Notes to Condensed Consolidated Financial Statements

(in thousands, except per share amounts)

September 1, 2007

(unaudited)

1. Presentation of Interim Information

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation have been included. Operating results for the thirteen weeks ended September 1, 2007 are not necessarily indicative of the results that may be expected for the year ending May 31, 2008.

The balance sheet at June 2, 2007 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in Cal-Maine Foods, Inc.'s annual report on Form 10-K for the fiscal year ended June 2, 2007.

Hillandale Acquisition

On July 28, 2005, we entered into an Agreement to Form a Limited Liability Company with Hillandale Farms, Inc. and Hillandale Farms of Florida, Inc. (together, "Hillandale"), and the Hillandale shareholders (the "Agreement"). Under the terms of the Agreement, we acquired 51% of the Units of Membership in Hillandale, LLC for cash of approximately \$27,000 on October 12, 2005, with the remaining 49% of the Units of Membership to be acquired in essentially equal annual installments over a four-year period. The purchase price of the Units equals their book value at the time of purchase as calculated under the terms of the Agreement.

In August 2006, in accordance with the Agreement, we purchased, for \$6,100, an additional 13% of the Units of Hillandale, LLC based on their book value as of July 29, 2006. In August 2007, we purchased, for \$6,800, an additional 12% of the Units of Hillandale, LLC based on their book value as of July 28, 2007. Our ownership of Hillandale, LLC currently is 76%. Our obligation to acquire the remaining 24% of Hillandale, LLC is recorded at its present value of \$12,600 as of September 1, 2007, of which \$6,800 is included in current liabilities and \$5,800 is included in other non-current liabilities in the accompanying condensed consolidated balance sheet. We will purchase an additional 12% of Hillandale LLC based on the book value of the Membership Units as of August 2, 2008.

Stock Based Compensation

In December 2004, the FASB issued SFAS Statement No. 123 (revised 2004), "Share-Based Payment," which is a revision of SFAS No. 123, "Accounting for Stock-Based Compensation." SFAS No. 123(R) supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees", and amends SFAS No. 95, "Statement of Cash Flows". SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, restricted stock and performance-based shares to be recognized in the income statement based on their fair values. SFAS No. 123(R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after adoption. In the first quarter of fiscal 2007, we adopted SFAS No. 123(R) using the modified prospective method. Under the modified prospective

method, compensation cost will be recognized for all share-based payments granted after the adoption of SFAS No. 123(R) and for all awards granted to employees prior to the adoption date of SFAS No. 123R that remain unvested on the adoption date. Accordingly, no restatements were made to prior periods. We recognized stock based compensation expense of \$1,826 and \$160 for the thirteen week periods ending September 1, 2007 and September 2, 2006 respectively.

6

Edgar Filing: CAL MAINE FOODS INC - Form 10-Q

Prior to adoption of SFAS No. 123(R), we applied APB No. 25 in accounting for our employee stock compensation plans and generally recognized no compensation expense for employee stock options. Under the provisions of APB No. 25, we recognized a liability for Stock Appreciation Rights (“SARS”) and Tandem Stock Appreciation Rights (“TSARS”) based upon the intrinsic value of vested SARS and TSARS at each period end. Under SFAS No. 123(R), we are required to recognize a liability for vested SARS and TSARS based upon their fair value at each period end using a Black-Scholes option pricing model and to record a cumulative effect adjustment for the change in method of accounting for such liability awards. The cumulative effect resulting from the adoption of SFAS No. 123(R) was insignificant and is included in stock based compensation expense for the thirteen week period ended September 2, 2006.

Our stock-based compensation plans are described in note 1 of the consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended June 2, 2007. These plans have not been modified in the 2008 fiscal year.

A summary of our equity award activity and related information for the thirteen weeks ended September 1, 2007 is as follows:

	Number of Options	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life (in Years)	Aggregate Intrinsic Value
Outstanding, June 2, 2007	383,600	\$ 5.45		
Granted	-	-		
Exercised	22,800	5.13		
Forfeited	-	-		
Outstanding, September 1, 2007	360,800	\$ 5.47	7.58	\$ 5,166
Exercisable, September 1, 2007	135,200	\$ 4.98	7.23	\$ 2,003

The number and weighted average grant-date fair value of nonvested equity awards was as follows:

