed a number of acquisitions and will continue to evaluate opportunities to acquire assets or businesses to enhance our operations. Several of our previous acquisitions were funded through issuances of debt or our common shares. Future acquisitions may be paid for using existing cash or by issuing debt or additional shares of our stock. Such capital expenditures and acquisitions will depend on our view of market conditions and other factors.

Table of Contents

Our discontinued operations include our contract for pipeline transmission commitments in the Horn River Basin. During the year ended December 31, 2011, we evaluated current production levels, natural gas prices and the anticipated sales cycle related to the sale of properties corresponding to these commitments. As a result, we recorded liabilities for excess pipeline capacity. At September 30, 2012, we recorded liabilities of \$92.2 million, of which \$68.5 million is included in accrued liabilities and \$23.7 million is included in other long-term liabilities. At December 31, 2011, we recorded liabilities of \$125.7 million, of which \$54.3 million is included in accrued liabilities and \$71.4 million is included in other long-term liabilities. These amounts represent our best estimate of the excess capacity of the pipeline, based upon the estimated sales date of the properties, as compared to the contractual commitments. Our commitments beyond December 31, 2013 could approximate \$274.8 million if the related properties are not sold or developed. Decreases in actual production, natural gas prices or a change in the estimated sales date could result in future charges related to excess capacity of the pipeline that may materially impact our results of operations.

See our discussion of guarantees issued by Nabors that could have a potential impact on our financial position, results of operations or cash flows in future periods included below under Off-Balance Sheet Arrangements (Including Guarantees).

There have been no significant changes to our contractual cash obligations table which was included in our 2011 Annual Report.

We may from time to time seek to retire or purchase our outstanding debt through cash purchases and/or exchanges for equity securities, both in open-market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

See Note 18 Commitments and Contingencies in our 2011 Annual Report for discussion of commitments and contingencies relating to (i) our employment agreement with Mr. Petrello that could result in a cash payment of \$50 million by the Company if his employment were terminated in the event of his death or disability or a cash payment of approximately \$31.1 million if his employment were terminated without cause or in the event of a change in control and (ii) off-balance sheet arrangements (including guarantees).

Financial Condition and Sources of Liquidity

Our primary sources of liquidity are operating cash flows, cash and cash equivalents, short-term and long-term investments and availability under our various revolving credit facilities. As of September 30, 2012, we had cash and short-term investments of \$619.6 million and working capital of \$2.0 billion. We also had \$310 million of availability remaining from a combined total of \$1.5 billion under revolving credit facilities. As of December 31, 2011, we had cash and short-term investments of \$539.5 million and working capital of \$1.3 billion.

During the nine months ended September 30, 2012, we sold our remaining wholly owned oil and gas business in Colombia and some of our U.S. wholly owned oil and gas assets for cumulative cash receipts of \$79.2 million.

We had nine letter-of-credit facilities with various banks as of September 30, 2012. Availability under these facilities as of September 30, 2012 was as follows:

Edgar Filing: NABORS INDUSTRIES LTD - Form 10-Q

	(In thousands)	
Credit available	\$	359,470
Less: Letters of credit outstanding, inclusive of financial and performance guarantees		58,841
Remaining availability	\$	300,629

Our revolving credit facilities contain various covenants and restrictive provisions that limit our ability to incur additional indebtedness, make investments or loans and create liens and require us to maintain the net funded indebtedness to total capitalization ratio, as defined in each agreement, at certain levels. We were in compliance with all covenants under the agreement at September 30, 2012.

Our ability to access capital markets or to otherwise obtain sufficient financing is enhanced by our senior unsecured debt ratings as provided by Fitch Ratings, Moody's Investors Service and Standard & Poor's and our historical ability to access those markets as needed. While there can be no assurances that we will be able to access these markets in the future, we

Table of Contents

believe that we will be able to access capital markets or otherwise obtain financing in order to satisfy any payment obligation that might arise upon purchase of our notes, payment of other debt and that any cash payment due, in addition to our other cash obligations, would not ultimately have a material adverse impact on our liquidity or financial position. A credit downgrade may impact our ability to access credit markets.

Our current cash and investments, projected cash flows from operations, possible dispositions of non-core assets and our revolving credit facilities are expected to adequately finance our purchase commitments, capital expenditures, scheduled debt service requirements, and all other expected cash requirements for the next 12 months.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We may be exposed to market risk through changes in interest rates and foreign-currency risk arising from our operations in international markets as discussed in our 2011 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures. We maintain a set of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. We have investments in certain unconsolidated entities that we do not control or manage. Because we do not control or manage these entities, our disclosure controls and procedures with respect to these entities are necessarily more limited than those we maintain with respect to our consolidated subsidiaries.

