ABOUT THE ANNUAL MEETING

Why did I receive a one-page Notice of Internet Availability of Proxy Materials in the mail rather than a full set of proxy materials?

The Securities and Exchange Commission (SEC) rules allow companies to provide stockholders with access to proxy materials over the Internet rather than by mailing the proxy materials to stockholders. To conserve natural resources and reduce costs, we are sending a Notice of Internet Availability of Proxy Materials to many of our stockholders. The Notice provides instructions for accessing the proxy materials online or for requesting printed copies of the proxy materials. The Notice also provides instructions for requesting the delivery of the proxy materials for future Annual Meetings in printed form by mail or electronically by email.

1

Why did I receive these proxy materials?

The Company's Board of Directors (the Board) is providing these proxy materials to you in connection with the 2016 Annual Meeting of Stockholders, which will take place on May 19, 2016 (the Annual Meeting). As a stockholder of the Company on the Record Date, you are entitled to vote your shares at the Annual Meeting.

What is the purpose of the Annual Meeting?

There are currently three proposals scheduled for consideration and vote at the Annual Meeting:

1. the re-election of two Class III directors, each to serve a three-year term expiring in 2019;
2. a non-binding proposal to approve the compensation of our named executive officers as disclosed in this proxy statement (the say-on-pay vote); and
3. the ratification of the appointment of Grant Thornton LLP as the Company's independent registered public accounting firm for the year ending December 31, 2016.

Could other matters be considered and voted upon at the meeting?

Our Board does not expect to bring any other matter before the Annual Meeting and is not aware of any other matter that may be presented for consideration at the meeting. In addition, pursuant to our By-laws, the time has elapsed for any stockholder to properly bring a matter before the meeting. However, if any other matter does properly come before the meeting, the proxy holders will vote the proxies at their discretion.

How many votes may stockholders cast?

Each share of common stock that was outstanding on the record date is entitled to one vote on each matter submitted to a vote at the Annual Meeting. As of the record date, there were 27,303,868 shares of common stock outstanding and entitled to vote at the Annual Meeting.

How many shares must be present to hold the Annual Meeting?

A majority of the outstanding shares of common stock must be present, in person (online) or represented by proxy, at the Annual Meeting in order to hold the Annual Meeting and conduct business. This is called a quorum. In determining whether a quorum exists, the inspector of elections will count as present shares owned by holders who are present but abstain from voting, shares owned by stockholders who do not vote on one or more proposals, withheld votes, and broker non-votes (see *What is a broker non-vote?* below).

What are my voting options for each proposal? How does the Board of Directors recommend that I vote? How many votes are required to approve each proposal? How are the votes counted?

Majority Voting Policy in Director Elections. Although our directors are elected by plurality vote, our Board has adopted a majority voting policy. Each of our current directors, including the director nominees, has delivered an irrevocable resignation letter that the Board has the power to accept or decline in the event that the director does not receive more FOR than AGAINST votes in an uncontested election. We have provided more information about our majority voting policy under the heading Proposal No. 1 Election of Directors.

Any Other Matters. Any other matter properly brought before the Annual Meeting will be decided by the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote on the matter, unless a different vote is required by statute, NYSE listing standards, or our certificate of incorporation or By-laws.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Many of our stockholders hold their shares through a broker or other nominee rather than in their own name. As summarized below, there are several distinctions between shares held of record and those held beneficially.

Stockholders of Record. If your shares are registered in your name with the Company's transfer agent, American Stock Transfer & Trust, you are the stockholder of record of those shares.

Beneficial Owners. If your shares are held in a bank account, brokerage account, or by another nominee, you are the beneficial owner of those shares, and your bank, broker, or nominee (your broker) is the stockholder of record.

How do I vote?

Stockholders of Record. If you are a stockholder of record, you may vote in any of the following ways:

- (1) online at <http://www.proxyvote.com>;
- (2) by telephone, by calling 1-800-690-6903;
- (3) if you received a paper copy of our proxy materials, by mail, by signing, dating and mailing the proxy card in the enclosed postage-paid envelope, which must be received by the date indicated on the proxy card; or
- (4) during the Annual Meeting by your attendance through our link at www.virtualshareholdermeeting.com/orn2016. You must use the 12-digit Control Number provided in your proxy materials to access this site.

Beneficial Owners. If you are a beneficial owner, you should refer to the proxy card or voting instruction form you received from your broker for an explanation of the voting options that are available to you. If you wish to vote shares that you beneficially own online during the Annual Meeting, you must request, complete, and deliver a proxy from your broker as directed in the materials provided by your broker.

Can my shares be voted if I do not provide voting instructions?

Stockholders of Record. If you are a stockholder of record and do not deliver a proxy or otherwise vote your shares, your shares will not be voted. However, if you execute a proxy or cast a vote (whether online, by telephone, or by proxy card) without giving instructions as to how to vote on one or more proposals, your shares will be voted in accordance with the Board's recommendations on the proposals for which you have not provided specific voting instructions.

Beneficial Owners. If you are a beneficial owner and do not provide your broker with specific voting instructions, your shares will not be voted on any proposal as to which your broker does not have discretionary authority to vote. Brokers generally only have discretionary authority to vote shares held in street name on routine matters. The proposal to ratify the retention of the independent registered public accounting firm is considered a routine matter. The election of directors and the say-on-pay vote are non-routine matters; therefore, if you do not provide voting instructions to your broker on those proposals, your shares will not be voted on those proposals.

What is a broker non-vote ?

A broker non-vote occurs when a broker holding shares for a beneficial owner submits a proxy that votes the shares on one or more proposals, but does not vote (the broker non-vote) on non-routine matters with respect to which the beneficial owner has not given voting instructions. As noted above, if you are a beneficial owner and do not provide voting instructions, the only matter proposed in this proxy statement on which your broker may vote is the ratification of our selection of auditors. If you hold your shares through a broker, bank, or nominee, please follow their instruction as to how to provide them with specific voting instructions.

Can I change or revoke my vote?

Yes. You may revoke your proxy or change your vote at any time before it is voted at the Annual Meeting by (1) filing a written revocation with the Corporate Secretary at the Company's executive offices, (2) submitting online, by mail, or by phone a duly executed proxy bearing a later date, or (3) changing or revoking your vote online at any time before voting is closed at the Annual Meeting at www.virtualshareholdermeeting.com/orn2016.

Who are the proxies?

In connection with the solicitation of proxies for the Annual Meeting, the Board of Directors has appointed Mark R. Stauffer, Peter R. Buchler and Christopher J. DeAlmeida as proxies. All properly executed proxies that specify how the stockholder wishes to vote his shares will be voted in accordance with those instructions.

Who will count the votes?

The Company has appointed Broadridge Financial Solutions, Inc. (Broadridge) to tabulate the votes and act as the Inspector of Elections.

When will the voting results be announced?

We will announce preliminary voting results at the Annual Meeting and will publish the final results in a current report on Form 8-K filed with the SEC within four business days following the meeting, which will be available on our website at www.orionmarinegroup.com.

Who pays for the cost of the proxy solicitation?

The Company bears the expense of preparing, printing, mailing, and distributing the proxy materials. In addition to this solicitation by mail, directors, officers, and other employees of the Company may, without additional compensation, solicit the return of proxies by telephone, messenger, facsimile, or email. The Company will request that brokers and other nominee holders of common stock furnish proxy materials to their beneficial owners. The Company will reimburse such brokers and other nominees for their reasonable out-of-pocket expense in doing so.