	Number of Shares	Weighted Average Grant-Date Fair Value Per Share
Nonvested, June 2, 2007	305,880	\$ 2.61
Granted during quarter	-	-
Vested during quarter	(85,080)	2.48
Forfeited during quarter	-	-
Nonvested, September 1, 2007	220,800	\$ 2.65

A summary of our liability award activity and related information for the thirteen weeks ended September 1, 2007 is as follows:

	Number Of Rights	Weighted Average Strike Price Per Right	Weighted Average Remaining Contractual Life (in Years)	Aggregate Intrinsic Value
Outstanding, June 2, 2007	492,450	\$ 5.95		
Granted	-	-		
Exercised	42,700	5.98		
Forfeited	6,000	5.93		
Outstanding, September 1, 2007	443,750	\$ 5.94	7.96	\$ 6,144 822
Exercisable, September 1, 2007	121,250	\$ 5.79	7.86	\$ 1,696 311

The fair value of liability awards was estimated as of September 1, 2007 using a Black-Scholes option pricing model and the following weighted-average assumptions: risk-free interest rate of 4.25%; dividend yield of 1%; volatility factor of the expected market price of our stock of 32.1%; and a weighted-average expected life of the rights of four years.

2. Inventories

Inventories consisted of the following:

	September 1, 2007	June 2, 2007
Flocks	\$ 42,042	\$ 40,773
Eggs	4,381	4,704
Feed and supplies	19,887	16,731
	\$ 66,310	\$ 62,208

3. Legal Proceedings

We are defendants in certain legal actions. It is our opinion, based on advice of legal counsel, that the outcome of these actions will not have a material adverse effect on our consolidated financial position or operations. Please refer to Part II, Item 1, of this report for a description of certain pending legal proceedings.

4. Net Loss per Common Share

Basic loss per share is based on the weighted average common shares outstanding. Diluted loss per share includes any dilutive effects of options and warrants. Options and warrants representing 473,400 shares were excluded from the calculation of diluted earnings per share for the thirteen week period ended September 2, 2006 because they would be anti-dilutive since we had a net loss for the period.

5. Income Taxes

We adopted Financial Accounting Standards Board (“FASB”) Interpretation No. 48 “Accounting for Uncertainty in Income Taxes” (“FIN 48”), effective June 3, 2007. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. We had no significant unrecognized tax benefits at the date of adoption or at September 1, 2007. Accordingly, we do not have any interest or penalties related to uncertain tax positions. However, if interest or penalties were to be incurred related to uncertain tax positions, such amounts would be recognized in income tax expense. Tax periods for all years after 2003 remain open to examination by the federal and state taxing jurisdictions to which we are subject.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains numerous forward-looking statements relating to our shell egg business, including estimated production data, expected operating schedules, expected capital costs and other operating data. Such forward-looking statements are identified by the use of words such as “believes,” “intends,” “expects,” “hopes,” “may,” “should,” “plan,” “projected,” “contemplates,” “anticipates” or similar words. Actual production, operating schedules, results of operations and other projections and estimates could differ materially from those projected in the forward-looking statements. The factors that could cause actual results to differ materially from those projected in the forward-looking statements include (i) the risk factors set forth under Item 1A of our Annual Report on Form 10-K for the fiscal year ended June 2, 2007, (ii) the risks and hazards inherent in the shell egg business (including disease, pests, and weather conditions), (iii) changes in the market prices of shell eggs and (iv) changes or obligations that could result from our future acquisition of new flocks or businesses. Readers are cautioned not to put undue reliance on forward-looking statements. We disclaim any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise.

OVERVIEW

Cal-Maine Foods, Inc. (“we”, “us”, “our”, or the “Company”) is primarily engaged in the production, grading, packaging, marketing and distribution of fresh shell eggs. Our fiscal year end is the Saturday closest to May 31.

Our operations are fully integrated. At our facilities we hatch chicks, grow and maintain flocks of pullets (young female chickens, usually under 20 weeks of age), layers (mature female chickens) and breeders (male or female birds used to produce fertile eggs to be hatched for egg production flocks), manufacture feed, and produce, process and distribute shell eggs. We are the largest producer and marketer of shell eggs in the United States. We market the majority of our shell eggs in 29 states, primarily in the southwestern, southeastern, mid-western and mid-Atlantic regions of the United States. We market our shell eggs through our extensive distribution network to a diverse group of customers, including national and regional grocery store chains, club stores, foodservice distributors and egg product manufacturers.

