Part I -- Financial Information

Item 1: Condensed Financial Statements (Unaudited)

"Essex" or the "Company" means Essex Property Trust, Inc., a real estate investment trust incorporated in the State of Maryland, or where the context otherwise requires, Essex Portfolio, L.P., a limited partnership (the "Operating Partnership") in which Essex Property Trust, Inc. is the sole general partner.

The information furnished in the accompanying unaudited condensed consolidated balance sheets, statements of operations, stockholders' equity, noncontrolling interest, and comprehensive income and cash flows of the Company reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned condensed consolidated financial statements for the interim periods and are normal and recurring in nature, except as otherwise noted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the notes to such unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations herein. Additionally, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2008.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2009 and 2008
(Unaudited)

(1) Organization and Basis of Presentation

The unaudited condensed consolidated financial statements of the Company are prepared in accordance with U.S. generally accepted accounting principles for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented have been included and are normal and recurring in nature, except as otherwise noted. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2008.

All significant intercompany balances and transactions have been eliminated in the condensed consolidated financial statements.

The unaudited condensed consolidated financial statements for the three and nine months ended September 30, 2009 and 2008 include the accounts of the Company and Essex Portfolio, L.P. (the "Operating Partnership", which holds the operating assets of the Company). See below for a description of entities consolidated by the Operating Partnership. The Company is the sole general partner in the Operating Partnership, with a 92% general partnership interest as of September 30, 2009. Total Operating Partnership units outstanding were 2,449,317 and 2,413,078 as of September 30, 2009 and December 31, 2008, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled \$194.9 million and \$185.2 million, as of September 30, 2009 and December 31, 2008, respectively.

As of September 30, 2009, the Company owned or had ownership interests in 133 apartment communities, (aggregating 27,221 units) (collectively, the "Communities", and individually, a "Community"), five office and commercial buildings and three active development projects (collectively, the "Portfolio"). The Communities are located in Southern California (Los Angeles, Orange, Riverside, Santa Barbara, San Diego, and Ventura counties), Northern California (the San Francisco Bay Area) and the Seattle metropolitan area.

Fund Activities

Essex Apartment Value Fund II, L.P. ("Fund II") is an investment fund formed by the Company to add value through rental growth and asset appreciation, utilizing the Company's development, redevelopment and asset management capabilities.

Fund II has eight institutional investors, and the Company, with combined partner equity contributions of \$265.9 million. The Company contributed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner. Fund II utilized leverage equal to approximately 55% upon the initial acquisition of the underlying real estate. Fund II invested in apartment communities in the Company's targeted West Coast markets and, as of September 30, 2009, owned 14 apartment communities. The Company records revenue for its asset management, property management, development and redevelopment services when earned, and promote income when realized if Fund II exceeds certain financial return benchmarks.

Marketable Securities

As of September 30, 2009 marketable securities consisted primarily of investment-grade unsecured bonds and investment funds that invest in U.S. treasury or agency securities. As of September 30, 2009 the Company had classified the marketable securities as available for sale and the Company reports these securities at fair value, based on quoted market prices (Level 2 for the unsecured bonds and level 1 for the investment funds, as defined by the Financial Accounting Standards Board ("FASB") standard entitled "Fair Value Measurements and Disclosures" as discussed later in Note 1), and any unrealized gain or loss is recorded as other comprehensive income (loss). Realized gains and losses and interest income are included in interest and other income on the condensed consolidated statement of operations. Amortization of unearned discounts is included in interest income.

Variable Interest Entities

The Company consolidates 19 DownREIT limited partnerships (comprising twelve communities), an office building that is subject to loans made by the Company, and 55 low income housing units since the Company is the primary beneficiary of these variable interest entities ("VIEs"). As of December 31, 2008 the consolidated VIEs include a development joint venture, which is no longer a VIE as of September 30, 2009 as a result of the Company's buyout of almost all of the co-investment's interests. Total DownREIT units outstanding were 1,137,623 and 1,148,510 as of September 30, 2009 and December 31, 2008 respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled \$90.5 million and \$88.1 million, as of September 30, 2009 and December 31, 2008, respectively. The consolidated total assets and liabilities related to these VIEs, net of intercompany eliminations, were approximately \$237.0 million and \$163.1 million, respectively, as of September 30, 2009 and \$256.0 million and \$169.1 million, respectively, as of December 31, 2008. Interest holders in VIEs consolidated by the Company are allocated net income equal to the cash payments made to those interest holders or distributions from cash flow. The remaining results of operations are generally allocated to the Company. As of September 30, 2009 and December 31, 2008, the Company did not have any VIE's of which it was not deemed to be the primary beneficiary.

Index

Stock-Based Compensation

The Company accounts for share based compensation using the fair value method of accounting. The estimated fair value of stock options granted by the Company is being amortized over the vesting period of the stock options. The estimated grant date fair values of the long term incentive plan units (discussed in Note 13, "Stock Based Compensation Plans," in the Company's Form 10-K for the year ended December 31, 2008) are being amortized over the expected service periods.

Stock-based compensation expense for options and restricted stock totaled \$0.2 million and \$0.4 million for the three months ended September 30, 2009 and 2008, respectively, and \$0.7 million and \$0.9 million for the nine months ended September 30, 2009 and 2008, respectively. The intrinsic value of the stock options exercised during the three months ended September 30, 2009 and 2008 totaled \$0.1 million and \$1.4 million, respectively and \$0.5 million and \$4.1 million for the nine months ended September 30, 2009 and 2008 respectively. As of September 30, 2009, the intrinsic value of the stock options outstanding and fully vested totaled \$3.3 million. As of September 30, 2009, total unrecognized compensation cost related to unvested share-based compensation granted under the stock option and restricted stock plans totaled \$2.9 million. The cost is expected to be recognized over a weighted-average period of 2 to 5 years for the stock option plans and is expected to be recognized straight-line over 7 years for the restricted stock awards.

The Company has adopted an incentive program involving the issuance of Series Z and Series Z-1 Incentive Units (collectively referred to as "Z Units") of limited partnership interest in the Operating Partnership. Stock-based compensation expense for Z Units totaled \$0.4 million for the three months ended September 30, 2009 and 2008, respectively, and \$1.1 million for the nine months ended September 30, 2009 and 2008, respectively.

Stock-based compensation capitalized for stock options, restricted stock awards, and the Z Units totaled \$0.1 million and \$0.2 million for the three months ended September 30, 2009 and 2008, respectively, and \$0.3 million and \$0.6 million for the nine months ended September 30, 2009 and 2008, respectively. As of September 30, 2009, the intrinsic value of the Z Units subject to future vesting totaled \$8.7 million. As of September 30, 2009, total unrecognized compensation cost related to Z Units subject to future vesting granted under the Z Units totaled \$5.0 million. The unamortized cost is expected to be recognized over the next 2 to 10 years subject to the achievement of the stated performance criteria.

Stock-based compensation expense for the Outperformance Plan, (the "OPP") adopted in December 2007 totaled approximately \$0.3 million for three months ended September 30, 2009 and 2008, respectively and \$0.9 million for the nine months ended September 30, 2009 and 2008. During September 2009, the Company elected to cancel the OPP for senior officers and non-employee directors and wrote-off \$3.8 million in unamortized costs related to the OPP.

Fair Value of Financial Instruments

The Company adopted an accounting standard issued by the FASB entitled "Fair Value Measurements and Disclosures" as of January 1, 2008, which provides guidance on using fair value to measure assets and liabilities. The Company values its financial instruments based on the fair value hierarchy of valuation techniques described in this standard. Level 1 inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability.

