SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 1 □ Company Background

Sociedad Química y Minera de Chile S.A. (the “Company”) was registered with the Chilean Superintendency of Securities and Insurance (“SVS”) on March 18, 1983.

Note 2 □ Summary of Significant Accounting Policies

a) Basis for the preparation of the consolidated financial statements

The accompanying consolidated financial statements have been prepared in U.S. dollars in accordance with accounting principles generally accepted in Chile (“Chilean GAAP”) and the regulations of the SVS. Certain accounting practices applied by the Company that conform with Chilean GAAP may not conform with generally accepted accounting principles in the United States (“US GAAP”). For the convenience of the reader, the consolidated financial statements and their accompanying notes have been translated from Spanish into English.

The consolidated financial statements include the accounts of Sociedad Química y Minera de Chile S.A. (the “Parent Company”) and subsidiaries (companies in which the Parent Company holds a controlling participation, generally equal to direct or indirect ownership of more than 50%). The Parent Company and its subsidiaries are referred to as the “Company”.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

In accordance SVS Circular No. 1.697 and Technical Bulletins Nos. 64 and 72 of the Chilean Association of Accountants, the consolidated financial statements include the following subsidiaries:

Note 2 □ Summary of Significant Accounting Policies (continued)

b) Period

These consolidated financial statements have been prepared as of June 30, 2005 and 2004 and for the years then ended.

c) Reporting currency and monetary correction

The financial statements of the Company are prepared in U.S. dollars. As a significant portion of the Company's operations are transacted in U.S. dollars, the U.S. dollar is considered the currency of the primary economic environment in which the Company operates.

The Parent Company and those subsidiaries which maintain their accounting records in U.S. dollars are not required, or permitted, to restate the historical dollar amounts for the effects of inflation.

The financial statements of domestic subsidiaries, which maintain their accounting records in Chilean pesos have been restated to reflect the effects of variations in the purchasing power of Chilean pesos during the year. For this purpose, and in accordance with Chilean regulations, non-monetary assets and liabilities, equity and income statement accounts have been restated in terms of year-end constant pesos based on the change in the consumer price index during the year (1.0% and 0.8% in 2005 and 2004, respectively). The resulting net charge or credit to income arises as a result of the gain or loss in purchasing power from the holding of non-U.S. dollar denominated monetary assets and liabilities exposed to the effects of inflation.

Prior period financial statements presented for comparative purposes have not been restated to reflect the change in the purchasing power of the Chilean pesos during the most recent year-end. In accordance with Chilean GAAP, amounts expressed in U.S. dollars, including amounts included in the consolidated financial statements as determined in prior years from the translation of financial statements of those Chilean subsidiaries which maintain their accounting records in Chilean pesos, are not adjusted for price-level changes.

Note 2 □ Summary of Significant Accounting Policies (continued)

d) Foreign currency

i) Foreign currency transactions

Monetary assets and liabilities denominated in Chilean pesos and other currencies have been translated to U.S. dollars at the observed exchange rates determined by the Central Bank of Chile in effect at each year-end of Ch\$579.00 per US\$1 at June 30, 2005 and Ch\$636.30 per US\$1 at June 30, 2004.

ii) Translation of non-U.S. dollar financial statements

In accordance with Chilean GAAP, the financial statements of foreign and domestic subsidiaries that do not maintain their accounting records in U.S. dollars are translated from the respective local currencies to U.S. dollars in accordance with Technical Bulletin No. 64 and No. 72 of the Chilean Association of Accountants ("BT 64-BT 72") as follows:

- a)** For those subsidiaries and affiliates located in Chile which keep their accounting records in price-level adjusted Chilean pesos:
- Balance sheet accounts are translated to U.S. dollars at the year-end exchange rate without eliminating the effects of price-level restatement.
 - Income statement accounts are translated to U.S. dollars at the average exchange rate each month. The monetary correction account on the income statement, which is generated by the inclusion of price-level restatement on the non-monetary assets and liabilities and shareholders' equity, is translated to U.S. dollars at the average exchange rate for each month.
 - Translation gains and losses, as well as the price-level restatement to the balance sheet mentioned above, are included as an adjustment in shareholders' equity, in conformity with Circular No. 1.697 of the SVS.

