(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-36129

SPRINGLEAF HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State of Incorporation)

27-3379612
(I.R.S. Employer Identification No.)

601 N.W. Second Street, Evansville, IN
(Address of principal executive offices)

47708
(Zip Code)

(812) 424-8031

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At May 15, 2014, there were 114,832,895 shares of the registrant's common stock, \$.01 par value, outstanding.

SPRINGLEAF HOLDINGS, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

March 31, 2014

1. Business and Summary of Significant Accounting Policies

Springleaf Holdings, Inc. (SHI or, collectively with its subsidiaries, whether directly or indirectly owned, Springleaf, the Company, we, us, or our) is a Delaware corporation, primarily owned by Springleaf Financial Holdings, LLC (the Initial Stockholder).

Following a series of restructuring transactions completed on October 9, 2013, in connection with the initial public offering of common stock of SHI, all of the common stock of Springleaf Finance, Inc. (SFI) is owned by SHI. On October 21, 2013, SHI completed the initial public offering of its common stock. At March 31, 2014, the Initial Stockholder owned approximately 75% of SHI s common stock. The Initial Stockholder is owned primarily by a private equity fund managed by an affiliate of Fortress Investment Group LLC (Fortress) and AIG Capital Corporation, a subsidiary of American International Group, Inc. (AIG). Prior to the initial public offering of SHI s common stock described below, FCFI Acquisition LLC (FCFI), an affiliate of Fortress, owned an 80% economic interest in SHI and AIG indirectly owned a 20% economic interest in SHI.

SHI is a financial services holding company whose principal subsidiary is SFI. SFI s principal subsidiary is Springleaf Finance Corporation (SFC), a financial services holding company with subsidiaries engaged in the consumer finance and credit insurance businesses.

BASIS OF PRESENTATION

We prepared our condensed consolidated financial statements using generally accepted accounting principles in the United States of America (U.S. GAAP). These statements are unaudited. The year-end condensed balance sheet data was derived from our audited financial statements, but does not include all disclosures required by U.S. GAAP. The statements include the accounts of SHI, its subsidiaries (all of which are wholly owned, except for certain subsidiaries in which we own a 47% equity interest), and variable interest entities (VIEs) in which we hold a controlling financial interest as of the financial statement date.

We eliminated all material intercompany accounts and transactions. We made judgments, estimates, and assumptions that affect amounts reported in our condensed consolidated financial statements and disclosures of contingent assets and liabilities. In management s opinion, the condensed consolidated financial statements include the normal, recurring adjustments necessary for a fair statement of results. Ultimate results could differ from our estimates. We evaluated the effects of and the need to disclose events that occurred subsequent to the balance sheet date. These statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 (2013 Annual Report on Form 10-K). We follow the same significant accounting policies for our interim reporting.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

In connection with SHI's initial public offering of its common stock previously discussed, SFI became a wholly owned subsidiary of SHI. As a result, the financial statements of SFI have been adjusted on a retrospective basis, as appropriate, as financial statements of SHI.

Prior Period Revisions

As disclosed in our 2013 Annual Report on Form 10-K, we identified certain out-of-period errors in preparing our annual consolidated financial statements for the year ended December 31, 2013. In addition to these errors, we had previously recorded and disclosed out-of-period adjustments in prior reporting periods when the errors were discovered. As a result, we revised all previously reported periods included

Table of Contents

in our 2013 Annual Report on Form 10-K. We corrected the errors identified in the fourth quarter of 2013 and included these corrections in the appropriate prior periods. In addition, we reversed all out-of period adjustments previously recorded and disclosed, and included the adjustments in the appropriate periods. After evaluating the quantitative and qualitative aspects of these corrections, we have determined that our previous applicable quarterly condensed financial statements and our annual consolidated financial statements were not materially misstated. However, the financial data for the first quarter of 2013 included in this report has not been previously reported.

In addition, during the first quarter of 2014 we identified that the disclosure of the allowance for finance receivable losses related to our securitized finance receivables at December 31, 2013, was previously incorrectly overstated by \$26.8 million. The parenthetical disclosure of the allowance of consolidated VIEs as of December 31, 2013 on our condensed consolidated balance sheet and the related VIE disclosures in Notes 3 and 8 have been revised in this report to \$153.7 million.

During the first quarter of 2014, we also discovered that our long-term debt associated with securitizations that were issued at a discount and which had embedded derivatives, was incorrectly excluded from the fair value disclosure of our financial instruments measured on a recurring basis. The affected fair value amount has been corrected in Note 17 in this report to include the fair value of our long-term debt measured on a recurring basis of \$363.7 million at December 31, 2013.

Fortress Acquisition

Due to the significance of the ownership interest acquired by FCFI, an affiliate of Fortress, (the *Fortress Acquisition*), the nature of the transaction, and at the direction of our acquirer, we applied push-down accounting to SFI as an acquired business. We revalued our assets and liabilities based on their fair values at the date of the Fortress Acquisition, November 30, 2010, in accordance with business combination accounting standards (*push-down accounting*).

SIGNIFICANT 2014 TRANSACTIONS

Sale of 2009-1 Retained Certificates

On July 30, 2009, we completed a private securitization transaction in which a wholly owned special purpose vehicle sold \$1.2 billion of certificates backed by real estate loans of the American General Mortgage Loan Trust 2009-1 (the *2009-1 Trust*). We initially retained \$786.3 million of the 2009-1 Trust's subordinate mortgage-backed certificates (the *2009-1 Retained Certificates*).

On March 1, 2014, the real estate loans included in the transaction were transferred from held for investment to held for sale, due to management's intent to no longer hold these finance receivables for the foreseeable future. These loans had a carrying value of \$742.0 million at the date of sale and were initially included in net finance receivables.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

We completed the sale of the 2009-1 Retained Certificates on March 31, 2014. As a result of the sale, we deconsolidated the underlying real estate loans and previously issued securitized interests which were reported in long-term debt, as we no longer were considered the primary beneficiary.

Sale of Real Estate Loans

On March 7, 2014, we entered into an agreement to sell, subject to certain closing conditions, performing and non-performing real estate loans. As noted in our 2013 Annual Report on Form 10-K, we completed this sale on March 31, 2014. The real estate loans included in the transaction had a carrying value of \$93.3 million at the date of sale. On March 1, 2014, these loans were transferred from held for investment to held for sale, due to management's intent to no longer hold these finance receivables for the foreseeable future.

Table of Contents

ACCOUNTING PRONOUNCEMENTS ADOPTED

Income Taxes

In July 2013, the Financial Accounting Standards Board (FASB) issued an accounting standards update (ASU), ASU 2013-11, *Income Taxes (Topic 740)*, which clarifies the presentation requirements of unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. The amendments in this ASU became effective prospectively for the Company for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this ASU did not have a material effect on our consolidated statements of financial condition, results of operations, or cash flows.

ACCOUNTING PRONOUNCEMENTS TO BE ADOPTED

Troubled Debt Restructurings

In January 2014, the FASB issued ASU 2014-4, *Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure*, which clarifies when an in substance repossession or foreclosure occurs – that is, when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan receivable should be derecognized and the real estate property recognized. The ASU requires a creditor to reclassify a collateralized consumer mortgage loan to real estate property upon obtaining legal title to the real estate collateral, or the borrower voluntarily conveying all interest in the real estate property to the lender to satisfy the loan through a deed in lieu of foreclosure or similar legal agreement. The ASU is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. We are currently evaluating whether the adoption of this ASU will have a material effect on our consolidated statements of financial condition, results of operations, or cash flows.

ACCOUNTING POLICY ELECTIONS

We made certain policy elections with regard to the issuance of long-term debt related to the 2014-A securitization and have updated our long-term debt policy previously disclosed in our 2013 Annual Report on Form 10-K to reflect these elections. The updated long-term debt policy is presented below:

Long-term Debt

We generally report our long-term debt issuances at the face value of the debt instrument, which we adjust for any unaccreted discount or unamortized premium associated with the debt. We make policy elections on a security by security basis with regard to the methodology used to accrete discounts and premiums. Other than securitized products, we generally accrete discounts and premiums over the contractual life of the

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

security using contractual payment terms. With respect to securitized products, we have historically elected to use estimated prepayment patterns adjusted for changes in estimate over the estimated life of the debt. However, in certain circumstances, including our policy election for the 2014-A securitization, we elect to amortize deferred items over the contractual life of the security. Under either treatment, such accretion is recorded to interest expense. Additionally, we generally accrete other deferred amounts (e.g. issuance costs) following the same method elected on the associated unaccreted discount or premium.

Table of Contents

2. Finance Receivables

Our finance receivable types include personal loans, SpringCastle Portfolio, real estate loans, and retail sales finance as defined below:

- **Personal loans** are secured by consumer goods, automobiles, or other personal property or are unsecured, generally have maximum original terms of four years, and are usually fixed-rate, fixed-term loans. At March 31, 2014, \$1.4 billion of personal loans, or 45%, were secured by collateral consisting of titled personal property (such as automobiles), \$1.3 billion, or 39%, were secured by consumer household goods or other items of personal property, and the remainder was unsecured. We require credit-related property and casualty insurance, when needed, to protect our interest in the property pledged as collateral.
- **SpringCastle Portfolio** are loans jointly acquired from HSBC Finance Corporation and certain of its affiliates (collectively, HSBC) on April 1, 2013 through a joint venture in which we own a 47% equity interest. These loans include unsecured loans and loans secured by subordinate residential real estate mortgages (which we service as unsecured loans due to the fact that the liens are subordinated to superior ranking security interests). The SpringCastle Portfolio includes both closed-end accounts and open-end lines of credit. These loans are in a liquidating status and vary in substance and form from our originated loans.
- **Real estate loans** are secured by first or second mortgages on residential real estate, generally have maximum original terms of 360 months, and are usually considered non-conforming. Real estate loans may be closed-end accounts or open-end home equity lines of credit and are primarily fixed-rate products.
- **Retail sales finance** includes retail sales contracts and revolving retail accounts. Retail sales contracts are closed-end accounts that represent a single purchase transaction. Revolving retail accounts are open-end accounts that can be used for financing repeated purchases from the same merchant. Retail sales contracts are secured by the personal property designated in the contract and generally have maximum original terms of 60 months. Revolving retail accounts are secured by the goods purchased and generally require minimum monthly payments based on the amount financed calculated after the most recent purchase or outstanding balances. In January 2013, we ceased purchasing retail sales contracts and revolving retail accounts.

* Gross receivables are defined below:

- ***finance receivables purchased as a performing receivable*** gross finance receivables equal the unpaid principal balance (UPB) for interest bearing accounts and the gross remaining contractual payments for precompute accounts plus the remaining unearned discount, net of premium established at the time of purchase to reflect the finance receivable balance at its fair value;
- ***finance receivables originated subsequent to the Fortress Acquisition*** gross finance receivables equal the UPB for interest bearing accounts and the gross remaining contractual payments for precompute accounts; and
- ***purchased credit impaired finance receivables*** gross finance receivables equal the remaining estimated cash flows less the current balance of accretable yield on the purchased credit impaired accounts.

Included in the table above are personal loans totaling \$1.8 billion at March 31, 2014 and \$1.6 billion at December 31, 2013, SpringCastle Portfolio loans totaling \$2.3 billion at March 31, 2014 and \$2.5 billion at December 31, 2013, and real estate loans totaling \$4.8 billion at March 31, 2014 and \$5.7 billion at December 31, 2013 associated with securitizations that remain on our balance sheet. The carrying amount of consolidated long-term debt associated with securitizations totaled \$7.0 billion at March 31, 2014 and \$7.3 billion at December 31, 2013. See Note 8 for further discussion regarding our securitization transactions. Also included in the table above are finance receivables totaling \$1.0 billion at December 31, 2013, which were pledged as collateral for our secured term loan, which we fully repaid in March 2014. See Note 7 for further discussion of the repayment of our secured term loan.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Unused lines of credit extended to customers by the Company were as follows:

(dollars in thousands)	March 31, 2014	December 31, 2013
Personal loans	\$ 2,384	\$ 4,996
SpringCastle Portfolio	367,086	366,060
Real estate loans	30,627	32,338
Total	\$ 400,097	\$ 403,394

Unused lines of credit on our personal loans can be suspended if one of the following occurs: the value of the collateral declines significantly; we believe the borrower will be unable to fulfill the repayment obligations; or any other default by the borrower of any material obligation under the agreement. Unused lines of credit on our real estate loans and the SpringCastle Portfolio secured by subordinate residential real estate mortgages can be suspended if one of the following occurs: (1) the value of the real estate declines significantly below the property's initial appraised value; (2) we believe the borrower will be

Table of Contents

unable to fulfill the repayment obligations because of a material change in the borrower's financial circumstances; or (3) any other default by the borrower of any material obligation under the agreement occurs. Unused lines of credit on home equity lines of credit, including the SpringCastle Portfolio secured by subordinate residential real estate mortgages, can be terminated for delinquency. Unused lines of credit on the unsecured loans of the SpringCastle Portfolio can be terminated at our discretion.

CREDIT QUALITY INDICATORS

We consider the delinquency status and nonperforming status of the finance receivable as our credit quality indicators.

We accrue finance charges on revolving retail finance receivables up to the date of charge-off at 180 days past due. We had \$0.3 million of revolving retail finance receivables that were more than 90 days past due and still accruing finance charges at March 31, 2014, compared to \$0.4 million at December 31, 2013. Our personal loans, SpringCastle Portfolio, and real estate loans do not have finance receivables that were more than 90 days past due and still accruing finance charges.

Delinquent Finance Receivables

We consider the delinquency status of the finance receivable as our primary credit quality indicator. We monitor delinquency trends to manage our exposure to credit risk. We consider finance receivables 60 days or more past due as delinquent and consider the likelihood of collection to decrease at such time.

The following is a summary of net finance receivables by type by days delinquent:

(dollars in thousands)	Personal Loans	SpringCastle Portfolio	Real Estate Loans	Retail Sales Finance	Total
March 31, 2014					
Net finance receivables:					
60-89 days past due	\$ 22,552	\$ 38,619	\$ 95,727	\$ 889	\$ 157,787
90-119 days past due	20,145	29,966	52,280	665	103,056
120-149 days past due	18,919	24,309	47,002	823	91,053
150-179 days past due	16,877	23,808	39,938	555	81,178

Table of Contents***Nonperforming Finance Receivables***

We also monitor finance receivable performance trends to evaluate the potential risk of future credit losses. At 90 days or more past due, we consider our finance receivables to be nonperforming. Once the finance receivables are considered as nonperforming, we consider them to be at increased risk for credit loss.