The Company uses Level 1 inputs for the fair values of its cash equivalents and its marketable securities except for unsecured bonds. The Company uses Level 2 inputs for its investments in unsecured bonds, notes receivable, notes payable, and cash flow hedges. These inputs include interest rates for similar financial instruments. The Company's valuation methodology for cash flow hedges is described in more detail in Note 8. The Company does not use Level 3 inputs to estimate fair values of any of its financial instruments. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Index

Management believes that the carrying amounts of its amounts outstanding under lines of credit, notes receivable and other receivables from related parties, and notes and other receivables approximate fair value as of September 30, 2009 and December 31, 2008, because interest rates, yields and other terms for these instruments are consistent with yields and other terms currently available for similar instruments. Management has estimated that the fair value of the Company's \$1.46 billion of fixed rate debt at September 30, 2009 is approximately \$1.48 billion and the fair value of the Company's \$251.6 million of variable rate debt at September 30, 2009 is \$228.5 million based on the terms of existing mortgage notes payable and variable rate demand notes compared to those available in the marketplace. Management believes that the carrying amounts of cash and cash equivalents, restricted cash, accounts payable and accrued liabilities, other liabilities and dividends payable approximate fair value as of September 30, 2009 due to the short-term maturity of these instruments. Marketable securities and cash flow hedge liabilities are carried at fair value as of September 30, 2009, as discussed further above and in Note 8.

Accounting Estimates and Reclassifications

The preparation of condensed consolidated financial statements, in accordance with U.S. generally accepted accounting principles, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate properties, its investments in and advances to joint ventures and affiliates, its notes receivables and its qualification as a Real Estate Investment Trust ("REIT"). The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions. Reclassifications for discontinued operations and noncontrolling interest have been made to prior year statements of operations balances in order to conform to current year presentation. Such reclassifications have no impact on reported earnings, cash flows, total assets or total liabilities.

New Accounting Pronouncements and the Resulting Revision of Previously Reported Amounts

In July 2009, the FASB established a codification as the single source of authoritative nongovernmental US GAAP (except for SEC rules and interpretive releases) which is effective for interim and annual reporting periods ending after September 15, 2009 (the "Codification"). The Codification is intended to reorganize, rather than change, existing US GAAP. However, all existing accounting standard documents are superseded by the Codification and all accounting literature excluded from the Codification became nonauthoritative upon the effective date in September 2009. Accordingly, all references to currently existing US GAAP have been removed and have been replaced with references to the Codification or plain English explanations of our accounting policies. The adoption of the Codification did not have a material impact on the Company's financial position or results of operations.

In December 2007, the FASB issued a standard entitled "Noncontrolling Interests in Consolidated Financial Statements" which establishes accounting and reporting standards that require the ownership interests in subsidiaries held by parties other than the parent be clearly identified, labeled, and presented in the consolidated balance sheet within equity, but separate from the parent's equity; the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the consolidated statement of operations; changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently; when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary be initially measured at fair value; and entities provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. The standard is effective for fiscal years beginning on or after December 15, 2008. As summarized in the table below, the accompanying 2008 condensed consolidated financial statements have been revised to record the impact of the adoption of the standard.

In May 2008, the FASB issued FASB a standard entitled “Accounting for Convertible Debt Instruments That May be Settled in Cash Upon Conversion,” which requires the issuer of certain convertible debt instruments that may be settled in cash (or other assets) upon conversion to separately account for the liability (debt) and equity (conversion option) components of the instruments in a manner that reflects the issuer’s nonconvertible debt borrowing rate. This standard requires the initial debt proceeds from the sale of a company’s convertible debt instrument to be allocated between the liability component and the equity component. The resulting debt discount will be amortized over the period during which the debt is expected to be outstanding (i.e., through the first optional redemption dates) as additional non-cash interest expense. The standard is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Accounting for the Company’s \$225.0 million exchangeable bonds (the “Bonds”) with a coupon rate of 3.625% due November 2025, which were issued in the fourth quarter of 2005, was impacted by the standard. During the fourth quarter of 2008, the Company repurchased \$53.3 million of the Bonds, and during the first quarter of 2009 the Company repurchased an additional \$71.3 million of the Bonds.

Index

On January 1, 2009, the Company retrospectively adopted the standard discussed above for the Bonds. The Company estimated that the market interest rate for the debt only portion of the Bonds as of the date of issuance was 5.75%, compared to the coupon rate of 3.625%. The Company computed the estimated fair value of the debt portion of the Bonds as the present value of the expected cash flows discounted at 5.75%. The difference between the fair value of the debt portion of the Bonds and the carrying value as previously reported was added to additional paid in capital as of the date of issuance. The discount on the debt is amortized over the period from issuance to the date of the first call option by the holders of the Bonds which occurs in November 2010 resulting in non-cash interest expense in addition to the interest expense calculated based on the coupon rate. This resulted in non-cash interest charges of \$0.5 million and \$1.0 million for the three months ended September 30, 2009 and 2008, respectively, and \$1.6 million and \$3.0 million for the nine months ended September 30, 2009 and 2008, respectively. The standard requires that the fair value of the debt portion of any bonds that are retired early be estimated to calculate the gain on retirement. The difference between the estimated fair value of the debt portion of the Bonds and the standard carrying value of the debt portion of the Bonds is recorded as gain on early retirement of debt and additional paid in capital is reduced to reflect the remaining portion of the total amount paid to retire the Bonds.

The following is a summary of the impact to the December 31, 2008 consolidated balance sheet and the three and nine months ended September 30, 2008 consolidated statement of operations from amounts previously reported to amounts included in the accompanying condensed consolidated financial statements as a result of the retrospective adoption of the standards discussed above (in thousands except per share amounts):

	As reported December 31, 2008	Noncontrolling Interest Retrospective Adjustments	Bonds Retrospective Adjustment	Revised December 31, 2008
Selected balance sheet data:				
Exchangeable bonds	\$ 171,716	\$ -	\$ (6,259)	\$ 165,457
Minority interests	234,821	(233,771)	(1,050)	-
Additional paid-in-capital	1,026,036	-	17,948	1,043,984
Distributions in excess of accumulated earnings	(130,697)	-	(10,639)	(141,336)
Noncontrolling interest	-	233,771	-	233,771

	As reported 2008 (1)	Noncontrolling Interest Retrospective Adjustments	Bonds Retrospective Adjustment	Revised 2008

Selected statement of operations data:				
Interest expense	\$59,944	-	3,073	\$63,017
Noncontrolling interest	16,929	-	(374)	16,555

Earnings per diluted share	1.50	-	(0.11)	1.39
----------------------------	------	---	-------	---	------

(1) As reported balances are adjusted for discontinued operations.

In June 2009, the FASB issued a standard entitled, "Business Combinations" which establishes principles and requirements for how the acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; recognizes and measures the goodwill acquired in a business combination or a gain from a bargain purchase; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This standard is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of this standard on January 1, 2009 did not have any impact on the Company's consolidated financial position, results of operations or cash flows as it relates only to business combinations for the Company that take place on or after January 1, 2009.

Index

In June 2009, the FASB issued SFAS No. 167, "Amendments to FASB Interpretation No. 46(R)", which amends existing standards to replace the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which enterprise has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and (1) the obligation to absorb losses of the entity or (2) the right to receive benefits from the entity. An approach that is expected to be primarily qualitative will be more effective for identifying which enterprise has a controlling financial interest in a variable interest entity. This Statement has not been incorporated into the FASB Accounting Standards Codification as of September 30, 2009. The new standard shall be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. Management is currently evaluating the impact this standard will have on the Company's condensed consolidated financial statements.

In May 2009, the FASB issued a standard entitled "Subsequent Events" which defines subsequent events as events or transactions that occur after the balance sheet date but before financial statements are issued or available to be issued. Under the standard, the requirements for disclosing subsequent events remain unchanged from the previous requirements. However, the standard contains an additional requirement that companies must disclose the date through which subsequent events have been evaluated and the rationale for selecting that date. The Company has adopted the provisions of the standard and has evaluated subsequent events for the period ended September 30, 2009 through November 4, 2009, the date the financial statements were issued. There were no events or transactions subsequent to September 30, 2009 that required recognition or disclosure in the financial statements.

(2) Significant Transactions During the Third Quarter

(a) Dispositions

During the third quarter, the Company sold Spring Lake, a 69-unit community located in Seattle, Washington for \$5.7 million and recognized a gain of \$2.5 million.

(b) Equity

During the third quarter, the Company issued 1,130,800 shares of common stock at an average price of \$75.56 for \$84.2 million, net of fees and commissions through the Company's Controlled Equity Offering Program.

During the third quarter, the Company repurchased \$81.9 million of its Series G Cumulative Convertible Preferred Stock, at a \$23.9 million discount to its carrying value.