Note 2 □ Summary of Significant Accounting Policies (continued)

- b)** The financial statements of those foreign subsidiaries that keep their accounting records in currencies other than the U.S. dollar have been translated at historical exchange rates as follows:
- Monetary assets and liabilities are translated at year-end exchange rates between the US dollar and the local currency.
 - All non-monetary assets and liabilities and shareholders' equity are translated at historical exchange rates between the US dollar and the local currency.
 - Income and expense accounts are translated at average exchange rates between the US dollar and the local currency.
 - Any exchange differences are included in the results of operations for the period.

d) Foreign currency (continued)

Foreign exchange differences for the period ended June 30, 2005 and 2004 generated net earnings (loss) of ThUS\$ (3,130) and ThUS\$ (1,963) respectively, which have been charged to the consolidated statements of income in each respective period.

The monetary assets and liabilities of foreign subsidiaries were translated into US dollars at the exchange rates per US dollar prevailing at June 30, as follows:

	<u>2005</u>	<u>2004</u>
Brazilian Real	2.35	3.12
New Peruvian Sol	3.25	3.47
Argentine Peso	2.89	2.96
Japanese Yen	110.62	108.43

Australian Dollar	1.32	1.40
Pound Sterling	1.92	1.72
South African Rand	6.72	6.85

The Company uses the "observed exchange rate", which is the rate determined daily by the Chilean Central Bank based on the average exchange rates at which bankers conduct authorized transactions.

Note 2 □ Summary of Significant Accounting Policies (continued)

e) Cash and cash equivalents

The Company considers all highly liquid investments with a remaining maturity of less than 90 days as of the closing date of the financial statements to be cash equivalents.

f) Time Deposits

Time deposits are recorded at cost plus accrued interest.

g) Marketable securities

Marketable securities are recorded at the lower of cost plus accrued interest or market value.

h) Allowance for doubtful accounts

The Company records an allowance for doubtful accounts based on estimated probable losses.

i) Inventories and materials

Inventories of finished products and work in process are valued at average production cost. Raw materials and products acquired from third parties are stated at average cost and materials-in-transit are valued at cost. All such values do not exceed net realizable values.

Inventories of non-critical spare parts and supplies are classified as other current assets, except for those items which the Company estimates to have a turnover period of one year or more, which are classified as other long-term assets.

j) Income taxes and deferred income taxes

Prior to 2000, income taxes were charged to results in the same period in which the income and expenses were recorded and were calculated in accordance with the enacted tax laws in Chile and the other jurisdictions in which the Company operated.

Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 □ Summary of Significant Accounting Policies (continued)

j) Income and deferred taxes (continued)

Under Chilean law, the Parent Company and its subsidiaries are required to file separate tax declarations.

Beginning January 1, 2000, the Company records deferred income taxes in accordance with Technical Bulletin Nos. 60, 69, 71 and 73 of the Chilean Association of Accountants, and with Circular No. 1466 issued on January 27, 2000 by the SVS, recognizing the deferred tax effects of temporary differences between the financial and tax values of assets and liabilities, using the liability method. The effect of the temporary differences at March 31, 1999 were recorded in complementary asset and liability accounts, which are recognized in the statement of operations over the estimated period in which they reverse.

k) Property, plant and equipment

Property, plant, equipment and property rights are recorded at acquisition cost, considering in general an average residual value of 5%, except for certain assets that were restated in accordance with a technical appraisal in 1989. Depreciation expense has been calculated using the straight-line method based on the estimated useful lives of the assets and is charged directly to expenses.

Property, plant and equipment acquired through financial lease agreements are accounted for at the present value of the minimum lease payments plus the purchase option based on the interest rate included in each contract. The Company does not legally own these assets and therefore cannot freely dispose of them.

In conformity with Technical Bulletin No. 31 and 33 of the Chilean Association of Accountants, the Company capitalizes interest cost associated with the financing of new assets during the construction period of such assets.

Maintenance costs of plant and equipment are charged to expenses as incurred.

The Company obtains property rights and mining concessions from the Chilean state. Other than minor filing fees, the property rights are usually obtained without initial cost, and once obtained, are retained by the Company as long as the annual fees are paid. Such fees, which are paid annually in June, are recorded as prepaid assets to be amortized over the following twelve months. Values attributable to these original mining concessions are recorded in property, plant and equipment.

