PART I - FINANCIAL INFORMATION

Item 1. Financial Statements.

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and in accordance with the instructions for Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, the financial statements contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations, and cash flows of the Company for the interim periods presented.

The results for the three months ended March 31, 2006 and for the three months ended March 31, 2005 are not necessarily indicative of the results of operations from inception (July 15, 2004) to March 31, 2006. These financial statements and related footnotes should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-SB filed with the Securities and Exchange Commission.

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

Note 1 - Basis of Presentation

The unaudited consolidated financial statements of Trulite, Inc. have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In our opinion, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation, have been included. As used herein, the terms "Trulite," "we," "our" and "us" refer to Trulite, Inc.

For further information, refer to the consolidated financial statements and footnotes included in our annual report on Form 10-KSB for the year ended December 31, 2005. Interim results are not necessarily indicative of results to be expected for the full fiscal year ending December 31, 2006. Certain reclassifications have been made to conform prior period amounts to the current period presentation. These reclassifications had no effect on net loss or stockholders' equity.

The Company from inception (July 15, 2004) through March 31, 2006 did not have significant revenues. The Company has no significant operating history as of March 31, 2006. The accompanying financial statements have been prepared assuming the Company will continue as a going concern. From inception (July 14, 2004) through March 31, 2006, management has raised additional equity financing to fund operations and to provide additional working capital. However, there is no assurance that such financing will be in amounts sufficient to meet the Company's needs.

All references to issued and outstanding shares, weighted average shares, and per share amounts in the accompanying unaudited consolidated financial statements have been retroactively adjusted to reflect our five-for-one stock split that occurred on April 2005.

New Accounting Pronouncements: In February 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 155, *Accounting for Certain Hybrid Financial Instruments*. SFAS No. 155 provides entities with relief from having to separately determine the fair value of an embedded derivative that would otherwise be required to be bifurcated from its host contract in accordance with SFAS No. 133. SFAS No. 155 allows an entity to make an irrevocable election to measure such a hybrid financial instrument at fair value in its entirety, with changes in fair value recognized in earnings. SFAS No. 155 is effective for all financial instruments acquired, issued or subject to a remeasurement event occurring after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company believes that the adoption of SFAS No. 155 will not have a material impact on its consolidated financial statements.

In March 2006, the FASB issued SFAS No. 156 *Accounting for Servicing of Financial Assets an Amendment to FASB Statement No. 140*. Once effective, SFAS No. 156 will require entities to recognize a servicing asset or liability each time they undertake an obligation to service a financial asset by entering into a servicing contract in certain situations. This statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value and permits a choice of either the amortization or fair value measurement method for subsequent measurements.

The effective date of this statement is for annual periods beginning after September 15, 2006, with earlier adoption permitted as the beginning of an entity's fiscal year provided the entity has not issued any financial statements for that

year. The Company does not believe that this pronouncement will have a material impact on its financial statements.

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

Note 2 - Stock-Based Compensation Plan

Stock-Based Compensation Plan: The Company has granted options to purchase common stock to employees, consultants and outside directors under the Trulite, Inc. Stock Option Plan (the "Plan"). Prior to January 1, 2006, the Company accounted for grants of options using the intrinsic value method under the recognition and measurement principles of Accounting Principles Board Opinion ("APB") No. 25, *Accounting for Stock Issued to Employees* and related interpretations, and applied SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation - Transition and Disclosure*, for disclosure purposes only. Under APB No. 25, stock-based compensation cost related to stock options was not recognized in net income since the options granted under those plans had exercise prices greater than or equal to the market value of the underlying stock on the date of grant.