The Company's management, with the participation of the Company's Chairman, President and Chief Executive Officer and its Principal Accounting and Financial Officer (the reviewing officers), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on this evaluation, the reviewing officers have concluded that, as of the end of the period, the Company's disclosure controls and procedures are effective, at the reasonable assurance level, in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in reports that it files or furnishes under the Exchange Act and are effective, at the reasonable assurance level, in ensuring that information required to be disclosed by the Company in the reports that it files or furnishes under the Exchange Act is accumulated and communicated to the Company's management, including the reviewing officers, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control Over Financial Reporting. There have not been any changes in our internal control over financial reporting (identified in connection with the evaluation required by paragraph (d) in Rules 13a-15 and 15d-15 under the Exchange Act) during the most recently completed quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Nabors and its subsidiaries are defendants or otherwise involved in a number of lawsuits in the ordinary course of business. We estimate the range of our liability related to pending litigation when we believe the amount and range of loss can reasonably be estimated. We record our best estimate of a loss when the loss is considered probable. When a liability is probable and there is a range of estimated loss with no best estimate in the range, we record the minimum estimated liability related to the lawsuits or claims. As additional information becomes available, we assess the potential liability related to our pending litigation and claims and revise our estimates. Due to uncertainties related to the resolution of lawsuits and claims, the ultimate outcome may differ from our estimates. In the opinion of management and based on liability accruals provided, our ultimate exposure with respect to these pending lawsuits and claims is not expected to have a material adverse effect on our consolidated financial position or cash flows, although they could have a material adverse effect on our results of operations for a particular reporting period.

The previously disclosed purported shareholder derivative lawsuits filed in 2011 and 2012 against Nabors Industries Ltd. and its Board of Directors relating to certain compensation arrangements have been dismissed. The allegations of each lawsuit were substantially similar, alleging that the members of the Board breached their fiduciary duties, wasted corporate assets and committed oppressive conduct against shareholders by agreeing to certain compensation arrangements with two senior officers of the Company, Eugene M. Isenberg and Anthony G. Petrello. The lawsuits sought an award of monetary damages in an unspecified amount, disgorgement by Messrs. Isenberg and Petrello of allegedly excessive compensation in an unspecified amount of at least \$90 million, and reformation of Nabors' compensation practices. The cases were filed, respectively, before Judges Gray Miller and Ewing Werlein in the United States Southern District of Texas, Houston Division, and Judge Mike Miller of the 11th Judicial District Court of Harris County, Texas. The case pending before Judge Gray Miller was voluntarily dismissed on January 31, 2012. Judge Werlein entered a final judgment on July 30, 2012 dismissing the case pending in the United States Southern District of Texas, finding that plaintiffs lacked standing to sue and failed to state a claim for which relief could be granted. Plaintiffs initially appealed Judge Werlein's ruling to the United States Fifth Circuit Court of Appeals, but voluntarily dismissed the appeal on October 22, 2012. Plaintiffs in the remaining state court case filed an agreed motion to dismiss with prejudice on October 22, 2012. The Company does not anticipate any further material activity in connection with these lawsuits.

Refer to Note 12 Commitments and Contingencies for discussion of previously disclosed litigation contingencies.

Item 1A. Risk Factors

There have been no material changes during the three months ended September 30, 2012 to the Risk Factors discussed in our 2011 Annual Report.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

We withheld the following shares of our common stock to satisfy tax withholding obligations in connection with vesting of stock awards during the three months ended September 30, 2012 from the distributions described below. These shares may be deemed to be issuer purchases of shares that are required to be disclosed pursuant to this Item, but were not purchased as part of a publicly announced program to purchase common shares:

(In thousands, except average price paid per share)

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program (2)
July 1 July 31, 2012	1	\$ 14.40		
Aug 1 Aug 31, 2012	<1	\$ 14.63		
Sept 1 Sept 30, 2012	<1	\$ 14.26		

(1) Shares were withheld from employees to satisfy certain tax withholding obligations due in connection with grants of stock under our 1996, 1998 and 2003 Employee Stock Plans and our 1999 Stock Option Plan for Non-Employee Directors. Each plan provides for the withholding of shares to satisfy tax obligations, but does not specify a maximum number of shares that can be withheld for this purpose.

(2) We currently do not intend to make further purchases of our common shares under the share repurchase program that was authorized by the Board of Directors in July 2006.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
