Ares Management Funds

Letter to Shareholders

April 30, 2014 (Unaudited)

Dear Shareholders,

We would like to start by thanking you for your interest and participation in the Ares Dynamic Credit Allocation Fund, Inc. ("ARDC") and the Ares Multi-Strategy Credit Fund, Inc. ("ARMF" individually, a "Fund" or, collectively, the "Funds"). We appreciate the trust and confidence in Ares Management that you have demonstrated through your investment in ARDC and ARMF.

Economic Conditions and Leveraged Finance Market Update

Conditions within the capital markets have remained relatively stable throughout 2014 thus far, fueled by lower than anticipated interest rates, encouraging corporate earnings in the U.S., and a benign default environment. More recently, cooling technical conditions have moderated, as retail outflows and mounting new issuance ease the supply/demand imbalance. With 10-year Treasury yields easing approximately 36 basis points since the beginning of the year, high yield bonds have outperformed both equities and loans on a year-to-date ("YTD") basis with the BofA Merrill Lynch High Yield Master II Index ("H0A0") returning 3.86% compared to 2.56% and 1.53% for equities and loans, measured by the S&P 500 and the Credit Suisse Leveraged Loan Index ("CSLLI"), respectively.

U.S. economic expansion for the first quarter of 2014 fell short of expectations and likely contracted for the first time in three years, primarily due to an inclement harsh winter and recently reported misses in U.S. exports and other economic indicators. The government initially reported that the economy practically stalled in the first three months of 2014, with a preliminary gross domestic product ("GDP") reading of +0.1%. In early May, however, reports on the U.S. trade deficit, construction spending and business inventories have been weaker than Wall Street expected. As a result, economists now predict GDP will be revised down to a modest decline for Q1, which would mark only the second contraction since the most recent recession ended in 2009 (the last negative quarter was in early 2011, when GDP fell by -1.3%).ⁱ That said, economists polled by MarketWatch are forecasting a 3.5% advance in Q2 growth as an unusually harsh winter often leads to a spring rebound. Early indications have been supportive, with the U.S. Labor Department reporting 288,000 jobs were created during the month of April, significantly more than the 218,000 economists were expecting. In addition, February and March hiring totals were revised higher and the unemployment rate declined from 6.7% to 6.3%, a stronger than anticipated number and the lowest rate since before the financial crisis. While the boost in job creation helped alleviate anxiety that the lingering effects of the harsh winter remained, the market reaction was muted as investors seem more focused on the manner in which economic data is impacting corporate earnings and monetary policy. Specific to earnings season, overall results have been better than expected considering weather and GDP headwinds, as over half of the 435 companies in the S&P 500 that had reported as of May 8th surprised to the upside on sales and 75% beat on earnings per share ("EPS").ⁱⁱ With respect to monetary policy, late in April the Federal Reserve (the "Fed") decided to extend quantitative easing tapering at the existing pace, reducing the monthly asset purchase program by another \$10 billion as was widely expected and continuing the course to have this stimulus program further depleted later this year.

Across the pond, tensions remain high following Russian President Vladimir Putin's annexation of Crimea in April. While the action was condemned by both the U.S. and E.U., speculation still remains over Moscow's future intent for the region. The situation deteriorated further after Russia's foreign minister refused to meet with world leaders in Geneva to resolve the Ukraine crisis. Some have accused Russia of deliberately fueling disorder in Ukraine to disrupt the presidential elections to be held in the former Soviet republic later in May. Despite heightening political tension, European market sentiment has been largely positive, bolstered by new European Central Bank quantitative easing

initiatives to support the region's recovering economy. We view Europe as an early cycle recovery play and continue to seek out investments in high quality companies in the region.

As it relates to the structured credit landscape, April 2014 U.S. CLO issuance set a new post-crisis record being the third busiest month ever after August 2006 and November 2006, bringing year-to-date issuance to \$35.0bn across 68 deals, according to S&P Capital IQ. We anticipate the strong pace of issuance to continue, as market conditions are supportive and the pipeline is full. In fact, recent activity has led several banks to issue upward revisions in early May of their 2014 forecasts from \$60-80bn at year-end to \$75-100bn. While CLO arbitrage has been and remains challenging, it has been helped by the recent softness in loans. Market technicals shifted in favor of investors last month as bank loan mutual funds saw consecutive weekly outflows and as the forward calendar expanded to \$63.4bn, its highest level since July 2008. Given this encouraging backdrop, investors and managers are proving receptive to new, innovative structures with shorter non-call and reinvestment periods as an alternative to refinancings or repricings.ⁱⁱⁱ On the other side of the arbitrage equation, there is evidence of a deepening CLO AAA buyer base and even some tightening in spreads with several sub-150 basis point prints