DISCUSSION OF THE PROPOSALS

PROPOSAL NO. 1 ELECTION OF DIRECTORS

At the Annual Meeting, stockholders will be asked to elect two directors each to serve on the Company's Board of Directors. Under the Company's By-Laws, the Board may determine, by resolution, the number of directors that the Company will have. The size of the Board is currently set at six persons.

The Company's Certificate of Incorporation and By-Laws provide for a classified Board of Directors, divided into three classes, with each class serving a staggered three-year term. As a result, stockholders generally elect one-third of our Board each year. The current term of each of our two Class III directors, Austin J. Shanfelter and Gene G. Stoever, expires at the 2016 Annual Meeting. On the recommendation of its Nominating and Corporate Governance Committee, the Board has nominated each Messrs. Shanfelter and Stoever for re-election as Class III Directors, with each to serve a three-year term expiring at the 2019 annual meeting. Mr. Shanfelter currently serves as Chairman of the Compensation Committee and Mr. Stoever serves as Chairman of the Audit Committee.

Each of Messrs. Shanfelter and Stoever has indicated that he is willing to serve the three-year directorship term for which he has been nominated. However, if, prior to the Annual Meeting, either of these two director nominees should become unwilling or unable to serve, then (i) the shares represented by proxy will be voted for the election of such other person as may be designated by the Board, (ii) the Board may leave the position unfilled, or (iii) the Board may reduce the authorized number of directors, as provided in the Company's By-Laws.

Please see *The Board of Directors and its Committees* below for information about the director nominees and the other current members of the Board of Directors, each of whom will continue to serve following the Annual Meeting.

Directors are elected by plurality vote; however, our Board has adopted a majority voting policy in uncontested elections. Each of our current directors, including the two director nominees, has delivered an irrevocable resignation letter for the Board's consideration in the event that he does not receive more **FOR** than **AGAINST** votes in an uncontested election. If an incumbent director fails to receive the required vote for re-election, our Board, after considering the recommendation of its Nominating and Corporate Governance Committee and any factors it deems relevant, will determine whether to accept the resignation. Any director whose resignation is under consideration will abstain from participating in that decision.

*The Board recommends that you vote **FOR** election of the director nominees.*

PROPOSAL NO. 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION (SAY-ON-PAY PROPOSAL)

We are seeking stockholder approval of the compensation of our executive officers (our named executive officers or NEOs) as disclosed in this proxy statement. This disclosure includes the Compensation Discussion and Analysis (CD&A), the compensation tables, and the accompanying narrative compensation disclosures. This non-binding advisory proposal, commonly known as a say-on-pay proposal, is required under Section 14A of the Securities Exchange Act of 1934 (the Exchange Act). Stockholders are asked to vote on the following resolution:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed in the Company's proxy statement for the Company's 2016 annual meeting of stockholders pursuant to Item 402 of Regulation S-K of the rules of the Securities and Exchange Commission, is hereby APPROVED.

Our executive compensation program has historically been based on a pay-for-performance philosophy, balancing a fixed base salary with annual cash and long-term equity incentive opportunities. However, given the challenges our Company has faced in recent years, our traditional executive compensation program has been largely curtailed in recent years. Specifically, between 2011 and the end of 2014, the main components of our executive pay program have been a fixed base salary and two modest perquisites (specifically, a car allowance and the Company's matching contribution to the executive's 401(k) plan account).

Our annual cash incentive program has been suspended since 2011. In March 2015, the Compensation Committee approved the payment of modest discretionary bonuses based on Company performance during fiscal 2014 the Company's second consecutive year of record revenue and improved gross margin. However, our executives did not earn any annual incentives for fiscal 2015 performance, discretionary or otherwise.

With respect to our long-term incentive program, the Compensation Committee made multi-year challenge equity grants to our executives in 2011, with a stated commitment to not consider any new long-term incentive awards until at least 2014. In November 2014, the Compensation Committee, reviewing the performance of the Company and the executives, made equity grants to each of our executives. Since those November 2014 awards, our Compensation Committee has not made any new long-term incentive grants to our executives, except for a hire-on grant to Dr. Breaux, who became our Chief Operating Officer in September 2015.

As the Company's financial performance continues to improve, the Compensation Committee expects to reinstate a formal, balanced executive compensation program, using our historical program (as described in the CD&A) as a starting point.

Because this is an advisory vote, it will not be binding on the Board and it will not directly affect or otherwise limit any existing compensation or award arrangement of any of our NEOs. However, we understand that our executive compensation practices are important to our stockholders. Our Compensation Committee will consider the outcome of this vote when considering future executive compensation arrangements.

In considering how to vote on this proposal, we encourage our stockholders to review all the relevant information in this proxy statement our CD&A (including its executive summary), the compensation tables, and the rest of the narrative disclosures regarding our executive compensation program.

The Board recommends that you vote FOR approval of this say-on-pay proposal.

PROPOSAL NO. 3 APPROVAL OF THE APPOINTMENT OF GRANT THORNTON LLP

The Audit Committee has recommended and the Board of Directors subsequently approved the appointment of Grant Thornton LLP (Grant Thornton) as the Company's independent registered public accounting firm to perform the audit of the Company's financial statements for 2016. Grant Thornton was also the Company's independent registered public accounting firm for the year ended December 31, 2015.

The Board is asking stockholders to approve the appointment of Grant Thornton, although ratification is not required by law or by the Company's By-laws. The Board is submitting the appointment of Grant Thornton for approval as a matter of good corporate practice. Regardless of whether stockholders approve the appointment, the Board of Directors, in its discretion, may select an independent registered public accounting firm at any time during the year if it determines that to do so would be in the best interest of the Company and its stockholders. There is additional information about Grant Thornton under the heading *Information about Audit Fees and Audit Services*, below, which includes all amounts paid to Grant Thornton during fiscal 2014 and fiscal 2015.

A representative of Grant Thornton is expected to be present at the Annual Meeting and will have the opportunity to make a statement and will be available to respond to appropriate questions from stockholders.

The Board recommends that you vote FOR the approval of the appointment of Grant Thornton LLP as the Company's independent registered public accounting firm.

CORPORATE GOVERNANCE

We conduct our business under the direction of our Board. Members of the Board of Directors devote the time, energy, and attention as necessary to ensure diligent performance of their duties.

The Board has adopted corporate governance practices designed to aid in the Board and management in the fulfillment of their respective duties and responsibilities to our stockholders.

Corporate Governance Guidelines

Our Corporate Governance Guidelines, first adopted by the Board in 2007, work together with our certificate of incorporation, By-laws, and Board committee charters to form the framework for the governance of our company.

These Guidelines set forth the practices the Board of Directors follows in making decisions regarding board composition and selection, the frequency of board meetings, involvement of senior management in board meetings, Chief Executive Officer performance evaluation and succession planning, board committees and compensation matters.

Code of Ethics

The Company has adopted a code of ethics that applies to its senior accounting and financial officers, including the Chief Executive Officer and Chief Financial Officer. The Code of Ethics complies with the rules of the SEC and Rule 406 of the Sarbanes-Oxley Act of 2002. The Code of Ethics, as well as other governance documents, is available as described below under Website Availability of Governance Documents. Any changes in, or waivers to, the Code of Ethics for the Company's directors, executive officers, and certain senior financial officers are posted on the Company's website within five business days and maintained for at least twelve months.

Website Availability of Governance Documents

You can access the Company's certificate of incorporation, By-laws, Code of Conduct, Code of Ethics, Corporate Governance Guidelines, and Stockholder Communication Policy, as well as the Audit, Nominating and Corporate Governance, and Compensation Committee Charters on the Investor Relations section of the Company's website at <http://www.orionmarinegroup.com>. Information contained on the Company's website or any other website is not incorporated into this proxy statement and does not constitute a part of this proxy statement. Additionally, any stockholder who so requests may obtain a printed copy of the governance documents from the Company's Corporate Secretary at the address indicated on the first page of this proxy statement.

