Yes No

(3) Is it anticipated that any significant changes in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, reasons why a reasonable estimate of the results cannot be made.

Our revenues for Fiscal 2016 were \$12.5 million, an increase of \$7.5 million or approximately 149% from revenues for the comparable period of the prior year, and consisted of \$8.0 million in manufacturing fees and \$4.5 million in license fees.

Revenues for Fiscal 2015 consisted of \$3.9 million in manufacturing fees, \$0.005 million in lab and product development fees, and \$1.1 million in license fees. Manufacturing fees increased by approximately 107% as a result of the continued growth in the Company's generic product sales.

Licensing fees increased by approximately 294% or \$3.4 million, from \$1.1 million in Fiscal 2015 to \$4.5 million in Fiscal 2016. This increase is due to Epic licensing agreements and increase in profit splits from product sales relating to TAGI and Epic.

Research and development costs for Fiscal 2016 were approximately \$12.4 million, a decrease of approximately \$2.3 million or approximately 16% from \$14.7 million of such costs for the comparable period of the prior year. The decrease was primarily due to the timing of ongoing clinical trials related to the development of Elite's abuse deterrent opioid products. Spending includes equity based payments totaling \$0.8 million made pursuant to the Epic strategic Alliance in relation to FDA's approval of immediate release oxycodone tablets, a product included in the Epic Strategic Alliance. Clinical and lab studies includes (such as category 1, category 2 and category 3 testing as described under the FDA's draft Guidance for Industry, Abuse-Deterrent Opioids – Evaluation and Labeling, January 2013), process development, analytical development, and regulatory development for products in our pipeline.

General and administrative expenses for Fiscal 2016 were \$2.9 million no increase from \$2.9 million of general and administrative expenses for the comparable period of the prior year. Please note that these levels of overhead costs are expected to continue or increase in subsequent periods.

Depreciation and amortization for Fiscal 2016 was \$0.67 million, an increase of \$0.05 million or approximately 8%, from \$0.62 million for the comparable period of the prior year. The increase was primarily due to the expansion and upgrading of the Northvale Facility, which has required substantial investments in property, plant and equipment.

Non-cash compensation through the issuance of stock options and warrants for Fiscal 2016 was approximately \$0.33 million, an increase of \$0.07 million, or approximately 28% from \$0.26 million for the comparable period of the prior year. The increase was due to the issuance of options to purchase an aggregate of 4,334,000 shares of Common Stock to various employees during Fiscal 2016, primarily pursuant to employment agreements, and the timing of the amortization schedule established at the time of issuance of the related stock options

As a result of the foregoing, our loss from operations for Fiscal 2016 was \$8.3 million, compared to a loss from operations of \$16.5 million for Fiscal 2015.

Other income for Fiscal 2016 totaled a net income of \$7.1 million, a decrease in net other income of \$14.6 million from the net other income of \$21.7 million for the comparable period of the prior year. The decrease in other income was due to proceeds from the sale of New Jersey State tax losses totaling \$0.5 million and derivative income relating to changes in the fair value of derivative liabilities during Fiscal 2016 totaling \$7.4 million, as compared to a net derivative income of \$20.3 million and gain on sale of investment totaling \$1.7 for the comparable period of the prior

year, a \$14.6 million overall decrease in other income. Please note that derivative income/(expenses) are most significantly determined by the closing price of the Company's Common Stock as of the end of each annual or quarterly reporting period, and also as of the date on which shares of the Company's convertible preferred stock are converted into common stock, with incomes being generated by decreases in such closing prices and expenses being incurred by increases in such closing prices. The closing price of the Company's Common Stock as of March 31, 2016 was \$0.31, as compared to a closing price of \$0.25 as of March 31, 2015. These variances in the closing price of the Company's Common Stock as compared with the closing price at the end of the immediately preceding fiscal year end were significant factors in the derivative income recorded during the year ended March 31, 2016.

As a result of the foregoing, our net loss for Fiscal 2016, including credits for income taxes totaling \$0.5 million was \$0.7 million, compared to a net income of \$5.2 million, inclusive of credit for income taxes totaling \$0.003 million for Fiscal 2015.

Changes in maximum redemption value in our convertible preferred mezzanine equity, which is included in the calculation of net loss attributable to common shareholders resulted in the net loss being increased by \$9.3 million for fiscal year 2016, as compared to an increase in net income attributable to common shareholders of \$23.7 million for the comparable period of the prior year. Accordingly, net income (loss) attributable to common shareholders for fiscal year 2016 was net loss of \$10.0 million, compared to net income attributable to common shareholders of \$28.9 million for the comparable period of the prior year.

Please also see the Registrant's Consolidated Statements of Operations for each of the three fiscal years ended March 31, 2016 (which will be included in the Registrant's Annual Report on Form 10-K for the fiscal year ended March 31, 2016 to be filed later today), attached hereto as Exhibit 1 to this Notification of Late Filing on Form 12b-25 for further details on the Company's results of operations.