Ares Management Funds

Letter to Shareholders *(continued)*

April 30, 2014 (Unaudited)

seen in recent weeks. However, given the large amount of primary supply and lack of impending further relief on the Volcker Rule, expectations are low for a meaningful tightening. On the secondary side, CLO prices have softened moderately across the capital structure as investors were focused on strong new issue supply. We continue to remain firm in our view that CLOs continue to provide an attractive source of risk-adjusted returns given the strength in credit fundamentals and a constructive outlook on the economy. From a relative value standpoint, we favor primary to secondary CLO paper today. For additional information about the instruments in which ARDC and ARMF invest, please refer to the Funds' prospectuses.

Despite the recent pullback in investor sentiment due to cooler technical conditions, we believe the backdrop for high yield and bank loans remains supportive given growth is expected to accelerate in 2Q, interest rates are lower than anticipated and the default environment remains benign. With 2014 largely expected by market prognosticators to be a "coupon clipping" year for the asset classes, performance looks to have been front loaded especially when taking into account the inherent price ceiling of each asset class. Looking forward, outperformance will likely be awarded to those managers who focus on credit selection and mistake avoidance with thorough bottom up analysis, a practice that we believe Ares Management does particularly well. Opportunities to source discounted names have largely been limited, however, we believe the probability for market dislocations, be it from an escalation of the Ukrainian conflict, further slowdown in Chinese economic growth or interest rate volatility related to a diversion of Fed policy, remain elevated. We continue to believe credit fundamentals will largely remain strong, but believe additional value will be rewarded to selective credit pickers avoiding the overly aggressive terms without requisite compensation. Overall, we continue to view the non-investment grade credit markets as an attractive asset class for capital deployment given the overall healthy credit environment, current income generation, positioning in the capital structure and a relatively low duration profile.

Ares Dynamic Credit Allocation Fund, Inc.

Ares Dynamic Credit Allocation Fund, Inc. ("ARDC") is a closed-end fund that trades on the New York Stock Exchange under the symbol "ARDC". ARDC's investment objective is to provide an attractive level of total return, primarily through current income and, secondarily, through capital appreciation, by investing in a broad, dynamically-managed portfolio of below investment grade senior secured loans, high yield corporate bonds, and investment grade tranches of collateralized loan obligations. As of April 30, 2014, ARDC held approximately 42% of its Managed Assets in corporate bonds, more than 38% in senior loans, and just over 17% in structured credit, with the balance being in cash. As of April month-end, ARDC's investments included 141 issuers diversified across more than 30 distinct industries (based on Merrill Lynch industry classifications). The top five industry groups represented 44% of total holdings of ARDC while the top ten issuer holdings accounted for less than 15% of total portfolio holdings. ARDC has outperformed the CSLLI and slightly underperformed the H0A0 for the YTD period ending April 30, 2014 on a Net Asset Value ("NAV") basis returning 2.93% versus 1.53% and 3.71% for the CSLLI and H0A0, respectively.

Ares Multi-Strategy Credit Fund, Inc.

Ares Multi-Strategy Credit Fund, Inc. ("ARMF") is a closed-end fund that trades on the New York Stock Exchange under the symbol "ARMF". ARMF's investment objective is to provide an attractive risk-adjusted level of total return, primarily through current income and, secondarily, through capital appreciation, by investing primarily in a broad, dynamically managed portfolio of below investment grade senior secured loans, high yield corporate bonds, other similar fixed-income instruments, including derivatives, collateralized loan obligations, and other asset backed

Edgar Filing: Ares Dynamic Credit Allocation Fund, Inc. - Form N-CSRS

securities. As of April 30, 2014, ARMF held approximately 41% of its Managed Assets in corporate bonds, 39% in senior loans, just over 13% in CLO debt securities, 2.5% in CLO equity and the balance in cash. As of April month-end, ARMF's investments included 104 issuers diversified across more than 30 distinct industries (based on Merrill Lynch industry classifications). The top five industry groups represented approximately 47% of total holdings of ARMF while the top ten issuer holdings accounted for less than 16% of total portfolio holdings. ARMF has outperformed the CSLLI and has performed in line with the H0A0 for the YTD period ending April 30, 2014 on a Net Asset Value ("NAV") basis returning 3.63% versus 1.53% and 3.71% for the CSLLI and H0A0, respectively.

