Taro Provides Preliminary First Quarter 2009 Financial Results

Net Income Increased 47% Compared to the Same Period Last Year

HAWTHORNE, N.Y.--(BUSINESS WIRE)--May 22, 2009--Taro Pharmaceutical Industries Ltd. ("Taro," the "Company," Pink Sheets: TAROF) today provided information on its financial performance for the first quarter of 2009.

First Quarter 2009 Results

For the quarter ended March 31, 2009, Taro estimates net sales of approximately \$85 million, compared to \$78 million for the same quarter in 2008, an increase of 8%. Gross profit for the first quarter of 2009 was approximately \$47 million, or 55% of net sales, compared to \$41 million, or 52% of net sales, for same quarter in 2008, an increase of 14%. Net income for the first quarter of 2009 was approximately \$11 million, compared to \$7 million for the first quarter of 2008, an increase of 47%. Diluted earnings per ordinary share were \$0.27 for the first quarter of 2009, compared to \$0.19 for the first quarter of 2008.

The Company believes that results for the first quarter of 2009 demonstrate the continuation of the significant financial and operational improvements at the Company over the past nine quarters.

Balance Sheet

Cash and cash equivalents were \$81 million on March 31, 2009, compared to \$78 million on December 31, 2008. As of March 31, 2009, the Company's total debt was approximately \$184 million, compared to \$188 million on December 31, 2008. After accounting for the value of ongoing currency protection instruments and cash balances, net debt was \$97 million on March 31, 2009, compared to \$104 million on December 31, 2008. The Company believes, in the ordinary course, that it should have sufficient liquidity to meet its cash requirements for the foreseeable future, subject to the continuing support of its lenders. The Company continues to be out of compliance with certain financial reporting requirements in certain of its debt instruments due to the lack of audited financial statements and continues to discuss the situation with its lenders. Taro noted that it is current with its payments to lenders and that in the near term it does not foresee the need for additional sources of outside liquidity to fund its ongoing business operations.

Accounts receivable - trade at March 31, 2009 were approximately \$64 million, which represents 68 days sales outstanding, compared to \$71 million at December 31, 2008. Inventories were approximately \$67 million at March 31, 2009, compared to \$71 million at December 31, 2008.

Total liabilities were approximately \$269 million at March 31, 2009, compared to \$289 million on December 31, 2008. Total shareholders' equity at March 31, 2009 was approximately \$199 million, compared to \$191 million on December 31, 2008.

The Company cautioned that the financial information presented herein does not constitute complete financial information, has not been reviewed by its independent auditors and is subject to possible change. However, subject to the foregoing caveats, the Company believes that the information herein represents the best information currently available to Taro management.