(c) Debt and Financing Activities

The Company obtained a fixed rate mortgage loan secured by Huntington Breakers totaling \$40.5 million at a fixed rate of 5.4% which matures in October 2019, during the third quarter. Additionally, the Company paid-off a \$5.6 million mortgage loan secured by Mt. Sutro at a fixed rate of 7.7%.

(d) Outperformance Plan

During the third quarter, the Company elected to cancel the Outperformance Plan (the "OPP") for senior officers and non-employee directors and wrote-off \$3.8 million in unamortized costs related to the OPP. The costs were included in impairment and other charges in the accompanying consolidated statement of operations.

(e) Land Impairment

The Company wrote-off development costs totaling \$6.7 million related to two land parcels that will no longer be developed by the Company. The costs were included in impairment and other charges in the accompanying consolidated statement of operations.

Index

(3) Co-investments

The Company has joint venture investments in co-investments, which are accounted for under the equity method. The joint ventures own, operate and develop apartment communities. The following table details the Company's co-investments (dollars in thousands):

	September 30, 2009	December 31, 2008
Investments in joint ventures accounted for under the equity method of accounting:		
Limited partnership interest of 27.2% and general partner interest of 1% in Essex Apartment Value Fund II, L.P ("Fund II")	\$ 70,263	\$ 70,469
Development joint venture	-	5,377
	70,263	75,846
Investments accounted for under the cost method of accounting:		
Series A Preferred Stock interest in Multifamily Technology Solutions, Inc	500	500
Total co-investments	\$ 70,763	\$ 76,346

During 2006, the Company made a contribution to a development with a joint venture partner totaling \$3.4 million, and over the past three years the Company made additional contributions and capitalized costs to this joint venture totaling \$2.4 million for a total investment of \$5.8 million. This joint venture was to obtain entitlements and make option payments towards the purchase of land parcels in Marina del Rey, California for a proposed development project. During the first quarter of 2009, the Company wrote-off its investment in the joint venture development project of \$5.8 million, and the write-off of these costs is included in other non-cash expenses in the accompanying consolidated condensed statements of operations. The combined summarized balance sheet and statements of operations for co-investments, which are accounted for under the equity method, are as follows (dollars in thousands).

	September 30, 2009	December 31, 2008
Balance sheets:		
Rental properties and real estate under development	\$ 499,152	\$ 526,906
Other assets	36,603	40,877
Total assets	\$ 535,755	\$ 567,783
Mortgage notes and construction payable	\$ 316,524	\$ 308,853
Other liabilities	9,433	8,481
Partners' equity	209,798	250,449
Total liabilities and partners' equity	\$ 535,755	\$ 567,783
Company's share of equity	\$ 70,263	\$ 75,846

Index

In January 2008, the Company received \$7.5 million and recognized \$6.3 million of preferred interest in the joint venture which is included in equity income in co-investments from the repayment of its investment in Mountain Vista Apartments, LLC.

(4) Notes and Other Receivables

Notes receivable secured by real estate, and other receivables consist of the following as of September 30, 2009 and December 31, 2008 (dollars in thousands):

	September 30, 2009	December 31, 2008
Note receivable, secured, bearing interest at LIBOR + 3.69%, due June 2010	\$ 6,761	\$ 7,325
Note receivable, secured, bearing interest at 8.0%, due November 2010	971	965
Note receivable, secured, bearing interest at LIBOR + 2.95%, due December 2010	12,541	14,043
Note receivable, secured, bearing interest at LIBOR + 4.75%, due March 2011	7,358	7,294
Note receivable, secured, bearing interest at 6.5%, due August 2011	3,221	4,070
Non-performing note receivable, secured	13,448	13,448
Other receivables	3,182	1,192
Allowance for loan losses	(1,720)	(700)
	\$ 45,762	\$ 47,637

In September 2007, the Company originated a loan to the owners of an apartment community under development in Vancouver, Washington, with a maturity date of February 2009. The proceeds from the loan refinanced the property and provided funding for the completion of the 146-unit apartment community. In July 2008, the Company ceased recording interest income and issued a notice of monetary default to the borrower, and the borrower filed for bankruptcy. During the fourth quarter of 2008, the Company recorded a loan loss reserve in the amount of \$0.7 million with an additional reserve of \$0.4 million recorded during the second quarter of 2009 on this non-performing note receivable. The Company recorded an additional \$0.6 million loan loss reserve during the third quarter of 2009. In October the property was sold through the bankruptcy trustee and the loan was repaid at no additional loss to the Company.

In the second quarter of 2009, the borrower on the loan secured by Emeryville Marketplace, a mixed use commercial property located in Emeryville, California made a principal payment of \$0.5 million to pay down the loan to \$6.8 million and the Company extended the maturity of the loan until June 2010. In the first quarter of 2009, the borrower on the bridge loan secured by 301 Ocean Avenue, a 47-unit apartment community located in Santa Monica, California, made a principal payment of \$1.6 million to pay down the loan to \$12.5 million and the Company extended the maturity of the loan until December 2010.

(5) Related Party Transactions

Management and other fees from affiliates includes management, development and redevelopment fees from Fund II of \$1.0 million and \$1.3 million for the three months ended September 30, 2009 and 2008 respectively, and \$3.4 million and \$4.0 million for the nine months ended September 30, 2009 and 2008 respectively. As discussed in Note 3, in January 2008, the Company received \$7.5 million from an investment held in an affiliate of TMMC and recognized \$6.3 million of preferred income which is included in equity (loss) income from co-investments.

Index

(6) Segment Information

The Company defines its reportable operating segments as the three geographical regions in which its apartment communities are located: Southern California, Northern California and Seattle Metro. Excluded from segment revenues are properties classified in discontinued operations, management and other fees from affiliates, and interest and other income. Non-segment revenues and net operating income included in the following schedule also consist of revenue generated from commercial properties which are primarily office buildings. Other non-segment assets include co-investments, real estate under development, cash and cash equivalents, marketable securities, notes receivable, other assets and deferred charges. The revenues, net operating income, and assets for each of the reportable operating segments are summarized as follows for the three months ended September 30, 2009 and 2008 (dollars in thousands):

	Three Months Ended September 30,	
	2009	2008
Revenues:		
Southern California	\$ 51,265	\$ 52,002

(1) Weighted convertible limited partnership units of 2,161,053 and 2,161,453 for the three and nine months ended September 30, 2009, respectively, and vested Series Z incentive units of 288,651 and 286,716 for the three and nine months ended September 30, 2009, respectively, were included in the determination of diluted EPS because they were dilutive. Weighted convertible limited partnership units of 2,184,446 and 2,224,828 and vested Series Z incentive units of 250,927 and 250,514 for the three and nine months ended September 30, 2008, respectively, were excluded in the determination of diluted EPS because they were anti-dilutive. The Company has the ability to redeem DownREIT limited partnership units for cash and does not consider them to be potentially dilutive securities.

The holders of the exchangeable notes may exchange, at the then applicable exchange rate, the notes for cash and, at the Company's option, a portion of the notes may be exchanged for Essex common stock; the original exchange rate was \$103.25 per share of Essex common stock. During the three and nine months ended September 30, 2009 and 2008 the weighted average common stock price did not exceed the strike price (which was \$101.30 as of September 30, 2009) and therefore common stock issuable upon exchange of the exchangeable notes was not included in the diluted share count as the effect was anti-dilutive.

Stock options of 243,313 and 28,250 for the three months ended September 30, 2009 and 2008, respectively, and 257,857 and 75,111 for the nine months ended September 30, 2009 and 2008, respectively, were not included in the diluted earnings per share calculation because the exercise price of the options were greater than the average market price of the common shares for the three months ended and, therefore, were anti-dilutive. Stock options of 29,031 and 119,530 for the three months ended September 30, 2009 and 2008, respectively, and 25,003 and 132,214 were included in the determination of diluted EPS for the nine months ended September, 30, 2009 and 2008, respectively.

All shares of cumulative convertible preferred stock Series G have been excluded from diluted earnings per share for the three and nine months ended September 30, 2009 and 2008, respectively, as the effect was anti-dilutive.

(2) For the three and nine months ended September 30, 2009, net income allocated to convertible limited partnership units and vested Series Z units aggregating \$0.5 million and \$3.6 million, respectively, have been added to income available to common stock holders for the calculation of net income per common share since these units are excluded in the diluted weighted average common shares for these periods.

