BANCOLOMBIA S.A. (NYSE: CIB; BVC: BCOLOMBIA, PFBCOLOM) REPORTS CONSOLIDATED NET INCOME OF COP 350 BILLION FOR THE FIRST QUARTER OF 2011 (COP 444 PER SHARE - USD 0.95 PER ADR), WHICH REPRESENTS AN INCREASE OF 3% COMPARED TO THE SAME QUARTER LAST YEAR.

- Net loans grew 4.7% during the quarter and 22.1% compared to 1Q10. This growth confirms the trend of sustained credit demand that started in the second quarter of 2010.
- Net interest income increased 3.9% during the quarter and 9.3% compared to 1Q10. These increases are the result of loan growth coupled with a funding strategy that allowed the Bank to reduce the cost of deposits during the quarter as a measure to defend the net interest margin, which ended the period at 5.9%
- Loan portfolio quality continues showing a good trend. Loan deterioration during 1Q11 was COP 139 billion, 51% lower than in 1Q10. Charge-offs were COP 74 billion, 55% lower than in 4Q10 and 46% lower than in 1Q10. Net provision charges totaled COP 80 billion.
- The balance sheet remains strong. Loan loss reserves represented 5% of total loans and 175% of past due loans at the end of 1Q11. The capital adequacy ratio ended the quarter at 14.2% (Tier 1 of 10.2%), a figure that is considerably higher than the 13.6% (Tier 1 de 10.8%) reported at the end of 1Q10.
- Solid liquidity position. The ratio of net loans to deposits (including borrowings from domestic development banks) was 100% at the end of 1Q11, and net investment securities totaled COP 10,832 billion, an increase of 25% compared to 4Q10 and of 26% compared to 1Q10.

April 29, 2011. Medellín, Colombia – Today, BANCOLOMBIA S.A. (“Bancolombia” or “the Bank”) announced its earnings results for the first quarter of 2011.

For the quarter ended March 31, 2011 (“1Q11”), Bancolombia reported consolidated net income of COP 350 billion, or COP 444 per share – USD 0.95 per ADR, which represents a decrease of 18% as compared to the results for the quarter ended on December 31, 2010 (“4Q10”) and an increase of 3% as compared to the results for the quarter ended on March 31, 2010 (“1Q10”).

Bancolombia ended 1Q11 with COP 71,182 billion in assets, 5% higher than those at the end of 4Q10 and 17% greater than at the end 1Q10. At the same time, liabilities totaled COP 63,468 billion and increased 6% as compared to the figure presented in 4Q10 and 18% as compared to 1Q10.

1. BALANCE SHEET

1.1. Assets

As of March 31, 2011, Bancolombia's assets totaled COP 71,182 billion, which represents an increase of 5% compared to 4Q10 and of 17% compared to 1Q10.

Assets denominated in COP totaled COP 57,084 billion at the end of 1Q11, increasing 11% compared to 4Q10 and 20% compared to 1Q10. Assets denominated in currencies other than COP (mainly American dollars ("USD")) represented 20% of total assets (or USD 7.5 billion) at the end of 1Q11, decreasing 14% compared to 4Q10 and increasing 10% compared to 1Q10.

Loans and financial leases, net of provisions, represented 68% of assets at the end of 1Q11, remaining stable as compared to the proportion they represented at the end of 4Q10 and increasing as compared to the proportion they represented 1Q10 (65%). Net investments were 15% of total assets at the end of the quarter, increasing as compared to their participation in assets at the end of 4Q10 (13%) and 1Q10 (14%).

Prepaid expenses and deferred charges increased 149% during 1T11 and 278% compared to 1Q10. This increase is explained by the recording during the quarter of COP 469 billion related to the wealth tax that Bancolombia and its subsidiaries will pay from 2011 to 2014. The value recorded in this line will be amortized during the next four years and will be shown mainly as a reduction in the Reappraisal and others account, although a portion will be reflected on the administrative expenses and others account.

The property, plant and equipment account increased 7% during 1Q11 and 26% with respect to 1Q10, due mainly to capitalized investments and expenses related to technology.

1.2. Loan Portfolio

During the first quarter of 2011, there was growth of the loan portfolio in our operation in Colombia. Loans denominated in COP totaled COP 37,225 billion at the end of 1Q11, and increased 3% compared to 4Q10 and 15% compared to 1Q10. On the other hand, loans denominated in USD totaled USD 7,254 million (27% of the loan portfolio), increasing 11% compared to 4Q10 and 44% compared to 1Q10. These USD denominated loans correspond to loans originated in Colombia (USD 3,021 million or 43% of loans in USD), El Salvador (USD 2,332 million or 33% of loans in USD) and other countries (USD 1,704 million or 24% of loans in USD).