Ares Management Funds

Letter to Shareholders *(continued)*

April 30, 2014 (Unaudited)

In conclusion, we maintain strong conviction in the ARDC and ARMF portfolios and believe both funds continue to be well positioned to take advantage of buying opportunities in the new issue and secondary markets. We continue to believe that the ability to dynamically allocate is critical to successfully navigating an evolving market environment with headline and interest rate driven volatility. Thank you again for your continued support of ARDC and ARMF. If you have any questions about either Fund, please call 1-877-855-3434, or visit the Funds' websites at www.arespublicfunds.com.

Best Regards,

Ares Management

Ares Dynamic Credit Allocation Fund, Inc.

Fund Profile & Financial Data

April 30, 2014 (Unaudited)

Portfolio Characteristics as of 4.30.14

Weighted Average Floating Coupon ¹	5.12%
Weighted Average Bond Coupon ²	8.77%
Current Distribution Rate ³	7.67%
Dividend Per Share	\$ 0.117

1 The weighted-average gross interest rates of the pool of loans as of April 30th, 2014.

2 The weighted-average gross interest rates of the pool of bonds at the time the securities were issued.

3 The distribution rate is calculated based on latest declared monthly dividend annualized and divided by the closing market price of the Fund's shares as of April 30th, 2014. The Fund currently estimates that such distributions have been paid entirely from investment income. However, to the extent any portion of the current distribution is paid from sources other than investment income (such as long-term capital gains or return of capital) the source(s) would be disclosed in a Section 19 notice located under the "Investor Documents" section of the Fund's website. These estimates should not be relied on for tax purposes. The Fund will send to investors a Form 1099-DIV for the calendar year that will define how these distributions should be reported for federal income tax purposes. The distribution rate alone is not indicative of Fund performance.

Total Investments 136.8% (Cost: \$453,041,272)		\$ 460,835,748
Liabilities in Excess of Other Assets (36.8%)		(123,860,116)
Net Assets 100.0%		\$ 336,975,632

Footnotes:

(a) Investment holdings in foreign currencies are converted to U.S. Dollars using period end spot rates. All investments are in United States enterprises unless otherwise noted.

- (b) Interest rates on floating rate term loans adjust periodically based upon a predetermined schedule. Stated interest rate in this schedule represents the "all-in" rate at period end.
- (c) This position or a portion of this position represents an unsettled loan purchase. The interest rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate ("LIBOR" or "L") or the applicable LIBOR floor plus a spread which was determined at the time of purchase.
- (d) Security valued at fair value using methods determined in good faith by or under the direction of the Board of Directors.
- (e) Reported net of unfunded commitments, reduced by any upfront payments received if purchased at a discount, see Note 2.

Total Investments 137.7% (Cost: \$172,003,468)		\$172,972,389
Liabilities in Excess of Other Assets (37.7%)		(47,362,090)
Net Assets 100.0%		\$125,610,299

Footnotes:

(a) Investment holdings in foreign currencies are converted to U.S. Dollars using period end spot rates. All investments are in United States enterprises unless otherwise noted.

(b) Interest rates on floating rate term loans adjust periodically based upon a predetermined schedule. Stated interest rate in this schedule represents the "all-in" rate at period end.

(c) This position or a portion of this position represents an unsettled loan purchase. The interest rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate ("LIBOR" or "L") or the applicable LIBOR floor plus a spread which was determined at the time of purchase.

(d) Security valued at fair value using methods determined in good faith by or under the direction of the Board of Directors.

(e) Reported net of unfunded commitments, reduced by any upfront payments received if purchased at a discount, see Note 2.

(f) Variable rate coupon, rate shown as of April 30, 2014.

(g) Pay-In-Kind security (PIK), which may pay interest/dividends in additional par/shares.

(h) When-Issued or delayed delivery security based on typical market settlement convention for such security.

As of April 30, 2014, the aggregate cost of securities for Federal income tax purposes was \$172,003,468. Unrealized appreciation and depreciation on investments for Federal income tax purposes are as follows:

Gross unrealized appreciation	\$ 2,157,553
Gross unrealized depreciation	(1,188,632)
Net unrealized appreciation	\$ 968,921

Ares Dynamic Credit Allocation Fund, Inc.
Ares Multi-Strategy Credit Fund, Inc.

Notes to Financial Statements

April 30, 2014 (Unaudited)

(1) Organization

Ares Dynamic Credit Allocation Fund, Inc. ("ARDC") and Ares Multi-Strategy Credit Fund, Inc. ("ARMF") (individually, a "Fund" or, collectively, the "Funds") are corporations incorporated under the laws of the State of Maryland and registered with the U.S. Securities and Exchange Commission (the "SEC") under the Investment Company Act of 1940, as amended (the "Investment Company Act"), as closed-end, non-diversified, management investment companies, and intend to qualify to be treated as Regulated Investment Companies under Subchapter M of the Internal Revenue Code of 1986, as amended. ARDC and ARMF commenced operations on November 27, 2012 and October 28, 2013, respectively. Ares Capital Management II LLC (the "Adviser") serves as the investment adviser to the Funds. The Funds' common shares are listed on the New York Stock Exchange and trade under the ticker symbols "ARDC" and "ARMF", respectively.