Our performing and nonperforming net finance receivables by type were as follows:

(dollars in thousands)	Personal Loans	SpringCastle Portfolio	Real Estate Loans	Retail Sales Finance	Total
March 31, 2014					
Performing	\$ 3,124,992	\$ 2,259,256	\$ 6,498,888	\$ 79,920	\$ 11,963,056
Nonperforming	57,877	83,319	469,520	2,277	612,993
Total	\$ 3,182,869	\$ 2,342,575	\$ 6,968,408	\$ 82,197	\$ 12,576,049
December 31, 2013					
Performing	\$ 3,114,493	\$ 2,393,582	\$ 7,457,013	\$ 96,224	\$ 13,061,312
Nonperforming	57,211	111,767	525,336	2,687	697,001
Total	\$ 3,171,704	\$ 2,505,349	\$ 7,982,349	\$ 98,911	\$ 13,758,313

PURCHASED CREDIT IMPAIRED FINANCE RECEIVABLES

As a result of the Fortress Acquisition, we applied push-down accounting and adjusted the carrying value of our finance receivables (the FA Loans) to their fair value on November 30, 2010. For purchased finance receivables, such as the SpringCastle Portfolio (SCP Loans), we also record these loans at fair value on the day of purchase.

As part of the acquisition of the SpringCastle Portfolio, we determined that at April 1, 2013, acquired loans with contractually required principal and interest of \$1.9 billion, expected undiscounted cash flows of \$1.2 billion, and a fair value of \$748.9 million, were credit impaired.

We include the carrying amount (which initially was the fair value) of our purchased credit impaired finance receivables in net finance receivables, less allowance for finance receivable losses. Prepayments reduce the outstanding balance, contractual cash flows, and cash flows expected to be collected.

Information regarding these purchased credit impaired finance receivables was as follows:

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

(dollars in thousands)	SCP Loans	FA Loans	Total
March 31, 2014			
Carrying amount, net of allowance	\$ 469,032	\$ 1,111,290	\$ 1,580,322
Outstanding balance	\$ 781,637	\$ 1,593,697	\$ 2,375,334
Allowance for purchased credit impaired finance receivable losses	\$	\$ 64,950	\$ 64,950
December 31, 2013			
Carrying amount, net of allowance	\$ 530,326	\$ 1,257,047	\$ 1,787,373
Outstanding balance	\$ 851,211	\$ 1,791,882	\$ 2,643,093
Allowance for purchased credit impaired finance receivable losses	\$	\$ 57,334	\$ 57,334

Table of Contents

The allowance for purchased credit impaired finance receivable losses at March 31, 2014 and December 31, 2013, reflected the net carrying value of these purchased credit impaired finance receivables being higher than the present value of the expected cash flows.

Changes in accretable yield for purchased credit impaired finance receivables were as follows:

(dollars in thousands)	SCP Loans	FA Loans	Total
Three Months Ended March 31, 2014			
Balance at beginning of period	\$ 325,201	\$ 771,491	\$ 1,096,692
Accretion	(20,002)	(29,004)	(49,006)
Transfers to finance receivables held for sale		(56,661)	(56,661)
Disposals of finance receivables*	(11,617)	(5,497)	(17,114)
Balance at end of period	\$ 293,582	\$ 680,329	\$ 973,911
Three Months Ended March 31, 2013			
Balance at beginning of period	\$	\$ 629,200	\$ 629,200
Accretion		(33,034)	(33,034)
Disposals of finance receivables*		(7,129)	(7,129)
Balance at end of period	\$	\$ 589,037	\$ 589,037

* Disposals of finance receivables represent finance charges forfeited due to purchased credit impaired finance receivables charged-off during the period.

TROUBLED DEBT RESTRUCTURED FINANCE RECEIVABLES

Information regarding troubled debt restructured (TDR) finance receivables was as follows:

(dollars in thousands)	Real Estate Loans
March 31, 2014	
TDR gross finance receivables	\$ 1,351,400
TDR net finance receivables	\$ 1,356,449
Allowance for TDR finance receivable losses	\$ 192,922
December 31, 2013	
TDR gross finance receivables	\$ 1,375,230
TDR net finance receivables	\$ 1,380,223
Allowance for TDR finance receivable losses	\$ 176,455

We have no commitments to lend additional funds on our TDR finance receivables.

TDR average net receivables and finance charges recognized on TDR finance receivables were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Real Estate Loans		
TDR average net receivables	\$ 1,426,563	\$ 911,998
TDR finance charges recognized	\$ 17,668	\$ 14,967

Table of Contents

Information regarding the new volume of the TDR finance receivables was as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Real Estate Loans		
Number of TDR accounts	994	2,053
Pre-modification TDR net finance receivables	\$ 103,281	\$ 164,779
Post-modification TDR net finance receivables	\$ 94,183	\$ 172,248

Net finance receivables that were modified as TDR finance receivables within the previous 12 months and for which there was a default during the period to cause TDR finance receivables to be considered nonperforming were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Real Estate Loans		
Number of TDR accounts	229	224
TDR net finance receivables*	\$ 15,503	\$ 18,250

* Represents the corresponding balance of TDR net finance receivables at the end of the month in which they defaulted.

3. Allowance for Finance Receivable Losses

Changes in the allowance for finance receivable losses by finance receivable type were as follows:

(dollars in thousands)	Personal Loans	SpringCastle Portfolio	Real Estate Loans	Retail Sales Finance	Total
Three Months Ended March 31, 2014					
Balance at beginning of period	\$ 94,880	\$ 1,056	\$ 235,549	\$ 1,840	\$ 333,325
Provision for finance receivable losses (a)	47,249	52,950	58,513	2,166	160,878
Charge-offs	(44,373)	(56,889)	(27,568)	(1,605)	(130,435)
Recoveries (b)	4,684	3,721	3,516	289	12,210
Transfers to finance receivables held for sale (c)			(10,084)		(10,084)
Balance at end of period	\$ 102,440	\$ 838	\$ 259,926	\$ 2,690	\$ 365,894
Three Months Ended March 31, 2013					

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Balance at beginning of period	\$	66,580	\$	\$	113,813	\$	2,260	\$	182,653
Provision for finance receivable losses (a)		25,021			69,075		390		94,486

Recoveries		9,088			2,458		2,327		13,873
Balance at end of period	\$	57,920	\$	\$	151,183	\$	1,650	\$	210,753

Table of Contents

(a) Components of provision for finance receivable losses on our real estate loans were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Real estate loans		
Provision for finance receivable losses		
Non-credit impaired finance receivables	\$ 12,883	\$ 19,571
Purchased credit impaired finance receivables	20,004	22,262
TDR finance receivables	25,626	27,242
Total	\$ 58,513	\$ 69,075

(b) Recoveries during the three months ended March 31, 2014 included \$2.2 million of real estate loan recoveries resulting from a sale of previously charged-off real estate loans in March 2014, net of a \$0.2 million reserve for subsequent buybacks.

(c) During the first quarter of 2014, we decreased the allowance for finance receivable losses as a result of the transfer of \$835.3 million of real estate loans from finance receivables held for investment to finance receivables held for sale due to management's intent to no longer hold these finance receivables for the foreseeable future.

(d) Effective March 31, 2013, we charge off to the allowance for finance receivable losses personal loans that are 180 days past due. Previously, we charged-off to the allowance for finance receivable losses personal loans on which payments received in the prior six months totaled less than 5% of the original loan amount. As a result of this change, we recorded \$13.3 million of additional charge-offs in March 2013.

Included in the allowance for finance receivable losses are allowances associated with securitizations that totaled \$154.8 million at March 31, 2014 and \$153.7 million at December 31, 2013. See Note 8 for further discussion regarding our securitization transactions.

The carrying value charged-off for purchased credit impaired loans was as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Charged-off against provision for finance receivable losses:		
SCP Loans	\$ 18,793	\$ 9,842
FA Loans gross charge-offs*	6,425	9,842

* Represents additional impairment recognized, subsequent to the establishment of the pools of purchased credit impaired loans, related to loans that have been foreclosed and transferred to real estate owned status.

Table of Contents**4. Finance Receivables Held for Sale**

As discussed in Note 1, on March 1, 2014, we transferred \$825.2 million of real estate loans (after deducting allowance for finance receivable losses) from finance receivables held for investment to held for sale due to management's intent to no longer hold these finance receivables for the foreseeable future. On March 31, we sold finance receivables held for sale totaling \$835.3 million and related trust assets and recorded a net gain at the time of sale of \$55.2 million primarily resulting from the reversal of the remaining un-accreted push-down accounting basis for these finance receivables, less allowance for finance receivable losses that we established at the date of the Fortress Acquisition.

We did not have any transfer activity between finance receivables held for investment to finance receivables held for sale during the first quarter of 2013.

We did not repurchase any loans during the three months ended March 31, 2014. We repurchased 15 loans for \$2.3 million during the three months ended March 31, 2013 because these loans were reaching the defined delinquency limits or had breached the contractual representations and warranties under the loan sale agreements. At March 31, 2014, there were no unresolved recourse requests.

The activity in our reserve for sales recourse obligations was as follows:

(dollars in thousands) At or for the Three Months Ended March 31,	2014	2013
Balance at beginning of period	\$ 4,702	\$ 4,863
Provision for/(reduction in) recourse obligations		322
Recourse losses		(386)
Balance at end of period	\$ 4,702	\$ 4,799

Table of Contents**5. Investment Securities****AVAILABLE-FOR-SALE SECURITIES**

Cost/amortized cost, unrealized gains and losses, and fair value of available-for-sale securities by type were as follows:

(dollars in thousands)	Cost/ Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
March 31, 2014

We continue to monitor unrealized loss positions for potential impairments. During the three months ended March 31, 2014, we did not recognize any other-than-temporary impairment credit loss write-downs to investment revenues. During the three months ended March 31, 2013, we recognized other-than-temporary impairment credit loss write-downs to investment revenues on RMBS totaling \$26 thousand.

Table of Contents

Changes in the cumulative amount of credit losses (recognized in earnings) on other-than-temporarily impaired available-for-sale securities were as follows:

(dollars in thousands) At or for the Three Months Ended March 31,	2014	2013
Balance at beginning of period	\$ 1,523	\$ 1,650
Additions:		
Due to other-than-temporary impairments:		
Impairment previously recognized		26
Reductions:		
Realized due to dispositions with no prior intention to sell	(205)	
Balance at end of period	\$ 1,318	\$ 1,676

The fair values of available-for-sale securities sold or redeemed and the resulting realized gains, realized losses, and net realized gains (losses) were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Fair value	\$ 57,324	\$ 276,013
Realized gains	\$ 1,989	\$ 951
Realized losses	(167)	(350)
Net realized gains	\$ 1,822	\$ 601

Contractual maturities of fixed-maturity available-for-sale securities at March 31, 2014 were as follows:

(dollars in thousands) March 31, 2014	Fair Value	Amortized Cost
Fixed maturities, excluding mortgage-backed securities:		
Due in 1 year or less	\$ 11,396	\$ 11,371
Due after 1 year through 5 years	165,712	161,982
Due after 5 years through 10 years	123,347	121,975
Due after 10 years	152,363	145,219
Mortgage-backed securities	102,771	100,578
Total	\$ 555,589	\$ 541,125

Actual maturities may differ from contractual maturities since borrowers may have the right to call or prepay obligations. We may sell investment securities before maturity to achieve corporate requirements and investment strategies.

Table of Contents**TRADING SECURITIES**

The fair value of trading securities by type was as follows:

(dollars in thousands)	March 31, 2014	December 31, 2013

6. Transactions with Affiliates of Fortress or AIG**SUBSERVICING AND REFINANCE AGREEMENTS**

Nationstar Mortgage LLC (Nationstar) subservices the real estate loans of MorEquity, Inc. (MorEquity), our indirect wholly owned subsidiary, and two other indirect subsidiaries (collectively, the Owners), including certain securitized real estate loans. Investment funds managed by affiliates of Fortress indirectly own a majority interest in Nationstar.

The Owners paid Nationstar fees for its subservicing and to facilitate the repayment of our real estate loans through refinancings with other lenders as follows:

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

(dollars in thousands)

Three Months Ended March 31,

	2014	2013
Subservicing fees	\$ 2,008	\$ 2,372
Refinancing concessions	\$	\$ 253

INVESTMENT MANAGEMENT AGREEMENT

Logan Circle Partners, L.P. (Logan Circle) provides investment management services for our investments. Logan Circle is a wholly owned subsidiary of Fortress. Costs and fees incurred for these investment management services totaled \$0.3 million for the three months ended March 31, 2014 and 2013.

Table of Contents**REINSURANCE AGREEMENTS**

Merit Life Insurance Co. (Merit), our indirect wholly owned subsidiary, enters into reinsurance agreements with subsidiaries of AIG, for reinsurance of various group annuity, credit life, and credit accident and health insurance where Merit reinsures the risk of loss. The reserves for this business fluctuate over time and, in some instances, are subject to recapture by the insurer. Reserves recorded by Merit for reinsurance agreements with subsidiaries of AIG totaled \$45.1 million at March 31, 2014 and \$45.6 million at December 31, 2013.

JOINT VENTURE

NRZ Consumer LLC, a subsidiary of New Residential Investment Corp., owns a 30% equity interest in the joint venture established in conjunction with the purchase of the SpringCastle Portfolio on April 1, 2013. As of March 31, 2014, New Residential Investment Corp. was managed by an affiliate of Fortress.

SALE OF 2009-1 RETAINED CERTIFICATES

In February 2014, Third Street Funding LLC, an affiliate of SFC and the owner of the 2009-1 Retained Certificates, offered the Certificates for sale in a competitive auction. On March 6, 2014, Merrill Lynch, Pierce, Fenner and Smith Incorporated (MLPFS) was declared the winning bidder and we entered into an agreement to sell, subject to certain closing conditions, all of our interest in the 2009-1 Retained Certificates to MLPFS for a price of \$738.0 million. Concurrently, New Residential Investment Corp. and MLPFS entered into an agreement pursuant to which New Residential Investment Corp. agreed to purchase approximately 75% of the 2009-1 Retained Certificates. As of March 31, 2014, New Residential Investment Corp. was managed by an affiliate of Fortress. See Note 1 for further information on this sale.

