## FEMSA Announces Third Quarter 2016 Results

**Monterrey, Mexico, October 28, 2016** — Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) (NYSE: FMX; BMV: FEMSAUBD) announced today its operational and financial results for the third quarter of 2016.

### Third Quarter 2016 Highlights:

**FEMSA consolidated total revenues increased 27.4% and income from operations grew 9.3%** compared to the third quarter of 2015, mainly driven by the integration of Socofar into FEMSA Comercio’s Health Division and solid growth at FEMSA Comercio’s Retail Division. On an organic basis, total revenues increased 14.0% and income from operations grew 3.8%.

**FEMSA Comercio – Retail Division achieved growth in total revenues of 12.3% and income from operations of 6.4%** compared to the third quarter of 2015, reflecting new store openings and a 5.7% increase in same-store sales.

**FEMSA Comercio – Health Division total revenues amounted to Ps. 11,194 million** compared to Ps. 1,580 million in the third quarter of 2015, and **income from operations increased from Ps. 42 million** in the third quarter of 2015 to **Ps. 396 million in the same period of 2016**, mainly reflecting the integration of Socofar. On an organic basis,<sup>1</sup> total revenues increased 10.7%.

**FEMSA Comercio – Fuel Division revenues increased 34.9% and income from operations increased 57.3%** compared to the third quarter of 2015.

**Coca-Cola FEMSA total revenues increased 12.5% and income from operations grew 3.2%** compared to the third quarter of 2015, reflecting growth in the average price per unit case across most operations and volume growth in Mexico and Central America. On a currency neutral basis and excluding Venezuela, total revenues and income from operations grew 5.6% and 6.6%, respectively.

<sup>1</sup> Excludes non-comparable results and significant acquisitions in the last twelve months.

Carlos Salazar Lomelín, FEMSA's CEO, commented: "During the third quarter, FEMSA Comercio continued its strong pace of growth across divisions, increasing revenues by almost 40 percent versus the comparable period of last year. At the Retail Division, OXXO once again delivered solid top line growth, driven not just by the sustained pace of new store openings, but also by a robust increase in same-store sales of 5.7 percent, against a very demanding comparison base. At the Health Division revenue growth was also strong, while the operating margin in Mexico reflected the intensity of our work on the integration of a single operating platform, as well as the longer maturation process of our stores in new regions of the country such as the state of Veracruz. Meanwhile in South America, where we recently made a small bolt-on acquisition, our drugstore operations continued to perform ahead of plan. For its part, the Fuel Division saw double-digit growth in same-station sales, as well as healthy price-driven improvements in profitability even as we made progress in our sustained expansion strategy and in the re-branding of our existing stations with the new OXXO GAS image.

At Coca-Cola FEMSA, during the third quarter we saw a tale of two regions. In Mexico, a supportive consumer backdrop combined with our execution to drive incremental transactions, volumes and pricing, resulting in a solid top line for this key operation. However, most of our markets in South America continued to face adverse consumer and macroeconomic environments, and we saw raw material cost pressures across territories, particularly sugar; therefore our results reflect these ongoing challenges.

As we head into the final months of 2016, there is much work to be done but we are cautiously optimistic as we set our objectives for next year for which we have, as always, high expectations."

## **FEMSA Consolidated**

**Total revenues** increased 27.4% to Ps. 100,325 million in 3Q16 compared to 3Q15, mainly driven by the integration of Socofar in FEMSA Comercio's Health Division and by solid growth across most operations. On an organic basis,<sup>1</sup> total revenues grew 14.0% compared to 3Q15.

For the first nine months of 2016, total revenues increased 28.2% to Ps. 281,970 million compared to the same period in 2015, again mainly driven by the integration of Socofar in FEMSA Comercio's Health Division and by solid growth across most operations. On an organic basis,<sup>1</sup> total revenues for the first nine months of 2016 increased 13.0% compared to the same period in 2015.

**Gross profit** increased 18.7% to Ps. 36,631 million in 3Q16 compared to 3Q15. Gross margin decreased 270 basis points to 36.5% of total revenues compared to the same period in 2015, reflecting a contraction in Coca-Cola FEMSA's gross margin and the incorporation and growth of lower margin businesses in FEMSA Comercio's Health

and Fuel Divisions.