Effective January 1, 2006, the Company adopted SFAS No. 123 (revised 2004), *Share-Based Payment*, which revises SFAS No. 123 and supersedes APB No. 25. SFAS No. 123R requires that all share-based payments to employees be recognized in the financial statements based on their fair values at the date of grant. The calculated fair value is recognized as expense over the requisite service period, net of estimated forfeitures, using the straight-line method under SFAS No. 123R. The statement was adopted using the modified prospective method of application which requires compensation expense to be recognized in the financial statements for all unvested stock options beginning in the quarter of adoption. No adjustments to prior periods have been made as a result of adopting SFAS No. 123R. Under this transition method, compensation expense for share-based awards granted prior to January 1, 2006, but not yet vested as of January 1, 2006, and not previously amortized through the pro forma disclosures required by SFAS No. 123, will be recognized in the Company's financial statements over their remaining service period. The cost was based on the grant-date fair value estimated in accordance with the original provisions of SFAS No. 123. As required by SFAS No. 123R, compensation expense recognized in future periods for share-based compensation granted prior to adoption of the standard will be adjusted for the effects of estimated forfeitures.

During the first quarter of 2006, the Company issued options to purchase 5,000 shares of common stock under the Plan (see Note H). These options have an exercise price equal to the fair value estimate of \$0.88 on the date of grant, varying vesting over four years, and a 7 year contractual life. These options are being accounted for in accordance with the guidance in SFAS No. 123R.

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

The Company estimates the fair value of stock options under SFAS No. 123R at the date of grant using a Black-Scholes valuation model, which is consistent with the valuation technique previously utilized to value options for the footnote disclosures required under SFAS No. 123. The following table provides the weighted average assumptions used in the Black-Scholes option valuation model to value options granted in the first quarter of 2006. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The expected term (estimated period of time outstanding) of options granted in 2006 is based on the "simplified" method of estimating expected term for "plain vanilla" options allowed by SEC Staff Accounting Bulletin No. 107, and varies based on the vesting period and contractual term of the option. Expected volatility for options granted in 2006 is based on an evaluation of similar Companies' trading activity. The Company has not issued dividends on its common stock.

	Three Months Ended March 31, 2006
Risk-free rate	5.4%
Expected life (in years)	4
Expected volatility	-
Weighted average volatility	-
Expected dividends	-

As no stock options were issued during the three months ended March 31, 2005, the proforma information required under FAS 123 is not considered applicable.

NOTE 3 - Property, Plant and Equipment

Property, Plant and Equipment consists of the following:

	March 31, 2006	December 31, 2005
Manufacturing equipment	\$ 9,491	\$ 9,491
Office equipment	27,360	27,360
Test equipment	4,150	4,150
Total fixed assets	41,001	41,001

Credit Card	\$ 5,645	\$ 6,217
Accrued Invoices	67,807	18,313
Accrued Payroll	56,851	20,290
Accrued liabilities	\$ 130,303	\$ 44,821

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

NOTE 5 - Income taxes

Since inception, the Company has incurred net operating losses and, accordingly, no provision for current income taxes has been recorded in these financial statements. In addition, no benefit for income taxes has been recorded in respect of the net deferred tax assets, which principally comprises the benefit of the net operating loss carryforward of approximately \$708,000 and \$579,000 as of March 31, 2006 and December 31, 2005, respectively, as management believes it is more likely than not that the deferred tax assets will not be fully realizable. Accordingly, the Company has provided for a full valuation allowance against its net deferred tax assets at March 31, 2006 and December 31, 2005. During the quarter ended March 31, 2006, the valuation allowance for net deferred tax assets increased by approximately \$129,000. For the year ended December 31, 2005, the valuation allowance for net deferred tax assets increased by approximately \$280,000.

As of March 31, 2006, the Company has a net operating loss carryforward of approximately \$2,083,000 which will expire in the years 2024 and 2026 if not utilized earlier.

NOTE 6 - Research and Development Costs

Expenditures for research activities relating to product development and improvement are charged to expense as incurred. Such expenditures amounted to \$148,546 and \$74,915 for the quarter ended March 31, 2006 and March 31, 2005, respectively.