Investment Objective

ARDC's investment objective is to provide an attractive risk-adjusted level of total return, primarily through current income and, secondarily, through capital appreciation. The Fund seeks to achieve its investment objective by investing primarily in a broad, dynamically managed portfolio of (i) secured loans ("Senior Loans") made primarily to companies whose debt is rated below investment grade, (ii) corporate bonds ("Corporate Bonds") that are expected to be primarily high yield issues rated below investment grade, and (iii) debt securities ("CLO Debt Securities") issued by entities commonly referred to, and referred to herein, as collateralized loan obligations ("CLOs"). The Adviser will dynamically allocate the Fund's portfolio among investments in the various targeted credit markets, to seek to manage interest rate and credit risk and the duration of the Fund's portfolio.

ARMF's investment objective is to provide an attractive risk-adjusted level of total return, primarily through current income and, secondarily, through capital appreciation. The Fund seeks to achieve its investment objective by investing primarily in a broad, dynamically managed portfolio of (i) secured loans ("Senior Loans") made primarily to companies whose debt is rated below investment grade, (ii) corporate bonds ("Corporate Bonds") that are expected to be primarily high yield issues rated below investment grade, and (iii) securities issued by entities commonly referred to, and referred to herein, as collateralized loan obligations ("CLOs") including investments in subordinated tranches of CLO securities. The Adviser will dynamically allocate the Fund's portfolio among investments in the various targeted credit markets, to seek to

manage interest rate and credit risk and the duration of the Fund's portfolio.

(2) Significant Accounting Policies

Accounting Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Adviser to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates and such differences may be material.

Investments Valuation

All investments in securities are recorded at their estimated fair value, as described in Note 3.

Revolving loan, bridge loan and delayed draw term loan agreements

For investment purposes, the Funds have entered into certain loan commitments which may include revolving loan, bridge loan, partially unfunded term loan and delayed draw term loan agreements ("Unfunded loan commitments"). Unfunded loan commitments purchased at a discount/premium may include cash received/paid for the amounts representing such discounts/premiums. Unfunded loan commitments are agreements to participate in the lending of up to a specified maximum amount for a specified period. As of April 30, 2014, the fair value of the loans disclosed in the Schedule of Investments does not include unfunded commitments, which total \$279,107 and \$143,190 for ARDC and ARMF, respectively.

Interest Income

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected, and adjusted for accretion of discounts and amortization of premiums. The Funds may have investments that contain payment-in-kind ("PIK") provisions. The PIK interest, computed at the contractual rate specified, is added to the principal balance and adjusted cost of the investments and recorded as interest income.

Discounts and Premiums

Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective interest method. The adjusted cost of investments represents the original cost adjusted for PIK interest and the accretion of discounts and amortization of premiums.

Ares Dynamic Credit Allocation Fund, Inc.
Ares Multi-Strategy Credit Fund, Inc.

Notes to Financial Statements *(continued)*

April 30, 2014 (Unaudited)

Investment Transactions, Related Investment Income and Expenses

Investment transactions are accounted for on the trade date. Interest income, adjusted for amortization of premiums and accretion of discounts on investments, is earned from settlement date and is recorded on the accrual basis. Realized gains and losses are reported on the specific identification method. Expenses are recorded on the accrual basis as incurred.

Foreign Currency Transactions

Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (i) investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates effective on the date of valuation; (ii) purchases and sales of investments and income and expense items denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates prevailing on transaction dates.

The Funds do not isolate that portion of the results of operations resulting from the changes in foreign exchange rates on investments from fluctuations arising from changes in market prices of securities held. Such fluctuations are included within the net realized and unrealized gain on investments and foreign currency in the Statements of Operations.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates of securities transactions, and the difference between the amounts of income and expense items recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from the changes in fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in exchange rates.

Investments in foreign companies and securities of foreign governments may involve special risks and considerations not typically associated with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transactions clearance and settlement practices, and potential future adverse political and economic developments. Moreover, investments in foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

Offering Expenses

The Adviser or an affiliate of the Adviser agreed to pay all offering costs (other than sales loads) incurred in connection with the Funds' initial offering in excess of \$0.04 and \$0.05 per share for ARDC and ARMF, respectively. Offering costs incurred by the Funds were \$686,000 and \$260,000 for ARDC and ARMF, respectively, in connection with the Funds' Initial Public Offering and are reported on the Statements of Changes in Net Assets as an offset to Proceeds from sale of shares.