Director Independence

NYSE listing rules require a majority of our directors to be independent. In accordance with these rules, our Board has reviewed the relationships between the Company and each director and has determined that each of Messrs. Amonett, Daerr, Shanfelter, and Stoever has no direct or indirect material relationships with the Company or any member of management, and thus each of them satisfies the NYSE's definition of an independent director. Only Mr. Pearson, our former Chief Executive Officer, and Mr. Stauffer, our current President and Chief Executive Officer, are not independent. However, since Mr. Pearson is no longer an employee, he is a non-management director. Each of the Board's committees is comprised solely of independent directors.

7

Nomination of Directors

The Board of Directors is responsible for nominating a slate of candidates for Board membership, and acts through its Nominating and Corporate Governance Committee (NCGC), to review the composition of the Board, and screen and recruit potential director nominees in consultation with the Chairman of the Board and the Chief Executive Officer. Although the NCGC has not established specific minimum qualifications for a position on the Board, the Committee seeks candidates who individually demonstrate a high ethical standard, a wide range of business experience at the policy-making level, and the ability to exercise sound and mature judgment in matters that relate to the current and long-term objectives of the Company. The NCGC believes diversity of background, education, experience and social perspective, as well as independence, and the ability to represent the best interests of all stockholders, contribute to an optimal balance of Board members. The Board of Directors, upon recommendation by the NCGC, has determined that each of the director nominees contributes to an active, effective and diverse Board.

Board Leadership Structure

Our Chairman of the Board is an independent director. We believe that having a chairman independent of management provides critical and independent thinking with respect to the Company s strategy and long-term objectives. Our President and Chief Executive Officer serves on the Board of Directors and provides in-depth understanding of the operations of the Company and the issues, opportunities, and challenges facing the Company. Our former President and Chief Executive Officer also serves on the Board of Directors.

The Board s Role in Risk Oversight

The members of our Board of Directors are actively involved in the oversight of risk that could affect the Company. This oversight is conducted primarily through committees of the Board, as discussed in the charters of each committee and descriptions, below. We have adopted enterprise risk management policies based on the Integrated Framework of the Committee of Sponsoring Organizations (COSO). Under these policies, the Chief Executive Officer, Chief Financial Officer, and General Counsel periodically report on the Company s risk management policies and practices to relevant Board Committees and to the full Board. The Audit Committee provides direction on risks identified by management through its annual risk assessment related to financial reporting and internal controls and provides a central oversight role with respect to financial and compliance risks, including compliance with the Foreign Corrupt Practices Act. Our Compensation Committee considers potential risk related to the Company s overall compensation programs and effectiveness at linking executive pay to performance and aligning the interests of our executives and stockholders. Key risks to the Company s operations, liquidity, and strategies are considered by the full Board.

Board/Committee Primary Areas of Risk Oversight

Full Board	Risk management process, structure, and overall policies and practices for enterprise risk management; strategic risks associated with business plans, significant capital transactions, including acquisitions and divestitures; and other significant risks such as major litigation, business development risks and succession planning
Audit Committee	Major financial risk exposure; significant operational, compliance, reputational, and strategic risks
Nominating and Governance Committee	

Compensation Committee

Risks and exposures related to corporate governance, effectiveness of the Board and its committees in overseeing the Company, review of director candidates, conflicts of interest and director independence

Risks related to executive recruitment, assessment, development, retention and succession policies and programs; and risks associated with compensation policies and practices, including incentive compensation

Meetings of the Board of Directors

Directors are expected to attend all meetings of the Board and each committee on which they serve, and the Board encourages all its members to attend each Annual Meeting of Stockholders.

The Board of Directors held seven meetings during 2015. Each director attended 100% of all meetings of the Board of Directors and its committees and all directors attended the 2015 Annual Meeting of Stockholders.

Non-management directors meet in executive session on a regular basis, generally at the end of a regularly-scheduled Board meeting. The Chairman of the Board presides over the executive session. In addition, the Audit Committee has

adopted a practice of reserving time at each meeting to meet without members of Company management present. The Compensation Committee has adopted a similar practice.

Committees of the Board

The Board has three standing committees; the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. These committees are comprised exclusively of independent directors as defined by the listing standards of the New York Stock Exchange. Each committee is

governed by a written charter approved by the Board of Directors. A copy of each charter is available on the Company's website at <http://www.orionmarinegroup.com>.

The Audit Committee assists the Board in overseeing our accounting and financial reporting processes and the audits of our financial statements. Pursuant to its charter, the Audit Committee has the following responsibilities, among others:

- to select the independent auditor to audit our annual financial statements;
 - to approve the overall scope of and oversee the annual audit and any non-audit services;
 - to assist management in monitoring the integrity of our financial statements, the independent auditor's qualifications and independence, the performance of the independent auditor and our internal audit function, and our compliance with legal and regulatory requirements;
 - to discuss the annual audited financial statements and unaudited quarterly financial statements with management and the independent auditor;
 - to discuss policies with respect to risk assessment and risk management; and
 - to review with the independent auditor any audit problems or difficulties and management's responses.
- Messrs. Stoever (Chairman), Amonett, and Daerr are currently members of the Audit Committee, and the Board has determined each to be independent under NYSE listing standards and applicable SEC rules. In addition, Mr. Stoever meets the relevant standards as a financial expert as defined by SEC rules. During 2015, the Audit Committee met four times. A report by the Audit Committee is presented elsewhere in this proxy statement.

The Compensation Committee supports the Board in fulfilling its oversight responsibilities relating to senior management and director compensation. Pursuant to its charter, the Compensation Committee has the following responsibilities, among others:

- to develop an overall executive compensation philosophy, strategy and framework consistent with corporate objectives and stockholder interests;
- to review, approve and recommend all actions relating to compensation, promotion and employment-related arrangements for senior management, including severance arrangements;
- to approve incentive and bonus plans applicable to senior management and administer awards under incentive compensation and equity-based plans;
- to review and recommend major changes to and take administrative actions associated with any other forms of non-salary compensation; and
- to review and approve or recommend to the entire Board for its approval, any transaction in our equity securities between us and any of our officers or directors subject to Section 16 of the Exchange Act.

Messrs. Shanfelter (Chairman), Daerr, and Stoever are currently members of the Compensation Committee, and the Board has determined each to be independent under the listing standards of the NYSE, both for directors generally and compensation committee members specifically. In addition, each is a non-employee director as defined in Rule 16b-3 promulgated under the Exchange Act and an "outside director" as defined in the regulations promulgated under Internal Revenue Code 162(m). The Compensation Committee met six times during 2015. A report by the Compensation Committee is presented elsewhere in this proxy statement.

Compensation Committee Interlocks and Insider Participation. During the last fiscal year, Austin Shanfelter, Richard L. Daerr, and Gene Stoever served on our Compensation Committee. No Compensation Committee member served as an officer or employee of our Company or any of our subsidiaries prior to or while serving on the Compensation Committee. None of our executive officers served during the last fiscal

year on the board of directors or on the compensation committee of another entity, when one of that entity's executive officers served on our Board of Directors or on our Compensation Committee.