NOTE 7 - Series A Preferred Stock

The 8% Cumulative Convertible Series A Preferred Stock ("Series A Preferred Stock") has a liquidation value of \$1.00 per share plus dividends whether or not earned or declared from the issuance date thereof at the annual rate of eight percent (8%) (the "Preferred Dividends") of \$1.00 per share (the "Original Issue Price"), payable at the option of the Company in cash or in shares of Series A Preferred Stock. In addition, the Preferred Stock has preferential treatment in liquidation to all Common Stock and any other stock of the Company ranking junior to the Series A Preferred Stock. Accretion of cumulative dividends outstanding on these shares was \$29,095 and \$9,030 during the quarter ended March 31, 2006 and March 31, 2005, respectively.

Each share of Series A Preferred Stock is convertible at any time into common shares of the Company by dividing the original issue price by a conversion price as defined. 520,000 shares of Series A Preferred Stock are convertible into common shares on a five for one basis due to the subsequent common stock split (see Note G).

The Series A Preferred Stock is redeemable at the option of the majority holders in cash at \$1.00 per share plus all accrued and unpaid Preferred Dividends on the fifth anniversary of the date of initial issuance or other events relating to change in 25% or more of the outstanding voting stock of the Company or a merger or consolidation as defined.

Each holder of Series A Preferred Stock is entitled to the number of votes equal to the number of whole shares of Common Stock into which the shares of Series A Preferred Stock is convertible.

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

NOTE 8 - Related Party Transactions

During the quarter ended March 31, 2006, all sales were to an entity affiliated to Contango Capital Partners, LP (a preferred stockholder of the Company). Accounts receivable from this affiliated entity amounted to \$8,333 as of March 31, 2006.

During the quarter ended March 31, 2006, the Company received advances of \$53,811 from an affiliated entity.

As consideration for certain administrative services performed, valued at \$65,020, the Company issued 65,020 shares of its common stock to Contango Capital Partners, LP during quarter ended March 31, 2005 (323,350 shares of common stock, post stock split) (see Note G). The Company based the value of these common shares upon the hours spent providing such services at hourly rates commonly paid for these types of services.

Note 9 - Common Stock Split

In April 2005, the Company's Board of Directors authorized a five-for-one split of the Company's common stock. In conjunction with the stock split, the Company amended its certificate of incorporation to increase its authorized common stock to 20,000,000 shares and retained the par value of \$0.0001 per share. Accordingly, all references to the number of common shares authorized and common shares issued and outstanding in the accompanying financial statements have been adjusted to reflect the effects of the common stock split on a retroactive basis.

Note 10 - Common Stock Options

In March 2005, the Company established the Trulite, Inc. Stock Option Plan (the "Plan"). The Plan is administered by the Board of Directors (the "Board") of the Company or a committee of the Board and provides for the grant of 1,721,665 shares of the Company's common stock to eligible employees, directors, consultants and advisors as non-qualified stock options or incentive stock options. The Plan was amended in March 2006 and increased the number of shares allowed for grant as options by 1,389,140 shares. The revised number of shares as of March 31, 2006 in the Plan is 3,110,805.

Option exercise price, number of options, duration and time of exercise are as determined by the Board except that incentive stock options are to be granted within ten years from date of adoption of the Plan and incentive stock options must be exercised no later than seven years from date of grant. For the three months ended March 31, 2006, the Company granted incentive stock options to certain employees and officers for 5,000 shares of its common stock at an exercise price of \$0.88 per share, as adjusted to reflect the five-for-one split of the Company's common stock. These options vest over a four year period from date of grant and in accordance with the terms of the Plan expire in seven years from date of grant. The compensation expense for the 5,000 optioned shares for the quarter ended March 31, 2006 is not considered significant.

No options were forfeited during the quarter ended March 31, 2006. As of March 31, 2006, the Company had options outstanding on 451,692 shares, none of which were exercisable, at an average remaining contractual life of 6.49 years at a weighted average exercise price of \$0.88 per share.

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

NOTE 11 - Commitments

Leases

Rent expense during the three months ended March 31, 2006 and 2005, was \$2,915 (unaudited) and \$1,275, respectively. Rent expense is included in general and administrative expenses in the accompanying statements of operations.

As of March 31, 2006, future rental commitment for a lease expiring in May 2006 was approximately \$2,700.

Other

As of March 31, 2006, the Company had employment agreements with certain employees that expire through 2007, under which the total obligations were approximately \$279,000.

