Edgar Filing: INFORMATICA CORP - Form DEFA14A

The following is an e-mail from Sohaib Abbasi, chairman and CEO of Informatica Corporation, to employees on April 7, 2015.

Team Informatica,

Our announcement today marks the beginning of the next phase of the Informatica journey. Today, we announced that Informatica has entered into an agreement to be acquired by the Permira funds and Canada Pension Plan Investment Board (CPPIB) for approximately \$5.3 billion. A copy of the press release is attached to this note. The transaction is expected to be completed in either the second or third quarter 2015, subject to shareholder approval and customary regulatory approvals.

Our Board of Directors, assisted by advisers, carefully considered several strategic alternatives and unanimously concluded that the sale of Informatica to the Permira funds and CPPIB is in the best interest of all Informatica stakeholders. This transaction delivers immediate, compelling value to Informatica shareholders and represents the largest leveraged buy-out in 2015. Few companies have exceeded \$1 billion in annual revenue; fewer still have attained greater than \$5 billion in equity value. These remarkable milestones were possible through your tireless efforts, your world-class innovation and your amazing devotion to customer success. As we transition from a publicly-traded company to a private enterprise, I would like to thank each of you for your exceptional efforts in building Informatica into a billion-dollar category leader!

With change, it is only natural to wonder what tomorrow may bring. I would like to assure you that it is, indeed, business as usual at Informatica. Our management team and I look forward to continuing to work with you as we map out our next steps. And, I would like to reassure you that Permira and CPPIB are focused on having us continue to grow our business and intend to favorably treat any existing equity awards.

Importantly, our vision, strategy, and plans remain unchanged. Our vision is to power the data-ready enterprise. Our three-pronged growth strategy is: 1) to expand across all major geographic regions, 2) to grow across all customer data initiatives, and 3) to advance technology leadership in all things data. Our go-to-market plans remain the same with five compelling solutions: total customer relationship, next generation analytics, cloud modernization, application consolidation, and data governance. Finally, our innovation roadmap still consists of our four billion-dollar opportunities: MDM, Big Data, Cloud Integration, and Data Security.

As you may know, Permira is an international private equity firm which specializes in five key sectors: Consumer, Financial Services, Healthcare, Industrials, and Technology, Media, and Telecommunications. The Permira funds have a long track record of successfully investing in technology companies around the world. CPPIB is a professional investment management organization that invests in public equities, private equities, real estate, infrastructure, and fixed income instruments.

With today's announcement, Informatica is strongly positioned for an even brighter future. On completion of the transaction, we will have new world-class partners with unparalleled global experience. Permira and CPPIB are ideal allies and partners in Informatica's journey. They share our vision for Informatica. We have much to gain by working together.