The Nominating and Corporate Governance Committee recommends director candidates to the Board, oversees the evaluation of Board and Committee members, develops and monitors corporate governance principles, practices and guidelines for the Board and the Company. Pursuant to its charter, the Nominating and Corporate Governance Committee has the following responsibilities, among others:

to identify individuals qualified to become Board members and to recommend that the Board select the director nominees for election at annual meetings of stockholders or for appointment to fill vacancies;

to recommend to the Board director nominees for each committee of the Board;

to advise the Board about appropriate composition of the Board and its committees;

to advise the Board about, develop and recommend to the Board appropriate corporate governance practices, principles and guidelines, and to assist the Board in implementing those practices;

to lead the Board in its annual review of the performance of the Board and its committees; and

to perform such other functions as the Board may assign to the committee from time to time.

Messrs. Amonett (Chairman), Daerr and Shanfelter are currently members of this committee, and the Board has determined each to be independent as defined in the applicable rules of the NYSE and the SEC. The Nominating and Governance Committee met three times during 2015.

A complete resume or statement of the candidate's qualifications, including education, work experience, industry knowledge, membership on other boards of directors and civic activity;

A description of any arrangements and understandings between the stockholder and the nominee and any other persons pursuant to which the nomination is made;

The consent of each such nominee to serve as a director if elected; and

Such other information as required to be included in a proxy statement, including information with respect to a candidate's independence as defined under the rules and regulations of the SEC and the NYSE.

The Nominating and Corporate Governance Committee seeks to achieve a Board composed of individuals who have experience relevant to the needs of the Company and who have a high level of professional and personal ethics. In addition, prospective directors must have time available to devote to Board activities. The Nominating and Corporate Governance Committee uses a variety of methods and multiple sources to identify

and evaluate nominees for directors, including referrals from other directors and management, recommendations by stockholders, and third party professional search firms.

The Company did not receive any stockholder nominations for director to be considered by the Nominating and Corporate Governance Committee for the Annual Meeting and, pursuant to our By-laws, the time has elapsed for any stockholder to properly nominate a candidate for director for consideration at this year's Annual Meeting.

Annual Performance Evaluations

Annually, the Board and its committees conduct self-performance evaluations and review each committee charter. In addition, our Corporate Governance Guidelines are reviewed and reassessed for adequacy annually.

Executive Summary

2015 Business Wrap-Up

On August 5, 2015 we completed our acquisition of TAS Commercial Concrete, roughly doubling the size of our business, diversifying our revenue base, and positioning ourselves for even stronger, sustainable growth going forward.

Full year 2015 contract revenue was \$466.5 million, an increase of 21% as compared with full year 2014 revenues of \$385.8 million, due primarily to the acquisition of TAS.

The Company's full year 2015 EBITDA was \$20.6 million, representing a 4.4% EBITDA margin, which compares to full year 2014 EBITDA of \$34.2 million, or an 8.9% EBITDA margin.

Backlog of work under contract as of December 31, 2015 was \$357.6 million, which compares with backlog under contract at December 31, 2014 of \$215.3 million. Of the 2015 ending backlog, \$194.3 million was attributable to the heavy civil specialty construction segment, while \$163.3 million was attributable to the commercial concrete segment.

While 2015 was a successful year for us from a strategic standpoint, and while we enter 2016 better positioned to grow shareholder value over the long-term, our EBITDA performance for 2015 was below the trigger level in our annual incentive plan and consequently no bonuses were paid for 2015 performance.

A Consistent Pattern of Growth 2011 2015 (\$ millions)

2015 Executive Compensation Approach and Decisions

In 2015, the Compensation Committee set target total direct compensation (i.e., base salary, target NEO Bonus Plan (NBP) award, and target long-term incentive award) consistent with our long-standing compensation philosophy, which:

Provides an externally competitive compensation package to help attract, motivate and retain top executive talent;

Places the majority of executive pay at risk; and

Ties executive pay to long-term growth in stockholder value.

There were no grants of equity made to executive officers during 2015 except Dr. Breaux, who was hired during the year. The target pay mix below includes November 2014 long-term incentive grants for our other NEOs, including Mr. Stauffer, as representative of target total direct compensation for a normal year.

NEO Target Total Direct Compensation Mix 2015

CEO Pay At-A-Glance

As noted, our program is structured to place a majority of NEO compensation at risk with realized value dependent upon Company performance. The chart below provides a summary of total direct compensation for our CEO, Mr. Stauffer, for 2014 and 2015 in comparison to target total direct compensation for 2016. As shown:

No bonus was awarded to Mr. Stauffer for our performance during 2015

No equity incentive awards were granted to Mr. Stauffer during 2015

For 2016 the Committee anticipates adding a new, performance-based equity component to Mr. Stauffer's compensation (discussed in greater detail below)

CEO PAY AT A GLANCE 2015

2015 Say On Pay Vote

At our 2015 annual meeting of stockholders, we received 23,848,762 votes in favor of our executive compensation program, 378,750 votes in opposition, and 8,748 abstentions for total support of 98.4% of the shares voted. The Committee values stockholders' input on the design of our executive compensation program and interpreted the 2015 vote result as strong stockholder support for the Company's reinstatement of its historic approach to executive compensation.

As we continue to grow we are committed to continuing to ensure the alignment of our business priorities and stockholder interests. Based upon our evaluation of peer group programs and generally accepted best practices, the Committee has decided to add a performance-vested equity component for our NEOs in 2016. The Committee will continue to review and evaluate our program during 2016 in order to determine what, if any, additional changes are appropriate for the coming year.

Our Executive Compensation Practices

Adherence to executive compensation best practices is a critical component of good corporate governance, aids our Committee in its decision-making process, enhances our ability to manage compensation-related risk, and is always in the best interests of our stockholders and executives. Below are highlights of our current practices and policies that guide our executive compensation program:

Compensation Program Overview: What Guides Our Program

Our Compensation Philosophy and Objectives

Orion Marine Group is one of the leaders in the specialty construction industry because it has an array of highly-experienced people, strength in resources, and the geographic reach to provide customers a full suite of turn-key specialty construction solutions that meet even the most challenging needs. Maintaining this leading posture, and ensuring we are positioned for future success requires we be able to attract, retain, and engage the talent necessary

to grow the company, to ensure the quality and sustainability of that growth, and to produce positive long-term returns for our stockholders.

We designed our executive compensation program to provide an externally competitive and internally equitable total rewards package that reflects individual and company performance, job complexity, and strategic value of the position while ensuring long-term retention and motivation. Our philosophy has been to closely align the compensation paid to our executives with the performance of the company on both a short-term and long-term basis, and to set performance goals that support the Company's long-term goals. Because of our emphasis on pay-for-performance, our executive compensation has historically been heavily weighted toward incentive (variable) compensation, which is directly tied to achieving results. As performance goals are met or exceeded, executives are rewarded commensurately; conversely, if goals are not met, actual earned compensation is lower.

We designed our executive compensation program to further Orion's mission of producing superior financial returns for our stockholders by pursuing the following objectives:

Objectives	Guiding Principles Generally	Specifically
Retain and attract highly qualified executives	Pay competitively	Use statistics developed from a review of compensation survey data and publicly-disclosed peer company pay data as a reference point to help establish competitive pay opportunities. Weight executive compensation program in favor of incentive compensation balancing rewards for driving sustained profitability on an annual basis with equity-based compensation elements in the form of stock options and restricted stock.
Motivate executives to contribute to our future success and to build long-term stockholder value	Link a significant part of compensation to Orion's financial and stock price performance, especially long-term performance	Make annual equity-based grants in the form of restricted shares and stock options promoting an ownership culture and providing a powerful incentive to grow stockholder value. Share ownership requirements further enhance alignment and focus on long-term ownership.
Further align executive and stockholder interests	Encourage and facilitate significant ownership of Orion stock by executives	Share ownership requirements further enhance alignment and focus on long-term ownership.