We currently produce approximately 78% of the total number of shell eggs sold by us, with approximately 10% of such total shell egg production being through the use of contract producers. Contract producers operate under agreements with us for the use of their facilities in the production of shell eggs by layers owned by us. We own the shell eggs produced under these arrangements. Approximately 22% of the total number of shell eggs sold by us is purchased from outside producers for resale, as needed.

Our operating income or loss is significantly affected by wholesale shell egg market prices, which can fluctuate widely and are outside of our control. Retail sales of shell eggs are generally greatest during the fall and winter

months and lowest during the summer months. Prices for shell eggs fluctuate in response to seasonal factors and a natural increase in egg production during the spring and early summer.

Our cost of production is materially affected by feed costs, which average about 57% of our total shell egg production cost. Changes in feed costs result in changes in cost of goods sold. The cost of feed ingredients is affected by a number of supply and demand factors such as crop production and weather, and other factors, such as the level of grain exports and levels of use for ethanol and biofuel, over which we have little or no control.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain items from our Condensed Consolidated Statements of Operations expressed as a percentage of net sales.

	Percentage of Net Sales	
	13 Weeks Ended	
	September 1, 2007	September 2, 2006
Net sales	100.0%	100.0%
Cost of sales	74.5	92.7
Gross profit	25.5	7.3
Selling, general & administrative	10.4	12.5
Operating income (loss)	15.1	(5.2)
Other income (expense)	.1	(1.7)
Income (loss) before taxes	15.2	(6.9)
Income tax expense (benefit)	5.2	(2.2)
Net income (loss)	10.0%	(4.7)%

NET SALES

Approximately 92% of our net sales consist of shell egg sales and approximately 4% was for incidental feed sales to outside egg producers, with the 4% balance consisting of sales of egg products. Net sales for the first quarter of fiscal 2008 were \$178.6 million, an increase of \$63.3 million, or 54.9 %, as compared to net sales of \$115.3 million for the first quarter of fiscal 2007. Total dozen eggs sold decreased and egg selling prices increased in the current fiscal 2008 quarter as compared to the same fiscal 2007 quarter. Dozens sold for the 2008 current quarter were 163.9 million dozen a decrease of 7.7 million dozen, or 4.5%, as compared to the first quarter of fiscal 2007. Our net average selling price per dozen for the fiscal 2008 first quarter was \$.983, compared to \$.633 for the first quarter of fiscal 2007, an increase of 55.3%. Our net average selling price is the blended price for all sizes and grades of shell eggs, including non-graded egg sales, breaking stock and undergrades. Strengthened by an egg export order in May and in August, consumer demand during the first quarter of fiscal 2008, remained steady, while egg supply remained tight, resulting in an increase in egg selling prices.

COST OF SALES

Cost of sales consists of costs directly related to production and processing of shell eggs, including feed costs, and purchases of shell eggs from outside egg producers. Cost of sales for the first quarter of fiscal 2008 was \$133.0 million, an increase of \$26.1 million, or 24.4%, as compared to the cost of sales of \$106.9 million for the first quarter of fiscal 2007. The increase is due to increases in feed costs and the cost of egg purchases from outside egg producers. Following the increase in egg selling prices, the cost of outside purchases increased. Feed cost per dozen for the fiscal 2008 first quarter was \$.285, compared to \$.216 per dozen for the comparable fiscal 2007 first quarter, an increase of 31.9% for the current 2008 quarter. The increase in egg selling prices exceeded the increase in cost of sales and resulted in an increase in gross profit from 7.3% of net sales for the quarter ended September 2, 2006 to 25.5% of net sales for the current quarter ended September 1, 2007.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses include costs of marketing, distribution, accounting and corporate overhead. Selling, general and administrative expense for the first quarter of fiscal 2008 was \$18.6 million, an increase of \$4.1 million as compared to the expense of \$14.5 million for the first quarter of fiscal 2007. The increase is due to increases in payroll expenses, stock compensation expense and franchise fees on specialty egg sales. Net delivery costs decreased due to a reduction in the number of Company long haul trucks, increased back haul loads, offset by increased use of contract trucking. As a percent of net sales, selling, general and administrative expense decreased from 12.5% for fiscal 2007 first quarter to 10.4% for fiscal 2008 first quarter.

OPERATING INCOME (LOSS)

As a result of the above, operating income was \$26.9 million for the first quarter of fiscal 2008, as compared to an operating loss of \$6.1 million for the fiscal 2007 first quarter. As a percent of net sales, the first fiscal 2008 quarter had an operating income of 15.1% of net sales, compared to an operating loss of 5.2% of net sales for the first quarter of fiscal 2007.