(8) Derivative Instruments and Hedging Activities

Currently, the Company uses interest rate swaps and interest rate cap contracts to manage certain interest rate risks. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

As of September 30, 2009 the Company had seven forward-starting interest rate swap contracts totaling a notional amount of \$375.0 million with interest rates ranging from 5.1% to 5.9% and settlements dates ranging from October 2010 to October 2011. These derivatives qualify for hedge accounting as they are expected to economically hedge the cash flows associated with future financing of debt between 2010 and 2011. The Company had eleven interest rate cap contracts totaling a notional amount of \$167.4 million that qualify for hedge accounting as they effectively limit

the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for the Company's \$251.6 million of tax exempt variable rate debt. The aggregate carrying value of the forward-starting interest rate swap contracts was a net liability of \$46.3 million and the aggregate carrying value of the interest rate cap contracts was an asset of \$0.3 million. The overall fair value of the derivatives changed by \$27.2 million during the nine months ended September 30, 2009 to a net liability of \$46.0 million as of September 30, 2009, and the derivative liability was recorded in cash flow hedge liabilities in the Company's condensed consolidated financial statements. The changes in the fair values of the derivatives are reflected in other comprehensive (loss) income in the Company's condensed consolidated financial statements. No hedge ineffectiveness on cash flow hedges was recognized during the quarter ended September 30, 2009 and 2008.

Index

(9) Discontinued Operations

In the normal course of business, the Company will receive offers for sale of its communities, either solicited or unsolicited. For those offers that are accepted, the prospective buyer will usually require a due diligence period before consummation of the transaction. It is not unusual for matters to arise that result in the withdrawal or rejection of the offer during this process. The Company classifies real estate as "held for sale" when all criteria under the FASB standard entitled, "Property, Plant, and Equipment" have been met.

During the third quarter of 2009, the Company sold Spring Lake, a 69-unit community located in Seattle, Washington for \$5.7 million resulting in a \$2.5 million gain.

During the second quarter of 2009, the Company sold Mountain View Apartments, a 106-unit community located in Camarillo, California for \$14.0 million resulting in a \$0.8 million gain.

In the first quarter of 2009, the Company sold Carlton Heights Villas, a 70-unit property located in Santee, California for \$6.9 million resulting in a \$1.6 million gain and Grand Regency, a 60-unit property in Escondido, California, for \$5.0 million resulting in a \$0.9 million gain.

In the fourth quarter of 2008, the Company sold Coral Gardens, a 200-unit property located in El Cajon, California for \$19.8 million, and in the third quarter of 2008, the Company sold Cardiff by the Sea Apartments, located in Cardiff, California for \$71.0 million and St. Cloud Apartments, located in Houston, Texas for \$8.8 million. The operations for these sold communities are included in discontinued operations for the three and nine months ended September 30, 2008.

The components of discontinued operations are outlined below and include the results of operations for the respective periods that the Company owned such assets, as described above (dollars in thousands).

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Rental revenues	\$64	\$2,648	\$1,406	\$9,419
Property operating expenses	(21)	(1,523)	(561)	(4,592)
Interest expense	-	(545)	-	(2,087)
Depreciation and amortization	-	(869)	(306)	(3,146)
Income (loss) from real estate sold	43	(289)	539	(406)
Gain on sale	2,467	46	5,708	46
Internal disposition costs (1)	(230)	-	(617)	-
Income (loss) from discontinued operations	\$2,280	\$(243)	\$5,630	\$(360)

(1) Internal disposition costs relate to a disposition incentive program established to pay incremental bonuses for the sale of certain of the Company's communities that are part of the program.

(10) Commitments and Contingencies

The Company is subject to various lawsuits in the normal course of its business operations. Such lawsuits could, but are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein and with our 2008 Annual Report on Form 10-K for the year ended December 31, 2008 and our Current Report on Form 10-Q for the quarter ended September 30, 2009.

The Company is a fully integrated Real Estate Investment Trust ("REIT"), and its property revenues are generated primarily from apartment community operations. Our investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets to identify areas with the characteristics that underlie rental growth. Our strong financial condition supports our investment strategy by enhancing our ability to quickly shift our acquisition, development, and disposition activities to markets that will optimize the performance of the portfolio.

As of September 30, 2009, we had ownership interests in 133 apartment communities, comprising 27,221 apartment units. Our apartment communities are located in the following major West Coast regions:

Index

Southern California (Los Angeles, Orange, Riverside, Santa Barbara, San Diego and Ventura counties)

Northern California (the San Francisco Bay Area)

Seattle Metro (Seattle metropolitan area)

As of September 30, 2009, we also had ownership interests in five office and commercial buildings (with approximately 215,840 square feet).

As of September 30, 2009, our consolidated development pipeline was comprised of three development projects, two predevelopment projects and four land parcels held for future development or sale aggregating 1,818 units, with total incurred costs of \$223.0 million. The estimated remaining project costs of active development projects were \$85.0 million for total estimated active development project costs of \$189.3 million.

The Company's consolidated apartment communities are as follows:

	As of September 30, 2009		As of September 30, 2008			
	Apartment Units	%	Apartment Units	%		
Southern California	12,264	51 %	12,225	51 %		
Northern California	6,695	28 %	6,457	27 %		
Seattle Metro	5,297	22 %	5,338	22 %		
Total	24,256	100 %	24,020	100 %		

Co-investments including Fund II communities and communities included in discontinued operations are not included in the table above for both years presented above.

Comparison of the Three Months Ended September 30, 2009 to the Three Months Ended September 30, 2008

Our average financial occupancies for the Company's stabilized apartment communities or "Quarterly Same-Property" (stabilized properties consolidated by the Company for the quarters ended September 30, 2009 and 2008) increased 70 basis points to 97.0% as of September 30, 2009 from 96.3% as of September 30, 2008. Financial occupancy is defined as the percentage resulting from dividing actual rental revenue by total possible rental revenue. Actual rental revenue represents contractual rental revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates as disclosed by other REITs may not be comparable to our calculation of financial occupancy.

The regional breakdown of the Company's Quarterly Same-Property portfolio for financial occupancy for the quarter ended September 30, 2009 and 2008 is as follows:

	Three months ended September 30,			
	2009		2008	
Southern California	96.6 %		95.4 %	
Northern California	97.6 %		97.7 %	
Seattle Metro	97.1 %		96.6 %	

Index

The following table provides a breakdown of revenue amounts, including revenues attributable to the Quarterly Same-Property portfolio:

	Number of Properties	Three Months Ended		Dollar Change	Percentage Change
		September 30, 2009	2008		
Property Revenues (dollars in thousands)					
Quarterly Same-Property:					
Southern California	55	\$45,362	\$47,227	\$(1,865)	(3.9) %
Northern California	24	25,657	26,894	(1,237)	(4.6)
Seattle Metro	23	14,331	15,464	(1,133)	(7.3)
Total Quarterly Same-Property revenues	102	85,350	89,585	(4,235)	(4.7)
Quarterly Non-Same Property Revenues (1)		15,473	12,357	3,116	25.2
Total property revenues		\$100,823	\$101,942	\$(1,119)	(1.1) %

(1) Includes two communities acquired after January 1, 2008, eight redevelopment communities, two development communities, and three commercial buildings.

Quarterly Same-Property Revenues decreased by \$4.2 million or 4.7% to \$85.4 million in the third quarter of 2009 from \$89.6 million in the third quarter of 2008. The decrease was primarily attributable to a decrease in scheduled rents of \$5.1 million or a decrease of 5.7% for the Quarterly Same-Property portfolio from an average rental rate of \$1,411 per unit in the third quarter of 2008 to \$1,330 per unit in the third quarter of 2009. Schedule rents decreased in all regions including a decrease in scheduled rents of 5.3%, 4.7%, and 8.8% in Southern California, Northern California, and Seattle Metro, respectively. The decrease in scheduled rents was partially offset by an increase of occupancy of 70 basis points or \$0.8 million, from 96.3% for the third quarter of 2008 to 97.0% for the third quarter of 2009, Ratio utility billing system (“RUBS”) income increased \$0.4 million, and other income, rent concessions and bad debt expense were consistent between quarters. The Company expects that total Quarterly Same-Property revenues will continue to decrease in the fourth quarter of 2009 from the same period in 2008, due to an expected decrease in scheduled rents compared to the same period in 2008.