Principle Elements of Compensation: Total Direct Compensation (TDC)

As described previously, our philosophy and objectives are supported by the following principle elements of pay in our executive compensation program:

Element	Form	Description
Base Salary	Cash (Fixed)	The fixed amount of compensation for performing day-to-day responsibilities. NEOs are generally eligible for increases annually, depending on company and individual performance.
Named Executive Officer Bonus Plan (NBP) (Annual Incentive)	Cash (Variable)	Provides competitively-based annual incentive awards for achieving short-term financial goals and other strategic objectives measured over the current year.

Payouts are tied to meeting aggressive goals for consolidated Net Cash Flow (NCF), in addition to safety and personal goals.

Element	Form	Description
Annual Long-Term Incentives (LTI)	Equity (Variable)	<p>Equity awards are granted in two ways:</p> <p>Stock options provide a meaningful performance-based incentive to grow stockholder value. Regardless of the grant date expected value of a stock option award, our NEOs only realize value on those awards to the extent that the stock price (and stockholder value) increases following the date of grant.</p> <p>Restricted shares are primarily intended to encourage long-term ownership of stock, while also providing an incentive with a value tied directly to our stock price. We believe our program functions as intended to encourage NEOs to build toward a meaningful level of long-term stock ownership.</p> <p>Performance Units (New for 2016): program design to be determined.</p>

NEOs are also eligible for other benefits, including a qualified 401(k) savings plan that provides participants with the opportunity to defer a portion of their compensation, up to tax code limitations, and, like other salaried Company employees, may receive a matching contribution from the Company. Modest ancillary benefits are also provided to executives by the Company. See page [32](#) for more information.

The Role of the Compensation Committee

Our Board of Directors is responsible for making decisions about the compensation of our NEOs. The purpose of the Board's Compensation Committee, which is composed solely of independent directors, is to assist the Board in discharging this responsibility by, among other things:

- Reviewing and discussing with management the factors underlying our compensation policies and decisions, including overall compensation objectives;
- Reviewing and discussing with management the relationship between the company's compensation policies and practices, including the extent to which those policies and practices create risks for the company;
- Reviewing and approving all company goals and objectives (both financial and non-financial) relevant to the compensation of the CEO;
- Evaluating, together with the other independent directors, the performance of the CEO in light of these goals and objectives and the quality and effectiveness of his leadership;
- Recommending to the Board for approval by the independent directors each element of the compensation of the CEO;
- Reviewing the performance evaluations of all other members of executive management (the Chief Executive Officer is responsible for the performance evaluations of the non-CEO executive officers);

Reviewing and approving (and, if applicable, recommending to the Board for approval) each element of compensation, as well as the terms and conditions of employment, of these other members of executive management; and

Granting all awards under our equity compensation plans and overseeing the administration of all such plans.

23

The Compensation Committee works very closely with management and the Committee's independent consultant to examine the effectiveness of the Company's executive compensation program throughout the year. Details of the Compensation Committee's authority and responsibilities are specified in its charter, which is available on the Corporate Governance page of our Website (<http://www.orionmarinegroup.com/Corporate-Governance.html>).

The Role of Management

The CEO, who attends a part of certain Compensation Committee meetings at the Committee's request, assists the Committee in determining the compensation of all other NEOs other than himself. Input provided by our CEO includes:

Recommending any annual merit increases to the base salaries of the other NEOs; and
Establishing annual individual performance objectives for the other NEOs and evaluating their performance against such objectives, subject to Committee approval.

The other NEOs do not have a role in determining their own compensation, other than discussing their annual individual performance objectives and results achieved with the CEO.

The Role of the Independent Consultant

In furtherance of the Compensation Committee's responsibility, the Committee engaged Pearl Meyer to assist the Committee in evaluating Orion Marine Group's executive compensation during fiscal 2015. In connection with this engagement, Pearl Meyer reported directly and exclusively to the Committee. During fiscal 2015, Pearl Meyer provided the Committee competitive marketplace compensation data, as well as updates on trends and issues in executive and director compensation, and commented on the competitiveness and reasonableness of Orion's executive and director compensation programs.

The Committee regularly reviews the services provided by its outside consultants and believes that Pearl Meyer is independent in providing executive compensation consulting services. In making this determination, the Committee noted that during fiscal 2015:

Pearl Meyer did not provide any services to the Company or management other than services requested by, or with the approval of, the Committee, and its services were limited to executive and director compensation consulting. Specifically, Pearl Meyer does not provide, directly or indirectly through affiliates, any non-executive compensation services, including pension consulting or human resource outsourcing;

fees we paid to Pearl Meyer were less than 1% of Pearl Meyer's total revenue;

Pearl Meyer maintains a conflicts policy, which was provided to the Committee with specific policies and procedures designed to ensure independence;

none of the Pearl Meyer consultants working on the Company matter had any business or personal relationship with Committee members;

none of the Pearl Meyer consultants working on Company matters (or any consultants at Pearl Meyer) had any business or personal relationship with any executive officer of the Company; and

none of the Pearl Meyer consultants working on Company matters directly own Company stock.

The Committee continues to monitor the independence of its compensation consultant on an annual basis.

The Role of Benchmarking and Peer Groups

The industry-specific experience of our people is a key reason for Orion Marine Group's leading posture in the specialty construction industry. This reputation for excellence in management and leadership make our people attractive targets for other companies. To prevent loss of our executive talent, we seek to provide an overall executive

compensation program that competes well against other specialty construction companies, as well as companies in related industries. Each element of compensation is intended to help fulfill this commitment to competitiveness. Retention has been a particularly important goal for us, as we need to retain and motivate those senior executives who are in the best position to keep the Company on course as it returns to profitability.

Because retention is an imperative, we consider external survey data and data from peer group compensation disclosures as important market reference points around which to make well-informed compensation decisions. While we do not consider market data to be a prescription, we generally target the median of the market for pay opportunities, with the potential (through annual cash incentives and long-term equity incentives) for executives to earn more or less than the market median depending upon performance.

The Committee periodically reviews the appropriateness of our pay posture in light of company and individual performance, as well as other factors specific to individual executives (such as tenure, internal equity concerns, etc.). No single position in the referenced surveys or within our peer group fully captures the breadth of the responsibilities of certain of our NEOs.

For fiscal year 2015 NEO salary decisions, the Committee considered market data provided by Pearl Meyer that reflected compensation for a peer group of 15 publicly traded engineering & construction firms. While Orion has very few direct peers in the market, the companies in this group were identified in consultation with Pearl Meyer as potential competitors for talent with businesses of similar financial size and scope. Each year, the Committee reviews the peer group in order to determine whether the companies in the group remain appropriate for comparison to Orion.

A summary of the companies included in the 2015 peer group compensation review is provided below. This is the same peer group used in Pearl Meyer's 2014 review.

Ticker	Company Name	Industry Focus
AGX	Argan Inc.	Construction & Engineering
FRM	Furmanite Corp	Construction & Engineering
GV	GOLDFIELD CORP	Construction & Engineering
GLDD	Great Lakes Dredge & Dock Cp.	Construction & Engineering
GIFI	Gulf Island Fabrication Inc.	Oil & Gas Equipment & Services
HIL	Hill International Inc.	Research & Consulting Services
IESC	Integrated Electrical Svcs.	Construction & Engineering
MTRX	Matrix Service Co	Oil & Gas Equipment & Services
NWPX	Northwest Pipe Co	Construction & Engineering
PIKE	Pike Electric Corp	Construction & Engineering
STRL	Sterling Construction Co Inc.	Construction & Engineering
TISI	Team Inc.	Environmental & Facilities Services
UNTK	Unitek Global Services Inc.	Construction & Engineering Research
VSEC	VSE Corp	Engineering & Consulting Services

At the time of the annual review, Orion's projected 2015 revenues fell within the middle range of the peer group, and our market cap fell just below the peer group median. As in past years, the Committee will review and revise this group as appropriate in 2016.