Note 2 □ Summary of Significant Accounting Policies (continued)

l) Investments in related companies

Investments in related companies over which the Company has significant influence, are included in other assets and are recorded using the equity method of accounting, in accordance with SVS Circulars Nos. 368 and 1,697 and Technical Bulletins Nos. 64 and 72 issued by the Chilean Association of Accountants. Accordingly, the Company's proportional share in the net income or loss of each investee is recognized in the non-operating income and expense classification in the consolidated statements of income on an accrual basis, after eliminating any unrealized profits from transactions with the related companies.

The translation adjustment to U.S. dollars of investments in domestic subsidiaries that maintain their accounting records and are controlled in Chilean pesos is recognized in other reserves within shareholders' equity. Direct and indirect investments in foreign subsidiaries or affiliates are controlled in U.S. dollars.

Investments in which the Company has less than 20% participation and the capacity to exert significant influence or control over the investment, because SQM forms part of its Board of Directors, have been valued using the equity method.

m) Goodwill and negative goodwill

Goodwill is calculated as the excess of the purchase price of companies acquired over their net book value, whereas negative goodwill occurs when the net book value exceeds the purchase price of companies acquired. Goodwill and negative goodwill resulting from equity method investments are maintained in the same currency in which the investment was made and are amortized based on the estimated period of investment return, generally 20 and 10 years for goodwill and negative goodwill, respectively.

n) Intangible assets

Intangible assets are stated at cost plus acquisition expenses and are amortized over a period of up to a maximum of 40 years, in accordance with Technical Bulletin No. 55 of the Chilean Association of Accountants.

o) Mining development cost

Mining development costs are recorded in other long-term assets and are amortized utilizing the unit of production basis.

Note 2 □ Summary of Significant Accounting Policies (continued)

p) Accrued employee severance

The Company calculates the liability for staff severance indemnities based on the present value of the accrued benefits for the actual years of service worked assuming an average employee tenure of 24 years and a real annual discount rate of 9%.

q) Vacations

The cost of employee vacations is recognized in the financial statements on an accrual basis.

r) Saleback operations

These operations are registered in Other Current Assets at the amount of the purchase. Starting at the purchase date, the respective interest is recorded in accordance with SVS Circular 768.

s) Dividends

Dividends are generally declared in U.S. dollars but are paid in Chilean pesos.

t) Derivative Contracts

The Company maintains derivative contracts to hedge against movements in foreign currencies, which are recorded in conformity with Technical Bulletin No. 57 of the Chilean Association of Accountants. Such contracts are recorded at fair value with net losses recognized on the accrual basis and gains recognized when realized.

u) Reclassifications

For comparison purposes, certain reclassifications have been made to the 2003 financial statements.

v) Revenue recognition

Revenue is recognized on the date goods are physically delivered or when they are considered delivered according to the terms of the contract.

w) Computer software

Computational systems developed internally using the Company's personnel and materials are charged to income during the year in which the expenses are incurred. In accordance with Circular No. 981 dated December 28, 1990 of the SVS, computer systems acquired by the Company are recorded at cost.

x) Research and development expenses

Research and development cost are charged to the income statement in the period in which they are incurred. Property, plant and equipment that are acquired for use in research and development activities and determined to provide additional benefits to the Company are recorded in property, plant and equipment.

Note 3 □ Changes in Accounting Principles**a) Changes in Accounting Principles**

Up to December 31, 2004, the financial statements of the subsidiary Fertilizantes Naturales S.A. were considered in consolidation given that the Company maintained the control of this subsidiary (due to its right to manage this subsidiary's financial and operating policies). Beginning on January 1, 2005, the Company no longer controls this subsidiary and therefore the aforementioned subsidiary has been excluded from consolidation in accordance with letters a) to d) of No.6 in Attachment 1 to Technical Bulletin No. 72 issued by the Chilean Association of Accountants.