OTHER INCOME (EXPENSE)

Other income or expense consists of costs or income not directly charged to, or related to, operations such as interest expense and equity in income (loss) of affiliates. Other income for the first quarter ended September 1, 2007 was \$291,000, an increase of \$2.2 million, as compared to other expense of \$1.9 million for the quarter ended September 2, 2006. For the first quarter of fiscal 2008, net interest expense decreased \$148,000 due to an increase of \$280,000 in interest income. For the first quarter of fiscal 2008 other income increased \$2.1 million, as compared to the first quarter of fiscal 2007. The increase of other income is attributable to the increase in income/(loss) absorbed by non-controlling interests in consolidated entities and increases from equity in the income of nonconsolidated affiliates. Included in net interest expense is non-cash interest expense, which decreased by \$107,000. The non-cash interest expense is imputed on our non-interest bearing obligation to acquire the remaining membership units of Hillandale, LLC over the remaining acquisition period, culminating with us having a 100% interest in Hillandale, LLC. As a percent of net sales, other income (expense) increased from (1.7%) for fiscal 2007 first quarter to .1% for fiscal 2008 first quarter.

INCOME TAXES

As a result of the above, we had pre-tax income of \$27.2 million for the quarter ended September 1, 2007, as compared to a pre-tax loss of \$8.0 million for the quarter ended September 2, 2006. For the fiscal 2008 first quarter, an income tax expense of \$9.3 million was recorded with an effective tax rate of 34.0%, as compared to an income tax benefit of \$2.6 million with an effective tax rate of 32.1% for the fiscal 2007 first quarter.

NET INCOME (LOSS)

As a result of the above, net income for the first quarter ended September 1, 2007 was \$18.0 million, or \$.76 per basic and diluted share, compared to a net loss of \$5.4 million, or \$.23 per basic share for the quarter ended September 2, 2006. As a percent of net sales, net income was 10.0% for the quarter ended September 1, 2007, compared to a net loss of 4.7% for the quarter ended September 2, 2006.

CAPITAL RESOURCES AND LIQUIDITY

Our working capital at September 1, 2007 was \$88.4 million compared to \$80.6 million at June 2, 2007. Our current ratio was 1.93 at September 1, 2007 as compared with 2.06 at June 2, 2007. Our need for working capital generally is

highest in the last and first fiscal quarters ending in May and August, respectively, when egg prices are normally at seasonal lows. Seasonal borrowing needs frequently are higher during these quarters than during other fiscal quarters. We have a \$40 million line of credit with three banks, \$2.7 million of which was utilized as a standby letter of credit at September 1, 2007. Our long-term debt at September 1, 2007, including current maturities, amounted to \$110.6 million, as compared to \$112.9 million at June 2, 2007.

For the thirteen weeks ended September 1, 2007, \$29.7 million in net cash was provided by operating activities. This compares to net cash provided of \$2.1 million for the thirteen weeks ended September 2, 2006. In the first 2008 fiscal quarter, approximately \$7.5 million was used for the purchase of short-term investments and net \$560,000 was used for notes receivable and investments. Approximately \$173,000 was provided from disposal of property, plant and equipment, \$4.5 million was used for purchases of property, plant and equipment and \$6.8 million was used for additional acquisition of the Hillandale business. Approximately \$294,000 was used for payments of dividends on common stock and \$2.3 million was used for principal payments on long-term debt. Approximately \$117,000 was received from the issuance of common stock from the treasury. The net result of these activities was an increase in cash of approximately \$8.1 million since June 2, 2007.

Substantially all trade receivables and inventories collateralize our revolving line of credit and property, plant and equipment collateralize our long-term debt under our loan agreements with our lenders. Unless otherwise approved by our lenders, we are required by provisions of these loan agreements to (1) maintain minimum levels of working capital (ratio of not less than 1.25 to 1) and net worth (minimum of \$90.0 million tangible net worth adjusted for earnings); (2) limit dividends to an aggregate amount not to exceed \$500,000 per quarter (allowed if no default), capital expenditures less exclusions (not to exceed 125% of depreciation for the same four fiscal quarters), lease obligations and additional long-term borrowings (total funded debt to total capitalization not to exceed 55%); and (3) maintain various cash-flow coverage ratios (1.25 to 1), among other restrictions. At September 1, 2007, we were in compliance with the provisions of all loan agreements. Under certain of the loan agreements, the lenders have the option to require the prepayment of any outstanding borrowings in the event we undergo a change in control.