7. Long-term Debt

Principal maturities of long-term debt (excluding projected securitization repayments by period) by type of debt at March 31, 2014 were as follows:

(dollars in thousands)	Retail Notes	Medium Term Notes	Securitized	Junior Subordinated Debt	Total
Interest rates (a)	5.40%-7.50%	5.40%-8.25%	1.27%-6.00%	6.00%	
Second quarter 2014	\$ 10,887	\$	\$	\$	\$ 10,887
Third quarter 2014	8,564				8,564
Fourth quarter 2014	335,486				335,486
First quarter 2015	16,575				16,575

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Remainder of 2015	30,679	750,000	780,679
2016		375,000	375,000
2017		2,360,837	2,360,837
2018			
2019-2067		1,250,000	350,000
Securitizations (b)			7,006,531
Total principal maturities	\$ 402,191	\$ 4,735,837	\$ 7,006,531
			\$ 350,000
Total carrying amount	\$ 389,601	\$ 4,187,231	\$ 6,990,247(c)
			\$ 171,595
			\$ 11,738,674

(a) The interest rates shown are the range of contractual rates in effect at March 31, 2014.

(b) Securitizations are not included in above maturities by period due to their variable monthly repayments. See Note 8 for further information on our long-term debt associated with securitizations.

(c) The net carrying amount of our long-term debt associated with certain securitizations that were either 1) issued at a premium or discount or 2) revalued at a premium or discount based on its fair value at the time of the Fortress Acquisition or 3)

Table of Contents

recorded at fair value on a recurring basis in circumstances when embedded derivative within the securitization structure cannot be separately accounted for at fair value.

GUARANTY AGREEMENTS

On December 30, 2013, SHI entered into Guaranty Agreements whereby it agreed to fully and unconditionally guarantee the payment of principal of, premium (if any), and interest on approximately \$5.2 billion aggregate principal amount of senior notes on a senior basis and \$350.0 million aggregate principal amount of a junior subordinated debenture (collectively, the notes) on a junior subordinated basis issued by SFC. The notes consist of the following: 8.250% Senior Notes due 2023; 7.750% Senior Notes due 2021; 6.00% Senior Notes due 2020; a 60-year junior subordinated debenture; and all senior notes outstanding on December 30, 2013, issued pursuant to the Indenture dated as of May 1, 1999 (the 1999 Indenture), between SFC and Wilmington Trust, National Association (the successor trustee to Citibank N.A.). As of December 30, 2013, approximately \$3.9 billion aggregate principal amount of senior notes were outstanding under the 1999 Indenture. The 60-year junior subordinated debenture underlies the trust preferred securities sold by a trust sponsored by SFC. On December 30, 2013, SHI entered into a Trust Guaranty Agreement whereby it agreed to fully and unconditionally guarantee the related payment obligations under the trust preferred securities.

REPURCHASE OR REPAYMENT OF DEBT

In connection with our liability management efforts, we or our affiliates from time to time have purchased, or may in the future purchase, portions of our outstanding indebtedness. Any such purchases may be made through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices, as well as with such consideration as we or any such affiliates may determine. Our plans are dynamic and we may adjust our plans in response to changes in our expectations and changes in market conditions.

On March 31, 2014, Springleaf Financial Funding Company (SFFC) prepaid, without penalty or premium, the entire \$750.0 million outstanding principal balance of the secured term loan, plus accrued and unpaid interest. Effective upon the prepayment, all obligations of SFFC, SFC, and most of the consumer finance operating subsidiaries of SFC under the secured term loan (other than contingent reimbursement obligations and indemnity obligations) were terminated and all guarantees and security interests were released.

8. Variable Interest Entities

As part of our overall funding strategy and as part of our efforts to support our liquidity from sources other than our traditional capital market sources, we have transferred certain finance receivables to VIEs for securitization transactions. Since these transactions involve securitization trusts required to be consolidated, the securitized assets and related liabilities are included in our condensed consolidated financial statements and are accounted for as secured borrowings.

CONSOLIDATED VIES

We evaluated the securitization trusts and determined that these entities are VIEs of which we are the primary beneficiary; therefore, we consolidate such entities. We are deemed to be the primary beneficiaries of these VIEs because we have the ability to direct the activities of each VIE that most significantly impact the entity's economic performance and the obligation to absorb losses and the right to receive benefits that are potentially significant to the VIE. Such ability stems from SHI's and/or its affiliates' contractual right to service the securitized finance receivables. In instances where servicing is performed by parties other than SHI or its affiliates, this ability arises from SHI's or its affiliates' prescription of detailed servicing standards and procedures that the servicer must observe (and which can be modified only with our consent), and from our mandatory involvement in certain loan workouts and

Table of Contents

disposals of defaulted loans or related collateral. Our retained subordinated notes and residual interest trust certificates expose us to potentially significant losses and potentially significant returns.

The asset-backed and mortgage-backed securities issued by the securitization trusts are supported by the expected cash flows from the underlying securitized finance receivables. Cash inflows from these finance receivables are distributed to investors and service providers in accordance with each transaction's contractual priority of payments ("waterfall") and, as such, most of these inflows must be directed first to service and repay each trust's senior notes or certificates held principally by third-party investors. After these senior obligations are extinguished, substantially all cash inflows will be directed to the subordinated notes until fully repaid and, thereafter, to the residual interest that we own in each trust. We retain interests in these securitization transactions, including senior and subordinated securities issued by the VIEs and residual interests. We retain credit risk in the securitizations because our retained interests include the most subordinated interest in the securitized assets, which are the first to absorb credit losses on the securitized assets. We expect that any credit losses in the pools of securitized assets will likely be limited to our subordinated and residual retained interests. We have no obligation to repurchase or replace qualified securitized assets that subsequently become delinquent or are otherwise in default.

The carrying amounts of consolidated VIE assets and liabilities associated with our securitization trusts were as follows:

(dollars in thousands)	March 31, 2014	December 31, 2013
Assets		
Finance receivables:		
Personal loans	\$ 1,758,946	\$ 1,572,070
SpringCastle Portfolio	2,342,575	2,505,349
Real estate loans	4,813,898	5,694,176
Allowance for finance receivable losses	154,810	153,657
Restricted cash	503,066	522,752
Liabilities		
Long-term debt	\$ 6,990,247	\$ 7,288,535

2014 Consumer Loan Securitization

On March 26, 2014, we completed a private securitization transaction in which a wholly owned special purpose vehicle of SFC sold \$559.3 million of notes backed by personal loans held by Springleaf Funding Trust 2014-A (the "2014-A Trust"), at a 2.62% weighted average yield. We sold the asset-backed notes for \$559.2 million, after the price discount but before expenses and a \$6.4 million interest reserve requirement. We initially retained \$32.9 million of the 2014-A Trust's subordinate asset-backed notes.

Sales of Previously Retained Notes

As discussed in Note 1, the Company's remaining beneficial interests in the 2009-1 Trust were sold through an unaffiliated initial purchaser on March 31, 2014. As a result of the sale, we deconsolidated the underlying real estate loans and previously issued securitized interests which were

reported in long-term debt, as we no longer were considered the primary beneficiary.

During the three months ended March 31, 2013, we did not sell any previously retained mortgage-backed or asset-backed notes.

Repayment of 2013-BAC Trust Notes

On September 25, 2013, we completed a private securitization transaction in which Springleaf Funding Trust 2013-BAC, a wholly owned special purpose vehicle of SFC, issued \$500 million of notes backed by

Table of Contents

an amortizing pool of personal loans acquired from subsidiaries of SFC. On March 27, 2014, we repaid the entire \$231.3 million outstanding principal balance of the notes, plus accrued and unpaid interest.

VIE Interest Expense

Other than our retained subordinate and residual interests in the consolidated securitization trusts, we are under no obligation, either contractually or implicitly, to provide financial support to these entities. Consolidated interest expense related to these VIEs three months ended March 31, 2014 and 2013 totaled \$66.8 million and \$30.2 million, respectively.

UNCONSOLIDATED VIE

We have established a VIE that holds the junior subordinated debt. We are not the primary beneficiary, and we do not have a variable interest in this VIE. Therefore, we do not consolidate such entity. We had no off-balance sheet exposure to loss associated with this VIE at March 31, 2014 or December 31, 2013.

9. Derivative Financial Instruments

Our principal borrowing subsidiary is SFC. During the three months ended March 31, 2014, SFC did not have any derivative activity. However, SFC has used derivative financial instruments in managing the cost of its debt and its return on finance receivables held for sale, but was neither a dealer nor a trader in derivative financial instruments.

In January 2013, we reclassified \$0.2 million of deferred net gain from accumulated other comprehensive income or loss to interest expense related to SFC's election to discontinue and terminate one of its cash flow hedges in 2012. On August 5, 2013, SFC terminated its remaining cross currency interest rate swap agreement with AIG Financial Products Corp., a subsidiary of AIG, and recorded a loss of \$1.9 million in other revenues - other. Immediately following this termination, we had no derivative financial instruments.

For the three months ended March 31, 2013, we recognized \$4.2 million of net gains on SFC's non-designated hedging instruments in other revenues - other.

Derivative adjustments included in other revenues - other consisted of the following:

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

(dollars in thousands)

Three Months Ended March 31,

2013

Mark to market losses	\$	(16,875)
Net interest income		3,598
Credit valuation adjustment gains		40
Total	\$	(13,237)

SFC was exposed to credit risk if counterparties to its swap agreement did not perform. SFC regularly monitored counterparty credit ratings throughout the term of the agreement. SFC's exposure to market risk was limited to changes in the value of its swap agreement offset by changes in the value of the hedged debt. While SFC's cross currency interest rate swap agreement mitigated economic exposure of related debt, it did not qualify as a cash flow or fair value hedge under U.S. GAAP.

Table of Contents**10. Earnings (Loss) Per Share**

The computation of earnings (loss) per share was as follows:

(dollars in thousands except
earnings (loss) per share)
Three Months Ended March 31,

	2014	2013
Numerator (basic and diluted):		
Net income (loss) attributable to Springleaf Holdings, Inc.	\$ 52,324	\$ (9,614)
Denominator:		
Weighted average number of shares outstanding (basic)	114,788,439	100,000,000
Effect of dilutive restricted stock units and awards	356,419	
Weighted average number of shares outstanding (diluted)	115,144,858	100,000,000
Earnings (loss) per share:		
Basic	\$ 0.46	\$ (0.10)
Diluted	\$ 0.45	\$ (0.10)

Basic earnings per share is computed by dividing net income or loss by the weighted-average number of shares outstanding during each period. Diluted earnings per share is computed based on the weighted-average number of common shares plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares represent outstanding unvested restricted stock units and awards.

11. Accumulated Other Comprehensive Income

Changes in accumulated other comprehensive income were as follows:

(dollars in thousands)	Unrealized Gains (Losses) Investment Securities	Unrealized Gains (Losses) Cash Flow Hedges	Retirement Plan Liabilities Adjustments	Foreign Currency Translation Adjustments	Total Accumulated Other Comprehensive Income (Loss)
Three Months Ended March 31, 2014					
Balance at beginning of period	\$ 4,362	\$	\$ 20,153	\$ 3,580	\$ 28,095
Other comprehensive income (loss) before reclassifications	6,390			(127)	6,263
Reclassification adjustments from accumulated other comprehensive income	(1,194)				(1,194)
Balance at end of period	\$ 9,558	\$	\$ 20,153	\$ 3,453	\$ 33,164

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Three Months Ended March 31, 2013

Balance at beginning of period	\$	14,121	\$	104	\$	8,120	\$	4,127	\$	26,472
Other comprehensive income (loss) before reclassifications		(824)						2,114		1,290
Reclassification adjustments from accumulated other comprehensive income		(374)		(104)						(478)
Balance at end of period	\$	12,923	\$		\$	8,120	\$	6,241	\$	27,284

Table of Contents

Reclassification adjustments from accumulated other comprehensive income to the applicable line item on our condensed consolidated statements of operations were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Unrealized gains on investment securities:		
Reclassification from accumulated other comprehensive income (loss) to investment revenues, before taxes	\$ 1,837	\$ 575
Income tax effect	(643)	(201)
Reclassification from accumulated other comprehensive income (loss) to investment revenues, net of taxes	1,194	374
Unrealized gains on cash flow hedges:		
Reclassification from accumulated other comprehensive income (loss) to interest expense, before taxes		160
Income tax effect		(56)
Reclassification from accumulated other comprehensive income (loss) to interest expense and other revenues, net of taxes		104
Total	\$ 1,194	\$ 478

12. Income Taxes

At March 31, 2014, we had a net deferred tax liability of \$41.6 million, compared to \$128.3 million at December 31, 2013. The decrease in the net deferred tax liability was primarily due to the deconsolidation of the 2009-1 securitization during the first quarter of 2014. We had a valuation allowance on our gross state deferred tax assets, net of a deferred federal tax benefit of \$24.9 million, compared to \$23.8 million at December 31, 2013. We also had a valuation allowance against our United Kingdom and Puerto Rico operations of \$21.7 million at March 31, 2014 and \$21.4 million at December 31, 2013. The impact to our uncertain tax positions was immaterial.

The effective tax rate for the three months ended March 31, 2014 and 2013 was 30.8%. The effective tax rate for the three months ended March 31, 2014 differed from the federal statutory rate primarily due to the effect of the non-controlling interest in our joint venture, which decreased the effective tax rate by 7.0%. The effective tax rate for the three months ended March 31, 2013 differed from the federal statutory rate primarily due to the effect of the state income taxes.

13. Contingencies**LEGAL CONTINGENCIES**

In the normal course of business, the Company has been named, from time to time, as a defendant in various legal actions, including arbitrations, class actions and other litigation arising in connection with its activities. Some of the actual or threatened legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. While we will continue to identify certain

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

legal actions where we believe a material loss to be reasonably possible and reasonably estimable, there can be no assurance that material losses will not be incurred from claims that we have not yet been notified of or are not yet determined to be probable or reasonably possible and reasonably estimable.

We contest liability and/or the amount of damages, as appropriate, in each pending matter. Where available information indicates that it is probable that a liability had been incurred at the date of the condensed consolidated financial statements and we can reasonably estimate the amount of that loss, we accrue the estimated loss by a charge to income. In many actions, however, it is inherently difficult to determine whether any loss is probable or even reasonably possible or to estimate the amount of any loss. In addition, even where loss is reasonably possible or an exposure to loss exists in excess of the liability

Table of Contents

already accrued with respect to a previously recognized loss contingency, it is not always possible to reasonably estimate the size of the possible loss or range of loss.

For certain legal actions, we cannot reasonably estimate such losses, particularly for actions that are in their early stages of development or where plaintiffs seek substantial or indeterminate damages. Numerous issues may need to be resolved, including through potentially lengthy discovery and determination of important factual matters, and by addressing novel or unsettled legal questions relevant to the actions in question, before a loss or additional loss or range of loss or additional loss can be reasonably estimated for any given action.