Dividends and Distributions

The Funds intend to make regular monthly cash distributions of all or a portion of their net investment income available to common shareholders. The Funds intend to pay common shareholders at least annually all or substantially all of their net investment income after the payment of interest owed with respect to notes or other forms of leverage utilized by the Funds. The Funds intend to pay any capital gains distributions at least annually.

The distributions for any full or partial year might not be made in equal amounts, and one distribution may be larger than another. Each Fund will make distributions only if authorized by its Board of Directors and declared by the Fund out of assets legally available for these distributions. Each Fund may pay a special distribution at the end of each calendar year. This distribution policy may, under certain circumstances, have certain adverse consequences to each Fund and its shareholders because it may result in a return of capital to shareholders, which would reduce the Fund's net asset value and, over time, potentially increase the Fund's expense ratios. If a Fund distributes a return of capital, it means that the Fund is returning to shareholders a portion of their investment rather than making a distribution that is funded from the Fund's earned income or other profits. A Board may elect to change its Fund's distribution policy at any time.

Organizational Expenses

The Adviser or an affiliate of the Adviser paid all of the Funds' organizational expenses. As a result, organizational expenses of the Funds are not reflected in the Funds' financial statements.

Commitments

In the normal course of business, the Funds' investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the Funds' custodian. These activities may expose the Funds to risk in the event that such parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from

Ares Dynamic Credit Allocation Fund, Inc.
Ares Multi-Strategy Credit Fund, Inc.

Notes to Financial Statements *(continued)*

April 30, 2014 (Unaudited)

counterparties with whom it conducts business. Consistent with standard business practice, the Funds enter into contracts that contain a variety of indemnifications, and are engaged from time to time in various legal actions. The maximum exposure of the Funds under these arrangements and activities is unknown. However, the Funds expect the risk of material loss to be remote.

Income Taxes

The Funds intend to distribute all or substantially all of their taxable income and to comply with the other requirements of Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

The Funds may elect to incur an excise tax if it is deemed prudent by the Board from a cash management perspective or in the best interest of shareholders due to other facts and circumstances. For the income earned up to December 31, 2013, a U.S. Federal excise tax of \$138,871 and \$26,970 was paid for ARDC and ARMF, respectively. In 2012, as the Fund was in its first year of operation, it was deemed prudent, for cash management purposes, for the Fund to pay the nominal excise tax.

As of April 30, 2014, the Funds had no uncertain tax positions that would require financial statement recognition, de-recognition, or disclosure. The Funds file a U.S. federal income tax return annually after their fiscal year-end, which is subject to examination by the Internal Revenue Service for a period of three years from the date of filing.

(3) Investments

Fair Value Measurements

The Funds follow the provisions of *Fair Value Measurements and Disclosures* under U.S. generally accepted accounting principles ("U.S. GAAP"), which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. This standard defines fair value and establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value and expands disclosures about assets and liabilities measured at fair value. *Fair Value Measurements and Disclosures* defines "fair value" as the amount for which an investment could be sold in an orderly transaction between market participants at the measurement date in the principal or most advantageous market of the investment. The hierarchal disclosure framework establishes a three tier hierarchy to maximize the use of observable data and minimize the use of unobservable inputs.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique.

Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in

the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 unadjusted quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including a single broker quote or the Fund's own assumptions in determining the fair value of investments)

The fair value of the Funds' investments are primarily estimated based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs. The Funds' custodian obtains prices from independent pricing services based on an authorized pricing matrix as approved by each Fund's Board of Directors. The Adviser has internal controls in place that support its reliance on information received from third-party pricing sources. For any securities, if market or dealer quotations are not readily available, or if the Adviser determines that a quotation of a security does not represent a fair value, then the security is valued at a fair value as determined in good faith by the Adviser and will be classified as Level 3. In such instances, the Adviser will use valuation techniques consistent with the market or income approach to measure fair value and will give consideration to all factors which might reasonably affect the fair value.

Bank loans and corporate debts: The fair value of bank loans and corporate debt is estimated based on quoted market prices, forward foreign exchange rates, dealer quotations or alternative pricing sources supported by observable inputs and are generally classified within Level 2 or 3. The Adviser obtains prices from independent pricing services which generally utilize broker quotes and may use various other pricing techniques which take into account appropriate factors

Ares Dynamic Credit Allocation Fund, Inc.
Ares Multi-Strategy Credit Fund, Inc.