There were no other changes in the accounting principles used by the Company during 2005 and 2004.

b) Reformulation of 2004 Financial Statements

For comparison purposes, the financial statements as of June 30, 2004 have been reformulated excluding and incorporate the following assets and liabilities of Fertilizantes Naturales S.A. and SQM Lithium Specialties LLP, respectively. Consequently, assets and liabilities excluded and included are detailed as follows:

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

- In October 2004, the subsidiary Soquimich European Holding B.V. increased its capital in Misr Specialty Fertilizers by ThUS\$ 475. In accordance with BT 72 of the Chilean Association of Accountants and SVS Circular 1697, the investment in Misr Specialty Fertilizers was valued using the book value of equity as of September 30, 2004, which does not differ significantly from its fair value determined as of the same date.
- On November 18, 2004, the subsidiary Soquimich European Holding B.V., contributed ThUS\$268 to a joint venture with SQM Eastmed Turkey.
- On November 25, 2004, SQM Potasio S.A. decreased its capital in RS Agro Chemical Trading A.V.V. by ThUS\$ 30,000, leaving it with 1.667% participation and SQM S.A. with 98.333%. This operation did not produce goodwill or negative goodwill.
- On December 20, 2004, SQM Nitratos S.A. contributed capital of ThUS\$1,350 to SQM Brasil Ltda, thus obtaining participation of 98.77% in this subsidiary. SQM S.A. did not contribute to this increase, thereby reducing its participation to 1.23%. In accordance with Technical Bulletin No. 72 issued by the Chilean Association of Accountants, this investment was valued using the pooling of interests method.
- On December 23, 2004, SQM S.A. and SQM Nitratos S.A. acquired 43,733,165 and 2,000 shares, respectively, of PSC Yumbes S.C.M. for ThUS\$ 39,708 (equivalent to 99.9954% and 0.0046% participation, respectively), of which ThUS\$34,511 was paid on the date of acquisition and the remaining ThUS\$5,197 will be paid on January 27, 2005.

Investments in related companies made starting January 1, 2004, are valued in accordance with BT 72 of the Chilean Association of Accountants and SVS Circular 1697, which establish that investments in related companies made until December 31, 2003 will continue to be valued using the equity method and investments in related companies realized starting January 1, 2004 are valued as described in Note 3 "Changes in Accounting Principles".

In accordance with the aforementioned standards, the Company began valuing the assets and liabilities of the individual financial statements of PCS Yumbes S.C.M. as of December 31, 2004, valuing them at their respective fair values. This valuation method created goodwill of ThUS\$ 12,637, produced principally by the valuation of property, plant and equipment carried out using appraisals performed in accordance with SVS Circular 1698. The goodwill will be amortized over period of 20 years.

Therefore, the assets, liabilities and equity incorporated in the consolidation of the respective fair values as of December 31, 2004 are as follows:

	Adjustment to		
	Book value	Fair value	Adjusted value
	ThUS\$	ThUS\$	ThUS\$
Current assets	10,958	—	10,958
Property, plant and equipment	25,708	(7,954)	17,754
Other assets	293	—	293
Current liabilities	1,935	—	1,935
Equity	35,024	(7,954)	27,070

The purchase method was applied to the purchase of PCS Yumbes S.C.M.

The Company will continue to review the valuation of fair value to comply with timelines established in paragraph 66 of BT 72.

Note 22 ☐ Commitments and Contingencies (continued)

I. Contingencies (continued):

(b) Models for the Production of the María Elena Site

The Company is currently implementing different projects related to the María Elena Site Decontamination Plan (Note 25).

Projects that are being implemented in the María Elena site, a priori, do not generate any significant changes in the current mining reserves or forecasted production volumes.

The final execution of these projects is subject to the approval of environmental impact studies presented last December to the respective authorities.

(c) Other

The Company and its subsidiaries are involved in litigation in the ordinary course of business. Based on the advice of counsel, management believes the litigation will not have a material effect on the consolidated financial statements.

Protecting the environment, both in regards to the Company's productive processes and the manufactured goods, is a constant concern for SQM.

SQM is currently implementing an Environmental Management System, which is based on the ISO 14000 standard, with which the Company will improve its environmental performance. The implementation program stipulates that all the operations maintained by the Company in Regions I and II of Chile, will have a fully implemented Environmental Management System by late 2005.

Note 25 □ Environmental Projects (continued)

Processes where sodium nitrate is used as a raw material are carried out in geographical areas such as the desert with favorable weather conditions for drying solid materials and evaporating liquids used in solar energy. The extraction of minerals in open pit mines, given their low waste-to-mineral ratio, gives rise to waste deposits that have little impact on the environment. The extraction process and ore crushing produce particles that are consistent with the industry of operation.

