BLONDER TONGUE LABORATORIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands)

(unaudited)

Note 1 - Company and Basis of Presentation

Blonder Tongue Laboratories, Inc. (together with its consolidated subsidiaries, the “**Company**”) is a technology-development and manufacturing company that delivers television signal encoding, transcoding, digital transport, and broadband product solutions to the cable markets the Company serves, including the multi-dwelling unit market, the lodging/hospitality market and the institutional market including, hospitals, prisons and schools, primarily throughout the United States. The consolidated financial statements include the accounts of Blonder Tongue Laboratories, Inc. and subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation.

The results for the second quarter of 2013 are not necessarily indicative of the results to be expected for the full fiscal year and have not been audited. In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments, consisting primarily of normal recurring accruals, necessary for a fair statement of the results of operations and cash flows for the periods presented and the consolidated balance sheet at June 30, 2013. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to SEC rules and regulations. These financial statements should be read in conjunction with the financial statements and notes thereto that were included in the Company’s latest annual report on Form 10-K for the year ended December 31, 2012.

Note 2 - Liquidity

The Company’s primary sources of liquidity are its existing cash balances, cash generated from operations and amounts available under the Sovereign Financing (as defined in Note 7 below). As of June 30, 2013, the Company had approximately \$1,589 outstanding under the Revolver (as defined in Note 7 below) and \$2,376 of additional availability for borrowing under the Revolver. The Company anticipates these sources of liquidity will be sufficient to fund its operating activities, anticipated capital expenditures and debt repayment obligations for the next twelve months.

The Company's primary long-term obligations are for payment of interest and principal on its Revolver and Term Loan, both of which expire on February 1, 2015. The Company expects to use cash generated from operations to meet its long-term debt obligations, and anticipates refinancing its long-term debt obligations at maturity.

Note 3 - Acquisition – Proforma Combined Statements of Operations

On February 1, 2012, the Company's wholly-owned subsidiary, R. L. Drake Holdings, LLC (“**RLD**”), a Delaware limited liability company, acquired substantially all of the assets and assumed certain specified liabilities of R. L. Drake, LLC, a Delaware limited liability company (“**Seller**”), pursuant to an Asset Purchase Agreement of even date, by and among RLD, Seller, R. L. Drake Acquisition Corporation, a Delaware corporation, and WBMK Holding Company, an Ohio corporation, as amended by a certain First Amendment to Asset Purchase Agreement dated February 3, 2012.

The Company accounted for the business combination using the acquisition method of accounting. The Company's results of operations for the three and six months ended June 30, 2012, include the revenue and expenses of the acquired business since the date of acquisition. The operations of the acquired business have been fully integrated with those of the Company and is not separately reportable. The unaudited pro forma financial results for the six months ended June 30, 2012 combines the historical results of the Seller with those of the Company as if this acquisition had been completed as of the beginning of the period presented. There were no material non-recurring pro forma adjustments directly attributable to this acquisition.

BLONDER TONGUE LABORATORIES, INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In thousands)****(unaudited)**

Pro Forma Combined Statements of Operations

	Six Months Ended <u>June 30,</u> <u>2012</u>
Net sales	\$ 15,008
Loss from operations	\$(1,661)
Net loss	\$(1,873)
Basic and diluted net loss per share	\$(0.30)
Basic and diluted weighted average shares outstanding	6,216

Note 4- Earnings (loss) Per Share

Earnings (loss) per share is calculated in accordance with ASC Topic 260 "Earnings Per Share," which provides for the calculation of "basic" and "diluted" earnings (loss) per share. Basic earnings (loss) per share includes no dilution and is computed by dividing net earnings by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share reflect, in periods in which they have a dilutive effect, the effect of common shares issuable upon exercise of stock options. The diluted share base excludes incremental shares of 1,022 and 1,458 related to stock options for the three and six month periods ended June 30, 2013, respectively, and 1,151 shares related to stock options for both the three and six month periods ended June 30, 2012. These shares were excluded due to their antidilutive effect.

Note 5 – New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2013-02 (“ASU 2013-02”), “*Reporting of Amounts Reclassified Out of Other Comprehensive Income*”. ASU 2013-02 finalized the reporting for reclassifications out of accumulated other comprehensive income, which was previously deferred, as discussed below. The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. However, they do require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. An entity is also required to present on the face of the financials where net income is reported or in the footnotes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income, but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. Other amounts need only be cross-referenced to other disclosures required that provide additional detail of these amounts. The amendments in this update are effective for reporting periods beginning after December 15, 2012, and early adoption is permitted. The adoption of this standard did not have a material impact on the Company’s financial position and results of operations.

The FASB, the Emerging Issues Task Force and the SEC have issued certain other accounting standards updates and regulations as of June 30, 2013 that will become effective in subsequent periods; however, management of the Company does not believe that any of those updates would have significantly affected the Company’s financial accounting measures or disclosures had they been in effect during 2013 or 2012, and does not believe that any of those pronouncements will have a significant impact on the Company’s consolidated financial statements at the time they become effective.