To supplement the peer group data (which were collected from proxy compensation disclosures), Pearl Meyer also provided compensation statistics from a review of compensation survey data. Data reflected compensation rates across a broad group of general industry companies with revenues of between \$100 million and \$500 million. Using a robust survey sample in combination with peer group data (along with the practice of reviewing market quartiles as opposed to averages) mitigates the impact of outliers, year-over-year volatility of compensation levels, and the risk of selection bias.

We refer to the combined peer group data and survey data provided by Pearl Meyer as the market. Based upon data from Pearl Meyer's competitive review in June 2015, target total direct compensation for our NEOs fell between the market 25th and 50th percentiles on average. However, with no long-term incentive grants during 2015 to any officer except for Dr. Breaux, actual compensation for the year fell below the 25th percentile as presented in the Pearl Meyer report.

Target total direct compensation averaged 90% of the market median (including the target annual value of equity grants in our normal annual program).

Actual total direct compensation averaged 37% of the market median, with no bonuses paid for 2015 performance and no equity grants during calendar 2015.

While we may evaluate our target executive compensation levels against the survey group of companies, we do not compare our annual incentive plan goals against these companies or any other group of companies. Rather, as discussed below, when we set goals under the NBP, those goals have been based upon our internal business objectives which, when set each year, represent aggressive but, in the Committee's estimation, reasonably achievable goals, based on the information available to the Committee at the time it sets them. Accordingly, the relationship between our financial performance and the financial performance of the survey companies does not necessarily affect the relationship between our executive compensation and the executive compensation of that group in a given year.

2015 Executive Compensation Program in Detail

Base Salary

Our primary objective with respect to the base salary levels of our NEOs is to provide sufficient fixed cash income to retain and attract these experienced and valuable executives in a competitive market for executive talent. The base salaries of our NEOs are reviewed and adjusted (if appropriate) annually to reflect, among other things, economic conditions, base salaries for comparable positions from a review of market data discussed previously, the tenure of the officers, and the base salaries of the officers relative to one another.

NEO	2014 Base Salary (\$)	2015 Base Salary (\$)	Percent Change (%)	Comments
Mr. Stauffer	\$ 475,000	\$ 520,000	9.5 %	Reflects market-based adjustment for promotion to CEO
Mr. DeAlmeida	\$ 275,000	\$ 300,000	9.1 %	Reflects market-based adjustment moving Mr. DeAlmeida closer to market median for his role
Dr. Breaux	\$	\$ 420,000		Reflects annualized base salary
Mr. Buchler	\$ 325,000	\$ 335,000	3.1 %	Reflects company-wide annual merit increase

Annual Cash Incentives

Annual cash incentive opportunities for our NEOs are provided through our NBP. Annual target incentive opportunities are expressed as a percentage of base salary and are established by the Committee based on the NEO's level of responsibility and his ability to impact overall results.

Actual bonus payouts depend on the achievement of specific financial goals. For 2015, the Committee set targets on the basis of our achievement of consolidated corporate Net Cash Flow (NCF) goals. NCF is defined as Earnings Before Interest, Taxes, Depreciation and Amortization (EBIDTA), prior to any bonus computation, less net capital

expenditures for the performance period. EBITDA is a key financial performance measure for Orion because it is allows our management team and other reviewers of our financial statements (such as investors and analysts) to assess the financial performance of our assets without regard to financing methods, capital structure, or historical cost. We subtract our net capital expenditures from the NCF computation because we regard investment in our core assets to be a vital component of our operations, and feel it should be accounted for in order to appropriately measure management performance on an annual basis. The NCF target set by the Compensation Committee for 2015 was \$31 million.

In connection with setting targets under the NBP, the Committee also approves a trigger for when the Company begins to accrue for discretionary bonuses. For fiscal 2015, the trigger was NCF of \$22 million.

The relationship between the level of NCF performance achieved and overall bonus pool funding is as follows:

Performance Level	NCF Performance Achieved as a % of Target		Bonus Pool Funding as a % of Target ⁽¹⁾	
Below Threshold	<70	%	Discretionary ⁽²⁾	
Threshold	70	%	50	%
Target	100	%	100	%
Above-Target	110	%	150	%
Maximum	122	%	300	%

(1) Each NEO may earn a maximum incentive award of 200% of his base salary if the Company hits the Maximum level of NCF performance.

If performance falls below threshold, any bonus paid to the NEOs is in the Committee's discretion. As noted above, (2) for 2015, the Committee approved the establishment of a discretionary bonus pool for the NEOs once NCF had reached \$22 million.

Although the Committee generally retains the authority to grant discretionary bonuses to our executives outside of our annual incentive program, historically, our annual incentive program has expressly referenced that authority. The Committee believes that it is important to have the flexibility to grant discretionary awards if the Company does not achieve one or more specific financial metrics, in the event that the Committee determines that management's overall performance during the year otherwise merits recognition. However, the separate bonus pool funding mechanism described above (for fiscal 2015, no accruals until NCF had reached \$22 million) and any related accruals would generally serve as a cap on any discretionary bonuses, to the extent that the Committee elects to pay them.

The formulas for calculating pool funding for performance between levels are as follows:

Performance Level

From Threshold to Target	30% +	$[(\% \text{ of NCF Goal Achieved } 70\%)/60\%]$	×	Target Pool
From Target to Above Target		$[(\% \text{ of NCF Goal Achieved } 100\%)/20\%]$	×	Target Pool
From Above-Target to Maximum	2.5 ×	$[(\% \text{ of NCF Goal Achieved } 100\%)/20\%]$	×	Target Pool

NBP Pool Funding

Actual performance for 2015 was below the Threshold level in the NBP, leaving pool funding solely at the discretion of the Committee. Based on these performance results, the Committee determined not to fund a bonus pool for 2015 performance.

The table below provides a summary of the individual target incentive award opportunities, as well as actual awards earned:

NEO	Target Award Opportunity		Maximum Award Opportunity		Actual Award Paid in 2015 for 2014 Performance	
	As a % of Eligible Salary	\$	As a % of Eligible Salary	\$	As a % of Salary	\$
Mr. Stauffer	85 %	\$ 442,000	200 %	\$ 1,040,000	0 %	\$ 0
Mr. DeAlmeida	60 %	\$ 180,000	200 %	\$ 600,000	0 %	\$ 0
Dr. Breaux	60 %	\$ 252,000	200 %	\$ 840,000	0 %	\$ 0
Mr. Buchler	60 %	\$ 201,000	200 %	\$ 670,000	0 %	\$ 0

Long-Term Equity Incentives

Consistent with the company's compensation philosophy, the Committee believes that long-term incentives should promote improvements to stock holder value and strongly align the interests of our NEOs with those of our stockholders. Specifically, NEOs should hold a meaningful amount of unvested equity, which not only aligns their long-term interests with those of our stockholders, but also serves as an effective retention tool.

Historically, our mix of long-term incentives has included the following:

50% in the form of stock options, which vest 33.3% on the first anniversary of the grant date and one-thirty-sixth of the shares thereafter upon completion of each full month following the first year anniversary. Option awards expire on the tenth anniversary of the grant date. Stock options are a meaningful performance-based incentive to grow stockholder value. Regardless of the grant date expected value of a stock option award, our NEOs only realize value on those awards to the extent that the stock price (and stockholder value) increases following the date of grant.

