1. INTRODUCTION

Reference is made to the Company's announcement dated 8 August 2005, circular dated 19 September 2005 and announcement dated 4 November 2005 regarding the Company's purchase of 15 Boeing 787 series aircraft from Boeing Company pursuant to the CEA 787 Agreement.

## LETTER FROM THE BOARD

On 8 August 2005, Shanghai Airlines and Boeing Company entered into the SA 787 Agreement, pursuant to which Shanghai Airlines purchased 9 Boeing 787 series aircraft from Boeing Company. As further described on page 74 of the Company's annual report 2010, the Company entered into an agreement with Shanghai Airlines on 10 July 2009 in relation to the absorption of Shanghai Airlines by way of the issuance of new A shares of the Company in exchange for the existing issued shares of Shanghai Airlines, which exchange was completed on 28 January 2010. Following the said absorption, the SA 787 Agreement was novated by Shanghai Airlines in favour of the Company. Therefore, as at the date of the Announcement and immediately before entering into the Termination Agreement, the Company has orders of 24 Boeing 787 aircraft in total.

As disclosed in the Announcement, the Company entered into the Termination Agreement regarding the termination of the CEA 787 Agreement and the SA 787 Agreement, and the Company entered into the Agreement with Boeing Company regarding the Transaction.

The Agreement constitutes a major transaction of the Company under Chapter 14 of the Listing Rules and is subject to the approval of the shareholders of the Company.

### 2. THE PARTIES

The Company is principally engaged in the business of civil aviation.

Boeing Company, to the knowledge of the Directors, is principally engaged in the business of aircraft manufacturing.

To the best of the Directors' knowledge, information and belief having made all reasonable enquiry, Boeing Company and its ultimate beneficial owner(s) are third parties independent of the Company and connected persons (as defined in the Listing Rules) of the Company, and are not connected persons of the Company.

### 3. THE AGREEMENT

On 17 October 2011, the Company entered into the Termination Agreement regarding the termination of the CEA 787 Agreement and the SA 787 Agreement, and at the same date the Company (as purchaser) entered into the Agreement with Boeing Company (as seller) regarding the Transaction.

Based on the information provided by Boeing Company, the total asset value of the Aircraft, as determined by reference to the relevant catalogue price supplied by Boeing Company, amounts in aggregate to approximately USD3.3 billion (equivalent to approximately RMB21 billion).

## LETTER FROM THE BOARD

### Consideration

The aircraft basic price of the Aircraft in aggregate is approximately USD3.3 billion (equivalent to approximately RMB21 billion) based on the relevant price catalog in 2008. Such aircraft basic price comprises the airframe price, optional features prices and engine price. The aircraft basic price for the Aircraft in aggregate is comparable to the aircraft basic price for the 24 Boeing 787 aircraft in total under the CEA 787 Agreement and the SA 787 Agreement.

The Agreement was negotiated and entered into in accordance with customary business and industry practice, under which Boeing Company has granted to the Company significant price concessions with regard to the Aircraft. Such price concessions were determined after arm's length negotiations between the Company and Boeing Company and as a result, the Consideration is significantly lower than the aircraft basic price of the Aircraft mentioned above.

Based on the Consideration, the relevant "percentage ratio" calculated under Rule 14.07 of the Listing Rules at the material time is above 25% but less than 100%. Accordingly, the Transaction constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange. In respect of the Transaction, the Company understands its disclosure obligations normally required under Chapter 14 of the Listing Rules, and has therefore on a number of occasions raised the issue with Boeing Company in order to seek its consent to the Company's disclosing certain otherwise required information (including the relevant consideration involved) in the Announcement and this Circular. Nonetheless, Boeing Company, for business reasons and from a commercial perspective, did not accede to the Company's request in this respect, and insisted on the preservation of the confidentiality carried with such information to the extent possible. The Company has made an application to the Stock Exchange and obtained a waiver from strict compliance with the relevant provisions (including Listing Rules 14.58(4) and 14.66(4)) under the Listing Rules in respect of the disclosure of the Consideration.

The Company confirms that the extent of the price concessions granted to the Company under the Agreement is more favourable than the price concessions granted to the Company under the 2008 Agreement. The price concessions granted to the Company under the Agreement will mainly affect the depreciation of aircraft in the operation cost of the Company. The Company believes that the price concessions obtained by the Company and the amount of compensation payable by Boeing Company to the Company (which will be used to pay for part of the Consideration) under the Agreement have no material impact on the Company's operating costs taken as a whole.

The Company has also taken into account the current economic environment, the industry performance and the Company's financial position, and considers that the extent of the price concessions granted to the Company under the Agreement are fair and reasonable and in the interests of its shareholders.

## LETTER FROM THE BOARD

### Payment terms and source of funding

The Consideration is payable by cash in USD in instalments, and is, as currently contemplated, being funded through the Company's working capital, bank loans from commercial banks and other sources of financing available to the Company.

The prepayment paid to Boeing Company by the Company pursuant to the CEA 787 Agreement and by Shanghai Airlines pursuant to the SA 787 Agreement will be used to deduct part of the Consideration and as the prepayment for the purchase of other brand new aircraft from Boeing Company in the future.