Note 6 – Inventories

Inventories net of reserves are summarized as follows:

	June 30, 2013	December 31, 2012
Raw Materials	\$5,371	\$6,493
Work in process	2,789	2,950
Finished Goods	6,623	6,659
	14,783	16,102
Less current inventory	(10,500)	(11,319)
	4,283	4,783
Less reserve for slow moving and obsolete inventory	(1,893)	(2,185)
	\$2,390	\$2,598

BLONDER TONGUE LABORATORIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands)

(unaudited)

Inventories are stated at the lower of cost, determined by the first-in, first-out (“FIFO”) method, or market.

The Company periodically analyzes anticipated product sales based on historical results, current backlog and marketing plans. Based on these analyses, the Company anticipates that certain products will not be sold during the next twelve months. Inventories that are not anticipated to be sold in the next twelve months, have been classified as non-current.

Approximately 70% and 64% of the non-current inventories were comprised of finished goods at June 30, 2013 and December 31, 2012, respectively. The Company has established a program to use interchangeable parts in its various product offerings and to modify certain of its finished goods to better match customer demands. In addition, the Company has instituted additional marketing programs to dispose of the slower moving inventories.

The Company continually analyzes its slow-moving, excess and obsolete inventories. Based on historical and projected sales volumes and anticipated selling prices, the Company establishes reserves. Inventory that is in excess of current and projected use is reduced by an allowance to a level that approximates its estimate of future demand. Products that are determined to be obsolete are written down to net realizable value.

Note 7 – Debt

On August 6, 2008, the Company entered into a Revolving Credit, Term Loan and Security Agreement with Sovereign Business Capital (“**Sovereign**”), a division of Sovereign Bank, pursuant to which the Company obtained an \$8,000 credit facility from Sovereign (the “**Sovereign Financing**”). The Company and Sovereign entered into a series of amendments to the foregoing Revolving Credit, Term Loan and Security Agreement (as so amended, the “**Sovereign Agreement**”) which, among other things, increased the Sovereign Financing to \$12,850 consisting of (i) a \$8,500 asset-based revolving credit facility (“**Revolver**”) and (ii) a \$4,350 term loan facility (“**Term Loan**”), each expiring on February 1, 2015. The amounts which may be borrowed under the Revolver are based on certain percentages of

Eligible Receivables and Eligible Inventory, as such terms are defined in the Sovereign Agreement. The obligations of the Company under the Sovereign Agreement are secured by substantially all of the assets of the Company and certain of its subsidiaries.

Under the Sovereign Agreement, the Revolver bears interest at a rate per annum equal to the prime lending rate announced from time to time by Sovereign (“**Prime**”) plus 0.75% or the LIBOR rate plus 3.50%. The Term Loan bears interest at a rate per annum equal to Prime plus 1.00% or the LIBOR rate plus 3.75%. Prime was 3.25% at June 30, 2013. LIBOR rate loans under the Sovereign Agreement may be borrowed for interest periods of one, three or six months. The LIBOR rates for interest periods of one-month, three-months and six-months were 0.22%, 0.28% and 0.42%, respectively, at June 30, 2013. The interest rates above became effective on April 1, 2013, pursuant to the terms of the Fourth Amendment described below.

On March 27, 2013, the Company entered into a Fourth Amendment to Revolving Credit, Term Loan and Security Agreement with Sovereign (the “**Fourth Amendment**”), to amend the Sovereign Financing. The Fourth Amendment (i) increased the interest rates applicable to the Revolver and the Term Loan by one half of one percent, effective as of April 1, 2013, subject to being reduced by one quarter of one percent effective as of the date on which the Company delivers to Sovereign its financial statements for the fiscal quarter ending June 30, 2013, evidencing compliance with the Sovereign Agreement and continuing compliance with the Sovereign Agreement through such date of delivery, and further reduced by an additional one quarter of one percent, effective as of the date on which the Company delivers to Sovereign its audited financial statements for the fiscal year ending December 31, 2013, evidencing compliance with the Sovereign Agreement and continuing compliance with the Sovereign Agreement through such date of delivery; (ii) retroactively effective as of December 31, 2012, eliminated the minimum net income covenant and replaced the same with a minimum EBITDA covenant tested as of and for the fiscal year ended December 31, 2012 and as of and for each subsequent fiscal year ending on December 31 thereafter, (iii) modified the definition of Net Income (as defined in the Sovereign Agreement), retroactively effective as of December 31, 2012; and (iv) modified the fixed charge coverage ratio, effective for each of the trailing four fiscal quarters ending in 2013. The Company was in compliance with the Sovereign Agreement as of June 30, 2013 and anticipates being in continuing compliance with the Sovereign Agreement through the date of delivery to Sovereign of its financial statements for the second quarter. As such, the Company expects the interest rates applicable to both the Revolver and the Term Loan to be decreased by one quarter of one percent, effective as of such date of delivery.

BLONDER TONGUE LABORATORIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands)

(unaudited)

The outstanding principal balance of the Revolver was \$1,589 at June 30, 2013. The Term Loan requires equal monthly principal payments of approximately \$18 each, plus interest, with the remaining balance due at maturity. The outstanding principal balance of the Term Loan was \$4,083 at June 30, 2013.