For the first nine months of 2016, gross profit increased 19.9% to Ps. 103,586 million compared to the same period in 2015. Gross margin decreased 260 basis points to 36.7% of total revenues compared to the same period in 2015, reflecting again a contraction in Coca-Cola FEMSA's gross margin and the incorporation and growth of lower margin businesses in FEMSA Comercio's Health and Fuel Divisions.

**Income from operations** increased 9.3% to Ps. 9,303 million in 3Q16 compared to 3Q15. On an organic basis,<sup>1</sup> income from operations increased 3.8% compared to the same period in 2015. Consolidated operating margin decreased 150 basis points to 9.3% of total revenues in 3Q16 compared to 3Q15, driven by a margin contraction across our core businesses, and the incorporation of lower-margin Socofar in FEMSA Comercio's Health Division.

<sup>1</sup> Excludes non-comparable results and significant acquisitions in the last twelve months.

2 October 28, 2016

For the first nine months of 2016, income from operations increased 12.0% to Ps. 25,548 million compared to the same period in 2015. On an organic basis, <sup>1</sup> income from operations increased 7.1%. Our consolidated operating margin year-to-date decreased 130 basis points to 9.1% as a percentage of total revenues as compared to the same period of 2015, driven by the faster growth of FEMSA Comercio's three divisions, whose lower margins tend to compress FEMSA's consolidated margins over time, and by a contraction in Coca-Cola FEMSA's operating margin.

Our effective income tax rate was 21.9% in 3Q16 compared to 31.4% in 3Q15.

**Net consolidated income** increased 30.9% to Ps. 7,930 million in 3Q16 compared to 3Q15, mainly as a result of i) a low comparison base due to a foreign exchange loss related to the effect of Coca-Cola FEMSA's US Dollar-denominated debt position as impacted by the depreciation of the Mexican peso during the third quarter of last year, ii) growth in FEMSA's income from operations and iii) an increase in FEMSA's reported 20% participation in Heineken's results, which more than offset higher interest and non-operating expenses.

For the first nine months of 2016, net consolidated income increased 16.4% to Ps. 18,356 million compared to the same period of 2015, mainly driven by growth in our income from operations.

**Net majority income** in 3Q16 was Ps. 1.87 per FEMSA Unit<sup>2</sup>. Net majority income per FEMSA ADS was US\$ 0.97 for the third quarter of 2016. For the first nine months of 2016, net majority income per FEMSA Unit<sup>2</sup> was Ps. 4.05 (US\$ 2.09 per ADS).

**Capital expenditures** amounted to Ps. 5,704 million in 3Q16, reflecting higher investments across operations.

Our **consolidated balance sheet** as of September 30, 2016 recorded a cash balance of Ps. 57,912 million (US\$ 2,995 million), an increase of Ps. 28,497 million (US\$ 1,474 million) compared to December 31, 2015. Short-term debt was Ps. 5,965 million (US\$ 308 million), while long-term debt was Ps. 110,833 million (US\$ 5,732 million). Our consolidated net debt balance was Ps. 58,886 million (US\$ 3,045 million).

#### **FEMSA Comercio – Retail Division**

**Total revenues** increased 12.3% to Ps. 35,997 million in 3Q16 compared to 3Q15, reflecting the opening of 234 net new OXXO stores in the quarter to reach 1,154 total net new store openings for the last twelve months. As of September 30, 2016, FEMSA Comercio's Retail Division had a total of 14,695 OXXO stores. OXXO's same-store sales increased an average of 5.7% for the third quarter of 2016 over 3Q15. This performance was driven by a 6.4% increase in average customer ticket and a decrease of 0.6% in store traffic.

For the first nine months of 2016, total revenues increased 13.4% to reach Ps. 100,646 million compared to the same period in 2015. OXXO's same-store sales increased an average of 6.4% compared to the same period in 2015, driven by a 6.7% increase in average customer ticket and a slight decrease of 0.2% in store traffic.

<sup>1</sup> Excludes non-comparable results and significant acquisitions in the last twelve months.

<sup>2</sup> FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B Shares. The number of FEMSA Units outstanding as of September 30, 2016 was 3,578,226,270, equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

3 October 28, 2016

**Gross profit** increased by 14.5% in 3Q16 compared to 3Q15, resulting in a gross margin expansion of 80 basis points to 36.8% of total revenues. This expansion mainly reflects healthy trends in our commercial income activity and the sustained growth of the services category, including income from financial services. For the first nine months of 2016, gross margin also expanded by 80 basis points to 35.9% of total revenues compared to the same period in 2015.

