Sony Corporation

Issuance of New Shares, Secondary Offering of Shares to Cover Over-allotments, and Issuance of Convertible Bonds with Stock Acquisition Rights

Sony Corporation has decided to issue new shares, together with a secondary offering of shares to cover over-allotments, and to issue 130% callable unsecured convertible bonds with stock acquisition rights (6th series) (with an inter-bond pari passu clause). The Representative Corporate Executive Officer, President & CEO of Sony Corporation made the decision pursuant to a delegation of authority by the Board of Directors of Sony Corporation at a meeting held on Tuesday, June 23, 2015.

[Background of Fund Raising]

On February 18, 2015, Sony Corporation announced its “Mid-Term Corporate Strategy for FY2015 - FY2017” (the “Mid-Term Corporate Strategy”). At the time, Sony Corporation established three key principles for its business operations: (1) business management that emphasizes profitability, without necessarily pursuing volume, (2) business management that grants each business unit greater autonomy and mandates a focus on shareholder value, and (3) clearly defined positioning of each business within a broader business portfolio perspective. Through implementation of these strategies, Sony Corporation believes it is making steady progress toward its goal of transformation into a highly profitable enterprise.

Positioning Return on Equity, or ROE, as its primary key performance indicator, Sony Corporation is targeting achieving ROE of 10% or more for the Sony group in the fiscal year ending March 31, 2018, the final year of the Mid-Term Corporate Strategy.

Sony Corporation is progressing with its “profit generation and investment for growth” phase, which is the current focus of the Mid-Term Corporate Strategy, following the structural reform phase that was its focus through the fiscal year ended March 31, 2015. As part of this shift, Sony Corporation has decided to carry out this fund raising.

[Purpose of Fund Raising]

The purpose of this fund raising is to secure funds to invest in growth and to strengthen Sony Corporation’s financial base. In addition to securing funds for active and concentrated investment in businesses that are driving growth, Sony Corporation, by increasing shareholders’ equity, aims to secure its ability to make future further investment.

Sony Corporation plans to apply the funds raised by this issuance of new shares to expenditures for increasing the production capacity of, and research and development for, stacked CMOS image sensors in the Devices segment in order to further enhance profitability. In addition, Sony Corporation plans to apply the funds raised by the convertible bonds to capital expenditures for the Devices segment and repayment of indebtedness. By issuing convertible bonds on a zero-coupon basis, Sony Corporation intends to secure low-cost, long-term stable funding, while limiting dilution of its common stock at this time.

Sony Corporation will continue to strive to deliver attractive products, contents, and services that generate customer value and thus enhance its corporate value through the implementation of strategies and measures based on the Mid-Term Corporate Strategy.

1. Secondary offering to cover over-allotments

The secondary offering through over-allotments as explained in “I. 2. Secondary offering of shares of Sony Corporation (secondary offering to cover over-allotments)” above is a secondary offering by the designated Japanese Underwriter of shares of common stock of Sony Corporation in Japan to be conducted in connection with the Japanese Public Offering as stated in “I. 1. Issuance of new shares through the Japanese public offering and the international offering” above, taking into account market demand and other conditions, with up to 4,800,000 shares borrowed from certain shareholder(s) of Sony Corporation. The number of shares to be offered in the secondary offering through over-allotments is scheduled to be 4,800,000 shares; provided, however, as such scheduled number of shares is the maximum number of shares to be offered, such number may decrease or such secondary offering to cover over-allotments may be canceled entirely, depending on market demand and other conditions.

In connection with the secondary offering to cover over-allotments, Sony Corporation has decided, pursuant to the decision of the Representative Corporate Executive Officer, the President & CEO and on Tuesday, June 30, 2015, upon a delegation by the Board of Directors of Sony Corporation at the meeting held on Tuesday, June 23, 2015, that Sony Corporation will issue 4,800,000 shares of its common stock to the designated Japanese Underwriter (the “Allottee”) by way of third-party allotment (the “Capital Increase by way of Third-Party Allotment”), with the payment date set to be Tuesday, August 18, 2015, in order to allow for the Allottee to acquire the number of shares necessary to return the shares of Sony Corporation that were borrowed by the Allottee from certain shareholders of Sony Corporation, as mentioned above (the “Borrowed Shares”).

The Allottee may also purchase shares of common stock of Sony Corporation (“Syndicate Cover Transactions”) on the Tokyo Stock Exchange, Inc., up to the number of shares for the secondary offering to cover over-allotments, for the purpose of returning the Borrowed Shares. Such Syndicate Cover Transactions would be made during the period from (a) the day immediately following the last day of the subscription period for the Japanese Public Offering, and the secondary offering to cover over-allotments to (b) Tuesday, August 11, 2015 (the “Syndicate Cover Transaction Period”). All of the shares of common stock of Sony Corporation purchased by the Allottee through the Syndicate Cover Transaction Period will be used to return the Borrowed Shares. During the Syndicate Cover Transaction Period, the Allottee may decide not to conduct any Syndicate Cover Transaction or may decide to terminate the Syndicate Cover Transactions before the number of shares purchased reaches the number of shares for the secondary offering to cover over-allotments.

The Allottee may conduct stabilizing transactions along with the Japanese Public Offering and the secondary offering to cover over-allotments. The shares of common stock of Sony Corporation purchased through such stabilizing transactions may be used, in part or in whole, to return the Borrowed Shares.

With respect to the number of shares obtained by deducting (a) the number of shares purchased through stabilizing transactions and Syndicate Cover Transactions that are to be used to return the Borrowed Shares from (b) the number of shares for the secondary offering to cover over-allotments, the Allottee will accept the allotment under the Capital Increase by way of Third-Party Allotment and will purchase an equivalent number of shares of common stock of Sony Corporation. As a result, a part or all of the shares to be issued under the Capital Increase by way of Third-Party Allotment may not be subscribed for, which may result in a decrease in the determined number of shares to be issued under the Capital Increase by way of Third-Party Allotment, or in the cancellation of the issuance, due to forfeiture of the right to subscribe.

Note:

This press release does not constitute an offer of securities for sale in the United States. The securities referred to above have not been and will not be registered under the U.S. Securities Act of 1933 (the "Securities Act"). The securities referred to above may not be offered or sold in the United States absent registration or an exemption from registration under the Securities Act. The securities referred to above will not be publicly offered or sold in the United States.

In the event that the Allottee accepts the allotment under the Capital Increase by way of Third-Party Allotment, it will make payment for the number of shares to be purchased with the fund obtained from the secondary offering to cover over-allotments.

The transactions stated above will be made by the Allottee after consultation with the other Japanese Underwriters.

(Note 1) This amount assumes that the option set forth in Paragraph (1)(iii) of “I. 1.