Notes to Financial Statements (continued)

April 30, 2014 (Unaudited)

such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data. If the pricing services are only able to obtain a single broker quote or utilize a pricing model the securities will be classified as Level 3. If the pricing services are unable to provide prices, the Adviser will attempt to obtain one or more broker quotes directly from a dealer and price such securities at the last bid price obtained; such securities are classified as Level 3.

Collateralized loan obligations: The fair value of collateralized loan obligations is estimated based on various valuation models of third party pricing services as well as internal models. The valuation models generally utilize discounted cash flows and take into consideration prepayment and loss assumptions, based on historical experience and projected performance, economic factors, the characteristics and condition of the underlying collateral, comparable yields for similar securities and recent trading activity. These securities are classified as Level 3.

The Adviser is responsible for all inputs and assumptions related to the pricing of securities. The Adviser has internal controls in place that support its reliance on information received from third-party pricing sources. As part of its internal controls, the Adviser obtains, reviews and tests information to corroborate prices received from third party pricing sources. For any securities, if market or dealer quotations are not readily available, or if the Adviser determines that a quotation of a security does not represent a fair value, then the security is valued at a fair value as determined in good faith by the Adviser and will be classified as Level 3. In such instances, the Adviser will use valuation techniques consistent with the market or income approach to measure fair value and will give consideration to all factors which might reasonably affect the fair value. The main inputs into the Adviser's valuation model for these Level 3 securities include earnings multiples (based on the historical earnings of the issuer) and discounted cash flows. The Adviser may also consider original transaction price, recent transactions in the same or similar instruments and completed third-party transactions in comparable instruments as well as other liquidity, credit and market risk factors. Models will be adjusted as deemed necessary by the Adviser.

Ares Dynamic Credit Allocation Fund, Inc.

The following is a summary of the inputs used as of April 30, 2014, in valuing the Fund's investments carried at fair value:

	Level 1 Quoted Prices (\$)	Level 2 Other Significant Observable Inputs (\$)	Level 3 Significant Unobservable Inputs (\$)	Total (\$)

(5) Credit Facility

On January 3, 2013, ARDC entered into a credit agreement with State Street Bank and Trust (the "Lender") in which the Lender agreed to make loans up to \$150 million to the Fund under a revolving credit facility (the "Credit Facility") secured by certain assets of the Fund. Loans under the facility generally bear interest at the applicable LIBOR rate plus 1.15%. Unused portions of the credit facility will accrue a commitment fee equal to an annual rate of 0.15%. Upfront fees including related legal expenses incurred by the Fund in connection with the credit facility were deferred and are amortized on an effective yield method over a two-year period. These amounts are included in the Statements of Operations as

Amortization of debt issuance cost. The Fund entered into this credit agreement to have the ability, if necessary, to purchase investments.

On December 2, 2013, ARMF entered into a credit agreement with State Street Bank and Trust (the "Lender") in which the Lender agreed to make loans up to \$62 million to the Fund under a revolving credit facility (the "Credit Facility") secured by certain assets of the Fund. Loans under the facility generally bear interest at the applicable LIBOR rate plus 1.10%. Unused portions of the credit facility will accrue a commitment fee equal to an annual rate of 0.15%. Upfront fees including related legal expenses incurred by the Fund in connection with the credit facility were deferred and are amortized on an effective yield method over a two-year period. These amounts are included in the Statements of Operations as Amortization of debt issuance cost. The Fund entered into this credit agreement to have the ability, if necessary, to purchase investments.

The weighted average outstanding daily balance of all loans during the period from November 1, 2013 to April 30, 2014 was approximately \$141,327,036 and \$43,797,172 with average borrowing costs of 1.39% and 1.29% for ARDC and ARMF, respectively. As of April 30, 2014, the amounts outstanding under this Credit Facility were \$141,886,912 and \$57,197,248 for ARDC and ARMF, respectively.

(6) Investment Advisory and Other Agreements

The Adviser is registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act"). The Adviser is an affiliate of Ares and leverages off of Ares' entire investment platform and benefits from the significant capital markets, trading and research expertise of all of Ares' investment professionals.

The Adviser provides certain investment advisory and administrative services to the Funds pursuant to separate investment advisory and management agreements with the Funds (each an "Investment Advisory Agreement"). Pursuant to its Investment Advisory Agreement, each Fund has agreed to pay the Adviser a management fee at an annual rate of 1.00% of the average daily value of the Funds' Managed Assets. For ARDC, "Managed Assets" means the total assets of the Fund (including any assets attributable to any preferred shares that may be issued or to indebtedness) minus the Fund's liabilities other than liabilities relating to indebtedness. For ARMF, "Managed Assets" means the total assets of the Fund (including any assets attributable to any shares of preferred stock that may be issued by the Fund or to money borrowed, including as a result of notes or other debt securities

Ares Dynamic Credit Allocation Fund, Inc.
 Ares Multi-Strategy Credit Fund, Inc.