For certain other legal actions, we can estimate reasonably possible losses, additional losses, ranges of loss or ranges of additional loss in excess of amounts accrued, but do not believe, based on current knowledge and after consultation with counsel, that such losses will have a material adverse effect on our condensed consolidated financial statements as a whole.

PAYMENT PROTECTION INSURANCE

Our United Kingdom subsidiary provides payments of compensation to its customers who have made claims concerning Payment Protection Insurance (PPI) policies sold in the normal course of business by insurance intermediaries. On April 20, 2011, the High Court in the United Kingdom handed down judgment supporting the Financial Services Authority (now known as the Financial Conduct Authority) (FCA) guidelines on the treatment of PPI complaints. In addition, the FCA issued a guidance consultation paper in March 2012 on the PPI customer contact letters. As a result, we have concluded that there are certain circumstances where customer contact and/or redress is appropriate; therefore, this activity is ongoing. The total reserves related to the estimated PPI claims were \$27.8 million at March 31, 2014 and \$33.5 million at December 31, 2013.

14. Benefit Plans

PENSION AND POSTRETIREMENT PLANS

Effective December 31, 2012, the Springleaf Financial Services Retirement Plan (the Retirement Plan) and the CommoLoCo Retirement Plan (a defined benefit pension plan for our employees in Puerto Rico) were frozen. Our current and former employees will not lose any vested benefits in the Retirement Plan or the CommoLoCo Retirement Plan that accrued prior to January 1, 2013.

The following table presents the components of net periodic benefit cost with respect to our defined benefit pension plans and other postretirement benefit plans:

(dollars in thousands)

Pension

Postretirement

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Three Months Ended March 31,	2014	2013	2014	2013
Components of net periodic benefit cost:				
Service cost	\$	\$	\$ 22	\$ 81
Interest cost	3,818	3,590	26	64
Expected return on assets	(4,109)	(3,874)		
Amortization of net loss (gain)	1	12	(67)	
Net periodic benefit cost	\$ (290)	\$ (272)	\$ (19)	\$ 145

15. Share-Based Compensation

Total share-based compensation expense, net of forfeitures, for all stock-based awards was \$1.6 million during the three months ended March 31, 2014. We did not record any share based compensation expense during the three months ended March 31, 2013.

Table of Contents

16. Segment Information

Our segments coincide with how our businesses are managed. At March 31, 2014, our four segments include: Consumer, Insurance, Acquisitions and Servicing, and Real Estate. The Acquisitions and Servicing segment was added effective April 1, 2013, as a result of our co-investment in the SpringCastle Portfolio.

Management considers Consumer, Insurance, and Acquisitions and Servicing as our Core Consumer Operations and Real Estate as our Non-Core Portfolio.

Our segments are managed as follows:

Core Consumer Operations

- **Consumer** We originate and service personal loans (secured and unsecured) through two business divisions: branch operations and centralized internet. Branch operations primarily conduct business in 26 states, which are our core operating states. Centralized internet processes and underwrites loan applications that we receive through an internet portal. If the applicant is located near an existing branch (in footprint), our centralized internet lending division makes the credit decision regarding the application and then refers the customer to a nearby branch for closing, funding and servicing. If the applicant is not located near a branch (out of footprint), the centralized internet group originates the loan.
- **Insurance** We offer credit insurance (life insurance, accident and health insurance, and involuntary unemployment insurance), non-credit insurance, and ancillary products, such as warranty protection.
- **Acquisitions and Servicing** On April 1, 2013, we acquired the SpringCastle Portfolio through a joint venture in which we own a 47% equity interest. The SpringCastle Portfolio consists of unsecured loans and loans secured by subordinate residential real estate mortgages (which we service as unsecured loans due to the fact that the liens are subordinated to superior ranking security interests). These loans vary in form and substance from our typical branch serviced loans and are in a liquidating status with no anticipation of significant renewal activity. Future strategic portfolio or business acquisitions will also be a part of this segment.

Non-Core Portfolio

- **Real Estate** We service and hold real estate loans secured by first or second mortgages on residential real estate. Real estate loans previously originated through our branch offices are either serviced by our branch personnel or by our centralized servicing operation. Real estate loans previously acquired or originated through centralized distribution channels are serviced by one of our indirect wholly owned

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

subsidiaries, MorEquity, all of which are subserviced by Nationstar, except for certain securitized real estate loans, which were serviced and subserviced by third parties prior to the sale of these real estate loans on March 31, 2014. Investment funds managed by affiliates of Fortress indirectly own a majority interest in Nationstar.

The remaining components (which we refer to as Other) consist of our other non-core, non-originating legacy operations, which are isolated by geographic market and/or distribution channel from our Core Consumer Operations and our Non-Core Portfolio. These operations include our legacy operations in 14 states where we have also ceased branch-based personal lending, our liquidating retail sales finance portfolio (including our retail sales finance accounts from our dedicated auto finance operation), our lending operations in Puerto Rico and the U.S. Virgin Islands, and the operations of our United Kingdom subsidiary.

Table of Contents

Due to the nature of the Fortress Acquisition, we applied push-down accounting. However, we report the operating results of our Core Consumer Operations, Non-Core Portfolio, and Other using the same accounting basis that we employed prior to the Fortress Acquisition, which we refer to as historical accounting basis, to provide a consistent basis for both management and other interested third parties to better understand the operating results of these segments. The historical accounting basis (which is a basis of accounting other than U.S. GAAP) also provides better comparability of the operating results of these segments to our competitors and other companies in the financial services industry. The historical accounting basis is not applicable to the Acquisitions and Servicing segment since this segment resulted from the purchase of the SpringCastle Portfolio on April 1, 2013 and therefore, was not affected by the Fortress Acquisition.

The Push-down Accounting Adjustments column in the following tables primarily consists of:

- the accretion or amortization of the valuation adjustments on the applicable revalued assets and liabilities;
- the difference in finance charges on our purchased credit impaired finance receivables compared to the finance charges on these finance receivables on a historical accounting basis;
- the elimination of accretion or amortization of historical based discounts, premiums, and other deferred costs on our finance receivables and long-term debt;
- the difference in provision required based upon the differences in historical accounting basis and push-down accounting basis of the finance receivables;
- the acceleration of the accretion of the net discount or amortization of the net premium applied to long-term debt that we repurchase or repay;
- the reversal of the remaining un-accreted push-down accounting basis for net finance receivables, less allowance for finance receivable losses established at the date of the Fortress Acquisition on finance receivables held for sale that we sold; and
- the difference in the fair value of long-term debt based upon the differences between historical accounting basis where certain long-term debt components are marked-to-market on a recurring basis, and push-down accounting basis where long-term debt is no longer marked-to-market on a recurring basis.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Table of Contents**17. Fair Value Measurements**

The fair value of a financial instrument is the amount that would be received if an asset were to be sold or the amount that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgment is used in measuring fair value. Conversely, financial instruments traded in other-than-active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgment. An other-than-active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or little information is released publicly for the asset or liability being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is listed on an exchange or traded over-the-counter or is new to the market and not yet established, the characteristics specific to the transaction, and general market conditions.

The following table summarizes the fair values and carrying values of our financial instruments and indicates the fair value hierarchy based on the level of inputs we utilized to determine such fair values:

(dollars in thousands)	Fair Value Measurements Using			Total Fair Value	Total Carrying Value
	Level 1	Level 2	Level 3

We used observable and/or unobservable inputs to determine the fair value of positions that we have classified within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category presented in the Level 3 tables above may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable (e.g., changes in unobservable long-dated volatilities) inputs.

The unobservable inputs and quantitative data used in our Level 3 valuations for our investment securities were developed and used in models created by our third-party valuation service providers, which values were used by us for fair value disclosure purposes without adjustment. We applied the third party exception which allows us to omit certain quantitative disclosures about unobservable inputs for other long-term investments. As a result, the weighted average ranges of the inputs for these investment securities are not applicable in the following table.

Quantitative information about Level 3 inputs for our assets measured at fair value on a recurring basis for which information about the unobservable inputs is reasonably available to us at March 31, 2014 and December 31, 2013 is as follows:

Valuation Technique(s)	Unobservable Input	Range (Weighted Average)	
		March 31, 2014	December 31, 2013
Corporate debt		2.83% 2.89%	2.68% 8.48%
	Discounted cash flows	Yield (2.86%)	(4.67%)
Other long-term investments	Historical costs Nature of investment Local market conditions Comparables Operating performance Recent financing activity		
	Discounted cash flows and indicative valuations	N/A*	N/A*

* Not applicable.

The fair values of the assets using significant unobservable inputs are sensitive and can be impacted by significant increases or decreases in any of those inputs. Level 3 broker-priced instruments (RMBS, CMBS, and CDO/ABS) are excluded from the table above because the unobservable inputs are not reasonably available to us.

Our RMBS, CMBS, and CDO/ABS securities have unobservable inputs that are reliant on and sensitive to the quality of their underlying collateral. The inputs, although not identical, have similar characteristics and interrelationships. Generally a change in the assumption used for the probability of default is

Table of Contents

accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment speeds. An improvement in the workout criteria related to the restructured debt and/or debt covenants of the underlying collateral may lead to an improvement in the cash flows and have an inverse impact on other inputs, specifically a reduction in the amount of discount applied for marketability and liquidity, making the structured bonds more attractive to market participants.

FAIR VALUE MEASUREMENTS NON-RECURRING BASIS

We measure the fair value of certain assets on a non-recurring basis when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable.

Assets measured at fair value on a non-recurring basis on which we recorded impairment charges were as follows:

(dollars in thousands)	Fair Value Measurements Using			Total
	Level 1	Level 2	Level 3	
March 31, 2014				
Assets				
Real estate owned	\$	\$	\$ 50,718	\$ 50,718
Commercial mortgage loans			11,933	11,933
Total	\$	\$	\$ 62,651	\$ 62,651
December 31, 2013				
Assets				
Real estate owned	\$	\$	\$ 72,242	\$ 72,242
Commercial mortgage loans			11,935	11,935
Total	\$	\$	\$ 84,177	\$ 84,177

Net impairment charges recorded on assets measured at fair value on a non-recurring basis were as follows:

(dollars in thousands)	Three Months Ended March 31,	
	2014	2013
Assets		
Real estate owned	\$ 5,938	\$ 7,911
Commercial mortgage loans	(50)	(128)
Total	\$ 5,888	\$ 7,783

In accordance with the authoritative guidance for the accounting for the impairment of long-lived assets, we wrote down certain real estate owned reported in our Real Estate segment to their fair value less cost to sell for the three months ended March 31, 2014 and 2013 and recorded the writedowns in other revenues other. The fair values of real estate owned disclosed in the table above are unadjusted for transaction costs as

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

required by the authoritative guidance for fair value measurements. The amounts of real estate owned recorded in other assets are net of transaction costs as required by the authoritative guidance for accounting for the impairment of long-lived assets.

In accordance with the authoritative guidance for the accounting for the impairment of commercial mortgage loans, we recorded allowance adjustments on certain impaired commercial mortgage loans reported in our Insurance segment to record their fair value for the three months ended March 31, 2014 and 2013 and recorded the net impairments in investment revenues.

Table of Contents

The unobservable inputs and quantitative data used in our Level 3 valuations for our real estate owned and commercial mortgage loans were developed and used in models created by our third-party valuation service providers or valuations provided by external parties, which values were used by us for fair value disclosure purposes without adjustment. We applied the third party exception which allows us to omit certain quantitative disclosures about unobservable inputs. As a result, the weighted average ranges of the inputs are not applicable in the following table.

Quantitative information about Level 3 inputs for our assets measured at fair value on a non-recurring basis at March 31, 2014 and December 31, 2013 is as follows:

	Valuation Technique(s)	Unobservable Input	Range (Weighted Average)	
			March 31, 2014	December 31, 2013
Real estate owned	Market approach	Third-party valuation	N/A*	N/A*
		Local market conditions

FAIR VALUE MEASUREMENTS VALUATION METHODOLOGIES AND ASSUMPTIONS

We use the following methods and assumptions to estimate fair value.

Cash and Cash Equivalents

The carrying amount reported in our condensed consolidated balance sheets approximates fair value.

Investment Securities

We utilize third-party valuation service providers to measure the fair value of our investment securities, which are classified as available-for-sale or for trading and consist primarily of bonds. Whenever available, we obtain quoted prices in active markets for identical assets at the balance sheet date to measure investment securities at fair value. We generally obtain market price data from exchange or dealer markets.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

We estimate the fair value of fixed maturity investment securities not traded in active markets by referring to traded securities with similar attributes, using dealer quotations and a matrix pricing methodology, or discounted cash flow analyses. This methodology considers such factors as the issuer's industry, the security's rating and tenor, its coupon rate, its position in the capital structure of the issuer, yield curves, credit curves, prepayment rates and other relevant factors. For fixed maturity investment securities that are not traded in active markets or that are subject to transfer restrictions, we adjust the valuations to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management's best estimate is used.

We classify investment securities that are deemed to incorporate an embedded derivative and for which it is impracticable for us to isolate and/or value as trading securities at fair value.

Finance Receivables

The fair value of net finance receivables, less allowance for finance receivable losses, both non-impaired and purchased credit impaired, are determined using discounted cash flow methodologies. The application of these methodologies requires us to make certain judgments and estimates based on our perception of market participant views related to the economic and competitive environment, the characteristics of our

Table of Contents

finance receivables, and other similar factors. The most significant judgments and estimates made relate to prepayment speeds, default rates, loss severity, and discount rates. The degree of judgment and estimation applied is significant in light of the current capital markets and, more broadly, economic environments. Therefore, the fair value of our finance receivables could not be determined with precision and may not be realized in an actual sale. Additionally, there may be inherent weaknesses in the valuation methodologies we employed, and changes in the underlying assumptions used could significantly affect the results of current or future values.

Restricted Cash

The carrying amount reported in our condensed consolidated balance sheets approximates fair value.

Commercial Mortgage Loans

We utilize third-party valuation service providers to estimate the fair value of commercial mortgage loans using projected cash flows discounted at an appropriate rate based upon market conditions.

Real Estate Owned

We initially based our estimate of the fair value on independent third-party valuations at the time we took title to real estate owned. Subsequent changes in fair value are based upon independent third-party valuations obtained periodically to estimate a price that would be received in a then current transaction to sell the asset.

Escrow Advance Receivable

The carrying amount reported in our condensed consolidated balance sheets approximates fair value.

Long-term Debt

We either receive fair value measurements of our long-term debt from market participants and pricing services or we estimate the fair values of long-term debt using projected cash flows discounted at each balance sheet date's market-observable implicit-credit spread rates for our long-term debt and adjusted for foreign currency translations.