On August 10, 1993, the Ministry of Health published a resolution under the Sanitary Code that established that the levels of breathable particles present at Maria Elena Plant exceeded the level allowed for air quality and, consequently, affected the nearby city of Maria Elena. Particles mainly come from dust that results from processing the sodium nitrate, particularly at the crushing process prior to leaching. The Company has implemented a series of measures that have shown notable improvement in air quality at Maria Elena. A new decontamination plan for this area, released on March 13, 2004, is intended to meet air quality standards by April 1, 2006. On December 30, 2004, the Company submitted a proposal entitled "Technological Change at Maria Elena", which intends to reduce particle emission, to the government's Environmental Impact Evaluation System. This proposal is presently pending evaluation by the environmental regulators, whose decision should be made public during the first semester of 2005.

Ore treatment operations, as they are controlled processes, produce solid residual materials that are the non-soluble by product and a certain degree of moisture.

SQM entered into a contract with the National Forestry Corporation (CONAF) aimed at researching the activities of flamingo groups that live in the Atacama Salt Mine lagoons. Such research includes a population count of the birds and wildlife, breeding research, additional behavior research and the climate phenomena of the area.

Consistent with the Company's ongoing commitment with the environmental authorities, the Company actively participates in the Joint Monitoring Research project for the Atacama Salt Mine watershed along with other mining companies that make use of the water resources that supply the Atacama Salt Mine. To perform this study, SQM has involved diverse scientists from prestigious research institutions such as Dictuc of Pontificia Universidad Católica, the University of Nevada, Cornell University and the University of Binghamton in New York.

Note 26 □ Significant Events

On January 19, 2005, the Company's Board of Directors informed the SVS that, in an Ordinary Session of the Board on January 18, 2005, they accepted the voluntary and irrevocable resignation of Mr. Avi Milstein as Director and appointed Mr. Daniel Yarur E. in his place.

On February 25, 2005, Royal Seed Trading Corp A.V.V., a subsidiary of Sociedad Química y Minera de Chile S.A., entered into a syndicated loan for ThUS\$ 100,000, guaranteed by its Parent Company, with the following banks: BBVA Securities Inc., BNP Paribas and Rabobank Curacao N.V. The loan matures in 5 years, with quarterly interest payments at an initial annual interest rate of Libor + 0.325%", which could vary depending on any possible future modifications in the subsidiary's external debt classification. There are no real guarantees associated with this loan.

On March 16, 2005, the Company informed the Chilean Superintendency of Securities and Insurance (SVS) that the Board of Directors of Sociedad Química y Minera de Chile S.A. (SQM) at the ordinary meeting dated March 15, 2005 unanimously agreed to propose the payment of a final dividend for a sum of US\$0.18282 per share in favor of all those shareholders of SQM that are registered with the respective registry during the fifth business day prior to the day in which this dividend will be paid.

Upon approval of the aforementioned proposal at the next Ordinary Shareholders' Meeting that will be held on April 29, 2004, the amount of the final dividend to be distributed will be increased from 50% to 65% of net income and implies the partial modification of the Dividend Policy for the 2004 commercial year, which was communicated at the General Ordinary Shareholders' Meeting held on April 30, 2004.

The director Mr. José Antonio Silva B. consulted with the Chilean Superintendency of Securities and Insurance ("SVS") as to the applicability of the concept of "limitation of related persons" to Article 31 of the by-laws of SQM S.A. and as equal to this concept already existing in Article 31 Bis of the aforementioned by-laws- and also in respect to the quorum required to modify the percentage of "37.5%" referred to in Article 31. The SVS, through Ordinary Official Communication N002622 dated March 16, 2005, asked the Company's opinion in this respect and the Company, through its management informed the Board of Directors that the concept of "limitation of related persons" does not exist in Article 31 and that the history of both articles plus the interpretation of these articles at the different Shareholders' meetings held throughout the years and the different objectives of these articles, among other aspects, allow concluding that this concept is not applicable to article 31 and that; in addition, the amendment of the percentage requires the vote by absolute majority of shares issued with voting rights present at the Shareholders' meeting that analyze this amendment. Four directors agreed with the opinion provided by the management of SQM S.A. and two directors disagreed with this opinion and this was informed to the SVS. The SVS confirmed the opinion provided by the management of SQM S.A. based on matter of law of fact considerations explained in Ordinary Official Communication N003821 dated April 19, 2005.