Notes to Financial Statements *(continued)*

April 30, 2014 (Unaudited)

that may be issued by the Fund) minus the sum of (i) accrued liabilities of the Fund (other than liabilities for money borrowed and principal on notes and other debt securities issued by the Fund), (ii) any accrued and unpaid interest on money borrowed and (iii) accumulated dividends on any outstanding shares of common stock and preferred stock issued by the Fund. The liquidation preference of any preferred stock issued by ARMF is not considered a liability for this calculation. In addition to Fund's advisory services, the Adviser or any of its affiliates provides certain administrative services, including accounting, legal, compliance, clerical or administrative services, to the Funds at the request of the Funds. For ARDC, the Adviser has the right to be reimbursed for such costs, provided that no such reimbursement shall be payable by the Funds in respect of costs of the Adviser or its affiliates incurred prior to November 1, 2014. For ARMF, the Adviser has contractually agreed until October 31, 2015 to not seek reimbursement from ARMF for costs of the Adviser and its affiliates for providing certain non-advisory services to ARMF. The contractual agreement may be terminated by the Adviser at any time upon 30 days' notice to ARMF. The total expenses incurred for the periods ended April 30, 2014 was \$2,366,532 and \$797,406 for ARDC and ARMF, respectively.

The Funds have engaged State Street Bank and Trust Company ("State Street") to serve as the Funds' administrator, custodian and transfer agent. Under the service agreements between State Street and the Funds, State Street will provide certain administrative services necessary for the operation of the Funds, including maintaining certain Fund books and records, providing accounting and tax services and preparing certain regulatory filings. State Street will also perform custodial, fund accounting and portfolio accounting services, as well as transfer agency and dividend paying services with respect to the common shares. The Funds will pay State Street for these services. The total expenses incurred for the periods ended April 30, 2014 was \$182,977 and \$84,841 for ARDC and ARMF, respectively.

The Funds have retained Destra Capital Investments LLC ("Destra") to provide investor support services in connection with the on-going operation of the Funds. Such services include providing ongoing contact with respect to the Funds and their performance with financial advisors that are representatives of broker-dealers and other financial intermediaries, communicating with the NYSE specialist for the Funds' common shares, and with the closed-end Fund analyst community regarding the Funds on a regular basis, and developing and maintaining a website for the Funds. The Funds will pay Destra 0.12% of Managed Assets for the first year of operation and 0.10% thereafter. The terms of this

agreement shall be in effect for an initial period of two years and shall thereafter continue for successive one year periods. The total expenses incurred for the periods ended April 30, 2014 was \$244,456 and \$95,689 for ARDC and ARMF, respectively.

(7) Investment Transactions

For the period ended April 30, 2014, the cost of purchases and proceeds from sales of securities, excluding short obligations, were as follows:

Cost of Investments Purchased	Proceeds from Investments Sold \$\$
--	--

Ares Dynamic Credit Allocation Fund, Inc.	249,169,942	262,300,002
Ares Multi-Strategy Credit Fund, Inc.	274,703,060	134,413,815
(8) Subsequent Events		

Ares Dynamic Credit Allocation Fund, Inc.

The following common share distributions were declared on April 11, 2014:

Additional Information *(continued)*

April 30, 2014 (Unaudited)

Dividend Reinvestment Plan

Unless a shareholder specifically elects to receive distributions in cash, distributions will automatically be reinvested in additional common shares of the Funds. A shareholder may elect to have the cash portion of dividends and distributions distributed in cash. To exercise this option, such shareholder must notify State Street, the plan administrator and the Funds' transfer agent and registrar, in writing or by telephone so that such notice is received by the plan administrator not less than 10 days prior to the record date fixed by the Board of Directors for the dividend or distribution involved. Participants who hold their common shares through a broker or other nominee and who wish to elect to receive any dividends and other distributions in cash must contact their broker or nominee. The plan administrator will set up an account for shares acquired pursuant to the plan for each shareholder that does not elect to receive distributions in cash (each a "Participant"). The plan administrator may hold each Participant's common shares, together with the other Participant's common shares, in non-certificated form in the plan administrator's name or that of its nominee. The shares are acquired by the plan administrator for a Participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Funds ("Newly Issued Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the NYSE or elsewhere. If, on the dividend payment date, the net asset value per share of the common shares is equal to or less than the market price per common share on the NYSE plus estimated brokerage commissions (such condition being referred to as "market premium"), the plan administrator will invest the dividend amount in Newly Issued Shares on behalf of the Participant. The number of Newly Issued Shares to be credited to the Participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share of the common shares on the date the shares are issued, unless the net asset value of the common shares is less than 95% of the then current market price per share on the NYSE, in which case the dollar amount of the dividend will be divided by 95% of the then current market price per common share on the NYSE. If on the dividend payment date the net asset value per share of the common shares is greater than the market price per common share on the NYSE (such condition being referred to as "market discount"), the plan administrator will invest the dividend amount in common shares acquired on behalf of the Participant in Open-Market Purchases.