Quarterly Non-Same Property Revenues increased by \$3.1 million or 25.2% to \$15.5 million in the third quarter of 2009 from \$12.4 million in the third quarter of 2008. The increase was primarily due to two new communities acquired since January 1, 2008, two development communities in lease-up and eight communities that are in redevelopment and classified in non-same property results.

Property operating expenses, excluding real estate taxes increased \$1.5 million or 5.8% for the third quarter of 2009 compared to the third quarter of 2008, primarily due to the acquisition of two new properties, and the completion of two development properties. Quarterly Same-Property operating expenses excluding real estate taxes for the third quarter of 2009 increased slightly by \$0.3 million or 1.5% compared to the third quarter of 2008.

Real estate taxes increased \$0.7 million or 8.0% for the third quarter of 2009 compared to the third quarter of 2008, primarily due to the acquisition of two new properties, the completion of two development properties and increases in real estate taxes in the Seattle Metro area.

Depreciation expense increased by \$2.2 million or 7.9% for the third quarter of 2009 compared to the third quarter of 2008, due to the acquisition of two new communities, the completion of two development properties, and the capitalization of approximately \$38.1 million in additions to rental properties for the nine months ended September 30, 2009 and approximately \$88.0 million of additions to rental properties, including \$55.5 million spent on redevelopment and revenue generating capital expenditures during 2008.

General and administrative expense decreased \$0.4 million or 6.7% for the quarter ended September 30, 2009 compared to the quarter ended September 30, 2008, primarily due to a workforce reduction of corporate employees in the fourth quarter of 2008.

Impairment and other charges were \$11.1 million for the third quarter of 2009 due to the write-off of development costs totaling \$6.7 million related to two land parcels that will no longer be developed by the Company, the recognition of \$3.8 million in unamortized costs related to the cancellation of the Outperformance Plan, and \$0.6 million recorded for additional loan loss reserves related a note receivable secured by an apartment community in the Portland Metropolitan Area.

Index

Gain on sale of real estate of \$2.5 million in the third quarter of 2008 resulted from the recognition of a gain on sale of \$1.0 million related to the sale of the Circle RV park and \$1.5 million gain that was previously deferred on the gain on sale of the 2005 sale of Eastridge Apartments.

Interest and other income increased by \$0.6 million for the quarter ended September 30, 2009 due to an increase in investment and interest income of approximately \$2.5 million generated primarily from the \$72.7 million increase in the balance of marketable securities from September 30, 2008, and that increase was partially offset by a \$1.6 million decrease in lease income due to the sale of the Company's remaining RV parks in 2008, the lease for the Cadence campus expired in January 2009, and a decrease of structured finance and other income of \$0.3 million for the quarter ended September 30, 2009 compared to the quarter ended September 30, 2008.

Income from discontinued operations for the third quarter of 2009 includes operating results of the apartment community Spring Lake which was sold during the quarter for a gain of \$2.5 million. Discontinued operations for the third quarter of 2008 includes the operating results for Spring Lake, as well as Carlton Heights, Grand Regency, and Mountain View which were sold in the first and second quarter of 2009, and Cardiff by the Sea, St. Cloud and Coral Gardens, which were sold in the third and fourth quarters of 2008.

Comparison of the Nine Months Ended September 30, 2009 to the Nine Months Ended September 30, 2008

Our average financial occupancies for the Company's stabilized apartment communities or "2009/2008 Same-Properties" (stabilized properties consolidated by the Company for the nine months ended September 30, 2009 and 2008) increased 70 basis points to 96.9% for the nine months ended September 30, 2009 from 96.2% for the nine months ended September 30, 2008. The regional breakdown of the Company's 2009/2008 Same-Property portfolio for financial occupancy for the nine months ended September 30, 2009 and 2008 is as follows:

	Nine Months Ended			
	September 30,			
	2009	2008		
Southern California	96.5 %	95.5 %		
Northern California	97.6 %	97.3 %		
Seattle Metro	97.1 %	96.6 %		

The following table illustrates a breakdown of revenue amounts, including revenues attributable to 2009/2008 Same-Properties.

Property Revenues (dollars in thousands)	Number of Properties	Nine Months Ended		Dollar Change	Percentage Change
		September 30, 2009	September 30, 2008		
2009/2008 Same-Properties:					
Southern California	55	\$ 138,192	\$ 141,610	\$(3,418)	(2.4) %
Northern California	24	79,066	79,037	29	0.0
Seattle Metro	23	44,719	45,402	(683)	(1.5)
Total 2009/2008 Same-Property revenues	102	261,977	266,049	(4,072)	(1.5)
2009/2008 Non-Same Property Revenues (1)		45,548	33,965	11,583	34.1
Total property revenues		\$ 307,525	\$ 300,014	\$ 7,511	2.5 %

(1) Includes properties acquired after January 1, 2008, eight redevelopment communities, two development communities, and three commercial buildings.

2009/2008 Same-Property Revenues decreased by \$4.1 million or 1.5% to \$262.0 million for the nine months ended September 30, 2008 compared to \$266.0 million for the nine months ended September 30, 2008. Scheduled rents decreased by 2.8% or \$7.3 million for the nine months ended September 30, 2009 from an average rental rate of \$1,402 for the nine months ended September 30, 2008 compared to \$1,363 for the nine months ended September 30, 2009. Scheduled rents decreased in all regions including a decrease in scheduled rents of 3.7%, 0.9%, and 3.1% in Southern California, Northern California, and Seattle Metro, respectively. The decrease in scheduled rents was partially offset by an increase of occupancy of 70 basis points or \$2.2 million, from 96.2% for the nine months ended September 30, 2008 to 96.9% for the nine months ended September 30, 2009, RUBS income increased \$1.0 million and other income increased \$0.3 million. Bad debt expense and rent concessions were consistent between periods. The Company expects that total Same-Property revenues will decrease for the year ended December 31, 2009, due to an expected decrease in scheduled rents compared to the year ended December 31, 2008.

Index

2009/2008 Non-Same Property Revenues increased by \$11.6 million or 34.1% to \$45.5 million for the nine months ended September 30, 2009 from \$34.0 million for the nine months ended September 30, 2008. The increase was primarily due to two new communities acquired since January 1, 2008, two development communities in lease and eight communities that are in redevelopment and classified in non-same property results.

Property operating expenses, excluding real estate taxes increased \$2.1 million or 2.9% for the nine months ended September 30, 2009 compared to the nine month ended September 30, 2008, primarily due to the acquisition of two new properties, and the completion of two development properties. 2009/2008 Same-Property operating expenses excluding real estate taxes increased slightly by \$1.5 million or 1.4% for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008.

Real estate taxes increased \$2.6 million or 10.7% for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008, primarily due to the acquisition of two new properties, the completion of two development properties and increases in real estate taxes in the Seattle Metro area.

Depreciation expense increased by \$6.0 million or 7.3% for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008, due to the acquisition of two new communities, the completion of two development properties, and the capitalization of approximately \$38.1 million in additions to rental properties for the nine months ended September 30, 2009 and approximately \$88.0 million of additions to rental properties, including \$55.5 million spent on redevelopment and revenue generating capital expenditures during 2008.

General and administrative expense decreased \$1.5 million or 7.8% for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008, primarily due to a workforce reduction of corporate employees in the fourth quarter of 2008.

Impairment and other charges were \$16.9 million for the nine months ended September 30, 2009 due to the write-off of development costs totaling \$6.7 million related to two land parcels that will no longer be developed by the Company, the write-off of \$5.8 million of an investment in a predevelopment joint venture project in Southern California, the recognition of \$3.8 million in unamortized costs related to the cancellation of the Outperformance Plan, and \$0.6 million recorded for additional loan loss reserves related a note receivable secured by an apartment community in the Portland Metro Area.

Gain on early retirement of debt was \$6.1 million for the nine months ended September 30, 2009 compared to \$0 for the nine month ended September 30, 2008, due to the repurchase of \$71.3 million of 3.625% exchangeable bonds at a discount to par value.

Gain on sale of real estate of \$2.5 million for the nine months ended September 30, 2008 resulted from the recognition of a gain on sale of \$1.0 million related to the sale of the Circle RV park and \$1.5 million gain that was previously deferred on the gain on sale of the 2005 sale of Eastridge Apartments.