Under the terms of our Agreement with Hillandale and the Hillandale shareholders, a new Florida limited liability company named Hillandale, LLC was formed. In fiscal 2006, we purchased 51% of the Units of Membership in Hillandale, LLC, with the remaining Units to be acquired in essentially equal annual installments over a four-year period. The purchase price of the Units is equal to their book value as calculated in accordance with the terms of the Agreement. In fiscal 2007, we purchased, pursuant to the Agreement, an additional 13% of the Units of Membership for \$6.1 million from our cash balances. In fiscal 2008, we purchased, an additional 12% of the Units of Membership for \$6.8 from our cash balances. We have recorded the obligation to acquire the remaining 24% at its present value of \$12.6 million. The actual remaining purchase price may be higher or lower when the acquisitions are completed. Future funding is expected to be provided by our cash balances and borrowings.

Capital expenditure requirements are expected to be for the normal repair and replacement of our facilities. In addition, we have plans to construct a new integrated layer production complex in West Texas to replace our Albuquerque, New Mexico complex, which has ceased egg production. The expected cost is approximately \$30.0 million.

We currently have a \$1.8 million deferred tax liability due to a subsidiary's change from a cash basis to an accrual basis taxpayer on May 29, 1988. The Taxpayer Relief Act of 1997 provides that this liability is payable ratably over the 20 years beginning in fiscal 1999. However, such taxes will be due in their entirety in the first fiscal year in which there is a change in ownership control so that we no longer qualify as a "family farming corporation." We are currently making annual payments of approximately \$150,000 related to this liability. However, while these current payments reduce cash balances, payment of the \$1.8 million deferred tax liability would not impact our consolidated statement of operations or stockholders' equity, as these taxes have been accrued and are reflected on our consolidated balance sheet.

Looking forward, we believe that our current cash balances, borrowing capacity, utilization of our revolving line of credit, and cash flows from operations are sufficient to fund our current and projected capital needs.

Impact of Recently Issued Accounting Standards. Please refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report Form 10-K for the year ended June 2, 2007 for a discussion of the impact of recently issued accounting standards. There were no accounting standards issued during the quarter ended September 1, 2007 that we expect will have a material impact on our consolidated financial statements.

We adopted Financial Accounting Standards Board ("FASB") Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" ("FIN 48"), effective June 3, 2007. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. We had no significant unrecognized tax benefits at the date of adoption or at September 1, 2007. Accordingly, we do not have any interest or penalties related to uncertain tax positions. However, if interest or penalties were to be incurred related to uncertain tax positions, such amounts would be recognized in income tax expense. Tax periods for all years after 2003 remain open to examination by the federal and state taxing jurisdictions to which we are subject.

In September 2006, the FASB issued FASB Statement No.157, "Fair Value Measurements" ("FAS 157"). FAS 157 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and expands on required disclosures about fair value measurement. FAS 157 is effective for us on June 1, 2008 and will be applied prospectively. The provisions of FAS 157 are not expected to have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "Establishing the Fair Value Option for Financial Assets and Liabilities", to permit all entities to choose to elect to measure eligible financial instruments at fair value. SFAS No. 159 applies to fiscal years beginning after November 15, 2007, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS No. 157. An entity is prohibited from retrospectively applying SFAS No. 159, unless it chooses early adoption. Management is currently evaluating the impact of SFAS No. 159 on its consolidated financial statements.

Critical Accounting Policies. We suggest that our Summary of Significant Accounting Policies, as described in Note 1 of the Notes to Consolidated Financial Statements included in Cal-Maine Foods, Inc. and Subsidiaries annual report on Form10-K for the fiscal year ended June 2, 2007, be read in conjunction with this Management's Discussion and Analysis of Financial Condition and Results of Operations. There have been no changes to critical accounting policies identified in our Annual Report on Form 10-K for the year ended June 2, 2007.

ITEM 3. QUANTATIVE AND QUALITATIVE DISCLOSURES OF MARKET RISK

There have been no material changes in the market risk reported in the Company's Annual Report on Form 10-K for the fiscal year ended June 2, 2007.

