CORNERSTONE PROGRESSIVE RETURN FUND
 NOTES TO SCHEDULES OF INVESTMENTS
 March 31, 2011 (UNAUDITED)

Federal Income Tax Cost: At March 31, 2011 the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$52,509,026, \$2,846,191, \$(982,246) and \$1,863,945, respectively.

As required by the Fair Value Measurement and Disclosures Topic of the FASB Accounting Standards Codification, the Fund has performed an analysis of all assets and liabilities measured at fair value to determine the significance and character of all inputs to their fair value determination.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into the following three broad categories.

- Level 1 – quoted unadjusted prices for identical instruments in active markets traded on a national exchange to which the Fund has access at the date of measurement.
- Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.
- Level 3 – model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund’s own assumptions that market participants would use to price the asset or liability based on the best available information.

The following is a summary of the inputs used as of March 31, 2011 in valuing the Fund’s investments carried at value:

Valuation Inputs	INVESTMENTS IN SECURITIES	OTHER FINANCIAL INSTRUMENTS*
Level 1 - Quoted Prices		
Equity Investments	\$ 53,368,071	\$ -
Short-Term Investments	1,004,900	-
Level 2 - Other Significant Observable Inputs	-	-
Level 3 – Significant Unobservable Inputs	-	-
Total	\$ 54,372,971	\$ -

* Other financial instruments include futures, forwards and swap contracts.

The breakdown of the Fund's investments into major categories is disclosed in its Schedule of Investments.

During the three months ended March 31, 2011, the Fund did not have any significant transfers in and out of Level 1 or Level 2.

The Fund did not have any assets or liabilities that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at March 31, 2011.

In January 2010, the FASB Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2010-06 "Improving Disclosures about Fair Value Measurements". ASU 2010-06 amends FASB Accounting Standards Codification Topic, Fair Value Measurements and Disclosures, to require additional disclosures regarding fair value measurements. Certain disclosures required by ASU No. 2010-06 are effective for fiscal year beginning after December 15, 2010, and for interim periods within that fiscal year.

The disclosures for the Fund's fiscal year beginning January 1, 2011 relate to presenting separately any Level 3 purchases, sales, issuances and settlements on a gross basis instead of one net amount. Management will continue to evaluate the impact of ASU No. 2010-6 for the required disclosures.

The Fund is exposed to financial market risks, including the valuations of its investment portfolio. For the three months ended March 31, 2011, the Fund did not engage in derivative instruments and other hedging activities.

The Fund has evaluated the need for addition disclosures and/or adjustments resulting through the date its financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to such Schedule of Investments.

Securities valuation policies and other investment related disclosures are hereby incorporated by reference to the Fund's annual report previously filed with the Securities and Exchange Commission on the Form N-CSR on March 8, 2011 with a file number 811-22066.

Other information regarding the Fund is available in the Fund's most recent annual report filed with the Securities and Exchange Commission on the Form N-CSR on March 8, 2011, file number 811-22066. This information is also available to registered shareholders by calling (800) 937-5449. For general inquiries, please call (513) 326-3597.