### Delivery

The Aircraft are expected to be delivered to the Company in stages from 2014 to 2016. The Agreement contains provision(s) regarding compensation in the event of any delay in delivery of the Aircraft.

### Reasons for and benefits expected to accrue to the Company

Due to Boeing Company's delay in delivery of the 24 Boeing 787 series aircraft (i.e. the 15 Boeing 787 series aircraft under CEA 787 Agreement and the 9 Boeing 787 series aircraft under the SA 787 Agreement), according to the latest development plan of the Company and after arm's length negotiations, the Company and Boeing Company agreed to substitute the purchase of the said 24 Boeing 787 series aircraft with the purchase of 45 Boeing 737 NG aircraft. Boeing Company has agreed to pay certain amount of compensation to the Company, which will be used to pay for part of the Consideration.

The Aircraft will primarily be used to satisfy the increasing demand of the domestic passenger air transportation as well as the international and regional medium-and-short-haul routes passenger air transportation in the coming years, and to increase the Company's competitiveness in the domestic, international and regional passenger air transportation market in the medium-and-short haul routes. The purchase of the Aircraft will further enhance the route coverage of the Company and increase the economic benefit to the Company.

Without considering the adjustments to be made to the aircraft fleet of the Company as a result of the market conditions and the age of the aircraft, the addition of the Aircraft will increase the ATKs of the Company by approximately 8.65% (based on the ATKs of the Company as at 31 December 2010).

The Transaction has been approved by the Directors, and is subject to approval by the relevant regulatory authority(ies) in the PRC in compliance with the relevant regulatory requirements.

The Directors believe that the terms of the Agreement (including the price concessions under the Agreement) are fair and reasonable and in the interests of the Company's shareholders as a whole.

## LETTER FROM THE BOARD

### Financial impact of the Transaction

As mentioned above, part of the Consideration is, as currently contemplated, being funded through bank loans from commercial banks. The Transaction may therefore result in an increase in the Company's debt-to-equity ratio, but as the Consideration is payable by instalments, it is not expected to have substantial impact on the Company's cash-flow position or its business operations.

The Transaction is not expected to result in any material impact on the earnings, assets and liabilities of the Group.

### 4. IMPLICATIONS UNDER THE LISTING RULES

The Transaction constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange and is subject to the approval of the shareholders of the Company.

CEA Holding, which directly or indirectly holds 4,831,375,000 A shares and 1,927,375,000 H shares of the Company, representing approximately 59.94% of the issued share capital of the Company, does not have any interest or benefit under the Transaction. No shareholder of the Company (including CEA Holding) would be required to abstain from voting at any general meeting of the Company, if convened, to approve the Transaction.

The Transaction has accordingly been approved in writing by CEA Holding pursuant to Rule 14.44 of the Listing Rules, and no general meeting of the Company is required to be convened.

### 5. ADDITIONAL INFORMATION

Your attention is also drawn to the additional information set out in the appendices to this Circular.

APPENDIX I

FINANCIAL INFORMATION

SUFFICIENCY OF WORKING CAPITAL

Taking into account the expected completion of the Transaction and the financial resources available to the Group, including the internally generated funds and the available banking facilities, the Directors are of the opinion that the Group has sufficient working capital for its present requirements, that is for at least the next 12 months from the date of this Circular, in the absence of any unforeseeable circumstances.

TRADING AND FINANCIAL PROSPECTS Trading prospects

As an air transport enterprise which performs public service functions, the operation of the Group is linked closely to the political and economic situations, both internationally and locally. As such, the operation of the Group and of the whole sector is, to a great extent, still subject to unfavorable factors such as possible risks associated with geopolitics, imbalance in global trade and investment, substantial fluctuation of international oil prices and outbreaks of unexpected events.

The Company is of the view that in the second half year of 2011, the global economy is expected to be complicated and with changes. Despite the pressure of inflation, the PRC is expected to maintain its fast pace of development. The aviation market of the PRC is expected to maintain its stable growth. The integration of the Yangtze River Delta, the “Four-Centre” construction of Shanghai, and the continual growth in disposable household income in the PRC are expected to drive upgrades of consumption level. The great support from various local governments for the development of the aviation industry is also anticipated to create favorable conditions for the development of the Company. The Company will take this opportunity to develop and make effort to implement its strategic goal of becoming an aviation company with international competitiveness.

Financial outlook

In the second half of 2011, the Company will adjust its fleet structure to lower operating costs; adjust the deployment of resources to enhance the utilization rate; adjust the structure of its route network to enhance marginal contribution; and adjust the structure of its asset and liabilities to lower finance costs. The Directors believe that the continual exploration of synergy brought by the integration of Shanghai Airlines, the effort to maintain the organic growth of the Group and the fostering of cost optimization strategy will aid in further lowering unit cost. The Company will further strengthen the development of hubs in core markets including Shanghai, Kunming and Xi’an, leverage upon its joining to the SkyTeam to strengthen its cooperation with other members of the alliance, further enhance the competitiveness of the Company in the industry, and seek to achieve better financial performance.

MATERIAL ADVERSE CHANGE

The Directors confirm that there has been no material adverse change in the financial or trading position of the Group since 31 December 2010, being the date to which the latest published audited accounts of the Company have been made up.