ITEM 4. CONTROLS AND PROCEDURES

Our disclosure controls and procedures are designed to provide reasonable assurance that information we are required to be disclosed in our periodic reports filed with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Based on an evaluation of our disclosure controls and procedures conducted by our Chief Executive Officer and Chief Financial Officer, together with other financial officers, such officers concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report. There were no changes in our internal control over financial reporting identified in connection with the evaluation that occurred during our last fiscal quarter that has significantly affected or is reasonably likely to materially affect our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Except as noted below, there have been no new matters or changes to matters identified in our Annual Report on Form 10-K for the year ended June 2, 2007.

Chicken Litter Litigation

Cal-Maine Farms, Inc., one of our subsidiaries, is presently a defendant in two personal injury cases in the Circuit Court of Washington County, Arkansas. Those cases are styled, McWhorter vs. Alpharma, Inc., et al., and Carroll, et al. vs. Alpharma, Inc., et al. Cal-Maine Farms, Inc. was named as a defendant in the McWhorter case on February 3, 2004. It was named as a defendant in the Carroll case on May 2, 2005. Co-defendants in both cases include other integrated poultry companies such as Tyson Foods, Inc., Cargill, Incorporated, George's Farms, Inc., Peterson Farms, Inc., Simmons Foods, Inc., and Simmons Poultry Farms, Inc. Alpharma, Inc. and Alpharma Animal Health, Co., manufacturers of an additive for broiler feed, are also included as defendants.

Both cases allege that the plaintiffs have suffered medical problems resulting from living near land upon which "litter" from the defendants' flocks was spread as fertilizer. The McWhorter case focuses on mold and fungi allegedly created by the application of litter. The Carroll case also alleges injury from mold and fungi, but focuses primarily on the broiler feed ingredient as the cause of the alleged medical injuries.

Several other separate, but related, cases were prosecuted in the same venue by the same attorneys. The same theories of liability were prosecuted in all of the cases. No Cal-Maine company was named as a defendant in any of those other cases. The plaintiffs selected one of those cases, Green, et al. vs. Alpharma, Inc., et al., as a bellwether case to go to trial first. All of the poultry defendants were granted summary judgment in the Green case on August 2, 2006. The case against the Alpharma defendants resulted in a defendants' verdict on September 25, 2006. The result in the Green case is not dispositive of the issues raised in McWhorter and Carroll, but it clearly colors the plaintiffs' prospects for success.

The plaintiffs' attorneys have not yet indicated their intentions regarding the remaining cases. It is possible that the McWhorter and Carroll plaintiffs can present fundamentally different proof than was presented in the Green case, but that does not seem likely at present. The potential exposure, if any, in the McWhorter and Carroll cases appears to be diminished as a result of the outcome in the Green case, but at this point it is still not possible to evaluate any potential exposure with certainty.

State of Oklahoma Watershed Pollution Litigation

On June 18, 2005, the State of Oklahoma filed suit in the U.S. District Court for the Northern District of Oklahoma against a number of companies including Cal-Maine Foods, Inc. and Cal-Maine Farms, Inc. An Answer on behalf of both companies was filed on October 3, 2005. The State of Oklahoma claims that through the disposal of chicken litter the defendants have polluted the Illinois River Watershed. This watershed provides water to eastern Oklahoma. The Complaint seeks injunctive relief and monetary damages. We no longer have any direct operations in the Watershed. We do have an ownership interest in a limited liability company that has operations in the Watershed. We do not anticipate that we will be materially affected by any request for injunctive relief.

Merit discovery is ongoing. Cal-Maine and the other defendants filed a number of dispositive motions, but the motions were either denied or carried with the case pending further discovery. Those dispositive motions which were determined by the Court to be premature will be renewed at the conclusion of discovery. We are not able at present to provide an opinion regarding the ultimate resolution of this action.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended June 2, 2007.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We made no sales of unregistered securities during the first quarter of fiscal 2008.

For information as to working capital utilization and limitations upon the payment of dividends see "Capital Resources" under Part 1, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations of this Form 10-Q.

ITEM 5. OTHER INFORMATION

On October 1, 2007, we issued a press release announcing our financial results for the quarter ended September 1, 2007.

ITEM 6. EXHIBITS

a. Exhibits

<u>No.</u>	<u>Description</u>
31.1	Certification of The Chief Executive Officer
31.2	Certification of The Chief Financial Officer
32.0	Section 1350 Certification of The Chief Executive Officer and The Chief Financial Officer
99.1	Press release dated October 1, 2007 announcing interim period financial information (Incorporated by reference to Exhibit 99.1 of our Form 8-K dated October 1, 2007.)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