We record long-term debt issuances at fair value that are deemed to incorporate an embedded derivative and for which it is impracticable for us to isolate and/or value the derivative.

18. Pro Forma Information

The following unaudited pro forma information presents the combined results of operations of SHI and from the acquisitions of finance receivables and the London, Kentucky loan servicing facility from HSBC (the HSBC acquisitions) as if the HSBC acquisitions had occurred on January 1, 2013. The pro forma information is not necessarily indicative of what the financial position or results of operations actually would have been had the HSBC acquisitions been completed on January 1, 2013. In addition, the unaudited pro forma financial information is not indicative of, nor does it purport to project, the future financial position or operating results of the HSBC acquisitions. The unaudited pro forma information assumes the full funding of the HSBC acquisitions including the issuance of the associated Class B Notes from our SpringCastle securitization as if they were issued as of January 1, 2013, the adjustment of historical finance charges for estimated impacts of accounting for credit impaired loans and the incorporation of accretion of pro forma purchase discount, and does not give effect to potential cost savings or other operating efficiencies that could result from the HSBC acquisitions.

Table of Contents

The following table presents the unaudited pro forma financial information:

(dollars in thousands except earnings (loss) per share)

Three Months Ended March 31,

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

This report may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as outlook, believes, expects, potential, continues, may, will, should, could, seeks, predicts, intends, plans, estimates, anticipates, target, projects, contemplates or the negative version of those words or other comparable terms. Any forward-looking statements contained in this report are based upon our historical performance and on our current plans, estimates and expectations in light of information currently available to us. Such forward-looking statements are subject to various risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business, prospects, growth strategy and liquidity. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in these statements. We believe that these factors include, but are not limited to:

- changes in general economic conditions, including the interest rate environment in which we conduct business and the financial markets through which we can access capital and also invest cash flows from our Insurance segment;
- levels of unemployment and personal bankruptcies;
- natural or accidental events such as earthquakes, hurricanes, tornadoes, fires, or floods affecting our customers, collateral, or branches or other operating facilities;
- war, acts of terrorism, riots, civil disruption, pandemics, or other events disrupting business or commerce;
- our ability to successfully realize the benefits of the SpringCastle Portfolio as a result of integration difficulties and other challenges;
- the potential liabilities and increased regulatory scrutiny associated with the SpringCastle Portfolio;
- changes in the rate at which we can collect or potentially sell our finance receivables portfolio;
- the effectiveness of our credit risk scoring models in assessing the risk of customer unwillingness or lack of capacity to repay;
- changes in our ability to attract and retain employees or key executives to support our businesses;
- changes in the competitive environment in which we operate, including the demand for our products, customer responsiveness to our distribution channels, and the strength and ability of our competitors to operate independently or to enter into business combinations that result in a more attractive range of customer products or provide greater financial resources;
- shifts in residential real estate values;
- shifts in collateral values, delinquencies, or credit losses;
- changes in federal, state and local laws, regulations, or regulatory policies and practices, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (which, among other things, established the Consumer Financial Protection Bureau, which has broad

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

authority to regulate and examine financial institutions), that affect our ability to conduct business or the manner in which we conduct business, such as licensing requirements, pricing limitations or restrictions on the method of offering products, as well as changes that may result from increased regulatory scrutiny of the sub-prime lending industry;

- the potential for increased costs and difficulty in servicing our legacy real estate loan portfolio (including costs and delays associated with foreclosure on real estate collateral), as a result of heightened nationwide regulatory scrutiny of loan servicing and foreclosure practices in the industry generally, and related costs that could be passed on to us in connection with the subservicing of our real estate loans that were originated or acquired centrally;

Table of Contents

- potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans, if it is determined that there was a non-curable breach of a warranty made in connection with such transactions;
- the costs and effects of any litigation or governmental inquiries or investigations involving us, particularly those that are determined adversely to us;
- our continued ability to access the capital markets or the sufficiency of our current sources of funds to satisfy our cash flow requirements;
- our ability to comply with our debt covenants;
- our ability to generate sufficient cash to service all of our indebtedness;
- our substantial indebtedness, which could prevent us from meeting our obligations under our debt instruments and limit our ability to react to changes in the economy or our industry, or our ability to incur additional borrowings;
- the potential for downgrade of our debt by rating agencies, which would have a negative impact on our cost of, and access to, capital;
- the impacts of our securitizations and borrowings;
- our ability to maintain sufficient capital levels in our regulated and unregulated subsidiaries; and
- changes in accounting standards or tax policies and practices and the application of such new policies and practices to the manner in which we conduct business.

We also direct readers to other risks and uncertainties discussed in other documents we file with the Securities and Exchange Commission (the SEC). The forward-looking statements made in this report relate only to events as of the date on which the statements are made. We do not undertake any obligation to publicly update or review any forward-looking statement except as required by law, whether as a result of new information, future developments or otherwise.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. You should specifically consider the factors identified in this report that could cause actual results to differ before making an investment decision to purchase our common stock. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us.

Overview

Springleaf is a leading consumer finance company providing responsible loan products primarily to non-prime customers. We originate consumer loans through our network of over 830 branch offices in 26 states and on a centralized basis as part of our iLoan division. Through two insurance subsidiaries, we write credit and non-credit insurance policies covering our customers and the property pledged as collateral for our loans. We also pursue strategic acquisitions of loan portfolios. As part of this strategy, in April 2013 we acquired from HSBC a \$3.9 billion

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

unpaid principal balance (UPB) consumer loan portfolio through a joint venture in which we own a 47% equity interest.

At March 31, 2014, we had four business segments: Consumer, Insurance, Acquisitions and Servicing, and Real Estate. See Note 16 of the Notes to Condensed Consolidated Financial Statements for a description of our segments.

OUR PRODUCTS

Our core product offerings include:

Personal Loans We offer personal loans through our branch network and over the internet through our iLoan division to customers who generally need timely access to cash. Our personal

Table of Contents

loans are typically non-revolving with a fixed-rate and a fixed, original term of two to four years. At March 31, 2014, we had over 836,000 personal loans, representing \$3.2 billion of net finance receivables, of which \$1.4 billion, or 45%, were secured by collateral consisting of titled personal property (such as automobiles), \$1.3 billion, or 39%, were secured by consumer household goods or other items of personal property, and the remainder was unsecured.

- **SpringCastle Portfolio** We acquired the SpringCastle Portfolio from HSBC on April 1, 2013 through a joint venture in which we own a 47% equity interest. These loans included unsecured loans and loans secured by subordinate residential real estate mortgages (which we service as unsecured loans due to the fact that the liens are subordinated to superior ranking security interests). The SpringCastle Portfolio includes both closed-end accounts and open-end lines of credit. These loans are in a liquidating status and vary in substance and form from our originated loans. We assumed the direct servicing obligations for these loans in September 2013. At March 31, 2014, the SpringCastle Portfolio included nearly 324,000 of acquired loans, representing \$2.3 billion in net finance receivables.

- **Insurance Products** We offer our customers credit insurance (life insurance, accident and health insurance, and involuntary unemployment insurance), non-credit insurance, and ancillary products, such as warranty protection, through both our branch operations and our iLoan division. Credit insurance and non-credit insurance products are provided by our subsidiaries, Merit and Yosemite. The ancillary products are home security and auto security membership plans and home appliance service contracts of unaffiliated companies.

Our legacy products include:

- **Real Estate Loans** We ceased real estate lending in January 2012. These loans may be closed-end accounts or open-end home equity lines of credit, generally have a fixed rate and maximum original terms of 360 months, and are secured by first or second mortgages on residential real estate. We continue to service the liquidating real estate loans and support any advances on open-end accounts.

- **Retail Sales Finance** We ceased purchasing retail sales contracts and revolving retail accounts in January 2013. We continue to service the liquidating retail sales contracts and will provide revolving retail sales financing services on our revolving retail accounts. We refer to retail sales contracts and revolving retail accounts collectively as retail sales finance.

Recent Developments

SECURITIZATION

On March 26, 2014, we completed a private securitization transaction in which a wholly owned special purpose vehicle of SFC sold \$559.3 million of notes backed by personal loans held by the 2014-A Trust, at a 2.62% weighted average yield. We sold the asset-backed notes for \$559.2 million, after the price discount but before expenses and a \$6.4 million interest reserve requirement. We initially retained \$32.9 million of the 2014-A Trust's subordinate asset-backed notes.

REPAYMENT OF 2013-BAC TRUST NOTES

On September 25, 2013, we completed a private securitization transaction in which Springleaf Funding Trust 2013-BAC, a wholly owned special purpose vehicle of SFC, issued \$500 million of notes backed by an amortizing pool of personal loans acquired from subsidiaries of SFC. On March 27, 2014, we repaid the entire \$231.3 million outstanding principal balance of the notes, plus accrued and unpaid interest.

Table of Contents

SALE OF 2009-1 RETAINED CERTIFICATES

On March 31, 2014, we completed the sale of the 2009-1 Retained Certificates. See Note 1 of the Condensed Consolidated Financial Statements for further information on this sale.

This transaction reflects an acceleration of the liquidation of our legacy real estate portfolio, which we plan to effect through continued runoff and opportunistic sales. While we continue to manage the runoff of the portfolio, we will continue to consider opportunistic sales of additional portions of the portfolio as market conditions allow.

SALE OF REAL ESTATE LOANS

On March 31, 2014, we completed the sale of certain performing and non-performing real estate loans. See Note 1 of the Condensed Consolidated Financial Statements for further information on this sale.

PREPAYMENT OF SECURED TERM LOAN

On March 31, 2014, SFFC prepaid, without penalty or premium, the entire \$750.0 million outstanding principal balance of the secured term loan, plus accrued and unpaid interest. Effective upon the prepayment, all obligations of SFFC, SFC, and most of the consumer finance operating subsidiaries of SFC under the secured term loan (other than contingent reimbursement obligations and indemnity obligations) were terminated and all guarantees and security interests were released.

OUTLOOK

Assuming the U.S. economy continues to experience slow to moderate growth, we expect to continue our long history of strong credit performance. During 2012 and much of 2013, we experienced unusually low charge-off ratios as a result of tightening underwriting practices in 2010-2011. The personal loan portfolio typically exhibited charge-off ratios in the range of 4.75-5.75% prior to the start of the recession in 2008 and has returned to these levels, as we expected. We believe the strong credit quality of our personal loan portfolio is the result of our disciplined underwriting practices and ongoing collection efforts. We also continue to see growth in the volume of personal loan originations driven by the following factors:

- Declining competition from banks, thrifts, and credit unions as these institutions have retreated from the non-prime market in the face of regulatory scrutiny and in the aftermath of the housing crisis. This reduction in competition has occurred concurrently with the exit of sub-prime credit card providers from the industry. As a result of the reduced lending of these competitors, access to credit has fallen substantially for the non-prime segment of customers, which, in turn, has increased our potential customer base.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

- Slow but sustained economic growth.
- Migration of customer activity from traditional channels such as direct mail to online channels (served by our iLoan division) where we believe we are well suited to capture volume due to our scale, technology, and deployment of advanced analytics.
- Our renewed focus on our personal loan business as we have discontinued real estate and other product originations both in our branches and in centralized lending.

In addition, with an experienced management team, a strong balance sheet, proven access to the capital markets, and strong demand for consumer credit, we believe we are well positioned for future personal loan growth.

We anticipate the credit quality ratios in our real estate loan portfolio will remain under pressure as the portfolio continues to liquidate, however, performance may improve as a result of strengthening home prices as well as increased centralization of real estate loan servicing and the application of analytics to more effectively target portfolio management and collections strategies.

Table of Contents**Results of Operations****CONSOLIDATED RESULTS**

See table below for our consolidated operating results. A further discussion of our operating results for each of our business segments is provided under Segment Results.

(dollars in thousands except earnings (loss) per share)

Table of Contents*Comparison of Consolidated Results for Three Months Ended March 31, 2014 and 2013*

(dollars in thousands) Three Months Ended March 31,	2014	2013
Interest income:		
Finance charges	\$ 548,059	\$ 413,038
Interest income on finance receivables held for sale originated as held for investment	4,578	
Total	\$ 552,637	\$ 413,038

Finance charges increased for the three months ended March 31, 2014 when compared to the same period in 2013 due to the net of the following:

(dollars in thousands)

2014 compared to 2013 - Three Months Ended March 31

Decrease in average net receivables	\$ (12,263)
Increase in yield	4,050
SpringCastle finance charges	143,234
Total	\$ 135,021

Average net receivables (excluding SpringCastle Portfolio) decreased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to our liquidating real estate loan portfolio, including the transfers of \$742.0 million real estate loans associated with the 2009 securitization and an additional \$93.3 million real estate loans to finance receivables held for sale on March 1, 2014 and the subsequent sales of these real estate loans on March 31, 2014. The increase was partially offset by higher personal loan average net receivables resulting from our continued focus on personal loans.

Yield increased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to our continued focus on personal loans, which have higher yields.

The acquisition of the SpringCastle Portfolio favorably impacted our finance charge revenues.

Interest expense decreased for the three months ended March 31, 2014 when compared to the same period in 2013 due to the net of the following:

(dollars in thousands)

2014 compared to 2013 - Three Months Ended March 31

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Decrease in average debt	\$	(33,684)
Decrease in weighted average interest rate		(14,383)
SpringCastle interest expense		22,194
Total	\$	(25,873)

Average debt (excluding the securitization of the SpringCastle Portfolio) decreased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to debt repurchases and repayments of \$7.4 billion during the past twelve months. These decreases were partially offset by ten securitization transactions completed during the past twelve months.

The weighted average interest rate on our debt decreased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to the debt repurchases and repayments discussed above, which resulted in lower accretion of net discount applied to long-term debt. The lower weighted average interest rate also reflected the completion of ten securitization transactions during the past twelve months, which generally have lower interest rates.

Table of Contents

Provision for finance receivable losses increased \$66.4 million for the three months ended March 31, 2014 when compared to the same period in 2013. This increase was primarily due to the additional provision from the SpringCastle Portfolio of \$53.0 million and additional allowance requirements reflecting growth in our personal loans during the 2014 period and higher real estate and personal loan delinquency ratios at March 31, 2014. These increases were partially offset by a reduction in the allowance requirements on our real estate loans deemed to be purchased credit impaired finance receivables and TDR finance receivables subsequent to the Fortress Acquisition. The allowance for finance receivables losses was eliminated with the application of push-down accounting as the allowance for finance receivable losses was incorporated in the new fair value basis of the finance receivables as of the Fortress Acquisition date.