The Sovereign Agreement contains customary representations and warranties as well as affirmative and negative covenants, including certain financial covenants. The Sovereign Agreement contains customary events of default, including, among others, non-payment of principal, interest or other amounts when due.

Note 8 – Related Party Transactions

As of June 30, 2013 and December 31, 2012, the Chief Executive Officer was indebted to the Company in the amount of \$120 and \$123, respectively, for which no interest has been charged. This indebtedness arose from a series of cash advances, the latest of which was advanced in February 2002 and is included in other assets at June 30, 2013 and December 31, 2012. Payments on this indebtedness ceased in November 2008 when the Chief Executive Officer filed a voluntary petition under Chapter 11 of the United States Bankruptcy Code and the indebtedness became subject to the automatic stay provisions of the United States Bankruptcy Code. On July 29, 2009 a plan of reorganization in connection with the Chief Executive Officer's bankruptcy case was confirmed by the United States Bankruptcy Court for the District of New Jersey.

Under the confirmed plan of reorganization, the Chief Executive Officer will be obligated to pay a pro-rata share, with all other unsecured pre-petition obligations, of the excess, if any, of his disposable income after the payment of all administrative claims and other expenses. The actual amount that the Company may expect to receive pursuant to the confirmed plan and the date on which required payments would commence are not presently determinable. Since May 2010, however, the Chief Executive Officer has made elective payments to the Company to reduce the indebtedness. Such elective payments aggregated \$20 through June 30, 2013.

Note 9 – Legal Proceedings

The Company is a party to certain proceedings incidental to the ordinary course of its business, none of which, in the current opinion of management, is likely to have a material adverse effect on the Company's business, financial condition, results of operations, or cash flows.

In addition, on June 19, 2012, K Tech Telecommunications, Inc. ("**K Tech**") filed a patent infringement complaint against the Company and RLD in the U.S. District Court for the Central District of California, captioned as *K Tech v. Blonder Tongue Laboratories, Inc. and R.L. Drake Holdings, LLC*, CV12-05316 (the "**Litigation**"). K Tech subsequently filed an amended complaint to add Seller as an additional defendant. The Litigation alleges that the Company and RLD infringe one or more claims of U.S. Patent Nos. 6,785,903, 7,487,533, 7,761,893, and 7,984,469 (the "**K Tech Patents**") and seeks (a) a finding of patent infringement; (b) an injunction against the Company and RLD from further alleged infringement; (c) an award of actual damage suffered by K Tech; and (d) an award of costs relating to the Litigation. The Litigation complaint alleges that Company products DQMx-01, DQMx-02, DQMx-03, DQMx-04, DQMx-10, DQMx-11, DQMx-12, DQMx-13, DQMx-20, DQMx-21, DQMx-22, DQMx-30, DQMx-31, DQMx-40, and MUX-2D-QAM infringe one or more of the K Tech Patents, and alleges that RLD products MQM60001, MQM10000, DQT1000, and MEQ1000 infringe one or more of the K Tech Patents. All of the aforementioned products are part of the Company's digital headend product category. While the full scope of the claims or available defenses, or the likely outcome of the alleged claims of infringement, have not been determined by the Company, based on the analysis performed by the Company to date, the Company believes that there are reasoned grounds for finding that the K Tech Patents are invalid or unenforceable. The Company is defending the Litigation, and has answered the complaint denying the allegations of infringement and asserting defenses of invalidity of the K Tech Patents. The Company is also engaged in continuing discussions with K Tech to potentially resolve the Litigation.

Note 10 – Subsequent Events

The Company has evaluated subsequent events through the filing of its consolidated financial statements with the SEC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

In addition to historical information, this Quarterly Report contains forward-looking statements regarding future events relating to such matters as anticipated financial performance, business prospects, technological developments, new products, research and development activities and similar matters. The Private Securities Litigation Reform Act of 1995, the Securities Act of 1933 and the Securities Exchange Act of 1934 provide safe harbors for forward-looking statements. In order to comply with the terms of these safe harbors, the Company notes that a variety of factors could cause the Company's actual results and experience to differ materially and adversely from the anticipated results or other expectations expressed in the Company's forward-looking statements. The risks and uncertainties that may affect the operation, performance, development and results of the Company's business include, but are not limited to, those matters discussed herein in the section entitled Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations. The words "believe," "expect," "anticipate," "project," "target," "intend," "plan," "seek," "estimate," "endeavor," "should," "could," "may" and similar expressions are intended to identify forward-looking statements. In addition, any statements that refer to projections for our future financial performance, our anticipated growth trends in our business and other characterizations of future events or circumstance are forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date hereof. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the risk factors described in other documents the Company files from time to time with the Securities and Exchange Commission, including without limitation, the Company's Annual Report on Form 10-K for the year ended December 31, 2012 (See Item 1 – Business; Item 1A – Risk Factors; Item 3 – Legal Proceedings and Item 7 – Management's Discussion and Analysis of Financial Condition and Results of Operations).