28

50% in the form of restricted stock, which vest 33.3% on the first anniversary of the grant date and one-thirty-sixth of the shares thereafter upon completion of each full month following the first year anniversary. Restricted stock encourages long-term ownership of stock, while also providing an incentive with a value tied directly to our stock price. We believe our program functions as intended to encourage NEOs to build toward a meaningful level of long-term stock ownership.

However, due to stock option and restricted stock grants to NEOs in late 2014, the Committee did not approve any long-term incentive grants during 2015. The Committee expects to consider new grants in May 2016.

The company does not backdate options or grant options retroactively. In addition, we do not intentionally coordinate grants of options so that they are made before announcement of favorable information, or after announcement of unfavorable information. Our option grants are granted at fair market value on a fixed date or event, with all required approvals obtained in advance of or on the actual grant date. Fair market value is the mean of the high and low sales prices of a share of the company's common stock on the grant date, as reported on the composite tape of the NYSE.

All grants to NEOs require the approval of the Compensation Committee.

Proposed Changes for 2016

Based upon an evaluation of Company strategy and Pearl Meyer input regarding peer group prevalence and generally accepted best practices, the Compensation Committee will be approving grants for 2016 using the following mix of awards:

25% in the form of stock options, which vest 33.3% on the first anniversary of the grant date and one-thirty-sixth of the shares thereafter upon completion of each full month following the first year anniversary.

25% in the form of performance-based equity, which will be earned on the third anniversary of the grant date based upon performance relative to pre-established measures of multi-year performance.

50% in the form of restricted stock, which vest 33.3% on the first anniversary of the grant date and one-thirty-sixth of the shares thereafter upon completion of each full month following the first year anniversary. Restricted stock encourages long-term ownership of stock, while also providing an incentive with a value tied directly to our stock price. We believe our program functions as intended to encourage NEOs to build toward a meaningful level of long-term stock ownership.

Other Programs, Policies and Guidelines

Stock Ownership requirements

To further enhance our focus on stockholder alignment, our executive compensation program includes stock ownership requirements for our NEOs and our directors. The required ownership levels are expressed as a multiple of salary (for NEOs) or a multiple of the annual Board retainer (for directors), as summarized in the table below:

Covered Position	Stock Ownership Requirement (Minimum Value)
CEO	Three times salary
CFO	Two times salary
Other NEOs	One and a half times salary
Directors	Three times annual retainer

Shares that may be counted toward the satisfaction of these guidelines include shares held outright, through benefit plans or in trust, unvested restricted shares, and in-the-money value of unexercised stock options. Directors and NEOs have five years from the date first subject to these guidelines to comply with the minimum ownership requirement.

Benefits

Each NEO is eligible to participate in the same benefit plans and programs that are (or in the future) may be available to our other salaried employees, including any profit-sharing plan, thrift plan, health insurance or health care plan, disability insurance, pension plan, supplemental retirement plan, vacation and sick leave plan, and other similar plans.

This also includes our 401(k) plan, which provides that we match 100% on the first 2% of eligible compensation contributed to the plan, and 50% on the next 2% of eligible compensation contributed to the plan. These matching contributions vest over a four-year period. At our discretion, we may make additional matching and profit sharing contributions to the plan.

We do not have any supplemental benefits or perquisites for our NEOs that are not generally available to other salaried employees in the organization. We provide our NEOs with car allowances, a benefit we feel meets a legitimate business need and is competitively appropriate. Orion does not own any interest in or lease any aircraft, nor does it pay or reimburse country club memberships, or provide a SERP. The Compensation Committee in its discretion may revise, amend or add to the officer's executive benefits and perquisites as it deems advisable.

The Compensation Committee reviews the overall cost to us of our benefit programs generally on an annual basis or when changes are proposed. The Compensation Committee believes that the benefits provided by these programs have been important factors in attracting and retaining key employees, including the NEOs.

Insider Trading and Speculation in Orion Stock

We have established policies prohibiting our officers, directors, and employees from purchasing or selling Orion securities while in possession of material, nonpublic information, or otherwise using such information for their personal benefit or in any manner that would violate applicable laws and regulations. In addition, our policies prohibit our officers, directors, and employees from speculating in our stock, which includes short selling (profiting if the market price of our stock decreases), buying or selling publicly traded options (including writing covered calls), hedging, or any other type of derivative arrangement that has a similar economic effect.

Risks Arising from Compensation Policies and Practices

Management has conducted an in-depth risk assessment of Orion's compensation policies and practices and concluded that they do not create risks that are reasonably likely to have a material adverse effect on the company. The Compensation Committee has reviewed and concurred with management's conclusion. The risk assessment process included, among other things, a review of (i) all key incentive compensation plans to ensure that they are aligned with our pay-for-performance philosophy and include performance metrics that meet and support corporate goals, and (ii) the overall compensation mix to ensure an appropriate balance between fixed and variable pay components and between short-term and long-term incentives. The objective of the process was to identify any compensation plans and practices that may encourage employees to take unnecessary risk that could threaten the company. No such plans or practices were identified.

Post-Employment Compensation

We have employment agreements with our NEOs, which entitle them to certain severance benefits in the case of a qualifying termination. Severance payments following a change-in-control are subject to a double-trigger, and we do not provide excise tax gross-up payments.

Absent a change-in-control: in the event of a resignation for good reason (as defined in the agreements) or a termination without cause, each of our NEOs is entitled to one year of his base salary.

Following a change-in-control: in the event a resignation for good reason (as defined in the agreements) or a termination without cause following a change-in-control, each of our NEOs is entitled to receive their respective base salary for two to three years (varying by position level). We do not provide any tax gross-ups.

Treatment of unvested equity: NEOs may exercise vested stock options following termination, but upon termination all unvested equity awards lapse according to the terms of our long-term incentive plan.

30

Severance payments following a change-in-control are subject to a double-trigger, and we do not provide any tax gross-up payments.

The company provides these contractual severance benefits in order to help support retention of valuable executive talent, and to ensure that executives remain focused on the best interests of stockholders particularly in the context of any potential transaction. The Compensation Committee believes that the severance benefits agreed to in the case of these termination events are reasonable in light of the potential value delivered to stockholders in return. See Executive Compensation Potential Payments Upon Termination or Change in Control below.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits the company's income tax deduction for compensation paid to the Chief Executive Officer and our next three most highly-compensated executive officers (other than the Chief Financial Officer) to \$1 million per year, unless the compensation is qualified performance-based compensation or qualifies under certain other exceptions.

Options granted under our equity incentive plans are structured to qualify as performance-based compensation and will be excluded in calculating the \$1 million limit under Section 162(m). Our Committee does not have a policy that all compensation must be deductible, as the Committee believes that it is important to retain flexibility to design compensation programs that recognize a full range of criteria that contribute our success, even where compensation payable under the programs may not be fully deductible. However, our Committee intends to monitor compensation levels and the deduction limitation.

EXECUTIVE COMPENSATION

The table below sets forth information regarding compensation earned by, awarded to or paid to anyone who served as the Company's principal executive officer or principal financial officer during fiscal 2015, and our other named executive officers at December 31, 2015 (collectively, the "Named Executive Officers").

Potential Payments upon Termination or Change in Control

Overview

This section describes the benefits payable to our named executive officers in two circumstances:

Change in control

Termination of employment

Employment Agreements with Certain Officers. We have a new form of employment agreement with each of our Chief Executive Officer, our Chief Financial Officer, our other named executive officers and certain other key employees, which were put into effect in January 1, 2015. Each of the current employment agreements provides for a base salary, a potential bonus, and participation in our benefit plans and programs.