Net loss on repurchases and repayments of debt of \$6.6 million for the three months ended March 31, 2014 reflected repurchases of debt in 2014 at net amounts greater than par.

Net loss on fair value adjustments on debt of \$16.9 million for the three months ended March 31, 2014 reflected net unrealized losses on a long-term debt issuance associated with a mortgage securitization accounted for at fair value.

Net gain on sales of real estate loans and related trust assets of \$55.2 million for the three months ended March 31, 2014 reflected the reversal of the remaining un-accreted push-down accounting basis for these real estate loans, less allowance for finance receivable losses that we established at the date of the Fortress Acquisition. See Note 1 of the Notes to Condensed Financial Statements for further information on these sales.

Salaries and benefits increased \$14.1 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to higher bonus and commissions accruals resulting from increased originations of personal loans. The increase also reflected higher salary accruals reflecting annual, competitive performance increases in the first quarter of 2014 and share-based compensation expense due to the grant of restricted stock units (RSUs) to certain employees in the first quarter of 2014.

Other operating expenses increased \$6.1 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to higher advertising and information technology expenses.

Provision for income taxes totaled \$30.5 million for the three months ended March 31, 2014 compared to benefit from income taxes of \$4.3 million for the three months ended March 31, 2013. The effective tax rate for the three months ended March 31, 2014 and 2013 was 30.8%. The effective tax rate for the three months ended March 31, 2014 differed from the federal statutory rate primarily due to the effect of the non-controlling interest in our joint venture, which decreased the effective tax rate by 7.0%. The effective tax rate for the three months ended March 31, 2013 differed from the federal statutory rate primarily due to the effect of the state income taxes.

Table of Contents***Reconciliation of Income (Loss) before Provision for (Benefit from) Income Taxes on Push-Down Accounting Basis to Historical Accounting Basis***

Due to the nature of the Fortress Acquisition, we revalued our assets and liabilities based on their fair values at November 30, 2010, the date of the Fortress Acquisition, in accordance with business combination accounting standards, or push-down accounting. Push-down accounting affected and continues to affect, among other things, the carrying amount of our finance receivables and long-term debt, our finance charges on our finance receivables and related yields, our interest expense, our allowance for finance receivable losses, and our net charge-offs and charge-off ratio. In general, on a quarterly basis, we accrete or amortize the valuation adjustments recorded in connection with the Fortress Acquisition, or record adjustments based on current expected cash flows as compared to expected cash flows at the time of the Fortress Acquisition, in each case, as described in more detail in the footnotes to the table below. In addition, push-down accounting resulted in the elimination of accretion or amortization of discounts, premiums, and other deferred costs on our finance receivables and long-term debt prior to the Fortress Acquisition. The reconciliations of income (loss) before provision for (benefit from) income taxes on a push-down accounting basis to loss before benefit from income taxes on a historical accounting basis (which is a basis of accounting other than U.S. GAAP that we believe provides a consistent basis for both management and other interested third parties to better understand our operating results) were as follows:

(dollars in thousands)		2014	2013
Three Months Ended March 31,			
Income (loss) before provision for (benefit from) income taxes - push-down accounting basis	\$	99,150	\$ (13,877)
Interest income adjustments (a)		(36,867)	(50,180)
Interest expense adjustments (b)		28,560	35,336
Provision for finance receivable losses adjustments (c)		360	3,450
Repurchases and repayments of long-term debt adjustments (d)		(4,884)	
Fair value adjustments on debt (e)		8,298	15,205
Sales of finance receivables held for sale originated as held for investment adjustments (f)		(117,362)	
Amortization of other intangible assets (g)		1,126	1,410
Other (h)		418	1,319
Loss before benefit from income taxes - historical accounting basis	\$	(21,201)	\$ (7,337)

(a) Interest income adjustments consist of: (1) the accretion of the net discount applied to non-credit impaired net finance receivables to revalue the non-credit impaired net finance receivables to their fair value at the date of the Fortress Acquisition using the interest method over the remaining life of the related net finance receivables; (2) the difference in finance charges earned on our pools of purchased credit impaired net finance receivables under a level rate of return over the expected lives of the underlying pools of purchased credit impaired finance receivables, net of the finance charges earned on these finance receivables under historical accounting basis; and (3) the elimination of the accretion or amortization of historical unearned points and fees, deferred origination costs, premiums, and discounts.

Table of Contents

Components of interest income adjustments consisted of:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Accretion of net discount applied to non-credit impaired net finance receivables	\$ (26,842)	\$ (39,812)
Purchased credit impaired finance receivables finance charges	(12,829)	(14,153)
Elimination of accretion or amortization of historical unearned points and fees, deferred origination costs, premiums, and discounts	2,804	3,785
Total	\$ (36,867)	\$ (50,180)

(b) Interest expense adjustments consist of: (1) the accretion of the net discount applied to long-term debt to revalue the debt securities to their fair value at the date of the Fortress Acquisition using the interest method over the remaining life of the related debt securities; and (2) the elimination of the accretion or amortization of historical discounts, premiums, commissions, and fees.

Components of interest expense adjustments were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Accretion of net discount applied to long-term debt	\$ 36,992	\$ 49,640
Elimination of accretion or amortization of historical discounts, premiums, commissions, and fees	(8,432)	(14,304)
Total	\$ 28,560	\$ 35,336

(c) Provision for finance receivable losses consists of the allowance for finance receivable losses adjustments and net charge-offs quantified in the table below. Allowance for finance receivable losses adjustments reflects the net difference between our allowance adjustment requirements calculated under our historical accounting basis net of adjustments required under push-down accounting basis. Net charge-offs reflects the net charge-off of loans at a higher carrying value under historical accounting basis versus the discounted basis to their fair value at date of the Fortress Acquisition under push-down accounting basis.

Components of provision for finance receivable losses adjustments were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Allowance for finance receivable losses adjustments	\$ 10,078	\$ 22,092
Net charge-offs	(9,718)	(18,642)
Total	\$ 360	\$ 3,450

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

- (d) Repurchases and repayments of long-term debt adjustments reflect the impact on acceleration of the accretion of the net discount or amortization of the net premium applied to long-term debt.
- (e) Fair value adjustments on debt reflect differences between historical accounting basis and push-down accounting basis. On a historical accounting basis, certain long-term debt components are marked-to-market on a recurring basis and are no longer marked-to-market on a recurring basis after the application of push-down accounting at the time of the Fortress Acquisition.
- (f) Fair value adjustments on sales of finance receivables held for sale originated as held for investment reflect the reversal of the remaining un-accreted push-down accounting basis for net finance receivables, less allowance for finance receivable losses established at the date of the Fortress Acquisition that were sold in March 2014.

Table of Contents

(g) Amortization of other intangible assets reflects the amortization over the remaining estimated life of intangible assets established at the date of the Fortress Acquisition as a result of the application of push-down accounting.

(h) Other items reflects less significant differences between historical accounting basis and push-down accounting basis relating to various items such as the elimination of deferred charges, adjustments to the basis of other real estate assets, fair value adjustments to fixed assets, adjustments to insurance claims and policyholder liabilities, and various other differences all as of the date of the Fortress Acquisition.

At March 31, 2014, the remaining un-accreted push-down accounting basis totaled \$470.1 million for net finance receivables, less allowance for finance receivable losses and \$687.9 million for long-term debt.

Segment Results

See Note 16 of the Notes to Condensed Consolidated Financial Statements for a description of our segments. Management considers Consumer, Insurance, and Acquisitions and Servicing as our Core Consumer Operations and Real Estate as our Non-Core Portfolio. Due to the nature of the Fortress Acquisition, we applied push-down accounting. However, we report the operating results of our Core Consumer Operations, Non-Core Portfolio, and Other using the same accounting basis that we employed prior to the Fortress Acquisition, which we refer to as historical accounting basis, to provide a consistent basis for both management and other interested third parties to better understand the operating results of these segments. The historical accounting basis (which is a basis of accounting other than U.S. GAAP) also provides better comparability of the operating results of these segments to our competitors and other companies in the financial services industry. The historical accounting basis is not applicable to the Acquisitions and Servicing segment since this segment was added effective April 1, 2013 as a result of our co-investment in the SpringCastle Portfolio and therefore, was not affected by the Fortress Acquisition. See Note 16 of the Notes to Condensed Consolidated Financial for reconciliations of segment totals to condensed consolidated financial statement amounts.

Table of Contents

We allocate revenues and expenses (on a historical accounting basis) to each segment using the following methodologies:

Interest income	Directly correlated with a specific segment.
Interest expense	<p>Disaggregated into three categories based on the underlying debt that the expense pertains to:</p> <ul style="list-style-type: none"> • <i>securitizations</i> allocated to the segments whose finance receivables serve as the collateral securing each of the respective debt instruments; • <i>unsecured debt</i> allocated to the segments based on the remaining balance of debt by segment; and • <i>secured term loan</i> allocated to the segments whose finance receivables served as the collateral securing each of the respective debt instruments.
Provision for finance receivable losses	Directly correlated with a specific segment except for allocations to other, which are based on the remaining delinquent accounts as a percentage of total delinquent accounts.
Insurance revenues	Directly correlated with a specific segment.
Investment revenues	Directly correlated with a specific segment.
Net gain (loss) on repurchases and repayments of debt	Allocated to the segments based on the interest expense allocation of unsecured debt.
Net gain (loss) on fair value adjustments on debt	Directly correlated with a specific segment.
Other revenues other	Directly correlated with a specific segment except for gains and losses on foreign currency exchange and derivatives. These items are allocated to the segments based on the interest expense allocation of unsecured debt.
Salaries and benefits	Directly correlated with a specific segment. Other salaries and benefits not directly correlated with a specific segment are allocated to each of the segments based on services provided.
Other operating expenses	Directly correlated with a specific segment. Other operating expenses not directly correlated with a specific segment are allocated to each of the segments based on services provided.
Insurance losses and loss adjustment expenses	Directly correlated with a specific segment.

Table of Contents

We evaluate the performance of each of our segments based on its pretax operating earnings.

CORE CONSUMER OPERATIONS

Pretax operating results for Consumer and Insurance (which are reported on a historical accounting basis), and Acquisitions and Servicing are presented in the table below on an aggregate basis:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Interest income	\$ 355,622	\$ 160,483
Interest expense	62,920	36,744
Net interest income	292,702	123,739
Provision for finance receivable losses	98,225	19,961
Net interest income after provision for finance receivable losses	194,477	103,778
Other revenues:		
Insurance	38,406	32,892
Investment	10,268	10,385
Net loss on repurchases and repayments of debt	(1,429)	
Net loss on fair value adjustments on debt	(16,867)	
Other	20,658	2,237
Total other revenues	51,036	45,514
Other expenses:		
Operating expenses:		
Salaries and benefits	80,366	63,296
Other operating expenses	60,104	30,797
Insurance loss and loss adjustment expenses	18,611	14,968
Total other expenses	159,081	109,061
Pretax operating income	86,432	40,231
Pretax operating income attributable to non-controlling interests	16,308	
Pretax operating income attributable to Springleaf	\$ 70,124	\$ 40,231

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Table of Contents

Selected financial statistics for Consumer (which are reported on a historical accounting basis) and Acquisitions and Servicing were as follows:

(dollars in thousands) At or for the Three Months Ended March 31,	2014	2013
Consumer		
Net finance receivables	\$ 3,159,163	\$ 2,558,787
Number of accounts	826,703	717,307
Average net receivables	\$ 3,138,022	\$ 2,546,829
Yield	26.93%	25.39%
Gross charge-off ratio*	5.56%	6.74%
Recovery ratio	(0.55)%	(1.27)%
Charge-off ratio*	5.01%	5.47%
Delinquency ratio	2.45%	1.99%
Origination volume	\$ 721,816	\$ 659,514
Number of accounts	161,241	160,028
Acquisitions and Servicing		
Net finance receivables	\$ 2,342,576	
Number of accounts	323,570	
Average net receivables	\$ 2,425,968	
Yield	24.40%	
Net charge-off ratio	8.67%	
Delinquency ratio	6.33%	

* The gross charge-off ratio and charge-off ratio for the three months ended March 31, 2013 reflect \$14.5 million of additional charge-offs recorded in March 2013 (on a historical accounting basis) related to our change in charge-off policy for personal loans effective March 31, 2013. Excluding these additional charge-offs, our Consumer gross charge-off ratio would have been 4.46% and our Consumer charge-off ratio would have been 3.18% for the three months ended March 31, 2013.

Comparison of Pretax Operating Results for Three Months Ended March 31, 2014 and 2013

(dollars in thousands) Three Months Ended March 31,	2014	2013
Interest income:		
Finance charges - Consumer	\$ 209,695	\$ 160,483

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Finance charges - Acquisitions and Servicing		145,927		
Total	\$	355,622	\$	160,483

Finance charges - Consumer increased \$49.2 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to increases in average net receivables and yield. Average net receivables increased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to increased originations on personal loans resulting from our continued focus on personal loans. Yield increased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to pricing of new personal loans at higher state specific rates with concentrations in states with more favorable returns.

Table of Contents

Finance charges Acquisitions and Servicing resulted from the purchase of the SpringCastle Portfolio on April 1, 2013.

(dollars in thousands)		
Three Months Ended March 31,	2014	2013
Interest expense - Consumer	\$ 40,726	\$ 36,744
Interest expense - Acquisitions and Servicing	22,194	
Total	\$ 62,920	\$ 36,744

Interest expense Consumer increased \$4.0 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to additional funding required to support increased originations of personal loans. This increase was partially offset by less utilization of financing from unsecured notes that was replaced by consumer loan securitizations, which generally have lower interest rates.

Interest expense Acquisitions and Servicing resulted from the securitization of the SpringCastle Portfolio on April 1, 2013.

(dollars in thousands)		
Three Months Ended March 31,	2014	2013
Provision for finance receivable losses - Consumer	\$ 45,275	\$ 19,961
Provision for finance receivable losses - Acquisitions and Servicing	52,950	
Total	\$ 98,225	\$ 19,961

Provision for finance receivable losses Consumer increased \$25.3 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to higher increases to our allowance for finance receivable losses reflecting increased originations of personal loans in the 2014 period and higher personal loan delinquency ratio at March 31, 2014.

Insurance revenues increased \$5.5 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to increases in credit and non-credit earned premiums reflecting higher originations of personal loans in the 2014 period.

Net loss on fair value adjustments on debt Acquisitions and Servicing of \$16.9 million for the three months ended March 31, 2014 resulted from the unrealized loss on fair value adjustments of the long-term debt associated with the securitization of the SpringCastle Portfolio that is accounted for at fair value through earnings.