General

The Company was incorporated in November, 1988, under the laws of Delaware as GPS Acquisition Corp. for the purpose of acquiring the business of Blonder-Tongue Laboratories, Inc., a New Jersey corporation, which was founded in 1950 by Ben H. Tongue and Isaac S. Blonder to design, manufacture and supply a line of electronics and systems equipment principally for the private cable industry. Following the acquisition, the Company changed its name to Blonder Tongue Laboratories, Inc. The Company completed the initial public offering of its shares of Common Stock in December, 1995.

Today the Company is a technology-development and manufacturing company that delivers television signal encoding, transcoding, digital transport and broadband product solutions for a broad range of applications. The markets served include cable televisions systems, the multi-dwelling unit communities, the lodging/hospitality market,

and institutional systems including hospitals, prisons and schools. The technology requirements of these markets change rapidly and the Company's research and development team is continually delivering high performance-lower cost solutions to meet customers' needs.

The Company's strategy is focused on the development of products for digital signal generation and transmission and, since 2008, the Company entered into and renewed various agreements for technologies in concert with the new digital encoder and EdgeQAM line of products. As a result, the Company continues to significantly expand its digital product lines. The continuing evolution of the Company's product lines will focus on the increased needs created in the digital space by Internet Protocol Television ("IPTV"), digital standard definition ("SD") and high definition ("HD") video content and the transport of these signals over state of the art broadband networks.

The Company has seen a continuing shift in product mix from analog products to digital products and expects this shift to continue. Sales of digital video headend products were \$3,216,000 and \$3,841,000 in the second three months of 2013 and 2012, respectively, and \$6,408,000 and \$6,474,000 in the first six months of 2013 and 2012, respectively. Sales of analog video headend products were \$1,312,000 and \$1,798,000 in the second three months of 2013 and 2012, respectively, and \$2,595,000 and \$3,596,000 in the first six months of 2013 and 2012, respectively. Any substantial decrease in sales of analog products without a related increase in digital products could have a material adverse effect on the Company's results of operations, financial condition and cash flows.

In April 2010, the Company obtained a \$4.1 million purchase commitment for the first member of its EdgeQAM family of products (the "EQAM-400") from World Cinema Inc. ("World Cinema"), a supplier of free-to-guest digital and HD television to the hospitality market. These shipments were made in the second and third quarters of 2010, during which time the EQAM-400 was exclusive to World Cinema. Since then, the parties have agreed to extend the exclusivity arrangement, with the most recent extension occurring in December, 2012 which extended exclusivity through the end of 2013. In connection with the most recent extension, World Cinema committed to purchase approximately \$1.5 million of EQAM-400 from the fourth quarter of 2012 through the fourth quarter of 2013. World Cinema's purchases of this product were \$429,000 and \$577,000 in the three months ended June 30, 2013 and 2012, respectively, and \$429,000 and \$1,109,000 in the six months ended June 30, 2013 and 2012, respectively. Future purchase commitments by World Cinema would allow them to further extend this exclusivity arrangement. The EQAM-400 product accepts HD content received by satellite via its IP Gigabit Ethernet (GbE) input, adds content protection by utilizing Pro:Idiom™ encryption, and QAM modulates it for distribution over standard coax networks.

On February 1, 2012, the Company's wholly-owned subsidiary, R. L. Drake Holdings, LLC ("**RLD**"), a Delaware limited liability company, acquired substantially all of the assets and assumed certain specified liabilities of R. L. Drake, LLC, a Delaware limited liability company ("**Seller**") (the "**RLD Acquisition**"), pursuant to an Asset Purchase Agreement of even date, by and among RLD, Seller, R. L. Drake Acquisition Corporation, a Delaware corporation, and WBMK Holding Company, an Ohio corporation, as amended by a certain First Amendment to Asset Purchase Agreement dated February 3, 2012 (as so amended, the "**Asset Purchase Agreement**"). The purchase price was approximately \$7,020,000, which included a working capital adjustment of approximately \$545,000, plus contingent purchase price payments of up to \$1,500,000 in the aggregate that may be made over the three-year period after closing if certain financial results are realized. The assets acquired from Seller include assets used in the manufacturing and delivery of electronic communications solutions for cable television systems, digital television reception, video signal distribution and digital video encoding, including equipment, supplies and other tangible personal property, inventory, accounts receivable, business records, trademarks and other intellectual property rights. The Asset Purchase Agreement includes customary representations and warranties and post-closing covenants, including indemnification obligations, subject to certain limitations, on behalf of the parties with respect to the Asset Purchase Agreement. In addition, the Seller and certain members of the Seller agreed, for a period of five (5) years, not to engage in any business that competes with the business formerly conducted by Seller and/or sold by Seller to RLD or the business presently conducted by RLD or any affiliate of RLD or solicit employees or customers of Seller or RLD or any affiliate of RLD.

RLD manufactures and distributes similar products to those currently being produced by the Company. The acquisition allows the Company to leverage the combined research and development and sales and marketing departments to shorten the development and manufacturing cycle and deliver a more complete compliment of business and product solutions for the markets the Company serves.