As of March 31, 2006, the Company had entered into a consulting agreement for investment banking services, under which the Company is required to issue 250,000 shares of restricted common stock and 250,000 five-year warrants to purchase the Company's common stock at \$3 per share. The term of the agreement has not been determined but is estimated to be two years, extending through March 2008.

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
 NOTES TO FINANCIAL STATEMENTS
 FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
 (Unaudited)

NOTE 12 - Net Loss Per Share

	Three Months Ended,	
	March 31, 2006	March 31, 2005
Numerator:		
Net loss per statements of operations	\$ (379,234)	\$ (177,346)
Increase net loss by:		
Accretion of preferred dividends	(29,095)	(9,030)
Net loss applicable to common stockholders	\$ (408,329)	\$ (186,376)
Denominator:		
Denominator for basic earnings per share - weighted average shares outstanding	3,631,500	3,530,280
Effect of potentially dilutive common shares:		
Convertible preferred stock	-	-
Denominator for diluted earnings per share		
Weighted average shares outstanding	3,631,500	3,530,280
Basic loss per share	\$ (0.11)	\$ (0.05)
Diluted loss per share	\$ (0.11)	\$ (0.05)

Basic and diluted net loss per share for the three months ended March 31, 2006, and March 31, 2005 is the same since the effect of all common stock equivalents is antidilutive to the Company's net loss in accordance with Statement of Financial Accounting Standard 128, *Earnings per Share*.

The following securities were not included in the computation of diluted loss per share as its effect would have been anti-dilutive:

	Three Months Ended,	
	March 31, 2006	March 31, 2005
8% Cumulative Convertible, Series A Preferred Stock	3,435,725	3,435,725

TRULITE, INC. (A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTERLY PERIODS ENDED MARCH 31, 2006 AND 2005
(Unaudited)

Note 13 - Subsequent Events

In April 2006, options totaling 1,175,339 (inclusive of the options for 699,303 share mentioned above) were granted by the Company.

In April 2006, the Company declared a dividend of \$129,973 on the 8% Cumulative Convertible Series A Preferred Stock. This dividend is payable in the Company's common stock.

In April 2006, the Company entered into a consulting agreement for investment banking services. Under the terms of this agreement, in exchange for investment banking services, the Company is required to issue 50,000 shares of its restricted common stock and 150,000 five year warrants to purchase the Company's common stock at an exercise price of \$3 per share.

The Company raised additional equity of \$1,000,000 during April 2006 through the issuance of common stock for cash consideration of \$1.00 per share. These issuances of common stock also included one year warrants to purchase an additional 1,000,000 shares of common stock of the Company at an exercise price of \$1.50 per common share that shall expire on April 13, 2007.

In May 2006, the Company granted 100,000 options at an exercise price of \$1.00 per share to certain officers and directors. These options vest over a four year period that expires May 2013.

In May 2006, all of the preferred stockholders agreed to convert their shares of Series A Preferred Stock to Common shares of the Company.

Item 2. Controls and Procedures

Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules, regulations and related forms, and that such information is accumulated and communicated to the our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Within the 90 days prior to the filing date of this quarterly report, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

Changes in internal controls.

There have been no significant changes in our internal controls or in other factors that could significantly affect these controls and procedures subsequent to the date we completed our evaluation. Therefore, no corrective actions were taken.

Item 3. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements and notes thereto appearing elsewhere in this report.

Cautionary Statement Regarding Forward-looking Information

This Form 10-QSB for the quarter ended March 31, 2006 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including statements regarding, among other items, our growth strategies, anticipated trends in our business and our future results of operation, market conditions in the research and development industry and the impact of governmental regulation. These forward-looking statements are based largely on our expectations and are subject to a number of risks and uncertainties, many of which are beyond our control. Actual results could differ materially from these forward-looking statements as a result of, among other things:

- Our ability to raise capital;
- Our ability to sell our product;
- Our ability to retain and attract experienced and knowledgeable personnel;
and
- Our ability to compete in the alternate energy industry.