**Income from operations** increased 6.4% to Ps. 3,064 million in 3Q16 over 3Q15. Operating expenses increased 17.2% to Ps. 10,169 million in 3Q16 compared to 3Q15, above revenues, mainly reflecting: i) the tough comparison base in 3Q15, when retail operating margin expanded above trend and benefited from low electricity tariffs, ii) the strengthening of OXXO's organizational structure to maintain the fast pace of growth, and iii) additional marketing efforts. Operating margin decreased 50 basis points to 8.5% of total revenues in 3Q16 compared to 3Q15.

For the first nine months of 2016, income from operations increased 12.4% to Ps. 7,401 million compared to the same period in 2015, resulting in a stable operating margin of 7.4%.

#### **FEMSA Comercio – Health Division**

**Total revenues** amounted to Ps. 11,194 million in 3Q16 compared to Ps. 1,580 million in 3Q15. On an organic basis,<sup>1</sup> total revenues increased 10.7% reflecting the continued store expansion into new markets in Mexico. As of September 30, 2016 FEMSA Comercio's Health Division had a total of 2,101 points of sale across our territories, reflecting the addition of 67 net new stores in the quarter including a small acquisition in Colombia. Same-store sales in Mexico increased by an average of 1.1% in 3Q16 as compared to 3Q15, reflecting softness in certain Southeastern markets as well as the longer maturation period of our operation in the state of Veracruz.

For the first nine months of 2016, total revenues amounted to Ps. 31,119 million compared to Ps. 3,750 million in the same period of 2015. On an organic basis,<sup>1</sup> total revenues for the first nine months of 2016 increased 15.5% compared to the same period in 2015. Same-store sales in Mexico increased an average of 6.4% compared to the same period in 2015.

**Gross profit** amounted to Ps. 3,242 million in 3Q16, resulting in a gross margin expansion of 540 basis points to 29.0% of total revenues, reflecting higher structural gross margins at the Socofar operation. For the first nine months of 2016, gross margin expanded by 470 basis points to 28.8% of total revenues compared to the same period in 2015.

**Income from operations** amounted to Ps. 396 million in 3Q16. Operating expenses reached Ps. 2,846 million in 3Q16. Operating margin expanded 80 basis points to 3.5% of total revenues in 3Q16 compared to 3Q15, reflecting higher margins at Socofar that more than offset higher expenses in Mexico, as we continue to build infrastructure and prepare for further growth while we integrate our four legacy drugstore operations into a single platform. On an organic basis,<sup>1</sup> income from operations decreased 86.3%, reflecting the infrastructure and integration initiatives described above.

<sup>1</sup> Excludes non-comparable results and significant acquisitions in the last twelve months.

4 October 28, 2016

For the first nine months of 2016, income from operations amounted to Ps. 973 million compared to Ps. 110 million reached in the same period in 2015, resulting in an operating margin of 3.1%, which represents an expansion of 20 basis points from the same period in 2015. On an organic basis,<sup>1</sup> income from operations decreased 40.6% in the first nine months of 2016 compared to the same period in 2015.

### **FEMSA Comercio – Fuel Division**

**Total revenues** increased 34.9% to Ps. 7,548 million in 3Q16 compared to 3Q15, reflecting the opening of 13 net new OXXO GAS stations in the quarter to reach 75 total net new station openings for the last twelve months. As of September 30, 2016, FEMSA Comercio's Fuel Division had a total of 348 OXXO GAS service stations. Same-station sales increased an average of 10.3% in 3Q16 over 3Q15, as average volume increased 7.3% while the average price per liter increased by 2.8%, reflecting the national price increases instituted during the third quarter.

For the first nine months of 2016, total revenues increased 66.0% to Ps. 20,562 million compared to the seven-month period from March to September of 2015. Same-station sales increased an average of 5.8% compared to the comparable period in 2015, driven by a 6.5% increase in average volume and a slight decrease of 0.7% in average price per liter.

**Gross profit** increased by 41.9% in 3Q16 compared to 3Q15, resulting in a gross margin expansion of 40 basis points to 8.0% of total revenues, reflecting the benefit of price increases on existing inventory, as well as higher operating leverage. For the first nine months of 2016, gross profit increased by 70.5% compared to the seven-month period from March to September of 2015. Gross margin expanded by 30 basis points to 7.9% of total revenues compared to the comparable period in 2015, for the reasons mentioned above.