The Company's manufacturing is allocated primarily between its facility in Old Bridge, New Jersey the ("**Old Bridge Facility**") and a key contract manufacturer located in the People's Republic of China ("**PRC**"). The Company currently manufactures most of its digital products, including the latest encoder and EdgeQAM collections at the Old Bridge Facility. Since 2007 the Company has transitioned and continues to manufacture certain high volume, labor intensive products, including many of the Company's analog products, in the PRC, pursuant to a manufacturing agreement that governs the production of products that may from time to time be the subject of purchase orders submitted by (and in the discretion of) the Company. The Company may transition additional products to the PRC if determined by the Company to be advantageous based upon changing business and market conditions. Manufacturing products both at the Company's Old Bridge Facility as well as in the PRC, enables the Company to realize cost reductions while maintaining a competitive position and time-to-market advantage. As a result of the RLD Acquisition, the Company assumed certain post-closing obligations for a leased manufacturing, engineering, sales and administrative facility in Franklin, Ohio at which the RLD products were being manufactured. The lease for this facility expired in November, 2012. In anticipation of such expiration, in August 2012 the Company secured an alternative smaller space in Miamisburg, Ohio, that it believes is more suitable to its continuing business activities. The Company fully transitioned the manufacture of RLD products from the Franklin, Ohio facility to the Old Bridge Facility during 2012.

The Company may, from time to time, provide manufacturing, research and development and product support services for other companies' products. In this regard, the Company currently provides these services in connection with

contract manufacturing an electronic on-board recorder for XRS Corporation (“**XRS**”). Sales by the Company to XRS were \$1,070,000 and \$571,000 in the three months ended June 30, 2013 and 2012, respectively, and \$2,030,000 and \$1,146,000 in the first six months of 2013 and 2012, respectively.

Results of Operations

Second three months of 2013 Compared with second three months of 2012

Net Sales. Net sales decreased \$657,000 or 8.4%, to \$7,146,000 in the second three months of 2013 from \$7,803,000 in the second three months of 2012. The decrease is primarily attributed to a decrease in sales of both digital video headend products and analog video headend products, offset by an increase in sales of contract manufactured products. The Company believes that the overall decrease in headend product sales is the result of generally tight credit and a reluctance on the part of system integrators to undertake capital spending programs that they feel can be deferred, in light of continuing economic uncertainties. Sales of digital video headend products were \$3,216,000 and \$3,841,000, sales of analog video headend products were \$1,312,000 and \$1,798,000 and sales of contract manufactured products were \$1,070,000 and \$571,000 in the second three months of 2013 and 2012, respectively. The increase in sales of contract manufactured products during the second three months of 2013, resulted from additional orders for electronic on-board recorders from XRS. The Company has experienced and expects to continue to experience a shift in product mix from analog products to digital products. The integration of the RLD product line had a positive impact on market penetration. RLD sales were \$1,999,000 and \$1,851,000 for the second three months of 2013 and 2012, respectively.

Cost of Goods Sold. Cost of goods sold decreased to \$4,694,000 for the second three months of 2013 from \$5,200,000 for the second three months of 2012 and decreased as a percentage of sales to 65.7% from 66.6%. The decrease was primarily due to a decrease in sales. The decrease as a percentage of sales was primarily attributed to a more favorable product mix as well as certain manufacturing efficiencies achieved as a result of the full integration of RLD. The Company expects cost of goods sold as a percentage of sales to decrease in the remaining quarters of 2013 as products manufactured by RLD in Ohio will have been transitioned to the Old Bridge facility and as overall product mix is anticipated to improve.

Selling Expenses. Selling expenses increased to \$885,000 for the second three months of 2013 from \$822,000 in the second three months of 2012, and increased as a percentage of sales to 12.4% for the second three months of 2013 from 10.5% in the second three months of 2012. The \$63,000 increase was primarily the result of an increase in salary expense (including fringe benefits) of \$17,000 due to salary adjustments, an increase of department supplies of \$27,000 and increase in advertising and trade show expenses of \$21,000. The increases are the result of the Company's efforts to foster brand awareness and greater market penetration. The percentage increase was primarily the result of reduced sales..

General and Administrative Expenses. General and administrative expenses decreased to \$1,314,000 for the second three months of 2013 from \$1,350,000 for the second three months of 2012, but increased as a percentage of sales to 18.4% for the second three months of 2013 from 17.2% for the second three months of 2012. The \$36,000 decrease was primarily the result of decreased salary expense (including fringe benefits) of \$63,000 due to decreased headcount

and decreased building overhead cost of \$40,000, both related to the synergies associated with the integration of RLD following the RLD Acquisition, offset by an increase in professional fees of \$15,000 and local taxes of \$66,000. The percentage increase was primarily the result of reduced sales.

Research and Development Expenses. Research and development expenses decreased to \$836,000 in the second three months of 2013 from \$930,000 in the second three months of 2012 and decreased as a percentage of sales to 11.7% for the second three months of 2013 from 11.9% for the second three months of 2012. This \$94,000 decrease is primarily the result of a decrease in salary expense (including fringe benefits) of \$69,000 associated with a decreased headcount and a \$50,000 decrease in leased and rental equipment, both related to the synergies associated with the integration of RLD following the RLD Acquisition. The percentage decrease was primarily the result of these same decreases as well as the reduced sales.