Note 26 □ Significant Events (continued)

Inversiones El Boldo Limitada, owner of more than 10% of voting right shares issued of SQM S.A. and related to Potash Corporation of Saskatchewan Inc., on April 25, 2005 has requested from the Board of directors of SQM S.A. that it requests an Extraordinary Shareholders' Meeting of the Company to vote as to the convenience of either eliminating or not Series A and B shares □ and preferences related to these series □ in which the Company's capital is currently divided through the amendment of the pertinent articles of the Company's by-laws required to reflect this possible elimination and; alternately, and provided that the shareholders do not approve this elimination, to modify article 31 of these by-laws with the purpose of incorporating in this article the concept of "related persons" already included in Article 31 Bis of the aforementioned by-laws. The Company's Board of Directors unanimously agreed on its meeting held on April 26, 2005 to summon such a meeting for May 25, 2005 at 10.00 a.m.

On April 27, 2005, the Company informed the Chilean Superintendency of Securities and Insurance (SVS) that the French Arbitrage Association (AFA) provided its sentence within the process in which Du Guano de Poisson Angibaud S.A. and Generale de Nutrition Vegetal SAS, both of them member companies of the Angibaud Group, filed in Paris, France during 2002 lawsuits against Soquimich European Holdings B.V., NU3 N.V. and SQM France S.A., all of which are subsidiaries of Sociedad Química y Minera de Chile S.A., for damage that Angibaud would have experienced due to business relationships between both Group of companies.

At the General Ordinary Shareholders' Meeting of April 29, 2005, the shareholders, among others, agreed the following:

- a) Approved the distribution and payment of a final dividend for a total of Ch\$ 106.56029 per share in one single payment from May 12, 2005 with a charge to 2004 net income.
- b) Approved the payment of UF 50 (fifty UF) to each member of the Board of Directors' Committee regardless of the number of meetings that this Committee may or not have during the respective month and establish an annual budget for expenses for this Committee and its advisors of UF 1,800 (one thousand and eight hundred UF).
- c) Appoint Messrs. Wayne R. Brownlee, Hernán Büchi B., José María Eyzaguirre B., Julio Ponce L., José Antonio Silva B., Wolf von Appen, Kendrick T. Wallace and Daniel Yarur E. as new directors of SQM S.A. and approved remuneration payable to these members of the Board during the next twelve months, which are the same as those approved at the Company's previous General Ordinary Shareholders' Meeting.

Note 27 □ Subsequent Events

On July 12, 2005, SQM Nitratos S.A. made a capital contribution of ThUS\$ 100 in SQM Brasil Ltda.

On July 14, 2005, SQM S.A. through two of its subsidiaries abroad and issuance of applicable guarantees, acquired all the shares of Kemira Emirates Fertilizar Company FZC, incorporated in Dubai, United Arab Emirates for a sum of approximately ThUS\$ 6,000.

During July 2005, the French Arbitrage Association (AFA) pronounced its sentence in the process that Compagnie du Guano de Poisson Angibaud S.A. and Generale de Nutrition Vegetales SAS, which are member companies of the Angibaud Group, filed in Paris, France during 2002 a lawsuit against Soquimich European Holdings B.V., NU3 and SQM France S.A., which are members of the SQM Group and subsidiaries of Sociedad Química y Minera de Chile S.A. for damages that Angibaud would have experienced due to the termination of business relationships between both Group of companies.

Angibaud filed a lawsuit for the amount of ThEuro 30,295 and the French Arbitrage Association (AFA) in a sentence that partially accepted this claim ordered that SQM pays the amount of ThEuro 8,000, including expenses and interest to Compagnie du Guano de Poisson Angibaud S.A. and Generale de Nutrition Vegetales SAS.

With no prejudice of the foregoing, the SQM Group has made an accrual of ThUS\$ 6,000 to pay a portion of the amounts indicated in the aforementioned sentence.

Management is not aware of any significant subsequent events that have occurred after June 30, 2005 and that may affect the Company's financial position or the interpretation of these financial statements, (August 4, 2005).