The COP appreciated 2% against the USD during 1Q11 and appreciated 3% against that same currency since 1Q10. The appreciation during the quarter affected the conversion to COP of loans denominated in USD. Overall, Bancolombia's gross loans totaled COP 50,793 billion at the end of 1Q11 and increased 4.5% compared to the COP 48,601 billion at the end of 4Q10.

In annual terms, gross loans increased 21% compared to the COP 41,946 billion in loans reported as of the end of 1Q10. This increase is explained by the growth of loans in both COP and USD, although the conversion of USD denominated loans to COP results in total loan growth in COP of 40% for the dollar denominated portfolio compared to 1Q10. In general, the higher volume of loans denominated in USD during the quarter, reflect increased credit demand on the part of Colombian companies. The recovery of international trade flows played a key role in the increase of loans denominated in USD. Similarly, loans denominated in COP, which constitutes the majority of our loan portfolio, confirms the positive trend that began to show in 2Q10.

Commercial loans denominated in COP ended 1Q11 at COP 21,912 billion and remained stable with respect to 4Q10. Commercial loans denominated in USD totaled USD 5,481 million at the end of the quarter and increased 14% compared to 4Q10. Companies are consistently demanding credit from domestic banks, which again confirms the trend that has been observed in the last few quarters. The Colombian government, in an effort to control external debt in dollars that could result in further appreciation of the COP, imposed a withholding tax on the interest paid by Colombian companies on loans granted to them by foreign banks. This tax motivated companies with loans in USD granted by foreign banks to start taking loans in USD with domestic banks, which was one of the reasons for the growth in Bancolombia's USD denominated loan book.

Consumer loans denominated in COP also continued to show dynamism during the quarter, reaching COP 6,577 billion, a figure 6% higher than that reported at the end of 4Q10 and 34% higher than that reported at the end of 1Q10. In contrast, consumer loans originated in El Salvador continue to be subdued as they showed a slight contraction during the quarter. Overall, consumer loans denominated in USD totaled USD 1,029 million and decreased 1% with respect to 4Q10 but increased 3% with respect to 1Q10.

In 1Q11, mortgage loans expressed in COP increased COP 458 billion (14%), and reached COP 3,801 billion. The total outstanding balance of securitized mortgages was COP 2,864 billion at the end of 1Q11. When taking into account securitizations, mortgage loans increased 3% during the quarter and 13% during the past 12 months. The increased dynamism of mortgage lending in Colombia is explained by optimism regarding the economy, lower long-term interest rates, as well as by the Colombian government's interest rate subsidy program, which have produced higher credit demand in this segment. On the other hand, the outstanding mortgage balances denominated in USD from our operation in El Salvador totaled USD 427 million, stable compared to the mortgage balances in USD reported in 4Q10 and 2% lower than those reported in 1Q10.

Financial leases, 90% of which are denominated in COP, increased 4% during the quarter and 12% compared to 1Q10. Operating leases, net of depreciation, increased 3% during 1Q11 and 20% over the last 12 months.

When analyzing the performance of the loan portfolio according to the categories established by Bancolombia to manage its commercial strategy, it becomes clear that retail and SME loans were key drivers of the growth of the total loan portfolio during the quarter as they increased 5% with respect to 4Q10. This increase is explained by higher demand for working capital and financing by SMEs and for car loans. On the other hand, corporate loans increased 3% in the same period due to greater demand for working capital by corporations.

Reserves for loan losses increased 2% during 1Q11 and totaled COP 2,555 billion, or 5% of total loans at the end of the quarter. For further explanation regarding coverage of the loan portfolio and credit quality trends, please see Section 2.4. "Asset Quality, Provision Charges and Balance Sheet Strength" of this report.

1.3. Investment Portfolio

As of March 31, 2011, Bancolombia's net investment portfolio totaled COP 10,832 billion, increasing 25% compared to 4Q10 and 26% compared to 1Q10. The investment portfolio is mainly composed of debt investment securities, which represented 94% of Bancolombia's total investments and 14% of assets at the end of 1Q11. Investments denominated in USD totaled USD 1,982 million and represented 18% of the investment portfolio. Additionally, the Bank has COP 2,230 billion in mortgage backed securities, which represents 20% of the investment portfolio. The duration of the debt securities portfolio was 22.6 months with a yield to maturity of 4.91% at the end of 1Q11.