Operating Loss. Operating loss of \$(583,000) for the second three months of 2013 represents an increase from the operating loss of \$(499,000) for the second three months of 2012. Operating loss as a percentage of sales was (8.2%) in the second three months of 2013 compared to (6.4%) in the second three months of 2012.

Other Expense. Interest expense decreased to \$77,000 in the second three months of 2013 from \$84,000 in the second three months of 2012. The decrease is the result of lower average borrowing.

Income Taxes. The current provision for income taxes for the second three months of 2013 and 2012 was zero due to a projected taxable loss. A valuation allowance was recorded for the benefit of the 2012 tax loss and was adjusted accordingly for the impact of the current period loss.

First six months of 2013 Compared with first six months of 2012

Net Sales. Net sales decreased \$446,000, or 3.1%, to \$13,865,000 in the first six months of 2013 from \$14,311,000 in the first six months of 2012. The decrease is primarily attributed to a decrease in sales of analog video headend products and hybrid fiber-coax (“HFC”) distribution products, offset by an increase in contract manufactured products. The Company believes that the overall decrease in analog headend product sales and HFC distribution products is the result of generally tight credit and a reluctance on the part of system integrators to undertake capital spending programs that they feel can be deferred, in light of continuing economic uncertainties. Sales of analog video headend products were \$2,595,000 and \$3,596,000, HFC distribution products were \$2,236,000 and \$2,446,000 and contract manufactured products were \$2,030,000 and \$1,146,000 in the first six months of 2013 and 2012, respectively. The increase in sales of contract manufactured products during the first six months of 2013 resulted from additional orders for electronic on-board recorders from XRS. The Company has experienced and expects to continue to experience a shift in product mix from analog products to digital products. The integration of the RLD product line had a positive impact on market penetration. RLD sales were \$4,556,000 and \$3,252,000 for the first six months of 2013 and 2012, respectively.

Cost of Goods Sold. Cost of goods sold decreased to \$8,925,000 for the first six months of 2013 from \$9,797,000 for the first six months of 2012 and decreased as a percentage of sales to 64.4% from 68.5%. The decrease was primarily due to an increase in sales of higher margin products as well as certain manufacturing efficiencies achieved as a result of the full integration of RLD. The decrease as a percentage of sales was primarily attributed to an overall reduction in manufacturing overhead, as well as a more favorable product mix. As a result of the RLD Acquisition, \$865,000 of costs of goods sold was included in the first six months of 2012, which represented 61.7% of RLD's related net sales. The Company expects cost of goods sold as a percentage of sales to decrease slightly in the remaining quarters of 2013 as overall product mix is anticipated to improve.

Selling Expenses. Selling expenses increased to \$1,711,000 for the first six months of 2013 from \$1,622,000 in the first six months of 2012, and increase as a percentage of sales to 12.3% for the first six months of 2013 from 11.3% for the first six months of 2012. The \$89,000 increase was primarily the result of an increase in salary expense (including fringe benefits) of \$36,000 due to salary adjustments and an increase in advertising and trade show expenses of \$35,000. The increases are the result of the Company's efforts to foster brand awareness and greater market penetration.

General and Administrative Expenses. General and administrative expenses decreased to \$2,534,000 for the first six months of 2013 from \$2,947,000 for the first six months of 2012, and decreased as a percentage of sales to 18.3% for the first six months of 2013 from 20.5% for the first six months of 2012. The \$413,000 decrease was primarily the result of decreased professional fees of \$253,000 and decreased salary expense (including fringe benefits) of \$166,000 due to decreased headcount, both derived primarily from the synergies associated with the integration of RLD following the RLD Acquisition. The percentage decrease was primarily the result of the aforementioned decreases.

Research and Development Expenses. Research and development expenses decreased to \$1,691,000 in the first six months of 2013 from \$1,837,000 in the first six months of 2012 and decreased as a percentage of sales to 12.2% for the first six months of 2013 from 12.8% for the first six months of 2012. This \$146,000 decrease is primarily the result of a decrease in a salary expense (including fringe benefits) of \$71,000 associated with a decreased headcount and a decrease in leased equipment expense of \$72,000, derived primarily from the synergies associated with the integration of RLD following the RLD Acquisition. The percentage decrease was primarily the result of the aforementioned decreases.

Operating Loss. Operating loss of \$(996,000) for the first six months of 2013 represents a decrease from the operating loss of \$(1,892,000) for the first six months of 2012. Operating loss as a percentage of sales was (7.2%) in the first six months of 2013 compared to (13.2%) in the first six months of 2012.

Other Expense. Interest expense decreased to \$146,000 in the first six months of 2013 from \$171,000 in the first six months of 2012. The decrease is the result of lower average borrowing.

Income Taxes. The current provision for income taxes for the first six months of 2013 and 2012 was zero due to a projected taxable loss. A valuation allowance was recorded for the benefit of the 2012 tax loss and was adjusted accordingly for the impact of the current period loss.