Interest and other income increased by \$1.5 million for the nine months ended September 30, 2009 due to a variety factors including an increase in investment and interest income of approximately \$4.8 million generated primarily from the \$72.7 million increase in the balance of marketable securities since September 30, 2008, a \$1.0 million gain generated from the sale of marketable securities, \$0.6 million generated from TRS activities. Those increases in income were partially offset by a \$4.5 million decrease in lease income due to the sale of the Company's remaining RV parks in 2008, the lease for the Cadence campus expiring in January 2009, and a decrease of structured finance income of \$0.4 million for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008.

Equity income in co-investments decreased by \$6.7 million for the nine months ended September 30, 2009 due primarily to the repayment of the Company's remaining investment in the Mountain Vista, LLC joint venture for the nine months ended September 30, 2008. The Company recognized \$6.3 million of preferred income resulting from the final repayment of the investment for the nine months ended September 30, 2008.

Income from discontinued operations for the nine months ended September 30, 2009 includes operating results of the apartment communities sold in 2009 including Spring Lake which was sold for a gain of \$2.5 million, Mountain View which was sold for a gain of \$0.8 million, and Carlton Heights and Grand Regency which sold for a combined gain of \$2.5 million. Discontinued operations for the nine months ended September 30, 2008 includes the operating results for the four communities sold in 2009 as well as Cardiff by the Sea, St. Cloud and Coral Gardens, which were sold in the third and fourth quarters of 2008.

Index

Liquidity and Capital Resources

In June 2009, Standard and Poor's ("S&P") reaffirmed its corporate credit rating of BBB/Stable for Essex Property Trust, Inc.

At September 30, 2009, the Company had \$81.9 million of unrestricted cash and cash equivalents and \$131.3 million in marketable securities held available for sale. We believe that cash flows generated by our operations, existing cash balances, availability under existing lines of credit, access to capital markets and the ability to generate cash from the disposition of real estate and marketable securities held available for sale are sufficient to meet all of our reasonably anticipated cash needs during the remainder of 2009 and 2010. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect our plans for acquisitions, dispositions, development and redevelopment activities.

The Company has a \$200.0 million unsecured line of credit and, as of September 30, 2009, there was no outstanding balance on the line. This facility matures in March 2010. The underlying interest rate on this line is based on a tiered rate structure tied to an S&P rating on the credit facility (currently BBB-) at LIBOR plus 0.8%. We also have a \$150.0 million credit facility from Freddie Mac, which is expandable to \$250.0 million at any time until the fourth quarter of 2010 and the credit facility matures in December 2013. This line is secured by ten apartment communities. As of September 30, 2009, we had \$150.0 million outstanding under this line of credit at an average interest rate of 1.7%. The underlying interest rate on this line is between 99 and 150 basis points over the Freddie Mac Reference Rate and the interest rate is subject to change by the lender in November 2011. The Company's line of credit agreements contain debt covenants related to limitations on indebtedness and liabilities and maintenance of minimum levels of consolidated earnings before depreciation, interest and amortization. The Company was in compliance with the line of credit covenants as of September 30, 2009 and December 31, 2008.

The Company may from time to time sell shares of common stock into the existing trading market at current market prices as well as through negotiated transactions under its Controlled Equity Offering ("CEO") program with Cantor Fitzgerald & Co. ("Cantor"). In May 2009, the Company's Board of Directors approved the sale of up to 7.5 million shares of common stock under the CEO program. Pursuant to this approval, the Company entered in a sales agreement with Cantor on May 6, 2009, for the sale of up to 7.5 million shares pursuant to the CEO program. During the nine months ended September 30, 2009, pursuant to the CEO program, the Company issued 2,276,250 shares of common stock at an average price of \$71.36 for approximately \$160.0 million, net of fees and commissions.

In August 2007, the Company's Board of Directors authorized a stock repurchase plan to allow the Company to acquire shares in an aggregate of up to \$200.0 million. The program supersedes the common stock repurchase plan that Essex announced on May 16, 2001. In February 2009, the Company repurchased 350,000 shares of common stock for \$20.3 million at an average price of \$57.89 per share. After the Series G Preferred Stock repurchases described below, the Company has authorization to repurchase an additional \$42.9 million under the stock repurchase plan.

In 2006, the Company sold 5,980,000 shares of 4.875% Series G Cumulative Convertible Preferred Stock (the "Series G Preferred Stock") for net proceeds of \$145.9 million. Holders may convert Series G Preferred Stock into shares of the Company's common stock subject to certain conditions. The conversion rate was initially 0.1830 shares of common stock per the \$25 share liquidation preference, which is equivalent to an initial conversion price of approximately \$136.62 per share of common stock (the conversion rate will be subject to adjustment upon the occurrence of specified events). On or after July 31, 2011, the Company may, under certain circumstances, cause some or all of the Series G Preferred Stock to be converted into shares of common stock at the then prevailing conversion rate.

During the first quarter of 2009, the Company repurchased \$58.2 million of its Series G Preferred Stock at a discount to carrying value, and the excess of the carrying value over the cash paid to redeem the Series G Preferred Stock totaled \$25.7 million. Additionally, during the third quarter of 2009, the Company repurchased \$81.9 million of its Series G Preferred Stock at a discount to carrying value, and the excess of the carrying value over the cash paid to redeem the Series G Preferred Stock totaled \$23.9 million. As of September 30, 2009, the carrying value of the Series G Preferred Stock outstanding totaled \$5.8 million. The Company may continue to repurchase Series G Preferred Stock.

In 2005 the Company, through its Operating Partnership, issued \$225.0 million of outstanding exchangeable senior notes (the "Bonds") with a coupon of 3.625% due 2025. The Bonds are senior unsecured obligations of the Operating Partnership, and are fully and unconditionally guaranteed by the Company. On or after November 1, 2020, the Bonds will be exchangeable at the option of the holder into cash and, in certain circumstances at Essex's option, shares of the Company's common stock at an initial exchange price of \$103.25 per share subject to certain adjustments. The Bonds will also be exchangeable prior to November 1, 2020, but only upon the occurrence of certain specified events. On or after November 4, 2010, the Operating Partnership may redeem all or a portion of the Notes at a redemption price equal to the principal amount plus accrued and unpaid interest (including additional interest, if any). Bond holders may require the Operating Partnership to repurchase all or a portion of the Bonds at a purchase price equal to the principal amount plus accrued and unpaid interest (including additional interest, if any) on the Bonds on November 1, 2010, November 1, 2015 and November 1, 2020.

Index

During the fourth quarter of 2008 the Company repurchased \$53.3 million of these Bonds at a discount to par value, and during the first quarter of 2009, the Company repurchased an additional \$71.3 million of these Bonds at a discount to par value and recognized a gain of \$6.1 million on cash paid of \$66.5 million. As of September 30, 2009, the carrying value of the Bonds outstanding totaled \$98.2 million. The Company may continue to repurchase Bonds.

As of September 30, 2009, the Company's mortgage notes payable totaled \$1.6 billion which consisted of \$1.4 billion in fixed rate debt with interest rates varying from 4.86% to 8.18% and maturity dates ranging from 2010 to 2020 and \$251.6 million of variable rate debt with a weighted average interest rate of 2.3%, which \$219.9 million of the variable debt is tax-exempt variable rate demand notes. The tax-exempt variable rate demand bonds have maturity dates ranging from 2020 to 2039, and \$167.4 million are subject to interest rate caps.

The Company pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in investment grade securities held available for sale or is used by the Company to reduce balances outstanding under its line of credit.

The Company's current financing activities have been impacted by the instability and tightening in the credit markets which has led to an increase in spreads and pricing of secured and unsecured debt. Our strong balance sheet, the established relationships with our unsecured line of credit bank group, the secured line of credit with Freddie Mac and access to Fannie Mae and Freddie Mac secured debt financing have provided some insulation to us from the turmoil being experienced by many other real estate companies. The Company has benefited from borrowing from Fannie Mae and Freddie Mac, and there are no assurances that these entities will lend to the Company in the future. The Company has experienced more restrictive loan to value and debt service coverage ratio limits and an expansion in credit spreads. Continued turmoil in the capital markets could negatively impact the Company's ability to make acquisitions, develop communities, obtain new financing, and refinance existing borrowing at acceptable rates.