**Income from operations** increased 57.3% to Ps. 91 million in 3Q16 over 3Q15. Operating expenses increased 39.5% to Ps. 512 million in 3Q16 compared to 3Q15, above revenues, as we continue to build the infrastructure required to drive further expansion. Operating margin expanded 20 basis points compared to 3Q15 to 1.2% of total revenues in 3Q16, mainly driven by the national price increases that took place during the quarter.

For the first nine months of 2016, income from operations increased 6.5% to Ps. 179 million compared to the seven-month period from March to September of 2015, resulting in an operating margin of 0.9%, which represents a contraction of 50 basis points from the comparable period in 2015, reflecting: i) operating deleverage driven by an accelerated growth rate in new service stations that take some time to ramp up; ii) the ongoing expansion of our infrastructure to accommodate rapid growth across more territories; and iii) increased regulation costs.

### **Message from the Chief Executive Officer**

“In the face of a very challenging consumer, currency, and raw material environment across the region, we delivered comparable revenue and operating income growth of 6% and 7%, respectively, while comparable earnings per share grew 30%.

Our consumer transactions continued to outperform volumes, as we increased prices ahead of inflation in most countries and maintained or gained share in key beverage categories.

Our Strategic Framework continues to guide our long-term business growth. As we focus on the evolution of our core capabilities to build our competitive advantage, we continue the rollout of our KOFmmercial Digital Platform—now reaching more than 470,000 clients in over 2,600 routes across Mexico with encouraging volume, sales, and profit generation. Moreover, our Manufacturing and Distribution & Logistics centers of excellence will provide us with an integrated operational perspective to develop consistent capabilities, improve customer service, and optimize costs.

We further strengthen our footprint in Brazil through our agreement to acquire Vonpar. This strategically important franchise borders our territories in southern Brazil, enables us to serve more than 88 million consumers, and bolsters our leading position in the Coca-Cola system in one of the largest markets for Coke products in the world,” said John Santa Maria, Chief Executive Officer of the Company.

### **Consolidated Results**

*Comparable means, with respect to a year-over-year comparison, the change in a given measure excluding the effects of (i) mergers, acquisitions and divestitures, (ii) translation effects resulting from exchange rate movements and (iii) the results of hyperinflationary economies in both periods. From our operations, only Venezuela qualifies as a hyperinflationary economy. In our "as reported" figures, our Venezuelan operation's results were translated into Mexican pesos using the DICOM exchange rate published on September 30, 2016 of 658.8853 bolivars per US dollar.*

### **Comparable figures:**

**Revenues:** Comparable total revenues grew 5.6% to Ps. 39,826 million driven by average price per unit case growth across most of our operations and volume growth in Mexico and Central America.

**Transactions:** The comparable number of transactions outpaced volume growth, increasing 0.1% to 4,713.1 million. Transactions of our sparkling beverage portfolio grew 0.7% driven by the positive performance of Mexico, which increased 3.9% and Central America which grew 2.1%. Our still beverage category increased transactions by 0.3%, mainly driven by Mexico and Central America. Transactions of water, including bulk water, decreased 5.8% driven by declines across our operations.

**Volume:** Comparable sales volume declined 1.9% to 789.2 million unit cases in the third quarter of 2016 as compared to the same period in 2015. Our sparkling beverage portfolio declined 1.2% mainly driven by contractions in Brazil, Argentina and Colombia, which offset growth in Mexico and Central America. Volume of our bottled water portfolio decreased 5.4% driven by declines in Mexico, Brazil, Argentina and Colombia. Volume of our bulk water portfolio contracted 5.2% mainly driven by a decline of *Ciel* in Mexico and *Brisa* bulk water in Colombia. Our still beverage category grew 1.7% driven by *Vallefrut* orangeade, *del Valle* juice, *FUZE tea* and *Santa Clara* in Mexico, which offset declines of still beverages in Colombia, Brazil and Argentina.

**Gross profit:** Comparable gross profit grew 2.3% to Ps. 18,157 million with a gross margin contraction of 150 basis points in the period. In local currency, the benefit of lower PET prices, was offset by higher price of sugar and the depreciation of the average exchange rate of the Argentine peso and the Mexican peso as applied to our U.S. dollar-denominated raw material costs, in combination with an unfavorable currency hedging position in Brazil, as a result of the appreciation of the Brazilian real.

**Other operative expenses:** On a comparable basis, during the third quarter of 2016, the other operative expenses net line recorded an expense of Ps. 49 million, which compares to an expense of Ps. 345 million during the third quarter of 2015.