In addition, the words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” and similar expressions they relate to us, our business or our management, are intended to identify forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Form 10-QSB. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this Form 10-QSB may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

Business Overview

Trulite, Inc. (“Trulite”, “we”, “us”, “our”, the “Company” or the “Registrant”) was incorporated in Delaware on July 15, 2002. Later that month, Trulite purchased all membership interests of Trulite Technology, LC (“Trulite Technology”), a Utah limited liability company, and merged with Trulite Technology, whereby Trulite survived the merger. The Company is engaged in researching, developing, manufacturing and commercializing hydrogen generation and storage technology and integrated fuel cell products.

In January, 2002, members of Trulite Technology submitted a proposal in response to a Small Business Innovation Research (“SBIR”) solicitation from the Defense Threat Reduction Agency (“DTRA”) to research and develop a high energy density, hydrogen source to ultimately power nuclear, chemical and biological detection equipment in the field. The intended applications of the hydrogen fuel source were for use by the military as a source of portable power.

Trulite Technology, LC was incorporated in May 20, 2002, upon receipt of notification from the DTRA that Trulite Technology would receive a 6 month, \$100,000, Phase 1 SBIR award to develop a hydrogen fuel source (that is, a technology for producing hydrogen gas) that could convert hydrogen gas into electricity. All patent, software and other technical rights in any products are retained by Trulite.

Work on the project commenced in August 2002, and in January, 2003, Trulite Technology built and tested its first, dry, chemical hydride, hydrogen fuel source. In January, 2003 Trulite Technology submitted a proposal to the United States Air Force (“USAF”) for a very high energy density hydrogen source for larger fuel cell systems. Trulite Technology received notification from the USAF in May, 2003 that it had been selected for another six month, \$100,000 Phase 1 SBIR award. All patent, software and other technical rights in any products are retained by Trulite.

In January, 2004, Trulite Technology received an order from Jadoo Power Systems for two prototype chemical hydride cartridges. These were shipped in March, 2004. Trulite Technology also received an order from the Naval Research Laboratory for four larger cartridges. These were shipped in July, 2004. In October of 2003, Trulite had been introduced to John Berger of Contango Capital Partners through Jadoo Power Systems. Contango Capital Partners become interested in Trulite Technology's hydrogen source technology and Trulite Technology concluded its first round of private funding with Contango Capital Partners in July, 2004. Later in July, 2004, Trulite Technology merged with, and transferred all of its interests to, the Company, a newly-formed Delaware corporation.

Trulite is an emerging technology company engaged in the development and production of portable and stationary products that produce hydrogen for the generation of electricity for the commercial and consumer markets. The Company has developed, tested, sold and delivered its first hydrogen storage product - the HydroCell, an environmentally-friendly alternative to battery power. The Company has submitted two patent applications for the HydroCell.

In August, 2005, the Company demonstrated its first, complete, commercially packaged, integrated, hydrogen fuel cell power system. In September 2005, the Company introduced its Kitty Hawk system. The product consists of three technologies: one that generates hydrogen gas from powered chemical compounds (the HydroCell); one that transforms the hydrogen gas into electricity (the fuel cell stack) and, one that controls the flow of hydrogen for the actual generation of electricity (the control technology). The Company believes the Kitty Hawk is the least expensive energy source on the market capable for producing 25 Watts of power for several hours (as an example, 25 Watts of power is sufficient to power a DVD player for several hours while concurrently charging a cell phone).

In November 2005, the Company received its first orders for twenty-five Kitty Hawk systems. The units were manufactured in its Utah product development facility and were delivered to a selected target audience in February and March, 2006. Also in November, 2005, the Company received a \$25,000 contract from Protonex to develop three high energy density prototype HydroCells.

The Company is currently developing an enhanced version of the Kitty Hawk which is expected to be tested in the field with selected commercial customers by July, 2006. Upon completion of field testing of the Kitty Hawk, we anticipate units will be available in the fourth quarter, 2006 for sale and delivery into selected commercial and consumer markets. Trulite is currently developing a more robust and powerful Kitty Hawk system capable of generating up to four times the power output of the current Kitty Hawk unit. It is anticipated this unit will be available in the first quarter, 2007 on a limited basis for sale in selected markets.