Liquidity and Capital Resources

As of June 30, 2013 and December 31, 2012, the Company's working capital was \$9,838,000 and \$10,471,000, respectively. The decrease in working capital is primarily due to a decrease in accounts receivable of \$728,000, and a decrease in inventories of \$819,000, offset by a decrease in accounts payable of \$505,000 and a decrease in the line of credit of \$655,000.

The Company's net cash provided by operating activities for the six month period ended June 30, 2013 was \$923,000, primarily due to a decrease in accounts receivable of \$728,000 resulting from an improvement in our annual collection cycle, a decrease in inventories of \$1,027,000 due to an increase in sales of existing inventories, cash used for prepaid expenses of approximately \$193,000, and cash used to reduce accounts payable of approximately \$346,000.

Cash used in investing activities for the six month period ended June 30, 2013 was \$410,000, of which \$333,000 was attributable to additional license fees and \$77,000 was attributable to capital expenditures.

Cash used in financing activities was \$793,000 for the first six months of 2013, which was comprised of net pay downs on the Revolver of \$655,000 and repayment of debt of \$138,000.

On August 6, 2008, the Company entered into a Revolving Credit, Term Loan and Security Agreement with Sovereign Business Capital (“**Sovereign**”), a division of Sovereign Bank, pursuant to which the Company obtained an \$8,000,000 credit facility from Sovereign (the “**Sovereign Financing**”). The Company and Sovereign entered into a series of amendments to the foregoing Revolving Credit, Term Loan and Security Agreement (as so amended, the “**Sovereign Agreement**”) which, among other things, increased the Sovereign Financing to \$12,850,000 consisting of (i) a \$8,500,000 asset-based revolving credit facility (“**Revolver**”) and (ii) a \$4,350,000 term loan facility (“**Term Loan**”), each expiring on February 1, 2015. The amounts which may be borrowed under the Revolver are based on certain percentages of Eligible Receivables and Eligible Inventory, as such terms are defined in the Sovereign Agreement. The obligations of the Company under the Sovereign Agreement are secured by substantially all of the assets of the Company and certain of its subsidiaries.

Under the Sovereign Agreement, the Revolver bears interest at a rate per annum equal to the prime lending rate announced from time to time by Sovereign (“**Prime**”) plus 0.75% or the LIBOR rate plus 3.50%. The Term Loan bears interest at a rate per annum equal to Prime plus 1.00% or the LIBOR rate plus 3.75%. Prime was 3.25% at June 30, 2013. LIBOR rate loans under the Sovereign Agreement may be borrowed for interest periods of one, three or six months. The LIBOR rates for interest periods of one-month, three-months and six-months were 0.22%, 0.28% and 0.42%, respectively, at June 30, 2013. The interest rates above became effective on April 1, 2013, pursuant to the terms of the Fourth Amendment described below.

On March 27, 2013, the Company entered into a Fourth Amendment to Revolving Credit, Term Loan and Security Agreement with Sovereign (the “**Fourth Amendment**”), to amend the Sovereign Financing. The Fourth Amendment (i) increased the interest rates applicable to the Revolver and the Term Loan by one half of one percent, effective as of April 1, 2013, subject to being reduced by one quarter of one percent effective as of the date on which the Company delivers to Sovereign its financial statements for the fiscal quarter ending June 30, 2013, evidencing compliance with the Sovereign Agreement and continuing compliance with the Sovereign Agreement through such date of delivery, and further reduced by an additional one quarter of one percent, effective as of the date on which the Company delivers to Sovereign its audited financial statements for the fiscal year ending December 31, 2013, evidencing compliance with the Sovereign Agreement and continuing compliance with the Sovereign Agreement through such date of delivery; (ii) retroactively effective as of December 31, 2012, eliminated the minimum net income covenant and replaced the same with a minimum EBITDA covenant tested as of and for the fiscal year ended December 31, 2012 and as of and for each subsequent fiscal year ending on December 31 thereafter, (iii) modified the definition of Net Income (as defined in the Sovereign Agreement), retroactively effective as of December 31, 2012; and (iv) modified the fixed charge coverage ratio, effective for each of the trailing four fiscal quarters ending in 2013. The Company was in compliance with the Sovereign Agreement as of June 30, 2013 and anticipates being in continuing

compliance with the Sovereign Agreement through the date of delivery to Sovereign of its financial statements for the second quarter. As such, the Company expects the interest rates applicable to both the Revolver and the Term Loan to be decreased by one quarter of one percent, effective as of such date of delivery.

The outstanding principal balance of the Revolver was \$1,589,000 at June 30, 2013. The Term Loan requires equal monthly principal payments of approximately \$18,000 each, plus interest, with the remaining balance due at maturity. The outstanding principal balance of the Term Loan was \$4,083,000 at June 30, 2013.

The Sovereign Agreement contains customary representations and warranties as well as affirmative and negative covenants, including certain financial covenants. The Sovereign Agreement contains customary events of default, including, among others, non-payment of principal, interest or other amounts when due.

