Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02 Results of Operations and Financial Condition

On May 1, 2008, Eastman Kodak Company issued a press release describing its financial results for its first fiscal quarter ended March 31, 2008. A copy of the press release is attached as Exhibit 99.1 to this report.

Within the Company's first quarter 2008 press release, the Company makes reference to certain non-GAAP financial measures including "Digital revenue", "Traditional revenue", and "Net cash generation", which have directly comparable GAAP financial measures. The Company believes that these measures represent important internal measures of performance. Accordingly, where these non-GAAP measures are provided, it is done so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year basis. Whenever such information is presented, the Company has complied with the provisions of the rules under Regulation G and Item 2.02 of Form 8-K. The specific reasons, in addition to the reasons described above, why the Company's management believes that the presentation of the non-GAAP financial measures provides useful information to investors regarding Kodak's financial condition, results of operations and cash flows are as follows:

Digital revenue / Traditional revenue - Due to the Company's ongoing digital transformation, management views the Company's performance based on digital revenue growth. Digital revenue growth forms the basis of internal management performance expectations and certain incentive compensation. Accordingly, the Company believes that the presentation of this information is useful to investors as it provides them with the same financial data that management uses to assess the Company's growth on a year-over-year and quarter-sequential basis, as the Company continues this digital transformation.

Net cash generation - The Company believes that the presentation of net cash generation is useful information to investors as it facilitates the comparison of cash flows between reporting periods. In addition, management utilizes this measure as a tool to assess the Company's ability to repay debt and repurchase its own common stock, after it has satisfied its working capital needs (including restructuring-related payments), dividends, capital expenditures, acquisitions and investments. The net cash generation measure equals net cash provided by continuing operations from operating activities, as determined under Generally Accepted Accounting Principles in the U.S. (U.S. GAAP), minus capital expenditures, plus proceeds from the sale of assets and certain businesses, plus investments in unconsolidated affiliates, and minus dividends. Net cash generation forms the basis of internal management performance expectations and certain incentive compensation. Accordingly, the Company believes that the presentation of this information is useful to investors as it provides them with the same data as management uses to facilitate their assessment of the Company's cash position.

Item 9.01 Financial Statements and Exhibits

(c) Exhibits

Exhibit 99.1	Press release issued May 1, 2008 regarding financial results for the first quarter of 2008	Furnished with this document