1.4. Goodwill

As of 1Q11, Bancolombia's goodwill totaled COP 721 billion and decreased 9% compared to the amount reported in 1Q10. This variation is explained by the appreciation of the Colombian peso in the quarter and the amortization of goodwill reported during the past year (under COL GAAP, goodwill is amortized within a period of 20 years). As of March 31, 2011, Bancolombia's goodwill included USD 383 million related mostly to the acquisition of Banagrícola in 2007 and COP 5 billion related to the acquisition of a participation of Renting Bancolombia by Leasing Bancolombia.

1.5. Funding

As of March 31, 2011, Bancolombia's liabilities totaled COP 63,468 billion and increased 5% compared to 4Q10 and 18% compared to 1Q10. During 1Q11, the Bank maintained a solid liquidity position. The ratio of net loans to deposits (including borrowings from domestic development banks) was 100% at the end of 1Q11, stable compared to the figure for 4Q10 and increasing compared to the 92% reported in 1Q10.

Deposits totaled COP 43,533 billion (or 72% of liabilities) at the end of 1Q11 and increased 5% during the quarter and 14% over the last 12 months. CDs represented 42% of deposits in 1Q10, but represented only 35% in 1Q11. This decrease is in line with the funding strategy executed by the Bank in the last few quarters, which is aimed at taking advantage of the greater liquidity and low interest rates through increasing savings and checking accounts. As a result of this re-composition of the funding mix, demand deposits went from representing 58% of the Bank's total deposits in 1Q10, to representing 65% as of the end of 1Q11.

Through this strategy, interest expense remained stable compared to 1Q10, while deposits increased.

1.6.Shareholders' Equity and Regulatory Capital

Shareholders' equity at the end of 1Q11 was COP 7,714 billion, increasing 13% or COP 912 billion, with respect to the COP 6,802 billion reported at the end of 1Q10.

Bancolombia's capital adequacy ratio was 14.21%, 46 basis points below the 14.67% for 4Q10 and 59 bps above the 13.62% for 1Q10. The year over year increase was a result of the growth in secondary capital, product of a subordinated bonds issuance for USD 620 million that took place in July 2010.

Bancolombia's capital adequacy ratio was 521 basis points above the minimum level required by Colombia's regulator, while the basic capital ratio (tier 1) was 10.22% and the tangible capital ratio, which is equal to shareholders' equity minus goodwill and intangible assets divided by tangible assets, was 8.89% at the end of 1Q11.

2.INCOME STATEMENT

Net income totaled COP 350 billion in 1Q11, or COP 444 per share – USD 0.95 per ADR, which represents an increase of 3% compared to 1Q10 and a decrease of 18% compared to 4Q10. Bancolombia's ROE was 17.6% for 1Q11, lower than the annualized ROE of 22.1% for 4Q10 and the 19.4% reported in 1Q10.

2.1. Net Interest Income

Net interest income totaled COP 893 billion in 1Q11, 4% higher than that reported in 4Q10, and 9% higher than the figure for 1Q10. Interest income increased 4% during the quarter, while interest expense on deposits decreased 4%. Interest paid on bonds increased 24% during 1Q11 due to the increase in the amount of bonds outstanding as a result of recent bond issuances. The lower funding cost associated with a better funding mix and the re-pricing of deposits, made it possible to compensate the lower interest rates of new loans granted during the period.

During 1Q11, income generated by the investment portfolio totaled COP 133 billion, a figure 21% higher than the COP 109 billion for 4Q10 and 42% higher than the COP 93 billion for 1Q10. During 1Q11, income generated by the investment portfolio increased due to higher bond prices in the secondary markets due to the granting of investment grade to Colombia.

Net Interest Margin

Annualized net interest margin ended 1Q11 at 5.9%, stable with respect to that reported in 4Q10. Annualized net interest margin for investments was 3% in 1Q11, while the annualized net interest margin for loans, financial leases and overnight funds was 6.4%.

Annualized Interest Margin	1Q10		2Q10		3Q10		4Q10		1Q11	
Loans Interest margin	7.1	%	7.1	%	6.7	%	6.6	%	6.4	%
Debt investments' margin	1.4	%	3.1	%	3.6	%	2.3	%	3.0	%
Net interest margin	6.2	%	6.4	%	6.2	%	6.0	%	5.9	%

Notably, funding cost continued to decrease significantly during 1Q11. The lower funding cost is the result of the liability re-pricing effort undertaken during the last quarters and the changes in the funding mix composition. The annualized weighted average cost of deposits reached 2.2% in 1Q11, decreasing as c