Annualized base salaries at December 31, 2015 for each of our then named executive officers were as follows: Mark R. Stauffer \$525,000; L. Dewayne Breaux \$420,000; Peter R. Buchler \$335,000; and Christopher J. DeAlmeida \$300,000. Under the current employment agreements, the officers are entitled to severance benefits in the event of a resignation for good reason or a termination without cause of the officer's base salary continued for a period of one year if such resignation or termination is not in connection with a change of control.

These employment agreements also provide for certain change of control benefits. The officers are entitled to severance benefits of the officer's base salary continued for a period of two and one-half to three years in the event of a resignation for good reason or a termination without cause that is related to a change of control at any time three months prior to or within twelve months after a change of control. Such period is two and one-half years for Messrs. Breaux, Buchler and DeAlmeida, and three years for Mr. Stauffer. The amount of such severance payments will be reduced to an amount such that the aggregate payments and benefits to be provided to the officer do not constitute a parachute payment subject to a Federal excise tax.

The agreements also include confidentiality provisions without a time limit and non-competition provisions that apply during the periods specified in the employment agreements.

For this purpose the term "change in control" or "during a protection period" generally means the occurrence of any of the following events:

(a) A change in the ownership of the Company which will occur on the date that any one person, or more than one person acting as a group, acquires ownership of our stock that, together with stock held by such person or group, constitutes more than 50% of the total fair market value or total voting power of our stock; however the following acquisitions will not constitute a change in control: (i) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by us or any entity controlled by us or (ii) any acquisition by investors (immediately prior to such acquisition) of us for financing purposes, as determined by the Compensation Committee in its sole discretion.

(b) A change in the effective control of the Company which will occur on the date that either (i) any one person, or more than one person acting as a group, acquires ownership of our stock possessing 35% or more of the total voting power of our stock, excluding (y) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by us or (z) any acquisition by investors (immediately prior to such acquisition) of us for financing purposes, as determined by the Compensation Committee in its sole discretion

or (ii) a majority of the members of the Board are replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Board prior to the date of the appointment or election.

(c) A change in the ownership of a substantial portion of the Company's assets which occurs on the date that any one person, or more than one person acting as a group, acquires our assets that have a total gross fair market value equal to or more than 40% of the total gross fair market value of all of our assets immediately prior to such acquisition.

The employment agreements also provide for termination of employment unrelated to a change in control (as defined above) if the executive is terminated without cause (as defined below) or he voluntarily terminates his employment for good reason (as defined below).

The term "cause" means: (a) a material breach by the executive of the noncompetition and confidentiality provisions of the employment agreement; (b) the commission of a criminal act by the executive against us, including, but not limited to, fraud, embezzlement or theft; (c) the conviction, plea of no contest or *nolo contendere*, deferred adjudication or unadjudicated probation for any felony or any crime involving moral turpitude; or (d) the executive's failure or refusal to carry out, or comply with, any lawful directive of our Board of Directors consistent with the terms of the employment agreement which is not remedied within 30 days after receipt of notice from us.

The term "good reason" means: (a) a substantial reduction of the executive's base salary without his consent; (b) a substantial reduction of his duties (without his consent) from those in effect as of the effective date of the employment agreement or as subsequently agreed to by the executive and us; or (c) the relocation of the executive's primary work site to a location greater than 50 miles from the current work site as of the effective date of the employment agreement.

The benefits payable to each named executive officer in each circumstance are contained in the provisions of that executive's respective employment agreement, which were last entered into in January 2015. These benefits ensure that the executive is motivated primarily by the needs of the Company as a whole, and not by circumstances that are outside the ordinary course of business. In general, the executive is assured that he will receive a continued level of compensation if his employment is adversely affected by the termination of employment or a change in control of the Company.

Payment of these benefits is conditional upon the Company's receipt of appropriate waivers and a release from all claims against the Company.

Summary of payments

The table below summarizes the benefits payable to each named executive in the various termination scenarios. No benefits are payable if an executive voluntarily terminates employment without good reason or employment is terminated by us for cause.

In all cases, the executive has the right to exercise vested stock options. Equity awards for which vesting has not occurred lapse according to the provisions of the LTIP.

The tables below assume that the terminations took place on and with salaries in effect on December 31, 2015 but are based upon the terms of the latest form of employment agreements with Messrs. Stauffer, Breaux, Buchler and DeAlmeida.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Our Board reviews related party transactions. Related party transactions are Company transactions that involve the Company's directors, executive officers, director nominees, 5% or more beneficial owners of the Company's Common Stock, immediate family members of these persons (which shall include a person's spouse, parents, stepparents, children, stepchildren, siblings, mothers- and fathers-in-law, sons- and daughters-in-law, brothers- and sisters-in-law and persons sharing the same household of the foregoing persons), or entities in which one of these persons has a direct or indirect material interest. A related party transaction means any transaction, or series of similar transactions (and any amendments, modifications or changes thereto), in which the amount exceeds \$120,000. A related party transaction does not include compensatory arrangements with the Board or executive officers or certain other transactions. Pursuant to the Company's Code of Business Conduct and Ethics, employees and directors have a duty to report any potential conflicts of interest to the appropriate level of management or to the Board of Directors. The Company evaluates these reports along with responses to the Company's annual director and officer questionnaires for any indication of possible related party transactions. If a transaction is deemed by the Company to be a related party transaction, the information regarding the transaction is forwarded to the Audit Committee for review and approval. The Board has delegated the authority to review and approve all related party transactions to its Audit Committee. For fiscal 2015, there were no related party transactions.

AUDIT COMMITTEE REPORT

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference in any other filing by us under the Securities Act of 1933 or the Securities Exchange Act of 1934.

The Audit Committee of the Company's Board of Directors consists of three non-employee directors, each of whom the Board has determined (i) meets the independence criteria specified by the SEC and the requirements of NYSE listing standards and (ii) at least one member meets certain standards as a financial expert. Mr. Stoever, Chairman of the Committee, meets the relevant standards as a financial expert.

Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls for financial reporting. The Audit Committee is responsible for the oversight of the Company's financial reporting process on behalf of the Board of Directors. In fulfillment of its responsibilities, the Audit Committee has discussed with the Company's independent auditors their plan for the audit of the Company's annual consolidated financial statements and the independent auditors' evaluation of the effectiveness of the Company's internal control over financial reporting, as well as reviews of the Company's quarterly financial statements. The Committee met regularly with the independent auditors, with and without management present, to discuss the results of their audits and reviews, as well as their evaluations of the Company's internal control over financial reporting and the overall quality of the Company's accounting principles. The Committee has reviewed and discussed with management and the Company's independent registered public accounting firm the Company's audited consolidated financial statements and such matters. In addition, the Audit Committee has received from the Company's independent registered public accounting firm the written disclosures required by Auditing Standard No. 16, Communications with Audit Committees, as adopted by the Public Company Accounting Oversight Board (PCAOB), and the letter from the independent auditors required by the PCAOB Ethics and Independence Rule 3526, *Communication with Audit Committees Concerning Independence*, regarding the independent auditors' communications with the Committee concerning independence. The Committee has also discussed with the independent auditors the auditors' independence from the Company and its management. In determining that the auditors are independent, the Committee also considered whether the provision of any of the non-audit services described below under Fees of the Independent Auditors is compatible with maintaining their independence.

In reliance on the reviews and discussions above, the Audit Committee recommended to the Board, and the Board approved, the inclusion of the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 filed with the SEC.

Respectfully submitted by the members of the Audit Committee