Other revenues other increased \$18.4 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to servicing fee revenues for the fees charged by Acquisitions and Servicing for servicing the SpringCastle Portfolio beginning on April 1, 2013, the acquisition date. These fees are eliminated in consolidated operating results with the servicing fee expenses, which are included in other operating expenses.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

(dollars in thousands)

Three Months Ended March 31,

	2014	2013
Salaries and benefits - Consumer	\$ 66,578	\$ 60,349
Salaries and benefits - Insurance	4,554	2,947
Salaries and benefits - Acquisitions and Servicing	9,234	
Total	\$ 80,366	\$ 63,296

Table of Contents

(dollars in thousands)

Three Months Ended March 31,

	2014	2013
Other operating expenses - Consumer	\$ 32,691	\$ 28,505
Other operating expenses - Insurance	3,272	2,292
Other operating expenses - Acquisitions and Servicing	24,141	
Total	\$ 60,104	\$ 30,797

Other operating expenses for Consumer and Insurance increased \$5.2 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to higher advertising and information technology expenses.

Insurance losses and loss adjustment expenses increased \$3.6 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to an unfavorable variance in claim reserves.

Reconciliation of Loss before Benefit from Income Taxes on Historical Accounting Basis to Pretax Core Earnings

Pretax core earnings is a key performance measure used by management in evaluating the performance of our Core Consumer Operations. Pretax core earnings represents our income (loss) before provision for (benefit from) income taxes on a historical accounting basis and excludes results of operations from our non-core portfolio (Real Estate) and other non-originating legacy operations, gains (losses) resulting from accelerated long-term debt repayment and repurchases of long-term debt related to Consumer, gains (losses) on fair value adjustments on debt related to Core Consumer Operations (attributable to SHI), and results of operations attributable to non-controlling interests. Pretax core earnings provides us with a key measure of our Core Consumer Operations performance as it assists us in comparing its performance on a consistent basis. Management believes pretax core earnings is useful in assessing the profitability of our core business and uses pretax core earnings in evaluating our operating performance. Pretax core earnings is a non-GAAP measure and should be considered in addition to, but not as a substitute for or superior to, operating income, net income, operating cash flow, and other measures of financial performance prepared in accordance with U.S. GAAP.

The following is a reconciliation of loss before benefit from income taxes on a historical accounting basis to pretax core earnings:

(dollars in thousands)

Three Months Ended March 31,

	2014	2013
Loss before benefit from income taxes - historical accounting basis	\$ (21,201)	\$ (7,337)
Adjustments:		
Pretax operating loss - Non-Core Portfolio Operations	104,882	44,714
Pretax operating loss - Other/non-originating legacy operations	2,751	2,854
Net loss from accelerated repayment/repurchase of debt - Consumer	1,429	
Net loss on fair value adjustments on debt - Core Consumer Operations (attributable to SHI)	7,927	
Pretax operating income attributable to non-controlling interests	(16,308)	
Pretax core earnings	\$ 79,480	\$ 40,231

Table of Contents**NON-CORE PORTFOLIO**

Pretax operating results for Real Estate (which are reported on a historical accounting basis) were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Interest income	\$ 155,044	\$ 187,031
Interest expense	111,797	154,379
Net interest income	43,247	32,652
Provision for finance receivable losses	61,328	70,082
Net interest income after provision for finance receivable losses	(18,081)	(37,430)
Other revenues:		
Net loss on repurchases and repayments of debt	(10,023)	
Net gain on fair value adjustments on debt	8,298	14,964
Net loss on sales of real estate loans and related trust assets	(62,176)	
Other	(1,281)	(1,121)
Total other revenues	(65,182)	13,843
Other expenses:		
Operating expenses:		
Salaries and benefits	8,526	6,604
Other operating expenses	13,093	14,523
Total other expenses	21,619	21,127
Pretax operating loss	\$ (104,882)	\$ (44,714)

Selected financial statistics for Real Estate (which are reported on a historical accounting basis) were as follows:

(dollars in thousands) At or for the Three Months Ended March 31,	2014	2013
Real estate		
Net finance receivables	\$ 8,083,432	\$ 10,254,900
Number of accounts	110,454	131,289
TDR finance receivables	\$ 3,048,969	\$ 2,927,489
Allowance for finance receivables losses - TDR	\$ 729,621	\$ 673,247
Provision for finance receivable losses - TDR	\$ 45,141	\$ 48,131
Average net receivables	\$ 9,048,824	\$ 10,404,039

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Yield	6.74%	7.29%
Loss ratio*	1.62%	1.94%
Delinquency ratio	8.32%	7.54%

Table of Contents

* The loss ratio for the three months ended March 31, 2014 reflects \$2.2 million of recoveries on charged-off real estate loans resulting from a sale of previously charged-off real estate loans in March 2014, net of a \$0.2 million reserve for subsequent buybacks. Excluding these recoveries, our Real Estate loss ratio would have been 1.72% for the three months ended March 2014.

Comparison of Pretax Operating Results for Three Months Ended March 31, 2014 and 2013

(dollars in thousands) Three Months Ended March 31,	2014	2013
Interest income:		
Finance charges	\$ 150,466	\$ 187,031
Interest income on finance receivables held for sale originated as held for investment	4,578	
Total	\$ 155,044	\$ 187,031

Finance charges decreased \$36.6 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to decreases in average net receivables and yield. Average net receivables decreased for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to the continued liquidation of the real estate portfolio, including the transfers of \$913.0 million real estate loans associated with the 2009 securitization and an additional \$115.7 million real estate loans to finance receivables held for sale on March 1, 2014 and the subsequent sales of these real estate loans on March 31, 2014. The decrease in yield for the three months ended March 31, 2014 reflected the transfers of the real estate loans to finance receivables held for sale on March 1, 2014, and the increase in TDR finance receivables (which result in reduced finance charges reflecting the reductions to the interest rates on these TDR finance receivables).

Interest expense decreased \$42.6 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to lower secured term loan and unsecured debt interest expense allocated to Real Estate, partially offset by higher ratio of securitization interest expense reflecting Real Estate's utilization of three real estate loan securitization transactions during the past twelve months.

Provision for finance receivable losses decreased \$8.8 million for the three months ended March 31, 2014 when compared to the same period in 2013. The decrease in provision for finance receivable losses reflected a reduction in the allowance requirements recorded for the three months ended March 31, 2014 on our real estate loans deemed to be TDR finance receivables subsequent to the Fortress Acquisition. The decrease was partially offset by increases to the allowance for finance receivable losses reflecting higher real estate loan delinquency ratio at March 31, 2014.

Net loss on repurchases and repayments of debt of \$10.0 million for the three months ended March 31, 2014 reflected acceleration of amortization on deferred costs and repurchases of debt at net amounts greater than par for the three months ended March 31, 2014.

Net gain on fair value adjustments on debt of \$8.3 million and \$15.0 million for the three months ended March 31, 2014 and 2013, respectively, reflected differences between historical accounting basis and push-down accounting basis. On a historical accounting basis, certain long-term debt components are marked-to-market on a recurring basis and are no longer marked-to-market on a recurring basis after the application of push-down accounting at the time of the Fortress Acquisition.

Net loss on sales of real estate loans and related trust assets of \$62.2 million for the three months ended March 31, 2014 reflected the historical accounting basis of the real estate loans and related trust assets.

Table of Contents**OTHER**

Other consists of our other non-originating legacy operations, which are isolated by geographic market and/or distribution channel from our prospective Core Consumer Operations and our Non-Core Portfolio. These operations include our legacy operations in 14 states where we have also ceased branch-based personal lending as a result of our restructuring activities during the first half of 2012, our liquidating retail sales finance portfolio (including our retail sales finance accounts from our dedicated auto finance operation), our lending operations in Puerto Rico and the U.S. Virgin Islands, and the operations of our United Kingdom subsidiary.

Pretax operating results of the Other components (which are reported on a historical accounting basis) were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Interest income	\$ 5,104	\$ 15,344
Interest expense	2,143	4,834
Net interest income	2,961	10,510
Provision for finance receivable losses	965	993
Net interest income after provision for finance receivable losses	1,996	9,517
Other revenues:		
Insurance	16	20
Investment	29	1,286
Net loss on repurchases and repayments of debt	(47)	
Other	632	38
Total other revenues	630	1,344
Other expenses:		
Operating expenses:		
Salaries and benefits	3,671	8,581
Other operating expenses	1,706	5,134
Total other expenses	5,377	13,715
Pretax operating loss	\$ (2,751)	\$ (2,854)

Net finance receivables of the Other components (which are reported on a historical accounting basis) were as follows:

(dollars in thousands) March 31,	2014	2013
Net finance receivables:		
Personal loans	\$ 30,108	\$ 100,836
Real estate loans	7,225	8,296

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Retail sales finance		85,722		178,046
Total	\$	123,055	\$	287,178

Table of Contents

Credit Quality

Our customers encompass a wide range of borrowers. In the consumer finance industry, they are described as prime or near-prime at one extreme and non-prime or sub-prime (less creditworthy) at the other. Our customers' incomes are generally near the national median but our customers may vary from national norms as to their debt-to-income ratios, employment and residency stability, and/or credit repayment histories. In general, our customers have lower credit quality and require significant levels of servicing.

As a result of the Fortress Acquisition, we applied push-down accounting and adjusted the carrying value of our finance receivables (the FA Loans) to their fair value on November 30, 2010. For purchased finance receivables, such as the SpringCastle Portfolio (SCP Loans), we also record these loans at fair value on the day of purchase.

Carrying value of finance receivables includes accrued finance charges, unamortized deferred origination costs and unamortized net premiums and discounts on purchased finance receivables. We record an allowance for loan losses to cover expected losses on our finance receivables.

For both the FA Loans and SCP Loans, we segregate between those considered to be performing (FA Performing Loans and SCP Performing Loans, respectively) and those for which it was determined it was probable that we would be unable to collect all contractually required payments (FA Credit Impaired Loans and SCP Credit Impaired Loans, respectively). For the FA Performing Loans and the SCP Performing Loans, we accrete the purchase discount to contractual cash flows over the remaining life of the loan to finance charges. For the FA Credit Impaired Loans and SCP Credit Impaired Loans, we record the expected credit loss at purchase and recognize finance charges on the expected effective yield.

Table of Contents**FINANCE RECEIVABLES**

Net finance receivables by originated before and after the Fortress Acquisition and the related allowance for finance receivable losses were as follows:

(dollars in thousands)	March 31, 2014	December 31, 2013
Personal Loans		
FA Performing Loans at Fortress Acquisition	\$ 148,845	\$ 168,386
Originated after Fortress Acquisition	3,034,024	3,003,318
Allowance for finance receivable losses	(102,440)	(94,880)
Personal loans, less allowance for finance receivable losses	3,080,429	3,076,824
SpringCastle Portfolio		
SCP Performing Loans	1,873,543	1,975,023
SCP Credit Impaired Loans	469,032	530,326
Allowance for finance receivable losses	(838)	(1,056)
SpringCastle Portfolio, less allowance for finance receivable losses	2,341,737	2,504,293
Real Estate Loans		
FA Performing Loans at Fortress Acquisition	5,723,535	6,597,300
FA Credit Impaired Loans	1,176,240	1,314,381
Originated after Fortress Acquisition*	68,633	70,668
Allowance for finance receivable losses	(259,926)	(235,549)
Real estate loans, less allowance for finance receivable losses	6,708,482	7,746,800
Retail Sales Finance		
FA Performing Loans at Fortress Acquisition	52,878	63,158
Originated after Fortress Acquisition	29,319	35,753
Allowance for finance receivable losses	(2,690)	(1,840)
Retail sales finance, less allowance for finance receivable losses	79,507	97,071
Total net finance receivables, less allowance	\$ 12,210,155	\$ 13,424,988
Allowance for finance receivable losses as a percentage of finance receivables		
Personal loans	3.22%	2.99%
SpringCastle Portfolio	0.04%	0.04%
Real estate loans	3.73%	2.95%
Retail sales finance	3.27%	1.86%

* Real estate loan originations in 2014 and 2013 were from advances on home equity lines of credit.

We consider the delinquency status of the finance receivable as our primary credit quality indicator. We monitor delinquency trends to manage our exposure to credit risk. We consider finance receivables 60 days or more past due as delinquent and consider the likelihood of collection to decrease at such time.

Table of Contents

The following is a summary of net finance receivables by type by days delinquent:

(dollars in thousands)	Personal Loans	SpringCastle Portfolio	Real Estate Loans	Retail Sales Finance	Total
March 31, 2014					
Net finance receivables:					
60-89 days past due	\$ 22,552	\$ 38,619	\$ 95,727	\$ 889	\$ 157,787
90-119 days past due	20,145	29,966	52,280	665	103,056
120-149 days past due	18,919	24,309	47,002	823	91,053
150-179 days past due	16,877	23,808	39,938	555	81,178
180 days or more past due	1,936	5,236	330,300	234	337,706
Total delinquent finance receivables	80,429	121,938	565,247	3,166	770,780
Current	3,064,712	2,151,291	6,226,194	77,527	11,519,724

Total	\$ 3,171,704	\$ 2,505,349	\$ 7,982,349	\$ 98,911	\$ 13,758,313

TROUBLED DEBT RESTRUCTURING

We make modifications to our real estate loans to assist borrowers in avoiding foreclosure. When we modify a real estate loan's contractual terms for economic or other reasons related to the borrower's financial difficulties and grant a concession that we would not otherwise consider, we classify that loan as a TDR finance receivable.

Information regarding TDR finance receivables were as follows:

(dollars in thousands)	March 31, 2014	December 31, 2013
TDR net finance receivables	\$ 1,356,449	\$ 1,380,223
Allowance for TDR finance receivable losses	\$ 192,922	\$ 176,455
Allowance as a percentage of TDR net finance receivables	14.22%	12.78%
Number of TDR accounts	14,827	14,609

Table of Contents

Net finance receivables that were modified as TDR finance receivables within the previous 12 months and for which there was a default during the period were as follows:

(dollars in thousands) Three Months Ended March 31,	2014	2013
Real Estate Loans		
Number of TDR accounts	229	224
TDR net finance receivables*	\$ 15,503	\$ 18,250

* Represents the corresponding balance of TDR net finance receivables at the end of the month in which they defaulted.