Derivative Activity

As of September 30, 2009 the Company had seven forward-starting interest rate swap contracts totaling a notional amount of \$375.0 million with interest rates ranging from 5.1% to 5.9% and settlements dates ranging from October 2010 to October 2011. These derivatives qualify for hedge accounting as they are expected to economically hedge the cash flows associated with future financing of debt between 2010 and 2011. The Company had eleven interest rate cap contracts totaling a notional amount of \$167.4 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for the Company's \$251.6 million of tax exempt variable rate debt. The aggregate carrying value of the forward-starting interest rate swap contracts was a net liability of \$46.3 million. The aggregate carrying value of the interest rate cap contracts was an asset of \$0.3 million and the overall fair value of the derivatives increased \$27.2 million during the nine months ended September 30, 2009 to a net liability of \$46.0 million as of September 30, 2009, and the derivative liability was recorded in cash flow hedge liabilities in the Company's condensed consolidated financial statements. The changes in the fair values of the derivatives are reflected in other comprehensive (loss) income in the Company's condensed consolidated financial statements. No hedge ineffectiveness on cash flow hedges was recognized during the quarter ended September 30, 2009 and 2008.

Development and Predevelopment Pipeline

The Company defines development activities as new properties that are being constructed, or are newly constructed and, in the case of development communities, are in a phase of lease-up and have not yet reached stabilized operations. As of September 30, 2009, the Company had three development projects comprised of 466 units for an estimated cost of \$189.3 million, of which \$85.0 million remains to be expended. The Company has approximately \$43.4 million undrawn on a construction loan to fund the Joule Broadway development project with approximately

\$43.2 million in estimated costs to complete the project.

The Company defines the predevelopment pipeline as new properties in negotiation or in the entitlement process with a high likelihood of becoming development activities. As of September 30, 2009, the Company had two development communities aggregating 332 units that were classified as predevelopment projects. The estimated total cost of the predevelopment pipeline at September 30, 2009 was \$143.0 million, of which \$90.9 million remains to be expended. The Company may also from time to time acquire land for future development or sale. The Company owned four land parcels held for future development or sale aggregating 1,020 units as of September 30, 2009. The aggregate carrying value for these four land parcels was \$66.6 million as of September 30, 2009.

25

Index

The Company expects to fund the development pipeline by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of properties, if any.

Redevelopment

The Company defines redevelopment activities as existing properties owned or recently acquired, which have been targeted for additional investment by the Company with the expectation of increased financial returns through property improvement. The Company's redevelopment strategy strives to improve the financial and physical aspects of the Company's redevelopment apartment communities and to target at least an 8 to 10 percent return on the incremental renovation investment. Many of the Company's properties are older and in excellent neighborhoods, providing lower density with large floor plans that represent attractive redevelopment opportunities. During redevelopment, apartment units may not be available for rent and, as a result, may have less than stabilized operations. As of September 30, 2009, the Company had nine redevelopment communities aggregating 2,659 apartment units with estimated redevelopment costs of \$128.1 million, of which approximately \$44.2 million remains to be expended.

Alternative Capital Sources

Fund II has eight institutional investors, and the Company, with combined partner equity contributions of \$265.9 million that were fully contributed as of 2008. The Company contributed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner. Fund II utilized leverage equal to approximately 55% upon the initial acquisition of the underlying real estate. Fund II invested in apartment communities in the Company's targeted West Coast markets and, as of September 30, 2009, owned fourteen apartment communities. The Company records revenue for its asset management, property management, development and redevelopment services when earned, and promote income when realized if Fund II exceeds certain financial return benchmarks.

Contractual Obligations and Commercial Commitments

The following table summarizes the maturation or due dates of our contractual obligations and other commitments at September 30, 2009, and the effect these obligations could have on our liquidity and cash flow in future periods:

(In thousands)	2009	2010 and 2011	2012 and 2013	Thereafter	Total
Mortgage notes payable	\$15,068	\$310,390	\$221,313	\$1,061,799	\$1,608,570
Exchangeable bonds	-	98,220	-	-	98,220
Lines of credit	-	-	150,000	-	150,000
Interest on indebtedness	23,117	158,704	119,012	256,839	557,672
Development commitments	33,100	51,900	-	-	85,000
Redevelopment commitments	10,000	34,178	-	-	44,178
	\$81,285	\$653,392	\$490,325	\$1,318,638	\$2,543,640

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements, in accordance with U.S. generally accepted accounting principles requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. We define critical accounting policies as those accounting policies that require our management to exercise their most difficult, subjective and complex judgments. Our critical accounting policies relate principally to the following key areas: (i)

consolidation under applicable accounting standards for entities that are not wholly owned; (ii) assessing the carrying values of our real estate properties and investments in and advances to joint ventures and affiliates; (iii) internal cost capitalization; and (iv) qualification as a REIT. The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

Index

The Company's critical accounting policies and estimates have not changed materially from information reported in Note 2, "Summary of Critical and Significant Accounting Policies," in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Forward Looking Statements

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, including statements regarding the Company's expectations, hopes, intentions, beliefs and strategies regarding the future. Forward looking statements include statements regarding the Company's expectations as to the total projected costs of predevelopment, development and redevelopment projects, expectations that scheduled rents will continue to decrease, expectation that the Company may continue to purchase Series G Preferred Stock and bonds, the Company's reduced risk of loss from mold cases, beliefs as to our ability to meet our cash needs during 2009 and 2010 and to provide for dividend payments in accordance with REIT requirements, as to the Quarterly Same-Property revenues in the third quarter of 2009, expectations as to the sources for funding the Company's development pipeline and statements regarding the Company's financing activities.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors including, but not limited to, that the Company will fail to achieve its business objectives, that the total projected costs of current predevelopment, development and redevelopment projects exceed expectations, that such development and redevelopment projects will not be completed, that development and redevelopment projects and acquisitions will fail to meet expectations, that estimates of future income from an acquired property may prove to be inaccurate, that future cash flows will be inadequate to meet operating requirements and/or will be insufficient to provide for dividend payments in accordance with REIT requirements, that there may be a downturn in the markets in which the Company's properties are located, that the terms of any refinancing may not be as favorable as the terms of existing indebtedness, and that mold lawsuits will be more costly than anticipated, as well as those risks, special considerations, and other factors discussed in Item 1A, "Risk Factors," in Part II "Other Information" in this current report on Form 10-Q for the quarter ended September 30, 2009 and those discussed in Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended December 31, 2008, and those risk factors and special considerations set forth in the Company's other filings with the Securities and Exchange Commission (the "SEC") which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of the date hereof, and the Company assumes no obligation to update this information.

Funds from Operations ("FFO")

FFO is a financial measure that is commonly used in the REIT industry. The Company presents funds from operations as a supplemental performance measure. FFO is not used by the Company as, nor should it be considered to be, an alternative to net earnings computed under GAAP as an indicator of the Company's operating performance or as an alternative to cash from operating activities computed under GAAP as an indicator of the Company's ability to fund its cash needs.

FFO is not meant to represent a comprehensive system of financial reporting and does not present, nor does intend it to present, a complete picture of its financial condition and operating performance. The Company believes that net earnings computed under GAAP remain the primary measure of performance and that FFO is only meaningful when it is used in conjunction with net earnings. Further, the Company believes that its consolidated financial statements, prepared in accordance with GAAP, provide the most meaningful picture of its financial condition and its operating performance.

In calculating FFO, the Company follows the definition for this measure published by the National Association of REITs (“NAREIT”), which is a REIT trade association. The Company believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii) the exclusion of gains and losses from the sale of previously depreciated properties. The Company agrees that these two NAREIT adjustments are useful to investors for the following reasons:

(a) historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations “since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves.” Consequently, NAREIT’s definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by GAAP do not reflect the underlying economic realities.

Index

(b) REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT's definition of FFO, of gains and losses from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assists in comparing those operating results between periods.

Management believes that it has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to the Company's calculation.

