#### Notes to Consolidated Financial Statements (unaudited)

#### Note 1 Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. The results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013.

The following table summarizes the changes in accumulated other comprehensive income (loss) by component, net of tax impact, at the dates and for the periods indicated (in thousands). All amounts are net of income taxes.

<sup>(</sup>a) All other comprehensive income (loss) and reclassifications are related to available-for-sale securities.

In the opinion of management, all adjustments necessary to fairly present the consolidated financial position and consolidated results of operations have been made. All such adjustments are of a normal, recurring nature. All significant intercompany accounts and transactions have been eliminated in consolidation. The consolidated financial statements and notes thereto are presented in accordance with the instructions for Form 10-Q. The information included in the Company s 2012 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission (the SEC ) on March 28, 2013, should be referred to in connection with these unaudited interim financial statements.

None of these options has an exercise price below the average market price of \$9.05 for the three-month period ended June 30, 2013 or \$9.15 for the six-month period ended June 30, 2013, and, therefore they are not deemed to be dilutive. In the fourth quarter of 2011, we issued \$2.5 million in 8.75% subordinated notes maturing on December 16, 2019. On November 15, 2012, the subordinated notes were redeemed in full at par. Warrants for 107,500 shares of common stock at \$5.90 per share were issued in connection with the issuance of the subordinated debt. These warrants expire December 16, 2019 and are included in dilutive securities in the table above.

#### Note 3 Investment Securities continued

In evaluating the non-agency mortgage-backed securities, relevant assumptions, such as prepayment rate, default rate and loss severity on a loan level basis, are used in determining the expected recovery of the contractual cash flows. The balance of the underlying portfolio cash flows are evaluated using ongoing assumptions for loss severities, prepayment rates and default rates. The ongoing assumptions for average prepayment rate, default rate and severity used in the valuations were approximately 16.7%, 7.6%, and 50.9%, respectively. The underlying collateral on substantially all of these securities is fixed rate residential first mortgages located throughout the United States. The underlying collateral includes various percentages of owner-occupied as well as investment related single-family, 2-4 family and condominium residential properties. The securities were purchased at various discounts to par value. Based on the assumptions used in valuing the securities, the Company believes the existing discount and remaining subordinated collateral provide coverage against future credit losses on the downgraded securities for which no OTTI has been recognized.

Government Sponsored Enterprise, Mortgage-Backed Securities: At June 30, 2013, the Company owned mortgage-backed securities (MBSs), including collateralized mortgage obligations (CMOs), with an amortized cost of \$119.9 million and approximate fair value of \$120.0 million issued by government sponsored enterprises (GSEs). As of June 30, 2013 and December 31, 2012, all of the MBSs issued by GSEs were classified as Available for Sale. Unrealized losses on certain of these investments are not considered to be other than temporary, and we have the intent and ability to hold these until they mature or recover the current book value. The contractual cash flows of the investments are guaranteed by the GSE. Accordingly, it is expected that the securities would not be settled at a price less than the amortized cost of the Company s investment. Because the Company does not intend to sell these securities and it is more likely than not the Company will not be required sell these securities before a recovery of its amortized cost, which may be maturity, the Company does not consider the investments to be other-than-temporarily impaired at June 30, 2013.

#### Note 3 Investment Securities continued

**Non-agency mortgage** backed securities: The Company also held private label mortgage-backed securities (PLMBSs), including CMOs, at June 30, 2013 with an amortized cost of \$2.7 million and approximate fair value of \$2.7 million. Management monitors each of these securities on a quarterly basis to identify any deterioration in the credit quality, collateral values and credit support underlying the investments.

During the three and six months ended June 30, 2013, no OTTI charges were recorded in earnings for the PLMBS portfolio. During the six months ended June 30, 2012, the Company identified two PLMBS with a fair value of \$2.5 million that it considered other-than-temporarily-impaired. As prescribed by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 320-10-65, the Company recognized an impairment charge in earnings of \$199.8 thousand (credit component) during the six months ended June 30, 2012. The \$199.8 thousand represents the estimated credit losses on these securities for the six months ended June 30, 2012. One of the securities identified as other-than-temporarily-impaired during the six months ended June 30, 2012 was subsequently sold after the impairment was recognized. The credit losses were estimated by projecting the expected cash flows estimating prepayment speeds, increasing defaults and collateral loss severities. The credit loss portion of the impairment charge represents the difference between the present value of the expected cash flows and the amortized cost basis of the securities. During the three months ended June 30, 2012, no OTTI charges were recorded in earnings for the PLMBS portfolio.

The following table summarizes as of June 30, 2013 the number of CUSIPs, par value, carrying value and fair value of the non-agency MBSs/CMOs by credit rating. The credit rating reflects the lowest credit rating by any major rating agency.

#### (Dollars in thousands)

**Corporate Bonds:** Corporate bonds held by the Company are reviewed on a quarterly basis to identify downgrades by rating agencies as well as deterioration of the underlying collateral or the issuer s ability to service the debt obligation. As of June 30, 2013, the Company owns one corporate bond which is rated above investment grade. The Company does not consider this investment to be OTTI.

**Small Business Administration Pools:** These pools are guaranteed pass-thru with the full faith and credit of the United States government. Because the Company has the ability and intent to hold these investments until a recovery of fair value, which may be maturity, the Company does not consider the investments to be OTTI at June 30, 2013.

**State and Local Governments and Other:** Management monitors these securities on a quarterly basis to identify any deterioration in the credit quality. Included in the monitoring is a review of the credit rating, a financial analysis and certain demographic data on the underlying issuer. The Company does not consider these securities to be OTTI at June 30, 2013.