We are still at an early stage research and development company in the process of developing a commercially viable product. Trulite is currently developing the next generation of the Kitty Hawk (the KH-3X), which is expected to have a number of enhancements: enhanced physical design; noise reduction; faster start up cycle (several seconds versus 2-3 minutes); fuel level gauge to indicate the level of energy remaining in the cartridge; attaching a carrying handle; status display screen indicating the power output of the unit; and increased power output to 35-40 watts of power. Each of these enhancements will require several steps: designing and building the enhancement; testing the enhancement to ensure it performs as specified; incorporating and testing the enhancement in the Kitty Hawk unit; and, finally testing the Kitty Hawk unit in a customer environment. If the Kitty Hawk 3X unit successfully completes field testing, it can be commercially sold into our selected markets.

Trulite is also developing the Kitty Hawk 4 (KH 4). The product will be designed to have a power output four times greater than the Kitty Hawk 3X. Product enhancements to the Kitty Hawk 4 will include: reducing the overhead required to run the Kitty Hawk 4 power system; increased ruggedness; and enhanced ergonomics and physical design. Each of these enhancements will also require going through the proving process set forth above prior to commercial availability.

The primary drivers for future earnings growth will be developing, manufacturing and selling a commercially viable product. Trulite believes its integrated Kitty Hawk units powered by Trulite's HydroCell technology provides consumers with a superior alternative energy product as compared to existing products powered by lithium-ion batteries. As compared to conventional battery technologies, the HydroCell does not lose the ability to generate electricity even when put in storage for long periods of time (up to three years). By comparison, conventional lithium ion batteries will lose their ability to generate energy if they are not used before their expiration date. Trulite believes it has the ability to bring this power to numerous kinds of portable electronic devices through its Kitty Hawk power system. The primary markets we currently seek to enter for Trulite's products are the pipeline and well head market for remote sensing and monitoring of operating conditions in oil and gas fields, and the high end recreational camping market. The opportunity in the pipeline market resulted from estimating the number of oil and gas wells in the United States (the data was obtained from available public information from companies such as Shell, ChevronTexaco and British Petroleum), estimating the existing operating and maintenance costs to service and repair these wells, assuming a 20% adoption rate over the next five years for companies implementing a Trulite Kitty Hawk solution and calculating the cost differential between existing operating costs and Trulite's Kitty Hawk solution. Trulite intends to seek out oil field service companies, trying to identify the most viable operators and influence both large and small energy companies, as well as other providers to the oil and gas industry, to adopt the Kitty Hawk integrated power system as an alternative power source. As currently envisioned, the manufacture and distribution of the Kitty Hawk power system to alliance partners will occur from the Company's manufacturing facilities, most likely located in Houston, Texas.

Over the next two years, we expect to produce products for customers outside of the oil and gas market. The opportunity in the recreational camping market was based upon analyzing the sales of representative companies in this sector for devices that are comparable to the Kitty Hawk. The Company plans to distribute its consumer Kitty Hawk products through three different channels: (1) direct to consumer sales (expected to be on a limited basis); (2) bundling; and (3) retail stores. The Company also plans on using the Internet, through sites such as eBay, Amazon, Overstock and Yahoo, to sell directly to consumers on a limited basis in order to test market its products, as well as establish consumer price points. The Company is also targeting original equipment manufacturers ("OEM") in an attempt to bundle its products with those of the OEM. Advantages to partnering with an OEM include leveraging the OEM's customer base and cross-selling Trulite's products with existing OEM products. Lastly, the Company intends to attempt to market the Kitty Hawk to major high-end retail stores, such as REI, Northface, Patagonia and Brookstone in an attempt to attract the high end camping market.

The principal challenges we face include:

- We expect to have a need for additional capital as we continue to execute our business plan.
 - Technological changes could force us to alter our business plan.
- We must demonstrate value and reliability in order to gain consumer acceptance.
 - We have limited experience manufacturing and selling fuel cell systems.
- A large scale consumer market for our products may never develop or take longer to develop than we anticipate.
 - Attract and maintain key personnel

Results of Operations

The following table summarizes our results of operations for the three months ended March 31, 2006 and 2005.