The Company's primary sources of liquidity are its existing cash balances, cash generated from operations and amounts available under the Sovereign Financing. As of June 30, 2013, the Company had approximately \$1,589,000 outstanding under the Revolver and \$2,376,000 of additional availability for borrowing under the Revolver. The Company anticipates these sources of liquidity will be sufficient to fund its operating activities, anticipated capital expenditures and debt repayment obligations for the next twelve months.

The Company's primary long-term obligations are for payment of interest and principal on the Company's Revolver and Term Loan, both of which expire on February 1, 2015. The Company expects to use cash generated from operations to meet its long-term debt obligations, and anticipates refinancing its long-term debt obligations at maturity. The Company considers opportunities to refinance its existing indebtedness based on market conditions. Although the Company may refinance all or part of its existing indebtedness in the future and will be required to do so by February 1, 2015, there can be no assurances that it will do so. Changes in the Company's operating plans, lower than anticipated sales, increased expenses, acquisitions or other events may require the Company to seek additional debt or equity financing. There can be no assurance that financing will be available on acceptable terms or at all. Debt financing, if available, could impose additional cash payment obligations and additional covenants and operating restrictions. The Company also expects to make financed and unfinanced long-term capital expenditures from time to time in the ordinary course of business, which capital expenditures were \$77,000 and \$102,000 in the six months ended June 30, 2013 and the year ended December 31, 2012, respectively. The Company expects to use cash generated from operations, amounts available under its credit facility and purchase-money financing to meet any anticipated long-term capital expenditures.

New Accounting Pronouncements

See Note 5 of the Notes to Consolidated Financial Statements for a full description of recent accounting pronouncements, including the anticipated dates of adoption and the effects on the Company's consolidated financial position and results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable to smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES

The Company maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in the Company's reports filed or submitted pursuant to the Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the design and operation of the Company's disclosure controls and procedures as of the end

of the period covered by this report. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at June 30, 2013.

During the quarter ended June 30, 2013, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a party to certain proceedings incidental to the ordinary course of its business, none of which, in the current opinion of management, is likely to have a material adverse effect on the Company's business, financial condition, results of operations, or cash flows.

In addition, on June 19, 2012, K Tech Telecommunications, Inc. ("**K Tech**") filed a patent infringement complaint against the Company and RLD in the U.S. District Court for the Central District of California, captioned as *K Tech v. Blonder Tongue Laboratories, Inc. and R.L. Drake Holdings, LLC*, CV12-05316 (the "**Litigation**"). K Tech subsequently filed an amended complaint to add Seller as an additional defendant. The Litigation alleges that the Company and RLD infringe one or more claims of U.S. Patent Nos. 6,785,903, 7,487,533, 7,761,893, and 7,984,469 (the "**K Tech Patents**") and seeks (a) a finding of patent infringement; (b) an injunction against the Company and RLD from further alleged infringement; (c) an award of actual damage suffered by K Tech; and (d) an award of costs relating to the Litigation. The Litigation complaint alleges that Company products DQMx-01, DQMx-02, DQMx-03, DQMx-04, DQMx-10, DQMx-11, DQMx-12, DQMx-13, DQMx-20, DQMx-21, DQMx-22, DQMx-30, DQMx-31, DQMx-40, and MUX-2D-QAM infringe one or more of the K Tech Patents, and alleges that RLD products MQM60001, MQM10000, DQT1000, and MEQ1000 infringe one or more of the K Tech Patents. All of these products are part of the Company's digital headend product category. While the full scope of the claims or available defenses, or the likely outcome of the alleged claims of infringement, have not been determined by the Company, based on the analysis performed by the Company to date, the Company believes that there are reasoned grounds for finding that the K Tech Patents are invalid or unenforceable. The Company is defending the Litigation, and has answered the complaint denying the allegations of infringement and asserting defenses of invalidity of the K Tech Patents. The Company is also engaged in continuing discussions with K Tech to potentially resolve the Litigation.

As of June 30, 2013, the Company's Chief Executive Officer was indebted to the Company in the amount of \$120,000 for which no interest has been charged. This indebtedness arose from a series of cash advances made to the Chief Executive Officer, the latest of which was advanced in February, 2002. Payments on this indebtedness ceased in November 2008 when the Chief Executive Officer and his spouse filed a voluntary petition under Chapter 11 of the United States Bankruptcy Code and the indebtedness became subject to the automatic stay provisions of the United States Bankruptcy Code. On July 29, 2009 a plan of reorganization in connection with the Chief Executive Officer's bankruptcy case was confirmed by the United States Bankruptcy Court for the District of New Jersey.

Under the confirmed plan of reorganization, the Chief Executive Officer will be obligated to pay a pro-rata share, with all other unsecured pre-petition obligations, of the excess, if any, of his disposable income after the payment of all administrative claims and other expenses. The actual amount that the Company may expect to receive pursuant to the confirmed plan and the date on which required payments would commence are not presently determinable. Since May

2010, however, the Chief Executive Office has made elective payments to the Company to reduce the indebtedness. Such elective payments aggregated \$20,000 through June 30, 2013.

ITEM 6. EXHIBITS

The exhibits are listed in the Exhibit Index appearing at page 18 herein.