**Equity method:** The comparable reported share of the profits of associates and joint ventures line recorded a gain of Ps. 49 million in the third quarter of 2016, which compares to a loss of Ps. 126 million recorded in the third quarter of 2015, mainly due to a positive contribution of our stake in Coca-Cola FEMSA Philippines, Inc. and the non-carbonated beverage joint ventures in Mexico and Brazil, during the third quarter of 2016.

**Operating Income:** Comparable operating income grew 6.6% to Ps. 5,656 million with a 10 basis points margin expansion, reaching 14.2% in the third quarter of 2016.

**Operating cash flow:** Comparable operating cash flow declined 0.9% to Ps. 7,742 million with a margin contraction of 130 basis points to 19.4% in the third quarter of 2016. Amortization and other operative non-cash charges in the third quarter of 2015 were higher due to (i) the write-off of certain assets in Mexico, (ii) operating currency fluctuation effects and (iii) an equity method loss.

**Comprehensive financing result:** Our comparable comprehensive financing result in the third quarter of 2016 recorded an expense of Ps. 2,355 million, as compared to an expense of Ps. 2,742 million in the same period of 2015. During the third quarter of 2016 we recorded higher interest expenses as a result of the effect of the depreciation of the Mexican peso as applied to our interest payments denominated in U.S. dollars and Brazilian reals. Additionally, as compared to the previous year, we recorded a lower foreign exchange loss mainly driven by a lower depreciation of the Mexican peso as applied to our dollar denominated net debt position (Ps. 0.59 in the third quarter of 2016 vs Ps. 1.44 in the third quarter of 2015)

**Income tax:** During the third quarter of 2016, comparable income tax as a percentage of income before taxes was 30.4% as compared to 34.3% in the same period of 2015.

**Net income:** Comparable net controlling interest income grew 30.3% to Ps. 2,051 million in the third quarter of 2016, resulting in earnings per share (EPS) of Ps. 0.99 (Ps. 9.89 per ADS).

October 25, 2016

**As reported figures**

**Revenues:** Total revenues increased 12.5% to Ps. 42,351 million in the third quarter of 2016, supported by the positive translation effect resulting from the appreciation of the Brazilian real, and despite of the depreciation of the Venezuelan bolivar and the Argentine peso; all as compared to the Mexican peso.

**Transactions:** Reported total number of transactions declined 2.7% to 4,908.2 million in the third quarter of 2016 as compared to the same period in 2015.

**Volume:** Reported total sales volume declined 4.7% to 824.5 million unit cases in the third quarter of 2016 as compared to the same period in 2015.

**Gross profit:** Gross profit grew 5.3% to Ps. 18,877 million and gross margin declined 300 basis points to 44.6%.

**Operating Income:** Operating income grew 3.2% to Ps. 5,644 million and operating margin contracted 120 basis points to 13.3%.

**Operating cash flow:** Operating cash flow grew 2.4% to Ps. 8,180 million and operating cash flow margin declined 190 basis points to 19.3%.

**Net income:** Reported consolidated net controlling interest income increased 13.9% to Ps. 2,265 million in the third quarter of 2016, resulting in reported earnings per share (EPS) of Ps. 1.09 (Ps. 10.93 per ADS).

## Balance Sheet <sup>(1)</sup>

As of September 30, 2016, we had a cash balance of Ps. 20,105 million, including US\$ 650 million denominated in U.S. dollars, an increase of Ps. 4,116 million as compared to December 31, 2015. This difference was mainly driven by cash flow generation across our territories and the effect of the depreciation of the Mexican peso as applied to our U.S. dollar denominated cash position.

As of September 30, 2016, total short-term debt was Ps. 3,678 million and long-term debt was Ps. 69,808 million. Total debt increased by Ps. 6,756 million, compared to year end 2015 mainly due to the negative translation effect resulting from the depreciation of the end of period exchange rate of the Mexican peso as applied to our U.S. dollar and Brazilian real denominated debt position. Net debt increased by Ps. 2,640 million compared to year end 2015. Our total U.S. dollar denominated net debt position at the end of the third quarter was US\$565 million.

The weighted average cost of debt for the quarter, including the effect of debt swapped to Brazilian reals at a floating rate, was 9.2%. The following charts set forth the Company's debt profile by currency and interest rate type and by maturity date as of September 30, 2016.