We may make modifications to loans in our newly acquired SpringCastle Portfolio to assist borrowers in avoiding default and to mitigate the risk of loss. When we modify a loan's contractual terms for economic or other reasons related to the borrower's financial difficulties and grant a concession that we would not otherwise consider, we classify that loan as a TDR finance receivable. We restructure finance receivables only if we believe the customer has the ability to pay under the restructured terms for the foreseeable future. There were no SpringCastle Portfolio TDR accounts as of the April 1, 2013 acquisition date as any account deemed as a TDR under our policy was categorized as a purchased credit impaired finance receivables. The amount of SpringCastle Portfolio loans that has been classified as a TDR finance receivable subsequent to the acquisition date is \$0.2 million and has not yet reached a significant level for detailed disclosure.

Liquidity and Capital Resources

We have historically financed the majority of our operating liquidity and capital needs through a combination of cash flows from operations, securitization debt, unsecured debt, and borrowings under our secured term loan. In the future, we plan to finance our operating liquidity and capital needs through a combination of cash flows from operations, securitization debt, unsecured debt, other corporate debt facilities, and equity.

As a holding company, all of the funds generated from our operations are earned by our operating subsidiaries. Our operating subsidiaries primary cash needs relate to funding our lending activities, our debt service obligations, our operating expenses and, to a lesser extent, expenditures relating to upgrading and monitoring our technology platform, risk systems, and branch locations.

Our insurance subsidiaries maintain reserves as liabilities on the balance sheet to cover future claims for certain insurance products. Claims reserves totaled \$69.9 million as of March 31, 2014.

At March 31, 2014, we had \$764.2 million of cash and cash equivalents, and for the three months ended March 31, 2014, SHI generated net income of \$52.3 million. Our net cash inflow from operating and investing activities totaled \$1.3 billion for the three months ended March 31, 2014. At March 31, 2014, our remaining scheduled principal and interest payments for 2014 on our existing debt (excluding securitizations)

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

totaled \$684.3 million. As of March 31, 2014, we had \$1.5 billion UPB of unencumbered personal loans and \$2.5 billion UPB of unencumbered real estate loans.

Based on our estimates and taking into account the risks and uncertainties of our plans, we believe that we will have adequate liquidity to finance and operate our businesses and repay our obligations as they become due for at least the next twelve months.

To reduce the risk associated with unfavorable changes in interest rates on our debt not offset by favorable changes in yield of our finance receivables, we monitor the anticipated cash flows of our assets and liabilities, principally our finance receivables and debt. We have funded finance receivables with a combination of fixed-rate and floating-rate debt and equity and have based the mix of fixed-rate and floating-rate debt issuances, in part, on the nature of the finance receivables being supported. We did not

Table of Contents

have any floating-rate long-term debt outstanding at March 31, 2014. On a historical accounting basis, our floating-rate debt represented 8% of our borrowings at December 31, 2013.

LIQUIDITY

Operating Activities

Cash from operations increased \$144.4 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to higher net interest income.

Investing Activities

Net cash provided by investing activities increased \$640.1 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to sales of finance receivables held for sale originated as held for investment on March 31, 2014.

Financing Activities

Net cash used for financing activities increased \$921.7 million for the three months ended March 31, 2014 when compared to the same period in 2013 primarily due to the repayments of the secured term loan and the 2013-BAC trust notes in late March 2014.

Liquidity Risks and Strategies

We currently have a significant amount of indebtedness in relation to our equity. SFC's credit ratings are non-investment grade, which have a significant impact on our cost of, and access to, capital. This, in turn, negatively affects our ability to manage our liquidity and our ability and cost to refinance our indebtedness.

There are numerous risks to our financial results, liquidity, capital raising, and debt refinancing plans, some of which may not be quantified in our current liquidity forecasts. These risks include, but are not limited to, the following:

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

- our inability to grow our personal loan portfolio with adequate profitability;
- the effect of federal, state and local laws, regulations, or regulatory policies and practices;
- the liquidation and related losses within our real estate portfolio could be substantial and result in reduced cash receipts;
- potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans; and
- the potential for disruptions in bond and equity markets.

The principal factors that could decrease our liquidity are customer delinquencies and defaults, a decline in customer prepayments, and a prolonged inability to adequately access capital market funding. We intend to support our liquidity position by utilizing the following strategies:

- maintaining disciplined underwriting standards and pricing for loans we originate or purchase and managing purchases of finance receivables;
- pursuing additional debt financings (including new securitizations and new unsecured debt issuances, debt refinancing transactions and standby funding facilities), or a combination of the foregoing;
- purchasing portions of our outstanding indebtedness through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices, as well as with such consideration, as we may determine; and

Table of Contents

- obtaining secured revolving credit facilities to allow us to use excess cash to pay down higher cost debt.

However, it is possible that the actual outcome of one or more of our plans could be materially different than expected or that one or more of our significant judgments or estimates could prove to be materially incorrect.

OUR INSURANCE SUBSIDIARIES

State law restricts the amounts our insurance subsidiaries, Merit and Yosemite, may pay as dividends without prior notice to, or in some cases approval from, the Indiana Department of Insurance. The maximum amount of dividends that can be paid without prior approval in a 12 month period, measured retrospectively from the date of payment, is the greater of 10% of policyholders' surplus as of the prior year-end, or the net gain from operations as of the prior year-end.

OUR DEBT AGREEMENTS

On December 30, 2013, SHI entered into Guaranty Agreements whereby it agreed to fully and unconditionally guarantee the payment of principal of, premium (if any), and interest on approximately \$5.2 billion aggregate principal amount of senior notes on a senior basis and \$350.0 million aggregate principal amount of a junior subordinated debenture (collectively, the "notes") on a junior subordinated basis issued by SFC. The notes consist of the following: 8.250% Senior Notes due 2023; 7.750% Senior Notes due 2021; 6.00% Senior Notes due 2020; a 60-year junior subordinated debenture; and all senior notes outstanding on December 30, 2013, issued pursuant to the Indenture dated as of May 1, 1999 (the "1999 Indenture"), between SFC and Wilmington Trust, National Association (the successor trustee to Citibank N.A.). As of December 30, 2013, approximately \$3.9 billion aggregate principal amount of senior notes were outstanding under the 1999 Indenture. The 60-year junior subordinated debenture underlies the trust preferred securities sold by a trust sponsored by SFC. On December 30, 2013, SHI entered into a Trust Guaranty Agreement whereby it agreed to fully and unconditionally guarantee the related payment obligations under the trust preferred securities.

The debt agreements to which SFC and its subsidiaries are a party include customary terms and conditions, including covenants and representations and warranties. Some or all of these agreements also contain certain restrictions, including restrictions on the ability to create senior liens on property and assets in connection with any new debt financings and SFC's ability to sell or convey all or substantially all of its assets, unless the transferee assumes SFC's obligations under the applicable debt agreement.

With the exception of SFC's junior subordinated debenture and one consumer loan securitization, none of our debt agreements require SFC or any of its subsidiaries to meet or maintain any specific financial targets or ratios.

Under our debt agreements, certain events, including non-payment of principal or interest, bankruptcy or insolvency, or a breach of a covenant or a representation or warranty may constitute an event of default and trigger an acceleration of payments. In some cases, an event of default or acceleration of payments under one debt agreement may constitute a cross-default under other debt agreements resulting in an acceleration of payments under the other agreements.

As of March 31, 2014, we were in compliance with all of the covenants under our debt agreements.

Junior Subordinated Debenture

In January 2007, SFC issued \$350.0 million aggregate principal amount of 60-year junior subordinated debenture (the debenture) under an indenture dated January 22, 2007 (the Junior Subordinated Indenture), by and between SFC and Deutsche Bank Trust Company, as trustee. The debenture underlies

Table of Contents

the trust preferred securities sold by a trust sponsored by SFC. SFC can redeem the debenture at par beginning in January 2017.

Pursuant to the terms of the debenture, SFC, upon the occurrence of a mandatory trigger event, is required to defer interest payments to the holders of the debenture (and not make dividend payments to SFI) unless SFC obtains non-debt capital funding in an amount equal to all accrued and unpaid interest on the debenture otherwise payable on the next interest payment date and pays such amount to the holders of the debenture. A mandatory trigger event occurs if SFC's (1) tangible equity to tangible managed assets is less than 5.5% or (2) average fixed charge ratio is not more than 1.10x for the trailing four quarters (where the fixed charge ratio equals earnings excluding income taxes, interest expense, extraordinary items, goodwill impairment, and any amounts related to discontinued operations, divided by the sum of interest expense and any preferred dividends).

Based upon SFC's financial results for the twelve months ended March 31, 2014, a mandatory trigger event occurred with respect to the payment due in July 2014 as the average fixed charge ratio was 0.93x. As of March 31, 2014, SFC had not received from SFI the non-debt capital funding necessary to satisfy the July 2014 interest payments required by SFC's debenture.

Consumer Loan Securitization

In connection with the Sumner Brook 2013-VFN1 securitization, SFC is required to maintain an available cash covenant and a consolidated tangible net worth covenant. At March 31, 2014, SFC is in compliance with these covenants.

Table of Contents

Structured Financings

We execute private securitizations under Rule 144A of the Securities Act. As of March 31, 2014, our structured financings consisted of the following:

(dollars in thousands)	Initial Note Amounts Issued (a)	Initial Collateral Balance	Current Note Amounts Outstanding	Current Collateral Balance (b)	Current Weighted Average Interest Rate	Collateral Type	Revolving Period
Mortgage Securitizations							
AGFMT 2006-1	\$ 457,061	\$ 473,570	\$ 111,497	\$ 130,406	5.7500%	Mortgage loans	N/A
AGFMT 2010-1	716,897	1,002,653	262,834	581,097	5.5601%	Mortgage loans	N/A

Consumer Securitizations							
SLFMT 2013-A	567,880	662,247	567,880	662,251	2.7525%	Personal loans	2 years
SLFMT 2013-B	370,170	441,989	370,170	441,996	3.9872%	Personal loans	3 years
SLFMT 2014-A	559,260	644,331	559,260	664,331	2.5548%	Personal loans	2 years
Total mortgage and consumer securitizations	6,829,325	8,854,805	5,190,795	7,446,041			
SpringCastle Securitization							
SCFT 2013-1						Personal and junior	
	2,572,000	3,934,955	1,815,736	3,233,790	3.8000%	mortgage loans	N/A
Total secured structured financings	\$ 9,401,325	\$ 12,789,760	\$ 7,006,531	\$ 10,679,831			

(a) Represents securities sold at time of issuance or at a later date and does not include retained notes.

(b) Represents UPB of the collateral supporting the issued and retained notes.

In addition to the structured financings included in the table above, we completed three conduit securitizations in 2013. At March 31, 2014, there were no amounts drawn under these notes.

Edgar Filing: Springleaf Holdings, Inc. - Form 10-Q

Our 2013 and 2014 securitizations have served to partially replace secured and unsecured debt in our capital structure with more favorable non-recourse funding. Our overall funding costs are positively impacted by our increased usage of securitizations as we typically execute these transactions at interest rates significantly below those of our maturing secured and unsecured debt.

The weighted average interest rates on our debt on a historical accounting basis were as follows:

Three Months Ended March 31,	2014	2013
Weighted average interest rate	5.38%	5.93%

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements as defined by SEC rules. We had no off-balance sheet exposure to losses associated with unconsolidated VIEs at March 31, 2014 or December 31, 2013.

Table of Contents

Critical Accounting Policies and Estimates

We describe our significant accounting policies used in the preparation of our consolidated financial statements in Note 2 of the Notes to Consolidated Financial Statements in Part II, Item 8 of our 2013 Annual Report on Form 10-K. We consider the following policies to be our most critical accounting policies because they involve critical accounting estimates and a significant degree of management judgment:

- allowance for finance receivable losses;
- purchased credit impaired finance receivables;
- TDR finance receivables;
- push-down accounting; and
- fair value measurements.

We believe the amount of the allowance for finance receivable losses is the most significant estimate we make. See **Critical Accounting Policies and Estimates - Allowance for Finance Receivable Losses** in Part II, Item 7 of our 2013 Annual Report on Form 10-K for further discussion of the models and assumptions used to assess the adequacy of the allowance for finance receivable losses.

There have been no significant changes to our critical accounting policies or to our methodologies for deriving critical accounting estimates during the three months ended March 31, 2014.

Recent Accounting Pronouncements

See Note 1 of the Notes to Condensed Consolidated Financial Statements for discussion of recently issued accounting pronouncements.

Seasonality

Our personal loan volume is generally highest during the second and fourth quarters of the year, primarily due to marketing efforts, seasonality of demand, and increased traffic in branches after the winter months. Demand for our personal loans is usually lower in January and February after the holiday season and as a result of tax refunds. Delinquencies on our personal loans tend to peak in the second and third quarters and higher net charge-offs on these loans usually occur at year end. These seasonal trends contribute to fluctuations in our operating results and cash needs throughout the year.

Table of Contents**Glossary of Terms**

Average debt	average of debt for each day in the period
Average net receivables	average of net finance receivables at the beginning and end of each month in the period
Charge-off ratio	annualized net charge-offs as a percentage of the average of net finance receivables at the beginning of each month in the period
Delinquency ratio	UPB 60 days or more past due (greater than three payments unpaid) as a percentage of UPB
Gross charge-off ratio	annualized gross charge-offs as a percentage of the average of net finance receivables at the beginning of each month in the period
Junior Subordinated Indenture	capital securities classified as debt for accounting purposes but due to their terms are afforded, at least in part, equity capital treatment in the calculation of effective leverage by rating agencies
Loss ratio	annualized net charge-offs, net writedowns on real estate owned, net gain (loss) on sales of real estate owned, and operating expenses related to real estate owned as a percentage of the average of real estate loans at the beginning of each month in the period
Net interest income	interest income less interest expense
Recovery ratio	annualized recoveries on net-charge offs as a percentage of the average of net finance receivables at the beginning of each month in the period
Tangible equity	total equity less accumulated other comprehensive income or loss
Weighted average interest rate	annualized interest expense as a percentage of average debt
Yield	annualized finance charges as a percentage of average net receivables

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes to our market risk since December 31, 2013.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures include controls and procedures designed to provide reasonable assurance that information required to be disclosed is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period. Based on their evaluation, and in light of the previously identified material weakness in internal control over financial reporting, as of December 31, 2013, described within the 2013 Annual Report on Form 10-K, our Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were not effective as of March 31, 2014.

We have developed a remediation plan for this material weakness, including enhancing our complement of resources with accounting and internal control knowledge through additional hiring and/or training to implement and perform additional controls over the initial and subsequent accounting for certain complex non-routine transactions. We are currently in the initial stages of implementation of this plan. When fully implemented and operating effectively, such enhancements are expected to remediate the material weakness described above. However, we cannot provide any assurance that these remediation efforts will be successful or that our internal control over financial reporting will be effective as a result of these efforts.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