TRULITE, INC.
(A DEVELOPMENT STAGE COMPANY)
STATEMENT OF OPERATIONS
Three months ended March 31, 2005,
Three months ended March 31, 2006

	<i>(Unaudited)</i> March 31, 2006	<i>(Unaudited)</i> March 31, 2005
SALES	\$ 8,333	-

Diluted		3,631,500		3,350,280

Three months ended March 31, 2006 compared to the three months ended March 31, 2005

Revenues

Total revenues were \$8,333 for the three month period ending March 31, 2006 compared to no revenue for the corresponding period ended March 31, 2005. The increase was due to a research contract that the company obtained in 2005. The contract ended on January 31, 2006.

Gross margin

Gross margins were \$2,421 for the three month period ending March 31, 2006 compared to no gross margin for the corresponding period ended March 31, 2005. The increase was due to a research contract that the company obtained in 2005.

Operating expenses

Operating expenses from operations was \$382,067 for the three months ended March 31, 2006 as compared to \$177,346 for the same period in 2005. This is an overall increase of 46%. Operating expenses consisted of research and development, depreciation and general and administrative expense. Research and development increased to \$148,546 for the three months ended March 31, 2006 as compared to \$74,915 for the three months ended March 31, 2005 which is a 50% increase. The increase was due to increase research and development activities. Depreciation increased from 2,720 for the three month period ending March 31, 2006 as compared to \$891 the same three month in 2005. The increase was due to additional equipment purchased for research and development. For the three months ended March 31, 2006, general and administrative expenses increased to \$230,801 from \$101,540 for the three months ended March 31, 2005. The \$129,261 or 127% increase was due to the purchase of Directors and Officers insurance, the hiring of a chief financial officer and the increased legal and accounting fees associated with a public offering.

Loss from Operations

Operating losses from operations of \$379,646 for the three months ended March 31, 2006 as compared to operating losses of \$177,346 for the three months ended March 31, 2005. This increase of 114% was due mainly to the increases in operating expenses.

Other Income and Expense

Other income and expenses for the three months ended March 31, 2006 totaled \$412, as compared to \$0 for the three months ended March 31, 2005. This increase was due to the Company's investing part of its June 2005 proceeds of a private placement of its preferred stock in a savings account at a local bank.

Net Loss

Net loss for the three months ended March 31, 2006 was \$379,234, as compared to \$177,346 for the three months ended March 31, 2005 due increased activity in research and development purchase of an insurance policy, hiring of a chief financial officer and the costs of a public offering.

To date, we have financed operations through the private placement of equity securities. In June 2005, we raised \$750,000 through a private placement of 934,725 shares of preferred stock. In April 2006, we raised \$1,000,000 through the sale of 1,000,000 shares of Common Stock and an equal amount of warrants. The warrants have a strike price of \$1.50 a share and expire in April 2007. We have not employed any significant leverage of debt. However, there can be no assurance we will not undertake debt obligations in the future.

Historical Sources of Cash

During the period from July 15, 2004 (inception) though December 31, 2004, the Company financed its operations principally through the sale of an aggregate of \$300,000 worth of preferred stock, with \$100,000 of such preferred stock sold in July, 2004 and \$200,000 sold in November, 2004. The Company, for the year ended December 31, 2005, financed its operations through the sale of an aggregate of \$950,000 of preferred stock, with \$200,000 of such stock sold in February 2005 and the balance of \$750,000 in June 2005, along with sales of three units. The Company conducted a private placement in April 2006 and raised \$1,000,000 through the sale of 1,000,000 shares of Common Stock and 1,000,000 warrants.

Cash position and sources and uses of cash

Our cash position at March 31, 2006 was \$36,013, as compared to \$147,288 at March 31, 2005.