The plan administrator's service fee, if any, and expenses for administering the plan will be paid for by the Funds. There will be no brokerage charges to shareholders with respect to common shares issued directly by the Funds as a result of dividends or distributions payable either in common shares or in cash. However, each Participant will pay a pro-rata share of brokerage commissions incurred with respect to the plan administrator's Open-Market Purchases in connection with the reinvestment of dividends and distributions.

Shareholders who elect to receive their distributions in cash are subject to the same federal, state and local tax consequences as shareholders who reinvest their distributions in additional common shares. A shareholder's basis for determining gain or loss upon the sale of shares acquired due to reinvestment of a distribution will generally be equal to the total dollar amount of the dividend payable to the shareholders. Any shares received due to reinvestment of a dividend will have a new holding period for tax purposes commencing on the day following the day on which the shares are credited to the U.S. shareholder's account.

Participants may terminate their accounts under the dividend reinvestment plan by writing to the plan administrator at State Street Bank and Trust Company, located at 200 Clarendon Street, 16th Floor, Boston, Massachusetts, 02116 or by calling the plan administrator's hotline at (877) 272-8164. Such termination will be effective immediately if the

Edgar Filing: Ares Dynamic Credit Allocation Fund, Inc. - Form N-CSRS

Participant's notice is received by the plan administrator at least 10 days prior to any dividend or distribution record date for the payment of any dividend or distribution by the Fund; otherwise, such termination will be effective only with respect to any subsequent dividend or distribution. Participants who hold their common shares through a broker or other nominee and who wish to terminate their account under the plan may do so by notifying their broker or nominee. The dividend reinvestment plan may be terminated by the Funds upon notice in writing mailed to each Participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Funds. Additional information about the dividend reinvestment plan may be obtained by contacting the plan administrator by mail at 200 Clarendon Street, 16th Floor, Boston, Massachusetts 02116 or by telephone at (877) 272-8164.

Privacy Notice

We are committed to maintaining the privacy of our shareholders and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information we collect, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, we will not receive any non-public personal information about shareholders of the common stock of the Funds, although certain of our shareholders' non-public information may become available to us. The non-public personal information that we may receive falls into the following categories:

- Information we receive from shareholders, whether we receive it orally, in writing or electronically. This includes shareholders' communications to us concerning their investment;
- Information about shareholders' transactions and history with us; or
- Other general information that we may obtain about shareholders, such as demographic and contact information such as address.

We do not disclose any non-public personal information about shareholders, except:

- to our affiliates (such as our investment adviser) and their employees that have a legitimate business need for the information;
- to our service providers (such as our administrator, accountants, attorneys, custodians, transfer agent, underwriter and proxy solicitors) and their employees as is necessary to service shareholder accounts or otherwise provide the applicable service;
- to comply with court orders, subpoenas, lawful discovery requests, or other legal or regulatory requirements; or
- as allowed or required by applicable law or regulation.

When the Funds share non-public shareholder personal information referred to above, the information is made available for limited business purposes and under controlled circumstances designed to protect our shareholders' privacy. The Funds do not permit use of shareholder information for any non-business or marketing purpose, nor do the Funds permit third parties to rent, sell, trade or otherwise release or disclose information to any other party.

The Funds' service providers, such as their adviser, administrator, and transfer agent, are required to maintain physical, electronic, and procedural safeguards to protect shareholder nonpublic personal information; to prevent unauthorized access or use; and to dispose of such information when it is no longer required.

Personnel of affiliates may access shareholder information only for business purposes. The degree of access is based on the sensitivity of the information and on personnel need for the information to service a shareholder's account or comply with legal requirements.

Edgar Filing: Ares Dynamic Credit Allocation Fund, Inc. - Form N-CSRS

If a shareholder ceases to be a shareholder, we will adhere to the privacy policies and practices as described above. We may choose to modify our privacy policies at any time. Before we do so, we will notify shareholders and provide a description of our privacy policy.

In the event of a corporate change in control resulting from, for example, a sale to, or merger with, another entity, or in the event of a sale of assets, we reserve the right to transfer your non-public personal information to the new party in control or the party acquiring assets.