**Operating income:** Comparable operating income in the division grew 12.4% to Ps. 3,855 million in the third quarter of 2016, with a margin expansion of 90 basis points to reach 17.1%. Our operating expenses in the division, as a percentage of sales, contracted 30 basis points.

### **YTD Consolidated Results**

*Comparable means, with respect to a year-over-year comparison, the change in a given measure excluding the effects of (i) mergers, acquisitions and divestitures, (ii) translation effects resulting from exchange rate movements and (iii) the results of hyperinflationary economies in both periods. From our operations, only Venezuela qualifies as a hyperinflationary economy. In our “as reported” figures, our Venezuelan operation’s results were translated into Mexican pesos using the DICOM exchange rate published on September 30, 2016 of 658.8853 bolivars per US dollar.*

### **Comparable figures:**

**Revenues:** Comparable total revenues grew 7.8% to Ps. 112,977 million driven by average price per unit case growth across most of our operations and volume growth in Mexico and Central America.

**Transactions:** The comparable number of transactions outpaced volume growth, increasing 3.1% to 14,157.9 million. Transactions of our sparkling beverage portfolio grew 3.0% driven by the positive performance of Mexico, which increased 6.0%; Central America, which grew 4.4%; and Colombia, which grew 2.1%. Our still beverage category increased transactions by 5.2%, mainly driven by Mexico, Colombia, and Central America. Transactions of water, including bulk water, grew 1.9% driven by the performance of Colombia, Mexico, Central America and Argentina.

**Volume:** Comparable sales volume grew 0.9% to 2,364.6 million unit cases in the first nine months of 2016 as compared to the same period in 2015. Our sparkling beverage portfolio grew 0.8% driven by Mexico, Central America and Colombia, which offset a contraction in Brazil and Argentina. Our still beverage category increased 5.6% driven by *Vallefrut, del Valle* juice and *Santa Clara* in Mexico. Volume of our bottled water portfolio remained flat. Volume of our bulk water portfolio increased 0.6%, despite of a decline of *Brisa* bulk water in Colombia.

**Gross profit:** Comparable gross profit grew 5.8% to Ps. 52,048 million with a gross margin contraction of 80 basis points in the period. In local currency, the benefit of lower PET prices, in combination with our currency hedging strategy, was offset by higher price of sugar and the depreciation of the average exchange rate of the Argentine Peso, the Colombian Peso, the Brazilian Real, and the Mexican Peso as applied to our U.S. dollar-denominated raw material costs.

**Other operative expenses:** On a comparable basis, during the first nine months of 2016, the other operative expenses net line recorded an expense of Ps. 124 million, which compares to an expense of Ps. 705 million during the same period of 2015.

**Equity method:** The comparable reported share of the profits of associates and joint ventures line recorded a gain of Ps. 318 million in the first nine months of 2016, which compares to a gain of Ps. 55 million recorded in the same period of 2015, mainly due to a positive contribution of our stake in Coca-Cola FEMSA Philippines, Inc..

**Operating Income:** Comparable operating income grew 9.5% to Ps. 16,396 million with a 20 basis points margin expansion, reaching 14.5% in the first nine months of 2016.

**Operating cash flow:** Comparable operating cash flow grew 6.6% to Ps. 22,247 million with a margin decline of 20 basis points as compared to the same period of 2015. Other operative non-cash charges in 2015 were higher as a result of (i) operating currency fluctuation effects and (ii) the write off of certain assets in Mexico.

**Comprehensive financing results:** Our comparable comprehensive financing result in the first nine months of 2016 recorded an expense of Ps. 6,515 million, as compared to an expense of Ps. 5,559 million in the same period of 2015. The difference was mainly driven by (i) a foreign exchange loss as a result of the depreciation of the Mexican peso as applied to our U.S. dollar-denominated net debt position and (ii) higher interest expenses in Mexican pesos, mainly driven by the effect of the depreciation of the Mexican peso as applied to our interest payments denominated in U.S. dollars and Brazilian reals.

**Income tax:** During the first nine months of 2016, comparable income tax as a percentage of income before taxes was 27.4% as compared to 31.6% in the same period of 2015. The lower tax rate in 2016 resulted from (i) certain tax efficiencies across our operations, (ii) a lower effective tax rate in Colombia and (iii) ongoing efforts to reduce non-deductible items across our operations.

**Net income:** Comparable net controlling interest income increased 6.2% to Ps. 6,601 million in the first nine months of 2016, resulting in earnings per share (EPS) of Ps. 3.18 (Ps. 31.84 per ADS).
