NET SALES AND GROSS PROFIT

Supermarket operations were established by the Company in the fourth quarter of 1999. Net sales from supermarket operations increased by 21.3% from RMB3.9 million (US\$468,000) for the nine months ended September 30, 2000 to RMB4.7 million (US\$568,000) for the nine months ended September 30, 2001. For the nine months ended September 30, 2001, supermarket operations had gross profit and gross profit margin of RMB1,121,000 (US\$135,000) and 23.8%, respectively. For the nine months ended September 30, 2000, supermarket operations had gross profit and gross profit margin of RMB730,000 (US\$88,000) and 18.8%, respectively.

Net sales from supermarket operations increased by 28.7% from RMB1.4

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-Q

million (US\$174,000) for the third quarter of 2000 to RMB1.9 million (US\$225,000) for the third quarter of 2001. For the third quarter of 2001, supermarket operations had gross profit and gross profit margin of RMB446,000 (US\$54,000) and 24.0%, respectively. For the third quarter of 2000, supermarket operations had gross profit and gross profit margin of RMB310,000 (US\$37,000) and 21.5%, respectively. The increase in net sales and gross profit margin were due to increased sales volume resulting from the successful marketing efforts of the Company and its ability to source less expensive and better quality products from suppliers.

12

Notwithstanding the cessation of natural rubber operations in early 2000, the Company engages in trading of natural rubber occasionally, depending on market conditions. The Company had sales of RMB4.1 million (US\$495,000) and RMB890,000 (US\$107,000) for the nine months and three months ended September 30, 2001, respectively, with gross loss of RMB175,000 (US\$21,000) and RMB179,000 (US\$22,000) for the nine months and three months ended September 30, 2001, respectively. As a result of a decline in the natural rubber market in the second half of 2001, the Company sold all of its rubber inventories in the third quarter of 2001.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

The selling, general and administrative expenses for the nine months ended September 30, 2001 decreased by RMB363,000 (US\$44,000) or 2.9% compared to that for the nine months ended September 30, 2000. The decrease resulted from a bad debt recovery in the amount of RMB629,000 (US\$76,000) in the nine months ended September 30, 2001. The decrease is offset by increases in legal, professional and travel expenses incurred in relation to the exploration of investment opportunities during 2001.

Selling, general and administrative expenses for the third quarter of 2001 decreased by 9.1% to RMB4.0 million (US\$484,000) from RMB4.4 million (US\$532,000) for the third quarter of 2000. The decrease was mainly due to a bad debt recovery of RMB332,000 (US\$40,000) in the third quarter of 2001.

AMORTIZATION

Expenses for the three months and nine months ended September 30, 2000 represented amortization of website technology, acquired on June 30, 2000, which is being recorded on the straight-line basis over two years. Expenses for the three months and nine months ended September 30, 2001 represented amortization of the website technology and amortization of goodwill arising from the acquisition of the 39% equity interest in HARC from the Farming Bureau on April 30, 2001 on the straight-line basis over five years.

The exchange loss incurred in 2000 arose from the conversion of RMB to Hong Kong dollars. The financial expenses incurred in the first half of 2001 arose from a margin loan which was

INCOME TAXES

It is management's intention to reinvest all the income attributable to the Company earned by its operations outside the US. Accordingly, no US federal and state income taxes have been provided in these consolidated financial statements.

Income taxes consist of PRC federal income tax computed at 15% on assessable income for foreign investment enterprises operating in Hainan.

DISCONTINUED OPERATIONS

Discontinued operations represent the operating loss from the operations of the discontinued processed timber business resulting from the exchange of the Company's 58% interest in Hainan Weilin Timber Limited Liability Company as partial consideration for the minority interest of HARC.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary liquidity needs are to fund inventories, trade receivables and operating expenses, and to expand business operations. The Company has financed its working capital requirements primarily through internally generated cash.

The Company had a working capital surplus of approximately RMB25.2 million (US\$3.0 million) as of September 30, 2001, compared to that of approximately RMB79.6 million (US\$9.6 million) as of December 31, 2000. The decrease was mainly attributable to the Company paying approximately RMB36 million (US\$4.3 million) cash and foregoing approximately RMB14 million (US\$1.7 million) due from the Farming Bureau as partial consideration for the minority interest of HARC. Net cash used by operating activities for the nine months ended September 30, 2001 was approximately RMB29.9 million (US\$3.6 million), as compared to net cash provided by operating activities of RMB46.9 million (US\$5.7 million) for the corresponding period in 2000. Net cash inflows/outflows from the Company's operating activities are attributable to the Company's net loss and changes in operating assets and liabilities. Net cash provided by investing activities for the nine months ended September 30, 2001 was mainly attributable

to the cash proceeds from the disposal of marketable securities, net of the cash consideration paid for the minority interest of HARC as stated above, and net of loans made to third parties. Net cash provided by financing activities for the nine months ended September 30, 2001 was attributable to the RMB3 million (US\$0.4 million) advance of short term loan from a third party.

Except as disclosed above, there has been no other significant change in financial condition and liquidity since the fiscal year ended December 31, 2000. The Company believes that internally generated funds will be sufficient to satisfy its anticipated working capital needs for at least the next twelve months.

MARKET RISK AND RISK MANAGEMENT POLICIES

All of the Company's sales and purchases are made domestically and are denominated in RMB. Accordingly, the Company and its subsidiaries do not have material market risk with respect to currency fluctuation. As the reporting currency of the Company's consolidated financial statements is also RMB, there is no significant translation difference arising on consolidation. However, the Company may suffer exchange loss when it converts RMB to other currencies, such as Hong Kong Dollar or United States Dollar.

The Company's interest income is most sensitive to changes in the general level of RMB interest rates. In this regard, changes in RMB interest rates affect the interest earned on the Company's cash equivalents. As at September 30, 2001, the Company's cash equivalents are mainly RMB, Hong Kong Dollar and United States Dollar deposits with financial institutions, bearing market interest rates without fixed term.

14

As at September 30, 2001, the Company had short-term investments in marketable securities in the Hong Kong and United States stock markets with a total market value of RMB3,239,000 (US\$391,000). These investments expose the Company to market risks that may cause the future value of these investments to be lower than the original cost of such investments.