Our operating activities for the three months ended March 31, 2006 used cash in the amount of \$199,969, as compared to the three months ended March 31, 2005 of \$172,806. Cash used in operating activities for the three month period ending March 31, 2006 and March 31, 2005 reflected a net loss of \$379,234 and \$177,346, respectively. The Company had \$0 and \$6,371 of cash out flows used in investing activities from the purchase of property and equipment for the three months ended March 31, 2006 and 2005 respectively. The Company had cash flows from financing activities of \$0 and \$200,000 from issuances of preferred stock as set forth herein during the three months ended March 31, 2006 and 2005, respectively.

Capital Resources Going Forward

The Company had \$36,013 and \$147,288 in cash and cash equivalents at March 31, 2006 and March 31, 2005, respectively. Our intended plan of operations for the twelve month period beginning January 1, 2006 is to manufacture, sell and distribute our product and continue to develop all of our products. In the past, the Company primarily used funds derived from the private placement of its securities to fund its operations.

Cash on hand as of March 31, 2006, and cash generated by operations in conjunction with our working capital, will not be sufficient to continue our business for the next twelve months. We continually review our overall capital and funding needs, taking into account current business needs, as well as the Company's future goals and requirements. Based on our business strategy, we believe we will need to increase our net capital and that the best way to do this is through the sale of additional securities.

Should our costs and expenses prove to be greater than we currently anticipate, or should we change our current business plan in a manner that will increase or accelerate our anticipated costs and expenses, the depletion of our working capital would be accelerated. To the extent it becomes necessary to raise additional cash in the future as our cash on hand and working capital resources are depleted, we intend to raise additional capital through the sale of additional equity securities, public or private sale of debt or equity securities, debt financing or short term loans, or a combination of these options. We may also seek to satisfy indebtedness through the private issuance of debt or other securities. We currently do not have a binding commitment for, or readily available sources of, additional financing. We cannot give any assurance that we will be able to secure the additional cash or working capital that we may require to continue our operations under such circumstances or that it will be on terms that would not hinder our ability to execute our business strategy.

Our anticipated costs are estimates based upon our current business plan. Our actual costs could vary materially from these estimates. Further, we could change our current business plans, which may also result in a change in our anticipated costs.

Off Balance Sheet Arrangements

There are no guarantees, commitments, lease and debt agreements or other agreements that would trigger adverse changes in our credit rating, earnings, or cash flows, including requirements to perform under stand by agreements.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America.

On an ongoing basis, we evaluate our estimates and impairment of long lived assets. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates, including those for the above described items are reasonable.

Revenue Recognition

Although at this stage in our development we have had no significant revenues we consider revenue recognition a critical accounting policy as it affects timing of earnings recognition. We recognize revenues on delivery and to date our operations have not involved any uncertainty of accounting treatment, subjective judgment or estimates over revenue recognition.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings. To the best knowledge of the officers and directors, the Company is not a party to any legal proceeding or litigation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On April 13, 2006, pursuant to Rule 504 of Regulation D promulgated under the Securities Act, Trulite issued 1,000,000 shares of Common Stock and 1,000,000 one-year warrants to purchase Common Stock, at an exercise price of \$1.50 per share, to 12 accredited investors for an aggregate purchase price of \$1,000,000.

In addition, in April 2006, the Company issued 300,000 shares of Common Stock and warrants to purchase 400,000 shares of Common Stock at an exercise price of \$3.00 per share to Jelco and Boru, pursuant to each of their consulting agreements.

All purchasers of the Company's securities represented in writing that they were accredited investors and acquired the securities for their own accounts. A legend was placed on the stock certificates stating that the securities have not been registered under the Securities Act and cannot be sold or otherwise transferred without an effective registration or an exemption therefrom.

Item 3. Defaults Upon Senior Securities. None.

Item 4. Submission of Matters to a Vote of Security Holders. None.

Item 5. Other Information. None.

Item 6. Exhibits.

(a) Exhibits required by Item 601 of Regulation S-B.

Exhibit No.	Description
*3.1	Certificate of Incorporation, as filed with the Delaware Secretary of State on July 15, 2004.
*3.2	By-Laws