The following table sets forth the Company's calculation of FFO for the three and nine months ended September 30, 2009 and 2008 (in thousands except for per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Net income available to common stockholders	\$21,739	\$11,421	\$75,418	\$34,945
Adjustments:				
Depreciation and amortization	29,895	28,581	88,173	84,998
Gains not included in FFO, net of disposition costs (1)	(2,237)	(46)	(5,091)	(46)
Noncontrolling interest and co-investments (2)	1,394	2,134	6,097	6,448
Funds from operations	\$50,791	\$42,090	\$164,597	\$126,345
Funds from operations per share - diluted	\$1.69	\$1.51	\$5.61	\$4.57
Weighted average number shares outstanding diluted (3)	30,070,076	27,910,297	29,360,710	27,657,449

- (1) Internal disposition costs relate to a disposition incentive program established to pay incremental bonuses totaling \$.2 million and \$.6 million for the three and nine months ended September 30, 2009 respectively, for the sale of certain of the Company's communities that are part of the program.
- (2) Amount includes the following: (i) noncontrolling interest related to Operating Partnership units, and (ii) add back of depreciation expense from unconsolidated co-investments and less depreciation attributable to third-party ownership of consolidated co-investments.
- (3) Assumes conversion of all dilutive outstanding operating partnership interests in the Operating Partnership.

Item 3: Quantitative and Qualitative Disclosures About Market Risks

Interest Rate Hedging Activities

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. As of September 30, 2009, we had entered into seven forward-starting swap contracts to mitigate the risk of changes in the interest-related cash outflows on forecasted issuance of long-term debt. The forward-starting swaps are cash flow hedges of the variability in ten years of forecasted interest payments associated with the future financings of debt between 2010 and 2011. The Company had eleven interest rate cap contracts totaling a notional amount of \$167.4 million that qualify for hedge accounting as they effectively limit the

Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for the Company's \$251.6 million of tax exempt variable rate debt. All derivative instruments are designated as cash flow hedges, and the Company does not have any fair value hedges as of September 30, 2009.

28

Index

The following table summarizes the notional amount, carrying value, and estimated fair value of our derivative instruments used to hedge interest rates as of September 30, 2009. The notional amount represents the aggregate amount of a particular security that is currently hedged at one time, but does not represent exposure to credit, interest rates or market risks. The table also includes a sensitivity analysis to demonstrate the impact on our derivative instruments from an increase or decrease in 10-year Treasury bill interest rates by 50 basis points, as of September 30, 2009.

(Dollars in thousands)	Notional Amount	Maturity Date Range	Carrying and Estimate Fair Value	Estimated Carrying Value	
				+ 50 Basis Points	- 50 Basis Points
Cash flow hedges:					
Interest rate					
forward-starting swaps	\$ 375,000	2010-2011	\$ (46,305)	\$ (30,375)	\$ (64,834)
Interest rate caps	167,359	2009-2013	340	552	195
Total cash flow hedges	\$ 542,359	2009-2013	\$ (45,965)	\$ (29,823)	\$ (64,639)

Interest Rate Sensitive Liabilities

The Company is exposed to interest rate changes primarily as a result of its lines of credit and long-term tax exempt variable rate debt. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows. Management has estimated that the fair value of the Company's \$1.46 billion of fixed debt at September 30, 2009 is approximately \$1.48 billion and the fair value of the Company's \$251.6 million of variable rate debt at September 30, 2009 is \$228.5 million based on the terms of existing mortgage notes payable and variable rate demand notes compared to those available in the marketplace.

For the Years Ended	2009	2010(1)	2011(2)	2012	2013	Thereafter	Total	Fair value
(In thousands)								
Fixed rate debt	\$-	243,207	148,804	31,421	189,892	841,877	\$1,455,201	\$1,483,000
Average interest rate	-	7.3 %	6.6 %	5.4 %	5.8 %	5.7 %		
Variable rate debt	\$15,068	-	16,599	-	-	219,922 (3)	\$251,589	\$228,500
Average interest	2.0 %	-	4.0 %	-	-	2.5 %		

(1) \$150 million covered by three forward-starting swaps with fixed rates ranging from 5.099% to 5.824%, with a settlement date on or before

January 1, 2011.

(2) \$125 million covered by forward-starting swaps with fixed rates ranging from 5.655% to 5.8795%, with a settlement date on or before February 1, 2011. \$50 million covered by a forward-starting swap with a fixed rate of 5.535%, with a settlement date on or before July, 1 2011. \$50 million covered by a forward-starting swap with a fixed rate of 5.343%., with a settlement date on or before October 1, 2011. The Company intends to encumber certain unencumbered assets during 2011 in conjunction with the settlement of these forward-starting swaps.

(3) \$167.4 million subject to interest rate caps.

The table incorporates only those exposures that exist as of September 30, 2009; it does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations and hedging strategies, would depend on the exposures that arise prior to settlement.

Item 4: Controls and Procedures

As of September 30, 2009, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting management to material information relating to the Company that is required to be included in our periodic filings with the Securities and Exchange Commission. There were no changes in the Company's internal control over financial reporting, that occurred during the quarter ended September 30, 2009, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Index

Part II -- Other Information

Item 1: Legal Proceedings

Recently there has been an increasing number of lawsuits against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. The Company has been sued for mold related matters and has settled some, but not all, of such matters. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. The Company has, however, purchased pollution liability insurance, which includes some coverage for mold. The Company has adopted policies for promptly addressing and resolving reports of mold when it is detected, and to minimize any impact mold might have on residents of the property. The Company believes its mold policies and proactive response to address any known existence, reduces its risk of loss from these cases. There can be no assurances that the Company has identified and responded to all mold occurrences, but the Company promptly addresses all known reports of mold. Liabilities resulting from such mold related matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows. As of September 30, 2009, no potential liabilities for mold and other environmental liabilities are quantifiable and an estimate of possible loss cannot be made.

The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the Company's communities. Insured risks for comprehensive liability covers claims in excess of \$25,000 per incident, and property insurance covers losses in excess of a \$5.0 million deductible per incident. There are, however, certain types of extraordinary losses, such as, for example, losses for terrorism and earthquake, for which the Company does not have insurance. Substantially all of the Properties are located in areas that are subject to earthquakes.

The Company is subject to various other lawsuits in the normal course of its business operations. Such lawsuits could, but are not expected to, have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item IA: Risk Factors

In evaluating all forward-looking statements, you should specifically consider various factors that may cause actual results to vary from those contained in the forward-looking statements. Many factors affect the Company's actual financial performance and may cause the Company's future results to be different from past performance or trends. These factors include those set forth under the caption "Risk Factors" in Item IA of the Company's Annual Report on Form 10-K for the year ended December 31, 2008 as filed with the SEC and available at www.sec.gov, and the following, which supplements the risk factors listed under the caption "Risk Factors" in the Company's Annual Report on Form 10-K:

Development and Redevelopment Activities

The Company pursues development and redevelopment projects of apartment communities from time to time. These investments generally require various government and other approvals, the receipt of which cannot be assured. The Company's development and redevelopment activities generally entail certain risks, including the following:

- funds may be expended and management's time devoted to projects that may not be completed;
- construction costs of a project may exceed original estimates possibly making the project economically unfeasible;
- projects may be delayed due to, among other things, adverse weather conditions;
- occupancy rates and rents at a completed project may be less than anticipated; and

- expenses at a completed development project may be higher than anticipated.

These risks may reduce the funds available for distribution to the Company's stockholders. Further, the development and redevelopment of properties is also subject to the general risks associated with real estate investments.

Interest Rate Fluctuations

The Company monitors changes in interest rates and believes that it is well positioned from both a liquidity and interest rate risk perspective. The immediate effect of significant and rapid interest rate increases would result in higher interest expense on the Company's variable interest rate debt. The effect of prolonged interest rate increases could negatively impact the Company's ability to make acquisitions and develop properties and the Company's ability to refinance existing borrowings at acceptable rates and negatively impact the current dividend rate.

Index

Credit Markets

The current instability and tightening in the credit markets has led to an increase in spreads and pricing of secured and unsecured debt, and the effect of prolonged tightening in the credit markets could negatively impact the Company's ability to make acquisitions, develop properties and refinance existing borrowings at acceptable rates or at all.

Item 6: Exhibits

A. Exhibits

12.1 Ratio of Earnings to Fixed Charges

31.1 Certification of Keith R. Guericke, Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
